- Zimmerly, Lauralee**, Associate Lecturer, Theatre and Dance. B.A. 1978, University of the Pacific; M.A. 1990, University of California, Los Angeles. (1999)
- Zollinger, Jann B.**, R.D.H., Clinical Assistant Professor, Dental Hygiene. B.A. 1977, Idaho State University. (1990)
- Zydek, Dawid**, Assistant Professor, Electrical Engineering. PgCert 2005, Coventry University, UK; M.Sc. 2005, Wroclaw University of Technology, Poland; Ph.D. 2010, University of Nevada, Las Vegas. (2011)

# Idaho State University Administration

## Idaho State University Administration

### Office of the President

Name	Title	Phone Number
Arthur C. Vailas, Ph.D.	President of the University	(208) 282-3440
David E. Alexander	Office of General Counsel	(208) 282-3234
Jeffrey Tingey	Director, Intercollegiate Athletics	(208) 282-4064

### Academic Affairs

Name	Title	Phone Number
Laura Woodworth-Ney	Provost and Vice President for Academic Affairs	(208) 282-4024
Richard Brey	Interim Dean, College of Science and Engineering	(208) 282-4539
Karl Bridges	Interim Dean, University Library	(208) 282-3045
Sari Byerly	Director, TRIO Student Services	(208) 282-3242
Paul S. Cady	Dean, College of Pharmacy	(208) 282-2175
Lyle W. Castle	Vice Provost	(208) 282-3218
Alison K. Crane	Director, Student Services and Enrollment Planning, Idaho State University-Meridian	(208) 373-1706
Todd Devries	Director, The ADA & Disabilities Resource Center	(208) 282-3599
Maria Fletcher	Director, International Programs and Global Initiatives	(208) 282-5304
Randy Gaines	Chief Information Officer	(208) 282-2499
Selena Grace	Associate Vice President for Institutional Effectives	(208) 373-1874
Linda C. Hatzenbuehler	Associate Vice President and Executive Dean, Division of Health Sciences	(208) 282-4899
Deborah L. Hedeem	Dean, College of Education	(208) 282-3259
JoAnn Hertz	Director, Central Academic Advising	(208) 282-3277
Cynthia Hill	Executive Director, Student Success Center	(208) 282-4945
Jeff Hough	Interim Director, Division of Continuing Education and Conference Services	(208) 282-1059
Richard Jacobsen	Director of Strategic Management	(208) 373-1792
Margaret Johnson	Associate Vice President for Academic Affairs	(208) 282-3520
Bessie Katsilometes	Dean, Academic Programs, Idaho State University-Meridian	(208) 373-1708
Herbert Maschner	Director, Idaho Museum of Natural History	(208) 282-5417
Laura McKenzie	Registrar	(208) 282-2661
Vince Miller	Director, Institutional Research	(208) 282-1045
Mary Nies	Dean, School of Nursing	(208) 282-2443
Thomas Ottaway	Dean, College of Business	(208) 282-2601
Scott Rasmussen	Dean, College of Technology	(208) 282-3265
Chelsie Rauh	Director, Early College Programs	(208) 282-2633
Kandi Jo Turley-Ames	Founding Dean, College of Arts and Letters	(208) 282-3053
Chris Vaage	Director, University Programs, Idaho State University-Twin Falls	(208) 282-4840
Cornelis J. Van der Schyf	Dean, Graduate School	(208) 282-2150

### Research and Economic Development

Name	Title	Phone Number
Howard Grimes	Vice President for Research and Economic Development	(208) 282-3134
Deb Easterly	Executive Director, Research Integrity	(208) 282-2618

Dave Harris	Executive Director, Research Development	(208) 282-2592
Monica Huyg	Director, Contracts	(208) 282-3478

## Finance and Administration

Name	Title	Phone Number
James A. Fletcher	Vice President for Finance and Administration	(208) 282-3540
Peter "Mac" Hart	Assistant Vice President/Director, Research Park	(208) 282-4117
David Buck	Director, Purchasing Services	(208) 282-3111
Roger Egan	Director, Financial Policies, Procedures, and Special Projects	(208) 282-2512
Randy Gaines	Chief Information Officer	(208) 282-2499
Stacey Gibson	Director, Equal Opportunity, Affirmative Action, and Diversity	(208) 282-3973
Leo Herrman	Budget Officer	(208) 282-4277
James Martin	Director, Financial Aid and Scholarships	(208) 282-2341
Lynette Mitchell	Assistant Vice President for Finance/ Administration and Academic Affairs	(208) 282-4380
Phillip M. Moessner	Associate Vice President for Facilities Services	(208) 282-4229
Brian Sagendorf	Director, Human Resources	(208) 282-2517
(Vacant)	Director, Anderson Gender Resource Center	(208) 282-2805

## University Advancement

Name	Title	Phone Number
Kent M. Tingey, D.A.	Vice President for University Advancement	(208) 282-3198
George Casper	Director, Event Management	(208) 282-3398
K.C. Felt	Director, Alumni Relations	(208) 282-3755
Kent S. Kunz	Director, Government Relations	(208) 282-2900
Adrienne King	Director, Marketing and Communications	(208) 282-4407
Scott Turner	Associate Vice President for Development	(208) 282-3470

## Student Affairs

Name	Title	Phone Number
Patricia Smith Terrell, Ed.D.	Vice President for Student Affairs	(208) 282-2315
Brooke Barber	Director, Student Orientation, Leadership & Service	(208) 282-3704
Ches Barnes	Director, Bennion Student Union	(208) 282-7865
Lance Erickson	Interim Director, Career Center	(208) 282-2380
Todd Johnson	Director, Veterans' Sanctuary	(208) 282-4245
Matthew Kroeger	Director, Admissions and Admissions Visitor Center	(208) 282-2475
Doug Milder	Director, Campus Recreation Department	(208) 282-3151
Jerry Miller	Director, Student Media	(208) 282-4812
Don Paulson	Director, Counseling and Testing Services	(208) 282-2130
Lowell Richards	Assistant Vice President for Student Affairs, Idaho State University Student Unions and Student Activities	(208) 282-2427
Jane Coe Smith	Director of Student Life	(208) 282-2794
Ron Solbrig	Director, Student Health Center	(208) 282-2330
Craig Thompson	Director, University Housing	(208) 282-2120
Kerry Williamson	Director, Early Learning Center	(208) 282-2769

## State Board of Education

Name	Title
Don Soltman	President

Emma Atchley	Vice President
Bill Goesling	Member
Rod Lewis	Secretary
Tom Luna	State Superintendent of Public Instruction, Ex-officio Member
Milford Terrell	Member
Richard Westerberg	Member

## Faculty Emeriti

### Faculty Emeriti

**Aho, James A.**,\* Professor, Sociology, Social Work and Criminal Justice. 1969-2010

**Akersten, William A.**, Associate Professor, Biological Sciences and Geosciences; Curator, Vertebrate Paleontology, Idaho Museum of Natural History. 1985-2009

**Anderson, Robert C.**, Professor, Zoology. 1969-2007

**Ashton, Carol Ann**,\* Associate Professor, Nursing. 2001-2011

**Bain, Barbara A.**, Director of Undergraduate Studies and Professor, Communication Sciences & Disorders, and Education of the Deaf. 1989-2004

**Balsley, Ronald D.**, Professor, Marketing. 1978-2005

**Beebe, Thomas G.**, Instructor, Electronics Technology. 1957-1989

**Beezhold, Wendland**, Research Professor, Physics. 2000-2010

**Benintendi, Wilma**, Associate Professor, Education. 1967-1984

**Bielby, Victor C.**, Instructor, Civil Engineering Technology. 1966-1993

**Black, James M.**, Instructor, Electronics Technology. 1963-1993

**Bliss, Traci**, Professor, Educational Foundations. 1996-2008

**Blount, Charles W.**, Professor, Geology. 1975-1990

**Bobell, John LV**, Professor, Human Resource Training and Development. 1990-2002

**Boes, Richard F.**, Professor, Accounting. 1977-2011 Awaiting confirmation

**Booher, Shirley (Deagle)**, Instructor, Office Technology. 1964-1996

**Bowen, Denise M.**,\* Professor, Dental Hygiene. 1976-2010

**Bowen, Richard L.**, University President. 1985-2005

**Bowmer, Richard G.**, Professor, Botany. 1961-1997

**Braun, Loren**, Professor, Chemistry. 1957-1989

**Brown, Donald D.**, Professor, Art. 1956-1994

**Brown, Norris C.**, Instructor, Diesel Technology. 1972-1997

**Browning Jr., Wallace E.**, Professor, Physical Education. 1963-1990

**Bryan, Clifford E.**, Professor, Sociology. 1971-2001

**Burns, Mary Jane**,\* Co-Director, Women Studies Program; Associate Professor, Political Science. 1985-2006

**Cantrill, Dante K.**,\* Professor, English. 1974-2005

**Chambers, Darold**, Registrar. 1961-1990

- Christensen, Calvin D.**, Instructional Coordinator, Laser/Electro-Optics Technology. 1971-2000
- Christie, Carole R.**, Professor, Dental Hygiene. 1979-2011
- Coffland, Jack A.**, Professor, Education; Coordinator, Center for Accountability Systems (Education). 1992-1999.
- Cowles, Lois Anne**, Associate Professor, Sociology, Social Work, and Criminal Justice. 1993-2003
- Cresswell, Donald J.**, Associate Professor, Mathematics. 1968-2000
- Cullen, Carol**, Instructor, Office Occupations. 1963-1990
- Davis, Everett Eugene (Gene)**, Professor, Educational Leadership; Director, Intermountain Center for Education Effectiveness. (1992-2007)
- Dial, Theresa Gail**, Professor, Art. 1974-2008
- Dolsen, Arthur**, Professor, Foreign Languages. 1983-2009
- Downing, Joan K.**, Public Services Director, Library (equivalent rank, Professor). 1969-1986
- Dundas, Mary L.**,\* Director, Dietetics; Professor, Health and Nutrition Sciences; Registered Dietician. 1996-2009
- Eastman, Philip**, Vice President for Financial Services. 1956-1988
- Edgar, Thomas E.**, Professor, Counselor Education. 1966-1987
- Edwards, Marilyn**, Instructional Program Coordinator, Culinary Arts Technology. 1966-1997
- Eilander, Leann**, Senior Instructor, General Education. 1981-2007
- Ekstrom, Grant**, Instructor, Diesel/Diesel Electric Technology. 1973-1996
- Enloe, Linda J.**,\* Associate Professor, Psychology. 1974-2007
- Faler, Kenneth T.**, Professor, Chemistry and Physics. 1967-1991
- Farrell, Larry D.**,\* Professor, Microbiology. 1972-2008
- Feige, Gary**, Coordinator and Senior Instructor, Machining Technology. 1977-2003
- Fontenelle, L. Judy**, Professor, Biomedical and Pharmaceutical Sciences. 1969-1998
- Ford, Lawrence C.**,\* Associate Vice President for Special Programs and Enrollment Management; Associate Professor, Mathematics. 1984-2009
- Fortsch, David E.**, Senior Lecturer, Geosciences 1974-2004
- Foster, Richard H., Jr.**, Professor, Political Science. 1973-2008
- Francis, Jr., Charles A.**, Associate Professor, Radiographic Science. 1987-2011
- Frazier, Timothy H.**,\* Professor, Mass Communication. B.M.E. 1970, Vanderbilt University; M.F.A. 1985, University of Florida. 1986-2013
- Galizia, Virginia**, Associate Dean, College of Pharmacy; Professor, Pharmacy Practice and Administrative Sciences. 1996-2002
- Gantt, Gamewell D.**,\* Professor, Management. 1982-2004
- Geisler, Don**, Instructor, Auto Collision Repair and Refinishing. 1971-1992
- George, Thom Ritter**, Professor, Music. 1983-2008
- Gibson, Philip J.**, Department Chair, Instructor, Business and Service.. 1981-2000
- Goff, Glen F.**, Instructor, Electronics Technology. 1960-1989
- Goldbeck, H. Janne**, Professor, English. 1976-2006
- Gravatt, Darwin**, Instructional Program Coordinator, Auto Collision, Repair and Refinishing. 1974-1997
- Green, Joel N.**, Instructor, Diesel/Diesel Electric Technology. 1975-2001
- Greenwood, Audrey**, Professor, Foreign Languages. 1957-1978

**Griffith, John S.**, Professor, Biology. 1977-1999

**Hansen, Vaughn**, Coordinator and Senior Instructor, Electromechanical Design Drafting Technology. 1970-2005

**Harmon, J. Frank**, Director and Research Professor, Idaho Accelerator Center; Professor, Physics. 1969-2008

**Head, Ray T.**, Instructor, Diesel/Diesel Electronics. 1967-1992

**Herzog, Anita**, Professor, Dental Hygiene. 1978-2008

**Hill, Linda Charlotte**, Associate Professor, Mathematics. 1976-2006

**Hitchcock, Leonard A.**, Associate University Librarian, Collection Development (equivalent rank, Professor). 1984-2006

**Hjelm, Victor S. "Butch," Dean**, College of Arts and Sciences; Professor, Political Science. 1968-2001

**Hofman, Cornelius A.**, Professor, Economics. 1960-1997

**Holmer, Richard N.**,\* Professor, Anthropology. 1983-2011

**Holte, Karl E.**, Professor, Botany; Curator, Museum. 1965-1997

**House, Edwin W.**, Chief Research Officer; Professor, Physiology. 1966-2004

**House, Janet G.**, Associate Professor, Mass Communication. 1985-2002

**Huck, Wilbur**, Associate Professor, English. 1957-1990

**Hughes, Scott S.**,\* Interim Dean, College of Arts and Sciences; Professor, Geosciences. 1991-2010

**Humphrey, Fowler Charles "Chuck,"** Professor, Human Resource Training and Development. 1992-2007

**Hurley, Stephen C.**, Professor, Pharmacy Practice and Administrative Sciences. 1976-2006

**Inouye, Richard S.**,\* Professor, Ecology. 1987-2010

**Isacson, Eugene I.**, Professor, Biomedical and Pharmaceutical Sciences. 1969-1998

**Jacobson, Grace**, Associate Professor, Nursing. 1981-2002

**Jenkins, Robert M.**, Coordinator and Senior Instructor, Automotive Technology. 1974-2005

**Jensen, Jay**, Dean of Students. 1956-1989

**Joe, Victor C.**, Department Chair and Professor, Psychology. 1969-2003

**Johnson, Frank J.**, Instructor, Civil Engineering Technology. 1966-1993

**Johnson, Mark A.**, Professor, Management. 1987-2009

**Jones, Gordon F.**, Associate Dean, School of Applied Technology. 1968-1995

**Kawamura, Carole J.**, Assistant Professor, Dental Hygiene. 1975-2002

**Kearns, Richard L.**,\* Director of Undergraduate Programs and Professor, Health and Nutrition Sciences. 1988-2004

**Kidd, Paul F.**, Instructor, Graphic Arts. 1965-1995

**Kijinski, John L.**, Dean, College of Arts and Sciences; Professor, English. 1985-2007

**Kilpatrick, John A.**, Professor, Management. 1977-2006

**King, Kathleen**, Associate Professor, English. 1984-2007

**King, William L.**, Professor, English and Philosophy. 1960-1994

**Kirkpatrick, David**, Professor, Military Science, Director of Housing. 1951-1955, 1958-1981

**Kratz, Lawrence J.**,\* Professor, Mathematics. 1966-2010

**Kritsky, Delane C.**, Associate Dean, College of Health Professions; Professor, Health and Nutrition Sciences and Biological Sciences. 1974-2008

- Laurence, Dennis**, Professor, English and Philosophy. 1971-1992
- LeBlanc, Ronald P.**, Professor, Marketing; Adjunct Faculty, Sport Science and Physical Education. 1980-2006
- Lerch, Robert**, Professor, Education. 1971-1995
- Linder, Allan**, Professor, Biological Sciences. 1963-1988
- Lloyd, Arthur P.**, Professor, Counseling. 1967-2001
- Lloyd, Marcia L.**, Professor, Dance. 1977-2001
- Longmore, Dean R.**, Professor, Department of Finance. 1978-2001
- Lu, Joseph**, Professor, Libraries. 1972-1992
- Luckey, Angela S.**, Associate Professor, Educational Foundations. 1996-2009
- Marcum, R. Laverne**, Professor, Education. 1969-1984
- Marley, Bert**, Professor, History. 1967-1989
- Martindale, Charlene**, Associate Professor, English/Instructor-Coordinator, Business Communication. 1970-1999
- Matteson-Howell, Janice**, Chair, Technical Department. 1984-2007
- Matthews, Leroy J.**, Professor, Psychology. 1968-2000
- Mauch, John E.**, Professor, Journalism. 1971-1999
- Maughan, Ralph B.**,\* Professor, Political Science. 1971-2007
- McCune, Joan H.**, Professor, Microbiology. 1980-2001
- McCune, Ronald W.**, Professor, Biochemistry. 1970-2004
- McGee, Shanna**, Professor, Psychology. 1964-1985
- McLaughlin, Diana**, Associate Department Chair; Assistant Professor, Nursing. 1987-2007
- McRoberts, Jacqueline**, Associate Professor, Nursing. 1981-2005
- Merrill, Clifton L.**, Master Instructor, Civil Engineering Technology. 1985-2011
- Merrill, Donald**, Master Instructor, College of Technology. 1971-2008
- Millner, William**, Professor, Business. 1971-1983
- Minshall, G. Wayne**, Professor, Zoology and Ecology. 1966-2003
- Morris, Lloyd E. "Mike,"** Professor, Health and Nutrition Sciences. 1976-2001
- Mullin, Anne E.**, Associate Professor, English and Philosophy. 1990-2000
- Myers, Rosemary N.**, Director, Individualized Education Programs; Assistant Professor, English and Philosophy. 1960-1999
- Newsome, Jack D.**,\* Associate Professor, Educational Foundations. 1997-2011
- Nickisch, Craig W.**, Professor, Foreign Languages. 1988-2004
- Nilson, Douglas C.**, Associate Professor, Political Science. 1989-2009
- Nitse, Philip S.**,\* Professor, Marketing. 1993-2010
- Noakes, Sandra D.**, Assistant Professor, Physical Education. 1966-2002
- Ore, H. Thomas**, Professor, Geology. 1963-1997
- Owens, John "Jack" B.**,\* Professor, History. 1975-2011
- Paarmann, Carlene S.**,\* Professor, Dental Hygiene. 1976-2011

- Parker, Barry R.**, Professor, Physics. 1967-1997
- Parker, Stephen K.**, Associate Professor, Mathematics. 1972-2002
- Pawar, Sheelwant B.**, Professor, Management. 1967-1999
- Pehrsson, Robert S.**,\* Professor, Teacher Education. 1980-2003
- Peña, Sally J.**,\* Professor, Educational Foundations. 1990-2010
- Pierson, Donald S.**,\* Professor, Sociology, Social Work and Criminal Justice. 1985-2011
- Pincock, John E.**, Instructor, Diesel Technology. 1970-1996
- Priddy, Kathleen S.**, Senior Instructor, Office Technology. 1976-2005
- Pumphrey, Lela D. "Kitty,"** Professor, Accounting. 1988-2006
- Rankin, Roger A.**,\* Professor, Educational Foundations. 1981-2011
- Ronald, Bruce P.**, Professor, Chemistry. 1968-2001
- Rose, Fred L.**, Professor, Biological Sciences. 1969-2000
- Rost, Robert**, Senior Instructor, Trade and Industrial Department. 1972-2007
- Rucker, Jack**, Director, School of Vocational-Technical Education. 1955-1976
- Ruckman, JoAnn S.**, Co-Director, Women Studies Program; Professor, History. 1974-2001
- Sagness, Richard L.**, Director, Office of Clinical Experiences and Student Services; Professor, Teacher Education. 1979-1999
- Sahlberg, Jeanne H.**, Instructor, Office Occupations. 1967-1990
- Salzman, Stephanie**, Professor, Teacher Education. 1986-2002
- Sato, Alyce**, Associate Professor, Nursing. 1976-2004
- Schneider, Audrey D. (Weston)**, Associate Professor, Speech-Language Pathology. 1990-2005
- Schow, H. Wayne**, Professor, English and Philosophy. 1967-1999
- Schow, Ronald L.**, Professor, Audiology. 1975-2007
- Schwendig, Warren Lee**, Professor, Marketing. 1968-2003
- Scott, Darrell F.**, Assistant Dean, College of Business; Senior Lecturer, Marketing. 1970-2007
- Seeley, Rodney R.**,\* Professor, Physiology. 1973-2008
- Sharp, William T.**, Professor, Pharmacy Practice and Administrative Sciences. 1975-2000
- Smedley, Thayne**, Professor, Audiology. 1983-2001
- Smith, Denzell S.**, Professor, English and Philosophy. 1972-1991
- Smith, Jill M.**, Assistant Professor, Accounting. 1986-2009
- Spadafore, Gerald J.**, Professor, Teacher Education. 1969-1999
- Spall, Richard D.**, University Ombudsman; Professor, Pathology. 1981-2003
- Spiegel, Kathleen**, Clinical Professor, Clinical Laboratory Science. 1991-2007
- Standley, Mike**, Director of Registration and Records. 1971-1999
- Stanek, Alan E.**, Chair and Professor, Music. 1976-2001
- Stenson, Carol M.**, Professor, Special Education. 1978-2003
- Stephens, Trent D.**, Professor, Biology. 1981-2011

**Stocks, Anthony**, Chair and Professor, Anthropology. (1979-2006)

**Stone, Jack C.**, Instructor, Automotive Technology. 1970-1999

**Stratton, William E.**,\* Professor, Management. 1974-2011

**Streubel, Donald P.**, Professor, Biology. 1974-1999

**Strommen, Dennis**, Department Chair and Professor, Chemistry. 1992-2004

**Sutcliffe, Roy M.**, Instructor, Electronics Technology. 1958-1989

**Sutter, Jr., E. John**, Professor, Chemistry. 1971-2004

**Swanson, Merwin**, Professor, History. 1972-2002

**Sweat, Robert C.**, Coordinator and Senior Instructor, Computer/Business Equipment Technician Program. 1978-2004

**Tate, Paul D.**, Dean, Graduate School; Professor, English and Philosophy. 1976-2006

**Thomas, Victor**, Instructor, Electrical Technology. 1970-1993

**Trinklein, Michael J.**, Professor, Mass Communication. 1984-2004

**Trost, Charles H.**, Professor, Biological Sciences; Curator, Museum. 1968-2000

**Tullis, James**, Professor, Biological Sciences. 1965-1996

**Urfer, Alexander G.**,\* Professor, Physical and Occupational Therapy. 1977-2011

**Vegors, Stanley**, Professor, Physics. 1958-1992

**Vittetoe, Dennis**, Master Instructor, Electronic Systems Technology. 1976-2003

**Volkers, Ray**, College of Technology Senior Instructor, Computer Software Development Technology. 1982-1987; 1990-2003

**Walsh, Dennis M.**, Professor, English and Philosophy. 1979-2004

**Walsh, Mary Ellen**,\* Professor, English and Philosophy. 1971-2002

**Watters, Ronald**, Senior Lecturer, Sport Science and Physical Education. 1974-2007

**Watts, Robert T.**, Associate Professor, Computer Information Systems. 1978-1999

**Wells, Gary R.**,\* Professor, Finance. 1965-2009

**Westphal, Jonathan A. G.**,\* Professor, English and Philosophy. 1981-2011

**Weston, Audrey**, Professor,

**Wiegand, Gayl H.**, Professor, Chemistry. 1965-2004

**Wilson, Albert E.**,\* Professor, Engineering and Nuclear Science, 1966-1995

**Wissa, Maher F.**, Professor, Geomatics Technology. 1993-2008

## **Intercollegiate Athletics-Directors and Coaches**

### **Intercollegiate Athletics-Directors and Coaches**

**Bailey, Donald Lee, Jr.**, Associate Head Coach / Offensive Coordinator / Quarterbacks, Football

**Beall, Stephanie**, Assistant Coach, Soccer

**Brock, Thomas**, Assistant Athletic Trainer

**Campbell, Robert M.**, Head Coach for Strength & Conditioning

**Collins, Jay**, Assistant Coach, Men's Basketball

**Cooper, Roger**, Running Backs Coach, Football

**Cowles, Parker**, Assistant Coach, Cross Country

**Cross, Sheldon**, Inside Wide Receivers Coach, Football

**Dinkins, Laura**, Assistant Coach, Women's Basketball

**Erickson, Michael**, Assistant Coach, Golf

**Evans, William**, Head Coach, Men's Basketball

**Ferriter, Mike**, Assistant Coach, Football

**Finch, Daryl**, Assistant Athletic Trainer

**Fisher, Keisha**, Assistant Coach, Volleyball

**Freeman, Quinton**, Director of Football Academics

**Gianotti, Tony**, Assistant Coach, Women's Basketball

**Gibson, Allison, R.**, Head Coach, Women's Soccer

**Goeltz, Robert**, Head Coach, Tennis

**Gorny, Allison M.** Assistant Coach, Volleyball

**Graziano, Nancy**, Associate Athletic Director for Student Support Services and Senior Woman Administrator

**Hooper, Kellie**, Head Coach, Golf

**Hussman, Caleb**, Assistant Coach, Soccer

**Janssen, Brian**, Head Coach, Cross Country / Assistant Coach, Track and Field

**Kramer, James**, Assistant Athletic Director for Financial Services

**Kramer, Michael**, Head Coach, Football

**Manchan, Kolissa**, Head Coach, Dance

**McMillan, Jay**, Assistant Athletic Director for Major Gifts

**Nielsen, Dave**, Head Coach, Track and Field

**Nkele, Kemie**, Assistant Coach, Women's Basketball

**Payne, Brandon**, Assistant Athletic Trainer

**Rodel, Mark G.**, Assistant Coach, Tennis

**Rogers, Jessica**, Assistant Coach, Softball

**Schaack, Steve**, Assistant Athletic Director for Media Relations

**Sobolewski, Seton**, Head Coach, Women's Basketball

**Stuart, Matthew C.**, Assistant Athletic Director for Academics

**Stucki, Misty D.**, Head Coach, Cheerleading

**Teichert, Chad**, Head Coach, Volleyball

**Toone, Spencer**, Assistant Coach, Football

**Troxell, Matthew**, Inside Wide Receivers Coach / Special Teams, Football

**Walker, Zachary**, Interim Director of Compliance

**Walsh, Timothy**, Assistant Coach, Men's Basketball

**Ward, Andy**, Assistant Coach, Men's Basketball

**Wotowey, Jodi**, Head Athletic Trainer

**Wright, Julia**, Head Coach, Softball

**Yizar, James 'Bird'**, Assistant Athletic Director for Student Success

## UNIVERSITY

### Graduate Catalog 2014-2015

### Volume 68

Dr. Cornelis Van der Schyf, Dean  
 Graduate School  
 Idaho State University  
 921 South 8th Avenue, Stop 8075  
 Pocatello, ID 83209-8075  
 (208) 282-2150 FAX (208) 282-4847  
 Museum Building, 4th Floor, Room 401

Idaho State University subscribes to the principles and laws of the State of Idaho and federal government, including applicable executive orders pertaining to civil rights, and all rights, privileges, and activities of the University are made available without regard to race, creed, color, sex, handicap, or national origin. The University is an Equal Opportunity and Affirmative Action employer. Evidence of practices which are not consistent with such policies should be reported to the Office of the President of the University.

#### Policy Statement Concerning Graduate Catalog Contents

Catalogs, bulletins, course or fee schedules shall not be considered as binding contracts between Idaho State University and students. The University reserves the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fees schedule; (c) change the academic calendar; (d) change admissions and registration requirements; (e) change the regulations and requirements governing instruction in, and graduation from, the University and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine, and shall apply not only to prospective students but also to those who are matriculated at the time in the University. When economic and other conditions permit, the University tries to provide advance notice of such changes.

Students enrolled in a program that is closed, relocated, or discontinued should be given notice of the closure as soon as is practical. Notwithstanding any other provision of State Board of Education policy, University policy, or University catalog statements to the contrary, arrangements should be made for enrolled students to complete affected programs in a timely manner and with minimum interruptions. When there is a similar program within the institutions governed by the Board, an affected student will be provided with information on transferring to that program, although admission to any such program is contingent upon the availability of a position and the student meeting all applicable admission requirements. If there is no similar program available within the institutions governed by the Board or the student is not able to gain admission to a similar program, the University will make reasonable efforts to place the student in a related or comparable program within the University. If none is available, the University will make reasonable efforts to assist the student in locating to another program at the University or elsewhere for which he or she is qualified.

#### Postmaster

Postage paid at Pocatello, Idaho. The Idaho State University Graduate School Catalog is published annually; copies are available through the Graduate School, Idaho State University, 921 South 8th Avenue, Mail Stop 8075, Pocatello, Idaho 83209-8075.

# Summary of Procedures for Graduate Degrees

<u>Procedure</u>	<u>Under Direction of</u>	<u>Date</u>
Application & Fee	Graduate School	No later than April 1 for summer semester enrollment; April 1 for fall semester enrollment; and November 1 for spring semester enrollment (or the following Monday, should these dates fall on a weekend).
Selection of an Advisor	Department Chair	Varies by program
Selection of a Committee	Advisor	Varies by program
Preliminary Examinations	Department Chair or Advisor	Not required by some programs
Final program of Study/Admission to Candidacy	Advisor, Department Chair, Dean of Academic College/Division, Dean of Graduate School	Submit prior to the semester of intended date of graduation. Classified status required.
Comprehensive Examinations	Advisor or Department Chair	Varies by program
Application for Graduation	Graduate School	Not later than the 2nd week of the final semester. For summer graduation, June 15th.
Thesis or Dissertation Final Draft to Committee	Student and Advisor	Not later than 2 weeks prior to oral defense.
Thesis or Dissertation Defense	Advisor, Committee, and Dean of Graduate School	Not later than 2 weeks prior to end of final semester.
Oral Examination (Non-Thesis)	Advisor, Committee, and Dean of Graduate School	Not later than 2 weeks prior to end of final semester.
Payment of Application Fee for Graduation/Diploma	Office of Registrations/Records	Not later than 2 weeks prior to end of final semester.
Submission of Final Thesis/Dissertation	Dean of Graduate School	Within 2 weeks following oral examination for thesis/dissertation copies.

## Accreditation

**Regional Accreditation:** Idaho State University is accredited by the Northwest Commission on Colleges and Universities. Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation. Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution. Inquiries regarding an institution's accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

Northwest Commission on Colleges and Universities  
8060 165th  
Avenue N.E., Suite 100  
Redmond, WA 98052 (425) 558-4224 [www.nwccu.org](http://www.nwccu.org)

**Specialized Accreditation:** In addition, many undergraduate and graduate programs maintain specialized professional accreditation. The Office of Institutional Research maintains the most up-to-date list of ISU programs with specialized accreditation.

# Graduate School

## Idaho State University Vision Statement

The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

## Graduate School Mission Statement

The Graduate School promotes and supports excellence in graduate education. In realizing this mission, the Graduate School acts to recruit, support, retain and matriculate scholars, researchers and practitioners educationally empowered as critical thinking citizens and agents of innovation, opportunity and change.

## Graduate School Vision Statement

The Graduate School aspires to be a leading driver of high quality graduate education, and is dedicated to the embodiment of academic and creative excellence, resulting in scholars, researchers and practitioners committed to and capable of continually broadening the scope of academic discourse, discovery and innovation.

## Graduate School Informed Beliefs

- a. Integrity
- b. Inquiry and Innovation
- c. Academic and Creative Excellence
- d. Collaboration
- e. Social Justice Awareness & Advocacy
- f. Inclusiveness
- g. Interdisciplinary Research
- h. Lifelong Learning
- i. Quality Customer Service

## Admission

Idaho State University invites applications for admission to Graduate School from students holding baccalaureate degrees or higher from any regionally accredited colleges or universities in the United States, or with equivalent preparation acquired in another country. Prospective applicants may apply as degree-seeking or non-degree-seeking students. Non-degree-seeking students include those seeking certification, professional growth, or strengthened backgrounds for various professional and industrial occupations.

### Admission Requirements for Doctoral Programs

Admission to doctoral programs varies depending upon the program of study. Potential applicants are encouraged to read the appropriate sections of the Graduate Catalog and/or check Department websites for individual program variations. Please see individual department sections for GPA & GRE requirements for doctoral programs.

### Admission Requirements for Other Programs (e.g., Master's degrees)

Degree-seeking students must meet the following requirements:

1. A baccalaureate degree or higher from a college or university **regionally accredited** in the United States or its equivalent from a school in another country. **Official transcripts must be sent either in print-ed form or electronically from the institution(s) directly to the Graduate School (students can not mail in their transcripts).** **Email address: graddean@isu.edu. Mailing address: Graduate School, Idaho State University, 921 S. 8th Ave, Stop 8075, Pocatello, ID 83209-8075.**
2. In instances where a standardized test is required, official GRE (Graduate Record Examination)/MAT (Miller Analogies Test)/GMAT (Graduate Management Admissions Test) score reports are required. Student copies are not acceptable. To register for the GRE, contact either the GRE-ETS, Box 6000, Princeton, New Jersey, 08541-6000, <http://www.ets.org/gre> or the ISU Counseling and Testing Center (208)282-2130. To register for the GMAT/MAT (for GMAT: <http://www.mba.com/us> or <http://www.pearsonassessments.com/postsecondaryeducation/>

GPA (Undergraduate) (last 60 credits)	Standardized Test
3.5 to 4.0	No standard test (GRE/MAT) required
3.0 to 3.49	40th Percentile on at least one area of the GRE or 40th Percentile on the MAT
2.5 to 2.99	Combined Verbal and Quantitative (V+Q) score of 300 or 1000 (old scoring) on GRE or 45th Percentile on the MAT
Below 2.50	No admission
The method of calculating an Admission GPA is based on the last 60± semester undergraduate credits (90± quarter credits), using complete semesters (quarters). In the case of those students who have not completed the baccalaureate degree, the grade point average will be calculated on the last 60 credits at the time of application.	
GPA (Graduate)	Standardized Test
3.5 to 4.0	No standard test (GRE/MAT) required
3.0 to 3.49	40th Percentile on at least one area of the GRE or 40th Percentile on the MAT
Please see individual department sections for GPA & GRE requirements for doctoral programs.	

[graduate\\_admissions/mat.html](http://graduate_admissions/mat.html) for the MAT ), contact the Idaho State University Counseling and Testing Center. GRE/GMAT/MAT scores are used for other purposes in addition to admission. Most departments/colleges/divisions also use these scores as part of the criteria for awarding graduate assistantships, fellowships, or scholarships. Other parts of the campus may also use these scores in the process of awarding scholarships. Students at Idaho State University may take these tests at the Counseling and Testing Center. Special study sessions are available at the University in the Student Success Center (208) 282-3662 to aid the

student in preparing for the GRE/GMAT. All scores should reflect testing within the last five years or be subject to review by the Dean of the Graduate School. With certain programs as exceptions (see below) applicants who already hold a master's degree or higher from a regionally accredited university may not be required to submit GRE, MAT, or GMAT test scores.

3. Recommendation for admission by the department, division or college offering the desired degree program. Please see individual department sections of this catalog for additional requirements.
4. Approval for admission by the Dean of the Graduate School.

## The Application Process

The admission process is initiated as follows:

1. Applications for admission may be obtained online ([www.isu.edu](http://www.isu.edu)) or from the Graduate School.
2. Applicants applying as degree-seeking students must request that each institution at which they have taken any post-secondary work submit one official transcript directly to the Graduate School. Students who have already earned a master's or doctoral degree from a regionally accredited institution of the equivalent higher degree acquired in another country, need only have the official advanced degree/s transcript submitted in lieu of a bachelor's degree transcript. **Official transcripts must be sent either in printed form or electronically from the institution(s) directly to the Graduate School (students can not mail in their transcripts)** **Email address: [graddean@isu.edu](mailto:graddean@isu.edu) Mailing address: Graduate School, Idaho State University, 921 S. 8th Ave, Stop 8075, Pocatello, ID 83209-8075.** Idaho State University undergraduate transcripts are available to the Graduate School and need not be forwarded by the applicant.
3. **Applicants must include a \$55 non-refundable processing fee with each application form.** The files of students who do not pay the required application fee will not be processed for admission.
4. Some programs require additional information (e.g., letters of recommendation); please contact the specific department and review individual departmental sections of this catalog for additional requirements. These documents get sent directly to departments.
5. Applicants must clearly indicate the desired graduate program on the application form, or if a non-degree-seeking student, the college/division and department in which the student intends to take courses.
6. GRE/GMAT/MAT may be required for

degree-seeking applicants at the discretion of the department. Official score reports only are accepted.

7. Additional requirements for degree-seeking last semester seniors, and international students are described under those headings on the following pages.

## Application Deadlines

Please note that some programs have earlier deadlines than those listed; please contact the program director or department chair for specific details. Priority deadlines for application forms to be completed and returned to the Graduate School are: April 1st for summer semester enrollment; April 1st for fall semester enrollment; and November 1st for spring semester enrollment, or the following Monday should these dates fall on a weekend. Typically, international students cannot begin their enrollment at Idaho State University in the summer semester.

## Notification of Admission

Applicants will receive a notification letter from the Graduate School regarding their admission status. Admission to Graduate School allows a student to enroll in graduate courses in the specified department and college/division. It does not imply admission to courses in other departments. Only those admitted as degree-seeking students may assume that they are permitted to seek an advanced degree in the discipline/department that approved the admission. Non-degree-seeking students who are admitted are permitted to take graduate courses, but this admission does not imply they will later be approved for admission as a degree-seeking student.

## Re-Enrollment or Re-Admission of Graduate Students

Graduate students who have been admitted to Graduate School may enroll for graduate or undergraduate classes by preregistration or registration without further application activity if they enroll within two years from the beginning of the term for which they were accepted. Graduate students who fail to enroll during the two year period, or more restrictive period of the department, must reapply for admission, and pay the processing fee. Students who were not enrolled in the previous term may register for the current term. However, some departments may have more restrictive requirements and admission may be valid for only a particular semester or year. Students should contact departments to determine these more restrictive requirements.

## Registration

All applicants who have received notice of admission into Graduate School may preregis-

ter during the appropriate preregistration periods or during the regular registration times prior to each semester. On-line registration is available to admitted students. To expedite completion of the registration procedure, all recipients of graduate teaching assistantships, graduate fellowships, and/or scholarships to be applied toward tuition and fees must preregister.

## Restricted Registration

Any graduate student receiving a grade of C+ or below in two graduate courses on his or her program of study, or whose GPA falls below 3.0, will automatically be blocked from registering for additional courses. For the block to be removed, the student's department or college/division must communicate to the Graduate School in writing its wish to allow the student to continue in the program. Please note that some programs vary in their restrictions with regard to this policy; contact the graduate program director or department chair for specific details.

## Continuing Registration for Graduate Students

Graduate students who have registered for one or more credits of master's project, master's paper, master's thesis, or doctoral thesis or dissertation (usually, courses numbered 6650, 6651, 6699, 7750, or 8850) must be registered for at least one graduate credit during subsequent semesters, including each summer semester, until they have completed their degrees. Students who, for compelling reasons, wish to interrupt their work on projects, theses, or dissertations may request, in writing, a leave of absence from the Graduate School. Academic clock does not stop during the violation of the continuous enrollment policy.

Graduate students who fail to meet the continuing registration requirement will be judged to have dropped out of their programs and will no longer enjoy access to university resources, including the library and computer facilities. In order to regain access to university resources, students will be required to reapply to the Graduate School and be readmitted. A corollary of this requirement is that a graduate student must be registered for at least one graduate credit in order to take a final oral examination or be processed for graduation. Any student who registers for the required credit and then subsequently drops the credit, will be considered in violation of this policy.

## Registration without Permission

Students who register for graduate courses in violation of any restriction printed in the Graduate Catalog or written on their Admission notification, or who register for graduate courses after receiving a letter of dismissal

from the department or college/division that admitted them, will be dropped from these graduate course(s) as soon as the violation is discovered.

## Classifications of Degree-Seeking Graduate Students

### Classified Status

Graduates of regionally accredited institutions who have earned grade point averages of 2.5 or higher for the last 60 credits taken at the undergraduate level, are eligible, upon submission of official GRE/GMAT/MAT scores as appropriate, to be admitted to Classified status in graduate master's programs. Doctoral students must meet individual department GPA and standardized test requirements. See department sections of this catalog for complete information.

The College of Business requires the GMAT. The Department of Counseling and the College of Education accept the MAT in lieu of the GRE. Please see the department sections for this information.

### Classified (with Performance Requirements) [Classified (w/PR)] Status

Classified (with Performance Requirements) [i.e., Classified (w/PR)] status is a transitional status, and is not a valid status for a student to graduate. In order to graduate, a student must have Classified status (see the following section "Change from Classified (w/PR) to Classified Status").

A department/college/division may, at its discretion, recommend admission for graduate students in a degree program with Classified (w/PR) status to ascertain their ability to do graduate work within a particular curriculum. Students admitted to Classified (w/PR) status are those who may not have satisfactorily met all admission requirements.

Classified (w/PR) status also may be recommended by a department for students whose credentials do not meet specific departmental requirements.

NOTE: Students admitted to Classified (w/PR) status should ascertain their eligibility for

federal financial aid. Such students are not eligible to receive Idaho State University graduate assistantships or Non-resident tuition waivers.

### Change from Classified (w/PR) to Classified Status

The following criteria must be met by the student before Classified (w/PR) status can be changed to Classified:

1. The student must complete at least nine graduate credits and maintain a 3.0 GPA or higher;
2. If the GRE/GMAT/MAT was not taken by the student prior to admission to Classified (w/PR) status, the student must take the GRE/GMAT/MAT specified in the Admission notification.

Upon completion of the above two criteria, a request to change the student's status to Classified may be submitted to the Dean of the Graduate School. The following steps must be followed to accomplish this change:

1. At any time after meeting the above criteria, a student may initiate an Approval for Change of Student Status in the Graduate School. The department/college/division may also initiate the change and should do so by written request when the student has met the required criteria.
2. The change from Classified (w/PR) to Classified status must be approved by the Dean of the Graduate School.

If a student admitted to Classified (w/PR) status fails to meet the conditions for admission stated on the Admission notification, the student's admission may be revoked.

### Admission of International Students

Applications for admission to Graduate School are processed in the Graduate School. Applications will not be processed until the processing fee has been received.

In addition to the admission requirements listed previously, international students must meet the following conditions:

1. As a step toward obtaining a U.S. visa, international students must submit a financial statement to the Graduate School verifying that they will be able to support themselves financially for a minimum of one year while attending Idaho State University. This document must consist of a statement or letter from a bank indicating that funds are available and accessible. The amount of money available to the student must be listed on the financial

statement. A graduate assistantship or fellowship awarded by a department or college/division may be used as part of this amount.

2. International students who have not graduated from an accredited college or university in the United States and whose native language is not English, normally must achieve satisfactory scores on the Test of English as a Foreign Language (TOEFL) or on the International English Language Testing System (IELTS). Satisfactory TOEFL requirements for Classified admission are: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test. Information about the TOEFL, including test dates and locations in international countries, can be obtained from Educational Testing Service (ETS) at [www.ets.org](http://www.ets.org). Satisfactory IELTS performance for Classified admission include scoring 6.5 or higher on the total band score. Graduate assistants who teach courses must score 6.5 or above on the speaking test component. An international student may also meet the English language proficiency requirement by achieving a Level 112 from an ELS Language Center. **PHOTOCOPIES OF TOEFL OR IELTS SCORES WILL NOT BE ACCEPTED.**
3. International students may not enter the United States for graduate study without a U.S. Immigration (I-20) form. This form will be issued by the International Programs Office after the student is approved for admission by the Dean of the Graduate School. International students are urged to remain in their own countries until they receive notice of acceptance.
4. International students transferring from a school within the United States must be "IN STATUS" with Immigration and Naturalization Services to be issued an I-20 form from Idaho State University. A transfer form will be sent after the application has been received, to be completed as verification of acceptable immigration status.

If you have questions or need additional information, please contact the Graduate School at (208)282-2270, FAX number (208)282-4847.

## Unclassified (Non-degree Seeking Students) Status

Individuals holding a bachelor's degree who desire to take courses for graduate credit for personal or professional enrichment but who do not want to pursue a graduate degree are eligible to apply for admission to Unclassified (non-degree seeking) status. Students who are admitted to Unclassified status are allowed to register for a maximum of 9 graduate credits per semester. Since an Unclassified status student is not seeking a degree, course and/or program advising, except on an informal basis if requested, will not be provided.

### Admission Requirements for Unclassified (Non-Degree seeking) students

Individuals who apply for Unclassified status admission must submit the following information and meet the following requirements:

1. A baccalaureate degree, or higher, from a regionally accredited educational institution in the United States, or the equivalent from an educational institution in another country. Non-degree seeking applicants must provide a transcript showing proof of degree. Non-degree seeking students who have already earned a master's or doctoral degree from a regionally accredited institution or the equivalent higher degree acquired in another country, need only have the copy of advanced degree/s transcript submitted in lieu of a bachelor's degree transcript.
2. A copy of a transcript indicating that a baccalaureate degree, or higher, was awarded, including the date the degree was awarded.
3. Meet the following Grade Point Average (GPA) requirement: An earned grade point average (GPA) of 2.50 or higher on all undergraduate courses taken during the last 60 ± undergraduate semester credits (90 ± quarter credits), regardless of the institution at which the credits were earned. This GPA may be different from the final transcript GPA and/or different from the GPA on all upper-division credits. In the case of those students who have not completed the baccalaureate degree, the GPA will be calculated on the last 60 credits at the time of application.
4. A properly completed application form.
5. A \$25.00 non-refundable application processing fee that will not be waived.

Academic departments may have additional requirements and/or may restrict enrollment of Unclassified graduate students to specific courses. Unclassified graduate students must meet all prerequisites for each class in which

they want to enroll.

If an Unclassified student wishes to pursue a graduate degree at Idaho State University, the student must (1) meet the requirements for admission as a Classified student, and (2) complete all aspects of the Classified status application procedure for a specific degree program, detailed under "Admission" in the first part of the Graduate Catalog, including submission of official transcript(s) and payment of the Classified application processing fee (the amount paid for Unclassified application will not apply for Classified application).

After admission as a Classified student, students may petition the Dean of the Graduate School to transfer course work taken while in Unclassified status to a degree program. This petition must have the written support of the degree program for each course. The total number of such credits transferred shall not be more than 30% of the total credits for the program of study required for the particular degree.

## Admission of Last-Semester Seniors

Seniors in residence at Idaho State University may register for no more than 6 graduate credits during the semester or summer session in which they will complete the work for a bachelor's degree at Idaho State University. This option is reserved for outstanding seniors who are seriously considering attending Idaho State University for graduate education. This registration must be approved by the course instructor, by the student's advisor, and the department chairperson. **ONLY COURSES NUMBERED 5500-5599 MAY BE TAKEN WITH THIS OPTION.**

If a senior admitted to graduate study under this provision fails to complete graduation requirements for a bachelor's degree, all graduate credits earned revert to undergraduate credit. The student's load, including both graduate and undergraduate credit, may not exceed 16 credits, or 9 credits in the case of summer school. A senior selecting this option must file an Application for Admission with the Graduate School when he/she requests permission to take graduate level courses. Application deadlines for admission of last-semester seniors are the same as those for degree-seeking graduate students.

PharmD students may apply and be admitted to the Graduate School after completing 120 credits if they meet all application requirements.

## Admission Requirements for Professional Development Students - K-12 Teachers (5597 Courses)

The Graduate School recognizes the need for K-12 teachers certified in Idaho to improve their professional capabilities. In most cases, the courses are workshops or short courses that can be taken in a compressed time period. These types of courses are "advanced" with respect to the students who enroll, but are not courses that a particular discipline offers to a student with the goal of earning an advanced degree. Therefore, professional development courses are offered by many departments to meet the perceived need of individuals, and are treated differently in the following respects:

1. Students may enroll in professional development courses offered under the 5597 number without the necessity of being admitted to Graduate School. However, they must hold a baccalaureate degree from an accredited institution at the time they enter the class or receive special permission from the Dean of the Graduate School if they are last semester seniors at Idaho State University.
2. The credits earned will not count toward an advanced degree nor may they be petitioned to count at a later date.
3. There is no limit to the number of 5597 credits that a student may earn.
4. All instructors of 5597 courses must have an advanced graduate degree.
5. For each 5597 course in which students enroll, students must certify that they possess a baccalaureate degree and agree to the conditions by which they are permitted to register for the course.
6. Students who have been admitted into the Graduate School are permitted to take 5597 courses.
7. Departments shall determine if and when professional development courses are to be offered with their prefix.

## Admission Requirements for Professional Development Students (5598P Courses)

The Graduate School recognizes the need for individuals to improve their professional capabilities. In most cases, the courses can be taken in a compressed time period. These types of courses are "advanced" with respect to the students who enroll, but are not usually courses that a particular discipline offers to a student with the goal of earning an advanced degree. Therefore, professional development courses are offered by many departments to meet the perceived need and are treated differently in the following respects:

1. Students may enroll in professional development courses offered under the 5598P number without the necessity of being admitted to Graduate School. However, they must hold a baccalaureate degree from an accredited institution at the time they enter the class or receive special permission from the Dean of the Graduate School if they are last semester seniors at Idaho State University.
2. The credits earned will not count toward an advanced degree unless a petition is filed within three years of the last day of the course. The petition must have the following documentation: (1) A copy of the instructor's curriculum vita, (2) A copy of the course syllabus (including a list of achievement measures), (3) A copy of the class list (with grades). (The Office of Continuing Education, and/or the department or college offering the course will provide materials not otherwise available to the student).
3. While there is no limit to the number of 5598P credits that a student may earn, a maximum of three credits may be petitioned for use to satisfy elective credits in the student's program of study. 5598P courses may not be substituted for "required" courses.
4. All instructors of 5598P courses must have an advanced graduate degree.
5. For each 5598P course in which students enroll, students must certify that they possess a baccalaureate degree and agree to the conditions by which they are permitted to register for the course.
6. Students who have been admitted into the Graduate School are permitted to take 5598P courses. If they desire to use 5598P credits in their degree program, a petition must be filed for each course in accordance with the procedures described.
7. Departments shall determine if and when professional development courses are to be offered with their prefix.

## Course Levels, Credits, and Grading

### Course Levels

Courses numbered 66xx and 77xx are for students admitted into Graduate School only. Courses numbered 55xx also provide graduate credit (except 5597 and 5598P, see the sections entitled "Admission Requirements for Professional Development Students"). However, undergraduate students may be enrolled

in these courses; the undergraduate counterpart will be designated as 44xx. Extra work is required of graduate students enrolled in 55xx courses (see next section). Applicability of 55xx courses to degree requirements is determined by the department offering the degree. Credit by examination (course challenge) is not permitted in graduate programs. Credit is not generally granted toward a graduate degree for 55xx courses when the corresponding 44xx course was taken at the undergraduate level.

### Activities Instructors May Require to Meet the "Additional Work" Requirement to Receive Graduate Credit in Those Courses Offered as 55xx:

The Graduate School expects instructors to require specific work to be done in a graduate level course to justify graduate credit being given. For students to receive graduate credit in those courses designated at the 55xx level, specific and evaluated activities and performances must be identified in the course syllabus. Below is a suggested list of activities that an instructor might use to meet this requirement.

1. An additional scholarly activity such as:
  - a. integrative term paper(s);
  - b. substantive report(s) that may be one of the following: survey, analysis and report; laboratory investigation and report; library research and report;
  - c. participation in a significant regional or national meeting (e.g., poster session, panel discussion, paper presentation).
2. Classroom activities that are beyond those required of undergraduates and are evaluated:
  - a. special presentation of some subject;
  - b. provision of leadership on discussion of some significant topic in the classroom;
  - c. classroom activity that is evaluated and not required of undergraduates
3. Examinations: Special examinations that are different from those given to undergraduates and are more demanding than those given to undergraduates. Such exams should be those that require greater performance at a higher cognitive level, such as interpretation, synthesis, and evaluation.

### Credits

For a master's degree, a minimum of 30 credits in approved course work, including thesis credits if required, must be completed. Except

in the cases of the M.N.S., M.A.M.S.T., and M.P.A. degrees, a master's degree student must complete at least fifteen 6600-level credits. Credit requirements for doctoral degrees vary by program.

### A credit hour in graduate courses requires:

One semester credit hour in academic courses requires (1) fifty minutes in class each week for one semester (which assumes approximately twice this amount of time in study and preparation outside the classroom), or (2) approximately two and one-half hours in laboratory each week for a semester, or (3) equivalent combinations of (1) and (2). For purposes of equivalency calculations, a semester is assumed to be sixteen weeks. Short-term courses of one week (five days) or more require time in class, laboratory, and preparation equivalent to the above for a total of 45 clock hours per credit.

### Semester Credit Limits

The maximum number of credits obtainable in a semester is 16, including courses taken at the undergraduate level. In a summer semester, a student may earn a number of credits equal to the number of weeks enrolled plus two, and the total number of summer semester credits may not exceed 12 (e.g., a student taking classes for eight weeks may earn up to 10 credits). Graduate Assistants may register for no more than 12 credits per semester.

Students who, because of exceptional circumstances, want to take more than the maximum number of credits, must request permission in writing from the Dean of the Graduate School. They must also have support in writing from their advisor, and the graduate program director or chairperson of their department.

Thesis or dissertation credits are not awarded to the student until after completion and final approval by the examining committee. At this time, the advisor reports a grade of S or U for all previous thesis/dissertation registrations. The student may register for thesis/dissertation credits any semester she/he is enrolled as a degree-seeking student, subject to the approval of the student's advisor and department chair or program director, but the letters IP (in progress) are recorded on the transcript in place of a grade for all such registrants until final approval is obtained. Usually thesis credits are limited to 6 that can count toward a degree on a Master's level program of study.

### Grading

**A 3.0 GPA for the courses listed on the program of study is required for any graduate degree or certification at Idaho State University. A grade of C+ or lower indicates questionable performance at the graduate**

**level.** However, some departments may accept a C+ grade in one or two courses as long as the minimum overall 3.0 GPA is maintained.

**C+ or lower grades may cause departments/colleges/division to dismiss students from a graduate degree program.**

Idaho State University uses a graduated letter grading system to indicate the instructor's evaluation of a student's performance in a course. These letter grades are converted to a numerical value for computing a student's semester and cumulative grade point averages. At the beginning of each course, an instructor should inform students of the criteria to be used in evaluating their performance through the class syllabus or other written means.

The grade of A is the highest possible grade; grades of D+ or lower will not be allowed for graduate work. Plus (+) or minus (-) symbols are used to indicate grades that fall above or below the letter grades. The grades of A+, F+, and F- are not used. For purposes of calculating grade points and averages, the plus (+) increases the grade's point value by .3, and minus (-) decreases the grade's point value by .3 (e.g., a grade of B+ is equivalent to 3.3, and A- is 3.7). A student's work is rated in accordance with the following scale:

A	4.00	excellent performance
A-	3.70	excellent performance
B+	3.30	good performance
B	3.00	good performance
B-	2.70	good performance
C+	2.30	inadequate performance
C	2.00	inadequate performance
C-	1.70	inadequate performance
D+	1.30	unacceptable performance
D	1.00	unacceptable performance
D-	0.70	unacceptable performance
F	0.00	unacceptable performance

Courses in which A, A-, B+, B, or B- grades are earned are acceptable toward a graduate program and graduation requirements, unless specifically excluded for a particular requirement, course, program, or degree. Courses in which C+, C, or C- grades are earned might be used toward program and graduation requirements in some programs; two such grades will place the student on semester-by-semester review. Grades of D+, D, D-, or F may not be used to satisfy graduation requirements. No credits are awarded for any course in which an F grade is earned.

All thesis and dissertation credits and some research courses are graded on a satisfactory (S) or unsatisfactory (U) basis. Departments/colleges/divisions may grade additional graduate courses with the S/U system with approval of the Graduate Council. IP (in progress) grades are given for those students who have initiated but not completed their thesis, disser-

tation, or research work. No graduate courses will be offered on a Pass/No Pass (P/NP) basis.

**For "IP" (in progress) courses,** instructors are responsible for processing a Change of Grade after the completion of all relevant course work. In the case of thesis and dissertation work, there may be multiple IP credits to be changed once the thesis/dissertation has been completed and fully approved.

As noted elsewhere in the Catalog, **"I" (incomplete) grades** must be completed and the Change of Grade processed by the instructor within 1 calendar year of the awarding of the incomplete. Failure to change the "I" grade within this time period will result in the "I" grade becoming permanent.

**For letter graded courses,** prefixes, titles, and level (e.g., 4400/5500) are transcribed as originally registered once the semester is closed (i.e., the end of the semester within which the course was first registered for by the student). As an example: A graduate student mistakenly registers for course ABC4400 for the Fall 2020 semester. During that semester a petition request to change the ABC4400 registration to ABC5500 (i.e., drop ABC 4400 and add ABC5500) may be submitted for consideration. However, once the Fall 2020 semester has concluded, the ABC4400 course can not be changed.

With permission of the relevant department, students may repeat a course in which they received a grade lower than an A. In such cases, the last grade received shall be the grade used in the calculation of the program of study GPA.

### Incomplete Grades

An Incomplete grade (I) may be awarded at midterm or semester end. At midterm, an Incomplete indicates the student, through illness or other excusable absence, has missed so much work the instructor cannot assign a regular grade. An Incomplete grade at midterm is not a final grade. An Incomplete grade may, at the option of the instructor, be given at the end of the semester only when a student has satisfactory performance within three weeks of the end-of-semester examination period.

The instructor must submit a Course Completion Contract along with the grade report for that class. The Course Completion Contract must be signed by the student and the instructor stipulating the assignment(s) required to finish the course within the allowable time period. A copy of the Contract is to be given to the student, a copy retained by the instructor, a copy sent to the Graduate School, and the original sent to the Registrar's Office.

Incomplete work must be completed within one (1) calendar year from the date such grade is given, but an instructor could specify a shorter time period. A change of grade must be submitted by the faculty member or the Incomplete will become permanent.

To receive credit for a course in which an Incomplete grade has become permanent, the entire course must be repeated.

Petitions to deviate from the incomplete grade policy will not be allowed except under extraordinary circumstances (e.g., serious, long-term illness).

## Transfer of Credits

### Master's Degrees

All graduate credits must be earned as Idaho State University resident credits except for the following:

In all master's degree programs, a total of 9 semester credits may be transferred from a regionally accredited institution. Transfer of credits from a regionally accredited institution are acceptable only if the courses are specifically approved by the Graduate School and the academic department of Idaho State University when the final program of study is submitted. In these instances, only the credit hours transfer, not the grades.

Official transcripts to be used for transfer of credits in a degree program must be received by the Graduate School before application for a degree will be approved.

### Intra-institutional Transfer

Transfer of Credits from Unclassified to Classified Status: Students may petition the Dean of the Graduate School to transfer course work taken while admitted to Unclassified status to a degree program. The total number shall not be more than 30% of the total credits of the program of study required of each student for the degree.

### Transfer of Credits from One Program to Another

There are no limits to the number of Idaho State University credits that may be applied toward a master's degree program or certificate program that were originally earned in a different degree program if:

1. the student was not awarded a degree in the original program, and
2. the department approves the transfer of such credits and the courses taken meet

the requirements for the degree approved by the Graduate Council.

There are no limitations with respect to electives that exceed the requirement for the degree.

Departments and/or colleges/divisions may allow students to apply up to 9 semester credits earned at Idaho State University to two master's degrees with Graduate School approval.

### Doctoral Programs

Departments may accept credits by transfer in total or in part from a master's degree earned at Idaho State University or at another accredited institution regardless of age of the courses. See section on "Time Limits" for further discussion of this policy.

## Residency Credits

All credits that are to be applied to an advanced degree must be earned as resident credits or accepted for transfer as described in the Transfer of Credits section. Resident credits are those earned through the main Idaho State University campus, the Idaho State University-Idaho Falls campus, the Idaho State University-Meridian campus, and/or the Idaho State University-Twin Falls campus.

Courses approved by the Graduate Council and taught solely by approved faculty of Idaho State University at other sites in the state may be accepted as resident credit.

## Time Limits

### Master's and Educational Specialist Degrees

All requirements for a master's degree or educational specialist degree, must be completed within 8 years preceding the student's graduation. An extension of time may be obtained for good cause with the approval of the Dean of the Graduate School.

### Out-of-Date Credits

All credits applied to a master's degree or to an educational specialist degree must have been taken within 8 years immediately prior to granting of the degree unless it can be shown that the course work taken more than 8 years earlier covers material that has not changed substantially during the intervening time, or that the student has been able to remain current in the topics covered in the course. Academic clock does not stop when student does not register for classes. Evidence that the older course work is still appropriate must be sup-

ported and approved in writing by the student's advisor and department chair, and submitted with a petition to the Dean of the Graduate School.

### Credit Time Limits for Doctoral Degrees

The doctorate is a research and/or performance degree and signifies that the holder has the competence to function independently at the highest level of endeavor in the chosen profession. Hence, the number of years involved in attaining or retaining competency cannot be readily specified. Rather, it is important that the doctoral student's competency be assessed and verified in a reasonable period of time prior to conferral of the degree.

The comprehensive examination is the method of assessing whether the student has attained sufficient knowledge of the discipline and supporting fields in order to undertake independent research or practice. It is expected that the examination will occur after all course work has been completed and language or other requirements satisfied, and that it consists of a series of examinations covering all areas specified in the program of study.

Because the comprehensive examination attests to the academic competence of the student who is about to become an independent researcher or practitioner, the examination should not precede the awarding of the degree by too long a period of time. Consequently, doctoral candidates are allowed 5 years in which to complete remaining degree requirements. In the event a student fails to complete the doctorate within 5 years after passing the comprehensive examination, an extension of time can be obtained by:

1. The student getting a specified set of requirements from the student's committee that states in writing what must be done to make the candidate up-to-date in the discipline. These new requirements for obtaining an extension may include the necessity to repeat parts or all of the comprehensive examination;
2. The student must then submit a petition to the Dean of the Graduate School for the extension and provide the written documents showing the additional requirements established by the student's committee justifying the requested extension.

### Auditing Graduate Courses

The Graduate School does not endorse the auditing of courses at the graduate level due to the expectations of the rigors of graduate study. At the graduate level, students need to be substantially engaged with the material, so that they can master the intricacies and be able

to evidence knowledge about the topic. The professor provides information, guidance, mentoring, and critique of the material so that the student is experienced with the totality of the material. Auditing a graduate course does not provide the opportunity for engagement of the material and the instructor's focus to the level necessary to facilitate the depth of learning required in graduate education.

### Full Time Graduate Status

Nine Graduate Level Credits constitutes full time graduate status.

## Advisors & Examining Committees

All Examining Committees shall consist of an odd number of members. These members normally must be members of the Graduate Faculty and approved by the Dean of the Graduate School. Appointments to Examining Committees of non-faculty members or of faculty members not on the Graduate Faculty must be approved by the Dean of the Graduate School. A listing of Graduate Faculty is contained in this catalog.

Usually, when a student is admitted to graduate school, a temporary advisor is assigned. In some cases, the department chairperson or graduate program director serves in this capacity for all incoming graduate students. Following departmental procedures and regulations, a permanent advisor who will be responsible for helping the student to finalize the program of study is then selected.

For most master's degree options, a second member is selected from the student's department to serve on the examining committee with final approval by the Dean of the Graduate School. At the doctoral level, more than one departmental faculty member, in addition to the advisor, typically serves on the examining committee.

A third or, in the case of doctoral committees, a fifth member of the examining committee, called the Graduate Faculty Representative (GFR), is approved by the Dean of the Graduate School. The GFR must be a current member of the Graduate Faculty and must be selected from outside the discipline the student is studying. The GFR may not be secured from a separate discipline from a yoked department. The GFR represents the Graduate School on the examining committee and is responsible for reporting the results of graduate examinations to the Dean of the Graduate School. The Graduate School welcomes suggestions from

the student or department regarding candidates for the GFR.

### Conflict of Interest of Graduate Faculty

Faculty are expected to conduct themselves professionally in their evaluation of graduate students, and are expected to exclude themselves from evaluation of graduate students with whom impartiality may be jeopardized by considerations that are not academic.

### Procedure for Changing a Major Advisor

When a graduate student seeks a change in his/her major advisor, the following procedure must be followed:

1. The student must submit to the academic unit head or graduate program director, as appropriate, a written request for change of major advisor. This request shall contain the rationale on which the request is based and may, if the student wishes, propose a specific replacement.
2. If the unit head/program director and the current advisor accept the rationale, and if an appropriate new advisor acceptable to the student is secured, the unit head/program director will submit the proposed new appointment to the Dean of the Graduate School for approval.
3. Should the unit head/program director or the current major advisor not agree to the proposed change and the conditions thereof, and if no compromise acceptable to all parties can be reached, the matter shall be arbitrated by the unit graduate faculty (or its designated committee). Such arbitration may need to consider the question of ownership of data from research already undertaken by the student under the major advisor's supervision, similarly whether another appropriately specialized major advisor is available for the student. The unit head/program director will notify the Dean of the Graduate School of the decision reached by the department graduate faculty or its designated committee.
4. Any appeal of the department's decision by the student shall be directed to the Dean of the Graduate School.

## Program of Study, Candidacy, Application for a Degree

### Program of Study

A Program of Study must be submitted to and approved by the Graduate School by the third week of the semester in which a student intends to graduate. The Program of Study will list all requirements that must be completed in order to receive the degree or certificate.

If the requirements for the degree or certificate being sought change during a student's program, the student is entitled to follow those requirements in effect at the time of admission, or the student may elect to follow newer requirements.

### Candidacy for Doctoral Degrees

Admission to candidacy for doctoral degrees occurs after the student has passed a preliminary/qualifying examination that is usually administered early in the program; or when substantially all course work has been completed and the comprehensive examination has been passed.

Students seeking doctoral degrees must submit a Program of Study to the Graduate School upon completion of examinations, along with a letter verifying advancement to candidacy, noting the candidate's successful examination completion; but no later than the third week of the semester in which they intend to graduate. The Program of Study lists all requirements that must be completed in order to receive the doctoral degree.

### Application for a Degree

Within the first three (3) weeks of the fall or spring semester in which the student expects to complete work for the degree, or the last day of the spring semester for completion during the summer semester, an application for graduation must be filed with the Graduate School.

The application and a diploma processing fee of \$20 must be paid at this time. **If the student does not complete requirements during this semester, an updated application must be submitted for the subsequent semester and a \$20 reprocessing fee paid to the Graduate School.**

Degree applicants must submit all official transcripts before applying for a degree. Official transcripts to be used for transfer of cred-

its into a degree program must be received - before the application for a degree will be processed.

Applications for degrees will not be processed without the prior approval of a Program of Study.

## Examinations

All graduate students are required to complete a final examination. Final examinations are scheduled by departments after receiving approval of the student's program of study and reported to the Graduate School.

All examinations must be completed at least two weeks before the end of the semester in which the student plans to graduate. All graduate requirements must be completed prior to or at the end of the semester during which final examinations are held.

Students writing theses/dissertations/DA scholarly activities are given final oral examinations (typically a thesis/dissertation/DA defense). Others are usually given both written and oral examinations.

Oral examinations are open to all members of the Graduate Faculty as observers. Oral examinations are not open to non-Graduate Faculty without permission of the advisor and the Dean of the Graduate School. When students are required to make presentations as part of the examination process, these presentations will be advertised, and open to the public.

Following the oral exam, the committee meets in closed session to determine the outcome of the examination. The student passes the exam if a majority of the committee so votes. Otherwise, the student fails the exam. For students failing the oral exam, the Graduate School allows one re-examination. This re-examination is to take place during the subsequent three (3) semesters unless otherwise approved by the Graduate School. If the academic unit involved has a formal re-examination policy that is more stringent, that policy supersedes the Graduate School re-examination policy.

If the candidate's program requires a thesis/dissertation/DA scholarly activity, copies in substantially final form shall be in the hands of the examining committee at least two (2) weeks before the date scheduled for the oral examination. Oral examinations are to be held at least two (2) weeks prior to the date of graduation. If any committee member questions the adequacy of the substance or form of the thesis/dissertation/DA scholarly activity, the committee as a whole decides if the document and the student are sufficiently prepared for an oral

examination.

The major advisor is responsible for reporting grades (using a Change of Grade) for all prior thesis/dissertation/DA scholarly activity registrations of the candidate when the document has been approved by the examining committee.

After the successful defense of a thesis/dissertation/DA scholarly activity, the student must submit all appropriate documents to the Graduate School within two weeks. Failure to do so may delay graduation. If the required documents are not submitted within one year, the Dean of the Graduate School may declare the defense void and require that it be repeated.

A manual with detailed instruction for thesis/dissertation/DA scholarly activity preparation and clearance (Instructions for Preparing Theses, Dissertation, DA Papers, and Professional Projects) is available on the Graduate School website or from the Graduate School.

If the candidate's program requires no thesis/dissertation/DA scholarly activity, the department or college/division is responsible for having a written examination on the degree program prepared and administered. If the student's performance is judged to be satisfactory or if it is determined that deficiencies may be cleared up during the oral examination, the examining committee conducts the oral examination on the scheduled date. Otherwise, the student may be expected to complete subsequent requirements before the oral examination is held. All oral examinations must be completed at least two (2) weeks prior to the date of graduation.

## Petitions

A student may petition the Dean of the Graduate School for exceptions to the rules and procedures stated in the Graduate Catalog or for consideration of problems not covered by the stated procedures. **Petition forms for graduate students are available only from the Graduate School;** undergraduate petition forms will not be accepted.

A student may use the petition form to request:

1. withdrawal from courses after the deadline for withdrawal as stated in the University Calendar;
2. use of credits more than eight (8) years old to count towards a master's degree;
3. transfer of credits from unclassified to classified status;
4. transfer of more than nine credits from another institution to a master's degree program at Idaho State University;
5. an extension of the maximum time (eight years) allowed for completion of a master's degree or educational specialist degree;
6. an extension of the maximum time (five years) allowed for completion of a doctoral degree after comprehensive examinations have been passed;
7. correction of errors or inaccuracies on the student's official transcript;
8. any other deviation from Graduate School policy listed in this catalog.

Petition forms may not be used for:

1. appeals of a grade or of dismissal from a program. See the section on "Appeals and Dismissals" in this Catalog;
2. substitutions of courses within degree requirements or waivers of degree requirements. Exceptions to degree requirements are requested as a part of the approval process for the Program of Study.

