# Actuarial Science

**Cameron Glead**

Consulting Actuary, Milliman Seattle Health

Join us for an insightful exploration into Actuarial Science!

The presentation begins with an overview of the actuarial career, including what an actuary is and does. We will look at a real-world mathematical example in actuarial work. Finally, we will discuss the steps to prepare for a career as an actuary, including navigating the application process.

Feel free to ask questions and participate throughout the presentation.