## Drop or Withdrawal

Students may voluntarily drop graduate courses until the official drop date listed in the University Calendar. Dropped classes will not appear on a student's transcript. After the official drop date, students may withdraw from a course(s) prior to the withdrawal deadline with a "W" appearing on the transcript. To withdraw from a course or courses, students must provide a written request using a Graduate School Petition. Students wishing to withdraw from graduate courses or a graduate program after the official withdrawal date must obtain approval from their professors, program/department chair, and the Dean of the Graduate School. Voluntary withdrawal from a graduate program during an appeal of dismissal automatically terminates the appeals process.

## Appeals and Dismissals

### Appeal of a Grade

A grade appeal is not designed to evaluate general teaching effectiveness, but rather to determine whether a student was treated in an arbitrary and/or capricious manner by the instructor in regard to a final grade.

Graduate students who wish to appeal final grades must use the following procedural format. Appeal of a grade must be made within one semester following the posting of the grade. Grades earned in the spring semester, that are to be appealed, need not be appealed

during the summer, but the appeal process must be initiated in the following fall semester. Documentation of the appeal must be sent to the Graduate School to be placed in the student's file. The Graduate School encourages resolution of appeals at the lowest possible level. Faculty members who are overruled in the appeal process are entitled to the same sequence of appeal as the graduate student.

Midterm grades are not official and may not be formally appealed. Students who wish redress for midterm grades should discuss the grade with the instructor of the course in order to determine a course of action leading up to the final grade.

When a grade appeal involves plagiarism, cheating, or other instances of academic dishonesty, refer also to the "Academic Dishonesty" section of the Graduate Catalog.

### Procedures for the Appeal of a Grade

After each step in the procedures for the appeal of a grade, all written appeal request and decision statements must be copied to all involved parties (e.g., the student, the instructor, the department chair, the Dean of the academic college/division).

#### Step 1: The Instructor of the Course

When a student receives a grade that is judged by that student to be unjustifiably low, normally the first step in the appeal process is to discuss the matter with the instructor of the course. This is an informal meeting to attempt to resolve the issue. If the instructor agrees with the student, the grade is changed using standard procedures. If the instructor supports the original decision, the student may file a formal appeal. The student must prepare a formal written statement in accordance with the format presented in the "Protocol for Appealing a Grade," which is described in the next section. The original of this statement is given to the department chair, and a copy is given to the instructor. In response, the instructor must prepare a written statement explaining the reasons for the grade and submit that statement to the department chair with a copy to the student.

#### Step 2: The Department Chair

The chair of the department in which the appealed grade was received is charged with reviewing the student's and the instructor's written statements. The chair may also interview the student and the instructor, and may conduct whatever additional investigation deemed appropriate to help in the decision-making process. The chair must render a decision within 15 working days of receipt of the

student's appeal documents.

If the chair sustains the decision of the instructor, the appeal may be taken by the student to the Dean of the academic college/division. The student must appeal to the dean of the academic college within 15 working days of the receipt of the notification of the department chair's decision. If the chair disagrees with the instructor's decision, the chair must forward all appeal documents to the Dean of the academic college/division. Regardless of the decision, the chair must prepare and submit to the Dean of the academic college/division, a written statement that explains the reason for her/his decision with a copy to the instructor and the student.

### **Step 3: The Dean of the Academic College/Division**

The Dean of the academic college/division is next in the formal appeal process. The Dean's first charge is to appoint an impartial committee of graduate faculty members to review all documentation pertaining to the appeal. The Dean will provide copies of all documentation to the committee. In addition to reviewing these documents, the committee should interview both the student and the instructor and may conduct any other investigation deemed necessary. The committee, which is advisory to the Dean, must submit a written statement of its recommendation to the Dean. The Dean should review all documents and recommendations and may interview the student, the instructor, department chair, and conduct any other investigation deemed necessary. The Dean's decision is to be tendered in writing, and addressed to the student, sent by certified mail (return receipt requested) with copies to the instructor, department chair and chair of the impartial committee. The committee's deliberation and the Dean's decision must be completed within 30 working days of receipt of the student's appeal in the Dean's office. If the decision of the Dean is rejected by the student, the appeal may be taken by the student to the Graduate Council.

### **Step 4: The Graduate Council via the Dean of the Graduate School**

The student must appeal to the Graduate Council within 15 working days of receipt of the notification of the dean's decision. This appeal must be in writing. At the request of the student, the Graduate Council will review all appeal documentation and respond with a decision within 30 working days of receipt of the student's appeal. The Graduate Council may interview the student and instructor and carry out any other investigation deemed necessary. Once the decision is made, it is final and will be communicated by the Dean of the Graduate School.

### **Step 5: Change of Grade Within the Specific College/Division (instructor, department chair, dean)**

At any stage where the appeal process is concluded, the last appeal level will process a change of grade, if appropriate, using standard procedures. In instances where the appeal is resolved at the Graduate Council level, the Council's decision is communicated in writing by the Dean of the Graduate School to the student, and copied to the Dean of the academic college/division, department chair, instructor, and chair of the impartial committee. The Dean of the academic college is responsible for processing the change of grade, if appropriate, using standard procedures upon receipt of Council's appeal decision correspondence.

### **Protocol for Appealing a Grade**

Protocol for appeal of a grade must include the student's name, department/college, date of the appeal, course title and number, instructor's name, and grade received in the course. Also included must be the student's rationale for appeal of the grade. The student should state as succinctly as possible the reasons for making the appeal. The student must also state the remedy he/she is seeking.

## **Dismissals**

### **Dismissal Policy**

A graduate student may be dismissed from a graduate program by a department/college according to the following criteria:

1. If the student receives two or more grades of C+ or below, or
2. If the student fails to meet the continuation standards of the department (including conditions stated in the Admission letter), or
3. If it is the academic judgment of two-thirds of the graduate faculty in the department that the student is not making satisfactory progress in the program, and such judgment is recorded by formal vote.

In all cases the student must be notified in writing by certified mail, return receipt requested, that he/she is dismissed and must be told in the document that she/he has the right of appeal according to the Idaho State University Graduate Catalog. The student should be given a copy of the Graduate Catalog, appropriate catalog pages, or notified that the Catalog is available online or in the Graduate School.

**All dismissal communications are to be copied to the department chair, Dean of the academic college, and Dean of the Graduate School.**

Students receiving letters of dismissal will automatically be dropped from all graduate courses in the program from which they are being dismissed, regardless of whether they choose to appeal; fees will be refunded in accordance with university policy. A "W" grade will then be entered on the transcript for all graduate courses not completed. Students receiving dismissal letters after the 10th day of classes may petition the Dean of the Graduate School for permission to complete the graduate courses in which they are enrolled. Students who appeal the dismissal will be blocked from registration for additional graduate courses during the appeals process. See "Procedures for the Appeal of Dismissal from a Graduate Program" for specific procedures.

The initiation of the appeal of the dismissal must occur within 15 working days of the notification of the dismissal, unless the student is appealing dismissal due to receiving two or more grades of C+ or below. In that case, the student may wish to appeal one or more grades before beginning appeal of dismissal (see "Appeal of a Grade" section). If the grade is upheld, and the student now wishes to appeal the dismissal, the student must begin the appeal of dismissal within 15 working days of receipt of the notification of the decision of the grade appeal. If the grade is changed to a B - or above, and the student no longer has two or more grades of C+ or below, the dismissal will be cancelled by the department/college. However, if the dismissal is based on Items 2 or 3, previously listed, the dismissal proceedings may continue. The Graduate School encourages resolution of appeals at the lowest possible level.

When a dismissal involves plagiarism, cheating, or other academic dishonesty, refer also to the "Academic Dishonesty" section of the Graduate Catalog.

### **Procedures for the Appeal of Dismissal from a Graduate Program**

At each level appeal decisions are to be communicated in writing and addressed to the student, sent by certified mail (return receipt requested), and copied to all appropriate level decision persons, and the Graduate School.

#### **Step 1: The Departmental Level**

1. The student must request reconsideration in writing using the "Protocol for Appealing Dismissal from a Graduate Program," which is described in the next section.
2. A majority of the graduate faculty of the department must meet within 15 working days of the filed appeal and must decide by a 2/3 vote of those present to sustain the dismissal, or the dismissal is revoked.

- If necessary, the meeting of the graduate faculty may include those participating by telephone, email, or video conference. Should it prove impossible during the summer to convene a majority of the graduate faculty, the department chair/program director is required to assemble them in the first 15 working days they are on contract in the fall semester.
3. Either decision (revoke or sustain) is to be explained in writing to the student. Copies of this decision and explanation must be sent to the Dean of the academic college and the Dean of the Graduate School.
  4. If the department upholds the dismissal, the student may appeal the decision to the Dean of the academic college. The student must appeal to the dean of the academic college within 15 working days of the receipt of the notification of the department's decision.
  5. If the dismissal is revoked, the department chair shall notify, in writing, the student, the Dean of the academic college and the Dean of the Graduate School, and the student shall be reinstated using standard procedures.
2. The Graduate Council must consider the appeal within 30 working days of receipt of the student's appeal. This appeal should include copies of all appeal documents.
  3. The Graduate Council may interview the student, graduate faculty, and Dean of the academic college, and conduct any other investigation deemed necessary. The student may have an advisor present during Council's interview, but this person shall not act in a legal capacity (these are not legal proceedings) and may not address the Council.
  4. The Council's decision to revoke or sustain the dismissal is final.
  5. In instances where the appeal is resolved at the Graduate Council level, the Council's decision is communicated in writing, by the Dean of the Graduate School to the student, and copied to the Dean of the academic college and the department chair.
  6. The Council's decision, with all other documentation, will be kept in the student's file in the Graduate School.
  7. If the decision is to revoke the dismissal, the Dean of the Graduate School will reinstate the student in the program.

### Step 2: The Dean of the Academic College

1. If the student appeals to the Dean of the academic college, then the Dean should review all documents and recommendations and may interview the student, the instructor, department chair, and conduct any other investigation deemed necessary. The Dean must consider the appeal within 30 working days of the student's filed appeal and must decide to either revoke or sustain the dismissal.
2. Dean Overrules Dismissal. If the dismissal is revoked, the Dean must state in writing the reasons for the overrule and notify the student, the department chair, and the Dean of the Graduate School, and the student shall be reinstated using standard procedures. The graduate faculty of the department may appeal the Dean's decision to the Graduate Council following the appeal steps listed in this policy.
3. Dean Sustains Dismissal. If the Dean sustains the decision to dismiss, she/he must notify in writing the student, the department chair, and the Dean of the Graduate School.

### Step 3: The Graduate Council via the Dean of the Graduate School

1. The student may appeal to the Graduate Council if the Dean of the academic college sustains the dismissal. The student must appeal to the Graduate Council within 15 working days of receipt of the notification of the dean's decision. This appeal must be in writing.

### Protocol for Appealing Dismissal from a Graduate Program

Protocol for appeal of dismissal from a graduate program must include the student's name, department/college, and date of the appeal. Also to be included is the rationale for appeal of the dismissal. The student should state as succinctly as possible the reason for making the appeal. The student must also state the remedy he/she is seeking.

### Re-Applying After a Dismissal

A student may re-apply to a different program at Idaho State University after being dismissed from their current program.

## Academic Dishonesty

Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program.

When a faculty member suspects a graduate student of academic dishonesty, the instructor should present the evidence to the student and consider the student's response. If the instructor concludes after consultation with the student that academic dishonesty occurred, the instructor writes a letter to the chair of the department in which the student is seeking a

graduate degree, describing the incident. The instructor should include with the letter any evidence used to draw the conclusion that academic dishonesty has occurred (e.g., copies of the student's written assignment, copies of documents thought to have been plagiarized, etc.), and should state clearly the penalty imposed within the course itself. The penalty should be in proportion to the severity of the offense. If the penalty is to be a failing grade, the instructor should first consult with the chair of the department, and the chair should meet jointly with the student and faculty member to review the incident. The student may appeal the penalty by following the procedures in the Graduate Catalog entitled "Appeal of a Grade."

The department chair may, in accordance with the policy and procedures of the department, impose the penalty of dismissal from the program. A student may appeal the dismissal by following the procedures in the Graduate Catalog entitled "Appeal of Dismissal from a Graduate Program."

The chair of the department should send a copy of the instructor's letter reporting the offense, along with any evidence submitted to the chair, to the student, to the Dean of the academic college in which the student is seeking a graduate degree, and to the Dean of the Graduate School. A copy of the letter is to be placed in the student's file in the department and in the Graduate School. If the student's appeal is upheld, the letter and all other records of the accusation of academic dishonesty are to be deleted from the student's files.

## Graduate Student Participation in Classified or Proprietary Research

The Graduate School affirms the policy regarding the participation of graduate students in classified or proprietary research as it is stated in the Idaho State University Patent Policy. To fulfill the University's obligations as a publicly aided educational institution, University research should serve a public rather than a private purpose and the results should be disseminated on a non-discriminatory basis. The University encourages studies whose results can be freely published. However, the University recognizes that certain proprietary concerns of private research sponsors and the effective commercialization of research outcomes may require limited delays in publication. This policy shall

apply to all persons employed by Idaho State University or a component thereof, and to anyone using facilities or funds as outlined in Section V of this policy. This policy, as amended from time to time, shall be deemed to constitute part of the conditions of employment of every employee and of every student. This statement shall be interpreted to mean that students must not be delayed in their program of study up to and including the awarding of the degree and that placement of the finished thesis or dissertation in the library for public access may not be delayed longer than six months.

## Interdisciplinary Degrees

Idaho State University offers students the opportunity to pursue an interdisciplinary master's degree (M.A., M.S., M.N.S., M.Ed.). The degree sought will be Interdisciplinary Studies. Other fields in the title will be the fields of academic concentration.

The requirements include: completion of a minimum of 30 credit hours with a minimum of 10 credits in each of the departments participating. Students must be admitted into such a program by each department that participates. Students must contact each department contemplated to be involved prior to initiating the development of an interdisciplinary program.

Although students must take at least 10 credits in each of the departments participating, departments may, at their discretion, require additional credit hours of the students as a condition of the departmental participation and admission of the student in the program. An initial program of study must be submitted to the Graduate School during the first year of course work.

Requirements for interdisciplinary degrees are the same as for other degree programs. An interdisciplinary thesis may be written with a minimum of three credits and a maximum of five credits in each department. The final oral examination must include a representative from each department and a GFR from a department not involved in the interdisciplinary degree program.

## Interdisciplinary Degree Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. Certain departments may also have other admission requirements. Please check with specific departments for further details.

## Master of Natural Science

Majors in Biology, Chemistry, Geology, and Physics or approved interdisciplinary combinations of the foregoing may lead to the degree of Master of Natural Science. This program is designed to provide subject matter material for those teaching at the secondary level or intending to do so. Requirements include possession of or pursuit of a standard secondary teaching credential. "Pursuit of a standard secondary teaching credential" shall be defined as follows: The following requirements must be completed by the student, or the student must have equivalency in these areas to meet the definition:

If a student enters a M.N.S. program with no equivalent course work in education, the student must take additional credits in addition to 30 graduate credits in the discipline to receive the M.N.S. degree. This requirement involves 12-19 credits, including student teaching, to be completed to receive teacher certification in Idaho. Candidates must complete a program of study in one, two, or three of the areas listed. The committee designing the program of study, in consultation with the student, should be comprised of members from each department involved plus a GFR.

Requirements include: (1) completion of a prescribed program of study of at least 30 credits at the graduate level approved by a departmental committee selected by the student in consultation with the student's major professor, and approved by the Dean of the Graduate School; and (2) satisfactory performance on final written and oral examinations. Courses to be counted toward the degree must be 5500-level or above. At least 22 credits must be taken in residence.

## Environmental Science and Management Master's Degree Program

Students may pursue a M.S. in Environmental Science and Management (ENSM) through the College of Science and Engineering. See the description and requirements of this degree in the Department of Civil and Environmental Engineering.

## Study Abroad

**STUA 5500 Study Abroad 9-12 credits:** Pre-arranged, planned courses of study at selected academic institutions outside of the United States. The student is responsible for resident

credit arrangements with department(s) and the International Programs Office prior to departure. Prefix and course name will be replaced on ISU transcript when study abroad transcript arrives. Graded S/U. **REPEATABLE WITH DEPARTMENT PERMISSION.**

## Tuition and Fees

**Fees are subject to change without advance notice by the Idaho State Board of Education prior to the first official day of class. (See "Policy Statement Concerning Graduate Catalog Contents" on the title page of this catalog.)**

In general, the expenses for Idaho State University graduate students may be divided into classifications of fees, board, and room. In addition to the fees listed, some courses may require the expense of special uniforms, protective clothing, field trip expenses, lab fees, or instructional costs for remedial courses.

### Enrollment Fees

Graduate students will be charged fees as full-time students whenever they enroll for 9 credits or more. For financial aid purposes, graduate assistants/fellows and students receiving other financial aid must enroll for 9 credits per semester to be considered full-time.

Certain programs require full-time summer study. Students in these programs are assessed full-time fees during the summer semester.

2014-2015 Fees and Tuition, including student health insurance fee\*.

	Per Semester	Per Year
Check ISU Website		

Please visit <http://www.isu.edu/finserv/costinfo.shtml> for updated information on fees and tuition.

\*The student insurance premium is a part of full-time fees. All full-fee paying students are automatically covered under the University's Student Insurance program. The premium is included in the fee schedule for each semester. Any student with existing health insurance coverage may be exempt from participation in the Student Insurance Plan by completing and filing a Health Insurance Waiver each academic year.

### Part-time Fees (2014-2015 Fees)\*

See updated information at:  
<http://www.isu.edu/finserv/costinfo.shtml>

## Idaho Residency Requirements for Fee Payment

Residency for tuition purposes is governed by Idaho Code § 33-3717 and the residency rules of the State Board of Education. Although a full-time regularly-enrolled resident student is not required to pay tuition while enrolled at Idaho State University, students are charged fees for educational costs excluding the cost of instruction in accordance with the Idaho State System of Higher Education "Notice to Non-residents of the State of Idaho."

### A student is a "resident" for purposes of fee payment if:

1. He/She has a parent or court appointed guardian currently domiciled in Idaho who has maintained a bona fide domicile in Idaho for at least one year prior to the opening day of the term for which the student enrolls; or
2. He/She receives less than 50% financial support from parents or guardians who are not residents of Idaho and has continuously resided in Idaho for at least 12 months prior to the opening day of the term for which the student enrolls and has established a bona fide domicile in Idaho primarily for purposes other than educational; or
3. He/She is a graduate of an accredited secondary school in the state of Idaho and is enrolled in a college or university in Idaho during the semester immediately following such graduation regardless of the residence of his/her parents or guardians; or
4. He/She is the spouse of an Idaho resident or person who qualifies for Idaho residency; or
5. He/She (or his/her parent or guardian) is an active duty member of the United States armed forces (only the U.S. Army, Navy, Air Force or Marine Corps) stationed in Idaho on military orders and the student receives 50% or more financial support from parent or guardian; or
6. He/She is separated, under honorable conditions, from the United States armed forces (a certified copy of the DD-214 separation papers may be requested) after at least two years of active duty service and has Idaho as the home of record in service or elects Idaho as his/her intended domicile within one year of separation and enters a college or university in Idaho within one year of the date of separation; or
7. He/She is a member of any one of the Idaho Native American Indian Tribes (Coeur d'Alene, Shoshone-Paiute, Nez

Perce, Shoshone-Bannock, Kootenai, or Eastern Shoshone), regardless of current domicile.

Any individual who has been domiciled in the state of Idaho, has qualified as a resident and would otherwise be qualified under the provisions of this statute and who is away from the state for a period of less than one (1) calendar year and has not established legal residence elsewhere provided a twelve (12) month period of continuous residency has been established immediately prior to departure is considered an Idaho resident for purposes of fee payment. Direct specific questions to: Idaho State University, Admissions Office, 921 S 8th Ave Stop 8270, Pocatello, ID 83209-8270, (208)-282-4096

**A "Non-resident" Student shall Include:** Any student attending an institution in this state with the aid of financial assistance provided by another state or governmental unit or agency thereof, such nonresidency continuing for one (1) year after the completion of the semester for which such assistance is last provided. Any person who is not a citizen of the United States of America, who does not have permanent or temporary resident status or does not hold "refugee-parolee" or "conditional entrant" status with the U.S. Immigration and Naturalization Service or is not otherwise permanently residing in the U.S. under color of the law and who does not also meet and comply with all applicable requirements for establishing residency as covered under these provisions.

**Establishing a New Domicile in Idaho:** The establishment of a new domicile in Idaho by a person formerly domiciled in another state has occurred if such person is physically present in Idaho primarily for purposes other than educational and can show satisfactory proof that such person is without a present intention to return to such other state or to acquire a domicile at some other place outside of Idaho. Residency decisions for fee payment purposes are made by the Admissions Office.

**This notice provides for appeal from a final determination denying residency status in the following way:**

Appeal may be initiated by the filing of an action in the District Court of Bannock County wherein Idaho State University is located; an appeal from the District Court shall lie as in all civil actions. Normal Idaho residency requirements shall be in force for students who apply for some special graduate and professional programs. These include but are not limited to the Idaho Dental Education Program (IDEP), the WAMI (Washington, Alaska, Montana, Idaho) Regional Medical Education Program; the University of Utah College of Medicine;

the WOI (Washington, Oregon, Idaho) Regional Program in Veterinary Medicine; the Western Interstate Commission for Higher Education (WICHE) Professional Student Exchange Programs (medicine, optometry and occupational therapy) and Graduate Education Program. Students who initially enroll at Idaho State University as nonresidents and later wish to be considered for a change in residency status may submit an Idaho Residency Determination Worksheet (IRDW) with the appropriate documentation. IRDWs intended to change residency status for the current term are accepted through the tenth day of classes.

**NOTE:** It is the responsibility of the person requesting reclassification of residency status to provide clear and convincing evidence of bona fide domicile in Idaho.

## Western Regional Graduate Program (WRGP)

The Western Regional Graduate Program (WRGP) makes high-quality, distinctive graduate programs and healthcare-related programs available to students of the West at the resident tuition rate. As part of the Student Exchange Program of the Western Interstate Commission for Higher Education, WRGP helps place students in a wide range of graduate programs, all designed around the educational, social, and economic needs of the West.

Through WRGP, residents of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming are eligible to enroll in available programs outside of their home state at resident tuition rates. Students need not demonstrate financial need.

To be included in WRGP, programs must meet the criteria of distinctiveness (if they are not related to healthcare) and quality. Programs are nominated by their institutions, peer reviewed by other graduate institutions in the West, and then researched and reviewed by WICHE staff for final approval. At this time, some 250 programs from more than 45 Western institutions participate. A full list of WRGP programs is on the WRGP website,

To be considered for the WRGP tuition rate, students simply apply directly to the department of the enrolling institution and identify themselves as WICHE WRGP applicants. Contact information for each participating program is listed in the WRGP online directory. WRGP students must fulfill all the usual

requirements of the department and institution concerned, and meet all admission deadlines.

The following graduate programs at Idaho State University have been approved by WRGP:

Audiology - AuD; Biological Sciences: PhD and DA; Deaf Education; English and the Teaching of English; Mathematics; Medical Laboratory Science; Political Science; Ph.D. in Clinical Psychology and the Ph.D. in Experimental Psychology; Speech-Language Pathology; Waste Management and Environmental Science; History: M.A. Historical Resources Management

For more information please visit the WRGP website: <http://www.wiche.edu>.

## Other Fees and Charges

Graduate Classified (degree seeking)	
Application/Processing Fee	\$55.00
Unclassified (non-degree seeking)	\$25.00
Late fee (after semester has started)	\$50.00
Reapplication fee (after 8 semesters/terms)	\$55.00
Change of Status (unclassified to classified)	\$55.00

Student Health Insurance Fee: varies by semester; included in full-time fees  
<http://www.isu.edu/finserv/costinfo.shtml>

## Class Fees (in addition to regular registration fees)

Many university classes require additional fees for specialized instruction and/or supplies. See the Class Schedule for class fees required for specific courses.

## Late Registration Processing Fees

Second thru 10th day of classes	\$50.00
After 10th day of classes	\$100.00

To help defray the extra cost involved with late registration, processing fees are charged in addition to any other regular fees. All students (full-time, part-time, faculty, staff, etc.) paying fees after the deadline for fee payment are charged a late processing fee. The cashier is not authorized to accept late registration fee payment without the appropriate late processing fee. This fee is non-refundable. No department or employee of the university, other than those specifically authorized, has the authority to waive the fee.

## Faculty, Staff and Spouse Registration Fee \$20.00 + \$5.00 per credit hour

A copy of the current "Education Policy for Idaho State University Employees" is available in the Human Resources Office. Verification of employment and authorization forms for reduction in fees can be obtained from the Human Resources Office.

## Senior Citizen Registration Fee \$20.00+ \$5.00 per credit hour

Age 60 years or older: proper identification indicating date of birth is required. Fee reduction applies to Idaho residents only. It does not apply to special class fees. Fee is for courses on a space available basis only.

## Transcript Fee

Please see information at:  
<http://transcripts.isu.edu>

## Application for Graduation and Diploma Processing Fee \$20.00

This fee is collected from each applicant for each graduate degree and for each certificate. This fee is paid to the Office of the Registrar.

## Reprocessing Fee for Graduation \$20.00

This fee is paid to the Graduate School.

## Housing Costs

Please contact University Housing for more information, Stop 8083, Idaho State University, Pocatello, ID 83209, or (208)282-2120.

# Refund Policy

## General Fee Refunds

The Refund Policy applies to all for-credit classes regardless of location of the class.

All fee refunds will be paid by University check.

When any student enrolled in for-credit classes withdraws from Idaho State University or makes schedule changes that reduce the fee obligation, refunds are made on the following basis:

## General University Fees Paid Without Use of a Fee Reduction Program

Refunds are calculated and authorized by the Office of Financial Services. The drop/withdrawal date is the actual date the drop or withdrawal form is received by an authorized University office or automated system.

Refunds of registration charges for full-time fees, part-time credit hour fees, nonresident tuition, professional program fees, and departmental fees are calculated on the total amount of fees paid, using the first official day of the University semester or session as the starting date.

Federal financial aid provisions may require funds to be returned to federal programs in excess of your ISU refund. In such situations, you will be billed for the excess remitted by the University in your behalf.

The official starting and ending dates of all classes are those designated by the University registrar.

## Percentage Refund of Computed Base

### Fall and Spring Semester:

Classes cancelled by the University	100%
16-week classes for the first (10) ten days of university classes and 8-week classes for the first (5) five days of University classes	100%
16-week classes for the next (5) five days (third week) of University classes and 8-week classes for the next (5) days (second week) of University classes.	50%
16-week classes dropped after the third week of classes. 8-week classes dropped after the tenth day of classes.	No Refunds

### Summer Session:

Classes cancelled by the University	100%
Full term session (May - Aug) for the first 10 days of University classes and 4, 6, 8 week sessions dropped in the first 5 days of University classes.	100%
Workshop classes dropped before the 1st day of the workshop.	100%
Full term session (May - Aug) for the next 5 days (3rd week) of University classes and 4, 6, 8 week classes dropped in the next 5 days (2nd week).	50%

For classes, short courses, continuing education classes, and workshops with nonstandard starting and ending dates, refund requests are reviewed on an exception basis. The official starting and ending dates are those designated by the University registrar.

## Non-Refundable Fee Charges/Payments

1. Reduced fee charges authorized by the State Board of Education. Examples include faculty/staff/spouse reduced fees, senior citizen reduced fees, education contract classes, etc.
2. Late processing charges.

- Amounts paid to satisfy unpaid fees/charges from previous terms.
- Amounts paid for student malpractice insurance.
- Student Health Insurance premiums are not refunded under this policy. Please contact the Student Insurance Coordinator at (208) 282-2972.

### Refunds for Exceptional Circumstances

In specific cases, as listed below, a full refund of the registration tuition and fees, credit hour fee, non-resident tuition and professional fees will be granted following official withdrawal from the University, provided the withdrawal process is completed during the first half of the semester or session (i.e., first eight weeks of a semester, first four weeks of a session). Proper documentation must be presented and approval granted by the offices of Student Affairs and Finance and Administration before the refund will be processed.

- Induction of the student into the U.S. armed forces.
- Incapacitating illness or injury that prevents the student from returning to school for the remainder of the term. A medical withdrawal must be processed through the University Student Health Center.
- Death of a student.
- Death of spouse, child, parent, or legal guardian of student.

### Deductions from Calculated/Authorized Refund

The University reserves the right to deduct amounts owed the University from refunds. Refunds of fees for the term, less any outstanding fee loan balances for the term, are applied to the financial aid awarded to the student in the priority sequence shown below:

- Amounts required by law to be returned to Federal Financial Aid programs
- Third party agency payments of actual tuition and fees
- University authorizations specifically for the payment of tuition and fees (i.e., graduate teaching assistant, athletics, etc.)
- Federal aid programs (see Financial Aid Handbook for priority)
- Miscellaneous outstanding balances due the University
- University loan programs
- University and donor scholarship programs

### Payment of Refund to Student

A University check for the refund balance is mailed to the home address of the student, along with an itemized disclosure of any de-

ductions. Refund checks are processed four weeks after the beginning of the term, or a minimum of three weeks after the date of payment if the student paid the charges.

### Registration Refund Appeals

Contact the Vice President of Student Affairs or the University Controller for information about the University registration fee refund appeal process. Appeals should be submitted in writing before the end of the term for which the student is appealing.

### Room and Board Fees

Students who fail to complete their agreement with University Housing will have their room and board fees pro-rated and, after appropriate penalties have been deducted, may receive a refund. See University Housing for details on residence hall and apartment living, and for details on any penalties for breaking agreements.

### Delinquent Accounts

The cancellation of registration and withholding of academic credit of any student with a delinquent account or an unsatisfactory financial relationship with the Office of Finance and Administration is authorized without further notice, provided an attempt has been made to notify the student by the campus department in which the hold originated. This regulation may be invoked at the discretion of the Vice President, Finance and Administration, in cases of disregard in the settlement of returned checks, residence hall damage, library fines, telephone toll charges, overdue notes, traffic fines, room and/or board charges, apartment rental charges, etc.

### Dishonored Check Policy

A charge is assessed each time a check is returned, the amount is charged to the student's account, and the student is so notified. If the check is not cleared within ten (10) days, a second notice is sent and a "hold" placed on his/her records.

Any check tendered in payment of registration fees and subsequently returned by the bank will result in automatic postponement of the student's registration.

In the case of a check tendered in payment for room and board and subsequently returned by the bank, the student is notified immediately and allowed not more than five (5) days for the check to clear. If not cleared within that time, the student's meal ticket and/or room reservations is canceled.

## Federal Family Educational Rights and Privacy Act of 1974

Idaho State University in compliance with the Family Educational Rights and Privacy Act (FERPA), is responsible for maintaining educational records and monitoring the release of information of those records. Staff and faculty with access to student educational records are legally responsible for protecting the privacy of the student by using information only for legitimate educational reasons to instruct, advise, or otherwise assist students.

Only those records defined as "directory information" may be released without the express written permission of the student. Directory information includes the student's name, address listings, telephone listings, e-mail addresses, full-time/part-time status, class level, college, major field of study, degree types and dates, enrollment status, club and athletic participation records, and dates of attendance including whether or not currently enrolled. No other information contained in a student's educational records may be released to any outside party without the written consent of the student.

A student may restrict release of all directory information by filing a Declaration of Non-disclosure of Educational Record Information form in the Office of Registration and Records. Students may choose to restrict release of their address and telephone listings only. This may be done through BENGALWEB. This restriction will apply to the students' address and telephone listings only; all other directory listings will continue to be available for release.

Students must request complete directory information restriction or address/phone listing restrictions during the first week of the fall term to prevent their information from being published in the Student Directory. Any restriction is permanent and remains in place even after the student has stopped attending or has graduated from the University unless the student requests, in writing, that it be removed. Additional FERPA information may be found on the web at: <http://www.isu.edu/areg/ferpafacts.shtml>

## Financial Support

The following financial information is a listing of the categories of financial help that may be

available to graduate students. However, in many instances specific sources of assistance are available only at certain times of the year and require application with a deadline enforced. With respect to campus-based aid (special non-resident waivers, loans, and college work study), applications should be made the January preceding the fall/spring semester for which aid is desired. To obtain specific details about a particular type of financial assistance, contact the Office of Financial Aid, Museum Building, Stop 8077, Idaho State University, Pocatello, ID 83209-8077, (208) 282-2756.

## Satisfactory Academic Progress

To retain financial support as a graduate student, almost all sources of funds require that the student must maintain satisfactory academic progress. For graduate assistantships and fellowships, students ordinarily must earn nine graduate credit hours or more each semester and maintain a 3.0 grade point average. Some departments may require additional evidence of satisfactory progress for a student to remain eligible to receive assistantship or fellowship support. Students who receive financial aid through the Office of Financial Aid must meet the criteria established by that office for satisfactory progress to remain eligible for further aid.

## Student Employment Policy

Student Employee Positions shall be defined as those filled by anyone enrolled at Idaho State University at least half time (as defined by ISU Registrar). Employment in this category is predicated upon the individual being a student of Idaho State University in accordance with Idaho Code 59-1302.

### Hours Worked

- When school is in session during the fall and spring semester, a student employee must work less than 20 hours per week.
- When school is not in session at times such as spring break and the winter break between fall and spring semester, a student employee must work less than 30 hours per week, unless otherwise prohibited by the employing department, funding source, or student work eligibility.
- During the summer break, a student employee may be employed for the entire 14 weeks of summer at less than 30 hours per week, or a student employee may work up to 40 hours per week for a maximum of 12 calendar weeks, unless otherwise prohibited by the employing department, funding source, or student work eligibility. If an employing department

has a need to employ a student employee at 30 to 40 hours per week for longer than 12 weeks between the spring and fall semester, the department must consult with the Office of Human Resources and their respective management chain to assess benefits eligibility and related budget implications and as necessary, obtain approval for the establishment of a benefits eligible position through the IPAS approval process.

## Assistantships and Fellowships

Assistantships and fellowships are awarded at the departmental or college level. Requests for consideration of these awards should be directed to the graduate program director, department chair, or academic dean of a specific academic unit. Most assistantships and fellowships are awarded on an academic year basis. These awards are generally made in the spring for the following academic year. To ensure consideration, a request for such financial support should be made to the academic unit by February or March. Contact individual departments or colleges for specific application deadlines.

**Only students admitted as Classified (degree-seeking) students are eligible to apply for graduate assistantships or fellowships. Classified (w/PR) and Unclassified students are not eligible to receive assistantships.** Because full-time graduate assistants are expected to work up to 20 hours per week, the maximum number of graduate credits an assistant may earn in a given semester is 12. **Normally, a full-time graduate assistant is expected to carry a minimum of nine graduate credits, which is a full load.** DA fellows are expected to carry a minimum of nine graduate credits per semester.

Permission to carry fewer than nine or more than 12 graduate credits may be granted by the Dean of the Graduate School upon written recommendation of the student's advisor or program director.

Doctoral graduate assistants ordinarily receive higher stipends than those at the master's level. Full-time graduate assistants and fellows may also be awarded scholarships to cover in-state student fees, student health insurance, and nonresident tuition in addition to the stipend.

A student with a graduate assistantship or fellowship may be employed in addition to the awarded stipend. This employment may only occur with permission of the Dean of the Graduate School and usually must be limited to 10 hours per week. Requests for permission

for such employment must be sent in writing by the department chair or graduate program director to the Dean of the Graduate School.

## Graduate Assistantships (GA)

There are about 200 GAs available across the University; most of these require serving as an instructor for a department. Most assistantships are awarded in the spring semester for the next academic year. Full-time GAs are expected to work up to 20 hours/week for their stipend. Contact the department chair or graduate program director for GA application information.

Graduate assistants who are international students, whose native language is not English, and who have been assigned to teach, must complete an English speaking proficiency examination, usually the Spoken English Assessment Kit (SPEAK), administered at the ISU Student Success Center. In order for an international student to be awarded a GA and teach a course the student must score 23 or above on the Speaking Section of the TOEFL iBT.

Normally, graduate assistants are involved in classroom instruction, supervision of laboratory sections, grading papers and/or examinations, assisting faculty members in research activities, or other equivalent duties.

## Research Assistantships (RA)

Research Assistantships are available across the University through grant monies or other external sources. Conditions of employment and amounts of compensation vary. Questions about such sources of support should be directed to the academic departments or colleges.

## Fellowships

There are 26 fellowships in "teaching doctorate" programs: 20 are distributed among Doctor of Arts programs in Political Science, Biological Sciences, and Mathematics, and 6 are in English for the Ph.D. in English and the Teaching of English (a renaming of the D.A. in English). These programs emphasize discipline-specific research as well as practical and theoretical work in pedagogy in both coursework and final projects and aim to place students in teaching-intensive positions at the university level, particularly in two-year colleges. These fellowships are available only in the Departments of Biological Sciences, English, Mathematics, and Political Science. Most of these are

awarded in late spring-early summer each year. Contact these departments for details and applications. See location/phone below.

Contact	Location	Phone
Biological Sciences	Life Sciences Bldg.	282-3765
Mathematics	Physical Sciences Bldg.	282-3350
Political Science	Graveley Hall	282-2211

### Tuition and Fee Scholarships

Departments may offer tuition and fee scholarships as separate awards to graduate assistants, research assistants, and DA fellows. However, these offers are at the discretion of the departments. Non-resident tuition waivers accompany all graduate assistantships and DA fellowships but are offered as separate scholarships.

## Graduate School Awards

### Graduate Assistantship Teaching Experience (GATE)

The former “At-Large” Graduate Assistantships are renamed: Graduate Assistant Teaching Experience (GATE) Assistantships. GATE assistantships are awarded annually by the Graduate School to departments. Department applications are due December 15, with awards being made in early March annually. GATE Assistantships are one year, Master’s level awards. GATE assistants are required to participate in the GATE Curriculum and the GATE opportunity; and allocate and fulfill their assistantship hour requirements as follows:

- Up to 15 hours/week = Department discretion in support of “teaching”
- Up to 5 hours/week = dedicated to the GATE experience.

The GATE Curriculum requires GATE award-ees to: (a) enroll in the GATE Seminar during their first (the Fall) semester of graduate study. The GATE Seminar (GRAD 6600) is a 1 credit graduate seminar, designed and delivered by the Graduate School, focused on enhancing, supporting, and facilitating graduate student exploration of, and success in college-level teaching; and (b) enroll/participate in 1 “elective” graduate-level academic credit (or equivalent) focused on teaching.

GRAD 5501 Entrepreneurship and Graduate Education 2 credits. This course is designed to show graduate students the benefits of entrepreneurship education.

GRAD 6600 GATE Seminar 1 credit. A graduate seminar designed and delivered by the Graduate School, focused on enhancing, supporting, and facilitating graduate student exploration of, and success in college-level teaching. Required of GATE TA/GA recipients, but open to all ISU graduate students. Graded S/U. May be repeated.

## Non-Resident Tuition Waivers (NRTW)

There are several categories of non-resident tuition waivers. In each case a different contact person or procedure must be followed in applying. It is important to note that these waivers do not cover the required in-state enrollment fees, but only the non-resident tuition. Unless other scholarships are awarded, the student must pay the in-state enrollment fees each semester, including summer.

A limited number of these awards are distributed on a competitive basis. To be eligible for consideration for an NRTW, a graduate student must have Classified admitted status and have submitted GRE/GMAT/MAT scores to the Graduate School. Students should apply using the form supplied by the Graduate School. NRTW applications must be received by May 1st for the following Fall Semester consideration and by December 1st for the following Spring Semester. The non-resident tuition waiver may be granted for the academic year or for one semester only. Awards are made after final grades for the current semester are recorded.

#### Minimum Criteria:

- Must be full-time (at least 9 graduate credits each semester)
- Must be a degree-seeking undergraduate student
- Must have a minimum GPA of 3.00 at the time of award and for award renewal
- Awards are renewable for up to eight semesters based on meeting the minimum criteria
- Preference given to academically superior students in under-subscribed majors

Programs that currently do not qualify for a NRTW: Counseling, CSD, Nursing, Occupational Therapy, Physicians Assistant & Physical Therapy

## Other Non-Resident Tuition Waivers (NRTW)

Additional waivers beyond those described may be available and require application to the appropriate office. These waivers are awarded on a competitive basis. Contact and application may be made to the offices listed below.

- Financial Needs—contact: Financial Aid Office— RM 337 Museum Bldg.— phone: 282-2756
- International Students—contact: Division of Student Affairs—RM 184 Hypo-

style—phone: 282-2315

## Loans

Loans may be available to graduate students. To inquire about application and eligibility requirements contact the Office of Financial Aid, Room 337, Museum Building, Stop 8077, Idaho State University, Pocatello, ID 83209-8077, (208) 282-2756.

## Grants

Federal grant programs administered by the Office of Financial Aid are not available to graduate students. Pell Grants, Supplemental Educational Opportunity Grants, and State Student Incentive Grant Programs are only available to undergraduate students who have not earned a bachelor’s degree. Special non-resident waivers administered by the Office of Financial Aid are available to graduate students who are citizens or eligible non-citizens and meet other financial need criteria.

## Research Grants

A small fund in the Office of Research has been created to provide money to graduate students on a competitive basis to conduct thesis or dissertation research. Research proposals with budgets must be submitted to the Office of Research by deadlines established and posted on the Office of Research website. Guidelines for research grant proposal preparation are available from the Office of Research. The Call for Proposals is typically sent out the first Monday in February for the following Fall Semester, and the last Monday in September for Spring Semester awards.

## Scholarships

Scholarships are available to graduate students in some instances. Announcements of scholarships currently available are posted on the scholarship bulletin board located outside the Office of Financial Aid (Museum Building, Room 327). Please note that some scholarship categories are discontinued at times and new ones are created. Therefore, a regular check at the Office of Financial Aid may be useful to interested students. In addition, there may be off-campus scholarship sources such as parents’ or spouses’ employers, fraternal organizations, churches or businesses, or national foundations. These sources may be discovered by a systematic and careful search by the student. Departments/colleges may also have specific scholarships.

A small number of ASISU scholarships, which are derived from student fee payments, are available to graduate students. These are awarded on a competitive basis. Application

materials can be obtained from the offices of Deans of academic colleges, the Office of Research and the Graduate School near the middle of each semester. The Graduate Student Scholarship Committee recommends awardees to the Scholarship Office and the ASISU Senate. Graduate student applications for consideration of ASISU scholarships must be returned to the Graduate School to be considered for a graduate student ASISU Scholarship.

## Employment Information

A student with a graduate assistantship or fellowship may be employed for compensation in addition to the awarded stipend. This employment may only occur with permission of the Dean of the Graduate School and usually must be limited to 10 hours per week. Requests for permission for such employment must be sent in writing by the department chair or graduate program director to the Dean of the Graduate School.

Student Employment is now found at the Career Center (<http://www.isu.edu/career/>). Please contact (208) 282-2778.

Work Study: Work Study positions are part of a financial aid package and are administered through the office of Financial Aid. A complete list of work study positions is available on their website (<http://www.isu.edu/finaid/cws.shtml>)

## Travel Funds

Graduate students may request aid for travel expenses to present papers on thesis or dissertation research at regional or national meetings. Such requests should be presented only after a paper has been accepted by the official sponsoring organization of the discipline. Funds for such purposes are very limited, and only modest requests are likely to be funded. Funds for such purposes should be requested sequentially from the following contact points:

Academic Department  
Academic College  
Office of Research  
Graduate School

When submitting written requests to the Office of Research for travel funds, a breakdown of expenses for registration, lodging, travel, and per diem is necessary. See the Office of Research website for details.

## Thesis and Dissertation Research Costs

Some Academic departments meet at least

some of the costs of thesis and dissertation research. In some instances such costs may be met by extramural funds obtained by faculty and/or departments. With the exception of the small research grant program listed previously, the Office of Research does not provide funds for such purposes and will refer students to the department chair or dean of the college when such requests occur. Publication costs of theses and dissertations are met by the student unless a faculty member or department chooses to pay such costs with funds available to them.

## Physical Facilities and University Services

The Idaho State University campus is situated on 240 developed acres of its 1,100 acres of property. Its 105 buildings are surrounded by 180 acres of attractively maintained landscape. There are over 5,600 parking spaces available throughout the campus.

For convenience, a free on-campus shuttle bus is available during the fall and spring semesters. Riding a bicycle is also a popular way to get around campus. The campus is located just off of the interstate, making access very easy. The University commuter bus system brings students to the campus from over one hundred miles away from Rexburg, Idaho Falls and areas in-between. A commercial bus service is also available from Twin Falls and surrounding areas to campus.

ISU classes are located in the various campus buildings ranging from the oldest, Frazier Hall (built in 1925), to the newest, the Rendezvous Building (completed in 2007). The Rendezvous is a new 256,000 square foot, multi-use facility located in the center of campus and contains 82 new student suites that house 300 students, a 40 classroom academic building with a 250 seat lecture hall/future planetarium, a new food court service facility to serve housing students and retail customers, as well as a 120 seat drop-in computer lab and numerous styles of study and relaxation spaces. This expansive facility creates a new living, learning, studying, social and academic heart for the campus.

The L. E. and Thelma E. Stephens Performing Arts Center, completed in 2004, is located on 16.8 acres, high on a hill on the perimeter of the campus, adjacent to Interstate 15. This 123,000 square foot facility includes a 1,200 seat concert hall, an elegant rotunda, a 446 seat thrust theatre, and a 200 seat black box theatre. The three-level concert hall, the Center's largest venue, incorporates state-of-the-art design and technology to optimize sound. The Center also includes classroom space,

offices for the Department of Theatre and Dance, and a conference room. The facility and the various, wonderful performances it holds are a must-see part of campus.

Opened in October 2008, the Center for Advanced Energy Studies or "CAES" Building is a world-class research facility with offices and laboratories for collaborative projects between Idaho State University, Boise State University, the University of Idaho, and Idaho National Laboratory scientists and engineers. The building is planned as a LEED Gold building and located on our Idaho Falls campus. It is a 55,000 square foot, \$18 million facility and includes a hydrogen lab, advanced materials lab, imaging suite, radio chemistry and chemistry labs, systems modeling, power wall, and visualization cave.

Opened in 2009, ISU's 46,000 square foot ISU Meridian Building includes programs with an emphasis on health sciences.

Remodeling and updates of the campus are an ongoing process. All of the campus buildings are accessible to the disabled.

Occupied in 1971, Holt Arena was the first enclosed football stadium on any university campus. The arena is used for football and basketball games, indoor track meets, and various trade and garden shows.

Recently remodeled Reed Gymnasium provides a unique and exciting venue for basketball games, volleyball, and other sporting events. A world-class climbing wall is located in the Recreation Center along with racquetball courts, a running track, weight rooms and other sports equipment rooms as well as a swimming pool. The Recreation Center was expanded in 1996 and again in 2010.

Historic Davis Field provides a well-maintained, multi-use field and outdoor running track where Idaho State University hosts a variety of events including soccer games and track meets and Special Olympics. Bartz Field is a 30 acre, dog-friendly field used for events such as softball, archery, sledding, cross country, golf, and rugby. The Pocatello Greenway passes through the campus above Davis Field, connecting with several miles of trail through the Portneuf Valley.

Outdoor recreation opportunities abound on the many acres of developed and undeveloped campus grounds. A disc golf course, challenging cross-country track, bike trails, jogging trails, hiking areas, and walking paths are part of the Idaho State University campus, and softball, track, ultimate frisbee, soccer, and rugby are all options for the active student. Summer and winter sports including skiing are also available only minutes away in the beauti-

ful mountains surrounding the city.

The ISU-Idaho Falls campus provides modern classroom facilities and a student union. The University also has many outreach centers available to assist students in Southeast Idaho, Twin Falls, and Meridian.

## Student Health Services

The ISU Student Health Center provides the entire range of medical office care as is provided at a hometown doctor's office. This includes everything from treatment of colds and flu to treatment of high blood pressure and diabetes. Care is provided for broken bones, lacerations, abscesses, and other urgent care problems. Preventative health services such as immunizations, nutrition counseling, and birth control are areas of particular interest.

All full-time fee paying students (9 credits or more) are eligible to see a care provider at the Student Health Center at no charge. (Student insurance is not required to utilize the Student Health Center.)

Part-time students and spouses of full-time students are charged a clinic fee to see a care provider. The Student Health Center bills private insurance as well as student insurance when billable services such as laboratory tests, X-ray studies, special procedures, etc. are performed. Same day appointments are available as well as advance appointments. A walk-in clinic is held each day. A valid Bengal ID card is required to obtain services.

The Student Health Center is located at 990 Cesar Chavez Avenue—across from Graveley Hall. For additional information call 208-282-2330.

The Student Pharmacy provides low-cost prescription drugs as well as over-the-counter medications at reduced costs. Students may wish to transfer prescriptions to the Student Pharmacy while they are attending ISU. All ISU students, both full- and part-time can use the Student Pharmacy.

The Dental Hygiene Clinic provides dental care by dental hygiene students, evaluated by licensed hygienists serving as faculty, and supervised by licensed dentists.

The Department of Physical and Occupational Therapy operates several programs providing clinical services to patients from the university and community on a sliding payment scale.

The Department of Speech Pathology and Audiology operates the ISU Speech and Hearing Center and the Audiology Clinic, offering comprehensive evaluation, diagnostic testing

and therapy services.

The ISU Wellness Center helps students maintain desired levels of health and fitness through a wide variety of classes, including aerobics, aquacise, and yoga, as well as weight machines, free weights, and a variety of cardio machines. The Wellness Center also provides fitness assessments, health appraisals, nutrition analyses and education, and campus-wide health screenings. Many Wellness Center services are free to ISU students.

The Janet C. Anderson Gender Resource Center at Idaho State University serves as the focal point on campus for the consideration of gender issues. The mission of the Center is to increase awareness and promote open dialogue about gender through its resources and services, educational programming and support of gender-related research. In our efforts, we are especially guided by the ideal of diversity, as valued by the Division of Student Affairs, which allows us to envision a future free of the limitations imposed by our culture's standard definitions of gender. Funded by Student Affairs through mandatory student fees, the Center's primary target audience is that of ISU students; the Center also welcomes the interest and participation of prospective students, ISU faculty and staff, and members of the Eastern Idaho community.

## Counseling and Testing Center

The Center for Counseling and Testing Services provides personal counseling and individual assessments to assist students in coping with psychological, emotional and interpersonal stress. Crisis intervention and consultation with concerned faculty and staff regarding student's needs are other important services available. Counseling staff can usually assist students with concerns such as anxiety, depression, self-esteem, motivation, eating problems, stress relief, and interpersonal relations. Personal counseling is free and confidential; all staff are licensed by the State of Idaho as counselors or psychologists.

The Center administers over 50 national and several institutional tests, including those for Graduate School and professional school admission, such as the Graduate Record Exam (GRE), Graduate Management Aptitude Test (GMAT), Medical College Aptitude Test (MCAT), etc., teacher certification (NTE), and professional certification exams (Real Estate, Social Work, Dental Hygiene, etc.).

The Center is the Computer-Based Testing Center in this region for administering the GRE, GMAT, MAT, PPST, and NBTCP.

## Information Technology Services

Information Technology Services (ITS), located in the basement of the College of Business building, is dedicated to meeting the computing needs of students. Kiosk computers are installed in numerous locations throughout campus to provide fast and convenient stand-up email and Internet access. Nine computer labs in Pocatello, three in Idaho Falls, two in Meridian, and one in Twin Falls are open to Idaho State University students. Additional computer labs with specialized discipline-specific software, operated by individual departments, but supported by ITS, are also available. Use of the computer labs, kiosks, wireless network and most departmental labs require the purchase of an ISU Computer Account (currently \$35.00 per semester and \$30.00 summer).

ISU Computer Accounts may be purchased at the IT Service Desk in Pocatello (BA-B9 and Rendezvous Computer Lab), and in the ISU-Idaho Falls, ISU-Twin Falls and ISU-Meridian computer labs. The ISU Computer Account allows access to the computer labs, kiosks, data storage, personal web page, printing, access to email and the ISU wireless network. Some courses require an ISU Computer Account.

The IT Service Desk, [help@isu.edu](mailto:help@isu.edu) or 208-282-HELP (4357), provides support to students accessing ISU's information technology services, such as Moodle ISU and e-mail from personal computers and laptops. Students may also visit our IT Service Desk locations wherever ISU Computer Accounts are sold (locations listed above).

Idaho State University's home page, <http://www.isu.edu>, provides access to a wide variety of university information (such as web-based course material, campus events, online library access and this Catalog). All admitted students have a personal customizable Web portal found at <http://my.isu.edu>. All enrolled students are provided an Idaho State University email account.

Students are encouraged to use the online technical support page at <http://help.isu.edu>.

For more information about ISU's Information Technology Services, visit <http://www.isu.edu/its> and the Computer Labs & Technology web site found on ISU's "Current Student" home page (<http://www.isu.edu/current.shtml>).

## Eli M. Oboler Library Building

The University Library, named for its past Director, Eli M. Oboler, contains major collections of books, periodicals, electronic resources, maps microforms, and government publications, and provides a full range of services to students, faculty, and staff. The library collection of book and serial volumes and its active journal subscriptions in all formats are accessible through its automated catalog and circulation system, available through the library web page. These resources are available to the Idaho State University community. For most resources, remote access is available across the state with appropriate authentication. The University Library has been a depository for federal publications since 1908, and for State of Idaho publications since 1972. The government publications collection contains printed items and items published in microform.

General reference service is provided on the first floor, where librarians are available to assist patrons in the use of databases and other reference resources. Library instruction is available to classes and student groups, and is tailored to address students' specific needs, from general library orientation to subject-specific bibliographic research. In addition to supplying informational materials from its own collections, the library provides an interlibrary loan service equipped to locate and deliver books and periodical articles from other libraries' holdings. Using online electronic ordering and transmission, as well as postal services, the interlibrary loan service fills most requests within a week, but students should allow a two-week turnaround time.

The Idaho Health Sciences Library, a department of the Eli M. Oboler Library, supports the health sciences information needs of the university and the Idaho health-care community. It also provides specialized health science reference, research, and instruction services. The Arthur P. Oliver Law Library, located on the first floor of the Eli M. Oboler Library, houses more than 13,000 law books. An excellent reference resource for students, faculty, and staff, it is supplemented with legal databases.

Idaho Falls Services: The University Library Center at Idaho State University-Idaho Falls provides reference services, a limited reference collection, and a study area for Idaho State University students. Also available are public access workstations on which students and faculty are able to access most of the information databases available to students at the main campus. With the assistance of trained staff, students are able to request the

delivery of books and journal articles from the University Library.

Twin Falls and Lewiston: The Oboler Library has agreements with the libraries at the College of Southern Idaho and at Lewis-Clark State College. These agreements ensure strong library support for Idaho State University's students in the Twin Falls and the Lewiston areas. Under these agreements, Idaho State University students are able to access the two libraries and check out materials. They also receive full reference, instruction, interlibrary loan, and database searching services. On-line access to Idaho State University Library databases and the catalog are available.

Meridian: A similar agreement in Meridian provides Idaho State University students and faculty the same library privileges accorded to Boise State University students and faculty upon presentation of their Idaho State University Bengal identification cards.

Graduate students are encouraged to use all the services mentioned above, especially library instruction for any classes they teach. Those teaching may also take advantage of the library's reserve service for class supplemental readings. Reserve services are available online, as well as in Pocatello and in Idaho Falls. Interlibrary loan is required to supplement the local collection in certain research fields. The reference staff is available for searching specialized databases and for assisting with research.

For more detailed information regarding Library services, including hours of service and policies, please visit the library website at [www.isu.edu/library](http://www.isu.edu/library).

## Idaho Museum of Natural History

It is the mission of the Idaho Museum of Natural History to actively nurture an understanding of and delight in Idaho's natural and cultural heritage. As the official state museum of natural history, it acquires, preserves, studies, interprets, and displays natural and cultural objects for Idaho residents, visitors, and the world's community of students and scholars. The Museum also supports and encourages Idaho's other natural history museums through mentoring and training in sound museological practices.

The Idaho Museum of Natural History is home to collections in anthropology, vertebrate paleontology, earth science, and the life sciences. It holds an archive of documents and ethnographic photographs. Researchers pursue scholarly study of the collections and publish their findings in peer-reviewed and museum-

sponsored publications. The Stirton-Kelson Library of the IMNH specializes in archaeological and paleontological holdings and is a branch of the main ISU Eli M. Oboler Library. Exhibitions emphasize the collections and mission of the Museum, and include permanent and special offerings. Educational classes for children, families, and adults provide more in-depth exploration of the natural history of Idaho.

Curators lead national and international research in Quaternary studies. The Museum's research profile supports acquisition and use of collections for research and education. Undergraduate and graduate students have access to Museum collections for instruction, training, and graduate theses and dissertations.

The Museum offers undergraduate and graduate students educational credits under Museum prefixes and through courses in Anthropology, Biology, Education, Geo-science, History, and other affiliated Idaho State University departments.

The Idaho Museum of Natural History galleries are open from 12:30 p.m. - 5 p.m., Wednesday through Friday, 10:00 a.m. to 5:00 p.m., on Saturdays, except for Federal and State holidays. There is no admission fee.

## Affirmative Action/Equal Opportunity

Idaho State University is committed to providing a positive education for all students. The University has a legal and ethical responsibility to ensure that all students and employees can learn and work in an environment free of harassment and discrimination. It is the ISU policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, age, or disability. This policy applies to all programs, services, and facilities, and includes, but is not limited to, recruitment, applications, admissions, access to programs and services and employment. For additional information and specific contact information, see: <http://www.isu.edu/aaction/>

## C. W. Hog

The Cooperative Wilderness Handicapped Outdoor Program (C.W. HOG) is a year-round program of activities for people with and without disabilities. Academic credit may be granted for participation in activities which include weight training, swimming, snow skiing, water skiing, and whitewater rafting.

## Americans with Disabilities

The Americans with Disabilities Act (ADA),

of 1990, is the civil rights guarantee for persons with disabilities in the United States. It provides protection from discrimination for individuals on the basis of disability. The ADA extends civil rights protection to people with disabilities in matters which include transportation, public accommodations, accessibility, services provided by state and local government, telecommunication relay services, and employment in the private sector.

Idaho State University, in the spirit and letter of the law, will make every effort to comply with "reasonable accommodations", according to section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the ADA Amendments Act, (ADAAA), of 2008. Idaho State University will not discriminate in the recruitment, admission, or treatment of students or employees with disabilities.

Students with disabilities who wish to have accommodations provided by the University must self identify to the ADA & Disabilities Resource Center for determination of need for accommodations. Information about and applications for accommodations are available at the ADA Center and may be picked up in person or requested by telephone or TDD by calling (208) 282-3599.

In order for the ADA Center to arrange accommodations for those who need assistance, they request documentation of disability as early as possible so that timely arrangements can be made.

Students and employees who need auxiliary aids or other accommodations should contact the Director, Dennis Toney, at the ADA & Disabilities Resource Center, Graveley Hall, Room 123, Stop 8121, (208) 282-3599.

## Other Student Services

In addition to the services mentioned previously, some of the other general student services available on campus are:

- the International Programs Office, which provides assistance, support and guidance to Idaho State University's international students. Services include student orientation to the Idaho State University campus and Pocatello community, on-going cross-cultural activities, student-to-student mentor programs, and additional programs to help international students make the most of their time at ISU.
- the Student Success Center, which offers programs in study skills, reading, writing, mathematics, and English for speakers of other languages, and includes individualized instruction, tutoring, and workshops. The Center also administers the Content

Area Tutoring Program.

- the Career Development Center, which provides career counseling, career testing, alumni consultants, internship opportunities, student employment assistance, job interviewing techniques, networking skills training, credential files, on-campus recruiter interview, and other career-related support to students and alumni in both individual and group settings.
- the Student Employment Center, which assists students seeking employment while enrolled at the university and provides lists of summer employment opportunities for Idaho and other states. Assistance is available to all students enrolled for 6 credit hours or more each semester. Employment vacancies are listed on the web and posted in the office.
- the Idaho State University Bookstore offers a selection of textbooks, computer supplies, school and office supplies, Idaho State University clothing, gifts and greeting cards, and general interest books. The Bookstore maintains branch offices in Idaho Falls (University Place) and Twin Falls (CSI Bookstore).
- the ASISU Early Learning Center, which provides child care for children six weeks of age through elementary school while their parents attend classes or work at the university. Children are enrolled in developmentally appropriate classes led by a professional staff assisted by student employees. Parents are encouraged to visit the Center, for more information about services.

## Alumni Association

[www.isu.edu/alumni](http://www.isu.edu/alumni) and [alumni@isu.edu](mailto:alumni@isu.edu)

The mission of the Idaho State University Alumni Association is to promote the welfare and to advance the objectives of Idaho State University through the sustained involvement of its alumni by providing philanthropic, intellectual and social opportunities.

The association is governed by a board of directors and administered through the office of Alumni Relations, 554 S. 7th Avenue, Pocatello, in the H. F. Magnuson House.

Specific goals are to identify alumni and friends to assist Idaho State University in strengthening support from its constituencies, to inform alumni and friends about Idaho State University; to provide for the efficient management of the Alumni Association, and to involve and motivate alumni and students to maintain their affiliation and support of Idaho State University.

The officers and directors meet three times a

year with the director of alumni relations, who is appointed by the university administration.

## Idaho State University Foundation, Inc.

The Idaho State University Foundation is a nonprofit corporation established in 1967 under the laws of the State of Idaho.

The Mission of the Idaho State University Foundation is to stimulate voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of Idaho State University.

The Foundation raises and manages private resources supporting the mission and priorities of the University, and provides opportunities for students and a degree of institutional excellence unavailable with state funding levels. The Foundation is dedicated to assisting the University in the building of the endowment to address, through financial support, the long-term academic and other priorities of the University.

The Foundation is responsible for identifying and nurturing relationships with potential donors and other friends of the University; soliciting cash, securities, real and intellectual property, and other private resources for the support of the University; and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

The Idaho State University Foundation is located on the first floor of the Administration Building.

## University Housing

[www.isu.edu/housing](http://www.isu.edu/housing)

[reslife@isu.edu](mailto:reslife@isu.edu)

208-282-2120

745 S. 5th Avenue, Stop 8083

Pocatello, ID 83209-8083

The mission of University Housing is to provide secure, clean, and affordable living-learning environments that promote student engagement by encouraging and supporting opportunities for academic success, personal development, community building, and the well-being of each individual resident.

### To Apply

Applying for University Housing is separate from application to Idaho State University. Housing applications are completed and submitted online. To apply go to the Housing website ([www.isu.edu/housing](http://www.isu.edu/housing)) and then click the "Apply Now" link on the left. Then select either the residence hall or apartment application. First-year students can only sign up for

the residence halls. If you have questions please email [reslife@isu.edu](mailto:reslife@isu.edu).

### **Housing Options**

University Housing offers traditional and suite style residence halls. On-campus apartments are available for sophomores and above, married students, and students with children. A section of Pulling Courts has been designated as Graduate Student Housing. Floor plans, photos, and virtual tours, as well as cost information, can be found on our website at [www.isu.edu/housing](http://www.isu.edu/housing). The Housing fee covers all utilities, as well as local telephone service, basic cable television, and wireless internet (internet service requires an ISU computer account).

### **Food Service**

University food service is required for first and second-year students living in the residence halls, and is an option for other students.

## **Institutes**

### **Biomedical Research Institute**

The Biomedical Research Institute embraces the latest advances in biomedical engineering, biotechnology, nanotechnology, neuroscience and bioinformatics and bio-signaling research in medicine, biology, and healthcare. The Institute aims to further enhance the fulfillment of the mission and goal of Idaho State University as the lead among Idaho universities in the health professions.

Established in 2005 to increase the collaboration, efficiency and focus of the University's biomedical research activities, the Biomedical Research Institute will provide additional resources for faculty to improve research capabilities.

The long-term vision of the Institute is to establish a nationally and internationally recognized interdisciplinary biomedical research environment where scientists, engineers, and health professionals can interact synergistically, without the restrictions of traditional discipline barriers.

The Institute's four major focus areas are behavioral and neuroscience; bio-signaling and communication; functional genomics and biotechnology; and health science and engineering. For more information, see [IB-RL.ISU.EDU](http://IB-RL.ISU.EDU).

### **Informatics Research Institute**

The Informatics Research Institute (IRI) is an academic unit providing coordination for several interdisciplinary degrees and research centers across campus. Informatics is an integrative discipline that arises from the synergistic application of computational, information-

al, organizational, cognitive, and other disciplines whose primary focus is in the acquisition, storage and use of information in a broad spectrum of domains.

### **Institute of Emergency Management**

The Institute of Emergency Management, (IEM) located on the Idaho State University Meridian Center Campus, was approved by the Idaho State Board of Education in July 2003. The purpose of the Institute is to offer workshops, courses, certificates, and in the future degrees, to meet the professional and career development needs of Idahoans employed in or planning a career in Emergency Management. The Institute delivers courses statewide at various sites in Idaho communities, to meet the needs of local first responders.

### **Institute of Nuclear Science and Engineering**

Idaho State University has established an Institute of Nuclear Science and Engineering (INSE) with approval from the Idaho State Board of Education in 2003. The Institute is a collaborative entity among ISU, University of Idaho and Boise State University. Under the INSE's administrative umbrella, the three universities jointly focus on nuclear science and engineering education at the combined Idaho Falls campus. Nuclear-related research in conjunction with the new Idaho National Laboratory is also coordinated through the INSE at University Place in Idaho Falls.

### **Institute of Rural Health**

The mission of the IRH is to improve the health of communities through research, education, and service. Vision: Our programs increase access to healthcare; enhance quality of care and health outcomes; improve the professional quality of life for providers; and seek to close the gap in health disparities—particularly among rural populations— by enhancing access to technology, endorsing a diversity of ideas, and encouraging cultural competency.

## **Oak Ridge Associated Universities (ORAU)**

Since 1993, students and faculty of Idaho State University have benefited from ISU's membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 91 colleges and universities, and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education, the DOE facility operated by ORAU, undergraduates, graduates, postgraduates and faculty may access a multitude of opportunities for study and research. Students may participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the number of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at [www.orau.gov/orise/educ.htm](http://www.orau.gov/orise/educ.htm), or by calling either of the contact persons below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scientist Program, consortium research funding initiatives, faculty research, and support programs, as well as services to chief research officers. For more information about ORAU and its programs, visit the ORAU website at [www.orau.gov](http://www.orau.gov) or contact:  
Office of Research (208) 282-2618  
or  
Monnie E. Champion  
ORAU Corporate Secretary  
(865) 576-3306

## **Idaho State University Education Centers**

Idaho State University has education centers throughout the state, with offices in Meridian, Idaho Falls, and Twin Falls.

### **Idaho State University-Meridian**

Dr. Bessie Katsilometes, Dean, Academic Programs  
Idaho State University-Meridian  
1311 East Central Drive  
Meridian, Idaho 83642  
(208) 373-1700

In keeping with Idaho State University's mission to educate health professionals and address the need for graduates in the health disciplines, Idaho State University-Meridian offers several programs in the health professions.

Idaho State University–Meridian offers undergraduate programs and graduate degree programs, primarily in the health professions, including the third and fourth year in a Doctor of Audiology program. The College of Pharmacy oversees third- and fourth-year professional pharmacy students, including clinical rotations in the Meridian area. Other programs housed at Idaho State University–Meridian include a dietetic internship and a dental residency program.

The ISU-Meridian Health Science Center, which spans four acres, houses nine distance-learning classrooms, the L.S. Skaggs Pharmacy Complex; Counseling and Speech and Language clinics; and human patient simulation and clinical/medical science laboratories.

Student applications and enrollment materials are available at Idaho State University–Meridian.

## Idaho State University–Idaho Falls

Dr. Lyle Castle, Dean, Academic Programs  
Idaho State University–Idaho Falls  
350 University Place  
1784 Science Center Drive  
Idaho Falls, ID 83402  
7800 from campus telephones  
(208) 282-7800 from off campus  
[www.isu.edu/departments/ifche](http://www.isu.edu/departments/ifche)

Idaho State University – Idaho Falls is the largest provider of higher-education opportunities in one of the state's most dynamic cities.

Located at University Place, adjacent to the scenic Snake River Greenbelt and the city's Freeman Park, ISU – Idaho Falls provides opportunities for individuals from all backgrounds, from recent high school graduates and working adults to Idaho National Laboratory employees seeking career advancement.

Opportunities include complete associate, bachelor, master's and doctoral degrees that can be earned through day and evening classes. Many academic programs cover the first two years of General Education Requirements for any ISU degree.

In addition to academic programs and classrooms equipped with contemporary technology, students find computer labs, a cafeteria, bookstore, auditorium for public events, even a comfortable lounge where they can study and relax between classes.

Idaho State University is a Carnegie-classified doctoral research institution founded in 1901,

educates approximately 13,000 students per year in more than 280 programs. It is Idaho's lead institution in health professions and medical education. Its seven colleges engage in a broad range of innovative research, teaching, and learning in the natural and physical sciences, humanities, performing and visual arts, education, engineering, business, pharmacy and technology.

Students at Idaho State University–Idaho Falls take classes that are not only close to home, but also just a short drive from a three-state region's commercial, health care, business and government centers. Upper Valley residents who are seeking continuing-education opportunities find electives as well as noncredit professional- and personal-development courses. Day and evening classes also are available. Among the many degree programs that can be completed at Idaho State University–Idaho Falls are associate degrees in biology, business, English, history, mathematics and physics; the M.B.A.; the B.S. in nuclear engineering; the Ph.D. in Engineering and Applied Science (Nuclear Engineering); the B.S. in nursing; and the M.Ed. and Ed.D.

Through its partnership with the University of Idaho, students can take classes from either university using a single admission, registration and fee-payment process. A partnership with Eastern Idaho Technical College makes health-professions education available close to the city's high-tech regional medical center.

Between classes, students can cross-country ski at adjacent Freeman Park, jog on the paved riverside greenbelt, or watch University Place's resident bald eagles and ospreys soar above the river.

To learn how Idaho State University–Idaho Falls can help you achieve your goals conveniently and affordably, call (208) 282-7800; visit the campus at 1776 Science Center Drive; or browse online at [www.isu.edu/departments/ifche](http://www.isu.edu/departments/ifche).

## Idaho State University–Twin Falls

Ms. Chris Vaage, Director  
Idaho State University–Twin Falls  
Evergreen Building, Suite B-40  
College of Southern Idaho  
P.O. Box 1238  
Twin Falls, ID 83303  
(208) 736-2101 • (208) 282-4840

Idaho State University has offered courses in the Twin Falls area since the 1960s. As part of the University's mission to serve southern Idaho students, a center was established in

Twin Falls in 1981. The center was moved in 1992 to the Evergreen Building on the College of Southern Idaho campus, which also houses two state-of-the-art distance learning classrooms and a student computer laboratory networked with the Idaho State University campus. Three professionals and support staff advise students with curriculum questions and act as general advocates for commuting students.

Idaho State University's offerings in the Magic Valley include programs leading to one doctoral, four master's, and five baccalaureate degrees from the Colleges of Arts and Sciences, Education, and Health Professions. Idaho State University provides the upper-division and graduate work on a rotating schedule, while the general education requirements and most other lower-division courses are available through CSI. University professors and highly qualified local adjunct instructors ensure that course quality is equal to that found on the Pocatello campus.

An interactive telecommunications system has broadcast classes live from Pocatello to CSI since 1990. Courses in anthropology, biology, communication and rhetorical studies, corporate training, education, English, geosciences, health education, history, library science, mass communication, nursing, pharmacy, political science, psychology, social work, sociology, women studies, and vocational education have all been presented in this way. Regularly scheduled courses are enhanced by courses Idaho State University delivers to area school districts for teacher development. Workshops and seminars in specific professional development areas are also available.

Access to Internet, email, and a large variety of software augment the Idaho State University student experience in a 20-station computer lab networked with the main campus. Twin Falls area Idaho State University students who have home computers with modems may access the network with a local phone call. Free computer workshops are routinely scheduled in the lab.

Other services include registration, fee payment, and assistance with University forms and information. In addition, a student commuter bus operates between Twin Falls and Pocatello.

# College of Arts and Letters

Kandi Turley-Ames, Ph.D., Dean

Randy Earlies, D.M.A., Associate Dean

## Division of Fine Arts and Humanities

### Department of Art

Chair and Professor: Martin  
Director of MFA Program and Professor: Evans  
Professors: Evans, Warnock  
Assistant Professors: Adams, Ahola-Young, Ferber

### Master of Fine Arts in Art

The MFA degree is the recognized terminal degree in the studio arts. The MFA program is designed to refine the visual art skills of the graduate student in a particular area or areas of concentration by providing the instruction, facilities and time for the student both to develop a significant body of studio work and to expand his or her intellectual horizons in preparation for a rewarding professional career.

#### Studio Course Categories:

- Ceramics
- Drawing
- Fiber Media
- Painting
- Printmaking
- Sculpture

#### Admission Requirements

Applicants for admission to the MFA program must apply to, and meet all criteria for admission to the Graduate School. For admission to the Master of Fine Arts program in the Department of Art, the Graduate School does not require submission of Graduate Record Exam (GRE) scores, however, the taking of the GRE test is recommended for students who wish to compete for a non-resident tuition waiver.

Application must also be made to the Department of Art. Departmental evaluation requires the following materials, which should be sent directly to the Department of Art, Stop 8004, Idaho State University, Pocatello ID 83209:

- A letter of intent stating the applicant's goals and objectives with regard to graduate study;
- A portfolio of work (20 digital images of studio work which the applicant feels would most effectively represent his/her involvement, ability, and potential);
  - a. Digital file portfolios must be formatted for Macintosh computers. Twenty images should be submitted on a single CD. Please submit a duplicate CD as well.
  - b. Both CDs should be labeled with the applicant's name. Digital images, in RGB color, may be no larger than 5 Megabytes each. We recommend a longest pixel dimension of 1600 at a resolution of approximately 140 ppi. Save files as TIFF or highest-quality JPEG formats. We will not accept directions to a web site, or files submitted in presentation software, such as Powerpoint, or PDF files.
  - c. Name and number all files with LastnameFirstname00.jpg or LastnameFirstname00.tif (e.g., JohnsonRobert12.jpg). Number images in the order to be viewed. Include with the submission a printed, hard-copy image inventory page headed with your name and the area/s of study to which you are applying. The inventory page should indicate, by corresponding number, the title, date, dimensions, and medium of each work; and
- Three letters of recommendation from undergraduate instructors, or other appropriate individuals, indicating the readiness of the applicant to pursue independent and sustained graduate-level work.

The Department has established March 15 as the application deadline for fall semester admission. Graduate Assistantship applications are also due by March 15.

October 15 is the application deadline for spring semester. (Assistantship applications are not considered for spring semester.) Applications received after these deadlines may be considered, subject to space availability.

The entire Graduate Faculty of the Department will review all materials submitted by each

applicant. Recommendations are made by measuring, as accurately as possible:

- The applicant's demonstrated preparedness and potential to be successful in the program;
- The sense, on the part of the faculty, that the faculty could contribute, in a meaningful and constructive way, to the student's development as an artist;
- Available space in the program, as well as faculty and departmental resources.

Other admission requirements include twelve credits of undergraduate Art History course work. Art History deficiencies of up to 6 credits may be compensated for by enrolling in the necessary courses concurrent with graduate work.

#### General Requirements

Basic requirements are a minimum of 60 credits in graduate courses approved by the Department of Art and the Graduate School. A minimum of six credits must be in the area of art history, and a minimum of 12 credits must be thesis project. The student may elect, as a program option, to take up to six credits in other related areas outside the Art Department. These courses must be departmentally approved. Students are required to complete ART 6601 and ART 6621. The department will accept a grade of C in one class as long as the minimum overall 3.0 GPA is maintained. The student will have the opportunity to repeat the course.

A written thesis will be submitted to the candidate's thesis committee by the MFA candidate before the oral examinations. Each candidate for the MFA degree must also have a one-person exhibit during the last semester before the granting of the degree. A collection of digital images of the exhibit must be turned in to the Art Department at this time. The thesis project consisting of original creative work is the focal point of the visual growth by the candidate and should demonstrate a professional level of competency within a unified creative point of view. The MFA degree is the terminal degree in the field of the visual arts. A minimum of two years of participation in the program is required for this goal. An oral examination is held concurrently with the thesis project show. Additional information is available from the Department of Art.

#### Art Graduate Courses

**ART 5522 World Arts 3 credits.** Study of the art produced in cultures outside of the western tradition. Topics include pre-Hispanic art of Mexico, Central and South American art, and North American Indian art, Oceanic art, and the art of Africa south of the Sahara.

**ART 5523 Nineteenth Century Art 3 credits.** History of the visual arts from the beginning of the 19th century up to the advent of Cubism.

**ART 5524 Twentieth Century Art 3 credits.** History of the visual arts from Cubism to the present.

**ART 5525 Contemporary Art Forms 3 credits.** The study of the major developments of art as an expression of contemporary society. Emphasis on art since 1950. **PREREQ:** PERMISSION OF INSTRUCTOR.

**ART 5526 Seminar in Art History 3 credits.** Extensive reading and discussion in Art History and aesthetics under the supervision of the instructor. May be repeated up to 6 credits.

**ART 5531-5532 Advanced Printmaking 3 credits.** Advanced work in printmaking. Choice of medium.

**ART 5541-5542 Advanced Painting and Composition 3 credits.** Special projects and experimental individual work for advanced students.

**ART 5551-5552 Advanced Metals-Jewelry 3 credits.** Experimental work. Individual projects may include plastics, electroplating, electroforming, advanced fabrication, anodizing or raising techniques.

**ART 5561-5562 Advanced Fiber Media 3 credits.** Experimental work. Individual projects may include on-loom and off-loom techniques, dyeing processes, basketry, or multi-layered fabrics.

**ART 5571-5572 Advanced Ceramics 3 credits.** Individual projects may include ceramic sculpture, mosaics or experimental problems in form and techniques.

**ART 5581-5582 Advanced Sculpture 3 credits.** Experimental work with an emphasis on scale and environmental problems.

**ART 5591 Advanced Papermaking 3 credits.** Further development of topics from ART 3391.

**ART 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**ART 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ART 6601 Independent Study in Drawing 3 credits (required).** Individualized course designed to address drawing-specific concerns: technical, material, and/or conceptual possibilities inherent to various drawing media. May be repeated for a total of 6 credits.

**ART 6621 Graduate Seminar 3 credits (required).** Reading and discussion of theories and practices related to the production and presentation of studio art under the supervision of the instructor. Students will research and prepare written presentations for weekly seminar discussion and evaluation. May be repeated.

**ART 6635 Research in Studio or Theory 4 credits.** Investigation of technical, material, and/or aesthetic/theoretical problems in art history/studio areas under the supervision of the instructor. May be repeated.

**ART 6640 Experimental Problems in Studio 4 credits.** Experimentation in technical, material, and aesthetic problems in a studio area under the supervision of the instructor. May be repeated.

**ART 6645 Studio variable credit.** Studio work under the supervision of the instructor. May be repeated.

**ART 6649 Thesis Proposal 1 credit.** Summary of the objectives and goals of the thesis project prepared under supervision of the student's advisor. Concurrent with application for admission to candidacy.

**ART 6650 Thesis Project 1 -12 credits; 12 credits required minimum.** Preparation and presentation in a one-person show of a significant body of work which demonstrates a professional level of competency within a unified creative point of view. An exhibition and slides of the works are required by the department under the supervision of the candidate's advisor. A graduate faculty orals committee will review and approve or disapprove the show and thesis proposal. May be repeated. **PREREQ:** ART 6649. Graded S/U.

**ART 6660 Special Topics 1-4 credits.** May be repeated.

**ART 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

peated.

## Department of Communication and Rhetorical Studies

See page 50 James E. Rogers Department of Communication, Media, and Persuasion

## Department of English and Philosophy

Chair and Professor: J. Atteberry  
Director of Philosophy and Professor: Wahl  
Assistant Chair and Associate Professor: Wolter

Graduate Program Director and Associate Professor: Winston  
Composition Director and Professor: Swetnam  
Professors: B. Attebery, J. Attebery, Baergen, A. Johnson, M. Johnson, Levenson, Schmidt,  
Associate Professors: Engebretsen, Goslee, Hellwig, Klein, Launspach, Skidmore, Whitaker  
Assistant Professors: Petit, Schultz-Hurst, Van Winkle

The Department of English and Philosophy offers graduate curricula in English studies that include courses in language, literature, composition/rhetoric, and English pedagogy. The Department offers the Master of Arts and the Doctor of Philosophy degrees.

### Admission Requirements for International Students

Students whose native language is not English must achieve at least one of the following minimum scores to be considered for admission into the M.A. or D.A. program in English: TOEFL 550/213; MTELP 84; IELTS 6.

### Goals

The Department has articulated the following goals and student learning outcomes for students in graduate programs:

#### Learning Outcomes - Master of Arts

Stated Mission and Goals: The M.A. program provides advanced training in British and American literature and culture, and opportunities to pursue advanced work in other areas of English studies, including linguistics, TESOL, and composition. The M.A. provides students with training to enter any field where verbal and analytical ability is essential, especially teaching, as well as preparation for further graduate work in Ph.D. programs.

**Student Learning Outcomes**

1. M.A. students will understand major literary traditions in British and U.S. cultures.
2. M.A. students will understand ways that literary works are shaped by and participate in broad cultural trends.
3. M.A. students will understand important theoretical approaches to the study of literature and culture.
4. M.A. students will analyze and synthesize on-going scholarly conversations in English studies and situate their arguments in relation to these conversations.
5. M.A. students will understand linguistic structures (i.e. language and/or rhetoric) and employ this understanding in their readings of texts and in their writing.

**Learning Outcomes - Doctor of Philosophy**

Stated Mission and Goals: The Ph.D. in English and the teaching of English is a terminal degree program that trains students for teaching careers in English at colleges and universities.

**Student Learning Outcomes**

1. Ph.D. students will have a professional understanding of major literary traditions in British and U.S. cultures;
2. Ph.D. students will have a professional understanding of the ways that literary works are shaped by and participate in in broad cultural trends;
3. Ph.D. students will understand important theoretical approaches to the study of literature and culture and employ these theories in their research and writing;
4. Ph.D. students will define, research, and complete a significant research project within English studies, and be prepared to conduct research independently once they graduate.
5. Ph.D. students will understand linguistic structures (i.e. language and/or rhetoric) and employ this understanding in their readings of texts and in their writing.
6. Ph.D. students will understand theories of college-level English teaching and will be able to effectively translate these theories into practice.
7. Ph.D. students will be prepared for future professional activities as college-level English teachers.

## Doctor of Philosophy in English and the Teaching of English

The Doctor of Philosophy in English and the Teaching of English prepares students for teaching careers in English at colleges and universities. The program emphasizes the

study of English and American literature, course work in content-specific pedagogy, and supervised teaching internships. Students also undertake directed, specialized research in a required dissertation.

**Admission Requirements**

For full consideration for admission and financial aid, applications for fall admission must arrive by February 15.

Applicants for classified admission and/or financial support must submit the following materials:

1. Undergraduate and graduate transcripts.
2. An M.A. in English (or appropriate related field) with an accumulative grade point average of 3.5 in M.A.-level English courses.
3. Three letters of recommendation from professors who can comment on the student's recent academic work.
4. Scores at or above the 50th percentile on the verbal section of the GRE general test. Scores on the analytical writing section will also be considered in admission decisions.
5. A writing sample (about 10-20 pages).
6. A brief statement (about 500 words) describing the applicant's academic background, reasons for applying to the program, research interests, and professional goals.

The Graduate Committee in consultation with the department Chair evaluates these materials to determine admission to the program. Priority will be given to experienced, successful teachers.

**General Requirements**

The Doctor of Philosophy in English requires a minimum of 39 semester credits beyond the M.A.

A course completed as part of a student's M.A. program may be approved by the Graduate Director to satisfy a particular requirement of the Ph.D. program, up to a maximum of 9 credits; however, the substitution of course work does not waive the minimum credit requirement for the Ph.D. program.

With the approval of the Graduate Director, students may transfer up to 9 credits of coursework beyond the M.A. from other institutions.

Three semesters of full-time residence study are required.

Students must maintain a 3.5 grade point average to advance to candidacy for the Ph.D. Three grades below B- during the entire program will automatically disqualify a student.

Graduate students must follow the policy on incomplete grades as it is listed in the Idaho State University Graduate Catalog.

Teaching assistantships and Ph.D. fellowships will not be renewed for students with incomplete grades on their transcripts.

**Special Requirements**

1. Student must complete at least 27 of the required 39 credits at the 6600 level or higher.
2. Students must complete two supervised teaching internships. The student must submit a detailed proposal for each internship to the Graduate Committee for approval prior to the semester of the internship. The proposal must be endorsed by the member of the graduate faculty who has agreed to supervise the internship. An unacceptable Ph.D. internship will have the same consequences as a course grade of C.
3. Students will write a dissertation with a section exploring the implications of the research for the student's teaching of English. This dissertation project will be designed in consultation with a member of the English graduate faculty, who will serve as chair of the dissertation committee. The dissertation committee shall consist of three members of the graduate faculty, at least two of whom are English graduate faculty. In consultation with the dissertation director, the student is responsible for assembling the dissertation committee. The dissertation proposal must be approved by all members of the student's dissertation committee and then submitted, with the comprehensive exam lists attached, to the Graduate Director for review, according to the guidelines in the English Graduate Handbook. A Graduate Faculty Representative (GFR) will be appointed after review of the proposal and exam lists.
4. Students must present a colloquium on the topic of the dissertation research, given in the last semester of their degree work, which will allow them to obtain experience in presenting the results of their research to their peers.

**Course Work****Required Core Course**

ENGL 6612 Introduction to Graduate Studies in English

3 cr

**Pre- and Post-1800 Literature Component**

A minimum of six credits, fulfilling the following requirements:

1. One seminar in the 662x series that is focused on pre-1800 literature
2. One seminar in the 662x series that is

focused on post-1800 literature

### Teaching Component

A minimum of 12 semester credits, fulfilling the following requirements:

1. ENGL 6631 Seminar in Teaching Writing 3 cr
2. ENGL 7700 Supervised Teaching Internship 3 cr
3. An additional seminar in the teaching of English, approved by the department 3 cr
4. An additional supervised teaching experience, chosen from:

ENGL 7700 Supervised Teaching Internship	3 cr
ENGL 7783 Practicum in Second Language Teaching	3 cr

### Language Component

A minimum of 3 credits, chosen from the following list:

ENGL 5501 Advanced Composition  
 ENGL 5580 Varieties of American English  
 ENGL 5581 Studies in Grammar  
 ENGL 5584 Special Topics in Linguistics  
 ENGL 5585 Linguistic Analysis  
 ENGL 5586 Old English  
 ENGL 5587 History of the English Language  
 ENGL 5588 Introduction to Sociolinguistics  
 ENGL 6680 Introduction to Linguistics  
 ENGL 6685 Seminar in Linguistics  
 COMM 5536 Rhetorical Criticism  
 COMM 5537 Rhetorical Theory

### Electives

Students take 15 additional credits of electives (chosen in consultation with their advisor) that will contribute to knowledge and skills necessary for their dissertation topics and professional goals.

### Course Work Limitations

A maximum of 6 semester credits taken outside of ENGL-prefixed courses may be counted toward degree requirements, with the approval of the Graduate Director.

### Comprehensive Examination

Students are eligible to take the comprehensive exam after completing 36 credits beyond the M.A. Students must take the exam before defending the dissertation.

The comprehensive examination is both written and oral. The examination tests the student in the general areas listed below, but the student in consultation with his/her dissertation committee will design the specific subjects and reading lists on which he/she will be tested. The exam lists must be approved by all members of the student's dissertation committee and then submitted, along with the dissertation proposal, to the Graduate Director for review, according to the guidelines in the English Graduate Handbook.

The exam areas are:

- a. the student's dissertation area
- b. a broader field or literary period
- c. an area in the teaching of English

The examining committee will consist of the three-member dissertation committee. In order to ensure that the examining committee has sufficient expertise to test the student in all three exam areas, the dissertation committee chair may propose to substitute a member of the dissertation committee with another member of the graduate faculty, so long as two members of the examining committee are English graduate faculty. The substitution must be approved by the Graduate Director.

The comprehensive examination may be repeated only once, and must be retaken within 12 months.

### Foreign Language Requirement

Students must demonstrate proficiency in one foreign language, either modern or ancient, before the program of study is complete. The purpose of this requirement is for students to have a current knowledge of a language other than English and of its relation to the culture from which it originates.

Students may satisfy this requirement in one of the following ways:

1. By passing four semesters of one foreign language with an average grade of B, either during the course of study for the graduate degree or with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.
2. By passing with a grade of B a two-part examination administered by the Foreign Language Department.
3. By having completed a major in a foreign language, as verified by a college transcript.
4. By having satisfied a foreign language requirement as part of having completed an M.A. in English with an interval of no longer than two years between the completion of the last language course and the beginning of graduate study in English at Idaho State University.

Students who have a first language other than English will be considered to have satisfied this requirement.

## Master of Arts in English

The Master of Arts in English prepares graduates for careers and for doctoral study in English and closely related fields. The program emphasizes study in English and American

literature and requires course work in the English language and linguistics. A well-developed mentoring program provides supervised teaching experience in composition for students holding assistantships.

### Admission Requirements

Applications for admission and funding are due February 15th (to begin in fall semester), and October 1st (to begin in spring semester). Applicants must apply to and meet all criteria for admission to the Graduate School. In addition to the general requirements of the Graduate School, applicants must submit the following materials:

1. All undergraduate and any graduate transcripts, showing accumulative grade point average of at least 3.0 over the last 60+/- credits (90 +/- for quarters) undergraduate coursework.
2. GRE general test scores, a score at or above the 50th percentile on the verbal section of the GRE general test. Scores on the analytical writing section will also be considered in admission decisions.
3. Three letters of recommendation, preferably from professors who know the student's recent academic work.
4. A brief statement (about 500 words) of academic and professional goals.
5. A brief writing sample (about 5 pages). The English Department Admissions Committee, in consultation with the department chair, evaluates the applicant's materials to determine admission to the program. When these materials are evaluated, the Admissions Committee will look at the student's preparation for graduate work in English, his/her academic promise (as indicated by transcripts, GRE scores, and letters of recommendation), and the fit between the student's goals (as indicated in their statement) and the mission and strengths of the M.A. program.

Students admitted to the M.A. program are called Classified students. Some students may be admitted as Classified with performance requirements which means they must fulfill certain requirements specifically indicated with their admission and are not eligible for graduate assistantship support until they achieve Classified status. Continuation in the program is subject to a student's meeting this requirement. Students admitted without at least 21 credits of undergraduate courses in English, excluding freshman composition, may be required to make up deficiencies in their undergraduate work.

### General Requirements

The Master of Arts in English program requires a minimum of 30 semester credits in courses approved by the Department of Eng-

lish. Students must take at least 18 of these credits in 6600-level courses.

Students may fulfill these credit requirements in one of three options:

1. Final Exam Option: The student takes 30 credits of coursework, at least 18 of which must be at the 6600-level, and complete a final exam.

OR

2. M.A. Paper Option: The student completes 30 credits, including at least 18 credits at the 6600-level, and completes a 3-credit final M.A. Paper, a revised paper based on work done in a course completed as part of the M.A. program, which must be submitted with a cover letter, CV, and statement describing their rationale for choosing the paper and the revision process. Up to 3 credits of portfolio work may count toward the 6600-level requirement.

OR

3. Thesis Option: The student completes 30 credits, including at least 18 credits at the 6600-level, and completes a thesis. Up to 6 credits of thesis may count toward the 6600-level requirement.

Students selecting any of these options must also demonstrate proficiency in one foreign language and may do so in the following ways:

1. By demonstrating that they have obtained an intermediate level of competence in a foreign language, equal to completing the second sophomore-level (2200-level) course with a grade of B or better. Students may demonstrate this proficiency in one of three ways:
  - By completing all foreign language coursework (at the 2200-level or above) with an average grade of B or better, and with an interval of no longer than four years between the conclusion of the last language class and the beginning of graduate study in English at Idaho State University.
  - By passing the equivalent of four semesters of one foreign language with an average grade of B or better.
  - By passing the CLEP exam and earning credit for a 2200 course.

OR

2. By passing with a grade of B or better a two-part examination administered by the Language and Literature Department.

OR

3. By having completed a major or a minor in a foreign language, as verified by a

college transcript.

OR

4. By taking 6 credits beyond the normal 3 credits of required Language Studies coursework. These 6 credits, which do not count toward the degree requirements, must include:

- a. ENGL 5586 Old English and ENGL 5587 History of English Language

OR

- b. ENGL 5586 or ENLG 5587, plus one additional course in linguistics approved by the department.

OR

5. By having a first language other than English.

All students must maintain a satisfactory record of scholarship. Three grades below B during the entire program will automatically disqualify a student from continuing in the program.

Graduate students must follow the policy on incomplete grades as it is listed in the Idaho State University Graduate Catalog.

Teaching Assistantships will not be renewed for students with incomplete grades on their transcripts.

All students must take the following 12 required credits:

ENGL 6612 Introduction to Graduate Studies in English	3 cr
A 6600-level seminar focusing on pre-1800 literature	3 cr
A 6600-level seminar focusing on post-1800 literature	3 cr
One course in English language studies, chosen from the following group:	3 cr
ENGL 5501 Advanced Composition	
ENGL 5581 Studies in Grammar	
ENGL 5585 Linguistic Analysis	
ENGL 5586 Old English	
ENGL 5587 History of the English Language	
ENGL 6680 Introduction to Linguistics	
ENGL 6685 Seminar in Linguistics	
COMM 5536 Rhetorical Criticism	
COMM 5537 Rhetorical Theory	

Students appointed to teaching assistantships must also take the following 6 required credits:

ENGL 6631 Seminar in Teaching Writing	3 cr
ENGL 7731 Practicum in Teaching Writing	3 cr

## TESOL Certificate

Recommendations regarding admission will be made by the co-directors of the TESOL program in conjunction with the Graduate Director.

## Admission Requirements

For admission into the TESOL Certificate program, applicants must satisfy the following criteria:

1. A bachelor's degree from an accredited

institution.

2. An accumulative grade point average of 3.0 over the last two years of undergraduate course work for the B.A.
3. In addition to the Graduate School requirements, score at or above the 35th percentile on the verbal section of the GRE general test.
4. Three letters of recommendation, preferably from professors, or colleagues who know the applicant's recent academic or professional work.
5. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test, or a score of 84 on the MTELP, or a score of 6 on the IELTS.

It is strongly recommended that applicants have some knowledge of a second language.

## General Requirements

The certificate program is 18 credits and is granted alone or in addition to a graduate degree.

All students must take the following 12 credits:

ENGL 6680 Introduction to Linguistics	3 cr
ENGL 6681 Theory of Second Language Acquisition	3 cr
ENGL 6682 TESOL Methodology	3 cr
ENGL 7783 Practicum in Second Language Teaching	3 cr

In addition to the required courses, students must take two 3-credit electives chosen from the graduate-level linguistics offerings in either the Department of English and Philosophy or the Department of Anthropology.

**ENGL 5501 Advanced Composition 3 credits.** An advanced course in which students develop an independent style in writing such types of essays as the personal, biographical, argumentative, and critical. May contain prose analysis.

**ENGL 5506 Advanced Creative Writing Workshop 3 credits.** Production and discussion of student writing. Study in a specific genre. Repeatable with different topics.

**ENGL 5509 Literary Magazine Production 3 credits.** Hands-on experience in literary magazine production: editing, proofreading, and design. Strategies for screening and selecting stories, poems, and reviews. Consideration of the role of the small press in national literary culture.

**ENGL 5531 Teaching and Writing Projects: Special Topics 3 credits.** Aids teachers of all grade levels and all academic subjects in developing skills in teaching writing. Combines composition theory and practical classroom exercises with ongoing writing and critiques. Repeatable with different topics.

**ENGL 5540 Philosophy and Literature 3 credits.** Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. Cross-listed as PHIL 5540. Repeatable with different topics.

**ENGL 5541 History of Literary Criticism 3 credits.** Teaches major theorists and debates that have influenced the interpretation of literature. Students read key theoretical texts. Course may use a thematic or chronological approach. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**ENGL 5553 American Indian Literature 3 credits.** Considers literary works by and about North American native people, especially in relationship to history, genre, and culture, including oral traditions. Repeatable with different topics.

**ENGL 5555 Studies in a National Literature 3 credits.** Studies in important literatures and cultures not otherwise covered in the curriculum. Will include literatures in translation and literature written in English outside of America and the British Isles. Cross-listed as LANG 5515. Repeatable with different topics.

**ENGL 5556 Comparative Literature 3 - credits.** The analysis of ideas, problems, and techniques common to important writers of various national literatures. Repeatable with different topics.

**ENGL 5561 Classical Literature 3 credits.** Study of the major literature of the classical Greek and Roman periods, especially in relationship to its cultural backgrounds. Repeatable with different topics.

**ENGL 5562 Medieval Literature 3 credits.** Study of the major literature of the Middle Ages and its background, with emphasis upon the development of English literature. Repeatable with different topics.

**ENGL 5563 Renaissance Literature 3 credits.** Study of the major literature of the Renaissance and its background, with emphasis upon the development of English literature. Repeatable with different topics.

**ENGL 5564 Seventeenth-Century Literature 3 credits.** Study of the major literature of the seventeenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5565 Eighteenth-Century Literature 3 credits.** Study of the major literature of the eighteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5566 Early Nineteenth-Century Literature 3 credits.** Study of the major literature of the early nineteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5567 Late Nineteenth-Century Literature 3 credits.** Study of the major literature of the late nineteenth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5568 Early Twentieth-Century Literature 3 credits.** Study of the major literature of the early twentieth century and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5569 Contemporary Literature 3 credits.** Study of recent major literature and its background, with emphasis on English or American or other literature of the period. Repeatable with different topics.

**ENGL 5570 Post-Colonial Literature 3 credits.** Study of post-colonial literary texts, with attention to the role of literature in history, political resistance, and social movements of one or more colonized cultures. Repeatable with different topics.

**ENGL 5572 Proseminar in a Major Literary Figure 3 credits.** Intensive study in a single major author other than Chaucer, Milton, and Shakespeare, demanding some independent study and small group participation. Repeatable with different topics.

**ENGL 5573 Chaucer 3 credits.** Intensive study of selected works of Chaucer.

**ENGL 5574 Milton 3 credits.** Intensive study of selected works of Milton.

**ENGL 5576 Shakespeare 3 credits.** Intensive study of selected works of Shakespeare.

**ENGL 5577 Shakespeare in Performance 3 credits.** Intensive study of selected works by Shakespeare, with emphasis placed upon performance issues. Includes field trip to attend live dramatic productions of Shakespearian plays.

**ENGL 5580 Varieties of American English 3 credits.** In-depth study of various dialects of American English, including historical evolution of different dialects, effects of migration on dialects, and influences of non-English immigrant languages on development of American English. Field-work studying the Snake River dialects of Idaho. Cross-listed as ANTH 5580.

**ENGL 5581 Studies in Grammar 3 credits.** Focus on the study of transformational-generative grammar and its application to sentence level problems.

**ENGL 5584 Special Topics in Linguistics 3 credits.** Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught.

**ENGL 5585 Linguistic Analysis 3 credits.** Advanced topics course in the techniques of language analysis. Examples are phonology and morphology, semantics, or rhetorical grammar. Repeatable with different topics.

**ENGL 5586 Old English 3 credits.** Intensive study of the Old English language, with attention to its intrinsic structure and its relation to Middle and Modern English.

**ENGL 5587 History of the English Language 3 credits.** Linguistic and historical study of the major changes and developments in the English Language.

**ENGL 5588 Introduction to Sociolinguistics 3 credits.** Study of the patterned covariation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Cross-listed as ANTH 5550.

**ENGL 5590 Topics in Folklore 3 credits.** Focused study of an issue in folkloristics or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. Repeatable with different topics. Cross-listed as ANTH 5590.

**ENGL 5592 Folklore and Literature 3 credits.** Study of cross-influences between oral and written literatures. Emphasis may be on a written genre that imitates and draws upon oral genres, a movement or period in which oral tradition strongly influences written forms, or a particular writer who incorporates motifs and storytelling patterns from folklore. Rotating topics. Repeatable with different topics.

**ENGL 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**ENGL 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENGL 6610 Careers in English 1 credit.** Preparation for English job searches and teaching careers. Graded S/U. Does not count toward degree requirements.

**ENGL 6611 Literary Theory and Criticism 3 credits.** Focused study of selected literary theories/critical approaches and their applications. Repeatable with different topics.

**ENGL 6612 Introduction to Graduate Studies in English 3 credits.** Introduces students to major literary theories and approaches and trains them in scholarly research methods. Requires development of a substantial research proposal.

**ENGL 6613 Literary Bibliography/Manuscripts/Editing 3 credits.** Training in bibliographical, manuscript, and/or editing methodologies relevant to English. Repeatable with different topics.

**ENGL 6621 Seminar in a Major Literary Genre 3 credits.** Focused study of the theory and conventions of a major form (such as lyric poetry or novel) or a broader genre (such as realism, pastoral, or the fantastic). Repeatable with different topics.

**ENGL 6623 Seminar in Literary Themes 3 credits.** Focused study of literature cohering around thematic content (such as religion, exploration, or diaspora). Repeatable with different topics.

**ENGL 6625 Seminar in a Literary Period 3 credits.** Focused study of a literary period and issues in periodization. Repeatable with different topics.

**ENGL 6627 Seminar in Major Literary Figures 3 credits.** Focused study of the writings of one or two major writers. Critical and biographical topics and historical significance may be considered. Repeatable with different topics.

**ENGL 6631 Seminar in Teaching Writing 3 credits.** Systematic application of contemporary composition theory to the teaching of writing; includes readings in and discussion of theories, research, issues, and practices relevant to effective teaching and learning in composition classrooms.

**ENGL 6631L Teaching Composition Lab 1 credit.** Lab for English 6631. Experiential training for new M.A. T.As. Requires attending graduate faculty mentor's English 1101, regular meetings with mentor, teaching five times, and supervised grading. Graded S/U with written report by mentor. Required of first-semester M.A. T.As. PRERQ OR CORREQ ENGL 6631. Does not count toward degree requirements.

**ENGL 6632 Seminar in Teaching Literature 3 credits.** Theoretical and practical approaches to teaching literature and literary interpretation at the undergraduate level, with attention to issues in course design and implementation, such as designing syllabi, leading discussion, and grading papers.

**ENGL 6633 Seminar in Teaching Business and Professional Writing 3 credits.** Preparation to teach undergraduate business and technical writing courses, including the nature and history of business and technical writing, as well as attention to practical issues in teaching, such as pedagogical strategies, textbook choice, and research design.

**ENGL 6635 Special Topics in the Teaching of English 3 credits.** Focused study of topics in English pedagogy that are not regularly covered in ENGL 6631, ENGL 6632, ENGL 6633, ENGL 6681, or ENGL 6682. Repeatable with different topics.

**ENGL 6640 Interdisciplinary Seminar 3 credits.** Focused study of a literary or literary related problem or subject using the theories and methods of literature and other closely-related disciplines such as folklore, communications, rhetorical studies, history, linguistics, or anthropology. Repeatable with different topics.

**ENGL 6642 Seminar in Oral/Popular Culture 3 credits.** Focused study of a body of oral and/or popular cultural expression in related historical and cultural contexts with emphasis on literary connections. Repeatable with different topics.

**ENGL 6650 M.A. Thesis 1-6 credits.** Master's thesis. Optional. Graded S/U. May be repeated.

**ENGL 6651 M.A. Paper 1-3 credits.** Substantial revision of a graduate paper to produce a manuscript suitable for submission to a peer-reviewer publication in the field. M.A. Program Only. Optional. Graded S/U. May be repeated. Up to 3 cr. May count toward degree requirements.

**ENGL 6662 Seminar in Creative Writing 3 credits.** Advanced study of creative writing. Course involves intensive readings in one or more selected genres (poetry, prose, drama), analyzed from the perspective of criticism and craft, and the development of course-related writing projects. PREREQUISITE: ENGL 5506 or equivalent. Repeatable with different topics.

**ENGL 6680 Introduction to Linguistics 3 credits.** Introduction to fundamental concepts and methodologies of modern linguistics, including phonetics, phonology, morphology, syntax, semantics, sociolinguistics, pragmatics, and language acquisition. May include opportunities to explore the practical application of course topics.

**ENGL 6681 Theory of Second Language Acquisition 3 credits.** The course will: 1) address theories describing the processes underlying second language acquisition, as well as relevant research, 2) consider what conditions increase the likelihood of successful second language acquisition, and 3) review the implications of 1 and 2 for second language learning and teaching.

**ENGL 6682 TESL Methodology 3 credits.** Building on the theoretical framework of ENGL 6681, students develop effective ESL materials and curricula, taking into account SLA research as well as the characteristics, needs, and motivation of learners. The class will involve a large practical component. PREREQ OR COREQ: ENGL 6681.

**ENGL 6685 Seminar in Linguistics 3 credits.** Advanced studies in selected topics in linguistics. Course includes application of linguistic theories to specific forms of communication within the discipline of English. Repeatable with different topics.

**ENGL 6690 Graduate Reading 3 credits.** Supplementary reading course, arranged on an individual basis, to cover course content not otherwise available in the graduate program. Requires conferences with a faculty supervisor, written assignments or examination, and approval of a prospectus by the Graduate Committee. Repeatable with different topics. Does not count toward degree requirements.

**ENGL 6694 Dissertation and Comprehensive Exam Preparation 1-6 credits.** Student prepares a dissertation proposal and comprehensive exam lists and studies for qualifying exams in consultation with his or her dissertation director. Requires dissertation director's approval of projected dissertation research area, exam areas, and committee members. Limited to Ph.D. students only. Does not count toward degree requirements. Repeatable up to 7 credits. Graded S/U.

**ENGL 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENGL 7700 Supervised Teaching Internship 3 credits.** Practical experience in classroom or laboratory teaching. Enrollment limited to Ph.D. students. Repeatable to up to 9 credits. Graded S/U.

**ENGL 7731 Practicum in Teaching Composition 3 credits.** Teaching composition under supervision. Required of, and limited to, second semester M.A. teaching assistants. PREREQ: ENGL 6631. Graded S/U.

**ENGL 7750 Doctoral Thesis 1-6 credits.** Doctoral thesis, consisting of two papers, each the equivalent of a well-developed article. D.A. program only. May be repeated for a maximum of 12 credits. Graded S./U.

**ENGL 7783 Practicum in Second Language Teaching 3 credits.** Supervised practicum in ELS teaching or tutoring. Required for TESOL certificate. PREREQ: ENGL 6681, 6682 AND 12-15 CREDITS TOWARD TESOL CERTIFICATE.

**ENGL 8850 Doctoral Dissertation variable credits.** Research project with a section exploring implications for the teaching of English. Ph.D. program only. Repeatable. Graded S/U.

## Philosophy Graduate Courses

**PHIL 5500 Philosophy of Art 3 credits.** Study of philosophic problems encountered in

perceiving, interpreting, and evaluating works of art. Topics include the nature of a work of art, aesthetic response, expression, symbol; the nature and role of representation; the nature of interpretive and evaluative claims.

**PHIL 5510 Philosophy of Language 3 credits.** Study of theories of language, with emphasis on contemporary thinkers such as Frege, Heidegger, Russell, Wittgenstein, Piaget, and Chomsky. Topics include the nature and origin of meaning, the temporal dimension of discourse, the significance of syntax, animal languages, computer languages.

**PHIL 5520 Philosophy of Mind 3 credits.** Inquiry into the mind-body problem and representative solutions, such as dualism, philosophical behaviorism, central-state materialism. Related topics include the self, personal identity, immortality, claims of parapsychology, mystical consciousness.

**PHIL 5525 Existentialism 3 credits.** A survey of major works of Kierkegaard, Nietzsche, Heidegger, Sartre, and Camus. Topics may include the origins of values, the death of God, the varieties of despair, the inevitability of love's failure and the absurdity of life.

**PHIL 5530 Philosophy of Science 3 credits.** A survey of the philosophical issues related to science. Topics include the nature of scientific theories, science and non-science, scientific explanation and causation, realism and anti-realism in science, and scientific revolutions. Specific, evaluated graduate-level activities are identified in the course syllabus.

**PHIL 5535 Metaphysics 3 credits.** A study of some of the main questions of metaphysics including such topics as being, substance, universals, space and time, appearance and reality, identity, freewill and determinism, causality and the nature and possibility of metaphysics itself.

**PHIL 5540 Philosophy and Literature 3 credits.** Reflections on the relation between poetic and speculative discourse. Topics include forms of consciousness, temporality and narrative, metaphysics of genre. Cross-listed as ENGL 5540.

**PHIL 5550 Ethical Theory 3 credits.** Study of the nature of value claims, stressing ethical value claims; examination of the scope of reason in ethical decision-making. Applications to normative ethical theories. Related topics include human rights, justice, ethical and legal systems.

**PHIL 5555 Environmental Ethics 3 credits.** Examination of ethical issues that arise in our relationship with the natural environment.

Topics include the moral status of non-human animals and ecosystems, the nature and value of wilderness, endangered species, human population, human poverty, sustainable growth, and climate change. Specific evaluated graduate-level activities are identified in the course syllabus.

**PHIL 5560 Theory of Knowledge 3 credits.** A survey of topics in epistemology such as the nature of knowledge, the problem of skepticism, and the nature of justification. Various claims about the sources of knowledge, and truth will also be considered. Readings from classical and contemporary sources. Specific, evaluated graduate-level activities are identified in the course syllabus.

**PHIL 5570 Symbolic Logic and Foundations of Mathematics 3 credits.** A comprehensive study of formal methods of determining validity and of systems of symbolic logic, with attention to the philosophy of logic and the relationship between logic and mathematics.

**PHIL 5590 Philosophy Seminar 1-3 credits.** Advanced reading and discussion on selected topics in philosophy. May be taken for credit more than once with permission of the department.

**PHIL 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U .

**PHIL 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PHIL 6600 Ethics in Health Care 3 credits.** Application of ethical principles and theories to current issues in health care. Topics include allocation of scarce resources, informed consent, duty to treat, research on human subjects, organ transplants, death and dying.

**PHIL 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

# Department of Languages and Literatures

Program Director: Park  
Professors: Park, Sieber  
Associate Professors: Hunt, Tarp  
Instructor and Lab Director: McCurry  
Adjunct Faculty: Bassett, Brookman, Coffield,  
Dillon, Eldredge, Fukuoka, Heath, Johnsen,  
Robredo, Tatarova

## Goals

To increase knowledge and understanding of languages and cultures other than English through the development of foreign language skills in speaking, writing, reading, listening, and cultural competence.

## Foreign Languages Graduate Courses

(No graduate degrees are offered)

**LANG 5537 The Teaching of Foreign Languages 2-3 credits.** Study of the various methods used in teaching foreign languages, the extent and scope of language courses; the selection of suitable textbooks; audio-visual techniques and their contribution to language instruction. PREREQ: PERMISSION OF INSTRUCTOR.

**LANG 5555 Introduction to Phonetics 3 credits.** Introduction to descriptive linguistics focusing on phonetics and phonetic phenomena of English and the other languages of the world. Extensive practice in perception and production of such phenomena. Cross-listed as ANTH 5555. PREREQ: LANG/ANTH 1107.

**LANG 5556 Introduction to Phonology and Morphology 3 credits.** Phonological theory and analysis; current theories in morphology. Phonological rules, representations, underlying forms, derivation, justification of phonological analyses; morphological structure, derivational and inflectional morphology; relation of morphology to phonology. Cross-listed as ANTH 5556. PREREQ: LANG/ANTH 1107.

**LANG 5577 Phonology 3 credits.** Study of articulatory phonetics and practice in phonetic transcription of a broad survey of languages; phonological analysis and theory. PREREQ: PERMISSION OF INSTRUCTOR.

**LANG 5584 Special Topics in Linguistics 3 credits.** Rotating topics in different areas of linguistics. Consult current schedule of classes for exact course being taught. Specific and evaluated graduate level activities and perfor-

mances are identified in the course syllabus. PREREQ: PERMISSION OF INSTRUCTOR.

**LANG 5588 Foreign Language Seminar 3 credits.** Advanced studies in selected topics from language, culture, literatures or methods of research. May be conducted in English. May be repeated up to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**LANG 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U .

**LANG 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**LANG 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Comparative Literature Courses

**CMLT 5515 Studies in Major National Literatures 3 credits each.** Studies in important literatures and cultures not otherwise covered by regular course offerings. Will include literatures in translation and literature written in English outside of America and the British Isles. Also listed as ENGL 5555.

**CMLT 5588 Comparative Literature Seminar 3 credits.** Advanced work in the areas of cultural studies, literature, and research methods. May be conducted in English. May be repeated for up to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**CMLT 5535 Topics in World Film Studies 3 credits.** Rotating topics in world film studies. Consult schedule of classes for topic being taught. May be repeated with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**CMLT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CMLT 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## French Graduate Courses

**FREN 5500 French Advanced Grammar 3 credits.** Survey of selected grammar and composition topics on the advanced level. PREREQ: PERMISSION OF INSTRUCTOR.

**FREN 5565 French Translation and Interpretation 3 credits.** Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary, may be repeated once with different content. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: PERMISSION OF INSTRUCTOR.

**FREN 5565L Interpretation/Translation Lab 1-3 credits.** Intensive application of interpretation practices and procedures presented in FREN 4465. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: FREN 3301 or FREN 3302. Prereqs may be taken concurrently. Lab Fee.

**FREN 5570 Readings in French 2 credits.** Reading, discussion, and writing on selected topics in French literature. May be repeated once with different content. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

**FREN 5575 Topics in Culture & Literature 3 credits.** This course is designed to offer students an opportunity to explore a topic of interest in French or francophone literature and culture at a more advanced level through the study of a wide variety of literary and cultural texts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: CMLT 3360 or FREN 3301 or FREN 3302. Prereqs may be taken concurrently.

**FREN 5595 Topics in Lang & Cult for Professions 1-3 credits.** Workshops offer students opportunities to enhance and supplement linguistic and cultural proficiency in a variety of professional contexts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be

repeated 3X with different content. Workshop Fee.

**FREN 5580 Independent Study in French 3 credits.** A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**FREN 5590 French Senior Seminar 3 credits.** Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated up to 6 credits with different content. Conducted in French. PREREQ: PERMISSION OF INSTRUCTOR.

**FREN 5595 Topics in Lang & Cult for Professions 1-3 credits.** Workshops offer students opportunities to enhance and supplement linguistic and cultural proficiency in a variety of professional contexts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: N/A. Workshop Fee.

**FREN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**FREN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## German Graduate Courses

**GERM 5560 German Translation and Interpretation 3 credits.** Theory and principles of translation and/or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary, may be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**GERM 5560L Interpretation/Translation Lab 1-3 credits.** Intensive application of interpretation practices and procedures presented in GERM 4460. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: GERM 3301 or GERM 3302. Prereqs may be taken concurrently. Lab Fee.

**GERM 5570 Readings in German 1-2 credits.** Reading, discussion, and writing on selected topics in German literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**GERM 5575 Topics in Culture & Literature 3 credits.** This course is designed to offer students an opportunity to explore a topic of interest in Germanic literature and culture at a more advanced level through the study of a wide variety of literary and cultural texts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: CMLT 3360 or GERM 3301 or GERM 3302. Prereqs may be taken concurrently.

**GERM 5580 Independent Study in German 3 credits.** A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the student. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**GERM 5590 German Senior Seminar 3 credits.** Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated up to 6 credits with different content. Conducted in German. PREREQ: PERMISSION OF INSTRUCTOR.

**GERM 5595 Topics in Lang & Cult for Professions 1-3 credits.** Workshops offer students opportunities to enhance and supplement linguistic and cultural proficiency in a variety of professional contexts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: N/A. Workshop Fee.

**GERM 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**GERM 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Japanese Graduate Courses

**JAPN 5570 Readings in Japanese 2 credits.** Reading, discussion, and writing on selected topics in Japanese literature. May be repeated once with different content. Conducted in

English or Japanese, depending on each student's skills. PREREQ: PERMISSION OF INSTRUCTOR.

**JAPN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**JAPN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Latin Graduate Courses

**LATN 5570 Readings in Latin 2 credits.** Reading, discussion, and writing on selected topics in Latin literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**LATN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**LATN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Russian Graduate Courses

**RUSS 5570 Readings in Russian 2 credits.** Reading, discussion, and writing on selected topics in Russian literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**RUSS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**RUSS 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling

ing department. Experimental courses may be offered no more than three times. May be repeated.

## Spanish Graduate Courses

**SPAN 5500 Spanish Advanced Grammar 3 credits.** Survey of selected grammar and composition topics on the advanced level. PREREQ: PERMISSION OF INSTRUCTOR.

**SPAN 5560 Spanish Translation and Interpretation 3 credits.** Theory and principles of translation and /or interpretation and their application in the fields of literature, business, law, and medicine. Topics may vary. May be repeated once with a different content. PREREQ: PERMISSION OF INSTRUCTOR.

**SPAN 5560L Interpretation/Translation Lab 1-3 credits.** Intensive application of interpretation practices and procedures presented in SPAN 4460. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: SPAN 3301 or SPAN 3302. Prereqs may be taken concurrently. Lab Fee.

**SPAN 5570 Readings in Spanish 2 credits.** Reading, discussion, and writing on selected topics in Spanish literature. May be repeated once with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**SPAN 5575 Topics in Culture & Literature 3 credits.** This course is designed to offer students an opportunity to explore a topic of interest in Hispanic literature and culture at a more advanced level through the study of a wide variety of literary and cultural texts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: CMLT 3360 or SPAN 3301 or SPAN 3302. Prereqs may be taken concurrently.

**SPAN 5580 Independent Study in Spanish 3 credits.** A directed project, under the guidance of an instructor, emphasizing individual study or research according to the needs of the study. May be repeated. PREREQ: S PERMISSION OF INSTRUCTOR.

**SPAN 5590 Spanish Senior Seminar 3 credits.** Advanced studies in selected topics from language, culture, literatures or methods of research. May be repeated up to 6 credits with different content. Conducted in Spanish. PREREQ: PERMISSION OF INSTRUCTOR.

**SPAN 5595 Topics in Lang & Cult for Professions 1-3 credits.** Workshops offer students

opportunities to enhance and supplement linguistic and cultural proficiency in a variety of professional contexts. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated 3X with different content. Prereqs: N/A. Workshop Fee.

**SPAN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SPAN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## School of Performing Arts

Chair and Associate Professor: Thomas Hasenpflug

Professors: Bond, Brooks, Dienstfrey, Earles, Lane, Livingston Friedley, Schroder, Young  
Associate Professors: Gross, Harwood, Hasenpflug

Assistant Professors: V. Ballam, Helman, Kloss, K. York

Assistant Lecturer: Helman, Romine  
Adjunct Faculty: G. Adams, M. Adams, B. Attebery, Banyas, Cha, Drake, Espinosa, G. Friedley, Hughes, LoPiccolo, Neiwirth, O'Brien, Romine, Sorenson, M. York

## Master of Education in K-12 Education Music Education

36 Credits

(Music content courses listed below)

The M Ed in Music Education is a degree program housed in the College of Education and presented in collaboration with the Department of Music. For admission into this program, apply first to the College of Education Department of Educational Foundations. Music content courses are listed in this section.

The M.Ed. in Music Education is designed to strengthen the student's understanding, knowledge, and skills in three major areas—Core Professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to music education. The program is designed to meet the needs of music education

specialists who work in the public school system (grades K-12) or who aspire to further graduate study and teaching in music education.

## Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, individuals applying for admission to the Master of Education/Music Education, must meet the following admission requirements:

- Bachelor's degree in music from an accredited college or university.

It is expected that students will meet basic requirements for public school certification.

- Completion of entrance examinations in music history and music theory. Students whose examination indicate deficiencies will be granted Classified (w/PR) Status. Any course used to remove deficiencies does not count toward the degree. When deficiencies have been removed, the student may seek Classified Status.

## General Requirements

Students complete a minimum of 36 semester credit hours for the Master's degree. Students seeking Idaho Certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students have professional experience in an education context.

### Education Core (12 credits)

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr
EDUC 6616 Integration of Technology into School Curriculum	3 cr

### Pedagogy and Content (24 credits)

MUSC 5515 Seminar in Band Music	2 cr
OR	
MUSC 5516 Seminar in Choral Music	2 cr
OR	
MUSC 5518 Seminar in Orchestral Music	2 cr
MUSC 5545 Advanced Instrumental Conducting	2 cr
MUSC 5546 Advanced Choral Conducting	2 cr
MUSC 6601 Foundations in Music Education	3 cr
MUSC 6610 Practicum in Rehearsal Techniques	2 cr
MUSC 6671 Music Education Seminar	3 cr
Graduate Performance Ensemble (2 semesters)	2 cr
Music History/Theory Elective	2-3 cr
Music History/Theory Elective	2-3 cr
Other Music Electives	4-6 cr
Total	36 cr

## Music Graduate Courses

**MUSC 5506 Opera Literature 3 credits.** Masterworks of operatic literature.

**MUSC 5507 Symphonic Music Literature 3 credits.** Masterworks of symphonic literature.

**MUSC 5508 Chamber Music Literature 3**

**credits.** Masterworks of chamber music literature.

**MUSC 5511 Instrument Literature 2 credits.** A study of instructional materials and literature for an orchestral instrument or guitar. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5512 Instrument Pedagogy 2 credits.** A survey and comparative study of pedagogical materials, principles and procedures. Application of pedagogical techniques in teaching situations. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5513 Piano Literature 2 credits.** A study of instructional materials and literature for piano. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5514 Piano Pedagogy 2 credits.** A survey and comparative study of pedagogical materials, principles and procedures for piano. Application of pedagogical techniques in teaching situations. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5515 Seminar in Band Music 2 credits.** Analysis and study of instrumental works from the Baroque to the present era with particular attention to performance practice. PREREQ: MUSC 3305-3306 OR EQUIVALENT.

**MUSC 5516 Seminar in Choral Music 2 credits.** Analysis and study of choral works from the Renaissance through the present era with particular attention to performance practice.

**MUSC 5518 Seminar in Orchestral Music 2 credits.** Analysis and study of orchestral works from the Baroque to the present era with particular attention to performance practice. PREREQ: MUSC 3305 and MUSC 3306 or equivalent.

**MUSC 5519 Voice Literature 3 credits.** Instructional materials and literature for voice. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5520 Voice Pedagogy 3 credits.** A survey and comparative study of pedagogical materials, principles, and procedures for voice, with application. PREREQ: JUNIOR LEVEL STANDING IN APPLIED MUSIC OR PERMISSION OF INSTRUCTOR.

**MUSC 5524 Music in the Baroque Era 3**

**credits.** Intensive study of music from Monteverdi through J.S. Bach.

**MUSC 5525 Music in the Classical Era 3 credits.** Intensive study of music in the Classical era, principally 1730 through Beethoven.

**MUSC 5526 Music in the Romantic Era 3 credits.** Intensive study of music in the Romantic era, principally 1800 to 1900.

**MUSC 5527 Music in the Modern Era 3 credits.** Intensive study of music in the Modern era, principally since 1900.

**MUSC 5529 Advanced Music History Survey 3 credits.** Study of music history topics, including vocal and instrumental forms and styles. PREREQ: MUSC 3304, MUSC 3305 AND MUSC 3306.

**MUSC 5532 Instrumental Arranging 2 credits.** Arranging music for different instrumental combinations and various textures.

**MUSC 5533 Composition 2 credits.** Individual instruction in the organization of musical ideas into logical and homogeneous forms with an emphasis on contemporary styles. May be repeated up to 12 credits.

**MUSC 5535 Analysis of Musical Styles 2 credits.** The techniques of stylistic analysis of music from the Baroque period through the 20th century.

**MUSC 5538 Special Topics in Music Theory 2 credits.** Advanced studies in selected topics in music theory. May be repeated up to 6 credits with change of topic.

**MUSC 5539 Advanced Music Theory Survey 3 credits.** Study of music theory methods, including harmonic and formal analysis.

**MUSC 5545 Advanced Instrumental Conducting 2 credits.** Designed for secondary school music educators. Practical experience in analyzing and rehearsing instrumental conducting techniques for a wide variety of instrumental music. PREREQ: MUSC 3320.

**MUSC 5546 Advanced Choral Conducting 2 credits.** Designed for secondary school music educators. Practical experience in analyzing and rehearsing choral conducting techniques for a wide variety of choral music. PREREQ: MUSC 3319.

**MUSC 5591 Independent Study 1-4 credits.** Supervised study in selected areas, primarily research, writing, or analysis. May be repeated to a maximum of 7 credits. PREREQ: PERMISSION OF INSTRUCTOR AND DEPARTMENT CHAIR.

**MUSC 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**MUSC 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MUSC 6601 Foundation in Music Education 3 credits.** Historical, philosophical, and psychological foundations of music education, with their application to current instruction and evaluation.

**MUSC 6610 Practicum in Rehearsal Techniques 2 credits.** Advanced techniques of ensemble rehearsal, including procedures, diagnostic and achievement evaluation, planning and pedagogy. PREREQ: MUSC 5515 OR MUSC 5516, MUSC 5517.

**MUSC 6650 Thesis Project 1-4 credits.** The student will present a public graduate recital, supervised by a faculty member in the music department. In addition to the recital, a paper will be submitted demonstrating extensive familiarity with research relative to the music performed in the recital. This paper will be written under the supervision of a faculty member from the College of Education and faculty members from the Music Department. The completed paper and recital are to be accepted by the examining committee and the paper filed with the dean of the College of Education. A recording of the recital will be filed with the music department. May be repeated. Graded S/U.

**MUSC 6671 Music Education Seminar 3 credits.** Advanced examination of concepts, principles, models, and theories of instruction in music education. Seminar format requires active participation in readings, discussion, presentations, and written assignments. PREREQ: MUSC 6601 AND MUSC 6610.

**MUSC 6695 Graduate Recital 2 credits.** Public recital culminating from applied music study at the graduate level. Graded S/U.

**MUSC 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Graduate Performance Ensembles

**MUSP 5566 Chamber Choir 1 credit.** Reading, study and performance of representative literature for chamber choir. Emphasis is placed on the individual's contribution toward the highest of choral standards. May be repeated. **PREREQ:** Junior level standing in applied music.

**MUSP 5567 Opera Workshop 1 credit.** Ensemble course devoted to the study and presentation of an opera. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**MUSP 5568 Instrumental Ensemble 1 credit.** Ensemble training in various instrument combinations, such as string quartet and various woodwind and brass ensembles. Section 1, Woodwind Ensemble; 2, Brass Ensemble; 3, Percussion Ensemble; 4, String Ensemble; 5, Guitar Ensemble; 6, Keyboard Ensemble. May be repeated.

**MUSP 5569 Orchestra 1 credit.** Sight reading of representative orchestral literature; orchestral routine, study, and public performance of major symphonic compositions including orchestral accompaniments. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**MUSP 5572 ISU Women's Choir 1 credit.** Study, rehearsal and performance of traditional and non-traditional choral music for treble voices. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**MUSP 5573 Concert Choir 1 credit.** Study and performance of the entire body of choral music. Includes several performances and concerts. Emphasis on attaining high musical standards and levels of choral-vocal proficiency. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**MUSP 5577 Symphonic Band 1 credit.** Rehearsal and performance of traditional and contemporary wind literature in on- and off-campus concerts. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

**MUSP 5578 Jazz Band 1 credit.** Rehearsal and performance of standard and contemporary big-band literature. One or two concerts are given each semester. **PREREQ:** JUNIOR LEVEL STANDING IN APPLIED MUSIC.

### Applied Music—Private Lessons

**MUSA 5521 Piano 1-3 credits each.** May be repeated.

**MUSA 5531 Voice 1-3 credits each.** May be repeated.

**MUSA 5541 Organ 1-3 credits each.** May be repeated.

**MUSA 5561 Strings 1-3 credits each.** Section 1, Violin; 2, Viola; 3, Cello; 4, String Bass; 5, Classical Guitar. May be repeated.

**MUSA 5565 Brass Instruments 1-3 credits each.** Section 1, Trumpet; 2, French Horn; 3, Euphonium; 4, Trombone; 5, Tuba.

**MUSA 5575 Woodwind Instruments 1-3 credits each.** Section 1, Flute; 2, Clarinet; 3, Oboe; 4, Bassoon; 5, Saxophone.

**MUSA 5585 Percussion Instruments 1-3 credits each.**

## Master of Arts in Theatre Goals

The primary objectives related to the graduate Theatre program are to help students develop the following competencies:

1. A highly developed understanding of the history and literature of the art.
2. The ability to read, understand, and critique scholarly theatre-related essays and books.
3. The ability to contribute to general theatre scholarship.
4. The demonstrated ability to continue with graduate work toward a terminal degree, whether an M.F.A. or Ph.D.
5. To develop pedagogical skills enabling the students to pass on their knowledge to others.
6. Knowledge of theatre as a social and aesthetic experience.
7. Competence in basic acting and directing skills.
8. Competence in technical aspects of theatre.
9. Competence in study skills.
10. Competence in research skills.
11. Competence in thinking clearly, logically, and independently.
12. Ability to effectively communicate and work within a collaborative art.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School.

### General Requirements

THEA 6601 Introduction to Research in Drama	3 cr
THEA 6641 Seminar in Drama Theory	3 cr
THEA 6642 Seminar in Drama Theory	3 cr
THEA 6650 Thesis	1-6 cr
Theatre Electives	15-20 cr
Minimum Total Credits	30 cr

The Theatre electives may be selected from 5000 - and 6000- level courses in Theatre or other graduate courses approved by the Theatre Director of Graduate Studies. Students may not register for a 5000-level course if they have already earned undergraduate credit in the equivalent 4000-level course, unless approval is obtained from the Theatre Director of Graduate Studies.

### Theatre Graduate Courses

**THEA 5500 Theatre Backgrounds I 3 credits.** Theatre and drama, from their origins through the Jacobean period.

**THEA 5501 Theatre Backgrounds II 3 credits.** Study of the theatre and drama from the Spanish Golden Age through the "well-made play."

**THEA 5502 Stage Costume History 3 credits.** A survey of the history of western clothing from Ancient Egypt through the present. Study of the social context and motivations behind the evolution of clothing, silhouette, and costume components.

**THEA 5503 Stage Costume Design 3 credits.** Costume design for the theatre incorporating the influence of period, concept, and mood. Course work includes text analysis, research, drawing, painting, and collage.

**THEA 5504 Problems in Acting 3 credits.** Focuses on special acting problems such as characterization, movement, voice, pantomime, and film and television acting. Content varies from year to year. May be repeated once with the consent of the instructor.

**THEA 5505 Advanced Costume Construction 3 credits.** A study in period corset and millinery construction. A lab course in which students gain practical experience and skills crucial to a career in costume technology.

**THEA 5506 Advanced Light Design 3 credits.** Study of lighting design in performing arts. Students gain knowledge through actualized projects, study of television and film lighting, and exploration of the Controllable properties including color.

**THEA 5512 Scenic Painting 3 credits.** A study of painting techniques as used in theatrical scenery; theory, practice, and equipment will be investigated as they apply to the art of stage painting.

**THEA 5519 Modern European Theatre 3 credits.** Continental and British theatre and drama from 1850 to mid-twentieth century.

**THEA 5520 American Theatre 3 credits.** American theatre and drama from the beginning to mid-twentieth century.

**THEA 5521 Basic Pattern Drafting for Stage Costuming 3 credits.** Cutting patterns from measurements. Adjusting various patterns to designs. Alterations and fittings. PREREQ: PERMISSION OF INSTRUCTOR.

**THEA 5522 Period Pattern Drafting for Stage Costuming 3 credits.** Use of the basic patterns to reproduce historical costumes from the 12th century to 1950. PREREQ: PERMISSION OF INSTRUCTOR.

**THEA 5524 Advanced Acting Styles 3 credits.** Study of the various period styles of acting including Greek, Medieval, Elizabethan, Restoration, and 19th century melodrama. The student will act in a series of special projects encompassing a variety of styles. PREREQ: PERMISSION OF INSTRUCTOR.

**THEA 5526 Advanced Scene Design 3 credits.** Study of scene design in performing arts and beyond. Students work toward portfolio-quality work in realized and non-realized projects in theatre, television, film, and design areas.

**THEA 5555 Beginning Stage Direction 3 credits.** Consideration of aesthetics of dramatic production and the relationship of basic techniques of stage direction. Includes the direction of scenes and short one-act plays. PREREQ: PERMISSION OF INSTRUCTOR.

**THEA 5556 Advanced Stage Direction 3 credits.** Advanced theories in techniques of stage direction including consideration of period styles. The student will direct a series of advanced projects including scenes and a complete one-act play. PREREQ: THEA 5555, OR PERMISSION OF INSTRUCTOR.

**THEA 5570 Contemporary Theatre 3 credits.** World drama and theatre during the five most recent decades.

**THEA 5590 Practicum Theatre Arts II 1-3 credits.** Integrated projects for advanced students in various areas of theatre arts emphasizing analysis and presentation of experimental work. May be repeated for a maximum of four credits, with different content.

**THEA 5591 Independent Research Project II 1-2 credits.** Under the supervision of the drama faculty, students will undertake special research projects in theatre. May be repeated once with different content.

**THEA 5597 Professional Education Development Topics. Variable credit.** A course for

practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**THEA 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated. Graded S/U.

**THEA 6601 Introduction to Research in Drama 3 credits.**

**THEA 6641 Seminar in Drama Theory 3 credits.**

**THEA 6642 Seminar in Drama Theory 3 credits.**

**THEA 6650 Thesis 1-6 credits.** May be repeated. Graded S/U.

**THEA 6660 Graduate Degree Papers 1-2 credits.** May be repeated. Graded S/U.

**THEA 6691 Independent Study in Drama 1-4 credits.** Supervised individual study in drama. Instructor's consent required. May be repeated for a maximum of 4 credits.

**THEA 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Museum

Director, Research Curator and Anthropology Division Head; Director, Idaho Virtualization Laboratory; Director, Center for Archaeology, Materials, and Applied Spectroscopy, and Anthropology Research Professor: Maschner  
Anthropology Collections Manager (IMNH): Tews  
Earl R. Swanson Archaeological Repository Manager (IMNH): Commendador-Dudgeon

### Mission Statement

The Mission of the Idaho Museum of Natural History is to acquire, preserve, study, interpret, and display objects relating to the natural history of Idaho and the Northern Intermountain West for research and education. The Museum seeks to enhance in the citizens of Idaho and visitors an understanding of and delight in Idaho's natural and cultural heritage. Specific areas of interest encompass the anthropology, botany, geology, paleontology, and zoology of Idaho and the Northern Intermountain West.

Audiences served include citizens of Idaho, visitors, and the national and international community of students and scholars. Information is disseminated through exhibitions, public and professional presentations, publications, formal and informal education, telecommunications, and other interpretive programs.

### Museum Graduate Courses

(No graduate degrees are offered)

**MUSE 5550 Independent Study in Museum Methods 1-3 credits.** Individual projects based on student's background and interests. Could include, but not limited to, advanced work in collections management, exhibit design and construction, museum education, or administration. May be repeated up to 6 credits. PREREQ: MUSE 4411 OR PERMISSION OF INSTRUCTOR.

## Division of Social and Behavioral Sciences

### Department of Anthropology

Interim Chair and Professor Stocks  
Professors: Cartwright, Loether, Lohse  
Associate Professors: Reedy-Maschner  
Assistant Professors: Dudgeon, Peterson  
Native Language Instructor: Gould  
Adjunct Faculty: Dean,  
Research Affiliate Faculty: Hansen, Woods

### Mission

The mission of the Department of Anthropology is to research and teach about humankind the world over from the distant past to the present. Anthropology consists of sub-fields that specialize in the human past, human biology and evolution, language, society, and culture, and provides cross-cultural, environmental, international, and global perspectives on past and present human behavior. An important part of the anthropology mission at Idaho State University is to apply anthropological concepts to the resolution of important social, cultural, and environmental problems of our times. The Department of Anthropology offers graduate students courses leading to the Master of Arts or Master of Science degree in Anthropology, with opportunities for specialization in archaeological science, ecological, medical, and applied anthropology, linguistics, biocomplexity, informatics, and oral history.

## Goals

Students who have completed a graduate degree in Anthropology at Idaho State University should be able to:

1. Read and understand anthropological theory at a professional level.
2. Understand current debates within the field of anthropology.
3. Synthesize and critically evaluate the professional literature.
4. Use a comparative approach to theorize about the similarities and differences in the human condition across space and through time.

Measurable Outcomes - The Thesis or Special Project should show the following competencies based on the learning objectives:

1. Write a proposal for pure research or the application of theory to contemporary social issues.
2. Perform quantitative and/or qualitative analysis of data appropriate to the chosen subdiscipline.
3. Competently conceive, conduct, and write-up either research in anthropology or applications of anthropology at a level suitable for publication.

## Admission Requirements

The student must apply to, and meet all criteria for admission to the Graduate School. In addition the student must provide:

1. A letter of application, including areas of interest and professional goals;
2. Three letters of recommendation;
3. Undergraduate transcripts and transcripts of any previous post-graduate coursework;
4. Minimum grade point average of 3.0;
5. Total GRE scores that average at least the 50th percentile for admission;
6. An undergraduate degree in anthropology is not required for acceptance into the program; however, students without upper division coursework in sociocultural anthropology, archaeology, and human origins equivalent to ANTH 5501, 5503, 5530, and an upper division linguistic anthropology course will be required to take these courses or approved readings courses before enrolling in content-respective graduate seminars.

## General Requirements

### Option 1: Master of Arts

1. A minimum of 30 credits must be taken, including 15 at the 6600-level or higher and these required courses:

ANTH 6605 Seminar in Linguistic Anthropology	3 cr
ANTH 6615 Seminar in Biological Anthropology	3 cr
ANTH 6625 Seminar in Sociocultural Anthropology	3 cr
ANTH 6635 Seminar in Archaeology	3 cr
PLUS	

ANTH 6641 Research Project	6 cr
OR	
ANTH 6650 Thesis	6 cr

2. An additional 9 credits of graduate level courses approved by the student's advisor are also required.
3. Fours semesters of foreign language must be completed, or equivalent competence must be demonstrated.

### Option 2: Master of Science

1. A minimum of 30 credits must be taken, including 15 at the 6600-level or higher and these required courses:

Two of the following graduate seminars:	
ANTH 6605, 6615, 6625, 6635	6 cr
PLUS	
ANTH 6641 Research Project	6 cr
OR	
ANTH 6650 Thesis	6 cr

2. An additional 9 credits of advanced techniques and methods courses are also required.

### Additional Requirements for Option 1 and Option 2:

1. By the end of the first semester, each student must develop a proposed program of study specifying elective courses (Options 1 and 2) and techniques and methods courses (Option 2) in consultation with the student's graduate advisor.
2. Students completing an M.S. or M.A. in Anthropology with an MPH degree may apply up to 9 credits to both degrees subject to approval of the student's advisors in both programs.
3. To maintain Classified status, students must register for a minimum of 6 credits in the Fall and Spring Semesters of the first year.
4. Each student must write a Master's thesis or publishable manuscript, and must successfully defend it in a formal oral examination.

## Anthropology Graduate Courses

**ANTH 5501 History and Theory of Sociocultural Anthropology 3 credits.** Survey of the development of anthropology, various schools of thought, important personalities, and concepts that have contributed to anthropology over time. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5502 Ecological Anthropology 3 credits.** Interaction of human bio-cultural systems and environment. Relations of natural resources, technological inventories, social organization, cultural categories. Native resource management practices. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5503 Method and Theory in Archaeology 3 credits.** History of the development of current methods and theory in archaeology and contemporary applications. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5504 Material Culture Analysis 3 credits.** Method and analyses used in archaeology and anthropology to understand the relationship between objects and culture. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5505 Analytical Techniques Laboratory 1 credit.** Analytical techniques laboratory to accompany ANTH 5504. Students will complete an assigned project in material culture analysis. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5506 American Indian Health Issues 3 credits.** An overview of health concerns, both current and past, of American Indian people, and the biological and sociocultural factors which influence health status. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5507 Anthropology of Global Health 3 credits.** How cultures define health and illness, and how these definitions ultimately influence the health status of individuals. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5508 Topics in Medical Anthropology 3 credits.** Rotating topics, including international health issues, ethno-psychiatry, ethnomedicine and non-western healing systems. May be repeated for a maximum of 6 credits. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 5507 or PERMISSION OF INSTRUCTOR.

**ANTH 5509 Clinical Medical Anthropology 3 credits.** Explores the culture of biomedicine and the beliefs of patients. Topics include doctor/patient communication, cultural competency, cultural construction of risk, critiques of high-tech medicine and the international pharmaceutical industry.

**ANTH 5510 Introduction to Cultural Resources Management 3 credits.** Introduction to CRM reviewing historic preservation and federal legislation as they pertain to archaeology; practical experience in site survey and recording. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5513 Old World Archaeology 3 credits.** Prehistory of the Old World. Precise areal focus and periods may vary. Includes both theory and exposition. May be repeated for up to 6 credits with different course topics. Specific, evaluated graduate-level activities and/or performances are identified in the

course syllabus. PREREQ: ANTH 2203 OR PERMISSION OF INSTRUCTOR.

**ANTH 5514 New World Archaeology 3 credits.** Examination of the prehistory of the Americas with emphasis on the North American Continent. May be repeated for up to 6 credits with different course topics. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 2203 OR PERMISSION OF INSTRUCTOR.

**ANTH 5530 Human Evolution 3 credits.** Examines relevant topical issues/problems in human evolution from a bioanthropological, ecological and demographic perspective, including paleoanthropology, evolutionary genetics, and the impact of health, nutrition and disease in human populations. May be repeated for up to 6 credits. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 22230 OR PERMISSION OF INSTRUCTOR.

**ANTH 5532 Human Osteology 3 credits.** Provides a comprehensive, working knowledge of the human skeletal system presented in a laboratory context, including identification of individual bones, osteogenesis, pathologies, demography and the applications of knowledge and techniques in real world settings. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 2230 OR PERMISSION OF INSTRUCTOR.

**ANTH 5539 Principles of Taphonomy 3 credits.** Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed with BIOL 5539 and GEOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5549 Qualitative Research Methods 3 credits.** Study of qualitative research methods. Data gathering techniques and data analysis will be covered. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 2250 OR PERMISSION OF INSTRUCTOR.

**ANTH 5550 Sociolinguistics 3 credits.** Study of the patterned covariation of language and society, social dialects and social styles in language; problems of bilingualism, multilingualism, creoles and language uses. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Cross-listed as ENGL 5588. PREREQ: ANTH 1107, ENGL 2281, OR PERMISSION OF INSTRUCTOR.

**ANTH 5552 American Indian Verbal Arts 3 credits.** Analysis of current theories in the study of oral literature and ethnopoetics, focusing on the oral traditions of American Indians.

**ANTH 5554 Survey of American Indian Languages 3 credits.** History of scholarship, analysis and classification of American Indian languages with emphasis on the languages of a particular phylum or geographical area. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5555 Phonetics 3 credits.** Introduction to descriptive linguistics focusing on phonetics and phonetic phenomena of English and the other languages of the world. Extensive practice in perception and production of such phenomena. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Cross-listed as LANG 5555. PREREQ: ANTH/LANG 1107.

**ANTH 5556 Phonology and Morphology 3 credits.** Phonological theory and analysis; current theories in morphology. Phonological rules, representations, underlying forms, derivation, justification of phonological analyses; morphological structure, derivational and inflectional morphology; relation of morphology to phonology. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Cross-listed as LANG 5556. PREREQ: ANTH/LANG 1107.

**ANTH 5558 Historical Linguistics 3 credits.** The methods and theories of the historical study of language. The comparative method, internal reconstruction, linguistic change over time, genetic typology of languages, and applications to prehistory.

**ANTH 5559 Linguistic Field Methods 3 credits.** Practical experience in linguistic analysis of a language using data elicited from a native speaker. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5563 Applied Statistics in Anthropology 3 credits.** Practical applications of commonly used statistical analyses in anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5564 Advanced Analytical Methods in Anthropology 3 credits.** Examination and practical experience in applying advanced quantitative, qualitative, and laboratory methods and analyses. May be taken for up to 6 credits. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ANTH 5563

OR PERMISSION OF INSTRUCTOR.

**ANTH 5572 Native American Arts 3 credits.** Survey of Native American arts and industries, including prehistoric, ethnographic, and contemporary venues. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5574 Topics in Indian Education 3 credits.** Rotating review of topics dealing with issues in Indian education. Consult current schedule of classes for exact course being taught. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated.

**ANTH 5578 Federal Indian Law 3 credits.** Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional conflicts over land and resources; and economic development. Cross-listed as POLS 5578.

**ANTH 5579 Tribal Governments 3 credits.** Complex legal position of Indian tribes as self-governing entities; principles of inherent powers; governmental organization, lawmaking, justice, relation to state and federal government. Cross-listed as POLS 5579.

**ANTH 5580 Varieties of American English 3 credits.** In-depth study of various dialects of American English, including historical evolution of different dialects, effects of migration on dialects, and influences of non-English immigrant languages on development of American English. Field work studying the Snake River dialects of Idaho. Cross-listed as ENGL 5580.

**ANTH 5581 Topics in Sociocultural Anthropology 3 credits.** Selected topics in social, political, economic, and religious systems/organization. Intensive survey of literature and analysis of relevant materials. See current schedule of classes for exact course titles. May be repeated for up to 9 credits with different course topics. Specific, evaluated graduate level activities and/or performances are identified in the course syllabus. PREREQ: UPPER DIVISION STATUS OR PERMISSION OF INSTRUCTOR.

**ANTH 5582 Independent Problems in Anthropology 1-3 credits.** Investigation of an anthropological problem chosen by the student and approved by the staff. May be repeated up to 6 credits.

**ANTH 5583 Field Research 3 credits.** Practical experience in field research. May be repeated for up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5585 Anthropology of War and Violence 3 credits.** Survey of war and violence from evolutionary foundations through modern representations. The course covers violence and war among chimpanzees, the genetics and biochemistry of violence, the role of evolution in making humans aggressive, and the history and ethnography of violent conflict around the world.

**ANTH 5586 Archaeology Field School 1-9 credits.** Practical field and laboratory training in archaeological excavation techniques and methods of analysis. May be repeated to a total of 9 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5587 Ethnographic Field School 1-6 credits.** Supervised fieldwork in cultural anthropology in a given ethnographic setting where students and faculty work on a specific set of field problems. May be repeated to a total of 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5589 Topics in American Indian Studies 3 credits.** Rotating review of topics dealing with issues in American Indian studies. Consult current schedule of classes for exact course being taught. May be repeated with different topics. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**ANTH 5590 Topics in Folklore 3 credits.** Focused study of an issue in folkloristics or a particular genre of folklore, including history of the scholarship concerning that issue or genre. Rotating topics. May be repeated up to 9 credits with different topics. Cross-listed as ENGL 5590.

**ANTH 5591 Archaeology Laboratory - Analysis 3 credits.** Directed analysis of archaeological remains and report writing. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5594 Visual Anthropology 3 credits.** Documentary and ethnographic filmmaking techniques including story structure, interviewing, audio and lighting, camera handling, composition, POV, and editing. Anthropological critiques of visual representation. Students create their own short film for a final project. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 5595 Department Colloquium 1 credit.** Presentations of current research issues in Anthropology by faculty and students. May be repeated.

**ANTH 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the develop-

ment and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**ANTH 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ANTH 6605 Seminar in Linguistic Anthropology 3 credits.** Discussion of theories, methods, and results in linguistic anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6610 Seminar in Medical Anthropology 3 credits.** Discussion of current topics within the various specializations of medical anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6615 Seminar in Biological Anthropology 3 credits.** Discussion of theories, methods, and results in biological anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6625 Seminar in Sociocultural Anthropology 3 credits.** Discussions of theories, methods, and results in sociocultural anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6635 Seminar in Archaeology 3 credits.** Studies in current theories, methods, and results in archaeological anthropology. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6641 Research Project 1-6 credits.** The student will pursue original research under staff guidance. The final report will result in a publishable manuscript. May be repeated. Graded S/U. PREREQ: PERMISSION OF THE CHAIR OF STUDENT'S GRADUATE COMMITTEE.

**ANTH 6642 Practicum in Teaching Anthropology 3 credits.** Directed preparation of an anthropology course with a review of course materials, format, teaching techniques, films, and other aids. The trainee will participate in a supervised teaching experience.

**ANTH 6649 Independent Study 1-4 credits.** Independent research under the guidance of faculty. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**ANTH 6650 Thesis 1-6 credits.** May be repeated. Graded S/U.

**ANTH 6655 Internship in Applied Anthropology 3-6 credits.** Supervised experience in the development and implementation of an anthropological project.

**ANTH 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Department of History

Chair and Professor: Marsh

Professors: Christelow, Kuhlman, Woodworth-Ney

Associate Professors: Njoku

Assistant Professors: Stover, Youngs

Adjunct Faculty: Duffin, Leibert, Reinke

Emeritus Faculty: Christelow, Hatzenbuehler, Marley, Owens, Swanson

Research Faculty: Edsall, Owens, Stephenson

Lecturer: Sivitz

## Master of Arts in Historical Resources Management

The M.A. in Historical Resources Management trains students to apply sophisticated information technologies to a rigorous analysis of historical problems. Emphasis is placed on a practical, interdisciplinary approach to applied history, using new technologies to examine changes through time and place. Students within this innovative program choose between two concentrations or "tracks."

1. The GIS track combines the use of geographic information systems (GIS) and related information technologies with historical research methods to conduct spatial analyses of the past. ISU is an internationally recognized center in applying GIS to historical research. Students may work closely with the award-winning ISU GIS Teaching and Research Center, which provides technical training and support and promotes multidisciplinary collaboration among ISU faculty and graduate students. Geotechnology is a powerful tool and a highly sought skill in most job sectors, where demand far exceeds the supply of trained graduates. This technological training complements the fundamental historians' skills of research, analysis, and writing that are always in demand.
2. The Digital Media track focuses upon using a variety of media tools to com-

municate historical information and interpretation. Students learn techniques of web design, museum displays, film production, and scholarly publishing. In addition to collaboration with faculty in the James E. Rogers Department of Mass Communication, students may gain experience from working with three peer-reviewed journals edited by faculty in the History Department, on-campus production facilities of Idaho Public Television, and local museums. Graduates will conduct significant historical research and present interpretations in a variety of engaging and effective formats.

Students in both tracks complete an internship that develops skills in analysis, collaboration, and communication. Both options emphasize individual research into historical documents and publication or presentation by students in a variety of formats. Students receive strong training that will enable graduates to compete successfully for a wide variety of jobs with businesses and educational, government, and private agencies and to prepare them for further graduate study.

### Admission Requirements

The student must apply and meet all criteria for admission to the Graduate School. In addition, the student must comply with the following departmental requirements:

1. Applicants must submit three letters of recommendation at least two of which should be from individuals familiar with their academic work.
2. Applicants should have at least 12 credits of previous course work in History at the upper-division level.
3. Applicants planning to pursue the GIS track must have taken GIS for Social Sciences, Principles of Geographic Information Systems, an equivalent class, or present evidence that such a course will be completed prior to entering the Historical Resources Management master's program. Note: student's lacking this prior training may be admitted for the GIS track in the spring semester upon condition that they take one of these GIS classes during that first semester.
4. Applicants must submit, as part of their admissions application, a statement of interest in historical studies and personal goals that identifies which track the student's wishes to pursue. Particular attention should be given to explaining how these interests and goals relate to a particular track within the Historical Resources Management master's program.
5. To be successful, an applicant must receive the support of someone in the department willing to chair the appli-

cant's graduate committee.

### General Requirements

1. A minimum of 30 semester credits, at least 15 of which must be at the 6600-level.
2. Core Courses (complete all of the following classes):
 

HIST 5590	Cartography: History and Design	3 cr
HIST 5590L	Cartography Lab	1 cr
HIST 6000	Graduate Proseminar	3 cr
HIST 6610	History in the Digital Age	3 cr
HIST 6642	Conferences and Grants	3 cr
3. Track-specific Requirements:

#### Digital Media Track

MC 5570 Communication through Web Design 3 cr

4. An internship (HIST 6664) is required for a minimum of 3 credits.
5. Electives: at least enough credits at the 5500 and/or 6600-level beyond the required core courses and internship to reach the credit requirements stated in item #1 previously. At least 3 of these credits must be for individual research, usually either HIST 6645 or HIST 6650.
6. There will be a final oral examination. For students pursuing the thesis option, the examination will be based on the thesis. For those with the non-thesis option, the examination will be based on an independent research project and/or internship work. The format of the non-thesis option examination will be flexible in order to accommodate a wide variety of possible student experiences.

### History Graduate Courses

**HIST 5505 Problems in History 3 credits.** A thorough consideration of historical problems, particularly from a comparative perspective. Designed to give deeper insight into problems, issues, and topics which are treated more generally in other courses. May be repeated with different content.

**HIST 5511 Intro to Museum Studies 2 credits.** History, philosophy, purposes, organization and administration of museums. Practical work in collections management and museum interpretation. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Pocatello.

**HIST 5518 U.S. History for Teachers 3 credits.** U.S. history from indigenous cultures through modern America. Based on Idaho Department of Education Standards for High School Students. PERMISSION OF INSTRUCTOR.

**HIST 5521 Federal Indian Relations 3 credits.** This course provides a legal-historical examination of the relationship between North American tribal peoples and the U.S. federal government between 1750 and the present.

Special emphasis will be placed on Indian removal, assimilation policy, treaty negotiation, the Dawes Severalty Act, education policy, Indian reorganization policy, and termination.

**HIST 5523 Idaho History 3 credits.** A survey of the social, cultural, environmental, and political history of Idaho from pre-contact indigenous cultures to the present, emphasizing Idaho's relation to other states and regions in the West.

**HIST 5525 Women in the North American West 3 credits.** Comparative examination of the varied experiences of women in the North American West. Analyzes perceptions of women and women's views of themselves, women's activism, and women's cultural activities. Places special emphasis on the use of non-textual historical sources in uncovering the past lives of North American western women.

**HIST 5527 North American West 3 credits.** History of the North American West from pre-contact indigenous cultures to the present, with an emphasis on exploration, settlement, ethnic groups, borderlands, environment, federal policy, and cultural depictions.

**HIST 5529 Foreign Relations since 1900 3 credits.** An introduction to the history of international relations in the twentieth century. This course emphasizes the impact of wars on various peoples and cultures, anti-colonialism and the rise of the so-called 'Third World,' and the processes of political, cultural and economic 'globalization.'

**HIST 5530 Global Environmental History 3 credits.** Comparative examinations of historical interactions between humans and environmental factors in various time periods and regions throughout the world, and an assessment of their impacts on historical change.

**HIST 5535 Colonial Frontiers in America and Africa 3 credits.** A comparative examination of exploration, conquest, and resistance, and the interaction of cultures in frontier settings. Examines both the realities of the frontier and their impact on Western thought and imagination.

**HIST 5537 Families in Former Times 3 credits.** Reconstructs the marriage patterns and domestic lives of people in pre-industrial Europe (1000-1700 AD).

**HIST 5538 Women in Pre-Industrial Europe 3 credits.** Compares and contrasts the social, cultural and economic roles of women from 700-1700 AD, and analyzes the impacts of historical change on their lives.

**HIST 5539 Feminism and Equality in World History 3 credits.** Comparative study of the history of feminism and women's rights in different world regions, involving the social constructs of gender, race, and class. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Pocatello.

**HIST 5541 The Viking Age 3 credits.** Studies the cultures and societies of Scandinavia, England and continental Europe from 700 to 1100 AD.

**HIST 5543 English History 3 credits.** Survey of the more important British political, constitutional, economic, and cultural developments from Anglo-Saxon times to the Victorian Period.

**HIST 5544 Victorian England and After 3 credits.** England, 1837 to the present. An examination of the cultural, social, political, and economic history of the most prosperous and productive period of English history including British national and imperial decline in the twentieth century.

**HIST 5546 Social and Economic History of Greece and Rome 3 credits.** Investigates ways in which geography, demography and politics affected the mentalities and behaviors of social groups—women, patrons, clients and slaves—and the functioning of households, villages and cities.

**HIST 5548 Medieval Social and Economic History 3 credits.** Analyzes the impact of political instability, migration and environment upon Europeans (AD 200 - 1400).

**HIST 5550 Golden Age Castile 3 credits.** History of a major European country in an age of globalization, military revolution, religious conflict, and significant cultural development, 1450-1700.

**HIST 5553 Renaissance Creativity 3 credits.** Examination of the conditions promoting individual creativity among Europeans in the first global age, 1400-1700. Special emphasis on geospatial research on the history of printing.

**HIST 5560 The Global Hispanic Monarchy 3 credits.** The African, American, Asian, European, and Oceanic domains of the Iberian Habsburg dynasty, especially those of Castile and Portugal, whose officials and subjects created and maintained many of the communications routes that defined the first global age. Students prepare geospatial datasets on these routes.

**HIST 5561 Independent Study: U.S. 1-3 credits.** Selected readings in areas and periods

not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

**HIST 5562 Independent Study: Europe 1-3 credits.** Selected readings in areas and periods not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

**HIST 5563 Independent Study: World Regions 1-3 credits.** Selected readings in areas and periods not covered by the regular curriculum offerings. May be repeated. PREREQ: PREVIOUS UPPER-DIVISION COURSE WORK IN THE SUBJECT AREA, WITH A MINIMUM GRADE OF A-; GPA OF 3.5 IN ALL HISTORY COURSES; PERMISSION OF INSTRUCTOR; AND APPROVAL BY THE DEPARTMENT CHAIR.

**HIST 5565 U.S. Political History 3 credits.** Study of the political history of the United States involving a discussion of theories of popular voting behavior, critical elections, and political party systems. Cross-listed as POLS 5565,

**HIST 5571 Historical Geography of Idaho 3 credits.** Influences of geography and geology on Idaho's economic, political and cultural history. May be team taught, and includes field trips, discussion sections. Cross-listed as GEOL 5571 and POLS 5571.

**HIST 5574 Islam and Nationalism in the Modern World 3 credits.** A study of the interaction of Islam and national and ethnic identities in the Middle East including North Africa from 1800 up to the recent past.

**HIST 5578 Imperialism and Progressivism 3 credits.** A study of the world 1880-1920. Movements of change within the West, Third World responses to the Western challenge, and global crisis.

**HIST 5579 Disease and U.S. Public Health 3 credits.** A survey of health, disease, and public health developments in American history. The course takes a broad approach to health, but includes the development of public health offices, the role of disease in society, specific diseases and related eradication programs, and questions related to health, equity, and civil liberties.

**HIST 5589 GIS for Social Sciences 3 credits.** An introduction to geographic information systems theory and applications focusing on subjects related to human systems in historical context (census, health, urban communities, etc.). Students will work directly with GIS software and learn foundational data management and processing skills along with introductory spatial analysis. Requires competence in computer operating systems.

**HIST 5590 Cartography: History and Design 3 credits.** History of how map-makers represent geographic, spatial data. Special attention to the elements of successful cartographic design. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: 5590L. Pocatello.

**HIST 5590L Cartography Lab 1 credit.** Focuses on the application of cartographic design concepts and techniques discussed in lecture. Provides students with hands-on practice designing map products of publication quality. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: HIST 5590. Pocatello.

**HIST 5591 Seminar 3 credits.** Reading, discussion, and preparation for research papers on selected topics.

**HIST 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**HIST 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**HIST 6600 Graduate Proseminar 3 credits.** Introduction to graduate studies. Focus on contemporary historiographical debates, with emphasis on understanding significant developments in the profession. May be repeated with different topics.

**HIST 6610 History in the Digital Age 3 credits.** Seminar exploring the developing field of digital history and investigating multiple tools for analysis and presentation. The course examines how geographic information systems and other digital tools are changing the field of history. Emphasis placed on students developing their own project proposals. Lab Fee \$60. Pocatello.

**HIST 6621 Seminar: Interdisciplinary Topics in Social Sciences 3 credits.** Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science, economics, sociology, and history.

**HIST 6642 Conferences and Grants 3 credits.** Emphasizes visual and oral skills for disseminating research to professional audiences. Students will develop and organize a campus-wide colloquium highlighting graduate research. Provides an introduction to grant writing with a focus upon funding sources for the social sciences and humanities.

**HIST 6645 Independent Research Project 1-6 credits.** Individual research project employing Geographic Information Systems. Topic selected by the student. May be repeated up to six credits. PREREQ: PERMISSION OF INSTRUCTOR WHO WILL DIRECT THE PROJECT AND OF THE STUDENT'S HISTORICAL RESOURCES MANAGEMENT GRADUATE COMMITTEE.

**HIST 6650 Thesis 1-9 credits.** Open to students seeking the M.A. in Historical Resources Management with the thesis option. May be repeated. Graded S/U.

**HIST 6664 Graduate Internship 3-12 credits.** Supervised experience in the application of Geographic Information Systems (GIS) and other relevant Information Technologies to a historical project in a collaborative work environment. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR WHO WILL DIRECT THE INTERNSHIP AND OF THE STUDENT'S HISTORICAL RESOURCES MANAGEMENT GRADUATE COMMITTEE.

**HIST 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Women's Studies Graduate Courses

**WS 5561 Independent Study 1-3 credits.** Selected readings and research in areas of Women's Studies not covered by the regular curricular offerings. May be repeated for a maximum of six credits. PREREQ: 3.0 CUMULATIVE GPA AND W S 201 OR EQUIVALENT; PERMISSION OF INSTRUCTOR.

**WS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**WS 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## James E. Rogers Department of Communication, Media, and Persuasion

Chair and Professor: DiSanza  
Professors: Gribas, Jull, Legge, Loebis,  
Partlow Lefevre

Associate Professor: Beachboard  
Assistant Professor: Ownby  
Lecturers: Collins, Czerepinski, Dixon, Eckert,  
Robinson, Sowell, Underwood  
Emeriti: Frazier, House, Mauch, Trinklein

## Master of Arts in Communication

### Goals

The primary objectives related to the Master of Arts in Communication program are to help students develop the following competencies:

1. An understanding of the history and nature of the Communication discipline.
2. The ability to read, understand, and critique scholarly communication-related research and analysis.
3. The ability to design and conduct original communication-related research and analysis.
4. The ability to engage in critical thinking.
5. The ability to communicate effectively in writing.
6. The ability to communicate effectively through oral presentation.
7. The ability to engage in effective applied problem-solving for personal and professional goals.
8. The ability to construct and evaluate strategic verbal and visual messages.
9. The ability to use effective information research strategies.
10. An understanding of the role of communication in interpersonal, group/team, corporate, political, cultural, mediated, and historical contexts.

11. Knowledge and skill useful to graduates' professional success.
12. Knowledge and skill applicable to graduates' personal lives.

## Admission Requirements

To be admitted to classified status, students must apply to, and meet all criteria for, admission to the Graduate School.

## Program Overview

The Master of Arts in Communication program is a highly flexible 30 credit graduate degree. Students typically take graduate courses in other departments to supplement work in Communication, Media, and Persuasion to build their own cohesive program of study. All students need to work with an advisor to design and approve a program of study and should contact one of the graduate faculty before registering for the first semester. Though it is possible to work at an accelerated pace, the Master of Arts in Communication is designed as a two-year program.

All programs of study will be expected to reflect the following departmental standards:

- At least 15 credits must be from 6600-level course work.
- At least 15 credits must be from course work in Communication, Media, and Persuasion.
- Students choosing the Graduate Degree Paper option must take a minimum of 27 course credits plus a minimum of 3 Graduate Degree Paper (CMP 6660) credits.
- Students choosing the Thesis option must take a minimum of 24 course credits plus a minimum of 6 Thesis (CMP 6650) credits.

## Requirements:

CMP 6601 Introduction to Graduate Research Methods (to be taken in a student's first fall semester) 3 cr

A minimum of nine CMP graduate seminar credits:  
CMP 6630 Seminar in Communication (repeatable) 9 cr

Additional credits from graduate-level CMP courses or other graduate-level courses approved as part of a program of study 12-15 cr

Graduate Degree Paper (3 cr) or Thesis (6 cr) 3-6 cr

Total MA program credits: 30 cr

## Communication, Media, and Persuasion Graduate Courses

**CMP 5503 Mass Communication and Society 3 credits.** Introduces students to mass media theories scholars use to study the effects of media messages. Students will also read and

discuss research illustrating the media's impact on individuals, society, and cultures. Topics include the media's relationship to stereotyping, images of sexuality, violence, values, politics, and globalization. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5504 Gender and Communication 3 credits.** Course examines communication arenas from a perspective that focuses on gender and includes study of similarities and differences in female/male patterns. Topics include nonverbal, organizational, language, family and friendship. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5509 Communication Inquiry 3 credits.** Introduces tools and strategies communication professionals use to answer questions and solve problems through systematic investigation. The course will focus on developing an understanding of applied communication research, including design, sampling, data collection, and data analysis. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5510 Mass Media History, Law, and Ethics 3 credits.** A comprehensive exploration of mass communication law and the history of mass media. The course examines media rights of free expression and First Amendment including libel privacy, access to information, free-press, and other related topics and themes. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5518 Advanced Reporting 3 credits.** In-depth writing and reporting of important topics of feature-length, investigative journalism on various platforms and different formats. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: permission of instructor.

**CMP 5520 Advanced Leader Communication 3 credits.** Advanced exploration of the vital relationship between communication and leader effectiveness with a focus on particular communication tools and strategies. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5522 Conflict Management 3 credits.** Examines the dynamics of everyday conflicts across a variety of settings, from personal to organizational. Principles of conflict, similar across all communicative contexts, are emphasized. Theory and its application are given equal importance. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

tified in the course syllabus.

**CMP 5524 Management Communication 3 credits.** Examines the communication goals and functions unique to organizational managers and leaders. Topics studied include socialization and training, leader-member relationships, incentive-based systems of motivation, employee identification and commitment, and organizational development. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5535 Narrative and Print 3 credits.** Exploration and reconsideration of conventional concepts of what makes a book, both in terms of narrative structure and physical form. Focus on examination of familiar forms in new ways to help students learn to approach all multi-page projects from fresh and new angles. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Equivalent to ART 5518. PREREQ: permission of instructor.

**CMP 5536 Advanced Issues in Design 3 credits.** Focuses on complex design challenges, professional-level assignments, and design projects with multiple components. Application of research and entrepreneurial skills to seek innovative solutions for appropriate economic constituencies, users, and audiences. Professional presentations of ideas and design solutions for critique and discussion are central to this course. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: permission of instructor.

**CMP 5546 Public Relations Programs 3 credits.** Tactics and strategies for planning public relations programs for public and private organizations. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: permission of instructor.

**CMP 5555 Photo Media 3 credits.** Focuses on the art of visually communicating news or feature stories with still pictures and/or video. Emphasis on photographer adaptation to situations to cover stories as they unfold without becoming part of the story and application of multimedia formats expected within current social and mass media environments. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: CMP 5555L. PREREQ: permission of instructor.

**CMP 5555L Photo Media Laboratory (0 credits).** Assignments apply principles from CMP 5555. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5557 Advanced Photo Media 3 credits.** Explores the notion of visual storytelling for multi-media/multiplatform productions. Investigation into photographer intent as it relates to crafting color or black and white images into a visual story, elements and decisions required for storytelling, and concept research techniques. Students create a body of cohesive images suitable for various forms of professional multi-platform distribution. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: CMP 5557L. PREREQ: permission of instructor.

**CMP 5557L Advanced Photo Media Laboratory (0 credits).** Assignments apply principles from CMP 5557. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5581 Rhetoric of Hitler and Churchill 3 credits.** Rhetorical theory and practice of these influential leaders and the impact of their persuasion. Topics include Hitler's oratory, Nazi propaganda, and Churchill's World War II speeches. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5582 American Public Address 3 credits.** Has a dual purpose: to study the impact of rhetoric (oral and written persuasion) on major events in American history; to examine great speakers and rhetorical documents in their historical context. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5583 Rhetoric of Popular Culture 3 credits.** Explores the functions of rhetoric in popular culture mass media including news, television, film, fiction, advertising, music, and the internet. Emphasizes understanding how rhetoric in these mediums reflects, influences, and interacts with the culture. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5584 Recent Rhetorical Issues 3 credits.** Study of the rhetoric of contemporary issues such as the Vietnam War, the Black Revolution, and other current political and social topics, including the rhetoric of ongoing election campaigns. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5585 Classical Rhetorical Theory 3 credits.** Principle western rhetorical theories discussed from a historical perspective, beginning with the ancient Greeks, Romans, Second Sophistic, and ending with the Middle Ages. Some of the works stressed include writings

by Plato, Aristotle, Cicero, Longinus, and St. Augustine. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5586 Contemporary Rhetorical Theory 3 credits.** This course examines rhetorical theories as a cultural phenomenon including modern, contemporary, and postmodern approaches. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5588 Rhetorical Criticism 3 credits.** Study and application of various theories and methods of rhetorical criticism including Aristotelian and Burkeian principles. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CMP 5591 Independent Research Projects 1-3 credits.** Under the supervision of professors in the various areas of communication, students will prepare reports and carry out projects designed to promote professional growth. May be repeated for up to 6 credits. PREREQ: Permission of instructor and department.

**CMP 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Experimental courses may be offered no more than three times. Repeatable if covering different topics.

**CMP 6601 Introduction to Graduate Research Methods 3 credits.** Orientation to departmental graduate program policies and expectations, overview of the communication discipline, and introduction to methods used for producing scholarly research in the field.

**CMP 6630 Seminar in Communication 3 credits.** In-depth study and analysis of selected topics related to the communication field. See instructor for specific topics. Repeatable if covering different topics.

**CMP 6650 Thesis 1-6 credits.** Repeatable. Graded S/U.

**CMP 6660 Graduate Degree Paper 1-3 credits.** Repeatable. Graded S/U.

**CMP 6691 Independent Study 1-3 Credits.** Under the supervision of departmental graduate faculty, students will engage in self-directed reading, exploration, and study focused on topics relevant to the communication discipline and to the students' planned academic program. May be repeated for up to 6

credits. PREREQ: Permission of instructor and department.

## Department of Political Science

Chair and Professor: Anderson  
Professors: Gabardi, McBeth  
Associate Professor: Lybecker  
Assistant Professor: Carlisle, Callen, Hummel,  
Adjunct Faculty: Eckert, Kellam, Phippen  
Emeritus Faculty: Burns, Hjelm, Maughan, Nilson

## Doctor of Arts in Political Science

This program is intended for students interested in careers teaching political science in a variety of higher education settings ranging from community colleges to universities. Doctor of Arts recipients are prepared to teach a variety of political science courses including those in American politics and in two additional specialties selected from among the fields of public law, political theory, comparative/international politics, and public administration. Doctor of Arts students will have three interdisciplinary options to choose from. Option #1: D.A. students will take 9 credits each in TWO of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology. Option #2: D.A. students will take 18 credits in ONE of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology. Option #3: D.A. students will take 18 credits from at least two of the five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology built around an interdisciplinary theme such as methodology or theory (courses and theme must be pre-approved by the chair of the student's D.A. committee).

The D.A. in political science is generalist in nature. The emphasis is on a thorough grounding in political science supported by work in committee-approved social science disciplines. The program places emphasis on teaching political science rather than on the development of a narrow research specialty. A nine-credit-hour component of the program includes the development of pedagogical skills as well as sustained experience in the classroom.

### Goals

1. Graduates will demonstrate literature-

based knowledge in three subfields of political science.

2. Graduates will gain this knowledge of political science through an interdisciplinary approach that includes course work in one or two cognate social science disciplines.
3. Graduates will have extensive training in pedagogy, craft a distinct teaching philosophy, and demonstrate a variety of pedagogical techniques and skills.
4. Graduates will demonstrate their research skills by presenting their work at professional conferences and/or submitting their work for publication review.
5. Graduates will gain employment and establish their careers in higher education.

### Admission Requirements

For full admission to the Doctor of Arts program, the applicant should have a cumulative GPA of 3.0 for the last two years of undergraduate study, an average score in the 50th percentile or above on any one of the three sections of the GRE exam, and a 3.5 GPA in all previous graduate study. The candidate must also submit to the Department of Political Science three letters of recommendation and a statement of his/her personal goals that will be weighted equally with the applicant's GPA and GRE scores.

The program also employs an admission scoring system which awards D.A. applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA or GPA in an MA program; (2) scores on the Graduate Record Exam (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant's goal statement. Applicants who are slightly under official admission requirements may be admitted if they are given an overall favorable admissions score.

### General Requirements

An applicant entering with a B.A. or B.S. degree must fulfill a minimum of 79 credit hours including the teaching internship and up to a maximum of six dissertation credits. No more than 18 interdisciplinary credit hours (exclusive of interdisciplinary seminars) count toward the 79 credit hour minimum requirement. Candidates have the option of completing the M.A. or M.P.A. in political science en route to the D.A.; if they choose the non-thesis M.A. or M.P.A. program, only 30 hours of course work from the M.A. or M.P.A. will apply to the Doctor of Arts program. Candidates entering the Doctor of Arts program with M.A. degrees must complete a minimum of 49 credit hours, including two full-time consecutive semesters in residence, including a maxi-

mum six hours of dissertation credit. The total length and number of credit hours of a student's program, above the minimum, is dependent upon the student's academic preparation and his/her committee's recommendations.

## Political Science

Doctoral students are examined in three fields of political science. For all doctoral students, the major field of American politics is required.

1. American Politics, and
2. Any two of the following fields:
  - a. Public Law
  - b. Political Theory
  - c. Comparative/International Politics
  - d. Public Administration

Doctor of Arts students are required to take nine hours of 6600-level seminar courses (not including POLS 6694) selected from the following courses: POLS 6611, 6612, 6613, 6614, and 6615. Students may repeat these courses, even from the same professor, as long as the subject matter is different. Each course can only be repeated once. D.A. students are required to complete the methodology course POLS 5519, 5519L. Doctor of Arts students are also required to take POLS 8850, Dissertation, for a minimum of 3 credits.

Doctor of Arts students write a doctoral dissertation that may deal with either substantive disciplinary issues or pedagogical innovations or techniques. The D.A. student committee will consist of two political science faculty and a Graduate Faculty Representative (GFR). The student may request a professor from his/her interdisciplinary area to serve as the G.F.R.

After the successful completion of written comprehensive examinations, the D.A. student is required to present and defend a dissertation prospectus to the doctoral committee. The D.A. student may elect to have a public presentation of the dissertation prospectus (a colloquium) separate from the prospectus defense. When the candidate's committee determines that the dissertation is ready for a defense, there will be a public presentation by the student followed by a closed and balloted defense of the dissertation with the candidate and the committee.

### Pedagogy

Students must complete a nine-credit component of pedagogy to include POLS 6694, POLS 7702, and POLS 7703.

### Interdisciplinary Component

#### Option #1:

D.A. students will take 9 credits each in TWO

of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology.

#### Option #2:

D.A. students will take 18 credits in ONE of the following five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology.

#### Option #3:

D.A. students will take 18 credits from at least two of the five cooperating social science departments: Anthropology, Economics, History, Psychology, and Sociology built around an interdisciplinary theme such as methodology or theory (courses and theme must be pre-approved by the chair of the student's D.A. committee).

### Interdisciplinary Classes

D.A. students must take POLS 6620, Philosophy of the Social Sciences, and POLS 6621, Interdisciplinary Topics in the Social Sciences.

### Examinations

Comprehensive written examinations are administered at the conclusion of the program of study that test the candidate's knowledge of three fields of political science. This occurs after all course work is completed and before the dissertation prospectus is defended.

## Master of Arts in Political Science

The mission of the Master of Arts (MA) program is to prepare students for future graduate study in political science by helping them develop knowledge and skill in political science and research methodology. This program emphasizes general preparation in political science and research.

Specific outcomes of the program include:

### Goals

1. Graduates will master literature-based knowledge in two areas of political science.
2. Graduates will develop an understanding of political science research methodology and the role of research in academia.
3. Graduates will further their graduate careers by pursuing a doctorate in political science.
4. Graduates pursuing a terminal degree will find professional employment in education, public service, and business.

### Objectives

1. Graduates will pass comprehensive examinations.

2. Graduates will present papers at professional conferences.
3. Graduates will be accepted into doctoral graduate programs.
4. Graduates will find employment in education, public service, and business.

### Thesis/non-thesis options are available.

Areas of emphasis in the M.A. program are limited, because of the research nature of the degree, to American governmental institutions and political behavior, public law, political theory, public administration and comparative/international politics.

M.A. students are required to present themselves for comprehensive examination on their thesis and/or in two of the five areas of emphasis mentioned previously.

## Admission Requirements

The student must apply to, and meet all criteria for admission to the Graduate School. In addition to the general requirements of the Graduate School, a student must have achieved a cumulative GPA of 3.0 in upper-division undergraduate study, and submit official GRE scores. The applicant must also submit to the Department of Political Science three letters of recommendation and a statement of his/her personal goals that will be weighted equally with the applicant's GPA and GRE scores.

The program employs an admission scoring system that awards M.A. applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA; (2) scores on the Graduate Record Examination (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant's goal statement.

Students may choose a thesis or non-thesis program. The requirements for these respective options are detailed below.

## Thesis Program

Requirements include a total of 36 credits in graduate level courses approved by the Department of Political Science and the Graduate School. Internship credits are not counted as part of the 36 total credit requirement. Required courses are POLS 5519 and POLS 5519L (Political Research Methods, 4 credits) and POLS 6650 (Thesis, 6 credits). Students must also complete course work in two subfields. Other requirements include a minimum of 15 credits (other than POLS 6650) taken at the 6600-level; a maximum of 9 credits of directed reading courses; a comprehensive oral examination that covers the student's graduate course work and the literature in two subfields; and the M.A. thesis. The thesis may be defended a second time if the first defense is not

satisfactory and further revisions are required.

### Non-thesis Program

Political Research Methods, POLS 5519 and 5519L, are required. Other requirements include a total of 36 credits in graduate level courses approved by the Department of Political Science and the Graduate School; a minimum of 15 credits taken at the 6600-level; a maximum of 9 credits of directed reading courses; a comprehensive written examination that covers the student's graduate course work and the literature in two subfields; and a final oral examination, which, like the final written examination, may be taken no more than twice. Internship credits are not counted as part of the 36 total credit requirement.

## Master of Public Administration

The Master in Public Administration degree is an inter-university cooperative graduate program offered jointly by Boise State University, Idaho State University and the University of Idaho. The purpose of the program is to provide present and prospective public administrators with the basic intellectual preparation necessary to understand and to adjust to a changing and challenging environment, through an introduction to the theories and practices of administration, management and social science research as these relate to effective performance in public organizations.

The inter-university MPA program has been designed in accordance with the Guidelines and Standards for Professional Master's Degree Programs in Public Affairs and Public Administration prescribed through the National Association of Schools of Public Affairs and Administration (NASPAA).

### Goals

1. Graduates will develop an appreciation of serving the public interest.
2. Graduates will respect the law and the Constitution.
3. Graduates will demonstrate personal integrity.
4. Graduates will promote ethical organizations.
5. Graduates will develop distinctive public administration skills.
6. Graduates will strive for professional excellence and updating of skills throughout their professional careers.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with de-

partmental requirements. Students may enroll in the MPA program by applying to one of the participating universities. Acceptance by any one of the three universities admits a student into the MPA program. A matriculated student should complete graduate studies at the institution that offers the area of specialization that she/he wishes to emphasize. Each student's program will be established by an advisory committee consisting of three faculty members. It is anticipated that students will come from widely differing academic preparations, since no specific undergraduate program is required in preparation for the MPA program. However, some course work in humanities and social sciences is essential to the foundation of the MPA program for all students.

In addition to the general requirements of the Graduate School, students seeking admission must have completed a baccalaureate degree from an accredited institution, demonstrate satisfactory academic competency by attaining a cumulative GPA of 3.0 in upper-division undergraduate course work, or a 3.5 GPA in previous graduate courses, submit official GRE scores, submit three letters of recommendation from individuals who are qualified to evaluate the applicant's academic potential, and submit a statement of the student's personal goals. The letters and statement of goals will be weighted equally with the applicant's GPA and GRE scores. Please contact the Department for specific guidelines for letters of recommendation and statement of goals.

The program employs an admission scoring system that awards MPA applicants points based on the evaluation and scoring of four components: (1) upper-division undergraduate GPA or GPA in an M.A. program; (2) scores on the Graduate Record Examination (GRE); (3) the quality of letters of recommendation; and (4) the quality of the applicant's goal statement.

### General Requirements

The MPA degree may be achieved through the successful completion of at least 39 semester credit hours of approved course work plus 3 credits of public service internship. The internship requirement may be waived for students who have substantial professional work experience in public service or the not-for-profit sector. The MPA director will determine if a student's experience is substantial, and if so can approve waiver of the internship requirement. Twenty-seven credit hours must be completed in courses selected from prescribed "core areas" with 12 additional credit hours completed in designated optional areas of emphasis. Students may follow a thesis or non-thesis option in pursuing the MPA. Students choosing to write a thesis (POLS 6650 - 6 credits) do so in addition to normally MPA

course work and internship requirements. The thesis is written in lieu of the comprehensive written examinations. Students must have completed 24 credit hours of core course work before taking the Capstone in Public Administration course. Those following the thesis option will complete an oral examination covering the thesis and program course work. The non-thesis option requires an oral examination over program course work. The academic program of each student must satisfy the general requirements of an integrated program designed to meet career objectives of the student in public administration.

### Core and Optional Area Requirements

The specific course requirements of the MPA program are set forth in a list of courses that has been approved by the inter-university committee. This list is available through each of the cooperating universities. Courses are available at each institution in the "core areas." The optional "areas of emphasis" may vary among the universities according to the resources and competence that exist in the respective departments. A description of those areas of emphasis that are presently operational at each institution and admission forms to the MPA program are available through the Political Science Department at Idaho State University or the Departments of Political Science at Boise State University or the University of Idaho.

### I. Core Area Requirements

All students must take 27 credit hours of core area courses. Students must choose nine courses from this list, one of which is POLS 6680 Capstone in Public Administration.

POLS 5505 The Administrative Process  
 POLS 5541 Administrative Law  
 POLS 5551 Organizational Theory & Bureaucratic Structure  
 POLS 5552 Financial Administration and Budgeting  
 POLS 5553 Public Policy Analysis  
 POLS 5554 Public Personnel Administration  
 POLS 5558 Public Administration Ethics  
 POLS 6622 Public Administration Research Methods  
 POLS 6623 Program Assessment  
 POLS 6680 Capstone in Public Administration  
 POLS 5519 Research Methods for Political Science may be substituted for POLS 6622 if needed.

### II. Specialized Areas

All students must take 12 credit hours in a specialized areas listed below. Courses that are used to fulfill a core requirement cannot also be counted as specialized courses. (Students should follow instructions under each specialized area.)

### Specialized Area 1 State, Local, and Non-Profit Administration

#### Required Course:

POLS 5567 State and Local Public Administration

#### Choose three courses:

POLS 5505 Administrative Process  
 POLS 5506 Intergovernmental Relations  
 POLS 5509 Community and Regional Planning  
 POLS 5541 Administrative Law  
 POLS 5552 Financial Administration and Budgeting  
 POLS 5553 Public Policy Analysis  
 POLS 5554 Public Personnel Administration  
 POLS 5558 Public Administration Ethics  
 POLS 5566 Public Land Policy  
 POLS 5578 Federal Indian Law  
 POLS 5579 Tribal Governments  
 POLS 6612 Seminar in State and Local Government  
 POLS 6616 Seminar in Public Policy and Administration  
 POLS 6623 Program Assessment

The following courses outside the Political Science department may be used to meet the course requirement for the state, local, and non-profit administration concentration. No more than two courses may be used to meet the requirement.

COMM 5541 Interpersonal Communication  
 COMM 5552 Conflict Management  
 COMM 5554 Management Communication  
 ECON 5533 Economic Development  
 ECON 5539 State and Local Finance  
 ENGL 6607 Advanced Professional Writing  
 HIST 5589 GIS for the Social Sciences  
 SOC 5566 Sociology of Community  
 SOC 5567 Community Networking  
 SOC 6615 Social Institutions

### Specialized Area 2 Environmental Administration

#### Required courses:

POLS 5555 Politics of Environmental Problems  
 POLS 5566 Public Lands Policy  
 or  
 POLS 6606 Environmental Law and Regulation

#### Choose two courses:

POLS 5505 Administration Process  
 POLS 5506 Intergovernmental Relations  
 POLS 5509 Community and Regional Planning  
 POLS 5553 Public Policy Analysis  
 POLS 5558 Public Administration Ethics  
 POLS 5566 Public Lands Policy  
 POLS 6606 Environmental Law and Regulation  
 POLS 6623 Program Assessment

The following courses outside the Political Science department may be used to meet the course requirement for the environmental administration concentration. No more than one course may be used to meet the requirement.

COMM 5541 Interpersonal Communication  
 COMM 5552 Conflict Management  
 ENGL 6607 Advanced Professional Writing  
 HIST 5589 GIS for the Social Sciences

Appropriate science courses may be substituted with consent of the Master of Public Administration program director.

### Specialized Area 3 Public Health Administration

#### Required course:

MPH 6609 Seminar in Public and Community Health

#### Choose three courses:

PHIL 6600 Ethics in Health Care (This course is strongly recommended)  
 POLS 5505 Administrative Process  
 POLS 5553 Public Policy Analysis  
 POLS 5558 Public Administration Ethics  
 POLS 6623 Program Assessment

Appropriate courses in the Master Public Health program may be substituted with consent of the Master of Public Administration program director.

### III. Public Administration Internship

Each student must complete at least 3 but no more than 9 credit hours of an approved internship. Three credit hours of internship are equal to 200 hours of work as an intern. The internship requirement may be waived for students who have substantial professional work experience in public service of the not-for-profit sector. The MPA director will determine if a student's experience is substantial and be allowed to waive the internship requirement.

### American Politics Graduate Courses

**POLS 5501 Political Parties and Interest Groups 3 credits.** The nature and development of political parties and pressure groups as exemplified in the United States.

**POLS 5503 The Presidency 3 credits.** Evolution and development of the office of the president; its major responsibilities in domestic and foreign affairs, with emphasis on particular power problems that confront the president.

**POLS 5504 The Legislative Process 3 credits.** Nature and functions of the U.S. Congress. Topics covered: Legislative campaigns, the politics of law-making, congressional investigations, and major problems facing the Congress.

**POLS 5506 Intergovernmental Relations 3 credits.** Analysis of patterns of intergovernmental relations including changing patterns of program and fiscal responsibility in the federal system. The emerging role of new federal structures, state and substate regional organizations will be reviewed in the context of "new" federalism and its implications for intergovernmental relationships.

**POLS 5508 Metropolitan and Urban Studies 3 credits.** Analysis of metropolitan and

smaller urban systems with emphasis on relationships among general groups, political organizations and institutions. Federal, state and interlocal programs will serve as a focus for analyzing particular problems of metropolitan and urban systems in the 20th century.

**POLS 5509 Community and Regional Planning 3 credits.** Steps involved in planning will be analyzed in the context of community and regional decision-making processes. Two perspectives will be stressed—that of the decision-maker, the social structure within which the decision-maker operates and strategies for implementing decision; and that of the citizen or group interest which lies outside the power structure of the community. Each perspective will be used as a framework for analyzing power configurations, techniques of identifying patterns of decision making, and various forms of citizen participation.

**POLS 5527 Voting and Public Opinion 3 credits.** Analysis of the way citizens and government communicate with each other. Elections, public opinion, and media influence are studied.

**POLS 5553 Public Policy Analysis 3 credits.** Theoretical and practical analyses of public policies, including theories of policy formation and their political implementation through governmental institutions. Case studies will provide the means of analyzing specific policy problems.

**POLS 5555 Environmental Politics and Policy 3 credits.** Study of the political forces affecting environmental policy and investigation of several specific policies affecting the environment, such as pollution control, energy production, hazardous chemicals, and the public lands.

**POLS 5556 Labor Organization 3 credits.** Evolution of economic systems and labor's response to changing patterns of production is studied, and a counter perspective to traditional management views of "efficiency" is presented. Emphasis is on governmental employee unions.

**POLS 5565 U.S. Political History 3 credits.** Study of the political history of the United States involving a discussion of theories of popular voting behavior, critical elections, and political party systems. Cross-listed as HIST 5565.

**POLS 5566 Public Lands Policy 3 credits.** Analysis of the historical and contemporary use and disposition of the federal public lands. The agencies that manage the public lands, major laws, and regulations and the political conflict that surrounds their use and conservation.

**POLS 5571 Historical Geography of Idaho 3 credits.** Influences of geography and geology on Idaho's economic, political and cultural history. May be team taught, and includes field trips, discussion sections. Cross-listed as HIST 5571 and GEOL 5571.

**POLS 5578 Federal Indian Law 3 credits.** Examination of tribal governments; their relationship with the federal government; sovereignty, jurisdictional conflicts over land and resources; and economic development. Cross-listed as ANTH 5578.

**POLS 5579 Tribal Government 3 credits.** Complex legal position of Indian tribes as self-governing entities; principles of inherent powers; governmental organization, lawmaking, justice, relation to state and federal government. Cross-listed as ANTH 5579.

## Political Analysis Graduate Courses

**POLS 5512 Modern Political Analysis 3 credits.** Methods of political inquiry and theories and doctrines of politics, with emphasis on modern developments.

**POLS 5519 Political Research Methods 3 credits.** This class investigates the theory and application of various research methods and statistical techniques common to the social sciences, with particular reference to their use in political inquiry.

**POLS 5519L Political Research Methods Lab 1 credit.** Application of, and practice in research methods.

## Administrative Graduate Courses

**POLS 5505 Administrative Process 3 credits.** Analysis of the principles of public administration with an introduction to theories of organization and administration.

**POLS 5541 Administrative Law 3 credits.** Introductory survey of the legal principals defining governmental administrative processes. Topics include judicial review, tort liability of governments and offices, rules and rule-making, due process, and the limits of administrative discretion.

**POLS 5551 Organizational Theory and Bureaucratic Structure 3 credits.** Introduction to the study of complex organizations and organizational behavior in the administration of public policy. Emphasis on public institutions.

**POLS 5552 Financial Administration and Budgeting 3 credits.** Emphasis on different approaches to financial administration, ranging from incremental and short-term planning to more recent and comprehensive emphases on management by objectives and zero-based budgeting. The development of the Office of Management and Budget and its relationship with the President, Congress and the Federal bureaucracy will be considered as well as political, organizational and behavioral constraints on budgetary decision-making.

**POLS 5554 Public Personnel Administration 3 credits.** Operations and processes of personnel management in public institutions. Major topics include personnel processes, public employee rights and duties, employee motivation and morale, the political environment of public personnel administration, and the impact of professionalism, technology, and participatory democracy on public personnel practices.

**POLS 5557 Grantwriting 3 credits.** Steps involved in the grantwriting process from strategic planning, research, writing to finding appropriate grant sources.

**POLS 5558 Public Administration Ethics 3 credits.** A course in applied ethics serving to educate students from a theoretical and a practical point of view. The course provides a historical and social perspective of ethics in public administration.

**POLS 5567 State and Local Administration 3 credits.** Seminar in the practice and principles of state, municipal, and sub-state management. Emphasis is given to the evolution of interaction between different branches of sub-national government.

## Political Theory Graduate Courses

**POLS 5511 American Political Theory 3 credits.** Political ideas in the United States from Colonial and Revolutionary times through the controversies of the Civil War to the present.

**POLS 5518 Topics in Political Theory 3 credits.** This course requires examination, analysis and investigation of selected texts and topics in political philosophy. May be repeated for a maximum of 6 credits.

**POLS 5520 Contemporary Political Theory 3 credits.** Recent 20th century political philosophies and theories ranging from democratic, Marxist, and existentialist thought to Critical Theory and post-modernism.

**POLS 5521 Democratic Political Thought 3 credits.** Historical and contemporary models of democracy as well as contemporary debates in democratic thought. Democracy is treated as a contested idea.

## International Politics Graduate Courses

**POLS 5525 Topics in International Politics 3 credits.** This course requires examination analysis and evaluation of selected topics in international politics. May be repeated for a maximum of 6 credits.

## Comparative Politics Graduate Courses

**POLS 5532 Comparative Politics: Change and Political Order 3 credits.** The nature of political change is examined in a multifaceted framework consisting of concepts such as political order, progress and decay, revolutionary violence, and political culture. The technological and post-industrial revolutions are examined as they relate to political change and stability in developed societies.

**POLS 5533 Politics of Developing Nations 3 credits.** An examination of political change, political order, political culture and the role of revolutionary violence. Change and order in the context of globalization is emphasized.

**POLS 5534 Terrorism and Political Violence 3 credits.** A survey of forms of domestic and trans-national terrorism, other forms of political violence, and problems of counter-terrorism.

**POLS 5535 Topics in National/Regional Studies 3 credits.** Surveys the political, economic, and social issues of a nation or regions. May be repeated once for different topics.

## Public Law Graduate Courses

**POLS 5542 Constitutional Law 3 credits.** Analysis of opinions of the United States Supreme Court concerning the distribution of authority between the national government and the states and the relationship among the branches of the national government.

**POLS 5543 Constitutional Law 3 credits.** Analysis of opinions of the United States Supreme Court with a special emphasis on criminal cases and civil liberties.

**POLS 5545 Jurisprudence 3 credits.** Nature, source, and theories of law; the role of law in modern society; and the application of legal philosophy to the political system.

**POLS 5550 Special Topics in Law 3 credits.** Examine and analyze selected topics in constitutional law and legal philosophy. Topics may include the constitution and foreign affairs, women and the law, law and literature, and law and film. May be repeated for up to 6 credits.

## General Graduate Courses

**POLS 5559 Government Internship 1-9 credits.** Directed student internship in government and organizations or associations related to public policy and the selection of public officials involving supervised work experience in research, staff management practices, or making and implementing public policies. The student will be placed in a supervised position commensurate with his or her abilities as determined and approved by faculty in the department. May be repeated up to 9 credits. Graded S/U.

**POLS 5591-5592 Seminar 1-3 credits.** Research, reading, discussion, and the preparation of reports on selected topics. Ordinarily for seniors majoring in political science and having the instructor's consent. Each course may be repeated for a total of 6 credits.

**POLS 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**POLS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**POLS 6606 Environmental Law and Regulation 3 credits.** Federal, state, and local environmental regulations addressing environmental impact assessment; water and air pollution control, hazardous waste, resource recovery, reuses, toxic substances, occupational safety and health radiation, siting, auditing, liability. Cross-listed as ENGR 6606. PREREQ: PERMISSION OF INSTRUCTOR.

**POLS 6608 Environmental Case Law 3 credits.** The legal analysis of regulation as a method of controlling pollution and hazardous waste. PREREQ: POLS 6606.

**POLS 6609 Environmental Law: Natural Resources 3 credits.** Federal and Idaho statutes and regulations as they apply to natural resources such as public lands, endangered

species, and the EIS process. PREREQ: POLS 6606.

**POLS 6611 Seminar: Political Theory 3 credits.** Review of the primary and recent literature of political theory.

**POLS 6612 Seminar: State and Local Politics 3 credits.** Analysis of state, local and regional political institutions and processes from the federal and comparative perspectives.

**POLS 6613 Seminar: American Politics Behavior 3 credits.** Micro inquiry and analysis into political behavior. Areas relevant to such inquiry may include but are not limited to, political psychology, political socializations, attitude and opinion formation, and voting behavior.

**POLS 6614 Seminar: American Politics Institutions 3 credits.** Macro inquiry and analysis into the basic institutional structures and processes of the American political system. Areas of emphasis include, but are not limited to, executive, legislative and judicial processes, political parties and interest groups.

**POLS 6615 Seminar: World Politics 3 credits.** World politics is analyzed both from the perspective of relationships between nation-states and the domestic political sources which influence and determine these relationships.

**POLS 6616 Seminar: Public Administration and Public Policy 3 credits.** Analysis of selected topics and academic literature in public administration and public policy.

**POLS 6620 Seminar: Philosophy of Social Science 3 credits.** The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of all D.A. students.

**POLS 6621 Seminar: Interdisciplinary Topics in Social Science 3 credits.** Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science economics and sociology. Required of all D.A. students.

**POLS 6622 Public Administration Research Methods 3 credits.** Emphasis on the role of research methodology in administrative decision-making. Topics to be covered include modeling, evaluation design, ethics, sampling, data collection, data processing, data analysis, and report writing.

**POLS 6623 Program Assessment 3 credits.** Techniques and analytical methods of assessing governmental program success. Emphasis is given to program designs, data collection, ethics, and quantitative applications.

**POLS 6649 Research Problems 1-6 credits.** Independent research on non-thesis and non-dissertation disciplinary questions. Credit hours and subject must be approved by instructor. May be repeated to a maximum of 6 credits. Graded S/U.

**POLS 6650 Thesis 1-6 credits.** Graded S/U.

**POLS 6669 Independent Problems-Tutorial 1-3 credits.** A directed project emphasizing individual study, research, or the development of expository writings according to the needs of the individual student. May be repeated. Graded S/U.

**POLS 6680 Capstone in Public Administration 3 credits.** Should be one of the last courses taken in the MPA program. Integration of all core material into discussion around a number of classes; individual papers, small group projects and presentations.

**POLS 6694 Seminar in College Teaching 3 credits.** Literature-based review of theory and practice for effective college teaching. Required of all D.A. candidates and must be successfully completed prior to matriculation in POLS 7702 or POLS 7703.

**POLS 7701 Supervised Administrative Internship in Higher Education variable up to 6 credits.**

**POLS 7702 Team Teaching 3 credits.** Doctor of Arts candidates team teach an entire course with a faculty member. PREREQ: POLS 6694

**POLS 7703 Solo Teaching 3 credits.** Doctor of Arts candidates assume total responsibility for teaching a class. PREREQ: POLS 6694 AND POLS 7702.

**POLS 8850 Dissertation variable credits.** May be repeated. Graded S/U.

## Department of Psychology

Chair and Professor: Lynch

Professors: Hatzenbuehler, Roberts, Turley-Ames, Wong, Ramussen

Associate Professors: Lawyer, Letzring, Rasmussen

Assistant Professors: Aubuchan-Endsley, Brumley, Fairholme, Haight, Stewart, Xu

Adjunct Faculty: Heyneman, Landers, Pongratz, Simonson, Staley

Visiting: Miyake

## Doctor of Philosophy in Clinical Psychology

Doctoral training in clinical psychology is fully accredited by the American Psychological Association. All educational experiences needed to obtain a license to practice psychology in Idaho, and most other states and provinces, are offered. Theory, research, and practice are integrated into a comprehensive, five-year program. It is the goal of the doctoral training program to produce clinical psychologists who are well trained in the science of human behavior and its application to diverse clinical populations. All students are required to participate in course work and practica that emphasize assessments and treatments in all major areas of child and adult psychopathology. Evaluations of each student's clinical-professional development and scholarship-research skills are continuous.

### Goals

Five program goals have been defined: Research Knowledge and Skills; Professional Knowledge and Skills; Integration of Science and Practice; Professional Identification and Ethical Practice; and Appreciation of Individual Differences, Cultural Differences, and Diversity of Practice. Each goal has associated objectives and competencies.

### Admission Requirements

Admission requirements are as stated for the Master of Science in Psychology with the following additions: all students must have been recommended by the Clinical Admissions Committee of the Psychology Department.

### General Requirements

All doctoral students must complete the Master of Science in Psychology, or its equivalent, as noted below. Students entering the doctoral training program at Idaho State University

with a master's degree from another institution will receive full or partial credit, based on an examination of completed course work and research. The Department Chair, the Director of Clinical Training, and the departmental subject matter expert(s) will review all relevant documents and determine the course work and research, if any, that will be required to compensate for omissions and/or non-equivalency. The following requirements are all in addition to the Master of Science requirements.

### Required Courses

#### Assessment Sequence

PSYC 6620 Psychodiagnostic I	3 cr
PSYC 6621 Psychodiagnostics II	3 cr
PSYC 6623 Advanced Psychological Measurements	3 cr

#### Clinical Core

PSYC 5512 Ethical & Professional Issues in Psychology	2 cr
PSYC 6634 Cultural Diversity and Individual Differences	3 cr
PSYC 6645 Adult Psychopathology & Treatment I	3 cr
PSYC 6646 Adult Psychopathology & Treatment II	3 cr
PSYC 6649 Child Psychopathology & Treatment	3 cr
PSYC 7701 Clinical Psychology	2 cr
PSYC 7702 Introduction to Psychotropic Medication	2 cr
PSYC 7703 Advanced Ethics Seminar	1 cr
PSYC 7736 Clinical Proseminar	6 cr

#### Practicum

PSYC 5517 Interdisciplinary Evaluation Team	1 cr
PSYC 7724 Community Practicum	0-3 cr
PSYC 7725 Clinical Psychology Clinic Practicum	4-7 cr
PSYC 7727 Psycho-educational Evaluation	5 cr
PSYC 7749 Clinical Internship	3 cr

#### Research

PSYC 8850 Dissertation	12 cr
------------------------	-------

#### General Electives

Each student must complete 3 additional graduate credits in psychology. Students may request the Clinical Training Committee to approve graduate credits in other departments to satisfy this requirement.

#### Methodological Elective

Each student must complete an additional 3-credit course in advanced statistics acceptable to the Clinical Training Committee.

#### History and Systems Requirement

PSYC 6672 History and Systems	3 cr
-------------------------------	------

Minimum Total Credits	71 cr
-----------------------	-------

The 12 elective credits earned for the Master of Science degree, described below, will satisfy course requirements for the Doctor of Philosophy, subject to the approval of the Departmental Chair.

## Scholarship - Research Development

Upon completion of Area Requirements plus PSYC 6627 and PSYC 6632, and the thesis prospectus, doctoral students are required to pass a Qualifying Exam to be admitted to doctoral candidacy. The exam samples each student's integrative writing skills and conceptual abilities. Students write independently on integrative topics from across the foundational areas of general psychology or from an individualized and focused area of scholarly research.

Students may be admitted to candidacy for the doctoral degree upon satisfactory completion of the Master of Science degree (or its equivalent) and the Qualifying Exam. Candidates for the doctoral degree may not propose a dissertation (PSYC 8850) until admitted to candidacy.

A five-member doctoral committee will be formed by the student and his/her advisor. Three members of the doctoral committee must be full-time equivalent faculty members of the Department of Psychology, including at least one clinical and one experimental faculty member. The fourth and fifth members must meet Graduate School requirements and include the Graduate Faculty Representative. Students will present findings and implications of the dissertation to departmental faculty, -students, and community members at an open forum.

## Clinical - Professional Development

All students must complete 7 credits of PSYC 7725 (Psychology Clinic Practicum) and 1 credit of PSYC 5517 (Interdisciplinary Evaluation Team). Up to 3 credits of PSYC 7724 (Community Practicum) may be substituted for credits of PSYC 7725. Progress in the development of professional skills is evaluated by faculty supervisors and the Clinical Training Committee. Satisfactory evaluations of professional development by the Clinical Training Committee is a degree requirement.

All students must satisfactorily complete a one-year full-time clinical internship at a site belonging to the Association of Psychology Postdoctoral and Internship Centers or comparable supervised clinical practice approved by the Clinical Training Committee. Concurrent enrollment at Idaho State University in 1 credit of PSYC 7749 (Clinical Internship) is required. Students enrolled in PSYC 7749 will be considered full-time Idaho State University students. Application to clinical internships and acceptance into clinical internships re-

quires completion of the dissertation prospectus and the approval of the Clinical Training Committee.

## Doctor of Philosophy in Experimental Psychology

Doctoral training in Experimental Psychology provides students with education and research training in the core areas of psychological science, e.g., personality, social psychology, learning, sensation and perception, cognition, developmental psychology, and physiological psychology. Students who complete the Ph.D. program may pursue academic or non-academic careers. To prepare for their future careers, students need to (i) have a solid foundation in basic areas of psychology (breadth of knowledge) and also (ii) develop an expertise in their research areas (depth of knowledge). Our program offers a variety of courses to help students accomplish their career goals.

### Goals

Four program goals have been defined; Research knowledge and expertise; Breadth of knowledge and integration of core areas in psychology; Competencies in scientific methodology and analysis; and Effective communication skills. Each goal has associated objectives and competencies.

### Admission Requirements

Admission requirements are as stated for the Master of Science in Psychology with the following additions: all students must be recommended by the Experimental Admissions Committee of the Psychology Department

### General Requirements

All doctoral students must complete the Master of Science in Psychology, or its equivalent. Students entering the doctoral training program at Idaho State University with a master's degree from another institution will receive full or partial credit, based on an examination of completed course work and research. The Department Chair, the Director of Experimental Training, and the department subject matter expert(s) will review all relevant documents and determine the course work and research, if any, that will be required to compensate for omissions and/or non-equivalency. The following requirements are all in addition to the Master of Science requirements.

#### Required Courses

PSYC 5583 and/or PSYC 6641 Special Problems 10 cr

#### Research

PSYC 8850 Dissertation 12cr  
Electives 18 cr

In addition, students must complete 18 credits of elective classes. Up to nine credits of these electives may be taken outside the Psychology Department. Electives should be approved by the student's faculty advisor. The 12 elective credits earned for the Master of Science degree will satisfy course requirements for the Doctor of Philosophy, subject to approval of the Departmental Chair.

Minimum Total Credits - 40

### Scholarship - Research Development

Upon completion of Area Requirements plus PSYC 6627 and PSYC 6632, and the thesis prospectus, doctoral students are required to pass a Qualifying Exam to be admitted to doctoral candidacy. The exam samples each student's integrative writing skills and conceptual abilities. Students write independently on integrative topics from across the foundational areas of general psychology or from an individualized and focused area of scholarly research.

Students may be admitted to candidacy for the doctoral degree upon satisfactory completion of the Master of Science degree (or its equivalent) and the Qualifying Exam. Candidates for the doctoral degree may not propose a dissertation (PSYC 8850) until admitted to candidacy.

A five-member doctoral committee will be formed by the student and his/her advisor. Three members of the doctoral committee must be full-time equivalent faculty members of the Department of Psychology, including at least one clinical and one experimental faculty member. The fourth and fifth members must meet Graduate School requirements and include the Graduate Faculty Representative. Students will present findings and implications of the dissertation to departmental faculty, students, and community members at an open forum.

## Master of Science in Psychology

### Goals

To ensure that students who receive a master's degree in psychology will be prepared for further post-graduate study and for careers in related areas, the department has identified the following goals: an understanding of core areas and the breadth of the field of psychology and its applications; ability to integrate knowledge and theories across, and to think critically about, topics within the domains of psychology; competence in library information

technology and computer applications related to the study of psychology; competence in scientific methodology and analysis as they apply to the study of psychology; ability to communicate effectively, in both oral and written form, about issues within the field of psychology; active participation in the research process; and understanding and compliance with the APA code of ethics pertaining to research conduct. Each goal has associated objectives and competencies.

### Admission Requirements

1. In addition to the general requirements of the Graduate School, the applicant must have: Minimum entrance requirements include a 3.0 grade point average during the last two years of undergraduate study. Graduate Record Exam scores of the 50th percentile or higher are preferred on two of the three aptitude tests (verbal, quantitative, or analytical writing).
2. An undergraduate major in psychology or the equivalent.
3. Recommendation by the Experimental or Clinical Admissions Committee of the Department of Psychology. The Clinical and Experimental Admissions Committees only admit students into the combined Master of Science and Doctor of Philosophy course of study.

### General Requirements

Area requirements assume the satisfactory completion of undergraduate courses that prepare the student for advanced study. Specifically, students must have completed undergraduate courses in research methods, neuroscience, sensation, perception, learning, social psychology, developmental psychology, personality, history and systems, or the equivalent of these topic areas. Each student's records will be reviewed by the Departmental Chair in consultation with departmental staff. Students deficient in area prerequisites may be required to enroll in additional course work and/or experience limitation of choices. An Area Requirement Plan of Completion must be finalized during the student's first month following matriculation. The Chair, the student, and one or more faculty appointed by the Chair will meet and approve each student's Plan of Completion. Students admitted by the Clinical Admissions Committee must complete the Clinical Area Requirements; students admitted by the Experimental Admissions Committee must complete the Experimental Area Requirements.

#### Required Courses (12 credits)

PSYC 6627 Statistics and Research Design I 3 cr  
PSYC 6632 Statistics and Research Design II 3 cr  
PSYC 6650 Thesis 6 cr

**Clinical Area Requirements (12 credits)**

Each student must complete one, 3-credit course from each of the following core areas of psychology:

**Area A: Biological Bases of Behavior:**

PSYC 5504 Sensation & Perception	3 cr
PSYC 5531 Behavioral Neuroscience I	3 cr
PSYC 5532 Behavioral Neuroscience II	3 cr

**Area B: Cognitive-Affective Bases of Behavior:**

PSYC 6642 Cognitive Psychology	3 cr
--------------------------------	------

**Area C: Social Bases of Behavior:**

PSYC 6643 Advanced Social Psychology	3 cr
--------------------------------------	------

**Area D: Individual Behavior:**

PSYC 6644 Advanced Developmental Psychology	3 cr
PSYC 6647 Advanced Personality	3 cr

OR

**Experimental Area Requirements (12 credits)**

Students must complete four, 3-credit courses from among the following core areas of psychology:

PSYC 5504 Sensation & Perception	3 cr
PSYC 5531 Behavioral Neuroscience I	3 cr
PSYC 5532 Behavioral Neuroscience II	3 cr
PSYC 5570 Advanced Topics in Learning	3 cr
PSYC 6637 Multivariate Statistics	3 cr
PSYC 6642 Cognitive Psychology	3 cr
PSYC 6643 Advanced Social Psychology	3 cr
PSYC 6644 Advanced Developmental Psychology	3 cr
PSYC 6647 Advanced Personality	3 cr
Electives (12 credits)	

In addition, students must complete 12 credits of elective classes. Up to six credits of these electives may be taken from outside of the Psychology Department. Electives should be approved by the student's faculty advisor.

Minimum Total Credits - 36

**Psychology Graduate Courses**

**PSYC 5501 Theories of Personality 3 credits.** Study of the main theories of personality from both historical and contemporary perspectives, including trait theory, biological, psychoanalytic, humanistic, cross-cultural, behavioral, and social learning. Emphasis will be given to applying theories with the goal of understanding personality and predicting behavior. **Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.**

**PSYC 5502 Teaching of Psychology 1-2 credits.** Prepare students to teach independently. Pedagogy, use of technology, and problem solving skills related to teaching psychology courses will be discussed. Supervised teaching will be treated as a separate module. Repeata-

ble up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**PSYC 5504 Sensation and Perception 4 credits.** The anatomical and physiological basis of sensation will be reviewed. Moreover, traditional and contemporary theories of perception will be critically considered. Students will be expected to do laboratory work illustrating basic concepts of sensory and perceptual function. PREREQ: PSYC 3303.

**PSYC 5508 Science, Pseudoscience, and Psychology 3 credits.** Designed to teach scientific thinking and how to critically evaluate fringe-science, paranormal, and other unproven claims. The psychological processes underlying pseudo-scientific thinking and beliefs also are introduced.

**PSYC 5512 Ethical and Professional Issues in Psychology 2 credits.** An introduction to ethical and professional standards in the field of psychology including a historic and contemporary framework. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**PSYC 5517 Interdisciplinary Evaluation Team 1 credit.** Introduction to the principles and techniques associated with interdisciplinary evaluation. Disciplines emphasized: Audiology, Nursing, Physical Therapy, Psychology, Social Work, Special Education, Speech-Language Pathology. Cross-listed as NURS 5517, SOWK 5517, SPA 4417.

**PSYC 5531 Behavioral Neuroscience I 3 credits.** Introduction to behavioral neuroscience with an emphasis on the relation between the central nervous system and behavior. Topics include: basic neuroanatomy, neurophysiology, hormones, sensory systems,

**PSYC 5532 Behavioral Neuroscience II 3 credits.** Critical evaluation of contemporary research in behavioral neuroscience. Emphasizes current research and theories concerning neural mechanisms of behavior. PREREQ: PSYC 5531 or permission of instructor. **Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. AS**

**PSYC 5535 Animal Behavior 3 credits.** Study of experiments in animal learning that have thrown light upon the problem of understanding human learning. Course is concerned with both observation and experimental studies of habit formation, conditioning, related endocrinology, and nerve structure as they are associated with behavior capabilities. PREREQ: SIX HOURS IN PSYCHOLOGY BEYOND PSYC 1101-1102 OR PERMISSION OF INSTRUCTOR.

**PSYC 5545 Learning Behavior 3 credits.** Survey of the major principles of learning, including the processes underlying classical and instrumental conditioning and motor skills behavior. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**PSYC 5563 Clinical Psychology and the Law 3 credits.** An introduction to the field of forensic psychology by exposing students to the primary areas in which clinical psychology relates to the legal system. Emphasis will be on expert testimony by clinicians in matters of criminal responsibility, mental competency, civil commitment, and child custody.

**PSYC 5565 Behavioral Medicine 3 credits.** Psychological issues of health, disease states, and prevention. Critical evaluation of clinical research and practice including nontraditional healing techniques and current models used to understand health and disease. PREREQ: PSYC 1101 OR PERMISSION OF INSTRUCTOR.

**PSYC 5567 Topics in Psychology 1-3 credits.** Selected topics in psychology. Contents vary. May be repeated with different content and departmental approval for a total of 6 credits. PREREQ: Permission of Instructor

**PSYC 5570 Advanced Topics in Learning 3 credits.** In-depth study of the major theories, principles, and research in learning. Areas of emphasis include the experimental analysis of behavior, stimulus control, schedules of reinforcement, aversive control, and quantitative analysis of behavior. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: PSYC 4445 OR PSYC 5545 OR PERMISSION OF INSTRUCTOR.

**PSYC 5583 Special Problems 1-3 credits.** Research or readings in a special area of interest to be arranged on an individual basis with individual faculty. May be repeated to a maximum of 12 credits. PREREQ: Permission of Instructor.

**PSYC 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**PSYC 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PSYC 6601 Family Assessment and Therapy 3 credits.** Introduction to clinical work with families, including theoretical models and intervention techniques, assessment methods, current research, and special topics relevant to families.

**PSYC 6612 Theories of Perception 3 credits.** Theories of perception, ecological, constructive, gestalt, and motivational, will receive critical review. Students will perform measurements of perception and research guided by theoretical accounts of the perceptual process.

**PSYC 6620 Psychodiagnostics I 3 credits.** Theory, measurement development, and current use and limitations of major tests of intelligence, academic achievement, development, and neurological function. Practice in test administration is included. PREREQ: PSYC 5527 OR PERMISSION OF INSTRUCTOR.

**PSYC 6621 Psychodiagnostics II 3 credits.** Theory, measurement development, and current use and limitations of major tests of personality, both objective and projective, with an emphasis on classification decisions. Practice in test administration is included. PREREQ: PSYC 6620 OR PERMISSION OF INSTRUCTOR.

**PSYC 6623 Advanced Psychological Measurements 3 credits.** Psychological measurement theory, the mathematical basis of reliability and validity constructs, and test construction strategies are introduced. Measurement principles are then generalized across response modes and methods, focusing on direct observation technologies.

**PSYC 6627 Statistics and Research Design I 3 credits.** Critical review of the theory and the methods used to evaluate the outcome of empirical research in the life and social sciences. Chi square, correlation, regression, analysis of variance designs are considered and related to the theoretical distributions basic to statistical inference. PREREQ: Psychology Graduate Student or PERMISSION OF INSTRUCTOR.

**PSYC 6632 Statistics and Research Design II 3 credits.** Basic assumptions in the philosophy of scientific investigation, principles of design and analysis of experiments, including tests of significance and factorial designs, and reporting of research, in which the student is required to prepare reports of his own work as if for publication. PREREQ: Psychology Graduate Student or PERMISSION OF INSTRUCTOR.

**PSYC 6633 Psychology of Addictive Behaviors 3 credits.** Reviews research on alcohol

and other drug use within biopsychosocial framework. Included are etiological factors and natural history, assessment and diagnosis, comorbidity, motivational interviewing, treatment models, and special population issues.

**PSYC 6634 Cultural Diversity and Individual Differences 3 credits.** Critical evaluation of scholarship on and social representations of cultural diversity and individual differences. Review of current theory, research, assessment, and intervention practices with diverse populations.

**PSYC 6635 Marital Assessment and Therapy 3 credits.** Introduction to assessment of marital distress, theoretical approaches to treating couples, intervention techniques, current research, and special topics in the clinical study of couples.

**PSYC 6636 Neuropsychological Assessment 3 credits.** Introduction to the selection, administration, scoring, and interpretation of commonly used neuropsychological tests, including tests of conceptual, perceptual, and linguistic ability. PREREQ: PSYC 6620 AND PSYC 6621.

**PSYC 6637 Multivariate Statistics and Research Design 3 credits.** Continuation of research principles in design and analysis, emphasizing the use of multiple dependent variables, strategies for investigating latent variables, and testing complex causal models. PREREQ: PSYC 6632 OR PERMISSION OF INSTRUCTOR.

**PSYC 6641 Special Problems 1-3 credits.** Individual work under faculty guidance. The student will pursue original research in some area of psychology of particular interest to him or her and write a report of his or her work in a form suitable for publication. Repeatable up to 12 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**PSYC 6642 Cognitive Psychology 3 credits.** Examines cognitive processes underlying perception, attention, mental imagery, memory, language, and problem solving/decision making. Cognitive development and individual differences are discussed. Both theory and experimental findings are emphasized in each area.

**PSYC 6643 Advanced Social Psychology 3 credits.** Review of current research and major theories of social psychology. Areas of emphasis include attitude, persuasion, prejudice and stereotyping, attraction, aggression, helping, and social cognition.

**PSYC 6644 Advanced Developmental Psy-**

**chology 3 credits.** Study of developmental theories, issues, and research across the life span. Emphasis is on current empirical research, highlighting the interaction of biological, cognitive, and social domains of development within and between individuals.

**PSYC 6645 Adult Psychopathology & Treatment I 3 credits.** Exposure to fundamental issues in etiology and assessment of adult psychopathology, including advancements in diagnostic classification, focusing on Axis I disorders such as anxiety and mood disorders. Empirically supported treatment methods are emphasized.

**PSYC 6646 Adult Psychopathology & Treatment II 3 credits.** Continued review of theories and forms of adult psychopathology, diagnostic categories, and models of treatment. Empirically supported treatment models that consider the therapeutic process, therapeutic relationship, and sociocultural context are emphasized. PSYC 6645 OR PERMISSION OF INSTRUCTOR.

**PSYC 6647 Advanced Personality 3 Credits.** This course will explore contemporary personality theory, as well as significant areas and trends in the current empirical literature.

**PSYC 6649 Child Psychopathology & Treatment 3 credits.** Review of the psychopathology, assessment, diagnosis, and treatment of major psychological disorders of childhood, including mental retardation, autism, learning disability, attention deficit hyperactivity disorder, oppositional defiant disorder, and conduct disorder.

**PSYC 6650 Thesis 1-6 credits.** Graded S/U. May be repeated

**PSYC 6672 History and Systems 3 credits.** Survey of historical and philosophical bases of theories of psychology presently used. Emphasis on understanding impact of political, cultural, and historical forces on ideas and methods used in psychology. PREREQ: PERMISSION OF INSTRUCTOR.

**PSYC 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PSYC 7701 Clinical Psychology 2 credits.** Orientation to professional training, evaluation, diagnosis, and treatment. Orientation to the Idaho State University Psychology Clinic procedures and report writing requirements. Introduction to clinical interviewing, crisis

management, supervision, and consultation.

**PSYC 7702 Introduction to Psychotropic Medication 2 credits.** Introduction to clinical psychopharmacology meeting American Psychological Association guidelines for Level 1 predoctoral training. Disorders of substance abuse, psychosis, mood, anxiety, and development are highlighted. PREREQ: PSYC 5532.

**PSYC 7703 Advanced Ethics and Professional Issues 1 credit.** Systematic review of ethical decision-making emphasizing analysis of complex ethical issues. Professional topics include supervision, post-doctoral training, licensure, management of high-risk patients, self-care, and emerging models of behavioral health consultation. PREREQ: PSYC 5512.

**PSYC 7724 Community Practicum 1-2 credits.** Students work in public or private mental health agencies under qualified supervisors. Professional activities include evaluation and therapy. Six hours per week per credit. May be repeated. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE.

**PSYC 7725 Psychology Clinic Practicum 1-2 credits.** Students are supervised in the evaluation and treatment of clients served by the Psychology Department Clinic. Six hours per week per credit. May be repeated. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE.

**PSYC 7726 Supervision Practicum 1-2 credits.** Guided supervisory experiences with junior colleagues in the ISU Psychology Clinic. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/U. May be repeated.

**PSYC 7727 Psycho-educational Evaluations 1 credit.** Interviewing, test selection, test administration, case conceptualization, report writing, and interpretation skills are performed under supervision. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/U. May be repeated.

**PSYC 7736 Clinical Proseminar 1-3 credits.** Specific areas of psychopathology, assessment, diagnosis, intervention, and/or associated theoretical models are reviewed in a seminar format with subject matter experts. May be repeated with different content.

**PSYC 7748 Clinical Externship 1 credit.** Clinical practice in regional human service agency. Minimum 10 hours per week; 1 hour supervision by Ph.D. psychologist per 20 contact hours. Repeatable up to 12 credits. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/U.

**PSYC 7749 Clinical Internship 1 credit.** Predoctoral internship, 11-12 months, at a member site of the Association of Psychology Postdoctoral and Internship Centers, or comparable supervised clinical practice approved by the Clinical Training Committee. Repeatable up to 3 credits. PREREQ: APPROVAL OF CLINICAL TRAINING COMMITTEE. Graded S/ U.

**PSYC 8850 Dissertation variable credits.** Research, analysis, and writing of a doctoral dissertation. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

## Department of Sociology, Social Work, and Criminal Justice

Chair and Professor: Hearn  
Associate Professors: Hearn, Jensen-Hart  
Assistant Professors: Casey, Christensen, Kim, Thomas, Williams  
Emeritus Faculty: Aho, Bryan, Hunter, Pierson

### Goal and Mission

The goal and mission of the MA program are to prepare graduates for positions as sociological researchers in charitable non-governmental organizations, business, or government. This is accomplished by providing them with the theories, findings, and methods distinctive to sociology. Some graduates choose to pursue a sociology doctorate with the hope of college teaching, others go on to law school, still others into counseling or private consulting.

### Objectives

1. Graduates will master literature in one substantive area of sociology.
2. Graduates will develop an understanding of sociological theories, related findings, research design and statistics.
3. Graduates will further their professional careers by either continuing education at the doctoral level or finding employment in public service utilizing their advanced degree.

## Master of Arts in Sociology

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements: students

must score a minimum of the 40th percentile in one of the three sections of the GRE, have a grade point average of 3.0 or higher (on a 4.0) for the last 60± credits taken as an undergraduate, or permission of the Graduate Director. Three letters of recommendation must accompany the application.

For full admission to the graduate program in Sociology, the student must have completed the following courses or their equivalent: Introduction to Sociology, Social Theory, Social Statistics, and Social Science Research Methods. In cases of deficiencies, students may be granted waivers, alternative courses, or Classified with Performance Requirements (w/PR) admission at the discretion of the Sociology Graduate Director.

### General Requirements

SOC 5502 Proseminar	3 cr
SOC 5508 Advanced Sociological Statistics	3 cr
SOC 6600 Comparative Sociological Theories	3 cr
SOC 6603 Seminar: Topics in Methods	3 cr
SOC 6650 Thesis	6 cr
Sociology Electives	15 cr
Minimum Total Credits	33 cr

The Sociology electives may be selected from 5500- and 6600-level courses in Sociology or other graduate courses approved by the Sociology Graduate Director. If SOC 4408 was taken as an undergraduate, 3 credit hours of electives will be substituted for SOC 5508.

Other requirements include the successful completion of a written comprehensive examination, a thesis proposal presentation and an oral defense of the completed thesis.

For more information, please consult the Sociology Graduate Student Handbook and Sociology Graduate Director.

### Sociology Graduate Courses

**SOC 5502 Proseminar in Sociology 3 credits.** An overview of the field of sociology, with emphasis on the teaching of sociology, orientation to graduate education, major sociological theories, issues, research approaches, and ethical problems in the field today. PREREQ: PERMISSION OF INSTRUCTOR.

**SOC 5503 Contemporary Sociological Theory 3 credits.** Survey and appraisal of sociological theories since 1945: structural functionalism, rational choice, conflict, symbolic interactionism, and phenomenology.

**SOC 5508 Statistical Analysis 3 credits.** Emphasizes advanced techniques in research design, data measurement, and multivariate analysis utilizing computer application.

**SOC 5513 Mind, Body and Society 3 cred-**

its. Symbolic interaction and its relation to selfhood, sympathy, illness, sexuality, and addiction; and to groupings like enemies, communities, and associations.

**SOC 5531 Criminology 3 credits.** Analysis of criminal law, law enforcement, judicial roles and processes, correctional approaches, the criminal offender and societal reactions. Theory and research as applicable to behavior and institutional relationships.

**SOC 5536 Elite Deviance and Crime 3 credits.** Explores the types of criminal behaviors engaged in by the American socioeconomic and corporate elite. The course first explores and identifies who this elite is and then examines their ideological and economic history in American society. Specific examples of elite and corporate crime are presented and discussed in class. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**SOC 5538 Sexual Crimes 3 credits.** Complex relationships of human sexuality to law and crime. A range of sexual attitudes, practices and lifestyles will be discussed in the context of cultural norms, legal parameters and personal expression. Students will be introduced to cultural variations in defining and addressing sexuality and crime. Current theoretical explanations of sexual offending and U.S. social policies and clinical interventions for sexual offenders. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**SOC 5559 MA Sociology Internship 1-3 credits.** The MA sociology internship will give eligible graduate students the opportunity to explore the applied work of sociology in public and private agencies and organizations, private firms and foundations. Students will be placed in supervised internship positions commensurate with their skills, abilities and career goals. Only classified students with satisfactory academic progress are eligible for this course. May be repeated for a total of 6 credits. PREREQ: Permission of instructor.

**SOC 5562 Power, Class and Prestige 3 credits.** Theories and methodology of status systems; the relation of class to the social structure; analysis of class in different societies, with emphasis upon the class system and power.

**SOC 5567 Community Networking: Cultivating the Sociological Imagination 3 credits.** Advanced study of the sociology of community through readings, class discussions, lectures, and a community networking internship.

**SOC 5583 Independent Problems in Sociology 1-4 credits.** Readings, observations, applied work, or data analysis in content area not offered in our curriculum. May be repeated for up to 6 credits.

**SOC 5592 Topics in Criminal Justice 3 credits.** Reading, discussion, and preparation of reports on selected topics. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated with different content.

**SOC 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SOC 6600 Comparative Sociological Theories 3 credits.** Comparative analysis of various theoretical perspectives in sociology with special emphasis on structural functionalism, symbolic interactionism, exchange theory, conflict theories, phenomenology, and ethnomethodology. Primary emphasis will be placed on the major propositions of each perspective and the significant contributions of scholarship in each area. PREREQ: SOC 4403 OR EQUIVALENT.

**SOC 6601 Sociological Theories 3 credits.** A seminar in selected topics in theory which will focus on either historical, comparative or contemporary theories. May be repeated for up to 9 credits.

**SOC 6603 Topics in Methods 3 credits.** In depth focus on methodological topics relevant and timely to students' needs and interests. May be repeated up to 6 credits.

**SOC 6605 Social Organization 3 credits.** A seminar in selected topics of social organization and disorganization which will include such themes as complex organization, industrial sociology, community, and urban studies. May be repeated for up to 6 credits.

**SOC 6607 Topics in Diversity 3 credits.** A seminar in selected topics of social differentiation such as stratification, minorities, etc. May be repeated for up to 6 credits.

**SOC 6613 Social Behavior 3 credits.** A seminar in social interaction which will consider such themes as collective behavior, social psychology, deviance, ethnography, and neopositivist approaches to behavioral analysis. May be repeated up to 6 credits.

**SOC 6615 Social Institutions 3 credits.** A seminar in selected aspects of medicine, law

and crime, media, corporations, sports, religion, family, education, and political sociology. May be repeated up to 9 credits.

**SOC 6620 Seminar: Philosophy of Social Science 3 credits.** The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of all D.A. students.

**SOC 6621 Seminar: Interdisciplinary Topics in Social Science 3 credits.** Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science, economics and sociology. Required of all D.A. students.

**SOC 6649 Independent Studies 1-4 credits.** Consultation course consisting of independent student effort under the guidance of the instructor. Students are assigned to, or request assignment to, specific independent problems on the basis of interest and preparation. This may include preparation and presentation of a major research project, directed readings, or tutorial study.

**SOC 6650 Thesis 1-6 credits.** Research, analysis, and writing of master's thesis. 6 credits of SOC 6650 are required for graduation. Continuous enrollment at a minimum of 1 credit must be maintained until the thesis is defended. May be repeated. Graded S/U.

**SOC 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Social Work Graduate Courses

**SOWK 5517 Interdisciplinary Evaluation Team 1 credit.** Introduction to the principles and techniques associated with interdisciplinary evaluation. Disciplines emphasized: Audiology, Nursing, Physical Therapy, Psychology, Social Work, Special Education, Speech-Language Pathology. Cross-listed as PSYC 5517, NURS 5517, SPA 5517.

**SOWK 5582 Independent Problems Consultation course which may be repeated for maximum of 6 credits.** PREREQ: 12 CREDITS IN SOCIAL WORK.

**SOWK 5591 Seminar 3 credits.** Readings, - discussion, and preparation of reports on selected topics. May be repeated to 9 credits with different topics. PREREQ: PERMISSION OF INSTRUCTOR.

**SOWK 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be graded S/U.

**SOWK 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SOWK 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

# College of Business

Tom Ottaway, Ph.D., Dean  
Joanne Tokle, Ph.D., Associate Dean  
Corey Schou, Ph.D., Associate Dean for  
Information Systems

## Department of Accounting

Professor and Chair: Smolarski  
Professors: Picard, Smith  
Assistant Professors: Bezik, Brown,  
Konicek, Lim, O'Brien-Rose, Vega

## Department of Informatics

Chair and Professor: Parker  
Professors: Ottaway, C. Schou  
Assistant Professor: Srinivasan

## Department of Finance & Economics

Chair and Professor: Hackert  
Professors: Bensen, Brookman, Byers,  
Khang, Stegner, J. Tokle, R. Tokle

## Department of Management

Chair and Professor: Murphy  
Professors: Jolly, M. Johnson,  
Krumwiede  
Associate Professors: Street, Tocher

Senior Lecturer: Peppers  
Lecturer: Peterson

## Department of Marketing

Chair and Professor: Speck  
Assistant Professors: McCardle, Ney

## Master of Business Administration

The College of Business (COB) at Idaho State University (ISU) offers a program leading to the degree of Master of Business Administration (MBA) to holders of business and non-business bachelor's degrees. The MBA program is accredited by AACSB International, the Association to Advance Collegiate Schools of Business. In addition to the traditional MBA degree, the program offers MBA degrees with emphasis areas in Accounting, Informatics, Finance, Health Care Administration (HCA), Project Management, and Marketing. The MBA program at Idaho State University was the first to be accredited by the AACSB in the State of Idaho and remains committed to the delivery of a high quality, rigorous program.

The traditional MBA provides a broad general degree particularly suited to those pursuing a

managerial focus in their careers. The Accounting, Informatics, Finance, and Health Care Administration, Project Management, and Marketing options provide specialized knowledge relating to their respective fields. The Accounting emphasis meets the needs of students who wish to satisfy requirements for certification as public accountants (CPA) or certification as management accountants (CMA).

In the interest of a more diverse student body, the college encourages and attracts a number of full-time students from other parts of the United States and foreign countries.

## Mission and Goals

The Idaho State University MBA program's mission is to develop and deliver programs that address the diverse needs of stakeholders. Our primary mission is to offer an MBA program that enhances our students' competence in business management, fosters their intellectual curiosity, and develops the personal skills necessary to be an effective manager. The MBA program prepares students for leadership roles in all areas of business requiring skilled and ethical decision making and analytical abilities.

## Program Goals

MBA Students should develop:

- Communication and collaboration skills.
- Skill in critical analysis, problem solving and decision making.
- Competency in key business concept areas.
- Insight into cultural, global, and ethical issues in business.

## The MBA Program

The MBA program consists of eight graduate core courses (MBA-I) covering basic knowledge skills and concepts, a core of eight broad integrative courses (MBA-II), plus six to twelve hours of additional graduate level courses depending upon the student's program of study.

The MBA-I core develops a broad competence in the functional fields of business: Accounting, Economics, Management, Marketing, Operations, and Finance. The core also examines behavioral, international, ethical, industry analysis, and strategic issues that cut across the functional boundaries and provide a basic educational background. Students with undergraduate degrees in business may have MBA-I

classes waived.

The MBA-II core consists of eight required courses which, although anchored in traditional functional fields, are designed to provide a strong integrative focus building upon the competencies developed in MBA-I courses.

The traditional MBA degree requires six credit hours of graduate course work beyond the MBA-II core courses. The various emphases require nine credit hours of graduate course work beyond the MBA-II core courses. The courses in the Accounting, Informatics, Finance, Health Care Administration, Project Management, and Marketing areas of emphasis are designed to provide specialized knowledge specific to each of their respective fields.

## Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School, and all additional College of Business requirements.

Admission to the MBA program is granted only to students showing high promise of success. The College of Business uses various measures of high promise, including the candidate's performance on the Graduate Management Admissions Test (GMAT) and upper-division grade point average (GPA). Such measures, along with other reasonable indications of promise, will be used in combination to arrive at a final judgment.

The minimum requirement for admission is defined by the following:

The sum of 200 times the grade point average in upper-division course work (4.0 system) plus the total score on the Graduate Management Admission Test must equal at least 1150 points.

For applicants from schools with different grading systems a GPA will be inferred as accurately as possible. Also, graduate courses will be included in the upper-division GPA calculation. For applicants with a significant amount of recent upper-division academic course work versus course work that is considerably older, we may choose to consider only the recent GPA.

Individuals holding a current master's degree from a regionally accredited institution may meet minimum requirements and be considered for admission if they meet the Graduate School requirements regarding GRE scores in which case the student is not required to take the GMAT for admission.

Meeting the minimum formula requirement or minimum GRE requirement does not assure admission to the MBA program since other

factors may be considered if they are deemed important in the assessment of the applicant's probable success in the MBA program.

All applicants are required to submit a resume outlining work experience and two letters of reference.

Please note that no individual can be admitted to classified status in the MBA program until the College of Business has received the applicant's official transcripts and official GMAT/GRE scores.

Applications are accepted at any time. Complete applications are reviewed the first working day of each month up to the Graduate School deadlines for admission.

## Locations

The MBA program serves Southeast Idaho's need for part-time and full-time graduate education in business. The traditional MBA degree is offered in the evening in Pocatello and Idaho Falls to full-time and part-time students. The Finance, Marketing, and Project Management emphasis areas require that students be able to take at least some emphasis-area daytime courses in Pocatello, and are restricted to individuals who do not have an undergraduate major in the respective fields. The Informatics emphasis and Accounting emphasis elective courses are only daytime courses offered in Pocatello. The Health Care Administration emphasis courses are offered primarily in the evening in Pocatello.

## Conduct

Academic integrity is expected by the College of Business. All forms of academic dishonesty, including cheating and plagiarism, are prohibited. The penalties for students engaging in academic dishonesty, plagiarism, unprofessional or unethical conduct within the university community range from a failing grade to dismissal from the MBA program, and/or permanent expulsion from the university with notation on the student's transcript. The Graduate Catalog explains the dismissal policy and the procedures for the appeal of dismissal. If you are unclear as to what constitutes academic dishonesty, you should consult the Graduate Catalog, then review the College of Business policy on Academic Integrity available from the College of Business Office in BA 202; from the College of Business web site at [www.cob.isu.edu](http://www.cob.isu.edu); or refer to the Idaho State University Faculty/Staff Handbook policy on academic dishonesty. If you are still in doubt about academic dishonesty, you're encouraged to consult with a faculty member, the MBA Director, or the Dean.

# MBA Degree Requirements

## MBA Minimum Prerequisites

### Mathematics Skills

The minimum level of mathematics required for the MBA program is college algebra. If students have not completed this course, they must do so early in their program prior to enrolling in MBA-II courses. College algebra may be waived if the student scores in the 50th percentile or higher on the quantitative section of the GMAT. If all MBA-I courses are waived, the student may enroll in MBA-II courses provided they are concurrently enrolled in courses to meet the math requirement.

### Computer Skills

Computer literacy is an essential skill for success in the MBA program and success in a professional business career. The minimum skills required are the ability to use a word processor, a spreadsheet, the Internet, and Windows. Students are required to maintain e-mail and Internet accounts on the Idaho State University network.

### Communications Skills

Good communication skills are fundamental for students and managers. Students are expected to have a high degree of proficiency in both oral and written communication skills. - Students failing to demonstrate communications proficiency will be required to take remedial work.

## MBA I

The following courses are prerequisite to any MBA II course:

MGT 2216  
MBA 6610 or ECON 2201 and ECON 2202  
MBA 6611 or ACCT 2201 and ACCT 2202  
MBA 6612 or MGT 3312 and MGT 5563  
MBA 6613 or MKT 2225  
MBA 6614 or MGT 3329  
MBA 6615 or FIN 3315

## Waiver of MBA-I Requirements

MBA-I courses may be waived for students with a business degree from an AACSB accredited institution. MBA-I courses may be waived for students with a business degree not accredited by AACSB subject to a transcript and program evaluation by the MBA Director. For students with non-business degrees or degrees from foreign universities, courses may be waived where equivalency of content with the Idaho State University MBA core can be established and the student has earned at least a grade of C- or equivalent. Individuals with degrees greater than 10 years old may be required to take selected MBA-I courses. Work

experience is not a basis for waiving MBA-I course work; however, students with substantial work experience may demonstrate competence in a particular field through examination.

## MBA-II (24 hours)

After all MBA-I requirements are satisfied, students may enroll in the MBA-II core component courses listed below.

MBA 6620 Quantitative Information for Business Decisions  
MBA 6621 Managerial Decision Making  
MBA 6622 Finance in an Integrated Environment  
MBA 6623 Marketing in an Integrated Environment  
MBA 6626 Business Policy/Strategy in a Global Environment  
MBA 6637 Business Analytics and Strategic Business/IT Alignment  
MBA 6628 Business Simulation and Application  
MBA 6629 Competitive Advantage Along the Value Chain and Negotiations

Exceptions to the requirement that all MBA-I courses be completed prior to enrolling in MBA-II courses may be made when most MBA-I courses have been taken and enforcement of this requirement would cause undue hardship for a student (i.e., a delay in his/her program). Students may substitute a course for MBA 6620 with permission of the MBA Program Director. Exceptions will be granted only where it is reasonable to conclude that the student has sufficient background to perform satisfactorily in MBA-II courses.

A request for an exception to the MBA-I prerequisite requirement must be made to the MBA Director. This request should state the MBA-I courses remaining to be taken in the student's program, when those courses will be taken, and what hardships will be incurred if the exception is not granted.

## Additional Course Requirements

Students seeking the traditional MBA degree will complete six credit hours of additional graduate course work beyond the MBA-II core.

Students seeking the MBA with an emphasis in Accounting, Informatics, Finance, Project Management, Marketing or Health Care Administration will complete nine credit hours of graduate work in their selected emphasis area.

Students may select as electives any 5500-level or 6600-level courses offered by the College of Business that meet emphasis area requirements with the exception of courses numbered between MBA 6600 and MBA 6615 inclusive, and MBA-II courses. Students wishing to take elective courses outside the College of Business must have those courses approved by the MBA Director. The electives may include MBA 6650 Thesis (6 credit hours), or MBA 6639 Paper (3 credit hours). Students may not take a 5500-level course for elective

credit if a similar course has been taken at the undergraduate level.

### The Traditional MBA degree (6 hours of electives)

Students pursuing the traditional MBA degree are required to meet the following requirements:

- Electives (6 credit hours). The traditional MBA degree requires six credit hours of College of Business electives at the 5500/6600 level approved by the MBA Director.

### Accounting Emphasis (9 hours)

The MBA with an Emphasis in Accounting program produces graduates with the knowledge and skills for successful professional accounting careers. The goal of the accounting emphasis is to provide graduates with the following characteristics:

- Business and accounting knowledge.
- Capability and motivation for continued learning.
- Competence in learning skills (including research of data bases).
- Ability to analyze, critique, and communicate.
- Ability to work effectively with others.
- Rigorous ethical standards.

The Accounting Emphasis program enhances knowledge and skills for rapid advancement in either managerial or public accounting. MBA graduates should be prepared to pass certification examinations for both the Certified Public Accountant (CPA) and Certified Management Accountant (CMA).

Students choosing an emphasis in Accounting must select 9 hours of 5500/6600 level accounting courses. Appropriate undergraduate prerequisite courses are required. Courses at the 5500-level cannot be selected if a comparable undergraduate course has already been taken.

### Informatics Emphasis (9 hours)

The MBA with an Emphasis in Informatics program is focused on providing managerial-level knowledge of information technology for MBA students. The Informatics emphasis provides general business managers with a curriculum focused on building their knowledge of information systems and the opportunity to develop technical skills in this field.

Electives (9 credit hours). The MBA with an emphasis in Informatics requires 9 credit hours of 5500/6600-level elective course work in the field of informatics.

### Finance Emphasis (9 hours)

The MBA with an Emphasis in Finance is not open to students who have a previous undergraduate major in Finance. The Finance emphasis requires that students must be able to take at least some daytime courses in Pocatello.

The MBA with an emphasis in Finance requires FIN 5578 (3 credits) plus 6 more credits of 5500/6600-level elective course work in the field of finance.

### Project Management Emphasis (9 hours)

Students pursuing the MBA with an Emphasis in Project Management are required to take the following courses:

MGT 5582 Project Management  
MGT 5591 Seminar in Management and Organization  
And 1 of the following 2 classes:  
MGT 5534 Productivity and Quality Management  
MGT 5530 Advanced Operations and Production Management

Students who have taken these courses as undergraduates are not eligible to repeat them as graduate students. Students who have already taken one or more of these classes must have an appropriate alternative course approved by the MBA Director or Management Department Chair.

### Marketing Emphasis (9 hours)

The MBA with an Emphasis in Marketing is not open to students who have a previous undergraduate major in Marketing. The Marketing emphasis requires that students must be able to take at least some daytime courses in Pocatello.

The MBA with an emphasis in marketing requires 9 credit hours of 5500/6600-level elective course work in the field of marketing. Marketing courses are labeled MKTG.

### Health Care Administration Emphasis (9 hours)

The MBA with an emphasis in Health Care Administration requires at least 9 credit hours of 5500/6600-level elective work in Health Care Administration (HCA). Students may not repeat classes they have taken as undergraduates at the 400-level.

HCA 5573 Marketing for Health Care Organizations  
HCA 5553 Health Care Finance  
HCA 5555 Health Organization Management and Strategy  
HCA 5595 Administrative Internship  
HCA 5575 Healthcare Law and Bioethics  
HCA 6665 Health Insurance and Reimbursement  
HCA 6680 Applied Topics in Health Care

\*10 credits are earned if the student takes the 40credit internship.

### Program of Study

All MBA students are required to meet with the MBA Director prior to or during their initial term in the program in order to develop an approved program of study. Students will be blocked from registering for the next term until this program of study is approved.

Students may apply up to 12 semester credits to both the MBA and the MAcc.

### Examination Requirements

The MBA program requires the satisfactory completion of an oral examination in the final term of the student's program.

### Academic Requirements

Any student who, after admission to the College of Business graduate program, falls below a 3.0 GPA or receives two C (C+, C, or C-) grades or a grade of D+ or lower in the MBA program (MBA-I, MBA-II, and elective courses) is deemed to be doing unsatisfactory work and is subject to review by the College of Business MBA Administrative Committee and to dismissal from the program. A student dismissed for academic reasons may apply for readmission to the MBA program no earlier than four months following his/her dismissal. Requests for readmission will be denied unless the student can demonstrate that the reasons for the previous unsatisfactory work have been rectified and can show evidence of ability to perform satisfactorily in the MBA program.

Courses in which a grade of D+, D, D- or F has been earned will not be counted toward fulfillment of MBA-I or MBA-II program requirements. Students may not use more than two courses with a grade of C+, C, or C- to satisfy graduation requirements. Students must achieve a 3.0 or better GPA in order to graduate.

### MBA and PharmD Joint Degree Program

Students enrolled in the PharmD Program at Idaho State University may combine that degree program with an MBA degree with approximately one year of additional effort. The program is essentially the traditional MBA degree program with the use of some PharmD courses to meet MBA requirements. Program requirements include:

- During the two years of prepharmacy course work, the student should take ECON 2201, ECON 2202, ACCT 2201 and ACCT 2202.
- During the third year profession year in the Pharm.D. program and the summer preceding that year, the student should take MBA 6613, MBA 6614, MBA 6615. These courses will satisfy four hours of

electives required in the spring semester of the third professional year of the Pharm.D. curriculum. In addition, the completion of MBA 6612 (Human Behavior in Organizations) will substitute for PPRA 9945 (Pharmacy Management) required in the third professional year of Pharm.D. curriculum.

- Six hours of specified experiential courses (PHAR 9981) taken in the fourth professional year of the Pharm.D. program will satisfy six elective hours required in the MBA curriculum.
- Throughout and following the professional Pharm.D. program, the student must complete the second year of MBA curriculum, which includes MBA 6620, MBA 6621, MBA 6622, MBA 6623, MBA 6626, MBA 6628, MBA 6629 and MBA 6637.

Upon completion of all required MBA classes, the student may take the MBA final oral exam. Award of the MBA degree requires successful completion of the Pharm.D. degree or a bachelor's degree at Idaho State University.

### Admission Requirements

Admission to the MBA program will normally take place at the end of the second professional year. PharmD students must meet the regular admission requirements of the MBA program except they are required to have completed only the equivalent of an undergraduate degree at the time of admission. Applicants must request the College of Pharmacy to certify to the Graduate School that the student has completed 120 hours and that those 120 hours are equivalent to an undergraduate degree.

### Graduate Certificate in Business Administration Program (18 credits)

The College of Business offers a Graduate Certificate in Business Administration for individuals with non-business degrees who wish to enhance their business knowledge and skills. The program is designed as an evening, part-time program for the working professional, providing a broad base of knowledge and skills needed for today's high technology business environment. Individuals who may subsequently apply for admission to the MBA program would have all MBA-I requirements completed.

### Admission Requirements

Admission to the program and maintenance of good standing will be in accord with the requirements of the Graduate School of Idaho State University and the additional College of Business requirements.

Admission to the Graduate Certificate in Business Administration program is open to students with nonbusiness degrees. Admission to the program requires that applicants meet one of the following two requirements.

1. A minimum GPA of 3.0 in the last 60 hours of undergraduate coursework.
2. A score at the 40th percentile or higher on at least one section of the GMAT.

Students who complete the Graduate Certificate in the Business Administration program are required to meet the regular MBA admission requirements if they wish to complete the MBA degree. The COB will consider the student's GPA in MBA-I classes in instances wherein the individual has extremely old undergraduate GPA.

The following actions are required to be considered for admission to the Graduate Certificate in Business Administration program.

1. Submit a Graduate School application form and application fee to the Graduate School.
2. Provide official transcripts to the Graduate School.
3. Provide GMAT scores to the Graduate School in cases where GPA in the last 60 hours of undergraduate coursework is below a 3.0.
4. Provide a resume of work experience and two letters of recommendation to the College of Business.

### Locations

The Graduate Certificate in Business Administration program is offered in both Pocatello and Idaho Falls. In some instances, students may have to travel to Pocatello or Idaho Falls to obtain a specific class.

### Requirements (18 hours)

- Certificate Minimum Prerequisites  
Students entering the Graduate Certificate in Business Administration program are expected to have completed formal courses in statistics, college algebra, and micro and macro economics. If students have not completed this work, they must do so early in their program.

- Required courses for the Graduate Certificate in Business Administration (18 hours as specified below):

MBA 6611 Financial Reporting and Managerial Accounting  
MBA 6612 Human Behavior in Organizations  
MBA 6613 Marketing  
MBA 6614 Operations Management  
MBA 6615 Finance  
MBA 6616 Business Policy

### Waiver of Requirements

Course requirements will be waived for students who can demonstrate that they have taken equivalent courses within the last 5 years. If a course is waived, the student is required to substitute an alternative course in

the field of study that was waived. Waiver of courses and substitutions must be approved by the MBA Director.

### Academic Requirements

Any student who, after admission to the College of Business certificate program, falls below a 3.0 GPA or receives two C+ grades or a grade of D or F in any course is deemed to be doing unsatisfactory work and is subject to dismissal from the program. A student dismissed for academic reasons may apply for readmission to the certificate program no earlier than four months following his/her dismissal. Requests for readmission will be denied unless the student can demonstrate that the reasons for the previous unsatisfactory work have been rectified and he/she shows evidence of ability to perform satisfactorily in the certificate program. Courses in which a grade of D or F has been earned will not be counted toward fulfillment of program requirements. Students may not use more than two courses with a grade of C+ to satisfy certificate completion requirements.

## Master of Accountancy

The Master of Accountancy (MAcc) provides students with advanced analytical and technical skills and tools required for success in the complex world of accounting today. The program develops skills and competencies well beyond that of an undergraduate accounting degree and will prepare students to enter the public accounting profession and provide a solid foundation for passing the rigorous CPA professional examination.

### Admissions Requirements

The student must apply to, and meet all the criteria for, admission to the Graduate School, and all additional College of Business requirements.

Admission to the MAcc program is granted only to students showing high promise of success. The College of Business uses various measures of high promise, including the candidate's performance on the Graduate Management Admissions Test (GMAT) and upper-division grade point average (GPA). Such measures, along with other reasonable indications of promise, will be used in combination to arrive at a final judgment.

Applicants must hold a bachelor's degree in accounting or equivalent coursework if the degree is not in accounting.

The minimum requirement for admissions is defined by the following:

The sum of 200 times the grade point average in the last 60 credits of course work (4.0 system) plus the total score on the Graduate Management Admissions Test must equal at least 1150 points.

For applicants from schools with different grading systems a GPA will be inferred as accurately as possible. Also, graduate courses will be included in the last sixty hours GPA calculation. For applicants with a significant amount of recent upper-division academic course work versus course work that is considerably older, we may choose to consider only the recent GPA.

Individuals holding a current master's degree from a regionally accredited institution may meet minimum requirements and be considered for admission if they meet the Graduate School requirements regarding GRE scores, in which case the student is not required to take the GMAT for admission.

Meeting the minimum formula requirement or minimum GRE requirement does not assure admission to the MAcc program since other factors may be considered if they are deemed important in the assessment of the applicant's probable success in the MAcc program.

All applicants are required to submit a resume outlining work experience and two letters of reference.

Please note that no individual can be admitted to classified status in the MAcc program until the College of Business has received the applicant's official transcripts and official GMAT/GRE scores.

Applications are accepted at any time. Complete applications are reviewed the first working day of each month up to the Graduate School deadlines for admission.

## Course Requirements

ACCT 5531 Advanced Tax Concepts	3 cr
ACCT 5533 Legal Environment of Accounting	3 cr
OR	
MGT 5561 Business Law	3 cr
ACCT 5557 Advanced Auditing	3 cr
ACCT 5561 Advanced Accounting	3 cr
ACCT 5571 Accounting Capstone 1	1 cr
ACCT 5572 Accounting Capstone 2	1 cr
ACCT 5573 Accounting Capstone 3	1 cr
ACCT 5574 Accounting Capstone 4	1 cr
ACCT 6625 Managerial Control Systems and Corporate Social Responsibility	3 cr
OR	
MBA 6625 Managerial Control Systems	3 cr
ACCT 6631 Accounting Theory	3 cr
ACCT 6634 Seminar in Accounting	3 cr
MBA 6622 Finance in an Integrated Environment	3 cr
ACCT 6660 Governmental and Global Accounting	3 cr
Total Credits	31 cr

## Program of Study

All MAcc students are required to meet with the MBA Director or accounting advisor prior to or during their initial term in the program in order to develop an approved program of study. Students will be blocked from registering for the next term until this program of study is approved.

## Examination Requirement

The MAcc degree requires the satisfactory completion of an oral examination in the final term of the student's program.

## Academic Requirements

Any student who, after admission to the College of Business graduate program, falls below a 3.0 GPA or receives two C (C+, C, or C-) grades or a grade of D+ or lower in the MAcc program is deemed to be doing unsatisfactory work and is subject to review by the College of Business Graduate Administrative Committee and dismissal from the program. A student dismissed for academic reasons may apply for readmission to the graduate program no earlier than four months following his/her dismissal. Requests for readmission will be denied unless the student can demonstrate that the reasons for the previous unsatisfactory work have been rectified and can show evidence of ability to perform satisfactorily in the MAcc program.

Courses in which a grade of D+, D, D- or F has been earned will not be counted towards fulfillment of MAcc program requirements. Students may not use more than two courses with a grade of C+, C or C- to satisfy graduation requirements. Students must achieve a 3.0 or better GPA in order to graduate.

## Accounting Graduate Courses

**ACCT 5500 Managerial Tax Planning 3 credits.** For prospective business managers, owners, or investors interested in important tax consequences of alternative financial transactions.

**ACCT 5503 Accounting Information Systems 3 credits.** A strategic approach to the use of accounting information in an organization. Tools for documentation of business processes and database design are introduced. Focuses on primary business cycles, interrelationship among them, and impact on accounting information. Includes assessment of risks involved in information processing and reporting. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ACCT 3323.

**ACCT 5531 Advanced Tax Concepts 3 credits.** Specialized federal tax concepts and

tax research principles for individuals, businesses, estates, and trusts. Elaborates on basic principles discussed in Principles of Taxation. Specific, evaluated graduate-level activities are identified in the course syllabus.

**ACCT 5533 Legal Environment of Accounting 3 credits.** Study of legal issues facing accountants, including business law, forms of organizations, and regulatory requirements.

**ACCT 5541 Management Control Systems 3 credits.** Focuses on strategic and managerial evaluation and control systems using financial and nonfinancial accounting information. PREREQ: ACCT 3341

**ACCT 5556 Auditing 3 credits.** Concepts and practices of independent and internal auditing. Professional responsibilities, risk assessment, audit planning and reporting. PREREQ: ACCT 3324; PRE- or COREQ: ACCT 4403 or ACCT 503 or CIS 4403 or INFO 5503

**ACCT 5557 Advanced Auditing 3 credits.** Integration of financial statement auditing concepts in case discussions. Research into contemporary auditing literature.

**ACCT 5560 Governmental and Not-For-Profit Accounting 3 credits.** Accounting and reporting principles, standards and procedures applicable to governmental units and not-for-profit institutions, i.e. universities, hospitals. Special consideration to financial management problems peculiar to the not-for-profit sector. PREREQ: ACCT 3324

**ACCT 5561 Advanced Accounting 3 credits.** Study of accounting problems arising in connection with partnerships, corporate affiliation; institutional, social, and fiduciary accounting; consignments; installment sales; and foreign exchange.

**ACCT 5570 Contemporary Issues in Managerial Accounting 3 credits.** Contemporary topics and emerging issues in managerial accounting. This field is rapidly evolving to meet the needs of enterprises competing in a dynamic global environment. PREREQ: ACCT 3341

**ACCT 5571 Accounting Capstone 1 1 credit.** Capstone course integrating accounting regulation topics. Emphasis on analytical, problem-solving and communication skills.

**ACCT 5572 Accounting Capstone 2 1 credit.** Capstone course integrating financial accounting and reporting topics. Emphasis on analytical, problem-solving and communication skills.

**ACCT 5573 Accounting Capstone 3 1 credit.** Capstone course integrating auditing and attestation topics. Emphasis on analytical, problem-solving and communication skills.

**ACCT 5574 Accounting Capstone 4 1 credit.** Capstone course integrating business environment and concept topics. Emphasis on analytical, problem-solving and communication skills.

**ACCT 5580 Comparative International - Accounting 3 credits.** Study of systems that have proven to be problems in an international accounting context, particularly for corporate financial reporting. Also, the progress toward international harmonization of financial reporting and taxation.

**ACCT 5590 Financial Reporting and Statement Analysis 3 credits.** A financial accounting capstone course focusing on statement analysis from the point of view of the many users of financial statements: investors, creditors, managers, auditors, analysts, regulators, and employees through the case analysis of actual companies' financial statements. PREREQ: ACCT 4461 or ACCT 5561

**ACCT 5591 Seminar in Accounting 3 credits.** Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. Specialized evaluated graduate level activities and performances are identified in the course syllabus. May be repeated for up to 6 credits with permission of instructor.

**ACCT 5592 Special Problems in Accounting 1-3 credits.** Research and reports on selected problems or topics in accounting. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

**ACCT 5593 Accounting Internship 1-3 credits.** A program of significant business experience coordinated by the faculty to provide a broad exposure to issues. May be repeated up to a total of 3 credits.

**ACCT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ACCT 6625 Managerial Control Systems and Corporate Social Responsibility 3 credits.** The managerial and strategic use of control

systems. Current practices in corporate social responsibility management and reporting practices. The interrelationship between management control systems and corporate social responsibility.

**ACCT 6660 Accounting for Governmental and Not-For-Profit Entities 3 credits.** In-depth study of accounting and reporting principles, standards and procedures applicable to government and nonprofit entities with an emphasis on topics unique to these institutions. A case study of the financial reporting by a particular governmental entity will be included.

**ACCT 6631 Accounting Theory 3 credits.** Study of accounting conceptual framework and accounting principles. Case discussions and research into contemporary accounting literature.

**ACCT 6632 Advanced Auditing 3 credits.** Integration of auditing concepts in case discussions. Research into contemporary auditing literature and data bases. PREREQ: ACCT 5556.

**ACCT 6634 Seminar in Accounting 3 credits.** Capstone course integrating special problems of financial, managerial, and tax accounting. Emphasis on analytical and communication skills.

**ACCT 6635 Strategic Cost Management 3 credits.** Critical examination of various cost management issues and techniques with emphasis on strategic, behavioral, and cultural issues.

**ACCT 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Informatics Graduate Courses

**INFO 5312 Cloud Security Essentials 3 credits.** Cloud computing provides for distributed computing and data storage capabilities. Instead of buying large servers to store data, and being saddled with the cost of building and maintaining those systems, users can now purchase those servers from a third party with the ability to expand or contract those needs as necessary. This course will look at current research results in cloud security in order to identify opportunities for continued research in this field. PREREQ: INFO 5507 and INFO 3380 or permission of instructor.

**INFO 5313 Continuous Monitor, Intrusion Analysis, Response 3 credits.** Using principles continuous monitoring and baselines, develop knowledge and understanding of the strategies, techniques and technologies used in attacking and defending networks and how to design secure networks and protect against intrusion, malware and other hacker exploits. Introduces methods of attacking and defending a network; design of secure information infrastructure: servers, networks, firewalls, workstations, and intrusion detection systems. Intrusion detection and network monitoring techniques; worms, viruses and other malware: operation, detection and response; principles of penetration testing for assessment of system security; hacker exploits, tools and countermeasures. Investigative techniques, ethical, legal and privacy issues. PREREQ: INFO 5511, INFO 5507 and INFO 3380 or permission of instructor.

**INFO 5314 SCASA Management and Lab 3 credits.** Supervisory control and data acquisition systems are used to control many utility networks, chemical plants, pipelines and many other types of industries. This course will examine the vulnerabilities associated with these systems and discuss how they can be made secure from outside attack. Fundamentals of software-controlled processes will also be discussed. PREREQ: INFO 5511, INFO 5507 and INFO 3380 or permission of instructor.

**INFO 5507 Database Design and Implementation 3 credits.** Covers multi-user relational database management systems, stored procedures, SQL, transaction processing, etc. The course emphasizes Secure Software Design, which includes secure design elements, software architecture, secure design review, and threat modeling. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ or COREQ: INFO 3307

**INFO 5511 Intermediate Information Assurance 3 credits.** Focuses on homeland security, information assurance, integrity, control and privacy. Covers CNSS-4011, national policy, and international treaties. The course considers Access Control, Application Security, Business Continuity and Disaster Recovery Planning, Cryptography, Information Security and Risk Management, Legal, regulations, Compliance and Investigations, Operations Security, Physical (Environmental) Security, Security Architecture, includes security issues around steady state operations and management of software, as well as security measure taken when a product reaches its end of life. . Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 2285 OR CS 2275 OR INFO 3310, or permission of instructor

**INFO 5512 Systems Security for Senior Management 1-3 credits.** Review of system architecture, system security measures, system operations, operations policy, system security management plan, and provisions for system operator and end user training. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: INFO 519; PREREQ: INFO 5511, INFO 5513, INFO 5514, INFO 5515, INFO 5516 or permission of instructor.

**INFO 5513 Systems Security Administration 1-3 credits.** Outlines the basic principles of systems security administration. The student will be introduced to the methods and technologies associated with running a system to maintain privacy and security. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: INFO 5519; PREREQ: INFO 5511 or permission of instructor.

**INFO 5514 Systems Security Management 1-3 credits.** Establishes a framework for managing both systems and systems administrators operating in a secure and private computing environment. This course deals with facilities management, contingency plans, laws, standards of contract and operations management. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: INFO 5519; PREREQ: INFO 5511 and INFO 5513 or permission of instructor.

**INFO 5515 System Certification 1-3 credits.** Describes techniques and methods for certifying a system is in compliance with national and governmental information assurance standards. Evaluates various certification methodologies. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: INFO 5519; PREREQ: INFO 5511, INFO 5513, and INFO 5514 or permission of instructor.

**INFO 5516 Risk Analysis 1-3 credits.** Develops techniques to identify the character and likelihood of adverse events. Explains methods to characterize consequences and costs associated with adverse events. Provides insight into consequence combinations. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. COREQ: INFO 5519; PREREQ: INFO 5512, INFO 5513, and INFO 5514 or permission of instructor.

**INFO 5517 Information Assurance Engineer 1-3 credits.** Focuses on the practical application of systems design and engineering principles and processes to develop secure systems. Topics included analysis of organiza-

tional needs, definition of security requirements, designing systems architectures, developing secure designs, implementing system security, and support of system security assessment/authorization for organizations. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 5511, INFO 5513, INFO 5514, INFO 5515, and INFO 5516.

**INFO 5519 Advanced Informatics Practicum 1-3 credits.** Significant informatics experience including research coordinated by the faculty designed to provide broad exposure to issues in Information Assurance. Does not fulfill major/minor requirements. May be repeated for a maximum of 6 credits. Graded S/U. Permission of Instructor. Specific, evaluated graduate - level activities and/or performances are identified in the course syllabus. PREREQ: Permission of Instructor.

**INFO 5520 Health Care Informatics 3 credits.** Presents an overview of the evolution of health care informatics. Students will learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course will introduce the student to human factors issues in health care informatics; critical issues affecting the development and implementation of information technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and explore some of the emerging information technology in health care. Specific, evaluated graduate - level activities and/or performances are identified in the course syllabus. PREREQ: INFO 3307

**INFO 5522 Health Care Information Assurance 3 credits.** This course focuses on giving students a broad based understanding of the range of issues that IT professionals entering Health care industry must be aware of. Students will be exposed to the health care industry security environment as it stands today and the larger regulatory environment in which Health institutions operate. This is important in light of the recent move towards cloud-based electronic health records (EHRs) and third party developed health applications. Further, issues relating to privacy/security, information governance and information risk assessment will also be covered. Finally, students will be exposed to interventions that can help mitigate the risks identified. Specific , evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 3380.

**INFO 5524 Health Care Workflow Process Analysis and Redesign 3 credits.** This course focuses on giving students a broad based understanding of workflow processes in

healthcare settings. IN particular, the course will develop skills necessary to critically analyze and redesign clinical processes and utilize health IT systems to achieve greater operational efficiency and provide higher quality of care to patients. Quality improvement methods and tools as well as process change implementation, improvement, and management will also be discussed in this course. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 5520

**INFO 5526 Health Care Data Analytics 3 credits.** Use of analytics to achieve better outcomes, such as new treatments and technologies; improve effectiveness and efficiency; design and plan policy and programs; improve service delivery and operations; enhance sustainability; mitigate risk; and provide a means for measuring and evaluation critical organizational data. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: MGT 2217.

**INFO 5530 Web Application Development 3 credits.** Focuses on the development of dynamic, online applications using a programming language like PHP or ASP.Net and a relational database. The course will consider Secure Software Implementation/Coding, which involves secure coding practices, avoiding vulnerabilities, and reviewing code to ensure that there are no errors in the code or security controls. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 3307

**INFO 5531 Computer Forensics Essentials 3 credits.** Introduction to issues of both in data privacy and computer forensics - using available tools learners can reveal the stored passwords on their computer and access previously deleted data. Explains of the role of computer forensics in both the business and private worlds, identifies the current techniques and tools for forensic examinations; describes and identifies basic principles of good professional practice for a forensic computer practitioner; develops familiarity with forensic tools and application in different situations. Risk exposure for electronic commerce business; offenders and abuses; criminal opportunities; evidential aspects, case studies, E-discovery, forensic readiness, corporate planning and response, from evidence collection to business continuity; testing vulnerabilities; reverse engineering. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 5507 and INFO 3380 or permission of instructor.

**INFO 5532 Mobile Application Development 3 credits.** This course will introduce mobile app programming and provide theoretical and practical knowledge to design and build mobile applications. Students will learn various techniques in mobile app development using a programming language like Java. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 1182.

**INFO 5540 Object-Oriented Development 3 credits.** The organization of software as a collection of discrete objects incorporating both data and operations performed on that data. Concepts of object-oriented development, including classes, inheritance, and encapsulation in a modern object-oriented language.

**INFO 5582 Systems Development & Implementation Methodologies 3 credits.** This course presents the process of software development and the methodologies to lower development costs, increase software reliability, decrease development time and ensure application development success. An overview and comparison of traditional and modern methods of software development are presented. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 5507

**INFO 5584 Secure Software Life Cycle Development 3 credits.** In today's interconnected world, security must be included within each phase of the software lifecycle. This course contains the largest, most comprehensive, collection of best practices, policies, and procedures, to ensure a security initiative across all phases of application development, regardless of methodology. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**INFO 5586 Data Analytics 3 credits.** Provides an overview of the fundamentals of analysis to support decision makers in achieving organizational results. Students become familiar with the tools needed to frame problems, analytical techniques to generate and test hypotheses, and the skills to interpret the results into meaningful information. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: MGT 2217.

**INFO 5587 Software Systems Study 3 credits.** In addition to system optimization techniques, management strategies will be discussed. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: INFO 3307

**INFO 5591 Seminar in Computer Informatics 3 credits.** Reading, discussion, and reporting on selected topics. May be repeated for up to 6 credits with permission of the instructor. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: Graduate status in Business and permission of instructor.

**INFO 5592 Special Problems in Computer Informatics 1-3 credits.** Research and reports on topics in computer science. May be repeated for up to 9 credits with different content. PREREQ: Graduate status in Business and permission of Chair.

**INFO 5593 Informatics Internship 1-3 credits.** Significant business experience coordinated by the faculty to provide broad exposure to informatics issues. Letter grade assigned. May be repeated for a total of 3 credits.

**INFO 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**INFO 6610 Advanced Information Assurance 3 credits.** Network and IS security issues, risk assessment, technological, and procedural security measures; computer fraud and privacy issues; hacker attacks, phone fraud, denial of service, and virus and worm attacks; laboratory and professional practice.

**INFO 6620 Advanced Systems Analysis and Design 3 credits.** This course builds on basic systems analysis and design concepts including distributed systems analysis and design. Use cases, quality assurance, and performance metrics are investigated. The course will also introduce students to some of the most significant trends, issues, and research results in system analysis, architecture and design.

**INFO 6630 Advanced Data Management 3 credits.** This course builds on basic database design and implementation concepts. New developments in database technology are discussed. Students examine the impact of emerging database standards, and evaluate the contribution of new approaches to practical implementation of data management.

**INFO 6640 Advanced Data Analytics 3 credits.** This course covers advanced analytical techniques and methods designed to resolve key management issues. Students will learn to resolve issues involving risk and sensitivity and learn to identify patterns of performance, working toward a goal of recognizing insights into the data that will support good

decision making. Students may work with a large dataset to convert it to meaningful information by using the analytical tools learned in class.

**INFO 6650 Thesis 1-6 credits.** Graded S/U. May be repeated.

**INFO 6660 Informatics Project 1-3 credits.** A significant project involving informatics toward the completion of the M.S. program with non-thesis option. Includes a report and oral examination. Graded S/U. May be repeated.

**INFO 6670 Project Management 3 credits.** This course provides an information systems orientation for project management. Students learn techniques for planning, organizing, scheduling, and controlling information systems projects, including software cost estimation and software risk management. Establishing project communications, change management, quality assurance, and managing distributed software teams and projects are among the topics discussed.

**INFO 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Economics Graduate Courses

(No graduate degrees are offered)

**ECON 5504 Game Theory 3 credits.** Use game theory to model conflicts, cooperation and strategy, with applications in economics, business, political science, psychology, sociology, anthropology and biology. Equilibrium concepts, information structures, static and multi-period games will be discussed. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ECON 2201 and ECON 2202 or ECON 6610/MBA 6610 or permission of instructor.

**ECON 5509 Industrial Organization 3 credits.** Industrial organization extends the theory of the firm to examine firms' strategic behavior, including methods to differentiate products and aggressive pricing schemes, and the government's response to these activities. PREREQ: ECON 2210 AND ECON 2202.

**ECON 5511 Political Economy 3 credits.** A critical introduction to the relationship between economic institutions and social analysis. The social implications of different views on economic concepts, such as the division of labor, capital, and value, are investigated from

a classical, neoclassical and an institutional perspective.

**ECON 5531 Money and Banking 3 credits.** The study of financial instruments, money, interest rates, the banking industry, and the structure and monetary policies of the Federal Reserve Bank. An examination of past and present monetary policy. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ECON 2201 and ECON 2202 or MBA 6610.

**ECON 5533 Economic Development 3 - credits.** Theories and principles of economic development, characteristics, and problems of underdeveloped and developing countries, alternative techniques and policies for the promotion of growth and development.

**ECON 5534 International Trade 3 credits.** Explain international trade patterns of goods, services and factors. Study government trade policies, trade laws, and national and international trade institutions. Study trade strategy from the perspective of governments and business. Understand the different levels of economic integration among countries and the political economy of trade policies and trade conflicts/cooperations. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ECON 2201 and ECON 2202 or ECON 6610/ MBA 6610 or permission of instructor.

**ECON 5535 International Finance 3 credits.** Study foreign exchange market and theories of exchange rate determination. Discuss the effectiveness of fiscal and monetary policies in an open economy and the implications of international macroeconomic policy coordination/conflict for government officials and business. Learn about foreign exchange hedging and risk management for country and business. Study lessons from recent international financial crises. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ECON 2201 and ECON 2202 or ECON 6610/ MBA 6610 or permission of instructor.

**ECON 5539 State and Local Finance 3 credits.** Study of taxation, borrowing and spending by state, city, county and other local governments. Taxing and spending patterns are evaluated and compared by states.

**ECON 5572 Comparative Economic Systems 3 credits.** Study and comparison of the theories and practices found in various economic systems. Includes a study of both the free market and socialistic planning.

**ECON 5574 Senior Seminar 3 credits.** Discussion-driven capstone class that integrates

selected topics in economics. Students will be required to do economic research, and write on and discuss current economic issues. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: Permission of Instructor.

**ECON 5581 Independent Study 1-3 credits.** Individuals will be assigned independent problems for research under the supervision of a departmental faculty member. May be repeated up to 6 credits.

**ECON 5585 Econometrics 3 credits.** The application of statistical and mathematical methods to the analysis of economic data, with a purpose of giving empirical content to economic theories and verifying them or refuting them. PREREQ: ECON 2201, ECON 2202, AND MATH 1153.

**ECON 5591-5592 Economic Seminar 1-3 credits.** May be repeated.

**ECON 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**ECON 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ECON 6610 Applied Economics 3 credits.** Applied principles and techniques of analysis in micro and macro economics. Cross-listed as MBA 6610.

**ECON 6620 Seminar: Philosophy of Social Science 3 credits.** The application of mathematical and scientific methods to the study of social, economic, and political life will be considered through the reading of certain seminal writings. Attention will be given to the fundamental assumptions about the nature of scientific rationality. Required of D.A. students.

**ECON 6621 Seminar: Interdisciplinary Topics in Social Sciences 3 credits.** Examination of selected topics in the social sciences from the analytic orientations and perspectives common and peculiar to the disciplines of political science, economics and sociology. Required of D.A. students.

**ECON 6650 Thesis 1-6 credits.** The student will do research of an economic nature supervised by a faculty member in the Economics

Department. The research project will be of an interdisciplinary nature and the student will be supervised by faculty members from the department(s) involved as well as from the Economics Department. Graded S/U.

**ECON 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Finance Graduate Courses

**FIN 5505 Advanced Corporate Financial Management I 3 credits.** Evaluation and analysis for financial decision making. Asset valuation, cost of capital, leasing. Dividend policy, mergers, and acquisitions, c IPOs, asset restructuring and additional topics related to firms' financial decisions, and performance. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: FIN 3315 or MBA 6615.

**FIN 5531 Financial Modeling 3 credits.** Survey of integrative modeling with special applications of computer models. Includes topics from cash flow forecasting, mergers and acquisition, financial structure, and capital budgeting.

**FIN 5545 Real Estate Finance 3 credits.** Principles and methods of valuing business and residential land and improvements; analysis of sources and methods used in the financing of construction and development.

**FIN 5548 Financial Management of Depository Institutions 3 credits.** An analysis of the managerial issues which affect the financial performance of depository institutions such as capital adequacy, liquidity and asset/liability management techniques, profitability analysis, funding and investment decisions.

**FIN 5551 Student -Managed Investment Fund I 3 credits.** Management of the D.A. Davidson Student-Managed Investment Fund. Students act as financial analysts. Provides students with real-world knowledge and judgment crucial to sound investing. Students may apply either FIN 5551 or FIN 5552, but not both, toward their electives.

**FIN 5552 Student-Managed Investment Fund II 3 credits.** Management of the D.A. Davidson Student-Managed Investment Fund. Students act as financial analysts. Emphasis on security selection, portfolio management, and creation of an annual report. Student can apply either FIN 5551 or FIN

5552, but not both, toward their electives.

**FIN 5564 Entrepreneurial Finance 3 credits.** This course develops financial and managerial skills important to students who are interested in pursuing careers in an entrepreneurial setting. Topics include: financial issues unique to entrepreneurial firms, development of skills with wide application in entrepreneurial situations, and financing sources available to entrepreneurial companies.

**FIN 5575 International Corporate Finance 3 credits.** Study of financing investment projects abroad including the tapping of overseas capital markets, financing export transactions, hedging foreign exchange risks, and the control alternatives of international business.

**FIN 5578 Investments 3 credits.** Fundamental principles in the risk-return valuation of financial instruments. Topics include the institutional framework in which securities are traded, modern portfolio theory, asset pricing, derivatives, and portfolio management.

**FIN 5580 Financial Analysis and Performance 3 credits.** Modeling, measuring and interpreting financial and strategic management of firms for decision making from a short- and long-term perspective. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: FIN 3315 or MBA 6615

**FIN 5584 Options and Futures 3 credits.** Examination of the pricing and use of options, financial futures, swaps, and other derivative securities.

**FIN 5591 Seminar in Finance 3 credits.** Reading, discussion and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor's permission for up to 6 credits.

**FIN 5592 Special Problems in Finance 2-3 credits.** Research and reports on selected problems or topics in finance. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

**FIN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**FIN 6699 1-6 credits.** This is an experimental course. The course title and number of credits

are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Health Care Administration Graduate Courses

(See pages 116-117 for HCA courses)

## Management Graduate Courses

**MGT 5510 Entrepreneurship 3 credits.** Developing new business ideas, initiating a new enterprise, bringing new technology to the market; applying sound business practices involving management, marketing, accounting, finance and informatics to accommodate changing market opportunities.

**MGT 5520 Native American Organizational Systems 3 credits.** Analysis of factors and dimensions to be considered in the structure and design of contemporary Native American organizations. Comparison of contemporary Native organizational systems with traditional Native organizational approaches and contemporary non-Native organizations. Specific graduate level activities and/or performances will be identified in the course syllabus.

**MGT 5522 Native American Enterprise 3 credits.** Approaches, strategies, and models utilized in developing tribally-owned and privately-owned Native American businesses across the U.S. and Canada. Analysis of social, economic, and environmental contingency factors that contribute to successful establishment of Native American businesses. Specific graduate level activities and/or performances will be identified in the course syllabus.

**MGT 5530 Advanced Operations/Production Management 3 credits.** Study of problems on line management in organizations. Major sections include strategy, process analysis, person power planning, inventories, scheduling, and control of operations. Emphasizes both behavioral and technical aspects of problem solving in the area of operations management.

**MGT 5534 Productivity and Quality 3 credits.** Study of the factors involved in an organization's productivity and quality of product or service.

**MGT 5541 Organizational Behavior 3 credits.** Case study approach designed to encourage independent thought in the application of behavioral theories and concepts of organizational problems. Emphasis on integrating theoretical concepts with patterns of organizational direction, control, communications and deci-

sion-making. PREREQ: MGT 3312 or MBA 6612.

**MGT 5550 Manufacturing Strategy 3 credits.** Study of the various production alternatives as critical factors in a company's competitive strategies.

**MGT 5561 Business Law 3 credits.** Traditional business law. Topics include the law of contracts, sales, agencies, business organizations, and personal property and bailments. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**MGT 5562 Issues in Business and Society 3 credits.** Seminar course designed to focus thinking on critical issues facing managers in making decision choices regarding employees and other stakeholder groups, the community, and the environment.

**MGT 5563 Business Law Concepts 1 credit.** Legal and regulatory environment of business. Topics include: tort law, product liability, contracts, sales of goods, employment law, securities regulation, and bankruptcy.

**MGT 5565 International Business 3 credits.** Special emphasis on managerial functions and critical elements of the management process in a firm operating under foreign economic, technological, political, social and cultural environments.

**MGT 5573 Human Resource Management 3 credits.** Introduction to the methodology of employee selection, employment and development; personnel supervision and management; financial compensation; job analysis; behavioral tools and techniques employed to deal with personnel problems and contemporary problems of person power management.

**MGT 5574 Advanced Human Resource Management 3 credits.** In-depth study of selected personnel/human resources management topics, including employee selection, performance evaluation, and compensation administration. PREREQ: MGT 4473 or MGT 5573, and MGT 2217

**MGT 5580 Labor and Employment Law 3 credits.** Study of state and federal laws, domestic and foreign, governing employment relationships, including labor-management relations, discrimination and employee rights, work place safety, compensation and benefits, and related topics.

**MGT 5582 Project Management 3 credits.** Philosophy and tools of project management focusing on applied methodologies. Addresses project scope, breakdown structure, schedules,

and closure following professionally accepted industry standards.

**MGT 5583 Industrial Relations 3 credits.** Integrated study of principles and practices of collective bargaining and industrial relations. Discussion of methods and techniques in dealing with labor-management problems arising out of contract negotiations and administrations.

**MGT 5591 Seminar in Management and Organization 3 credits.** Reading, discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor's permission for up to 6 credits. May be graded S/U.

**MGT 5592 Special Problems in Management and Organization 2-3 credits.** Research and reports on selected problems or topics in management and organization. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

**MGT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MGT 6675 Environmental Management 3 credits.** The study of environmental issues in managerial decision making. Total cost/benefit analysis, political ramifications, publicity, ethical considerations, global issues. Analysis of various business functions and their impact on short- and long-term concerns.

**MGT 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Marketing Graduate Courses

**MKTG 5505 Personal Selling and Sales Force Management 3 credits.** Attention given to product features, buying motives, selling points, principles and practices of selling, psychology of salesmanship, sales problems, personal requirements, opportunities. Determination of the amount and allocation of personal sales effort to be applied to the market and methods of organizing, evaluating, and controlling this effort. Specific, evaluated gradu-

ate-level activities and/or performances are identified in the course syllabus. PREREQ: MKTG 2225 or MBA 6613

**MKTG 5510 Entrepreneurship 3 credits.** Developing new business ideas, initiating a new enterprise, bringing new technology to the marketing; applying sound business practices involving management, marketing, accounting, finance and INFO to accommodate changing market opportunities. Specific, evaluate graduate-level activities and/or performances are identified in the course syllabus.

**MKTG 5521 Services Marketing 3 credits.** Examines the development, promotion, and management of services. Topics covered include strategic planning, delivery channels and promotional challenges inherent to services.

**MKTG 5526 Marketing Research 3 credits.** Evaluation and study of providing relevant marketing information to management. Emphasizes problem formulation, consideration of data sources, means of acquiring information, sampling, interpretation of results.

**MKTG 5527 Consumer Behavior 3 credits.** In-depth analysis of the internal and external influences of consumer behavior and decision-making, including learning, perception, cultural values, group influences and a range of psychological and sociological concepts. This advanced study of consumer behavior will include analysis of a consumer dataset, as well as case studies highlighting concepts under investigation, and a consumer behavior audit. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: MKTG 2225 or MBA 6613

**MKTG 5528 Integrated Brand Promotion 3 credits.** Planning and execution of advertising, sales promotion, and public relations programs developed into an integrated brand promotion program. Includes development of Integrated Brand Promotion plan. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: MKTG 2225 or MBA 6613

**MKTG 5532 New Product Management 3 credits.** Analysis of new product ideas: screening, business analysis, prototype development, market testing, and commercialization of goods and services. Includes diffusion of innovation issues in consumer and industrial markets.

**MKTG 5565 International Marketing 3 credits.** Comparative marketing arrangements are examined. Covers factors which need to be recognized by international marketing managers in analyzing markets, covering foreign

operations, and in assessing economic, cultural, and political aspects of international markets.

**MKTG 5575 Competitive Intelligence 3 credits.** How to use competitive intelligence to gain strategic advantage. Includes understanding of information gathering techniques, the conversion of information into intelligence, various analysis methodologies, and intelligence dissemination processes.

**MKTG 5580 Marketing on the Internet 3 credits.** Understanding and using the Internet for marketing communications. Includes evaluating current sites, developing skills for authoring HTML pages, and developing an Internet marketing strategy and site for an organization.

**MKTG 5591 Seminar in Marketing 3 credits.** Reading discussion, and preparation of reports on selected topics. Restricted to senior and graduate students in business who have the consent of the instructor. May be repeated with instructor's permission for up to 6 credits.

**MKTG 5592 Special Problems in Marketing 2-3 credits.** Research and reports on selected problems or topics in marketing. Restricted to senior and graduate students in business who have the consent of the Dean. May be repeated under a different title for a maximum of 9 credits with the permission of the major advisor and the Dean.

**MKTG 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MKTG 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## MBA Graduate Courses

**MBA 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MBA 6610 Applied Economics 3 credits.** Applied principles and techniques of analysis in micro and macro economics. Cross-listed

with ECON 6610. Include GC, MBA.

**MBA 6611 Financial Reporting and Managerial Accounting 3 credits.** Integrates study of accounting concepts with understanding of financial reports. Use of accounting information in managerial decision making and control. Include GC, MBA.

**MBA 6612 Human Behavior in Organizations 3 credits.** Study of human behavior in organizations. Decision making and problem solving, interpersonal relations and communications, and negotiations. Include GC, MBA.

**MBA 6613 Marketing 3 credits.** Analysis of forces producing changes in general business conditions. Principles of market driven decision making. Application to marketing management decisions and marketing strategy. Include GC, MBA.

**MBA 6614 Operations Management 3 credits.** Decision making techniques for analysis of operational systems. Topics include operations/production planning, process analysis, project planning and control, and quality control. Include GC, MBA.

**MBA 6615 Finance 3 credits.** Study of the allocation of scarce resources, domestic and international financial management. Include GC, MBA.

**MBA 6616 Business Policy 3 credits.** Study of strategic decision making in a firm and its relation to the functional area of a business. Techniques of industry analysis. Study of ethics/social responsibility in the business organization. Include GC, MBA.

**MBA 6620 Quantitative Information for Business Decisions 3 credits.** Development and use of financial and non-financial information to support business analysis and decision making. Develops and applies analytical tools and framework through readings and case analysis. Include MBA.

**MBA 6621 Managerial Decision Making 3 credits.** Study of the environment in which managerial decisions are made. Includes issues of organizational change, leadership, values, regulation, corporate culture and process, and organizational diversity. Include MBA.

**MBA 6622 Finance in an Integrated Environment 3 credits.** Integrated analysis of a firm's decisions with emphasis on the financial aspects of these decisions. Include MBA.

**MBA 6623 Marketing in an Integrated Environment 3 credits.** Integrated analysis of a firm's decisions with emphasis on the marketing and distribution aspects of these decisions

over time. Analysis of decisions involving product development and market strategy. Include MBA.

**MBA 6626 Business Policy/Strategy in a Global Environment 3 credits.** Strategic management of the firm, with emphasis on industry analysis, strategy formulation, implementation, cultural diversity in a global environment. Include MBA.

**MBA 6628 Business Applications 3 credits.** Student teams participate in applied business projects or manage a simulated company's operations. Focus is on enhancing broad-based, integrated understanding of complex business operations and applying discipline-based skills developed in other MBA courses. This course must be taken in the last semester in which a student is enrolled. If a student's last semester is summer, this course should be taken the preceding spring. PREREQ: MBA 6623; PREREQ or COREQ: MBA 6626

**MBA 6629 Competitive Advantage Along the Value Chain and Negotiations 3 credits.** The first module of this course is directed at improving firm performance across competitive priorities thus creating value for the firm—through developing, managing, and enabling the elements of the value chain. Integration within a firm and across the supply chain will be the constant theme. Students will investigate the approaches firms are using to better manage the business processes they use to acquire, transform, and move materials, services, information, and capital. The Negotiations module will introduce the concepts of negotiation with emphasis on building students' skills in multiple phases of negotiation. Applies prescriptive and descriptive negotiation and decision making theory to dyadic and multiparty negotiations to analyze collective decision-making, deal-making, and dispute resolution in business and non-business contexts. Significant emphasis on experiential exercises and skill-building activities.

**MBA 6637 Business Analytics and Strategic Business/ IT Alignment 3 credits.** The first module of this course provides an introduction to the field of business analytics, which has been defined as the extensive use of data, statistical and quantitative analysis, descriptive and predictive models, and fact-based management to drive business decisions and actions. The development and use of data warehouses and data marts to support business analytics is discussed. The use of key performance indicators, dashboards, and scorecards for performance management and opportunity assessment are addressed. Text and web mining are discussed, and the application of selected data mining techniques to business decision making situation is illustrated. Students actively partic-

ipate in the delivery of this course through case and project presentations. The strategic business-IT alignment module provides an overview of the most widely adopted IT governance and management frameworks and describes specific IT management processes and decisions that require substantive business involvement required to achieve strategic business alignment.

**MBA 6639 MBA Paper 3 credits.** May be repeated. Include MBA.

**MBA 6650 Thesis 1-6 credits.** Graded S/U. May be repeated. Include MBA.

**MBA 6692 Special Problems in Business - Administration 2-3 credits.** Research readings or reports on selected problems and topics. May be repeated under a different title for a maximum of 6 hours credit. Requires the consent of the instructor. Include MBA.

**MBA 6693 Graduate Internship 1-3 credits.** A program of significant business experience coordinated by the faculty to provide broad exposure to issues. May be repeated for up to 3 credits. Graded S/U. Include MBA.

**MBA 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

# College of Education

Deborah L. Hedeem, Ph.D., Dean  
Associate Dean

## Conceptual Framework

The College of Education conceptual framework guides the curriculum, instruction, and assessment for all initial and advanced professional education programs in the College of Education. This framework comprises a standards-driven, learner-centered, assessment-informed, collaborative approach through which teachers, administrators and other school personnel develop the knowledge, dispositions, and skills deemed essential for effective professionals.

**Standards for Advanced Professionals:** The College of Education Standards for Advanced Professionals address the knowledge, dispositions, and skills required for school personnel completing initial and advanced/administrative preparation. These standards present the advanced professional as reflective, inquiry-oriented, cognizant of cultural diversity and individual differences, able to communicate effectively, aware of the research in his/her field, and able to assume leadership responsibilities.

**Professional Studies and Research:** The professional accesses, reads, and interprets the literature in his/her field and applies information from the research to professional practice.

**Theoretical Foundations:** The professional understands the theoretical foundations of the profession and applies knowledge of theoretical foundations to professional practice.

**Professional Practice:** The professional recognizes and addresses current issues in the profession, solves problems encountered in professional practice, and reflects on his/her professional practice and its effects.

**Exceptionality and Diversity:** The professional addresses issues of exceptionality and cultural diversity in his/her professional practice.

**Technology:** The professional uses technology in his/her professional practice.

**Assessment:** The professional uses a variety of formal and informal assessments to evaluate his/her performance and the performance of others.

**Management of the Work Environment:** The professional creates and maintains a safe and productive work environment.

**Leadership:** The professional assumes leadership roles in the profession and shares knowledge and expertise with others in the profession and community.

**Interpersonal Skills:** The professional fosters and maintains positive work relationships and models effective oral and written communication.

**Personal Characteristics:** The professional displays the beliefs, values, and behaviors that guide the ethical dimensions of professional practice.

## Organization of the College of Education

To facilitate student access to advising and other academic support services, the College of Education is organized into four departments: the Department School Psychology and of Educational Leadership, the Department of Educational Foundations, the Department of School Psychology, Literacy, and Special Education, and the Department of Sport Science and Physical Education. Program descriptions, admission requirements, and program standards for each department are described in the following sections. However, the following are common elements to all master's programs within the College of Education. Requirements for doctoral programs and educational specialists are listed with those programs.

## Admission to College of Education Master's Programs

At the time of application, the applicant must specify a single Master of Education program area to which admission is requested (i.e., Educational Administration, Elementary Education, Secondary Education, Literacy, Instructional Technology, K-12 Education/Music Education Emphasis, Child and Family Studies, School Psychology, Special Education, Human Exceptionality, or Physical Education/Athletic Administration). Should a student wish to change his/her program area, he/she must reapply to the Graduate School and to the new program area for admission.

The following are required for admission by all Master of Education program areas:

- The student must apply to, and meet all criteria for, admission to the Graduate School.
- Bachelor's degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.
- Fulfill any additional requirements of the proposed Master's program area (e.g., successful completion of an admission interview with the Master's program faculty).

### Program Requirements:

No more than 9 credits of unclassified graduate coursework may be applied to the student's program. The student is responsible for meeting the requirements of, and being admitted to, the program as a classified student before taking additional coursework.

Master of Education students are strongly encouraged to sequence the Master's core courses as follows:

EDUC 6601 within the first 9 credit hours  
EDUC 6602 within the first 18 credit hours  
EDUC 6610 within the first 24 credit hours

Additional program requirements specific to the Master's of Education and the Master's of Physical Education are listed below with each program description.

### Retention in College of Education Graduate Programs:

Students must meet university, college, and department standards for grades, residency, time limits, and continuing registration (refer to the General Information section at the front of the Graduate Catalog, and program descriptions that follow).

## Department of School Psychology and Educational Leadership

Chair: Neill

Professors: Frantz, Watkins

Associate Professors: Neill

Assistant Professor: Bocanegra, Fan, Hansmann, Mortensen, Storie

Senior Lecturer: Thomas

## Doctor of Education in Educational Leadership

The Doctor of Education in Educational Leadership is the College of Education's highest degree awarded in recognition of academic preparation for professional practice in educational leadership. Because students enter the program with substantial knowledge, skills, abilities, and experience, the Doctor of Educational Leadership seeks to support the development of education professionals as scholars, researchers, and practitioners. The Doctor in Educational Leadership does not lead to certification as a superintendent (see Educational Specialist in Educational Leadership below).

As scholars, Doctors of Educational Leadership demonstrate content mastery. As researchers, Doctors of Educational in Educational Leadership demonstrate the application of content mastery through scholarly contributions reflecting the necessary dispositions and skills to successfully conduct meaningful education research. Finally, through guided practicum experiences, Doctors of Education in Educational Leadership demonstrate their ability to use acquired knowledge, dispositions and skills as scholars and researchers in applied educational leadership settings.

### Doctor of Education in Educational Leadership Standards

The Doctor of Education in Educational Leadership is aligned with two sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described in the previous section), and the Doctor of Education in Educational Leadership Standards.

**Doctor of Education in Educational Leadership Standards:** The Doctor of Education in Educational Leadership Standards address the knowledge, dispositions, skills and strategies that frame successful educational leadership.

These standards include: Vision and Strategic Leadership, Instructional Leadership, Management and Organizational Leadership, Community Partnerships, Professional and Ethical Leadership, and Governance and Legal Leadership.

### Admission Requirements

At the time of application, the applicant must specify a single area of concentration (i.e., preK-12 Educational Administration or Higher Education Administration). Should a student wish to change his or her area of concentration, he or she must reapply to the Graduate School for readmission to the doctoral program in Educational Leadership.

For admission to the Doctor of Education in Educational Leadership, the student must apply to and meet criteria for admission to the Graduate School. The applicant must also meet the following minimum admission requirements:

- A master's degree in education or a related field from a regionally accredited institution.
- A minimum of a 3.5 grade point average at the graduate level course work.
- Letter of interest, stating why the applicant is interested in the Ed.D. (specify concentration)
- Two letters of recommendation from persons who can address wither the academic or professional/leadership qualifications of the applicant.
- A minimum score at the 40th percentile on the Miller Analogies Test (MAT) or on either the Verbal or Analytical Writing section on the Graduate Record Examination (GRE)
- A current resume
- Successful completion of an interview with faculty in the area of proposed concentration area.
- Successful performance on an on-site writing sample completed in conjunction with the interview.

International students whose native language is not English must comply with Graduate School admissions requirements. Additional language-based course work may be required of international students whose native language is not English.

### General Requirements

The Doctor of Education in Educational Leadership with emphasis in Higher Education Administration requires a minimum of 64 credits including:

- 18 credits in the doctoral core
- 27 credits in the area of emphasis, including 3 credits of electives

- 9 credits of cognate courses (5500) level and above)
- 10 dissertation credits

The Doctor of Education in Educational Leadership with emphasis in K-12 Education Administration requires a minimum of 61 credits:

- 18 credits in the doctoral core
- 24 credits in the area of emphasis, including a minimum of 3 practicum credits
- 9 credits of cognate courses (5500 level and above)
- 10 dissertation credits

The Educational Leadership program defines cognate study as a planned set of courses, 5500-level and above, outside the student's concentration area, taken within the College of Education or outside it. Cognate study is to be determined prior to cognate course enrollment, in consultation with the student's advisor.

Candidates seeking the Idaho Department of Education endorsement for superintendents must complete all Idaho State Board of Education requirements. Most candidates pursuing the Doctor of Education in Education Administration have ongoing professional school administration experience.

Of the 61/64 semester credits required for the Ed.D. in Educational Leadership, at least 30 semester credits of course work must be taken at Idaho State University. Dissertation credits may not be transferred from another institution.

Students are required to maintain continuous enrollment in at least one semester credit of work each semester (including summers) from matriculation to completion of the program including completion of the dissertation and oral defense. Failure to maintain continuous enrollment can result in dismissal from the program.

Students must maintain a 3.2 grade point average to qualify for the Doctor of Education. Two grades of C+ or below during the entire program will result in admissions status review, with the possibility of dismissal.

### Final Program of Study

Tentative programs of study may be drafted upon program entry with the help of the student's advisor. The final program of study must be submitted with the Comprehensive Examination Notice of Intent and routed through the student's advisor, the Department, and the Dean of the College of Education. Upon submission of the final program of study to the Dean of the Graduate School, the Dissertation Committee, including the Graduate Faculty Representative, is established and the

student is advanced to candidacy.

## Comprehensive Examination

The comprehensive examination is a significant aspect of the student's total doctoral program. The written examination is normally administered during or immediately following the last semester in which the student is engaged in formal course work.

The comprehensive examination has, as its overall objective, the assessment of the student's knowledge, understanding, and skills as they relate to the field of educational leadership. Examination guidelines are provided in the Ed.D. Handbook.

## Dissertation and Oral Defense

Upon successful completion of the comprehensive examination and approval of the dissertation proposal by his or her Dissertation Committee, the student is authorized to complete the dissertation in preparation for the final oral defense.

## Required Courses

The Doctor of Education in Educational Leadership requires a minimum of 61/66 semester credits of course work. Both the Education Administration and Higher Education Administration doctoral degrees require 18 credits in the doctoral core. A minimum of 24 credits in the area of concentration are required for the Ed.D. in Education Administration. The Doctor of Education in Higher Education Administration requires 24 credits in the area of concentration and 3 elective credits of electives. Both emphases require 9 credits of cognate study (determined in consultation with the student's advisor and concentration area) at the graduate level (5500 or above), and at least 10 dissertation credits. The student may select from the following areas of emphasis: Education Administration or Higher Education Administration.

### Doctoral Core (18 credits)

EDLP 7700 Change Strategies (A&B)	3 cr
EDLP 7701 Advanced Statistics in Or approved equivalent or Alternative	3 cr
EDLP 7703 Leadership & Organizational Development	3 cr
EDLP 7705 Advanced Research Design (qualitative)	3 cr
EDLP 7706 Advanced Research Design (quantitative)	3 cr
EDLP 8800 Seminar (A&B)	1 cr
EDLP 8801 Capstone Seminar (A)	1 cr
EDLP 8830 Comprehensive Examination#	1 cr
#Requires completion of all core, concentration, and cognate courses	

### Area of Concentration: (Students select one of the following emphasis areas)

#### Educational Administration (24 credits)

EDLA 6643 School Personnel Administration	3 cr
EDLA 6662 Superintendency	3 cr
EDLA 6664 Public School Monetary and Business Policy	3 cr
EDLA 7720 Legal and Ethical issues in Education Organizations	3 cr
EDLA 7721 Educational Policy and Governance	3 cr
EDLA 7723 Educational Planning and Evaluation	3 cr
EDLA 7724 Data-Informed Instructional Leadership	3 cr
EDLA 7737 Practicum	6 cr

#### Higher Education Administration Concentration Courses (24 credits)

EDLH 7730 History and Philosophy of Higher Education	3 cr
EDLH 7731 Law in Higher Education	3 cr
EDLH 7732 College and University Curriculum	3 cr
EDLH 7733 Finance in Higher Education	3 cr
EDLH 7734 Issues/Trends in Higher Education	3 cr
EDLH 7736 Instructional Leadership and Faculty Affairs in Higher Education	3 cr
EDLH 7737 Practicum	3 cr
EDLH 7738 Assessment and Accountability in Higher Education	3 cr

#### Higher Education Administration Electives (3 credits)

COUN 6680 Foundations of Student Affairs	3 cr
EDLA 6630 Education Equity and Ethics	3 cr
EDLC 7730 The Modern Community College	3 cr
EDLH 7735 Government and External Relations	3 cr
EDLH 7739 Higher Education Leadership: Strategies and Enrollment Planning, Governance, and Institutional Research	3 cr

All Doctor of Education students must complete the following cognate and dissertation requirements.

#### Cognate Study (9 credits)

Must be graduate level credits (5500 or above) determined prior to cognate study enrollment in consultation with the student's advisor and confirmed by concentration area review.

#### Dissertation (10 credits)

EDLP 8850 Dissertation*	10 cr
*Requires successful completion of EDLP 8830	

## Educational Specialist in School Psychology or Special Education

The Ed.S. program is designed for persons who have completed a master's degree and wish to increase their skills for advanced certification requirements or other professional objectives. The Ed.S. level is the minimum

preparation for school psychologists and directors of special education in most states. Further, the Ed.S. has become the intermediate degree for many professionals who supervise master's degree level personnel.

## Goals

The School Psychologist is a professional operating within the school system, collaborating with professional educators, students, parents, and the community-at-large to improve psychosocial and academic success of all students. Primary goals of the program are grounded in research-based best practices promulgated by the National Association of School Psychologists Standards for Training and Field Placement programs (NASP, July, 2000). These standards represent an integrated and comprehensive model by which program content and experiences provided to school psychologists in training may be effectively organized and provided. These goals are:

- 1. Diagnostic Goal.** The school psychologist will select, administer and interpret the results of various psychological instruments designed to evaluate a broad spectrum of human traits and characteristics, and make specific recommendations to provide insight and direction in dealing with the problem situation.
- 2. Intervention Goal.** The school psychologist will provide direct service to students in such areas as academic skills and performance, life and social skills, social-emotional and behavioral disorders and conditions.
- 3. Consultation Goal.** The school psychologist will consult with administrators, teachers, other professionals, and parents, regarding a wide variety of psychosocial, behavioral, academic and social-emotional problems affecting educational performance and life success.
- 4. Research Goal.** The school psychologist will gather and analyze data in a systematic way utilizing experimental, developmental psychology, and statistical skills and competencies for contributing to existing knowledge in his or her field.
- 5. Problem Solving Goal.** The school psychologist will act as a problem-solver, trained in using systematic methodologies of identifying and defining problems/concerns, determining best practice interventions and applying them, and using data-based decision-making to ascertain the impact upon presenting problems and concerns of the student.

## Admission Requirements

Candidates for the Educational Specialist in School Psychology or Special Education degree must meet all college and university requirements for admission and retention. The

student must hold a master's degree in the area of the chosen Ed.S. major. Master's degree majors in a closely related field may be approved upon recommendation of the selection committee.

### General Requirements

The student must complete 64 credits in Special Education or 66 credits in School Psychology, including the master's degree and a specialist paper. All post-master's degree course work must be taken from members of the Idaho State University graduate faculty or be approved in advance by the graduate faculty. A minimum grade point average of 3.0 (B) is required over all course work taken in the Ed.S. program. An oral examination covering the specialist paper, portfolio, and/or relevant topics is required.

### Time Requirement

All requirements for the Ed.S. must be completed within a period of five years from the date of completion of the first post-master's degree course to be applied toward the degree.

### Specific Requirements:

#### School Psychology Major

The Ed.S. in School Psychology is designed to be consistent with the minimal entry-level requirements in the field of school psychology as presented by the National Association of School Psychologists. A master's degree as a school psychological examiner or its equivalent is required. The Ed.S. is viewed as a practitioner's degree and will focus on applied activities.

#### Course Requirements

SCPY 6615 Advanced Child Psychology	3 cr
SCPY 6616 Psychological Assessment	3 cr
SCPY 6652 Specialist Paper	1-3 cr
SCPY 6662 Consultation in the Schools	3 cr
SCPY 6663 Clinical and Diagnostic Interviewing In Schools	3 cr
SCPY 6664 Neurocognition and Learning	3 cr
SCPY 6665 Clinical School Psychology	3 cr
SCPY 6669 Advanced Practicum in School Psychology	6 cr
SCPY 7759 Ed.S. Internship	6 cr

#### Additional Requirements

Students will also prepare a School Psychology Portfolio. The Portfolio will be presented and defended in the Oral Examination.

#### Special Education Major

The following course work is required:

- A minimum of 21 credits in special education course work at or above the 6600 level (including administration of special education), of which 6 credits are in the supervision of clinical practicum in special education and 3 credits are in internship in special education.
- Behavioral sciences and/or education/

school psychology, 9 credits.

- Educational Specialist Paper in Special Education, SPED 6652, 1-3 credits. The number of credits will be determined by the advisor and student.

## Educational Specialist in Educational Administration

The Education Specialist program represents advanced work in education administration leading to superintendent certification. Applicants will enter the program after completion of the master's degree in Educational Administration. Completion of the Education Specialist program will require a minimum of 31 semester credit hours beyond the master's degree with an accumulated GPA of 3.5 during the specialist program. Students with a master's degree in areas other than administration may be required to take additional work equivalent to that required in the administration degree and must meet initial principal certification.

### EdS Educational Leadership Standards

The Education Specialist in Educational Administration curriculum is aligned with three separate but related sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), the Interstate School Leaders Licensure Consortium for School Leaders, and the Idaho State Department of Education's requirements for an Administrator Certificate with the Superintendent endorsement. All sets of standards aligned.

**Interstate School Leaders Licensure Consortium:** Codified in 1996, these standards were drafted by personnel from 24 state education agencies and professional associations. These standards represent best practice model standards for school leaders. They represent a common core of knowledge, dispositions and performance skills developed to link leadership more forcefully to productive schools and enhance educational outcomes. The standards include: Facilitating a Vision, School Culture & Instructional Program, Management, Collaboration with Families & Communities, Integrity, Ethics & Fairness, and Political, Social, Economic, Legal and Cultural Context.

**Idaho State Department of Education Administrator Certificate with the Superintendent Endorsement:** These standards address competencies determined by the State of Idaho

to be necessary for effective school (district level) leadership (i.e., the superintendency). These standards include: Advanced School Finance, Grant Writing & Revenue Generation, Policy Development & School Board Relations, District Wide Support Services, Employment Practices & Negotiations, Educational Product Marketing & Community Relations, and Special Services & Federal Programs. Superintendent level certification endorsement can be a student outcome through this curricular/standards alignment.

### Admission Requirements

For admission to the Educational Specialist program the student must apply to, and meet all criteria for, admission to the Graduate School. The student must meet the following requirements:

- A master's degree in educational administration with a minimum 3.5 GPA at the graduate level from an accredited institution
- A minimum of five years of successful teaching and/or administration experience in preK-12 schools, including at least one year of successful administrative experience.
- A letter of interest stating the applicant's interest in the Ed.S. program.
- Two letters of recommendation, one letter must be from a supervisor attesting to the applicant's district leadership potential.
- A current resume.
- A minimum score at the 40th percentile the Miller Analogies Test (MAT) or on either the Verbal or Analytical Writing sections of the Graduate Record Examination (GRE).

A student who does not meet these requirements upon application may be admitted as Classified w/PR, and must complete all requirements for admission during the first semester of enrollment. Exceptions may be petitioned to a committee of Educational Leadership faculty and the Department Chair.

### General Requirements

The Education Specialist program requires a minimum of 31 credits, as listed. Students must complete the minimum semester hours identified in each area. The courses used to meet the minimum requirements may be taken during the master's degree or educational specialist program. In general, the program of study for the Education Specialist in Education Administration is as follows:

#### Pre-Requisite

EDUC 6610 Applied Educational Statistics 3 cr  
The student must have successfully completed a master's level education statistics course within five (5) years prior being accepted into the program or during the first semester of coursework in the Ed.S. program for which credit will NOT be counted toward degree.

### Education Administrative Concentration Courses (21 credits)

EDLA 6643 School Personnel Administration	3 cr
EDLA 6662 Superintendency	3 cr
EDLA 6664 Public School Monetary and Business Policy	3 cr
EDLA 7720 Legal and Ethical issues in Education Organizations	3 cr
EDLA 7721 Educational Policy and Governance	3 cr
EDLA 7723 Educational Planning and Evaluation	3 cr
EDLA 7724 Data-Informed Instructional Leadership	3 cr

### Electives (6 credits)

Students may select from courses offered in the doctoral program or as determined in consultation with their academic advisor.

### Field Experience (4 credit)

EDLA 7737 Practicum	3 cr
EDLA 7751 Case Study	1 cr

## Master of Education with Educational Administration Emphasis

The curriculum in the Masters of Education with Educational Leadership Emphasis is designed to strengthen the student's understanding, knowledge, and skills in Core Professional Studies and Educational Leadership as they relate to building level leadership.

### Master of Education Educational Administration Standards

The Masters of Education with Educational Leadership Emphasis curriculum is aligned with three separate but related sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), the Interstate School Leaders Licensure Consortium (Standards for School Leaders described previously), and the Idaho State Department of Education Principal Certification Standards. All three sets of standards are aligned.

**Idaho State Principal Certification Standards:** These standards address competencies determined by the State of Idaho to be necessary for effective school leadership (i.e., the principal). Standards must be met through graduate level course work in school administration for the preparation of school principals at an accredited college or university. The standards include: Vision & Strategic Leadership, Family & Community Partnerships, Professional & Ethical Leadership, and Governance & Legal Leadership. Idaho principal certification can be a student outcome through this curricular/standard alignment.

### Admission Requirements

For admission to the Master of Education in Education Administration, the student must apply to and meet all criteria for admission to the Graduate School. The applicant must also meet the following minimum admission requirements:

- A bachelor's degree from an accredited university; usually that degree is in an education-related field
- Minimum of one year of pre-K-12 teaching experience or documentation of equivalent experience.
- A minimum GPA of 3.0 for all upper division credits taken at the undergraduate level.
- A minimum score at the 35th percentile on the Miller Analogies Test (MAT) or either the Verbal or Analytical Writing section on the Graduate Record Examination (GRE).
- A letter of interest, stating the applicant's interest in the program.
- Two letters of recommendation, one letter must be from a supervisor, who can address the applicant's academic or professional leadership qualities and potential.

The Master of Education with Educational Administration Emphasis currently requires a minimum of 31 credits as listed below.

Students seeking Idaho principal certification must meet requirements of the State Board of Education. It is recommended that students pursuing the Master of Education with Educational Administration Emphasis have professional experience in an educational context.

### Required Core Professional Studies (9 credits)

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

### Educational Administration Concentration Courses (18 credits)

EDLA 6608 Organizational Leadership and Education Administration	3 cr
EDLA 6609 Principalship	3 cr
EDLA 6612 School Law, Governance and Ethics	3 cr
EDLA 6614 Curriculum, Instruction, and Assessment	3 cr
EDLA 6615 Supervision and Instructional Leadership	3 cr
EDLA 6642 School Culture and Community	3 cr

### Field Experiences

EDLA 6651 Case Study	1 cr
EDLA 6657 Internship *#	1-3 cr

\*Students will complete a 520 Internship; hours are specified at the elementary, middle school, and high school levels. Minimum of 3 credits required. Three (3) credits of Internship is required in the first semester of enrollment in the Internship; thereafter, at least one (1) credit per semester continuous enrollment until completed.

#Students must complete two (2) of the three (3) courses as a prerequisite for admission to EDLA 6657 (Internship)

## Master of Education in Human Exceptionality

The Master of Education in Human Exceptionality is designed to strengthen the student's understandings, knowledge, and skills in three major areas—Professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to human exceptionality. The student may select one of two options for the Master's degree in Human Exceptionality:

- **Special Education**
  - **School Psychological Examiner**
1. The special educator will understand the field as an evolving and changing discipline.
  2. The special educator will know and demonstrate respect for his/her students first as unique human beings and contributing members of the community.
  3. The special educator will understand the appropriate use of various types of assessments.
  4. The special educator will adapt general curriculum by using a variety of instructional strategies and positive behavior supports.
  5. The special educator will collaborate with colleagues, families, and agencies to develop inclusive communities.

### Admission Requirements

Applicants for the Master of Education in Human Exceptionality must apply to, and meet all criteria for, admission to the Graduate School and all college requirements for admission and retention.

Individuals applying for admission to the Master of Education program in Human Exceptionality must meet the following admission requirements:

- Bachelor's degree from a regionally accredited college or university in the United States, or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

### General Requirements

Students completing a Master of Education in Human Exceptionality must complete both a written comprehensive examination and an oral examination.

**Professional Studies Core**

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

**Additional Requirements for the Special Education Option**

The student must either have an undergraduate special education major or a 14-credit undergraduate core of special education course work including SPED 3330, SPED 3334, SPED 5523, SPED 5524, and SPED 5527. These courses will not be counted as part of the master's degree program. Persons seeking initial certification must also complete SPED 5529, SPED 5532, SPED 5538, SPED 546, and complete the Idaho Technology Portfolio assessment.

SCPY 6614 Diagnostic Evaluation of Learning Difficulties	3 cr
SPED 6630 Professional Development in Special Education	2 cr
SPED 6638 Practicum in Special Education	6 cr
SPED 6662 Consultation in the Schools	2 cr

In addition, elective credits to total a minimum of 33 semester credit hours for the Master's degree must be taken from relevant graduate-level courses. Elective credits must be approved in advance by the student's major advisor.

**Additional Requirements for the School Psychological Examiner Option****Specialty Studies in Psychological Examiner**

SCPY 6619 Individual Intelligence Testing	3 cr
SCPY 6657 Legal and Ethical Issues in School Psychology	2 cr
SCPY 6659 Multicultural Issues in School Psychology	2 cr
SCPY 6660 Seminar in School Psychology	3 cr
Elective credits approved by the School Psychology Program Chair	
SCPY 6672 Problem Solving Interventions in Schools	3 cr
SCPY 6673 Response to Intervention in Schools	3 cr
SCPY 6682 Cognitive Behavioral Interventions in Schools	3 cr

**Integrative Field Research Studies**

SCPY 6668 Practicum in School Psychology, LD, & Special Education	3 cr
---	------

The deadline for submission of applications is July 1. Applications will be reviewed and degree-seeking students will continue to be admitted until program capacity is reached.

## Department of Educational Foundations

Interim Chair & Associate Professor: Mercaldo

Professors: Denner, Jenkins, Ray, Sanger

Associate Professors: Mercaldo

Assistant Professors: Bennett, Ntuli

Lecturers: Lin

## Master of Education in Elementary Education

The 30-credit minimum non-thesis Master's degree in Elementary Education is a combination of pedagogy and content; designed for the elementary school teacher. This degree will permit the practicing teacher to acquire greater depth in STEM (or single subject mathematics, geology, physical science, or biology), ESL/ TESOL, foreign language, English/language arts, history/social science, or another Idaho SBOE approved elementary certification or endorsement area.

1. The advanced elementary education professional, through the core curriculum and other course work, is expected to meet the core standards for advanced professionals.
2. The advanced elementary education professional is expected to meet Idaho Core Teacher Standards and National Board for Professional Teaching Standards Core Propositions.
3. The advanced elementary education professional is expected to extend their subject matter depth in STEM, (or single subject mathematics, geology, physical science, or biology), ESL/ TESOL, foreign language, English/language arts, history/social science, or another Idaho SBOE approved elementary subject matter content certification or endorsement area.
4. The advanced elementary education professional is expected to utilize the knowledge of subject area concentration in specific applications and assessments within the educational methods curriculum.

**Admission Requirements**

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education in Elementary Education must meet all college requirements for admission and retention. Those include previous teaching experience or

current certification to teach in Idaho or another state.

**General Requirements****Educational Core (A minimum of 9 credits)**

EDUC6601 Research and Writing	3 cr
EDUC6602 Theories of Learning	3 cr
EDUC6610 Applied Educational Statistics	3 cr

**Educational Pedagogy (A minimum of 6 credits)**

Select a minimum of 6 credits from the list below:

EDLT6616 Integration of Technology into School Curriculum	3 cr
EDUC6622 Educational Assessment And Evaluation	3 cr
EDUC6630 Advanced Elementary Methods	3 cr
EDUC6641 Advanced Studies in K-12 Curriculum	3 cr

Or another advisor approved EDUC elective

**Capstone Course (3 credits)**

EDUC6670 Seminar in Elementary Education	3 cr
--	------

**Content Area (12 credits)**

Applicants are instructed to see their education advisor for an outline of the 12 hours of approved electives from among graduate-level courses in STEM (or single subject mathematics, geology, physical science, or biology), ESL/ TESOL, foreign language, English/ language arts, history/social science, or another subject matter content certification or endorsement area. NOTE: For the STEM content designation to be earned additional content hours across the STEM disciplines is required. Check with your academic advisor to obtain a current list of approved STEM courses.

NOTE: At least 15 credits of 6600-level course work must be completed for this degree program.

## Master of Education in Secondary Education

The 30-credit minimum non-thesis Master's degree in Secondary Education is a combination of pedagogy and content; designed for the secondary school teacher. This degree will permit the practicing teacher to acquire greater depth in STEM, (or single subject mathematics, geology, physical science, or biology), ESL/ TESOL, foreign language, English/ language arts, history/social science, or another Idaho SBOE approved secondary subject matter content certification or endorsement area.

1. The advanced secondary education professional, through the core curriculum and other course work, is expected to meet the core standards for advanced professionals.
2. The advanced secondary education pro-

professional is expected to meet Idaho Core Teacher Standards and National Board for Professional Teaching Standards Core Propositions.

- The advanced secondary education professional is expected to extend their subject matter depth in STEM, (or single subject mathematics, geology, physical science, or biology), ESL/TESOL, foreign language, English/language arts, history/social science, or another Idaho SBOE approved elementary subject matter content certification or endorsement area.
- The advanced secondary education professional is expected to utilize the knowledge of subject area concentration in specific applications and assessments within the educational methods curriculum.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education in Secondary Education must meet all college requirements for admission and retention. Those include previous teaching experience and/or current certification to teach in Idaho or another US state.

### General Requirements

#### Educational Core (A minimum of 9 credits)

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

#### Educational Pedagogy (A minimum of 6 credits) Select a minimum of 6 credits from the list below:

EDLT 6616 Integration of Technology into School Curriculum	3 cr
EDUC 6622 Educational Assessment and Evaluation	3 cr
EDUC 6631 Advanced Secondary Methods	3 cr
EDUC 6641 Advanced Studies in K-12 Curriculum	3 cr
Or another advisor approved EDUC elective	

#### Capstone Course (3 credits)

EDUC 6671 Seminar in Secondary Education	3 cr
--	------

#### Content Area (12 credits)

Applicants are instructed to see their education advisor for an outline of the 12 hours of approved electives from among graduate-level courses in STEM, (or single subject mathematics, geology, physical science, or biology), ESL/TESOL, foreign language, English/language arts, history/social science, or another Idaho SBOE approved secondary subject matter content certification or endorsement area. NOTE: For the STEM content designation to be earned additional content hours across the STEM disciplines is required. Check with your academic advisor to obtain a current list of approved STEM courses.

NOTE: At least 15 credits of 6600-level course work must be completed for this degree program

## Master of Education in K-12 Education Music Education 36 Credits (Music content listed below)

The M Ed in Music Education is a degree program housed in the College of Education and presented in collaboration with the Department of Music. For admission into this program, apply first to the College of Education Department of Educational Foundations. The Master of Education in Music Education is designed to strength the student's understanding, knowledge, and skills in three major areas—Core professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to music education. The program is designed to meet the needs of music education specialists who work in the public school system (grades K-12), or who aspire to further graduate study and teaching in music education.

### Admission Requirements

The student must apply to and meet all criteria for admission to the Graduate School. In addition, applicants for the Master of Education in K-12 Education must meet all college requirements for admission and retention.

Individuals applying for admission to the Master of Education in Music Education, must meet the following admission requirements:

- Bachelor's degree in music from a regionally accredited college or university.
- It is expected that students will meet basic requirements for public school certification.
- Completion of entrance examinations in music history and music theory. Students whose examination indicate deficiencies will be granted Classified (w/PR) Status. Any course used to remove deficiencies does not count toward the degree. When deficiencies have been removed, the student may seek Classified Status.

### General Requirements

Students complete a minimum of 36 semester credit hours for the Master's degree. Students seeking Idaho Certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students have professional experience in an education context.

#### Education Core (12 credits)

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr
EDLT 6616 Integration of Technology into School Curriculum	3 cr

#### Pedagogy and Content (24 credits)

MUSC 5515 Seminar in Band Music	2 cr

Graduate Performance Ensemble (2 semesters)	2 cr
Music History/Theory Elective	2 cr
Music history Theory Elective	2 cr
Other Music Electives	6 cr
Total	36 cr

## Master of Education with Child and Family Studies Emphasis Family Studies

The goal of the Early Childhood Education and Intervention Program is to prepare professionals who have the necessary knowledge, dispositions, and abilities to:

- Enhance learning and development of young children, with and without disabilities, between the ages of birth and third grade.
- Establish collaborative relationships with families, and other professionals in ways that produce positive outcomes for young children.
- View their own professional development as a lifelong endeavor.
- Advocate for children, families, and the early childhood profession.

### Admission Requirements

The candidate must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education with Child and Family Studies Emphasis must meet all college requirements for admission and retention.

### General Requirements

The Master of Education with Child and Family Studies Emphasis is designed to strengthen the student's understanding, knowledge, and skills in three major areas—Core Professional Studies, Integrative Field Research Studies, and Specialty Studies—as they relate to Child and Family Studies. The student must select one of the following option areas for the Master of Education with Child and Family Studies Emphasis:

#### Option areas:

- Family Studies
- Early Childhood Education and Intervention

Candidates enter the program after completion of the Bachelor's degree. All candidates completing a Master of Education with Child and Family Studies Emphasis must complete a written comprehensive examination and an oral examination; a case study/project OR a case study/project/internship combination, OR a thesis.

#### Required Core Professional Studies

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

#### Integrative Field Research Studies (must total 6 credits)

Either these two courses:

CFS 6647 Internship in Child and Family Studies	3 cr
CFS 6669 Case Study/Project in Child and Family Studies	3 cr
OR	
CFS 6669 Case Study/Project in Child and Family Studies	6 cr
OR	
EDUC 6650 Thesis	6 cr

#### Additional Requirements for Family Studies Option

CFS 5531 Family Resource Management	3 cr
CFS 5535 Relationships Within Families	3 cr
CFS 6600 Issues and Trends in Child and Family Studies	3 cr
CFS 6632 Theoretical Frameworks for Understanding Families	3 cr
CFS 6659 Seminar in Child and Family Studies	3 cr

Additional elective credits to total a minimum of 36 credit hours must be approved in advance by the student's major advisor.

#### Additional Requirements for Early Childhood Education and Intervention Option

CFS 5501 Foundations of Early Childhood Education	3 cr
CFS 6621 Learning and Development in Early Childhood Education	3 cr
CFS 6622 Curriculum in Early Childhood Education	3 cr
CFS 6642 Assessment in Early Childhood Education and Intervention	3 cr
CFS 6643 Curricular Adaptations and Intervention in Early Childhood	3 cr
CFS 6644 Working with Families in Early Childhood Education and Intervention	3 cr

Additional elective credits to total a minimum of 36 credits must be approved in advance by the student's major advisor.

## Department of School Psychology, Literacy, and Special Education

Chair and Associate Professor: Mercaldo

Associate Professor: Klug

Assistant Professor: Fan

Professor: Squires

The Department of Educational Learning and Development offers the following graduate degrees: Educational Specialist in School Psychology or Special Education, M.Ed. with Child and Family Studies Emphasis, M.Ed. with Literacy Emphasis, and M.Ed. in Human Exceptionality (Special Education or School Psychological Examiner).

## Master of Education with Literacy Emphasis

1. The Literacy specialist understands the related nature of reading, writing, listening, speaking, and viewing and that literacy is a process of constructing meanings. These meanings begin with personal knowledge.
2. The literacy specialist understands the importance of building on strengths of individual learners rather than emphasizing needs.
3. The literacy specialist is able to support and expand student expression in speaking, writing, and creative art forms across subject matter areas.
4. The literacy specialist is able to conduct assessment that involves multiple indicators of student progress and develop an instructional plan based on these indicators.

The Master of Education with Literacy Emphasis is designed to strengthen the student's understanding, knowledge, and skills in three major areas—Core Professional Studies, Specialty Studies, and Integrative Field Research Studies—as they relate to literacy education.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, students for the Master of Education with Literacy Emphasis must meet all college requirements for admission and retention.

Individuals applying for admission to the Master of Education with Literacy Emphasis must meet the following admission requirements:

- Bachelor's degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

### General Requirements

Candidates must complete a minimum of 33 semester credit hours for the Master of Education with Literacy Emphasis. They must complete EDUC 4419 Developmental Literacy or the Idaho Comprehensive Literacy Assessment. All candidates completing a thesis will orally defend the thesis, but will not complete written comprehensive examinations. All candidates not completing a thesis will be required to pass both a written comprehensive examination and an oral examination.

Candidates seeking Idaho certification in the area of their training must meet any requirements of the State Board of Education for certification. It is recommended that students pursuing the Master of Education with Literacy Emphasis have professional experience in an educational context.

#### Required Core Professional Studies

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

#### Specialty Studies

EDUC 5519 Developmental Literacy	3 cr
EDUC 5524 Assessing Literacy	3 cr
EDUC 5526 Remediation of Literacy Problems	3 cr
EDUC 6632 Psychology of Literacy	3 cr
EDUC 6633 Language, Literacy, and Neurology	3 cr
EDUC 6634 Literacy: Multicultural Views	3 cr
EDUC 6635 Clinical Methods in Literacy	3 cr

#### Integrative Field Research Studies

EDUC 6650 Thesis	6 cr
OR	
EDUC 6651 Field Project/Case Study in Education	3 cr
EDUC 6652 Field Practicum in Education	3 cr

## Master of Education in Deaf Education

The Deaf Education program has an outstanding history of identifying, educating, and placing highly qualified individuals in educational programs for Deaf and hard of hearing children and youth in Idaho and neighboring states. These educators have been instrumental in helping intermountain states expand the delivery of quality educational services to this school-age population in all educational settings. The Master of Education in Deaf Educa-

tion is designed to strengthen the student's understanding, knowledge, and skills in four areas – Core Professional Studies, Specialty Studies, Integrated Field Research Studies, and Electives – as they relate to the education of children and youth who are Deaf and hard of hearing. This program is in alignment with the College of Education's other graduate programs in that it includes research components (i.e., Core Professional Studies and Integrated Field Research Studies), a teacher certification component (i.e., Specialty Studies), and a supporting area (i.e., Electives) that augments a student's undergraduate training.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Education/ in Deaf Education degree must meet all college requirements for admission and retention.

Admission requirements for individuals applying to the Master of Education in Deaf Education:

- Bachelor's degree from a regionally accredited college or university in the United States or its equivalent from a school in another country.
- Submit three letters of recommendation.

In that the mission of the Deaf Education program is to prepare individuals to become certified teachers of the Deaf, preference is given to individuals who have an undergraduate elementary, secondary, or special education major and who have American Sign Language skills. However, individuals without this background should consider applying after consulting their respective state department of education for details regarding teacher of the Deaf certification/licensure.

### General Requirements

Students completing a Master of Education in Deaf Education must complete a minimum of 33 semester credit hours. Students seeking Idaho certification in the area of their training must meet the State Board of Education requirements for certification/licensure. Students seeking certification in their area of training from another state must meet the requirements of that state.

#### Required Core Professional Studies

EDUC 6601 Research and Writing	3 cr
EDUC6610 Applied Educational Statistics	3 cr

#### Specialty Deaf Education Studies

EDHH 5556 Psychosocial Aspects of Deafness	3 cr
EDHH 6609 Teaching Internship in Deaf Education	3 cr
EDHH 6627 Literacy Curriculum in Deaf Education	3 cr
EDHH 6628 Curriculum Organization in Deaf Education	3 cr
EDHH 6637 Philosophical/Theoretical Foundations of Deaf Education	3 cr

EDHH 6658 Teaching Language to the Deaf	3 cr
EDHH 6659 Teaching Academic Subjects to the Deaf	3 cr

#### Integrative Field Research Studies

EDHH 6651 Field Project/ Case Study in Deaf Education	3 cr
Electives	3 cr
Total	33 cr

Elective credits to total a minimum of 33 credit hours for the Master's must be taken from relevant graduate-level courses. Elective credits must be approved in advance by the student's major advisor. In certain situations a student's program of study might exceed 33 credits. The three most common situations are:

1. Applicants will be evaluated as to their teaching experience with Deaf/hard of hearing children: (a) those with three or more years of such teaching experience will be able to waive EDHH 6609 (3 credits) but will need to take added electives; (b) those who do not meet the three years teaching experience will need to take EDHH 6609 (3 credits).
2. Applicants who do not meet American Sign Language proficiency will need to complete appropriate coursework; verification can be established through various sign language quality assurance examinations (e.g, RID, NAD, or EIPA [3.5 or above] certification), or transcript verification.
3. Applicants who do not have appropriate coursework in communication sciences/ disorders and audiology will be advised to take appropriate courses in order to meet teacher of the Deaf and hard of hearing standards as identified in state certification/licensing documents. A thorough examination of each applicant's transcript will be completed to determine what coursework the student has completed and what coursework is needed to complete the Master of Education in Deaf Education, as well as state certification/licensure requirements to become a teacher of the Deaf/hard of hearing.

## Department of Sport Science and Physical Education

Chair and Associate Professor: Appleby  
Professor: Lyons, Lester  
Associate Professor: Fitzpatrick  
Assistant Professors: Faure, Gauthier

The Department of Sport Science and Physical Education offers the Master of Physical Education/Athletic Administration degree at Idaho State University and through the Idaho State University-Boise State Cooperative Program.

Master of Physical Education/Athletic Administration.

## The Master of Physical Education/ Athletic Administration

Administration is aligned with 2 sets of standards: The Idaho State University College of Education Standards for Advanced Professionals (described previously), and the National Association for Sport and Physical Education (NASPE) and the North American Society for Sport Management (NASSM) Standards.

**NASPE-NASSM Content Standards:** The NASPE-NASSM standards for Master's Degree Programs in Sport Management address eight specific areas that include the following: Management, Leadership and Organization in Sport; Research in Sport; Legal Aspects of Sport; Marketing in Sport; Sport Business in the Social Context; Financial Management in Sport; Ethics in Sport Management; and Field Experience in Sport Management.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Physical Education/Athletic Administration degree must meet all college requirements for admission and retention. Individuals applying for admission to the Master of Physical Education/Athletic Administration program will be reviewed using the following criteria. Preference will be given to applicants who meet or exceed these criteria.

- Bachelor's degree from a regionally accredited college or university in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.

In addition, the Department of Sport Science and Physical Education requires that the applicant shall have had the necessary background in tests and measurements, and a knowledge of statistical procedures. Both a thesis and non-thesis option are available.

### General Requirements

Students must complete a minimum of 33 semester credit hours for the Master of Physical Education/Athletic Administration degree. Students completing a thesis will orally defend the thesis, but will not complete written examinations. Students not completing a thesis will

be required to pass both a written examination and an oral examination.

All students must document professional experience in an athletic setting either by prior athletic administrative experience (minimum of one year) or by completing an approved internship for credit while completing the MPE/AA program.

### Course Requirements

PE 6605 Leadership and Administration	3 cr
PE 6615 Philosophy and Principles of Athletics in Education	3 cr
PE 6631 Athletics and The Law	3 cr
PE 6635 Management Aspects of Athletics	3 cr
PE 6640 Research and Writing	3 cr
PE 6649 Issues in PED and Athletic Administration	3 cr
PE 6655 Internship	3 cr

### Thesis Option

PE 6650 Thesis	6 cr
IN ADDITION: Approved Electives	6 cr

### Non-Thesis Option

PE 6610 Advanced Sport Psychology	3 cr
PE 6625 Advanced Sports Marketing	3 cr
IN ADDITION: Approved Electives	6 cr

## The Master of Science in Athletic Training

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, applicants for the Master of Science in Athletic Training degree must meet all college requirements for admission and retention. This is a limited enrollment program. Individuals applying for admission to the Master of Science in Athletic Training program will be reviewed using the following criteria:

1. Application and acceptance by ISU Graduate School
2. Cumulative G.P.A. (minimum of 2.75)
3. GRE/MAT score guidelines posted in the SSPE Graduate handbook
4. Successful completion of the following required prerequisite courses with a grade of "C" or better in each course:
  - a. Anatomy and Physiology (1 year equivalent)
  - b. Care and Prevention of Athletic Injuries (or equivalent)
  - c. Neuroscience (Recommended)
  - d. General Nutrition or Sports Nutrition
  - e. Exercise Physiology
  - f. Biomechanics
  - g. Sport Psychology (or other approved upper division Psychology course)
5. Evidence of current First Aid/CPR/AED for Health Care Provider certifications
6. An essay describing applicants interest in

7. Two letters of Recommendation (one must be from a faculty member)
8. Personal Interview

Preference will be given to applicants who meet or exceed these criteria. Applicants must undergo a criminal background check and have current immunizations, listed in handbook. Criminal background checks must be done through ISU Public Safety at the applicant's expense. Conviction of a felony or other serious offense will likely result in denial of placement for the clinical assignments, and consequently affect the student's standing in the program.

Additional program information is available at [www.isu.edu/sspe](http://www.isu.edu/sspe) website.

### General Requirements

Students must complete a minimum of 48 semester credit hours for the Master of Science in Athletic Training degree. Students completing the degree will be required to complete a two-year sequence of courses which will include a 5-course sequence of clinical education and culminate in a 3 credit capstone project that will challenge the student to summarize their learning experiences through the presentation and defense of a case study before an examining committee.

Upon Graduating, ISU's MSAT students will be eligible for national board examination (administered nationally by the Board of Certification-BOC). Only those students graduating from a CAATE accredited program are eligible to take the BOC exam.

### Course Requirements

AT 6600 Foundations of Athletic Training	3 cr
AT 6602 General Medical Assessment	3 cr
AT 6604 Physical Assessment of the Lower Extremities	3 cr
AT 6606 Traumatic Brain Injury and Neurological Assessment	3 cr
AT 6608 Physical Assessment of the Upper Extremities	3 cr
AT 6610 Pathophysiology and Therapeutic Modalities	3 cr
AT 6612 Conditioning & Therapeutic Exercise	3 cr
AT 6614 Professional Issues in Athletic Training	3 cr
AT 6640 Research Methods in Athletic Training	3 cr
AT 6645 Org. and Admin. of Athletic Training	3 cr
AT 6651 Masters Project	3 cr
AT 6661 Clinical Experience in Athletic Training I	3 cr
AT 6662 Clinical Experience in Athletic Training II	3 cr
AT 6663 Clinical Experience in Athletic Training III	3 cr
AT 6664 Clinical Experience in Athletic Training IV	3 cr
AT 6665 Clinical Experience in Athletic Training V	3 cr

## Department of Organizational Learning and Performance

Chair and Professor: Scott  
Assistant Professors: Lindbeck, Lion

## Doctor of Philosophy in Instructional Design

The Doctor of Philosophy (Ph.D.) in Instructional Design degree prepares students to assume positions of leadership in instructional design, research, measurement, or evaluation. Graduates direct instructional design, research, measurement or evaluation projects as faculty at colleges and universities, in private or public institutions, or work as individual consultants.

While research is an integral component of the Instructional Design Ph.D. program, candidates are provided primarily with courses and experiences preparing them to function more effectively as leaders in guiding instruction to meet specific educational outcomes.

### Admission Requirements

Admission to the Instructional Design Ph.D. program is based on a cohort model. Cohort cycles depend on the start date of the particular cohort (contact department chair for specific details). However, there is a specific sequencing of curriculum, and this may strongly influence the start date of a particular cohort. Applications for cohort admission are accepted at any time, in accordance with the deadlines set by the Graduate School. Every effort is made to accommodate the doctoral program of study for non-cohort students who enroll in full-time doctoral studies. In addition to the Graduate School general requirements, individuals applying for admission to the Instructional Design Ph.D. program will be reviewed using the following criteria for admission. Preference will be given to applicants who have:

1. A master's degree in instructional technology, instructional design, or a related field.
2. An academic record of at least 3.0 Grade Point Average (GPA) in the last two years of undergraduate course work and 3.5 GPA at the graduate level.
3. A minimum of 40th percentile on both the Verbal and Quantitative Reasoning portions of the GRE. One of these scores must be at or above the 50th percentile.

Alternatively, an MAT score at the 45th percentile or higher may be substituted for the GRE .

4. Submitted a current curriculum vitae.
5. Submitted a letter of application that makes clear the candidate's interest in, and suitability for, this program.
6. Successfully interviewed with faculty from the Graduate Department of Educational Leadership and Instructional Design.
7. Successfully completed a proctored writing sample.
8. In addition to the above, international students must meet Graduate School requirements for admission, including evidence of English language capabilities at the graduate studies level.

## General Requirements

The Doctor of Philosophy in Instructional Design requires a minimum of 67 semester credits, 12 credits in Instructional Design Core Studies, 30 credits in the Instructional Design Specialty area, 15 credits in Research and Statistics , and at least 10 credits of dissertation. Of the 67 semester credits required for the Ph.D. in Instructional Design, at least 30 semester credits of course work must be taken at Idaho State University. Dissertation credits may not be transferred from another institution.

Upon initial enrollment, all Instructional Design Ph.D. students will be required to maintain continuous enrollment, with at least one semester credit of work each semester (including summers) from matriculation to completion of the program, including completion of the dissertation and oral defense. Failure to maintain continuous enrollment can result in dismissal from the program.

A GPA less than 3.5 in the program or two grades of C+, or below, will result in the Graduate Department of Educational Leadership and Instructional Design reviewing the student's performance within the program. The result of this review may lead to dismissal. Any additional grading policies are set by the Graduate School.

## Program of Study

A Program of Study will be drafted during the first semester of course work. This plan of study will be filed with the Graduate School. Programs of Study will be updated each semester. A current Program of Study must be submitted with the Comprehensive Examination Notice of Intent and routed through the student's advisor, the Department, and the Dean of the College of Education. Upon successful completion of the comprehensive examination, the Dissertation Committee, includ-

ing the Graduate Faculty Representative (GFR), is established and the student is advanced to candidacy.

All doctoral requirements must be completed within five years of passing the Comprehensive Examination. Doctoral students must also meet appropriate residency requirements.

## Doctor of Instructional Design Program Course Work

All course work is subject to the approval of the student's academic advisor, Instructional Design Ph.D. program leader, and program faculty. Courses that meet the program requirements are listed on the Instructional Design PhD web site and in the program handbook.

### Instructional Design Core Studies (12 credits)

The intent of the core area is to promote essential competencies of Instructional Design, including communication, learning theory, implementation, assessment, and management. A prerequisite for the core curriculum includes EDUC 6602 or demonstration of equivalent knowledge.

### Advanced Research and Statistics for Instructional Design (15 credits)

The intent of this area is to provide depth of knowledge of quantitative and qualitative research designs and the statistical procedures that support them. Candidates will complete courses in advanced quantitative research design, qualitative research design, intermediate statistics, and advanced statistics, as well as one additional course that provides depth of knowledge in a particular area of research design or statistics. Prerequisites for the research curriculum include EDUC 6601, EDUC 6610, or demonstration of equivalent knowledge.

### Instructional Design Specialty Area (30 credits)

The intent of the Instructional Design Specialty Area is to provide depth of knowledge and skills applicable to a wide array of professional contexts. Practical application and research in current and emerging learning technologies are emphasized. Instructional Design Specialty Area courses meet advanced standards in planning and analysis; design and development; and implementation, assessment, and management.

### Dissertation (10 credits)

A minimum of 10 semester credits for dissertation work is required. Please note that some students may require more than 10 semester credits in order to successfully complete the dissertation investigation.

## Points of Assessment

Candidates in the Ph.D. in Instructional Design complete two examinations during the program of study, the Qualifying Examination and the Comprehensive Examination. The Qualifying Examination assesses the candidate's capability to analyze and synthesize Instructional Design Specialty, Core, and Research content. A passing score on the Qualifying Examination is required in order to continue in the program. The Comprehensive Examination is taken after the completion of all coursework and the Instructional Design practicum. It is a significant aspect of the student's total doctoral program and provides evidence that the candidate meets advanced Instructional Design standards. A passing score on the Comprehensive Examination is required in order to continue in the program.

## Dissertation and Oral Defense

Upon successful completion of the Comprehensive Examination and approval of the dissertation proposal by his or her Dissertation Committee, the student is authorized to complete the dissertation in preparation for the final oral defense.

## Master of Education in Instructional Technology

The Master of Education (M.Ed.) in Instructional Technology is designed for the preK-12 educator in acquiring the techniques for integration of multiple types of technologies into the curriculum, as well as instructional technologist in PK-12 and post secondary environments and training coordinators in learning organizations, business, and industry. Learning theories that form the foundation of instructional design, as well as pedagogical approaches, assessment processes and principles of universal design in learning are investigated. Candidates engage in real-world projects for incorporation into the academic setting and delivery of professional development as outcomes from coursework.

Graduates of the MEd-IT degree advance their careers in educational environments as technology integration specialists, in business and industry as technology leaders and trainers, as well as their education through terminal degree programs such as the Ph.D. in Instructional Design and the Ed.D. in Educational Leadership.

## International Student Admission Requirements

International students must apply to the Idaho

State University Graduate School and meet all criteria for admission. Typically, international students cannot begin their enrollment at Idaho State University in the summer semester. International students should refer to the *Admission of International Students* section of the Graduate catalog for TOEFL and other requirements for those whose native language is not English.

### General Admission Requirements

Applicant must meet all criteria for admission to the Graduate School (application available online). In addition, the following should be submitted to the Med-IT program coordinator to complete the application process:

- Letter of interest to the Med-IT program coordinator.
- One letter of recommendation from an instructor or a professional in the field.
- GRE or MAT scores if the Graduate School computed GPA is less than 3.50.
- Participation in an interview with program area faculty via in-person, or video conferencing.

### General Requirements (30 credits)

Students should begin their coursework in the fall semester. It is recommended students register for two courses per semester in order to complete the degree in a timely manner. Candidates should establish a Plan of Study with their advisor prior to registering for classes. It is important to work closely with the advisor to assure a smooth progression from start to completion of the MED-IT degree.

#### Core Professional Studies (9 credits)

EDUC 6601 Research and Writing	3 cr
EDUC 6602 Theories of Learning	3 cr
EDUC 6610 Applied Educational Statistics	3 cr

#### Educational Pedagogy (9 credits)

EDLT 6621 Issues and Trends in Instructional Technology	3 cr
EDUC 6622 Educational Assessment and Evaluation	3 cr
EDLT 5555/6655 Fundamentals of Instructional Design	3 cr

#### Technology Content (12 credits)

EDLT 6639 Delivering Instruction in Electronic Formats	
EDLT 6626 Instructional Technology & Staff Development	3 cr

#### OR

EDLT 6656 Fundamentals of Multimedia Development in Education	3 cr
EDLT 6651 Field Project/Case Study in Education	6 cr

### Online Teaching Endorsement

The Online Teaching (OT) Endorsement focuses on the preK-12 educator in acquiring the techniques for integration of multiple types of

technologies into the online curriculum. State of Idaho certified educators complete five graduate courses and an online internship, all of which align with Idaho Online Teaching Standards and National Standards for Quality Online Teaching by iNACOL (International Association for K-12 Online Learning).

The skills, knowledge, and products developed through the OT Endorsement are readily transferable to both the educational world and business/industry. Five of the six OT courses are contained in the Master of Education in Instructional Technology degree. Those who attain the OT Endorsement, if accepted into the MED in IT, can transfer these courses, plus the internship, into this program fulfilling 21 of the 30 credit degree requirement.

### Admission Requirements

Applicant must meet all criteria for admission to the Graduate School (application available online). In addition, the following should be submitted to the OTE coordinator to complete the application process:

- Letter of interest to the OT Endorsement coordinator.
- One letter of recommendation from an instructor or a professional in the field.
- GRE or MAT scores if the Graduate School computed GPA is less than 3.50.
- Participation in an interview with program area faculty via in-person, or video conferencing.

### General Requirements (21 credits)

Students should begin their coursework in the fall semester. It is recommended students register for two courses per semester in order to complete the endorsement in a timely manner. Candidates should establish a Plan of Study with their advisor prior to registering for classes. It is important to work closely with the advisor to assure a smooth progression from start to complete of the OT Endorsement.

Seniors who are Education majors and are in residence at ISU may register for courses listed with the 55xx numbers (up to six graduate credits) in the OT Endorsement in the semester during which the bachelor's degree will be attained.

#### Technology Content (15 credits)

EDLT 5555/6655 Fundamentals of Instructional Design	3 cr
EDLT 6621 Issues & Trends in Instructional Technology	3 cr
EDLT 6622 Educational Assessment & Evaluation	3 cr
EDLT 6656 Fundamentals of Multimedia Development in Education	3 cr
EDLT 6639 Delivering Instruction in Electronic Formats	3 cr

### Internship (6 credits)

Candidates for the Online Teaching Endorsement must fulfill a six-credit internship in an online setting during the last semester of study. Placement is established with the candidate's advisor in coordination with an appropriate preK-12 educational institution.

## Master of Organizational Learning and Performance

The Master of Organizational Learning and Performance (M.OL&P), aligned with State educational standards, provides the adult learner with opportunities to engage in the processes of inquiring, learning, and applying known competencies within the fields of Human Resource Development. This program is also designed to provide advanced Professional Technical Education studies for PTE instructors seeking instructional design and leadership development. The Master of Organizational Learning and Performance is designed to strengthen the student's understanding, knowledge, and skills in four major areas—(1) OLP Course Requirements; (2) HRD Studies or the Professional-Technical Studies; (3) HRD Electives or PTE Electives; and (4) Thesis or Field Research Project Options—as they relate to Human Resource Development. Emphasized areas within the HRD discipline are: human performance improvement, learning effectiveness, leadership and change, and organizational development. ([ed.isu.edu/olp/](http://ed.isu.edu/olp/))

### Admission Requirements

Individuals applying for admission to the Master of Organizational Learning and Performance program must meet the following admission requirements:

- The student must apply to, and meet all criteria for, admission to the Graduate School.
- Bachelor's degree from a college or university accredited in the United States or its equivalent from a school in another country.
- Grade point average of 3.0 or higher for all upper division credits taken at the undergraduate level.
- The student must write a proctored Statement of Intent for the Master of Organizational Learning and Performance.

### General Requirements

Students must complete a minimum of 30 semester credit hours for the Master of Organizational Learning and Performance, featuring M.OLP Course Requirements (12 credits) for

all M.OLP majors. Student will elect to complete either the HRD Studies (6 credits) and Electives (6 credits), or the PTE Studies (6 credits) and Electives (6 credits). Students will complete the Research studies and capstone. The Research Studies, Thesis option includes two courses and thesis capstone (9-12 credits); the Research Studies, Non-thesis option includes one course and a research project (6 credits). Students will orally defend the findings of their research. Students seeking Idaho PTE certification must meet the Idaho Division of Professional-Technical Education requirements for certification. (See <http://www.pte.idaho.gov/>).

#### **M.OLP Course Requirements (12 credits)**

OLP 6631 Principles of HRD 3 cr  
 OLP 6634 Leadership of Learning, Development, and Change 3 cr  
 OLP 5550 Adult Learning Theory 3 cr  
 OLP 6661 Performance Improvement 3 cr

#### **HRD Studies (6 credits)**

OLP 6633 Design and Evaluation 3 cr  
 OLP 6636 Strategic Planning and HRD 3 cr

**OR**

#### **Professional-Technical Studies (6 credits)**

OLP 5501 Foundations of PTE and HRD 3 cr  
 OLP 5503 Methods for Teaching in Corporate and Professional-Technical Education 3 cr

An additional 6 semester hours must be taken from department courses or courses outside the department approved by student's major advisor.

#### **HRD Electives (6 credits)**

OLP 5506 Grantwriting 3 cr  
 OLP 5507 Instructional Technology in HRD 3 cr  
 OLP 5509 Professional Readings and Writing 3 cr  
 OLP 5510 Principles of Change 3 cr  
 OLP 5531 Workplace Leadership 3 cr

**OR**

#### **PTE Electives (6 credits)**

OLP 5502 Occupational Analysis and Course Construction 3 cr  
 OLP 5504 Evaluation in Corporate and Professional-Technical Education 3 cr  
 OLP 5544 Career Guidance and Special Needs 3 cr  
 OLP 5564 Instructional Facilities Management 3 cr

Research Studies coursework and capstone includes 6-12 semester hours depending upon selection of either the Thesis or Field Research Project Option.

#### **Research Studies: Thesis Option (9-12 credits)**

EDUC 6601 Research and Writing 3 cr  
 EDUC 6610 Applied Educational Statistics 3 cr  
 OLP 6650 Thesis 3-6 cr

**OR**

#### **Research Studies: Field Research Project Option (6 credits)**

OLP 6632 Research in Organizations 3 cr  
 OLP 6645 Field Research Project in HRD 3 cr

## **Graduate Courses in the College of Education**

### **Athletic Training Graduate Courses**

**AT 6600 Foundations of Athletic Training 3 credits.** Survey of the profession of Athletic Training. Injury prevention, assessment, treatment, taping and rehabilitation of common athletic injuries will be presented. Lab included.

**AT 6602: General Medical Assessment 3 credits.** This course addresses current medical issues that pertain to athletic training and the physically active. Content included sports pharmacology, physiological considerations, common illnesses and special concerns. Lab included.

**AT 6604 Physical Assessment of the Lower Extremities 3 credits.** Intense, in-depth study of the lower extremities including physical examination, injury recognition, treatment, taping, bracing, and foundations of rehabilitation. Lab included.

**AT 6606 Traumatic Brain Injury and Neurological Assessment 3 credits.** Comprehensive examination of sport-related traumatic brain injury. Includes neurological assessment, spinal assessment and rehabilitation methods. Lab included.

**AT 6608 Physical Assessment of the Upper Extremities 3 credits.** Intense, in-depth study of the trunk, head, face, and upper extremities including physical examinations, injury recognition, emergency treatment, taping, bracing, and foundations of rehabilitation. Lab included.

**AT 6610 Pathophysiology and Therapeutic Modalities 3 credits.** Analysis of the physiological response to injury and the effects of therapeutic modalities on athletic injuries. Lab included.

**AT 6612 Conditioning & Therapeutic Exercise 3 credits.** Development of proficiency in the theory, design and implementation of conditioning programs and instruction on the effective application of therapeutic exercise in order to achieve symptom free movement and function. Content includes basic principles of exercise, therapeutic effects of exercise, func-

tional evaluation of performance, goniometric measurements, and manual muscle testing. Lab included.

**AT 6614 Professional Issues in Athletic Training 3 credits.** This course is designed to expose students to various professional issues involved with athletic training in a topical format in order to develop a holistic understanding of the profession. Content includes topics such as psychosocial issues, cultural competence in healthcare delivery, performance enhancement, job seeking, exam preparation, and continuing professional development.

**AT 6640 Research Methods in Athletic Training 3 credits.** Interpretation of statistical procedures and research designs commonly used in athletic training research. Prepares students to conduct research projects related to the field of athletic training. Prerequisite: statistics course.

**AT 6645 Organization and Administration of Athletic Training 3 credits.** This course is designed to expose students to the organization and administration concepts of athletic training. Content includes management, leadership, legalities, historical perspectives, motivation and technology.

**AT 6651 Master's Project 3 credits.** Capstone project to culminate learning experiences consisting of a presentation (written and oral) and defense of a case study before an examining committee.

**AT 6661 Clinical Experiences in Athletic Training I 3 credits.** Clinical experiences in athletic training.

**AT 6662 Clinical Exp in Ath Trng II 3 credits.** Clinical experiences in athletic training.

**AT 6663 Clinical Experiences in Ath Trng III 3 credits.** Clinical experiences in athletic training.

**AT 6664 Clinical Experiences in Ath Trng IV 3 credits.** Clinical experiences in athletic training.

**AT 6665 Clinical Experience in Ath Trng V 3 credits.** Clinical experience in athletic training.

### **Child and Family Studies Graduate Courses**

**CFS 5501 Foundations of Early Childhood Education Intervention 3 credits.** Examination of social, historical, and philosophical

foundations of early childhood education and intervention and their respective influences on currently accepted concepts and practices in programs serving young children from birth through age eight.

**CFS 5531 Family Resource Management 3 credits.** Management theory for resource utilization and goal achievement. Issues include stress, communication, and family types. Emphasis on decision-making related to the dynamics of balancing work and family. PREREQ: CFS 5570 OR PERMISSION OF INSTRUCTOR.

**CFS 5532 CU(PDO) 132 Behavioral Growth and Development 1 credit.** General body growth and development of the normal child. Major theories of psychological growth and maturation of the normal child with common aberrations. Dental management of children in regard to psychological growth and development (IDEP course).

**CFS 5535 Relationships Within Families 3 credits.** Building and maintaining positive relationships within families. Critical issues facing individuals and families including communication, cultural diversity, balancing multiple roles, time management, and financial planning.

**CFS 5539 Sports Nutrition 2 credits.** Review nutrition recommendations for both competitive and recreational athletic performance. Background into metabolism of nutrients related to strength and endurance given as rationale for nutrition practices. Controversies and misinformation addressed. PREREQ: CFS 2239 SUGGESTED.

**CFS 5561 Advanced Nutrition 3 credits.** Advanced study of nutrition science, including protein, carbohydrate, lipid, vitamin, and mineral metabolism. Introduction to research methodology and professional literature. PREREQ: CFS 2239, CHEM 1102.

**CFS 5570 Consumer Economics 3 credits.** Financial management content with a focus on developing effective decision-making processes for managing resources. Topics: the changing American family; consumer protection and recourse; purchasing decisions; consumer credit; fundamentals of savings/investment; and insurance.

**CFS 5571 Advanced Consumer Economics 3 credits.** Advanced study of social and economic problems affecting individuals and families. Topics: financial security; credit and loans; tax planning; major consumer purchases; risk management; investments; retirement and estate planning. PREREQ: CFS 5570 OR PERMISSION OF INSTRUCTOR.

**CFS 5572 Teaching Consumer Economics 1-3 credits.** Designed to provide educators with current content and resources for developing consumer and economic education curriculum. Teaching techniques discussed and practiced. PREREQ: CFS 4471 OR PERMISSION OF INSTRUCTOR.

**CFS 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/ U.

**CFS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CFS 6600 Issues and Trends in Child and Family Studies 3 credits.** Exploration and discussion of current issues and trends impacting children and families and programs designed to serve them.

**CFS 6621 Learning and Development in Early Childhood Education 3 credits.** Investigation of the development characteristics and processes of the young child from birth to age 8 related to the process of knowledge construction.

**CFS 6622 Curriculum in Early Childhood Education 3 credits.** Examination and implementation of developmentally appropriate curricular practices that simultaneously strengthen all domains of development and contribute to the construction of knowledge in content areas.

**CFS 6631 Family Diversity 3 credits.** Exploration and analysis of the role of diversity in defining family structure, functioning, and development. Includes focus on educational implications and opportunities for observation in a variety of settings.

**CFS 6632 Theoretical Frameworks for Understanding Families 3 credits.** Analysis of theories of family interaction and family functioning. Emphasis on family development theory, family systems theory, social models, and other relevant models of family functioning.

**CFS 6634 Public Policy for Children and Families 3 credits.** Analysis of selected state and federal legislation affecting the status of children and families. Focus includes legal definitions related to children and families and advocacy networks.

**CFS 6642 Assessment in Early Childhood Education and Intervention 3 credits.** Selection, administration, and interpretation of assessment tools employed in early childhood inclusive practice. Emphasizes screening, educational assessment, and monitoring of child progress. PREREQ: CFS 5501 OR PERMISSION OF INSTRUCTOR.

**CFS 6643 Curricular Adaptations and Intervention in Early Childhood 3 credits.** Overview of theoretical bases for early intervention and selected service delivery models. Focus on program planning, curriculum, materials, procedures, and program evaluation. PREREQ: CFS 5501 OR PERMISSION OF INSTRUCTOR.

**CFS 6644 Working with Families in Early Childhood Education and Intervention 3 credits.** Theoretical and applied perspectives in providing family-focused early childhood services. Emphasis on models for service delivery and service coordination for all families with young children including those from diverse backgrounds.

**CFS 6647 Internship in Child and Family Studies 1-6 credits.** Supervised practice in demonstration of competencies for children and families in a variety of educational settings. Fifty hours of experience and supervision equals one hour of academic credit. May be repeated.

**CFS 6659 Seminar in Child and Family Studies 1-3 credits.** Critical analysis of the literature in one or more areas related to children and families. May be repeated up to 6 credits.

**CFS 6669 Case Study/Project in Child and Family 1-6 credits.** Under faculty supervision, student is responsible for development and oral presentation of a comprehensive case study or a comprehensive graduate field project. May be repeated up to 6 credits.

**CFS 6676 Supervision of Family and Consumer Sciences Education 2 credits.** Explores roles and responsibilities of cooperating teachers and college supervisor in providing desirable experiences of family and consumer sciences student teachers in the public schools. Supervision styles will be reviewed and evaluated.

**CSF 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Deaf Education Courses

**EDHH 5556 Psychosocial Aspects of Deafness 3 credits.** Psychological, educational and social influences of the hearing community on deaf persons and the structure of the deaf community as a socio-cultural entity.

**EDHH 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDHH 6607 Directed Observation in Education of the Deaf 1 credit.** Directed observations at multiple levels and reporting of casual interactions and diagnostic/intervention approaches by instructor with Deaf or hard of hearing individuals (minimal 150 clock hours). May be repeated up to 3 credits.

**EDHH 6608 Communication Practicum 2 credits.** Supervised experiences applying research and theory to language intervention practices for Deaf or hard of hearing individuals. May be repeated up to 6 credits.

**EDHH 6609 Teaching Internship in Deaf Education 1 - 3 credits.** Directed classroom and clinical teaching experience with Deaf or hard of hearing students under supervision. Minimum 250 clock hours at the level specialization. May be repeated up to 6 credits. PREREQ: Approved application.

**EDHH 6627 Literacy Curriculum in Deaf Education 3 credits.** Theory, research and practices for teaching and assessing written language for Deaf and hard of hearing students. Applications of principles of language acquisition to reading and writing.

**EDHH 6628 Curriculum Organization in Deaf Education 3 credits.** Organizing, adapting and implementing curriculum across all areas to meet the special needs of Deaf or hard of hearing students. Includes assessment, behavior management, instructional technology, and individualized planning.

**EDHH 6637 Foundations of Deaf Education 3 credits.** A comprehensive study of the philosophies and theories that influence current practice and research in the education of Deaf or hard of hearing students.

**EDHH 6651 Field Project/Case Study in Deaf Education 1 - 3 credits.** A field project or case study is completed in conjunction with the field internship and/or education scenario. Written report and oral explication required. May be repeated up to 6 credits. Graded S/U.

**EDHH 6658 Teaching Language to the Deaf 3 credits.** Students gain theoretical and practical knowledge in the evaluation and habilitation of language/communication problems in Deaf and hard of hearing children and adolescents.

**EDHH 6659 Teaching Academic Subjects to the Deaf 3 credits.** Students gain theoretical and practical knowledge of how to teach academic subjects to the Deaf and hard of hearing children and individuals.

**EDHH 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Educational Administration Graduate Courses

**EDLA 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLA 6608 Organizational Leadership and Education Administration 3 credits.** Overview of leadership theories, principles of organizational development, personal leadership development, and systems theory with applications to education leadership.

**EDLA 6609 Principalship 3 credits.** Exploration of the role of school principal as leader and manager. Topics include data and records management, personnel management, school finance, technology, special services, school safety, and other building-level topics.

**EDLA 6612 School Law, Governance, and Ethics 3 credits.** Study of the legal principles of school administration; overview of the case law, federal and state statutes, school governance policies, and ethics that provide the foundation for application of the law to schools.

**EDLA 6613 Using Data to Improve School Leadership 3 credits.** Emphasis on the use and understanding of data analysis to improve teaching and learning in the classroom. Statistical analysis relating to educational leadership decision-making applications.

**EDLA 6614 Curriculum, Instruction, and Assessment 3 credits.** Study of curriculum principles and practices of high achieving

schools; overview of alignment of a standards-based curriculum with effective instructional practices and assessment.

**EDLA 6615 Supervision and Instructional Leadership 3 credits.** Examines the role of the principal as instructional leader in the supervision and evaluation of instruction, learning, and student achievement.

**EDLA 6630 Education Equity and Ethics 3 credits.** Designed to raise awareness among school leaders of equity issues and empower them to advocate equal opportunity for ALL students.

**EDLA 6642 School Culture and Community Relations 3 credits.** Overview of school culture and climate in relationship to school communications and public relations. Explores diversity and equity issues related to students, staff, and community.

**EDLA 6643 School Personnel Administration 3 credits.** Student of effective human resources management, including legal and ethical issues related to recruitment, selection, induction, staff development, employee assistance, evaluation, contract negotiations and personnel management.

**EDLA 6648 Independent Problems in Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLA 6649 Issues in Education Administration 3 credits.** Critical analysis of issues, trends and current topics in education administration.

**EDLA 6650 Thesis 1-6 credits.** PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U. May be repeated.

**EDLA 6651 Case Analysis in Education 1 credit.** An educational leadership scenario is presented to the student as a capstone experience for the Master's degree or principal certification program in Education Administration. A written report and oral explication is required. May be repeated one time. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**EDLA 6657 Internship 1-3 credits.** A partnership between the University and preK-12 schools providing students experience in school leadership and administration. Students complete 540 hours of internship including

400 hours of on-site work at all levels (elementary, middle, and high school) with accompanying portfolio. Student must enroll for 3 credits in their first semester, and at least 1 credit/semester of continuous enrollment. By application only. PREREQ: Two of EDLA 6608, EDLA 6612, and/or EDLA 6615. Graded S/U.

**EDLA 6662 The Superintendentcy 3 credits.** Study of school district leadership including organizational systems, ethics, change processes, school board operations, community relations, the role of education in a democratic society, and the needs of diverse constituencies.

**EDLA 6664 Public School Monetary Policy 3 credits.** Advanced study of the financial structure of public schools, including equity issues, taxation, revenue generation (grants) and budget development. Special emphasis on Idaho public education.

**EDLA 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLA 7748 Independent Problems in Education Administration 1-3 credits.** Individual field work and/or library research under staff guidance on specific education administration problems of interest to doctoral students in the Education Administration program. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLA 7751 Case Analysis in Educational Administration 1 credit.** A final case analysis is provided to the student as a capstone experience for the Education Specialist degree in Education Administration. A written report and oral explication required. This course will also serve as the final assessment for the *content specialization* are on the doctoral degree. May be repeated one time. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

## Educational Administration Doctoral Courses

**EDLA 7720 Legal and Ethical Issues in Educational Organizations 3 credits.** Advanced study of legal and ethical issues in educational organization and school systems, including major court cases, use of legal counsel and monitoring of legal compliance.

**EDLA 7721 Educational Policy and Governance 3 credits.** Study of the relationship

between politics, policy and governance of schools, including political systems, inter-governmental relations, power and conflict, and policy development regarding equity, quality and efficiency.

**EDLA 7723 Educational Planning and Evaluation 3 credits.** Study of planning and evaluation in schools and school districts including strategic planning, effectiveness and curriculum audits, facility planning, and program planning and evaluation.

**EDLA 7724 Data Informed Instructional Leadership 3 credits.** The study of the use of data to support district-wide planning, implementation, and monitoring of curriculum, assessment, and instruction.

**EDLA 7737 Practicum 1-3 credits.** Students observe, participate in and perform activities in a school setting. Designed to facilitate school/district leadership knowledge, skills and dispositions. Focus on certification standards. May be repeated for a maximum of 12 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

## Community College Doctoral Courses

**EDLC 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLC 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLC 7730 The Modern Community College 3 credits.** Course content addresses the history and philosophy of community college education, including Tribal colleges. Examines the mission, objectives, educational functions, populations served, student and faculty characteristics, and current issues facing community colleges in a global environment.

## Higher Education Administration Doctoral Courses

**EDLH 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

EDLH 6699 1-6 credits. This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLH 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLH 7730 History and Philosophy of Higher Education 3 credits.** Comprehensive analysis of the origin of institutions of higher learning, their philosophical foundations and historical contexts from the classical periods of Greece and Rome to the 20th century.

**EDLH 7731 Law in Higher Education 3 credits.** In-depth study of legal issues affecting public and private higher education institutions and systems. Emphasis on statutory provisions, court decisions, common law principles, and constitutional requirements.

**EDLH 7732 College and University Curriculum 3 credits.** In-depth study of current higher education curriculum practices and issues in the context of historical, philosophical, and political influences. Includes focus on processes of curriculum development.

**EDLH 7733 Finance in Higher Education 3 credits.** Critical analysis of issues in public and private higher education finance. Includes examination of alternative financing sources and methods, resource allocation, and fiscal management.

**EDLH 7734 Issues/Trends in Higher Education 3 credits.** Critical analysis of current topics in higher education. Consideration of roles and responsibilities of chief academic officers, boards of regents, faculties, and student services.

**EDLH 7735 Government and External Relations 3 credits.** Course explores leadership strategies for effective advocacy with state and federal policy makers, governing boards, development boards, foundations, business and industry, and the general public.

**EDLH 7736 Instructional Leadership and Faculty Affairs in Higher Education 3 credits.** Practical study of leadership values and practices unique to higher education and necessary for successful administration in the context of shared governance: focus on faculty leadership in processes of curriculum and program design for college learners; evaluation, remediation, and rewards; and the devel-

opment of academic policy.

**EDLH 7737 Practicum 1-3 credits.** A partnership between the Higher Education Concentration and various educational entities where students can experience higher education leadership and administration and there leadership can be assessed. Students engage in practical experience in leadership and administration. Students the requirements of a Practicum plan. Students must enroll for 3 credits in their first semester and at least 1 credit/semester of continuous enrollment until the Practicum is completed. May be repeated for a maximum of 12 credits. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**EDLH 7738 Assessment and Accountability in Higher Education 3 credits.** Key issues, strategies and challenges in developing assessment programs at the institutional, departmental and program levels that address national, state and accreditation mandates for accountability in higher education.

**EDLH 7739 Higher Education Leadership: Strategic and Enrollment Planning, Governance, Institutional Research 3 credits.** Study of leadership strategies for strategic and enrollment planning, application of institutional research, and negotiation of complex on- and off-campus governance systems required for successful higher education leadership.

**EDLH 7748 Independent Problems in Higher Education Administration 1-3 credits.** Individual field work and/or library research under staff guidance on specific higher education administration problems of interest to doctoral students in the Higher Education Administration program May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

## Educational Leadership CORE Doctoral Courses

**EDLP 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLP 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLP 7700 Change Strategies 3 credits.** Investigation and application of individual and

organizational change strategies and tactics.

**EDLP 7703 Leadership and Organizational Development 3 credits.** Students will identify and critique several leadership and organizational theories and their application to work environments, and demonstrate a professional code of ethics and values.

**EDLP 7705 Advanced Research Design I (qualitative) 3 credits.** Process-based examination of qualitative research designs and methodologies commonly used in education and related fields. PREREQ: EDUC 6601 AND EDUC 6610 OR EQUIVALENT, OR PERMISSION OF INSTRUCTOR.

**EDLP 7706 Advanced Research Design II (quantitative) 3 credits.** Process-based examination of quantitative research designs and methodologies commonly used in education and related fields. PREREQ: EDUC 6601 AND EDUC 6610 OR EQUIVALENT, OR PERMISSION OF INSTRUCTOR.

**EDLP 7721 Intermediate Statistics in Education 3 credits.** Applications of intermediate statistical methods used in the analysis of quantitative measurement data in education and related fields. Introduces time-series and multi-factor experiments. PREREQ: EDUC 6610 OR EQUIVALENT.

**EDLP 7722 Advanced Statistics in Education 3 credits.** Applications of advanced statistical methods most frequently used in the analysis of quantitative measurement data in education and related fields. PREREQ: EDUC 6610 AND EDLP 7705 OR EDLP 7706, OR PERMISSION OF INSTRUCTOR.

**EDLP 7748 Independent Problems in Educational Leadership 1-3 credits.** Individual field work and/or library research under staff guidance on specific education leadership problems of interest to doctoral students in the Educational Leadership program. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLP 7799 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLP 8800 Doctoral Seminar 1 credit.** Serves as an initiation/orientation to doctoral study. Exploration of educational leadership through readings, reflections, and dialogue. Taken during the first year of doctoral work. May be repeated. Graded S/U

**EDLP 8801 Capstone Seminar 1 credit.** Provides doctoral students with a capstone experience designed to support and facilitate the comprehensive examination preparation and dissertation processes. Taken during the final year of course work. May be repeated. Graded S/U.

**EDLP 8830 Comprehensive Examination 1 credit.** A capstone requirement of all doctoral students in the Doctor of Education program. Students enroll in EDLP 8830 when they have successfully completed all other core, concentration are, and cognate courses. Is a prerequisite for EDLP 8850. Instructor Permission Required. Graded S/U.

**EDLP 8850 Dissertation variable credits.** PREREQ: EDLP 8830. May be repeated. Instructor Permission Required. Graded S/U.

## Instructional Technology and Design Courses

**EDLT 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**EDLT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLT 5516/6616 Integration of Technology into School Curriculum 3 credits.** Examination of appropriate and effective uses of technology in K-12 environments; focus on research-based methods and integration strategies for online and hybrid teaching/learning environments that incorporate current and emerging digital tools.

**EDLT 6621 Issues and Trends in Instructional Technology 3 credits.** Examination and discussion of current issues and innovations in instructional technology. Includes analysis of relevant historical and current national trends and issues. PREREQ: EDLT 6616.

**EDLT 6626 Instructional Technology and Staff Development 3 credits.** Examination of in-service models for integration of technology into the K-12 curriculum, emphasizing integration of online and hybrid training environments that use current and emerging digital tools for professional development. PREREQ:

EDLT 6616, EDLT 6655.

**EDLT 6639 Delivering Instruction in Electronic Formats 3 credits.** In-depth study of distance education; emphasis on various models of online delivery, content organization and presentation, graphic design principles, and incorporation of current and emerging technology tools for online environments. Students will conduct a field-test of an online instructional module and present a report of the instructional design process. PREREQ: EDLT 6656.

**EDLT 6646 Information Systems 3 credits.** Investigation and application of computer software programs that reinforce administrative practices. Application of programs that promote effectiveness and efficiency through the appropriate development and use of data.

**EDLT 6648 Independent Problems in Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLT 6649 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Enrollment limited. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLT 6650 Thesis 1-6 credits.** Graded S/U.

**EDLT 6651 Field Project/Case Study in Education 1-6 credits.** A field project or case study is completed in conjunction with a field practicum/internship in an educational setting. Written report and oral explication of the project or case study required. Graded S/U.

**EDLT 6652 Field Practicum in Education 1-6 credits.** Individually designed practicum in an educational setting. The length, placement, and learning experiences will be determined in consultation with the major advisor. Graded S/U.

**EDLT 5555/6655 Fundamentals of Instructional Design 3 credits.** Introduction to recognized, standard instructional design models in the field as well as design principles that guide the development of instructional materials. Students will create an instructional unit for online delivery incorporating appropriate multimedia materials. Principles related to ADA Section 508, Assistive Technology, and Universal Design for Learning will be emphasized in designing for the teaching/learning environment. PREREQ or COREQ: EDLT 5516/6616.

**EDLT 6656 Fundamentals of Multimedia Development in Education 3 credits.** Exploration of the use of multimedia technology for designing digital learning content; emphasis is on online design, delivery, and evaluation. Students will conduct a field-test of a multimedia instructional module and present a report of the instructional design process. PREREQ: EDLT 6655.

**EDLT 6659 Online Teaching Internship 6 credits.** Candidates assume instructional and management responsibilities in supervised online elementary/secondary settings. Includes weekly professional development consultations. All coursework as indicated in the Online Teaching Endorsement program of study must be completed prior to enrollment in the Online Teaching Internship course. PREREQ: EDLT 6616, EDLT 6626, EDLT 6639, EDLT 6655, EDLT 6656. Grades S/U. F, S.

**EDLT 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDLT 7737 Practicum 3 credits.** This is an individually designed field experience in an area of technology, supporting and extending course work within this area of concentration. The length, placement, and prescribed learning experiences will be determined in consultation with the Educational Technology advisor. May be repeated for maximum of 12 credits.

**EDLT 7740 Instructional Systems Design I 3 credits.** Examination of the instructional design process; applications of current research related to development of instructional multimedia materials. PREREQ: EDLP 7706.

**EDLT 7742 Multimedia Authoring I 3 credits.** Use of Macromedia Director as the main authoring system for designing instruction. PREREQ: STUDENT MUST BE EXPERIENCED USER OF HYPERMEDIA PROGRAMS; EDLT 7740.

**EDLT 7743 Multimedia Authoring II 3 credits.** Advanced use of Macromedia Director as an authoring system. Includes creation of digital sound graphics, animation, and movies. Student will produce a multimedia project. PREREQ: EDLT 7742.

**EDLT 7744 Instructional Systems Design II 3 credits.** Advanced study of instructional design process. Includes consideration of current research related to formative and summative evaluation techniques for multimedia design. PREREQ: EDLT 7740.

**EDLT 7745 Instructional Design for Distance Learning Delivery 3 credits.** Exploration of effective uses of multimedia materials in the distance learning environment. Includes investigation of skills needed for creating instructional media for distance learning. PREREQ: EDLT 7742 AND EDLT 7744.

**EDLT 7748 Independent Problems in Instructional Design 1-3 credits.** Individual field work and/or library research under staff guidance on specific instructional design problems of interest to doctoral students in the Instructional Design program. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**EDLT 7749 Instructional Design Seminar 3 credits.** Critical analysis of current research and emerging issues and trends in Instructional Design. May be repeated up to 6 credits. PREREQ: Membership in Ph.D. Doctoral Cohort.

**EDLT 8850 Dissertation variable credits.** Graded S/U.

## Education Graduate Courses

**EDUC 5519 Developmental Literacy 3 credits.** Instructional strategies for reading, emphasizing early literacy and language development, phonemic awareness, phonics, word recognition strategies, comprehension and meta-linguistic awareness. PREREQ: EDUC 3321 OR PERMISSION OF INSTRUCTOR.

**EDUC 5520 Advanced and Compensatory Reading Strategies 3 credits.** Advanced training for developmental/remedial reading, emphasizing study skills, critical/creative reading, and meta-cognition. Content area application. PREREQ: EDUC 3333 AND TEACHING EXPERIENCE OR PERMISSION OF INSTRUCTOR.

**EDUC 5524 Assessing Literacy Abilities 3 credits.** Methods of assessment in literacy. Introduction to case study, formal and authentic measures of comprehension, vocabulary, study strategies, and writing. PREREQ: EDUC 5519 or the Idaho Comprehensive Literacy Assessment, OR PERMISSION OF INSTRUCTOR.

**EDUC 5526 Remediation of Literacy Problems 3 credits.** Teaching strategies for remediating problems in literacy. Emphasis on planning, implementing, and evaluating approaches and materials. PREREQ: EDUC 5524.

**EDUC 5560 Foundations of ESL 3 credits.** Study of ESL learner characteristics, historical, philosophical, cultural and linguistic foundations of ESL. Theories of language acquisi-

tion and those of leaders in the field will be included.

**EDUC 5563 ESL Methods 3 credits.** Language assessment, planning, and delivery for teaching limited English proficient K-12 students. Appropriate methods for students at various developmental stages of language acquisition will be studied. PREREQ: EDUC 5560 OR PERMISSION OF INSTRUCTOR.

**EDUC 5564 ESL Practicum 1 credit.** Field experience in settings with English-as-a-Second-Language learners. COREQ: EDUC 5563 OR PERMISSION OF INSTRUCTOR.

**EDUC 5570 Manipulative Mathematics 3 credits.** Study of methods for teaching mathematics through the modern math approach stressing manipulations. Consideration is given to diagnostic and remedial procedures for exceptional children.

**EDUC 5571 Interpersonal Communications 2 credits.** Examination of basic concepts, principles, models, and theories of interpersonal communications and their application to educational settings.

**EDUC 5581-5582 Contemporary Issues in Education 1-3 credits.** Examination and analysis of contemporary issues and trends in theories and practices in education.

**EDUC 5583 Instructional Improvement for Teachers 1-3 credits.** Study of ways by which teachers can improve instruction in their own classrooms with emphasis on the findings of research and experiences.

**EDUC 5585 Independent Problems in Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**EDUC 5591 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Limited enrollment. PREREQ: PERMISSION OF INSTRUCTOR.

**EDUC 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**EDUC 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and an-

nounced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EDUC 6601 Research and Writing 3 credits.** Examination of methods for designing/conducting research in education and related fields and of procedures for formal report writing using APA style and format.

**EDUC 6602 Theories of Learning 3 credits.** Advanced study of the psychology of human learning and instruction. Emphasis will be given to the application of contemporary theories of learning to instructional practice and the design of effective learning environments.

**EDUC 6610 Applied Educational Statistics 3 credits.** Application of parametric and non-parametric statistical procedures for summarizing and analyzing qualitative and quantitative measurement data in conducting research and for report writing in education and related fields. Covers descriptive statistics to single-factor experiments.

**EDUC 6612 Learners and the Content 3 credits.** Examination of curriculum scope and sequence within the context of varying learner needs. The course will focus on curriculum alignment with state and national standards and the connecting of content to learner characteristics and developmentally appropriate teaching practices. PREREQ: COHORT ADMISSION. COREQ: EDUC 6602.

**EDUC 6614 Pedagogy and Content Knowledge 3 credits.** Investigation of the structure of subject matter knowledge and how it determines pedagogical content. The course will examine philosophical perspectives, models of teaching, and develop contemporary applications. PREREQ: COHORT ADMISSION AND EDUC 6602.

**EDUC 6618 Learning Communities 3 credits.** Exploration of learning communities and examination regarding models for how they are created and sustained through curriculum leadership. The course includes such topics as parental involvement, curriculum for diverse learners, and collaborative teaching practices. PREREQ: EDUC 6612 AND EDUC 6614.

**EDUC 6620 Motivation for Learning 3 credits.** Advanced study of theories and research on student motivation including strategies for linking motivation to classroom management and curriculum. Topics include individual differences, interpersonal motivation, self-motivation, and lifelong learning. PREREQ: EDUC 6612.

**EDUC 6622 Educational Assessment and Evaluation 3 credits.** Construction, administration and interpretation of educational assessments for the systematic analysis of student learning and teaching practice. Emphasis is placed on the use of assessment results in planning and valuation of curriculum leadership. PREREQ: EDUC 6610.

**EDUC 6627 NBPTS Certification Part I 3 credits.** Provides a framework for completion of the requirements for National Board for Professional Teaching Standards Certification. Examination of the standards and portfolio guidelines; provision of support and consultation in gathering and presenting documentation.

**EDUC 6628 NBPTS Certification Part II 3 credits.** Mentors and supports teachers through advanced National Board for Professional Teaching Standards. Development of classroom-based portfolio entries and preparation for assessment center exercises. PREREQ: EDUC 6627.

**EDUC 6630 Advanced Elementary Methods 3 credits.** Advanced study of the subject content and teaching methods in grade K-8 programs. The course includes emphasis on development of materials, lesson planning, instructional strategies, assessment, and application of technology for information acquisition, analysis, and presentation by students and teacher.

**EDUC 6631 Advanced Secondary Methods 3 credits.** Advanced study of the subject content and teaching methods in grade 6-12 programs. The course includes emphasis on development of materials, lesson planning, instructional strategies, assessment and application of technology for information acquisition, analysis, and presentation by students and teacher.

**EDUC 6632 Psychology of Literacy 3 credits.** Examination of the nature of symbolic systems within the literacy field from the perspective of contemporary psychological science. Topics include decoding, lexical access, referential representation, and meta-cognition.

**EDUC 6633 Language, Literacy, and Neurology 3 credits.** Theories and principles based on research in psycholinguistics and neurophysiology as related to literacy.

**EDUC 6634 Literacy: Multicultural Views 3 credits.** Theories and research in language acquisition and development across cultures including emphases on second language acquisition, dialects, and regionalisms affecting both oral and written codes.

**EDUC 6635 Clinical Methods in Literacy 3-6 credits.** Consulting, supervising, evaluating, writing case reports, and relating research and theories in literacy to clinical methods. May be repeated up to 6 credits. PREREQ: EDUC 5524, EDUC 5526, AND EDUC 6633.

**EDUC 6637 Leadership in Curriculum Development 3 credits.** Development of the knowledge, skills, and disposition essential to effective curriculum leadership. While drawing on philosophy, the course focuses on the practical applications of leadership, including curriculum vision, development, management, and evaluation. PREREQ: EDUC 6618, EDUC 6660, AND EDUC 6622.

**EDUC 6638 Supervision of Interns and Student Teachers 2 credits.** Role and responsibilities of supervisory personnel in the intern and student teaching programs including student orientation readiness, planning and techniques of instruction, and evaluation. PREREQ: PERMISSION OF INSTRUCTOR.

**EDUC 6640 Workshop 1-2 credits.** Special projects concerned with public school education. Meets for a minimum of 36 clock hours with appropriate outside assignments, lessons, or papers. May be repeated up to 6 credits.

**EDUC 6641 Advanced Studies in K-12 Curriculum 3 credits.** Advanced study of research and development of subject-specific curriculum in K-12 environments. PREREQ: EDUC 6601; EDUC 6630 or EDUC 6631.

**EDUC 6648 Independent Problems in Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to graduate students in education. Experience in research composition. May be repeated up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**EDUC 6649 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Enrollment limited. PREREQ: PERMISSION OF INSTRUCTOR.

**EDUC 6650 Thesis 1-6 credits.** Graded S/U.

**EDUC 6651 Field Project/Case Study in Education 1-6 credits.** A field project or case study is completed in conjunction with a field practicum/internship in an educational setting. Written report and oral explication of the project or case study required. Graded S/U.

**EDUC 6652 Field Practicum in Education 1-6 credits.** Individually designed practicum in an educational setting. The length, placement, and learning experiences will be determined in consultation with the major advisor. Graded

S/U.

**EDUC 6670 Seminar in Elementary Education 3 credits.** Examination of research and current issues in Elementary Education. Seminar format requires active participation in readings, discussion, written assignments, and presentations.

**EDUC 6671 Seminar in Secondary Education 3 credits.** Examination of research and current issues in Secondary Education. Seminar format requires active participation in readings, discussion, written assignments, and presentations.

**EDUC 6675 Curriculum Project 3 credits.** Completion of a curriculum project within the context of a supportive learning community, or, for those teachers who have achieved National Board Certification, submission of the portfolio. PREREQ: PERMISSION OF CURRICULUM LEADERSHIP PROGRAM MAJOR ADVISOR AND EDUC 6601.

**EDUC 6676 Evaluation Research Practicum 3 credits.** Supervised on-going assessment of curriculum projects and the systematic evaluation of their implementation in educational settings or, for those teachers who have achieved National Board Certification, content analysis of the portfolio. Each student will complete an independent curriculum evaluation project. PREREQ: PERMISSION OF CURRICULUM LEADERSHIP PROGRAM MAJOR ADVISOR.

**EDUC 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Organizational Learning and Performance Graduate Courses

**OLP 5501 Foundations of PTE and HRD 3 credits.** Acquaints the student with the various aspects of professional-technical education: history, legislation, philosophy, and organization of professional-technical education. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5502 Occupational Analysis and Course Construction 3 credits.** Analysis of components of occupations to determine instructional content. Development of instructional materials based on performance objectives and competency identification. Specific, evaluated graduate-level activities and/or per-

formances are identified in the course syllabus.

**OLP 5503 Methods for Teaching in Corporate and Professional-Technical Education 3 credits.** Teaching methods and techniques applicable to teaching in corporate and professional-technical education. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5504 Evaluation in Corporate and Professional-Technical Education 3 credits.** Designing and conducting evaluations at four levels in professional-technical education, and in business and industry training, including data analysis and preparation of evaluation reports. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5505 Learning Fundamentals: 3 credits.** Examination of the research related to learning fundamentals and implications for curriculum and instruction. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5506 Grantwriting 3 credits.** Reasons for requesting a grant, goal setting, sample projects, identifying funding agencies, submitting a request for proposal (RFP), elements of a good proposal, library resources, web sites, and other references for grant writing. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5507 Instructional Technology in HRD 3 credits.** Applying evidence-based instructional principles to design, development, and evaluation of synchronous and asynchronous e-learning. Includes development of online multi-media materials for professional, industry, and educational application. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5509 Professional Readings and Writing 3 credits.** Exposure to the professional literature and web sites of professional-technical education and corporate training, including practice in writing abstracts of journal articles using APA Style. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5510 Principles of Change 3 credits.** Critical analysis and discussion of change management theory, principles of leadership and change, and an in-depth review of principles related to personal change. Includes a review of current issues in managing transitions, leading change. Specific evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5531 Workplace Leadership 3 credits.** Supervising in a professional-technical education or corporate training setting. Study human relation factors: planning, organizing, evaluation, staff development, labor relations, and personnel policies/practices. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5544 Career Guidance and Special Needs 3 credits.** Examine career guidance concepts, specialist services, special needs legislation, abilities and inabilities (both mental and physical), job seeking skills, and information sources. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5550 Adult Learning Theory 3 credits.** Provides an understanding of adult learning theory as a body of academic inquiry and as applied in professional practice. Examines current and past theory and practice of adult learning. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5557 Facilitating Adult Learning 3 credits.** Study of the needs and interests of adult learners in business and industry using Andragogy. Planning of conferences and workshops for adult learners. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5561 Directed Studies 1-4 credits.** Individual work under staff guidance. Field research on specific occupational advances in technology. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

**OLP 5564 Instructional Facilities Management 3 credits.** Organization, safety and management of professional-technical education training facilities. An in-depth study of laboratory requirements and total facility planning. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**OLP 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be re-

peated. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**OLP 6631 Principles of HRD 3 credits.** Designed to be one of the first courses students take, this course introduces foundational principles of the human resource development discipline that should serve as an integrative thread throughout the M.OLP program. This course introduces research, performance, change, and learning and development concepts.

**OLP 6632 Research in Organizations 3 credits.** Examination of methods for designing and conducting research in both educational and workplace settings. Introduction to procedures for summarizing and analyzing quantitative and qualitative data with proper style and format requirements for formal report writing. PREREQ: OLP 5509 OR PERMISSION OF INSTRUCTOR.

**OLP 6633 Design and Evaluation 3 credits.** Review of practical curriculum design and evaluation models, frameworks, and best practices that guide the design and implementation of learning and development programs for organizations in a variety of sectors.

**OLP 6634 Leadership of Learning, Development, and Change 3 credits.** Exploration of leadership influences on learning and development, with a focus on effective change leadership and the development of change agents within organizations. Learning will be defined as an overarching process within an organization's structure that enables knowledge sharing, including training. Development will address talent management and motivation in a context of change initiatives.

**OLP 6635 Field Experience in HRD 3 credits.** An individually designed field experience under the supervision of the faculty and an experienced professional. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

**OLP 6636 Strategic Planning and HRD 3 credits.** Examination of HRD frameworks and approaches for developing effective strategic plans. This course develops organizational learning and performance professionals who can facilitate strategic planning and decision-making toward advancing the organizational enterprise.

**OLP 6637 Internship in HRD 1-3 credits.** An individually designed professional experience under the supervision of the faculty and an experienced practitioner in the field. May be repeated up to 6 credits. Graduate S/U. PREREQ: PERMISSION OF INSTRUCTOR

REQUIRED PRIOR TO REGISTRATION.

**OLP 6640 Seminar in HRD 1-3 credits.** Current topics in the management of human resource development presented by department faculty and visiting lecturers. Maximum of 3 credits applied to the degree. Graded S/U.

**OLP 6645 Field Research Project in HRD 1-3 credits.** An individual field research project must be completed; a written report and oral explanation of the report will be required. May be repeated up to 6 credits. Graded S/U. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

**OLP 6650 Thesis 1-6 credits.** Graded S/U. PREREQ: PERMISSION OF INSTRUCTOR REQUIRED PRIOR TO REGISTRATION.

**OLP 6660 Contemporary Issues in HRD 3credits.** Exploration of issues relating to the functions of HRD - Individual Development, Career Development, and Organizational Development. Emphasis on how these functions relate to the industrial/business environment.

**OLP 6661 Performance Improvement 3credits.** Through a systems approach, critical analysis, discussion, and application of performance technology in the workplace. Includes review of current research, theories, methods, and models.

**OLP 6662 Distance Learning Delivery Practices 3 credits.** Exploration of the distance delivery medium including on-screen practices, media development, curriculum planning, instructional strategies, technical support. Includes review of research and theory relating to distance learning.

**OLP 6663 Instructional System Evaluation 3 credits.** Critical analysis and discussion of the roles of evaluation in HRD. Emphasis on theories of program and curriculum evaluation.

**OLP 6664 Topics in Human Resource Development 3 credits.** Critical analysis of current topics in human resource development. Opportunities will be provided for students to study independently with specialists in topic areas.

**OLP 6680 Advanced Technical Competency 1-4 credits.** Advanced occupational skills and knowledge obtained from modern practice in selected field. For experienced professionals seeking advanced techniques in

specialized areas of PTE, and HRD. PREREQ: APPROVAL OF ADVISOR REQUIRED.

**OLP 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Physical Education Graduate Courses

**P E 5513 Sport in Cinema 3 credits.** Investigate sport, and the treatment of sport, through the medium of modern cinema. Sport will be analyzed from the sociological, psychological, moral and ethical perspective of the filmmakers. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**P E 5527 Personal Trainer Certification 3 credits.** Theoretical knowledge and practical skills in preparation for national certification exam in personal training. Guidelines for instructing safe, effective and purposeful exercise; essentials for the client-trainer relationship, conducting health and fitness assessments, and designing and implementing appropriate exercise programming.

**P E 5565 Organization and Administration of Intramural Sports 3 credits.** Study of various methods of organizing and administering intramural sports programs on the junior high school, high school, and college levels.

**P E 5573 Facility Planning and Design 3 credits.** An investigation of the various components, principles, and fundamental practices involved in facility planning and design for physical education, athletics, and recreation. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**P E 5580 Coaching Problems 1-3 credits.** Athletic control, eligibility, new coaching techniques, finances, safety measures, public relations, duties of coaches, managers, and officials. May be repeated for up to 4 credits. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**P E 5581 Coaching Clinic 1 credit.** ISU is a sponsor of the annual Idaho Coaches Association Clinic held during the first week of August. Instruction offered in football, basketball, and other sports by coaches of national reputation. May not be applied to degree programs.

May be repeated. Graded S/U.

**P E 5585 Independent Problems in Physical Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific physical education problems. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**P E 5591 Physical Education Workshop 1-3 credits.** A critical analysis of one or more areas of physical education. Limited enrollment. May be repeated up to six credits. PREREQ: PERMISSION OF INSTRUCTOR.

**P E 5594 Adapted Physical Activity 3 credits.** History, philosophy, and the teaching/learning process in providing adapted physical activity in schools and community-based settings. Includes clinical experiences. PREREQ: BIOL 301 OR EQUIVALENT, OR PE 243, PE 300 AND PE 362.

**P E 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**P E 6605 Leadership and Administration 3 credits.** Development of leadership skills and the dynamics of group process relative to effective interpersonal relationship with special emphasis on Physical Education and Athletic programs and personnel needs.

**P E 6610 Advanced Sport Psychology 3 credits.** Designed to define, critique, and apply critical perspectives of sport and exercise psychology, including aggression theories, violence, cohesion, and social facilitation. Aspects of coaching theory and its application are included.

**P E 6612 Advanced Sociology of Sport 3 credits.** Social aspects of sport and society, with emphasis on the relationship between sport, culture, and ideology.

**P E 6615 Philosophy and Principles of Athletics in Education 3 credits.** The role of athletics in education, the function and organization of leagues and conferences of coaches, certification of coaches, ethics, and public relations.

**P E 6620 Curriculum and Supervision 3 credits.** Consideration of the physical education curriculum in public schools and in colleges and universities. Recent developments and current trends that influence the curriculum and supervision policies. Observation techniques, standards in judging instruction, the supervisory conference, cooperative super-

vision, basic foundation of curriculum construction, and lesson planning.

**P E 6622 Survey of Professional Literature 3 credits.** Identification and investigation of professional literature and its application to current and future directions of the field. Extensive reading and formal writing required. May be repeated.

**P E 6625 Advanced Sport Marketing 3 credits.** Introduction to the basic nature of marketing in sport and athletics as it relates to consumer behavior, research in sport marketing, defining the sport product, market segmentation, pricing, promotion, and public relations, and the legal aspects of sport/athletics.

**P E 6631 Athletics and the Law 3 credits.** A study of the administrative role relating to the regulation of athletic competition and athletic programs. A review of significant court cases dealing with sports law, with application to the school setting.

**P E 6635 Management Aspects of Athletics 3 credits.** Factors involved in the conduct of athletic events such as contracts, scheduling, travel, game management, crowd control, and the legal implications of athletics.

**P E 6640 Research and Writing 3 credits.** Analysis and interpretation of the basic principles of research and writing as they relate to physical education, athletics and allied fields of endeavor. Integration of research and writing procedures likely to have the greatest influence on programs and practices relating to the administration of P.E.D. - programs.

**P E 6648 Problems 1-3 credits.** Individual and group study of problems in the areas of physical education and recreation. May be repeated to 6 hours credit.

**P E 6649 Issues in PED and Athletic Administration 3 credits.** A study of the current issues applicable to the administration of PED and athletics. Opportunities may be afforded for study within specialized areas. May be repeated up to 6 hours with departmental permission.

**P E 6650 Thesis 1-6 credits.** Graded S/U.

**P E 6651 Master's Project in P.E.D. & Athletics 1-3 credits.** May be repeated. May be graded S/U.

**P E 6655 Internship 1-3 credits.** Administration, supervision and operation of a P.E.D. or Athletic Program. Students work under the direction of a graduate faculty

member and practicing administrator. May be repeated up to 6 credit. May be graded S/U. PREREQ: APPROVAL OF ADVISOR AND/OR CHAIR.

**P E 6658 Athletics in the West 3 credits.** Field-based review of programs and topics related to physical education and athletic administration, including: tours of facilities in schools, colleges, and professional athletics; lessons and seminars with practitioners and scholars.

**P E 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Special Education Graduate Courses

**SPED 5523 Designing Instruction 3 credits.** Introduction to instructional design principles and strategies for engaging students in higher order thinking and problem-solving. Emphasis on teaching complex concepts in reading comprehension, writing, mathematics and other academic subjects. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5524 Assessment Procedures in Special Education 3 credits.** Introductory study of diagnostic assessment techniques and the writing of individual educational, behavioral prescriptions, and instructional objectives which are required to provide interventions suitable for remediating the learning programs in basic school curricula. PREREQ OR COREQ: SPED 330 AND SPED 334 OR PERMISSION OF INSTRUCTOR.

**SPED 5526 Assessment: Severe Disabilities 3 credits.** Selection, administration, and interpretation of criterion-referenced tools employed with severely disabled students. Emphasizes functional approach to assessment and evaluation of behavioral and instructional domains. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5527 Precision Teaching 1 credit.** Techniques of data collection, charting, and decision making in the educational programs of children with disabilities. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5529 Strategies: Severe Disabilities 3 credits.** Consideration and evaluation of curriculum materials from behavioral, developmental, and ecological perspectives. Emphasizes functional approach to development and

implementation of individualized intervention plans. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5532 Direct Instruction Systems 3 credits.** This course provides mastery level skills training in direct instruction systems for reading, math, and written language. Includes field work, adaptation of curricula to direct instruction model and evaluation. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5533 The Emotionally Disturbed Child 3 credits.** Survey of the causes of emotional disturbance in children and the effects upon the child's school performance and achievement. School programs and treatment considerations will be reviewed.

**SPED 5538 Policies and Procedures in Special Education 3 credits.** Consideration of legal background, current court ruling, professional responsibilities, and models for consultation and collaboration in a variety of educational settings. Includes the IEP process. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5540 Biomedical Aspects of Physical Disability 2 credits.** Study of the causes, treatments, and educational implications of physical and neurological disorders of genetically and orthopedically disabled children. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5543 Autism 2 credits.** An overview of autism and implications for educational planning. Teaching strategies that are successful in working with individuals who have autism will be reviewed.

**SPED 5546 Secondary Special Education 3 credits.** Teaching methodology focusing on needs of secondary and adult special education students. Topics include functional academics, transition, independent living, social skills, vocational training, employment options, and accessing community resources. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5548 Pre-practicum, Moderately Handicapped 1-3 credits.** Supervised practical work with moderately handicapped children in a clinical setting. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5550 Creating Inclusive Classes 3 credits.** Curricula and methods for educating students with disabilities in general education classrooms. Emphasizes inclusive lesson design, curricular adaptations, and collaborative teaching.

**SPED 5562 Advanced Issues in Behavior Disorders 2 credits.** Study of educational organization, collaboration and consultation

skills necessary to provide integrated service for this exceptionality. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5580 Seminar in Special Education 1 credit.** Current topics in the field of special education by departmental faculty and guest lecturers. May be repeated for a total of 2 credits. GRADED S/U.

**SPED 5581 Seminar: Behavior Disorders 1 credit.** Covers topical issues related to the education of children with behavior disorders in a variety of educational and therapeutic settings. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5585 Independent Problems 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U.

**SPED 5591 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Limited enrollment. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U or on a letter-grade basis in separate sections.

**SPED 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**SPED 5598 Advanced Fieldwork 1-3 credits.** Orientation, observation, planning and implementation of special education instruction in a special education setting in the public schools. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SPED 6630 Professional Development in Special Education 2 credits.** Issues related to the professional role of the master's-degree-level special educator, including professional societies, history, philosophical and humanistic foundations.

**SPED 6632 Administration of Special Education 2 credits.** Supervision of special education, including the organization, financing, equipping, housing, and staffing of educational

facilities for exceptional children. Also includes legal provisions relevant to special education.

**SPED 6633 The Behaviorally Maladjusted Child 3 credits.** Comprehensive study of the characteristics, learning problems, educational organizations, and teaching competencies for this exceptionality. PREREQ: SPED 334 OR PERMISSION OF INSTRUCTOR.

**SPED 6634 The Mentally Gifted Child 3 credits.** Physical, mental, emotional, and social characteristics of the mentally gifted; teaching procedures, types of organization, analysis of educational need, and curricula material used in their education.

**SPED 6636 Medical and Health Issues in Special Education 2 credits.** Consideration of medical and health issues, problems, and practices as they pertain to children with disabilities in hospital-, home-, and school-based programs.

**SPED 6638 Practicum in Special Education 2-8 credits.** Individual observation, program development, and supervised practice in the development of teaching competencies for the education of exceptional children. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**SPED 6639 Internship in Special Education 3-12 credits.** A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: SPED 6638 AND PERMISSION OF INSTRUCTOR. Graded S/U.

**SPED 6650 Thesis 1-6 credits.** May be repeated. Graded S/U.

**SPED 6651 Master's Paper 1-3 credits.** A paper involving extensive familiarity with research findings written under the supervision of a faculty member in the department. May be repeated. Graded S/U.

**SPED 6652 Specialist Paper 1-3 credits.** A paper involving extensive familiarity with research finding under the supervision of a faculty member of the program, consisting of applied research activity in the field of special education, written in format appropriate for publication consideration by a peer-reviewed journal.

**SPED 6658 Independent Problems 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research

composition. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 6659 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 6662 Consultation in Schools 2 credits.** Provides theoretical and practical experience in the development, implementation, and evaluation of a variety of consulting strategies suitable for working with teachers, administrators, community agencies, and parents. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SPED 7758 Independent Problems 2-4 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**SPED 7759 Ed.S. Internship 1-9 credits.** - Placement in a post-master's degree counseling, school psychology, or special education setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: COMPLETION OF ALL PROGRAM COURSE WORK, AND PERMISSION OF INSTRUCTOR. Graded S/U.

## School Psychology Graduate Courses

**SCPY 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**SCPY 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**SCPY 6614 Diagnostic Evaluation of Learning Difficulties 3 credits.** Investigation of theoretical and applied assessment of intervention measures suitable for remediating learning

problems.

**SCPY 6615 Advanced Child Psychology 3 credits.** In-depth study of the principles of educational psychology and child development. Emphasis will be placed on applying research-based practices from the science of educational psychology to solve problems found in schools and other social settings. PREREQ: EDUC 6602.

**SCPY 6616 Psychological Assessment 3 credits.** Psychometric assessment to determine eligibility of students and provide diagnostic information to develop interventions and assess their effects. Includes writing of integrated reports that address various exceptionalities. PREREQ: SCPY 6614 AND SCPY 6619.

**SCPY 6619 Individual Intelligence Testing 3 credits.** Supervised practice in administering, scoring, and interpreting the results of individual intelligence tests. Each section limited to 6 students. PREREQ: PERMISSION OF INSTRUCTOR.

**SCPY 6652 Specialist Paper 1-3 credit.** An applied research paper in school psychology, written in format appropriate for publication consideration by a peer-reviewed journal. A candidate is allowed to take 1 to 3 credits each semester but has to take at least 1 credit each semester until his or her paper is completed as approved by the instructor. May be repeated. PREREQ: EDUC 6601

**SCPY 6657 Legal and Ethical Issues in School Psychology 2 credit.** This course is intended to address a variety of professional issues, including legal and ethical principles, professional standards of practice, and ethical decision making within the context of the unique professional practice of school psychology. Students will become familiar with the ethical principles of the American Psychological Association and the Nation Association of School Psychologists and learn to apply these principles to specific areas of school psychology practice such as assessment, intervention, and research.

**SCPY 6658 Independent Problems 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**SCPY 6659 Multicultural Issues in School Psychology 2 credits.** This course is designed to examine cultural, socioeconomic, and ethnic variables unique to the practice of school psychology in the public school setting. The content of this course will include applying

knowledge of cultural socio-economic, and ethnic differences to school psychology assessment, intervention, counseling, and English language acquisition issues.

**SCPY 6660 Seminar in School Psychology 3 credits.** Introduce students to the field of school psychology through guest speakers, literature, and discussion. Focus on assessment, diagnosis, professional ethics, historical development, and school law. PREREQ: PERMISSION OF INSTRUCTOR.

**SCPY 6662 Consultation in the Schools 3 - credits.** Provides theoretical and practical experience in the development, implementation, and evaluation of a variety of consulting strategies suitable for working with teachers, administrators, community agencies, and parents. PREREQ: SCPY 6665 AND PERMISSION OF INSTRUCTOR.

**SCPY 6663 Clinical and Diagnostic Interviewing in Schools 3 credits.** This is an advanced clinical interview skills course in which knowledge and training are obtained in how to conduct clinical interviews with children and families in educational settings. Special consideration is given to conducting Mental Health Intake Interviews, Mental Status Examinations, Suicide Assessments, Targeted Violence Assessment, and Interviewing Special Populations. PREREQ: SCPY 6615, 6616, 6665, OR PERMISSION OF INSTRUCTOR.

**SCPY 6664 Neurocognition and Learning 3 credits.** This course will increase skills of school psychologists and educators in applying neurocognitive research to psychoeducational adjustment in schools. Content will emphasize intervention, assessment, instruction, consultation, individual differences in emotionality, attention, memory, and problem solving. PREREQ: EDUC 6602.

**SCPY 6665 Clinical School Psychology 3 credits.** This course explores the clinical elements of school-based mental health services provided by school psychologists in public school settings. The educational manifestations of childhood and adolescent psychopathology are examined within the context of the DSM-IV-TR. special emphasis is given to understanding the complexities of childhood mental illness and its unique educational impact on children and adolescents. COREQ: SCPY 6667

**SCPY 6668 Practicum: Introduction to School Psychology, Learning Disabilities, and Special Education 3 credits.** Supervised experience in educational, intelligence, and personality testing as well as diagnostic evaluation of learning difficulties and report writing. Special emphasis on the interpretation of

test results to teachers, counselors, and administrative personnel. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: SCPY 6619 AND PERMISSION OF INSTRUCTOR. COREQ: SCPY 6614.

**SCPY 6669 Advanced Practicum in School Psychology 1-12 credits.** A combination of fifty hours of experience and supervision equals one hour of academic credit. The weekly supervision seminars provides the candidate with supplementary guidance, support, and educational information regarding professional issues of school psychology such as techniques of providing in-service training and integration of technology into student learning through case discussion, supplemental readings, direct instruction, and guest speakers. PREREQ: SCPY 6668 AND PERMISSION OF INSTRUCTOR.

**SCPY 6670 Practicum in School Psychology Clinic 1-2 credits.** Second-year students will process school and community-based referrals. Fifty (50) hours contact time per credit. This involves a collaborative problem-solving approach with school-based teams to gain experience with pre-referral activities, evaluation, and intervention plans. May be repeated. COREQ: SCPY 6665.

**SCPY 6672 Problem Solving Intervention in Schools 3 credits.** This course will provide a foundation in skills, knowledge and practice that reflects a "Problem-solving Intervention" (PSI) approach to assessment and intervention implementation in schools.

**SCPY 6673 Response to Intervention in Schools 3 credits.** This course integrates both the theory and practical application of Response to Intervention (RTI) used for development and implementation of effective interventions pertaining to academic and behavioral "problems" in school settings.

**SCPY 6682 Cognitive-Behavioral Intervention (CBI) in Schools 3 credits.** This course provides theoretical and practical experience in the development, implementation, and evaluation of a variety of cognitive-behavioral interventions when working with teachers, administrators, community agencies, and parents. This course examines both "intervention" and "consultation" principles and strategies. The primary focus is the scientific research and applications of cognitive-behavioral interventions to achieve improved performance and success of students in schools.

**SCPY 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the schedul-

ing department. Experimental courses may be offered no more than three times. May be repeated.

**SCPY 7759 Ed.S. Internship 1-9 credits.** Placement in a post-master's degree counseling, school psychology, or special education setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: COMPLETION OF ALL PROGRAM COURSE WORK, AND PERMISSION OF INSTRUCTOR

# Division of Health Sciences

Linda C. Hatzenbuehler, Ph.D., Associate Vice President and Executive Dean

Paul S. Cady, Ph.D., Dean, College of Pharmacy

Brian R. Crarford, D.D.S., Coordinator, Office of Medical and Oral Health

Nancy Devine, DPT, Associate Dean, School of Rehabilitation and Communication Sciences

Tracy Farnsworth, M.H.S.A., M.B.A, Interim Associate Dean, Kasiska School of Health Professions

Rex W. Force, Pharm.D., Associate Dean for Clinical Research

Neill F. Piland, Director, Institute of Rural Health

Linda L. Rankin, Ph.D., Assistant Dean

Nancy Renn, Ph.D., RN, Interim Director, School of Nursing

The Division of Health Sciences is organized into five academic units:

- College of Pharmacy
- Kasiska School of Health Professions
- Office of Medical and Oral Health
- School of Nursing
- School of Rehabilitation and Communication Sciences

Idaho State University's Division of Health Sciences provides continued leadership in the delivery of health care by educating caring and competent professionals across all dimensions of health and promotes collaborative research and practice in the health sciences.

Idaho State University is Idaho's leading health care institution, as designated by the Idaho State Board of Education. It offers 75 percent of the state's health profession degree programs. One third of Idaho State University's graduates receive degrees in the health professions.

The Division of Health Sciences is dedicated to enhancing the quality of life for our constituencies by applying the values of excellence in research, partnerships in community service, and professional education into practice.

A combination of classroom and clinical experiences ensures that graduates are prepared for licensing exams and positions in a wide range of health care fields. Programs partner with hospitals, clinics and specialized medical facilities throughout the nation to provide state-of-the-art training opportunities for students. On-campus and statewide clinics provide students with hands-on experience. Fourteen in-house clinics include medicine, dentistry, dental hygiene, audiology, speech pathology, coun-

seling, occupational therapy, physical therapy, vestibular (balance), and wellness. Beyond the basic skill sets associated with clinical practice, we train our students to become leaders in their professions and communities. Doing this requires hiring and retaining nationally recognized faculty, using the most current teaching technologies, and giving students access to the hands-on learning opportunities they need for success as caring and competent professionals.

Beyond the basic skill sets associated with clinical practice, we train students to become leaders in their professions and communities. We are dedicated to hiring and retaining nationally recognized faculty, using the most current teaching technologies, and giving students access to the hands-on learning opportunities they need for success.

## Division of Health Sciences Graduate Courses

**DHS 5501 Mindfulness in Health Science 1-2 credits.** Student will learn basic mindfulness practice to increase stress tolerance, compassion and immune system functioning. Students will learn mediation, mindful movement and other practices for their own benefit, and will learn to teach them to others. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**DHS 5502 Survey of Aging Issues 3 credits.** Introduction to the broad spectrum of issues involved in the study of aging. Theories of aging, health promotion, demography, and multicultural aging are some topics presented in survey fashion. No prerequisites or co-requisites; Restricted to graduate students; eISU (\$35/credit). Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**DHS 5503 Interprof Sys Geri Manage 3 credits.** Application of principles and concepts necessary to integrate theory into the practice of care coordination and management of the older adult. The scope and competencies of healthcare professionals in caring for the older adult are explored. Restricted to graduate students; B- or better in DHS 5502; eISU (\$35/credit). Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**DHS 5504 Geri Interprof Intership 2 credits.** Practical experience in health care arenas focusing on the older adult. This includes a project related to the application of principles

and concepts of interprofessional collaborative practice. Restricted to graduate students; B- or better in DHS 5502; eISU (\$35/credit); COREQ: DHS 5503 or completion of DHS 5503; Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

## College of Pharmacy

Paul S. Cady, Ph.D., Professor, Dean

### Degree Programs

The College of Pharmacy offers two graduate degrees: the Master of Science (M.S.) in Pharmaceutical Sciences and the Doctor of Philosophy (Ph.D.) in Pharmaceutical Sciences. The College also offers a professional doctorate degree, Doctor of Pharmacy (Pharm.D.). The Pharm.D. is described in the College of Pharmacy section of the Idaho State University Undergraduate Catalog.

## Department of Pharmacy Practice and Administrative Sciences

Chair and Associate Professor: Owens

Assistant Chair and

Associate Professor: Oliphant

Professors: Adamcik, Culbertson, Erramouspe,

Force, Lott, Madaras-Kelly, Mason, Rhodes

Associate Professors: Cashmore, Cleveland,

Gould, Hunt, Liday

Clinical Associate Professor: Hefflinger, Pet-

tinger, Pugmire

Clinical Assistant Professors: Borzadek, Carr,

Casperson, Davis, Eroschenko, Hachey, Jantz,

Steed, Wadsworth

Emeritus: Galizia, Hurley, Sharp, Jue

## Department of Biomedical and Pharmaceutical Sciences

Chair and Professor: Diedrich

Professors: Dodson, Lai, Van der Schyf

Associate Professors: Bigelow

Assistant Professors: Downing, Talley, Xu,

Yan, Hevener, Myers

## Goals

To train and prepare students to succeed in their chosen career path in the variety of areas in pharmaceutical sciences.

## Objectives

- To rigorously train students in the department focus areas;
- To train students to be effective communicators of their knowledge and scientific findings;
- To expose students to multidisciplinary approaches to problem-solving so that they can use them to solve scientific problems,
- To educate students to be competent practitioners of the scientific method;
- To expose students to a variety of professional strategies so that, upon finishing their training, they become adaptable and successful in achieving their long-range goals.

## Doctor of Philosophy

Programs of study leading to the Doctor of Philosophy (Ph.D.) degree are offered through the Department of Biomedical and Pharmaceutical Sciences (emphasis areas of Biopharmaceutical Analysis, Drug Delivery, Medicinal Chemistry, or Pharmacology) and through the Department of Pharmacy Practice and Administrative Sciences (emphasis in Pharmacy Administration). The Ph.D. degree is a research degree and will be conferred upon the completion and report of a substantial body of original work.

## Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Baccalaureate degree in biology, chemistry, psychology, other scientific field, or a professional degree in pharmacy.
2. GPA of not less than 3.0 for all upper division courses.
3. Achieve at least the 50th percentile in one of the Graduate Record Examination aptitude section scores (Verbal, Quantitative, or Analytical).
4. Three letters of recommendation from individuals familiar with the applicant's academic ability and potential for graduate study.

Meeting minimum requirements does not guarantee admission. Students not meeting the minimum admission requirements for the Ph.D. program may reapply to continue on for

the Ph.D. degree following successful completion of the M.S. in Pharmaceutical Sciences.

## General Requirements

Each beginning graduate student will have a graduate advisor assigned from the graduate faculty upon entry into the program. The student's advisor will assist the student in preparing an appropriate program of study of course work. While there is no fixed credit requirement for the Ph.D. in Pharmaceutical Sciences, the overall program of study will include at least 72 semester hours of graduate course work. The student is expected to have selected a major advisor from the graduate faculty no later than the end of his/her second semester in residence.

A grade below B is unsatisfactory and will not be counted toward fulfilling the minimum requirements for the degree. Upon recommendation of the student's advisor, and with the approval of the Director of the Graduate Program, a student may be required to withdraw at any time for failure to maintain satisfactory progress toward the degree.

When course work is essentially complete, candidates for the Ph.D. degree complete a series of written and oral comprehensive examinations that may include the defense of a written research proposal. Upon completion of all proposed research, the student's findings will be reported in the form of a dissertation to be prepared in accordance with Department and Graduate School guidelines. While the dissertation must be defended to the graduate faculty of the College, acceptability only requires the affirmative vote of a majority of the student's committee members.

## Doctor of Philosophy in Pharmaceutical Sciences (Biopharmaceutical Analysis, Medicinal Chemistry, Pharmaceutics, or Pharmacology Emphasis)

### Admission Requirements

Official report of Graduate Record Examination scores. Applicants should achieve at least a 50th percentile on one of the three aptitude

sections (Verbal, Quantitative, Analytical). Achievement of two or more scores at the 50th percentile is highly preferred. Applicants may be accepted as Classified (w/PR) students with lower GRE scores.

International students must have a demonstrated proficiency in the English language. Students from countries where English is not the first language must demonstrate proficiency in the English language. International students should refer to the "Admission of International Students" section of the Graduate Catalog.

Students with international coursework to be considered with their applications must submit an official detailed evaluation report from an institution that is a member of the National Association of Credential Services Incorporated (NACSI).

Three letters of recommendation and a personal statement of interest must accompany the application. The personal statement of interest should clearly identify which area of emphasis in the graduate program the applicant intends to follow (e.g., pharmacology, medicinal chemistry, etc.), and members of the department faculty with whom the applicant would prefer to complete his/her degree. Applications without a personal statement following these guidelines will be rejected.

Applications for the graduate program in Pharmaceutical Sciences (Emphasis in Biopharmaceutical Analysis, Drug Delivery, Medicinal Chemistry, or Pharmacology) are reviewed twice yearly near the end of the fall and spring semesters. Deadline for the receipt of applications is April 1 for admission in the fall semester, and October 1 for admission in the spring semester. Incomplete applications and applications received after these deadlines will not be considered.

## General Requirements

Candidates must complete the following courses:

PSCI 6601	Graduate Seminar in Pharmaceutical Sciences	4cr
PSCI 6602	Research Design and Analysis for the Pharmaceutical Sciences	3 cr
PSCI 6698	Dissertation Research	18 cr*min
PSCI 8850	Dissertation	1-2cr*min
	Electives in Pharmaceutical Sciences	9 cr

\*Biomedical and Pharmaceutical Sciences related courses (as determined by committee) 17 cr

\*Candidates must complete a minimum of 20 credits in combination of PSCI 698 and PSCI 699 toward completion of degree requirements after admission to candidacy.

A minimum of 72 credits including a minimum of 20 credit hours in dissertation research (PSCI 6698) and dissertation (PSCI 850) are required. For all degree candidates, at least one half of total graduate credit hours required by the student's Graduate Program Committee

must be 6600 level. Minimum graduate credit requirements usually do not fulfill Departmental degree requirements. Specific details are provided in the Department of Pharmaceutical Sciences Graduate Guidelines.

All students in the graduate program, whether seeking the Doctor of Philosophy or the Master of Science, are expected to demonstrate proficiency in written and spoken English. Students may be required to successfully complete classes in speech and in technical writing at the request of the graduate program director and the graduate faculty of the Department of Biomedical and Pharmaceutical Sciences.

## Joint Pharm. D.-M.S. in Pharmaceutical Sciences or Pharm.D.-Ph.D. in Pharmaceutical Sciences Bipharmaceutical Analysis, Medicinal Chemistry, Pharmaceuticals, or Pharmacology Emphasis)

### Admission Requirements

Professional students currently enrolled in the College of Pharmacy may be granted early admission to a graduate program administered by the College. In order that a student be eligible for early admission to a graduate program in the College, the following criteria must be met:

1. Completion of at least 136 academic credits or a B.S. degree must be certified to the Graduate Dean by the Registrar. Such certification must include all University general education requirements, and meet all graduate student admission requirements.
2. Formal application for admission to the College graduate program, with acceptance as a Classified (w/PR) student by the appropriate department faculty.
3. A non-B.S. degree-holding student may be admitted to the Graduate School as Classified (w/PR). Following the award of the Pharm.D. degree, the student may

petition to change to classified status. Students should consult the Graduate Catalog for course requirements for the graduate degrees offered by the College.

4. Students must meet all the requirements of the Pharm.D. program; see Undergraduate Catalog.
5. Students must meet all the department requirements for the M.S. or Ph.D. degree described in the M.S. or Ph.D. section.
6. A joint-degree student cannot take more than 19 credits/semester while in the Pharm.D. program, of which no more than 3 credits can be graduate credits. After completing the Pharm.D. requirements, the joint degree student reverts to the Graduate School requirements, not to exceed 16 credits/semester.

## Doctor of Philosophy in Pharmaceutical Sciences (Pharmacy Administration Emphasis)

Candidates must complete the following courses:

Statistics and Research Methods (14 credits)		
BIOL 6605	Biometry	4 cr
	Multivariate Analysis	4 cr
PADM 6605	Research Methods	3 cr
	One additional methods course (e.g., 3 cr SOC 508, PSYC 632)	3 cr
Pharmacy Administration Major Courses (28 credits)		
PADM 6601	Graduate Seminar in Pharmacy Administration	4 cr
PADM 6610	Social and Behavior Aspects of Pharmacy Practice	3 cr
PADM 6632	Medical Economics	3 cr
PADM 6634	Advanced Pharmacy Administration I	3 cr
PADM 6635	Advanced Pharmacy Administration II	3 cr
	Major area elective courses	12 cr
	Minor Area Courses (12 credits)*	
	Minor area elective courses	12 cr
Research Activities (19 credits minimum)**		
PADM 6650	Thesis Research**	3 cr
PSCI 6698	Dissertation Research	18 cr
PSCI 8850	Dissertation Preparation	1 cr
	Total	73-76 cr

\*A student entering the Ph.D. program with an M.S. degree in a related area may petition the Advisory Committee to waive the elective 12 credits required in a minor area of study.

\*\*All students must have research experience prior to beginning the dissertation. If a student has not completed an M.S. thesis, then s/he must complete a minimum of 3 credits of graduate research (PADM 650) and complete a research project resulting in a paper of publishable quality. If a student has completed an M.S. thesis, s/he may petition the Advisory

Committee to accept it as fulfillment of this requirement.

## Master of Science in Pharmaceutical Sciences

The M.S. program offers the student a choice of four emphases:

1. Emphasis in Medicinal Chemistry leading to the degree of M.S. in Pharmaceutical Sciences (Medicinal Chemistry).
2. Emphasis in Pharmacology leading to the degree of M.S. in Pharmaceutical Sciences (Pharmacology).
3. Emphasis in Drug Delivery leading to the degree of M.S. in Pharmaceutical Sciences (Drug Delivery).
4. Emphasis in Social and Administrative Sciences leading to the degree of M.S. in Pharmaceutical Sciences (Social and Administrative Sciences).

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, a student must possess a baccalaureate degree in biology, chemistry, psychology, other scientific field, or a professional degree in pharmacy (B.S. or Pharm.D.) from an accredited institution, and have a grade point average of 3.0 or better on all upper-division courses. Students with a grade point average between 2.75 and 3.0 will receive consideration for admission on a Classified (w/PR) basis.

All applicants are required to provide three letters of recommendation from professors from whom they have taken courses or under whose direction they have worked. It is highly recommended that the Graduate Record Examination be taken prior to the start of the semester in which a student begins graduate study. The GRE must be taken during the first semester in residence if it has not been taken previously.

### General Requirements

All classified graduate students must register for the appropriate graduate seminar (601) each semester in which they are registered for graduate credit. A maximum of two credits in graduate seminar (601) may be applied toward the degree.

### Early Entry Into the Graduate Program For Pharmacy Students Only

Professional students currently enrolled in the

College of Pharmacy may be granted early admission to a graduate program administered by the College following completion of the second professional (P2) year in the Pharm.D. curriculum.

In order that a student be eligible for early admission to a graduate program in the College, the following criteria must be met:

1. Completion of at least 136 academic credits must be certified to the Graduate Dean by the Registrar. Such certification must include all University general education requirements, and all College of Pharmacy pre-pharmacy, first (P1) and second (P2) professional year course requirements in the Pharm.D. curriculum.
2. Minimum Graduate Record Examination scores.
3. Formal application for admission to the College graduate program, with acceptance as a Classified (w/PR) student by the appropriate department faculty.

After meeting the above three criteria, a student may be admitted to the Graduate School as Classified (w/PR). Following the award of the Pharm.D. degree, the student may petition to change to classified status. Students should consult the Graduate School Catalog for course requirements for the graduate degrees offered by the College.

## Master of Science in Pharmaceutical Sciences (Medicinal Chemistry, Pharmaceutics or Pharmacology, Emphasis)

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School.

International students must have a demonstrated proficiency in the English language. Students from countries where English is not the first language must demonstrate proficiency in the English language. International students should refer to the "Admission of International Students" section of the Graduate Catalog.

Three letters of recommendation and a personal statement of interests must accompany the application. The personal statement of interest should clearly identify which area of emphasis

in the graduate program the applicant intends to follow (e.g., pharmacology, medicinal chemistry, drug delivery), and members of the departmental faculty with whom the applicant would prefer to complete their degree. Applications without a personal statement following these guidelines will be rejected.

Applicants for the graduate program in Pharmaceutical Sciences (Emphasis in Medicinal Chemistry, Pharmacology, or Drug Delivery) are reviewed twice yearly near the end of the fall and spring semesters. Deadlines for the receipt of applications is April 1 for admission in the fall semester, and October 1 for admission in the spring semester. Incomplete applications and applications received after these deadlines will not be considered.

Applicants should select either the thesis or non-thesis option. The thesis option is intended for students seeking to enter a research career, and requires completion of an original research project. The non-thesis option is intended for students seeking careers in pharmaceutical sciences that do not require extensive laboratory experience. Applicants are strongly encouraged to contact the Department of Biomedical and Pharmaceutical Sciences for advice on choosing which option best meets their career goals.

### Thesis Option:

Applicants must complete the following courses:

PSCI 6601	Graduate Seminar	2 cr
PSCI 6602	Research Design and Analysis for the Pharmaceutical Sciences	3 cr
PSCI 6650	Thesis Research	6 cr min.
	Electives in Pharmaceutical Sciences	6 cr
	Biomedical and Pharmaceutical Sciences related courses (as determined by committee)	12 cr

A minimum of 30 credits, including at least 6 credit hours in thesis research (PSCI 6650), is required by the Graduate School. For all degree applicants, at least one half of total graduate credit hours required by the student's Graduate Program Committee must be at the 6600-level. Minimum Graduate School credit requirements may not fulfill Departmental degree requirements.

### Non-Thesis Option:

Applicants must complete the following courses:

PSCI 6601	Graduate Seminar	2 cr
PSCI 6602	Research Design and Analysis for the Pharmaceutical Sciences	3 cr
PSCI 6604	Research Practicum	3 cr
PSCI 6648	Master's Paper	3 cr
	Electives in Pharmaceutical Sciences	9 cr
	Biomedical and Pharmaceutical Sciences related courses (as determined by committee)	15 cr

A minimum of 36 credits is required. For all degree applicants, at least one half of total graduate credit hours required by the student's

Graduate Program Committee must be at the 6600-level. Minimum Graduate School credit requirements may not fulfill Departmental degree requirements. All students in the graduate program, whether seeking the Doctor of Philosophy or the Master of Science, are expected to demonstrate proficiency in written and spoken English. Students may be required to successfully complete classes in speech and in technical writing at the request of the graduate program director and the graduate faculty of the Department of Pharmaceutical Sciences.

## Master of Science in Pharmaceutical Sciences (Pharmacy Administration Emphasis)

Applicants may elect either a thesis or non-thesis option and must complete the following courses:

### M.S. Degree Option:

NON-THESIS    THESIS

#### STATISTICS AND RESEARCH METHODS

BIOL 6605	Biometry	4 cr
OR		
PPRA 5518	Clinical Research Design and Analysis	4 cr
PADM 6605	Research Methods	3 cr    3 cr

#### PHARMACY ADMINISTRATION MAJOR COURSES

PADM 6601	Graduate Seminar in Pharmacy Administration	2 cr	2 cr
PADM 6610	Social and Behavioral Aspects of Pharmacy Practice	3 cr	3 cr
OR			
PADM 6632	Medical Economics	3 cr	3 cr
PADM 6634	Advanced Pharmacy Administration I	3 cr	3 cr
OR			
PADM 6635	Advanced Pharmacy Administration II	3 cr	3 cr
	Major area elective courses	15 cr	12 cr

#### RESEARCH ACTIVITY

PADM 6650	Thesis Research	6 cr
PADM 6651	Master's Paper	3 cr
TOTAL		33 cr    34 cr

## Joint Pharm.D.-Graduate Degree Program (Social and Administrative Sciences Emphasis)

Applicants must complete the following courses while enrolled in the P3 and P4 years of the Pharm.D. curriculum. (The courses listed below substitute for PSCI 5532 Clinical Research Design and Analysis, and 6 credits of professional electives required in the Pharm.D. curriculum). In addition, the following courses

taken in the P3 year will constitute a minor area in Clinical Pharmacy as required in the graduate program: PPRA 5534 and PPRA 5535 Therapeutics I and II, PSCI 5529 Clinical Pharmacokinetics, and PSCI 5568 Toxicology; PPRA 5569 will substitute for 3 credits of PADM 6650.

### Third Professional Year Course Substitutions:

BIOL 6605	Biometry	4 cr
PADM 6605	Research Methods in Pharmacy Administration	3 cr
	Pharmacy Administration	3 cr
Major Area Graduate Course		

### Fourth Professional Year Elective Clerkship:

PPRA 5569	Research Specialty Clerkship	4 cr
-----------	------------------------------	------

### Additional Graduate Program Requirements:

#### M.S. (thesis option):

PADM 6601	Graduate Seminar	2 cr
	Major Area Courses	12 cr
PADM 6650	Thesis Research	3 cr
Total		17 cr

#### Ph.D.

PADM 6601	Graduate Seminar	4 cr
	Multivariate Analysis	4 cr
	Research Methods Elective	3 cr
	Major Area Courses	21 cr
PSCI 6698	Dissertation Research	18 cr
PSCI 8850	Dissertation Prep	1 cr
Total		51 cr

## Pharmaceutical Sciences Graduate Courses

**PSCI 5541 Diabetes for Health Sciences 2 credits.** A discussion of Diabetes: types, development, complications, treatment, monitoring, and patient-related issues. Topics include basic science and the patient elements. Discussions will be based on student interest and background. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 5599 1-6 credits. This is an experimental course.** The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PSCI 6601 Graduate Seminar 1 credit.** Discussion of current research and theories in Pharmaceutical Sciences. May be repeated.

**PSCI 6602 Research Design and Analysis for Pharmaceutical Sciences 3 credits.** Principles of research design and statistical analysis applicable to the pharmaceutical or bio-

medical sciences. Emphasis on evaluation of biomedical literature and on development of research plans. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6603 Scientific Communication 2 credits.** This course will survey basic techniques in scientific communication including: scientific manuscripts/articles, theses/dissertation, and other forms of written scientific communication; laboratory notebooks, reports and other technical documentation; collecting and citing literature; basic grantsmanship and introduction to the NIH grant submission process; scientific poster and podium (oral communication) formats; preparation of professional scientific materials including CV/resume, research summary, research philosophy, teaching philosophy; and the use of relevant software.

**PSCI 6604 Research Practicum 3 credits.** The student will receive practical laboratory training in pharmaceutical sciences under the guidance of faculty. May be repeated. PREREQ: ENROLLMENT IN THE NON-THESIS OPTION, AND PERMISSION OF THE INSTRUCTOR. Graded S/U.

**PSCI 6605 Critical Literature Evaluation 1 credit.** Offered each semester, this course involves the discussion and critical analysis of the current scientific literature, focusing in the pharmaceutical sciences and its related disciplines, with written and oral presentations by students facilitated by rotating faculty. May be repeated.

**PSCI 6606 Selected Techniques in the Laboratory 2 credits.** Practical experience in the use of instrumentation and techniques in the student's area of specialization. Each student shall select three faculty laboratories in the Pharmaceutical Sciences for specific technical training. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6607 Research Foundations 3 credits.** A discussion of the nature and critical analysis of experimentation, principles of the scientific method, and literature in the Pharmaceutical Sciences.

**PSCI 6608 Responsible Conduct in Research 1 credit.** This course consists of the study of the ethical principles and related federal and state laws that govern scientific research. Through a combination of lecture and case study discussion, students will learn both the substance and application to scientific research of ethical principles and related laws. Topics addressed include conflict of interest, human subject research, live vertebrate animal subjects in research, safe laboratory practices, mentor/mentee responsibilities and relation-

ships, collaborative research, peer review, data acquisition and laboratory tools (management, sharing, and ownership), research misconduct and procedures for handling misconduct, responsible authorship and publication, and contemporary ethical issues in biomedical research.

**PSCI 6609 Advanced Drug Delivery 3 credits.** Critical assessment of novel drug carrier systems regarding biological, drug-related, and carrier-related factors. Study of targeted drug delivery and controlled release devices with emphasis on bioerodible polymers, matrix and reservoir systems.

**PSCI 6610 Analytical Techniques in Pharmaceuticals and Drug Delivery 3 credits.** Theory and practice of analytical techniques in pharmaceuticals and drug delivery research. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6611 Current Topics in Pharmaceuticals and Drug Delivery 1 credit.** Discussion of current research topics in pharmaceuticals and drug delivery. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6620 Principles of Drug Design and Drug Action 3 credits.** This course will survey the principles of drug discovery, drug design, and drug action including compound screening, hit identification, lead optimization, and theories of drug-receptor binding, focusing on small-molecule drug discovery. Fundamentals of enzyme kinetics and assay development will be reviewed as well as an introduction to rational drug discovery techniques. Special topics in prodrug and peptide drug design, inorganic medical chemistry, design of DNA active therapeutics, drug metabolism, and natural products drug discovery will be discussed. Drug discovery case studies will highlight and reinforce the concepts and theories covered. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6621 Biological Actions of Chemicals 3 credits.** Introduction to basic principles of pharmacology, including the molecular basis for drug action; entry, distribution, metabolism and elimination of chemicals, genetic influences in chemical actions, and tolerance. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6622 Principles of Toxicology 3 credits.** Introduction to basic concepts of toxicology, including mutagenesis, carcinogenesis, teratology, risk assessment, regulatory toxicology, toxicology of solvents, pesticides, metals and radioactive materials and design of toxicological studies. PREREQ: PSCI 6621 OR PERMISSION OF INSTRUCTOR.

**PSCI 6623 Pharmacology of the Pulmonary and the Renal Systems 2 credits.** Provides a detailed examination of the pharmacology of pulmonary and renal systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6624 Pharmacology of the Cardiovascular System 3-4 credits.** Provides a detailed examination of the pharmacology of the cardiovascular system, focusing on mechanisms of action of major drug classes used in treatment of cardiovascular disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6625 Pharmacology of the Gastrointestinal and the Hepatic Systems 2 credits.** Provides a detailed examination of the pharmacology of GI and hepatic systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6626 Pharmacology of the Immune System and Infectious Diseases 3 credits.** Provides a detailed examination of the pharmacology of the immune system, focusing on mechanisms of action of major drug classes used in treatment of infectious diseases via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6627 Endocrine Pharmacology 2 credits.** Provides a detailed examination of the pharmacology of endocrine systems, focusing on mechanisms of action of major drug classes used in treatment of disorders via coordination with pharmacology sections of the professional pharmacotherapy module series. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6630 Psychopharmacology 3 credits.** This course will cover the mechanisms of action of psychoactive drugs, including drugs used in the treatment of psychopathological disorders and drugs of abuse. Also covered will be the learned basis of drug effects. Students will critique contemporary readings in the application of psychotherapeutic agents and processes of addiction. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6631 Cancer Biology 3 credits.** Study of the difference between normal and cancerous cells growth control, cell cycle, carcinogenesis, growth factor and oncogenes, cellular

signaling, angiogenesis, telomerases, tumor invasion and metastasis, vitamins, diet and tobacco. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6632 Anti-cancer Drugs 3 credits.** Cell cycle drug design and development, mechanisms of antimetabolites, alkylating agents, topo-isomerase inhibitors, natural compounds, hormones and novel agents. Relationship between receptors and response to chemotherapy, drug resistance, drug delivery. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6633 Experimental Oncology 2 credits.** Cell culture, anticancer drug screening, protein, RNA and DNA analysis, methods in signal transduction and oncogene expression. Immunohistology, cell cycle analysis, receptor binding, receptor screening of tumors. Laboratory work included. Limit 5 students.

**PSCI 6634 Current Topics in Oncology 1 credit.** Study of current topics in cancer research. Emphasis on novel approaches to understand and treat cancer. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6636 Concepts and Tools in Pharmacogenomics 2 credits.** The role of genetic factors in the development and evaluation of drugs, basic principles of microarray analysis introduction to proteomics. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6635 Special Topics in Oncology 2 credits.** An introduction to cancer biology and cancer terminology. An overview of fundamentals of pharmacology as applied to cancer therapy. Mechanisms of action and resistance to chemotherapeutic drugs will be emphasized. A discussion of the importance of early detection. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6640 Elements of Nanoscience and Nanotechnology 3 credits.** An introduction to the properties of nanomaterials. Applications of nanomaterials in biomedical, pharmaceutical, environmental, and bioengineering systems and their impact on society. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6648 Master's Paper 3 credits.** The student will be required to complete an original literature review of a topical area in the pharmaceutical sciences. May be repeated. PREREQ: ENROLLMENT IN THE NON-THESIS OPTION, AND PERMISSION OF THE INSTRUCTOR. Graded S/U.

**PSCI 6650 Thesis Research 1-10 credits.** May be repeated. Graded S/U.

**PSCI 6652 Advanced Biopharmaceutics and Pharmacokinetics 3 credits.** Physicochemical principles involved in the kinetics of drug absorption, distribution, biotransformation, elimination, and therapeutic response. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6653 Principles of Biopharmaceutical Analysis 3 credits.** A treatment of the principles of modern methods for the qualitative and quantitative determination of drugs in biological materials.

**PSCI 6655 Advanced Biopharmaceutical Analysis 3 credits.** A continuation of PSCI 653, this course covers the chromatographic techniques of analysis in detail including liquid chromatography, gas chromatography, thin layer capillary zone electrophoresis, and mass spectrometry, chromatography.

**PSCI 6658 Biophysical Chemistry and Structural Biology 3 credits.** This course will explore the fundamentals of macromolecular structural biology, with an emphasis on the underlying principles of the related biophysical techniques, including x-ray crystallography, NMR, and mass spectrometry. Additional techniques related to the study of biological structure and function, including ultracentrifugation, absorption spectroscopy, and chromatographic methods will also be reviewed. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6660 Molecular Pharmacology 3 credits.** Advanced study in the transduction of biological signals, molecular basis for the action of hormones, neurotransmitters and growth factors on neurotransmission, metabolism, gene regulation and cell growth. PREREQ: PSCI 5567 AND PERMISSION OF INSTRUCTOR.

**PSCI 6661 Drug Metabolism 3 credits.** Advanced study in drug metabolism, cytochrome P450 oxidative system, toxic actions of drugs, mutagenicity, carcinogenicity, and in vitro systems for the study of metabolism. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6662 Neuropharmacology 3 credits.** The molecular basis of drug action in the central nervous system including nerve excitation, molecular properties of ion channels, neuropharmacological methods, pharmacology of ethanol and the mechanisms in tolerance and physical dependence. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6670 Computer-Aided Drug Design, I 3 credits** This course, the first of a two-part series, is designed to teach students the essential elements of computer-aided drug design. It

will cover principles and applications of molecular modeling, an introduction to computational simulation of biophysical systems (molecular dynamics and Monte Carlo methods), protein and DNA modeling, virtual screening, and structure-based hit and lead identification methods. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6671 Computer-Aided Drug Design, II 3 credits.** This course, the second of a two-part series, is designed to teach students the essential elements of computer-aided drug design. It will cover principles and applications of cheminformatics, pharmacophore modeling in drug design, quantitative structure-activity relationship modeling, ADMET modeling, and ligand-based drug design techniques in hit identification and lead optimization. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6682 Independent Problems in Pharmaceutical Sciences 1-4 credits.** Advanced students are assigned special studies in areas of pharmaceutical sciences on the basis of interest and previous preparation. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**PSCI 6698 Dissertation Research variable credit.** Research toward completion of the dissertation in the pharmaceutical, social, behavioral or administrative pharmacy sciences. Graded S/U.

**PSCI 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PSCI 8850 Dissertation variable credit.** Preparation of the written report of the dissertation research. Graded S/U.

## Pharmacy Administration Graduate Courses

**PADM 5554 Pharmacy Management I 2 credits.** Principles of organization, management and financial analysis as applied to the practice of pharmacy. PREREQ: PPRA 5519.

**PADM 5556 Pharmacy Management II 2 credits.** Problems of management, merchandising, and salesmanship, applied to community pharmacy. PREREQ: PHAR 4454.

**PADM 5538 Independent Problems in Pharmacy Administration 1-4 credits.** Independent study of various topics in pharmacy administration. May be repeated.

**PADM 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PADM 6601 Graduate Seminar in Pharmacy Administration 1 credit.** Discussion of current research and theories in pharmacy administration. May be repeated.

**PADM 6603 Advanced Pharmacy Law 3 credits.** Requirements of federal laws influencing the practice of pharmacy, including selected recent cases. PREREQ: PPRA 519 OR PERMISSION OF INSTRUCTOR.

**PADM 6605 Research Methods in Pharmacy Administration 3 credits.** Methods in research design and analysis utilized in pharmacy administration research. PREREQ: GRADUATE LEVEL STATISTICS COURSE.

**PADM 6610 Social and Behavioral Aspects of Pharmacy Practice 3 credits.** Examination of sociological and psychological concepts and theories as applied to the practice of pharmacy. PREREQ: PERMISSION OF INSTRUCTOR.

**PADM 6612 Ethics for Health Professionals 3 credits.** Examination of ethical issues that arise in the provision of health care. PREREQ: PERMISSION OF INSTRUCTOR.

**PADM 6624 Advanced Pharmacy Management I 3 credits.** Principles of operation and management encountered in the drug distribution process. PREREQ: ONE YEAR OF ACCOUNTING OR PERMISSION OF INSTRUCTOR.

**PADM 6626 Advanced Pharmacy Management II 3 credits.** Case studies of problems encountered in pharmacy management. PREREQ: PADM 6624.

**PADM 6630 Advanced Drug Marketing 3 credits.** Approaches and methods of marketing as applied to pharmacy and the drug distribution process.

**PADM 6632 Medical Economics 3 credits.** Examination of the market forces encountered in the medical care system.

**PADM 6634 Advanced Pharmacy Administration I 3 credits.** An integration of socio-behavioral and management principles into an advanced consideration of pharmacy administration.

**PADM 6635 Advanced Pharmacy Administration II 3 credits.** A continuation of PADM 634, this course further explores issues in the discipline of pharmacy administration.

**PADM 6649 Research in Pharmacy Administration 1-2 credits.** Research problems ancillary to the thesis project. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. Graded S/U.

**PADM 6650 Thesis Research 1-10 credits.** May be repeated. Graded S/U.

**PADM 6651 Master's Paper 3 credits.** May be repeated. Graded S/U.

**PADM 6691 Topical Seminar in Pharmacy Administration 2-4 credits.** Examination of selected topics in pharmacy administration. May be repeated.

**PADM 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated. Graded S/U.

## Pharmacy Practice Graduate Courses

**PPRA 5518 Clinical Research Design and Analysis 4 credits.** The fundamentals of experimental design, implementation and data analysis pertinent to pharmaceutical clinical investigations.

**PPRA 5596 Clinical Pharmacy Residency 0 credits.** Advance practical experience in clinical pharmacy practice. PREREQ: MUST HAVE A DOCTOR OF PHARMACY DEGREE.

**PPRA 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PPRA 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.  
Services Courses

**PHAR 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PHAR 6645 Pharmacotherapeutics for Advanced Practice Nurses 3 credits.** A problem-based course emphasizing the fundamentals of drug action and the rational use of drugs to treat various organ system disease states. PRE-REQ: BIOL 5563.

**PHAR 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Kasiska School of Health Professions

Interim Associate Dean: Farnsworth

### Departments

The Kasiska School of Health Professions (KSHP) is composed of one department, the Department of Counseling and 6 programs, Dietetics, Health Care Administration, Health Education, Medical, Laboratory Sciences, Public Health and Radiographic Science.

### Degree Programs

The Kasiska School of Health Professions is home to 2 doctoral degrees and Master degrees in Counseling, and Masters degrees in Dietetics, Public Health, and Health Care Administration emphasis in a MBA.

## Department of Counseling

Chair and Professor: Kleist

Professors: Allen, Hill, Kleist

Associate Professors: Crews, Horn, Paulson

Assistant Professors: oe-Smith, Jones, Moody, Stewart, Yates

Clinical Assistant Professor: Singarajah

Adjunct Associate Professor: Schmidt

Adjunct Assistant Professor: Watts

Adjunct Instructor: Bolinger

Emeritus Faculty: Allen, Feit, Edgar, Lloyd

### Department Mission Statement

The principle mission of the Department of

Counseling is to prepare quality counselors for various settings in Idaho and the nation. More specifically, we seek to prepare quality School Counselors for public schools in K-12 settings, Mental Health Counselors and Marital, Couple, and Family Counselors for community agencies and other mental health settings, and Student Affairs Counselors for working in college settings such as advising, residence halls, and career centers.

We prepare doctoral level counselor educators and supervisors to serve as faculty members in counselor education programs, counselor supervisors in various settings, doctoral level counselors, leaders in higher education and counseling organizations, and scholars.

We believe that it is also our mission to

- instill a strong sense of professional identity in students,
- help students gain an appreciation of the rich knowledge base in counselor education,
- develop student expertise in the skills of counseling,
- aid students to become certified and/or licensed,
- aid students/graduates in their initial job placement,
- teach and perform research applicable to the practice of counseling, and
- aid students in understanding the diversity of views and cultures within our profession and the environment in which counselors practice

The Department of Counseling also has a mission within the Division of Health Sciences, which is to represent the mental health perspective within the Division and to consult with Division faculty and departments in encouraging a holistic perspective toward health care services.

### Counselor Education

Graduate-level preparation for (1) counselors who seek employment in schools, universities, community mental health, and various other settings, and (2) college student affairs professionals.

### Pre-Counseling and Pre-Student Affairs

Preparation should consist of a broad undergraduate course of study, including some work in psychology (learning and personality theory), sociology, and the communication skills. For those seeking positions in public elementary and secondary schools, state certification requirements should be considered.

### Degree Programs

Degree programs offered by the department include Doctor of Philosophy, Educational Specialist, and Master of Counseling. Majors are available in Counselor Education and Counseling (Ph.D.); Counseling (Ed.S.); Marital, Couple, and Family Counseling (M.Coun.); Mental Health Counseling (M.Coun.); School Counseling (M.Coun.); and Student Affairs Counseling (M.Coun.).

### Accreditation

The program for preparation of school counselors is accredited by the State of Idaho.

The Counselor Education programs are approved by the Council for Accreditation of Counseling and Related Educational Programs as follows: Marital, Couple, and Family Counseling (M.Coun.), Mental Health Counseling (M.Coun.), School Counseling (M.Coun.), Student Affairs Counseling (M.Coun.), and Counselor Education and Counseling (Ph.D.).

### Progression in Clinical Track

#### Classes - Master's

Students who obtain lower than a 3.0 in any clinical track class OR withdraw from any clinical track class (i.e., COUN 6621, COUN 6696, COUN 6697, COUN 6698) CANNOT continue taking Counseling classes the following semesters without petitioning and obtaining the approval of the Department of Counseling graduate faculty.

### Departmental Dismissal Policies

#### Master's Degree Retention and Dismissal Policy

Department of Counseling faculty are confident that each student admitted has the potential to be successful in graduate study. To assure success, the student's major advisor plays an important role in giving feedback to the student.

A faculty member may consult with other Department of Counseling faculty regarding the apparent impediments to progress of an individual student. If other faculty have made similar observations, the major advisor, or other faculty member, will initiate a meeting with the student to discuss the perceived difficulty. Remedies and expected behavior changes will be discussed and outlined in verbal and/or written form.

If, after feedback is given, a student's impediments to progress are not remedied, the faculty may recommend dismissal from the program. Dismissal of a master's student will be subject to the following:

1. Dismissal criteria established by the Graduate School.
2. Dismissal from the program occurs if any one of the following conditions exist. Students earn:
  - a. three final course grades lower than 2.7,
  - b. OR six credits below 2.7,
  - c. OR below a 3.0 GPA.
3. All degree-seeking students in the Department of Counseling will be evaluated near the end of the first semester by the Department of Counseling graduate faculty members. Based on this evaluation, students not making satisfactory progress toward the completion of a degree may be: (1) removed from graduate study, (2) provided with an alternate option for graduate study, or (3) placed on departmental probationary status. This evaluation will include progress on all course work, anticipated GPA, non-academic conditions (outlined in 4. and 5. following) and any other concerns. Students will be notified of any of these actions by written and/or oral communication with the major advisor or the Department - Chair.
4. Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program. For the complete statement on academic dishonesty, please refer to the Graduate School "Academic Dishonesty" policy in this Catalog. More information on academic dishonesty is also available in the ISU Student Handbook (<http://www.isu.edu/references/st.handbook>) (Student Conduct).
5. An ethical violation is viewed by the faculty of the Department of Counseling as a serious offense and may result in dismissal from the program. The Department uses the latest edition of the ACA Code of Ethics. It is the student's responsibility to be knowledgeable of these standards. Refer to the current "Master of Counseling Graduate Program Handbook" for more information.
6. Admission into the Department of Counseling does not guarantee graduation. Success in academic coursework is only one component of becoming a successful counseling student. The following non-academic conditions may result in dismissal if they are observed to impair the student's ability to work with others in class, practicum, or internship settings: (1) personal concerns or psychopathology, (2) interpersonal relationship issues, (3) personal attitudes or value systems that conflict with effective counseling relationships, and (4) unethical behavior.

### **Doctoral Degree Retention and Dismissal Policy**

Department of Counseling faculty are confident that each student admitted has the potential to be successful in graduate study. To assure success, the student's major advisor plays an important role in giving feedback to the student.

A faculty member may consult with other Department of Counseling faculty regarding apparent impediments to progress of an individual student. If others have made similar observations, the major advisor, or other faculty member, will initiate a meeting with the student to discuss the perceived difficulty. Remedies and expected behavior changes will be discussed and outlined in verbal and/or written form.

If, after feedback is given, a student's impediments to progress are not remedied, the faculty may recommend dismissal from the program. Dismissal of a doctoral student will be subject to the following:

1. Dismissal criteria established by the Graduate School.
2. Dismissal from the program occurs if any one of the following conditions exist. Students earn:
  - a. three final course grades lower than 2.7,
  - b. OR six credits below 2.7,
  - c. OR below a 3.0 GPA,
3. All degree-seeking students in the Department of Counseling will be evaluated near the end of the first semester by the Department of Counseling graduate faculty members. Based on this evaluation, students not making satisfactory progress toward the completion of a degree may be: (1) removed from graduate study, (2) provided with an alternate option for graduate study, or (3) placed on departmental probationary status. This evaluation will include progress on all course work, anticipated GPA, non-academic conditions (outlined in 6. below) and any other concerns. Students will be notified of any of these actions by written and/or oral communication with the major advisor or the Department Chair.
4. Academic dishonesty includes, but is not limited to, cheating and plagiarism. Academic dishonesty at the graduate level is considered a serious offense and may result in dismissal from a graduate program. For the complete statement on academic dishonesty, please refer to the Graduate School "Academic Dishonesty" policy in this Catalog. More information on academic dishonesty is also available in the ISU Student Handbook (<http://www.isu.edu/references/st.handbook>)

(Student Conduct).

5. An ethical violation is viewed by the faculty of the Department of Counseling as a serious offense and may result in dismissal from the program. The Department uses the latest edition of the ACA Code of Ethics. It is the student's responsibility to be knowledgeable of these standards. Refer to the current "Doctor of Philosophy Program Handbook" for more information.
6. Admission into the Department of Counseling does not guarantee graduation. Success in academic coursework is only one component of becoming a successful counseling student. The following non-academic conditions may result in dismissal if they are observed to impair the student's ability to work with others in class, practicum, or internship settings: (1) personal concerns or psychopathology, (2) interpersonal relationship issues, (3) personal attitudes or value systems that conflict with effective counseling relationships, and (4) unethical behavior.

## **Doctor of Philosophy in Counselor Education and Counseling**

The Doctor of Philosophy (Ph.D.) is the highest university award given in recognition of completion of academic preparation for professional practice in counseling. Candidates are provided primarily with courses and practicum/internship experiences that will be instrumental in assisting them to function more effectively as professional counselor educators, as counseling practitioners, and as researchers.

### **Goals**

The Doctor of Philosophy (Ph.D.) in Counselor Education and Counseling is designed to prepare counselor educators for work in counselor education programs and for work in supervisory roles in university counseling centers and other counseling sites. The major emphasis of this program is to prepare graduates for careers in university teaching in counseling programs.

Counselor education and counseling students at Idaho State University will be:

1. Prepared to teach courses in counseling skills and counseling theories.
2. Prepared to supervise counselors and counseling students who are providing individual counseling, group counseling, and/or couple and family counseling.
3. Prepared to teach selected courses in one

- or more of the CACREP major areas.
- 4. Prepared to teach selected courses in the general CACREP common core.
- 5. Prepared to evaluate counselor education programs and counseling sites.
- 6. Knowledgeable of professional issues in the counselor education and counseling fields.
- 7. Knowledgeable of ethical issues and practices of counselor education and counseling.
- 8. Experienced in developing and conducting research.
- 9. Experienced in writing for professional publication.
- 10. Experienced in the advisement and mentoring of Master of Counseling students.
- 11. Knowledgeable and skilled in providing advanced clinical counseling skills.
- 12. Knowledgeable of the sociological manifestations of cultural diversity.

### Admission Criteria

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition, persons applying for admission to the doctoral program in Counselor Education and Counseling must meet the following criteria for selection. Applicants must have:

- 1. a master's degree from a CACREP accredited program and be licensed as a counselor in Idaho or a state with comparable requirements **OR** a master's degree in counseling and be a Nationally Certified Counselor and apply for an Idaho Counseling License upon admission to the doctoral program **OR** a master's degree in counseling, one year of full time post-master's degree counseling experience, graduate coursework curriculum requirements in all of the CACREP common core areas, and be a Nationally Certified Counselor or Idaho Licensed Counselor. (Persons who do not meet these requirements may be considered for admission as Classified (w/PR) while removing deficiencies in coursework and/or credentials.).
- 2. taken the Graduate Record Examination or the Miller Analogies Test. Preference will be given to scale scores of 50 - percentile or more.
- 3. a professional resume.
- 4. a one-page statement of post doctoral career objectives.
- 5. submitted three (3) letters of recommendation.
- 6. completed both Idaho State University Graduate School and Department of Counseling application forms.
- 7. completed an interview by the Department of Counseling Admissions Committee.

The Admissions Committee will make the final recommendation regarding admission. This decision will be based on grade point and test score ranking, as well as on the committee's impression of the applicant's interpersonal style and compatibility of personality with the program's training philosophy, and on the student's written statement.

### Selection Schedule for Doctoral Study

Application forms will be mailed after August 15. Applications must be postmarked by January 15. Selection of applicants for on-campus (ISU-Pocatello) interviews will be announced by February 1. Notification of successful applicants for admission and alternates will be announced by approximately March 1. A maximum of 5-6 students are admitted to the program each year (ISU-Pocatello, 4; ISU-Meridian, 2). Classes begin in the Fall semester of each year.

### Master's Degree Curriculum Review

Doctoral students who have earned their master's degree from a CACREP accredited program will be assumed to have entry level knowledge in core and major course areas. Those not graduating from a CACREP accredited program will have their transcripts evaluated by a faculty committee to determine knowledge base deficiencies. A remediation plan of study will be developed and approved by the faculty as necessary.

### Specialization Areas

Doctoral students will choose a prescribed program of study that develops counselor education specializations in the CACREP core and major areas.

The Area of Specialization will be approved by the faculty before the end of the first semester of doctoral study.

The Area of Specialization must be completed prior to the scheduling of the final oral examination.

### Admission to Candidacy

Each student demonstrating an adequate foundation for doctoral study, based upon the selection criteria and the master's degree curriculum review, may apply for degree candidacy. The application for candidacy will include:

- 1. A course of study designed to remove entry level deficiencies as indicated by the master's degree curriculum review.
- 2. An approved plan for completion of specialization areas in both core and major areas.

- 3. An approved final program of study.

After receiving the written approval of the major professor and a second graduate faculty committee member from the department, the application may then be submitted to the department for approval and the appointment of a third departmental committee member. The fourth committee members is non-departmental graduate faculty selected from the Division of Health Sciences or the university at large. The fifth committee member is the Graduate Faculty Representative (GFR).

### Comprehensive Examination

The comprehensive examination will address information in the coursework required in the doctoral program, counselor education professional issues, and specific areas identified by the candidate's committee. If failed, the comprehensive examination may only be retaken once after one year of additional study.

### Dissertation

After the student is admitted to degree candidacy, the dissertation proposal and preliminary research that the candidate and first two committee members have agreed upon will be presented to the complete five-member committee for recommendations and approval. Following the approval of the proposal and the completion of the comprehensive examination, the candidate is authorized to proceed with the dissertation in preparation for a final oral examination defense. The final defense is open to any member of the graduate faculty directing a request through the Dean of the Graduate School and the chair of the committee.

### Residence

Following the bachelor's degree, each applicant must complete the equivalent of ten semesters of graduate study including the master's degree and three semesters of doctoral internship. At least six of the semesters must be at the doctoral level and four of these must be consecutive semesters (not including summer sessions) of full-time graduate study on campus. Students are strongly encouraged to attend all six of these semesters on a full-time basis.

### Continuous Enrollment

Following admission to doctoral study, the student must register for course work, practicum, internship, independent study, or dissertation credit each semester until the completion of the degree.

## Required Courses

COUN 7701 Advanced Statistics	2 cr
COUN 7702 Advanced Research and Experimental Design	2 cr
COUN 7703 Qualitative Research	2 cr
COUN 7704 Qualitative Methodology & Analysis	2 cr
COUN 7705 Instructional Theory for Counselor Educators	4 cr
COUN 7710 Practicum in College Teaching	2 cr
COUN 7712 Advanced Psychological Testing and Assessment	2 cr
COUN 7724 Advanced Diversity Issues	3 cr
COUN 7727 Advanced Theories of Counseling	3 cr
COUN 7774 Advanced Group Procedures	3 cr
COUN 7790 Supervision in Counselor Education	2 cr
COUN 8800 Research and Professional Issues	1-3 cr
COUN 8801 Doctoral Career Development	1 cr
COUN 8802 Scholarship in Counselor Education	1 cr
COUN 8848 Doctoral Counseling Practicum	3 cr
COUN 8848L Doctoral Counseling Practicum Lab	0 cr
COUN 8849 Doctoral Internship	1-18 cr

COUN 8850 Dissertation	1-12 cr

## Suggested Electives

COUN 7723 Advanced Vocational Theory	3 cr
COUN 7758 Independent Problems	1-4 cr
COUN 7775 Advanced Practicum in Group Counseling	2 cr

# Educational Specialist Degree

## Education Specialist in Counseling

The Ed.S. program is designed for persons who have completed a master's degree in counseling and wish to increase their skills for advanced certification requirements or other professional objectives.

## Admission Requirements

The applicant must:

1. Hold a master's degree in counseling from a CACREP accredited school counseling program or equivalent CACREP course work.
2. Submit Graduate School application forms and application fee.
3. Submit departmental application form and application fee by specified application date.
4. Submit three (3) letters of recommendation; two (2) letters must be from Department of Counseling faculty who agree to serve on the graduate committee.
5. Have a minimum of two (2) years of work experience as a school counselor (post-master's), and be currently employed as a certified school counselor.
6. Be recommended for admission by the Department of Counseling Admissions Committee.

## Degree Requirements

The student must complete a minimum of 70 credit hours of course work (including the master's degree) and a case study. All post-master's degree course work must be approved in advance by Department of Counseling faculty. A minimum grade point average of 3.0 is required over all course work taken in the Ed.S. program. An oral examination is required that involves the presentation of a case study and demonstration of advanced counseling skills.

## Major Requirements

At the post-master's degree Ed.S. level, all course work must be in Counseling-related areas and must include:

HRD 5501 Foundations of Professional-Technical Education	3 cr
COUN 6693 Supervision of Counselors	1 cr
COUN 6694 Psychodiagnosis and Psychotropic Drugs	3 cr
COUN 7723 Advanced Vocational Theory	3 cr
COUN 7759 Ed.S. Internship (school counseling setting)	3 cr

## Educational Specialist Case Study

The case study presented during the oral examination reflects (both in written and video form) advanced counseling skills and theoretical orientation. It reflects therapeutic goals, client themes and counseling techniques necessary to facilitate client growth.

## Time Requirement

All requirements for the Ed.S. must be completed within a period of seven (7) years from the date of completion of the first post-master's degree course to be applied toward the degree.

# Master of Counseling in Marital, Couple, and Family Counseling, Mental Health Counseling, School Counseling, or Student Affairs Counseling

## Goals

The general objective of the Master of Counseling (M.Coun.) degree is to prepare students to be professional counselors. The Department of Counseling faculty believe that the develop-

ment of a strong professional identity, a rich knowledge base, and expertise in the skills of counseling are essential to functioning as a professional in each counseling setting.

The Master of Counseling degree is designed to be the strong foundation upon which graduates enter a lifetime career in the helping professions. This program prepares counselors to respond to the multitude of changes in society, and to enter the ever-expanding counseling profession. In addition to knowledge and experience in the following eight common-core areas, graduates also have specialized knowledge and skills as identified in the objectives of the Marital, Couple, and Family Counseling, Mental Health Counseling, School Counseling, and Student Affairs Counseling majors.

## Curricular Objectives:

1. Students will have knowledge of Human Growth and Development so that they can understand the nature and needs of individuals at all developmental levels.
2. Students will have knowledge of Social and Cultural Foundations to be effective in a multicultural and diverse society.
3. Students will be knowledgeable and skillful in Counseling and Consultation processes.
4. Students will be knowledgeable about group development, dynamics, counseling theory, group counseling methods, and group work approaches.
5. Students will be knowledgeable and understand career development and related factors.
6. Students will understand and be knowledgeable about individual and group approaches to assessment and evaluation.
7. Students will be knowledgeable about various research methods and basic statistics.
8. Students will be knowledgeable about the profession of counseling including history, organizational structures, ethics, standards, and credentialing.

## Student Professional Objectives:

In addition to the above curricular objectives, the Department of Counseling has program-wide objectives. These include:

9. School counseling students will obtain certification as school counselors.
10. Students in all majors (Mental Health Counseling, Marital, Couple and Family Counseling, School Counseling, and Student Affairs Counseling) will obtain the appropriate state licensure.

## Admission Requirements

Admission into the counseling program is competitive. A preset number of students will

be admitted, according to faculty resources. The Admissions Committee will make the final recommendation regarding admission based on grade point and test score rankings, as well as on the committee's impression of the applicant's interpersonal style and compatibility of personality with the program's training philosophy, and on the student's written statement.

The student must apply to, and meet all criteria for, admission to the Graduate School inclusive of the submitting of the Graduate School application forms and application fee. In addition, the applicant must:

1. Have a bachelor's degree from an accredited college or university in the United States, or its equivalent from a school in another country. (Must complete degree before onset of classes in the Fall semester in year of acceptance.) NOTE: Preference will be given to those applicants who meet both GPA and GRE/MAT criteria. The Graduate School does consider requests by the department to waive either the GPA or the GRE/MAT so applicants are eligible to apply for admission if they meet one of the two criteria.
2. Prospective students are expected to come to campus (Pocatello or Boise) for an interview. Selected applicants will be interviewed by the Department of Counseling Admissions Committee as part of the admissions procedure. Ultimately, a student's GPA and test scores qualify the student to take part in the interview process. Students are generally selected for admission based on the interview.
3. Submit three (3) letters of recommendation from individuals who have knowledge of the applicant's academic capabilities, work performance, professional potential, and character.
4. Submit departmental application forms and application fee.
5. Read and sign the Department of Counseling Conditions for Admission/Retention/Dismissal form.

Only applicants who have submitted all application materials on or before the application deadline will have their material reviewed by the Admissions Committee to determine status as a competitive, qualified applicant (incomplete, late, or inaccurate files/forms will not be reviewed). Due to the competition for limited seats in the Master of Counseling program, satisfactory completion of the entry level requirements does not guarantee acceptance.

Selected applicants will be interviewed by the Department of Counseling Admissions Committee as part of the admissions procedure.

## Selection Schedule

After August 15, application forms will be mailed upon request, or they are available for download at <http://www.isu.edu/hpcounsl>. ISU-Pocatello: Application review begins February 15, and continues until all seats are filled. Interviews are tentatively scheduled for late March or early April. Notification of admission decisions will be announced approximately April 15 – May 1. A maximum of 20-25 students are admitted to the Master of Counseling program each year at ISU-Pocatello. Classes begin the fall semester of each year.

**ISU-Meridian:** Application review begins February 15 and continues until all seats are filled. Interviews are tentatively scheduled for late April. Notification of admission decisions will be announced approximately May 1. A maximum of 10-12 students are admitted to the Master of Counseling program each year at ISU-Meridian. Classes begin the fall semester of each year.

If the February 15 deadline has passed, please contact the Department of Counseling. A secondary admission process may be conducted.

## Classified w/Performance Requirements Status

Students who meet the undergraduate grade point average of 3.0 or higher for all upper division undergraduate classes but have not received their scores for the GRE or MAT or are registered to take one of these examinations at the next possible testing may be admitted Classified (w/PR) status, and may be considered for openings not filled by Classified applicants in the Department of Counseling program.

Students must request a change of status from Classified (w/PR) status to Classified status upon completion of their first semester of graduate study. The change from Classified (w/PR) to Classified status must be approved by the Department of Counseling and the Dean of the Graduate School.

## Unclassified Status

Unclassified (non-degree seeking) status can only be used by students who have completed a master's degree in a helping profession and who agree in writing that they are taking elective courses for continuing education credit.

## Approval of Master's Degree Final Program of Study

A student who has been admitted to the Master of Counseling (M.Coun.). Program may submit a final program of study following the completion of COUN 6621, 6627, 6696 and during the semester in which COUN 6697 is being completed. The final program of study must include all coursework required to com-

plete the selected M.Coun. major and must be approved by two counseling faculty members who have graduate faculty status (one of whom will serve as committee chair). Prior to the semester of the proposed graduation, the final program of study must receive the approval of a majority of the Counseling graduate faculty.

## General Requirements

For the Master of Counseling (M.Coun.) degree the student is required to complete the equivalent of at least four full semesters of resident graduate study beyond the bachelor's degree. For the Mental Health Counseling, Marital, Couple, & Family Counseling, School Counseling, and Student Affairs Counseling majors, a minimum of 60 semester hours must be completed in the Core and Major Course Requirements.

## Core Course Requirements

COUN 6611 Applied Statistics and Research	3 cr
COUN 6612 Psychological Testing for Counselors	2 cr
COUN 6621 Professional Orientation and Ethics	2 cr
COUN 6623 Lifestyle and Career Development	2 cr
COUN 6624 Cultural Counseling	2 cr
COUN 6625 Crisis Intervention and Trauma	2 cr
COUN 6627 Conceptualizing Counseling Theory	2 cr
COUN 6628 Applications of Counseling Theory	2 cr
COUN 6630 Addictions Counseling	2 cr
COUN 6660 Theories of Family and Couple Counseling	3 cr
COUN 6676 Small Group Activity	1 cr
COUN 6677 Group Counseling Techniques	3 cr
COUN 6694 Psychodiagnosis and Psychotropic Drugs	3 cr
COUN 6696 Prepracticum Counseling Techniques	3 cr

## Major Course Requirements:

### Major in Marital, Couple, and Family Counseling

COUN 6661 Issues in Family Counseling	3 cr
COUN 6664 Family Assessment	2 cr
COUN 6665 Advanced Family Systems Theory	2 cr
COUN 6697 Practicum in Counseling	2 cr
COUN 6697L Practicum in Counseling Lab	0 cr
COUN 6698 Internship in Counseling	18 cr
COUN 6698L Internship in Counseling Lab	0 cr

### Major in Mental Health Counseling

COUN 6690 Foundations of Clinical Mental Health Counseling	2 cr
COUN 6691 Professional Issues in Clinical Mental Health Counseling	2 cr
COUN 6692 Continuum of Care in Clinical Mental Health Counseling	2 cr
COUN 6697 Practicum in Counseling (mental health setting)	2 cr
COUN 6697L Practicum in Counseling Lab	0 cr
COUN 6698 Internship in Counseling	18 cr
COUN 6698L Internship in Counseling Lab	0 cr

### Major in School Counseling

COUN 6638 Foundations of School Counseling	3 cr
COUN 6639 Application of School Counseling	3 cr
COUN 6697 Practicum in Counseling (school setting)	2 cr
COUN 6697L Practicum in Counseling Lab (school setting)	0 cr
COUN 6698 Internship in Counseling	18 cr
COUN 6698L Internship in Counseling Lab	0 cr

**Major in Student Affairs Counseling**

COUN 6680 Foundations of Student Affairs	3 cr
COUN 6683 Administration of Student Affairs	3 cr
COUN 6697 Practicum in Counseling (student affairs setting)	2 cr
COUN 6697L Practicum in Counseling Lab (student affairs setting)	0 cr
COUN 6698 Internship in Counseling	18 cr
COUN 6698L Internship in Counseling Lab	0 cr

**Requirements for the Idaho Counseling License**

The Idaho Counseling License requirements include: (1) Master's degree in a counseling major (any one of the four M.Coun. majors meets this requirement), (2) 60 graduate credits in a planned counseling program (including the courses in one of the M.Coun. majors), (3) 1000 hours of counseling experience supervised by a licensed counselor (including the hours received as part of a M.Coun. program), and (4) a passing score on the Idaho Counseling License Examination (or the National Board for Certified Counselors Examination).

**Counseling Graduate Courses**

**COUN 5550 Peer Counseling Seminar 1-2 credits.** Supervised experience in assisting another student. Students meet out of class on a weekly contact basis. Course provides ongoing training for the peer counselors. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**COUN 5584 Guidance Principles and Practices 3 credits.** Survey of the various guidance practices in secondary education. Each service is discussed from the point of view of its role in the total educational program.

**COUN 5585 Independent Problems 1-2 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems of interest to majors in education. Experience in research composition. PREREQ: PERMISSION OF INSTRUCTOR. May be repeated.

**COUN 5591 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas. Limited enrollment. May be graded S/ or on a letter-grade basis in separate sections. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**COUN 5594 Elementary School Guidance 2 credits.** Study of (1) the function of guidance in relation to children's needs; (2) principles and techniques of elementary school guidance; (3) analysis of representative programs of guidance in the elementary schools; and (4) research related to elementary school guidance and resulting trends.

**COUN 5598 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**COUN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**COUN 6606 Family Violence 2 credits.** Delineates the implications for assessment and treatment of the family with violence. Topics of physical abuse, sexual abuse and psychological/emotional abuse of adults and children within a family structure will be addressed. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6607 The Family and Mental Illness 2 credits.** Addresses therapeutic and community support that enhances the family unit as the primary care system. Mental illness as it relates to the family system is presented. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6608 The Family and Chemical Dependency 2 credits.** Addresses family systems under the influence of addictions with primary emphasis on alcohol dependency. Models and patterns of addictions will be examined. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6609 The Family and the Aged 2 credits.** Emphasizes the impact of aging on family systems from an economic, emotional, social, spiritual, and physiological perspective. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6611 Applied Statistics and Research 3 credits.** Basic understanding of applied statistics. Procedures for designing, interpreting, critiquing, and presenting professional research. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6612 Psychological Testing for Counselors 2 credits.** An overview of the standardized tests most commonly used by counselors. In addition to learning the underlying concepts of standardized testing, students

will also be taught how to select and use tests appropriate to their proposed work settings. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6613 Basic Projective Techniques 2 credits.** Projective theory and its relationship to psychoanalysis, dynamic theory, and learning theory. Techniques including problems of clinical practicality, prediction of behavior, and personality assessment. Practical experiences available in laboratory courses. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6619 Individual Intelligence Testing 3 credits.** Supervised practice in administering, scoring, and interpreting the results of individual intelligence tests. Each section limited to 6 students. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6612 OR PERMISSION OF INSTRUCTOR.

**COUN 6621 Professional Orientation and Ethics 2 credits.** Introduction to profession of counseling: history, accreditation, licensure, organizational structure, advocacy, and use of technology. Ethical problems in counseling with specific attention given to the American Counseling Association Code of Ethics. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6623 Lifestyle and Career Development 2 credits.** Career development theories and decision-making models for counselors including career resources and materials. PREREQ AND CO-REQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6621 AND COUN 6696, OR PERMISSION OF INSTRUCTOR.

**COUN 6624 Cultural Counseling 2 credits.** The roles of minority groups, gender, age and other factors influencing adjustment in a pluralistic society. PREREQ AND CO-REQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6621 AND COUN 6696, OR PERMISSION OF INSTRUCTOR.

**COUN 6625 Crisis Interventions & Trauma Counseling 2 credits.** Current information, skills and strategies for counseling interventions specific to crises, disasters, and other trauma causing events. Topics include: triage, assessment and diagnosis, individual and community resiliency, emergency preparedness, multicultural considerations, interagency cooperation, and "psychological first aid". PREREQ: ADMISSION TO THE MASTER OF

COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6627 Conceptualizing Counseling Theory 2 credits.** The conceptual study of selected counseling theories related to historical development, personality development, client maturation, and learning theory.

**COUN 6628 Applications of Counseling Theory 2 credits.** The applied study of selected counseling theories with emphasis on the evolution of maladjustment, process of change, and appropriate interventions for generating change. PREREQ: COUN 6627 OR PERMISSION OF INSTRUCTOR.

**COUN 6630 Addictions Counseling 2 credits.** Acquaint students with current theories of addiction, recovery, and relapse prevention as well as effective strategies and techniques in working with clients with addictions. The course will explore public policies on local, state, and national levels with regard to addiction services. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6638 Foundations of School Counseling 3 credits.** An introduction to the school counseling profession, developmental program models and the roles of the professional school counselor. Special focus will be placed on current literature, cultural considerations, philosophical assumptions, key concepts, techniques, practical applications, recent legislation and consultation. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6639 Application of School Counseling Foundations 3 credits.** This school counseling class prepares students to identify and work with specific populations of youth-at-risk and their communities. Special focus will be placed on current literature, cultural considerations, philosophical assumptions, key concepts, techniques, and practical applications for the K-12 school counselor. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6650 Thesis 1-9 credits.** May be repeated. Graded S/U. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6651 Master's Paper 3 credits.** A paper involving extensive familiarity with research findings written under the supervision of a faculty member in the department. May be

repeated. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6652 Specialist Paper 3 credits.** A paper involving extensive familiarity with research findings under the supervision of a faculty member of the department. May be repeated. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6658 Independent Problems 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 6 credits. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, OR THE PH.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM, OR THE ED.S. IN COUNSELING PROGRAM, OR PERMISSION OF INSTRUCTOR.

**COUN 6659 Seminar 1-3 credits.** Critical analysis of the literature in one or more areas of education. Enrollment limited. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**COUN 6660 Theories of Family & Couple Counseling 3 credits.** The study of the development of the family and couple counseling field and the issues and theories related to its practice. PREREQ OR COREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6621, COUN 6627, COUN 6696, OR PERMISSION OF INSTRUCTOR.

**COUN 6661 Issues in Family Counseling 3 credits.** Examination of the effects of violence, issues of sexuality, and issues related to parenting place on family dynamics and family counseling. PREREQ OR CO-REQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, PERMISSION OF INSTRUCTOR.

**COUN 6664 Family Assessment 2 credits.** Introduction to family assessment models and instruments as well as evaluation of programs/agencies providing family counseling. PREREQ OR COREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6660, COUN 6662, OR PERMISSION OF INSTRUCTOR.

**COUN 6665 Advanced Family Systems Theory 2 credits.** Advanced theoretical study with emphasis on researched applications of family counseling. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6660 OR PERMISSION OF INSTRUCTOR.

**COUN 6669 Family/Couple Counseling Practicum 3 credits.** Practicum experience counseling families and couples. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6660, COUN 6663, COUN 6697, OR PERMISSION OF INSTRUCTOR.

**COUN 6676 Small Group Activity 1 credit.** Designed to give direct experiences as a group participant and provide preparation for

**COUN 6677 Group Counseling Techniques 3 credits.** Essential research, selected group - development and therapy theories, leadership orientations and strategies, structural group dynamics, and applications. Skills development in a laboratory setting. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6676, COUN 6696 OR PERMISSION OF INSTRUCTOR.

**COUN 6680 Foundations of Student Affairs 3 credits.** History, philosophy, purpose, and function of student affairs practice including review of "The Student Personnel Point of View," theories of student development, and current trends. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6683 Administration of Student Affairs Practice 3 credits.** Leadership and management theories and practice in higher education and student services. Essential research, consultation, good practices, and assessment techniques for all student populations and services. PREREQ: PERMISSION OF INSTRUCTOR TO THE MASTER OF COUNSELING PROGRAM, COUN 6680 OR PERMISSION OF INSTRUCTOR.

**COUN 6687 Field Work in Personnel Services 1-2 credits.** Observation and learning the duties performed by the persons in the field work setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.. Graded S/U.

**COUN 6689 Internship in Student Personnel 3-12 credits.** A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6690 Foundations of Clinical Mental Health Counseling (CMHC) 2 credits.** Orientation to the professional foundation of clin-

ical mental health counseling for individuals, couples, and families across the lifespan. Topics include history and philosophy, ethics, professional roles and functions, professionalism, community systems and mental health, identity, and diversity within clinical mental health counseling. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6691 Professional Issues in Clinical Mental Health Counseling (CMHC) 2 credits.** This course will provide current information and strategies for counseling issues specific to clinical mental health counseling. Topics include advocacy, public policy, administration and finance, and practice privileges. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6690 OR PERMISSION OF INSTRUCTOR.

**COUN 6692 Continuum of Care in Clinical Mental Health Counseling (CMHC) 2 credit.** The course will address philosophical and contextual elements of clinical mental health counseling. Topics include the wellness model, prevention, diagnosis in context, treatment modalities, delivery systems, and best practices for clinical mental health counselors. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6693 Supervision of Counselors 1 credit.** The study of current practices used in the clinical supervision of counselors. Current literature will be reviewed as well as standards for supervision which have been established by accrediting bodies and professional associations. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, OR THE ED.S. IN COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 6694 Psychodiagnosis and Psychotropic Drugs 3 credits.** Psychological classification systems, mental status evaluations, and the use of psychotropic drugs in treatment programs. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6621 AND COUN 6696, OR PERMISSION OF INSTRUCTOR.

**COUN 6696 Prepracticum Counseling Techniques 3 credits.** The study and practice of counseling techniques including micro-counseling and role-playing. May be repeated. PREREQ AND CO-REQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6621, COUN 6627 OR PERMISSION OF INSTRUCTOR.

**COUN 6697 Practicum in Counseling 2 credits.** Supervised counseling experience. A combination of fifty hours of experience and supervision equals one hour of academic credit. Each section limited to 5 students. May be repeated. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6696 OR PERMISSION OF INSTRUCTOR.

**COUN 6697L Practicum in Counseling Lab 0 credits.** Group supervision of students working in the field during their internship experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as tutorial experience based on the student's developmental needs. Graded S/U. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, CO-REQ COUN 6697.

**COUN 6698 Internship in Counseling 1-18 credits.** A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated for a maximum of 17 credits. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6697.

**COUN 6698L Internship in Counseling Lab 0 credits.** Group supervision of students working in the field during their internship experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as a tutorial experience based on the student's developmental needs. Graded S/U. PREREQ AND CO-REQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, COUN 6698.

**COUN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated. PREREQ: ADMISSION TO THE MASTER OF COUNSELING PROGRAM, THE ED.S. IN COUNSELING PROGRAM, OR THE PH.D. IN COUNSELOR EDUCATION & COUNSELING PROGRAM OR PERMISSION OF INSTRUCTOR.

**COUN 7701 Advanced Statistics 2 credits.** Statistical application appropriate for doctoral research and writing. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7702 Advanced Research and Experimental Design 2 credits.** Quantitative methods of conducting research in doctoral study. PREREQ: COUN 7701 AND ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

AND COUNSELING PROGRAM.

**COUN 7703 Qualitative Research 2 credits.** Explores and contrasts philosophical assumptions of qualitative and quantitative research. Various methodologies and approaches to qualitative research are reviewed and applications discussed. PREREQ: COUN 7701 AND ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7704 Qualitative Methodology & Analysis 2 credits.** Design, data collection, analysis and writing qualitative research. Practice using data collection procedures, traditional analytic methods and qualitative data processing programs for coding and matrix construction. Emphasizes grounded theory approach. PREREQ: COUN 7703 AND ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7705 Instructional Theory for Counselor Educators 3 credits.** Instructional theory and methods relevant to counselor education including models and methods of appraisal. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7710 Practicum in College Teaching 2 credits.** Observation of and assisting in the teaching and evaluation of a college course under the supervision of the course instructor. The student will prepare and deliver at least five lectures which will be observed by the instructor and will, in addition to observing the balance of the course, meet individually with the instructor for periodic discussions of procedure and methodology. PREREQ: COUN 7705, COMPLETION OF THE COURSE IN WHICH THE PRACTICUM WILL BE SERVED, ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7712 Advanced Psychological Testing and Assessment 2 credits.** Advanced psychological testing concepts, test administration, test construction and interpretation. Advanced information of standardized tests commonly used in the counselor education field. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7723 Advanced Vocational Theory 3 credits.** Theory of vocational development, sociological aspects of vocational choice and entry, development of interests and aspiration levels, and research relating to entry into work, satisfaction in work, dissatisfaction in topics. Course is structured around the major theories

of vocational development as they relate to individual development. Various approaches to vocational testing are included. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7724 Advanced Diversity Issues 3 credits.** Pedagogy relevant to current social and cultural issues. Role of diversity issues in counselor education, supervision, and counseling. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7727 Advanced Theories of Counseling 3 credits.** Analysis of various counseling theories and their relationships to specific philosophies concerning humanity. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7758 Independent Problems 1-4 credits.** Individual work under staff guidance. Field and/or library research on specific educational problems. Experience in research composition. May be repeated up to 8 credits. PREREQ: PERMISSION OF INSTRUCTOR AND ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7759 Ed.S. Internship 1-9 credits.** Placement in a post-master's degree counseling setting. A combination of fifty hours of experience and supervision equals one hour of academic credit. May be repeated. PREREQ: ADMISSION AS AN ED.S. STUDENT AND PERMISSION OF INSTRUCTOR.

**COUN 7774 Advanced Group Procedures 3 credits.** Advanced group leadership theory and techniques. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7775 Advanced Practicum in Group Counseling 2 credits.** Fifty hours of group counseling as the group facilitator, plus a coordinating seminar. Includes the theoretical basis for group leaders and development of group leadership skills. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 7790 Supervision in Counselor Education 3 credits.** Analysis of systems for conducting supervision of counseling students including various models of supervision and their implementation in Practicum and Internship. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8800 Research and Professional Issues 1-3 credit.** Critical analysis of the literature in counselor education including topics such as program models, current research, and professional associations. May be repeated up to 3 credits. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8801 Doctoral Career Development 1 credit.** Implementation of career theory into professional development plans for advancement in Counselor Education. PREREQ: ADMISSION TO Ph.D. PROGRAM IN COUNSELOR EDUCATION AND COUNSELING.

**COUN 8802 Scholarship in Counselor Education 1 credit.** Developing a scholarly identity and research agenda within counselor education and supervision. Course will focus on creating and submitting publishable manuscripts; developing grant writing skills; navigating the academic publication process; and, enhancing writing quality and productivity. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8848 Doctoral Counseling Practicum 3 credits.** Counseling under supervision and an intensive examination of the students own counseling philosophy and its relationship to client behavioral and attitudinal change. A combination of fifty hours of experience and supervision equals one hour of academic credit. Each section limited to 5 students. PREREQ: COUN 7727 AND ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8848L Doctoral Counseling Practicum Lab 0 credits.** Group supervision of student working in the field during their doctoral practicum experience. Supervision is provided on a weekly basis and thus the units of instruction are devised as a tutorial experience based on the student's developmental needs. Graded S/U. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8849 Doctoral Internship 1-18 credits.** Placement in a doctoral level counseling or counselor education setting. May be repeated. A combination of fifty hours of experience and supervision equals one hour of academic credit. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8849L Doctoral Internship Lab 0 credits.** Group supervision of student working in the field during their doctoral internship experience. Supervision is provided on a weekly basis and thus the units of instruction

are devised as tutorial experience based on the student's developmental needs. Graded S/U. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

**COUN 8850 Dissertation 1-12 credits.** May be repeated. Graded S/U. PREREQ: ADMISSION TO Ph.D. IN COUNSELOR EDUCATION AND COUNSELING PROGRAM.

## Dietetic Programs

Director: McKnight

Assistant Professors: Blanton, Weeden

Clinical Faculty: Grim, McKnight, Schneider

Adjunct Faculty: Hilvers, Vance

Professor Emeritus: Dundas

The two Dietetic Programs at Idaho State University are undergraduate and post-baccalaureate. Though no graduate degree is offered in Nutrition nor Dietetics, there are several courses available to take for graduate credit once the prerequisites have been met. Dietetics has two graduate faculty who are available to work on theses with a nutrition focus.

## Nutrition and Dietetics Graduate Courses

### (No Graduate Degrees Offered)

**NTD 5509 Professional Readings 1-3 credits.** Identification and investigation of conceptual ideas about the relationship of programs, trends, legislation, and developments in food and nutrition. May be repeated. PREREQ: PERMISSION OF INSTRUCTOR.

**NTD 5539 Sports Nutrition 3 credits.** Nutrition recommendations for competitive and recreational athletic performance. Rationale for nutrition practices through an examination of individual nutrient metabolism. Controversies and misinformation addressed. Suggested prereq NTD 2239 or equivalent or permission of instructor.

**NTD 5557 Experimental Foods 3 credits.** Development of experimental methods and their application to cookery and food technology; preparation of student for independent investigation in foods; acquaintance with literature in the field. Two hours lecture/four hours laboratory. Suggested prereq NTD 1104 or equivalent or permission of instructor.

**NTD 5561 Nutritional Biochemistry I 3 credits.** Advanced study of nutrition science, including protein, carbohydrate, lipid, vitamin, and mineral metabolism. Introduction to research methodology and professional literature. Suggested prereq NTD 2239, CHEM 1101, CHEM 1102 and CHEM 1103 or higher

levels of chemistry including inorganic, organic, and biochemistry, or permission of instructor.

**NTD 5581 Special Problems in Nutrition and Dietetics 1-2 credits.** Students select problems on the basis of special needs, interests, or abilities and work on them independently in the laboratory, library, or community, with regular conferences with the advisor. PREREQ: Permission of instructor.

**NTD 5585 Nutritional Biochemistry II 3 credits.** Human metabolism in health and disease. Emphasizes interrelationships among hormones, carbohydrates, proteins, lipids, vitamins and minerals within tissues and organs. Suggested prereq NTD 4461 or NTD 5561 or permission of instructor.

**NTD 5591-5592 Special Problems in Nutrition and Dietetics I & II 1-2 credits.** Students select problems on the basis of special needs, interests or abilities, and work on them independently in the laboratory, library, or community with regular conferences with the advisor. May be repeated. PREREQ: - PERMISSION OF INSTRUCTOR.

**NTD 5595 Dental Nutrition 1 credit.** This course reviews the role of nutrition in attaining and maintaining optimal oral health. The course explores how the essential nutrients influence oral health. This course is only available to students in the Idaho Dental Education Program in the Department of Dental Science.

**NTD 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NTD 6620 Nutritional Epidemiology 2 credits.** Specialized study of epidemiology including nutritional assessment methods, interrelationships between disease, diet, and health status, and implications for public health policy.

**NTD 6622 Maternal, Infant, and Child Nutrition 2 credits.** Advanced study of nutrition in human growth and development during pregnancy, lactation, infancy, childhood, adolescence. Therapeutic nutritional management of diseases specific to pregnancy, infancy, and childhood are addressed.

**NTD 6624 Nutrition and Aging 2 credits.** Exploration of the physiological, psychosocial, and chronic degenerative conditions associated with aging and the nutritional implications of

each. Epidemiological basis for setting dietary goals and program development to support the nutritional needs of the elderly is addressed.

**NTD 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Health Care Administration Program

Program Director and Assistant Professor: Farnsworth

Associate Professor: Hermanson

### Health Care Administration Graduate Courses

#### (No Graduate Degrees Offered)

**HCA 5550 Special Topics in Healthcare 1-3 credits.** Topics relevant to health professionals. May be repeated for up to 9 credits with different titles or content. Graded S/U.

**HCA 5553 Healthcare Finance 3 credits.** The application of financial management principles, practices and techniques used in healthcare organizations. An understanding an analysis of how these financial tools are used in decision making and how they are integrated into the healthcare organization's planning process. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ACCT 2202 and FIN 3315 or equivalent.

**HCA 5565 Health Care Operations and Quality 3 credits.** This capstone course in health care administration addresses the application of managerial concepts and practices within various health care environments, including acute, ambulatory, mental health, and long term care organizations. Topics include issues/trends and best practices related to governance, leadership, management; planning and marketing; quality assessment/operations improvement; and maximizing human resources and financial performance. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**HCA 5573 Marketing for Health Care Organizations 3 credits.** Introduction to basic marketing management issues as they pertain to healthcare. Current marketing trends in the health care marketplace. Consumer orientation, healthcare marketing plans, and strategy development. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**HCA 5575 Health Law and Bioethics 3 credits.** This course develops a roadmap to facilitate risk management in the provision of healthcare services. Issues addressed include regulation and licensure, liability, selected aspects of public programs, and ethical issues regarding death, reproduction, and research. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**HCA 5595 Administrative Internship 4 credits.** During the internship experience, students work in a health or human services organization, performing various duties and being exposed to various aspects of managerial careers in health services management.\* PREREQ: HCA emphasis and permission of HCA department chair. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. \*Some facilities may require a background check. When required, this check will be conducted at the student's expense.

**HCA 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**HCA 6610 Industry in Transition 2 credits.** Current readings from the popular and academic literature are used to explore and to understand the critical aspects of access, cost, and quality health care delivery across all areas of the industry.

**HCA 6615 Health Services Management 3 credits.** Determination and fulfillment of mission, plans, and structure, motivating individuals, and managing activities to support people in their work and in the achievement of their goals.

**HCA 6620 Economics and Reimbursement 2 credits.** In-depth synthesis of the insurance and reimbursement practices in today's health care environment, and the economic foundations upon which they are based.

**HCA 6625 Healthcare Law and Bioethics 3 credits.** Comprehensive coverage of legal issues and the ethical implications of the law as applied to regulation and licensure, health care financing, Medicare and Medicaid, health care reform, and other relevant current issues.

**HCA 6630 Financial Management 3 credits.** The application of financial management principles, practices, and techniques used in health care organizations. Financial tools as decision making, strategy, and planning tools.

**HCA 6635 Healthcare IT and Quality 2 credits.** Healthcare IT management framework, hardware and software, project management, and the collection, use, security of health information, external accreditation processes, and internal quality improvement programs.

**HCA 6640 Healthcare Policy 2 credits.** The formulation of priorities, development of legislation, implementation of legislative provisions through administrative action, and their effect on population health.

**HCA 6645 Strategic Management 3 credits.** An integration of the principles of organization management, finance, and marketing. Market analysis and positioning including strategic planning and new program development. The leader's role in strategy formulation and implementation.

**HCA 6651 Master's Project 1-3 credits.** Under the guidance of a supervising committee, each student will conduct an in-depth project specific to a current issue or problem in health care management. Written documentation and an oral defense of the project are required. Must be taken for three credits the first time this course is taken. May be repeated for variable credit thereafter. Graded S/U.

**HCA 6660 Applied Research 3 credits.** Students will develop the knowledge and skills needed to investigate and address important issues in health organizations using the methods of health services research, as well as to effectively use and evaluate the published literature. How to identify and define a question that is researchable, appropriately use primary and secondary data, choose and execute appropriate research designs, and select and apply appropriate qualitative, quantitative, survey, and evaluation methods.

**HCA 6665 Health Insurance and Reimbursement 3 credits.** Introduction to, and analysis of, health insurance in the United States. Select topics include reimbursement systems, public and private health insurance; their impact on patients, organizations, society, care delivery modes, and clinical and managerial quality.

**HCA 6680 Applied Topics in Health Care 3 credits.** Advanced readings and analysis in the areas of health economics, health finance, social aspects of medicine, bioethics, public health and epidemiology.

**HCA 6682 US Health Systems and Policy 3 credits.** An examination of US health industry, systems, and organizations from the four-point perspective of access, quality, finance,

and policy.

**HCA 6691 Independent Problems in Health Care Administration 1 - 3 credits.** Individual work under faculty guidance may be repeated for up to 6 credits.

**HCA 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Health Education Program

Program Director and Professor: McAleese  
Professor: Rankin  
Assistant Professors: Batacan, Olsen

## Master of Health Education (MHE)

The master's degree program in Health Education is designed to prepare students to teach strategies in health promotion/disease prevention. Coursework emphasizes the acquisition of skills to assess, plan, implement, and evaluate health education programs in the school, community, or worksite setting.

### Admission Requirements

To be accepted as a applicant for the Master of Health Education degree, the student must apply to, and meet all criteria for, admission to the Graduate School. In addition, the Health Education Program may require: (1) the applicant to have necessary background in the related natural sciences, and (2) that the applicant have the necessary background in tests and measurements and basic statistical procedures. Both thesis and non-thesis options are available.

### Entrance Procedure

The Program Director will review MHE applications. Admission standards and application procedures are presented in the Graduate Catalog. The Program Director will admit prospective students who satisfy the MHE Program and Graduate School admission requirements. Applicants who do not completely satisfy requirements are referred to the Admissions Committee to determine recommended admission or denial.

For classified admission into the program, applicants must satisfy the following criteria:

1. The student must apply to, and meet all criteria for, admission to the Graduate

School.

2. Submit all previous college transcripts and have a cumulative undergraduate grade point average of at least 3.0 in upper division courses. An applicant who currently holds a graduate degree must submit transcripts, but the undergraduate GPA requirement will not be part of departmental consideration.
3. Submit two letters of recommendation from individuals (non-relatives) who are familiar with their abilities. The letters should be sent to the Health Education Program at the same time the application is sent to the Graduate School.
4. Applicants must submit a typed essay (one to two pages, single spaced) describing their interest in pursuing the MHE degree and their vision of how it will facilitate their career goals.

Applicants currently holding degrees at the doctoral level from an accredited institution will not be required to submit GRE general test scores, except for applicants who have a professional doctoral degree (e.g., PharmD and Juris Doctorate). Those holding degrees at the baccalaureate and master's level must submit GRE general test results to the Graduate School.

### Course Requirements

HE/MPH 6605 Leadership and Administration	3 cr
HE/MPH 6620 Health Program Planning and Evaluation	3 cr
HE 6639 Teaching Strategies in Health	3 cr
HE/MPH 6640 Research and Writing in Health	3 cr
HE/MPH 6660 Behavior Change Theory and Applications	3 cr

In addition, one of the following:

HE 6623 Curriculum and Supervision	3 cr
MPH 6604 Social and Cultural Perspectives in Public Health	3 cr

### Thesis Option

HE 6650 Thesis	6 cr
Approved Electives	6 cr
TOTAL	30 cr

### Non-Thesis Option

HE 6651 Master's Project in Health Education	6 cr
Approved Electives	6 cr
TOTAL	30 cr

## Health Education Graduate Courses

**HE 5501 Issues in Health and Wellness 1-3 credits.** Contemporary health and wellness issues emphasizing education interventions and application. Topics may include: death and dying, computer technology in health, healthy aging, motivation, emergency preparedness, alternative and complementary medicine, international health. May be repeated to 6 credits with different content. PREREQ: PERMISSION OF INSTRUCTOR.

**HE 5525 Patient Education Skills 2 credits.** Explores the foundations and application of organizational and communication skills which promote a positive atmosphere for patient education in clinical and worksite settings.

**HE 5542 Environmental Health and Health Education 3 credits.** Study of a variety of issues related to protecting and preserving the environment with an emphasis on school and community educational programs. PREREQ: ADMISSION TO HEALTH EDUCATION PROGRAM OR PERMISSION OF INSTRUCTOR.

**HE 5543 Substance Abuse and Health Education 3 credits.** Study of the physical, psychological, sociological, and environmental factors related to drug use with emphasis on school and community prevention programs. PREREQ: ADMISSION TO HEALTH EDUCATION PROGRAM OR PERMISSION OF INSTRUCTOR.

**HE 5545 Human Sexuality and Health Education 3 credits.** Study of the multifaceted nature of human sexuality with an emphasis on school and community-level educational programs. PREREQ: ADMISSION TO HEALTH EDUCATION PROGRAM OR PERMISSION OF INSTRUCTOR.

**HE 5585 Independent Problems in Health Education 1-3 credits.** Individual work under staff guidance. Field and/or library research on specific health education problems of interest to majors and minors. Permission of instructor. May be repeated up to 6 credits.

**HE 5591 Health Education Workshop 1-3 credits.** A critical analysis of one or more areas of health education. Limited enrollment. May be repeated up to 6 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**HE 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. Must be graded S/U.

**HE 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**HE 6605 Leadership Policy and Administration 3 credits.** Development of leadership and administrative skills which contribute to implementation of effective public health policies and programs. Students will learn strate-

gic planning, facilitation techniques, communication strategies, budget development, and management. Cross-listed with MPH 6605.

**HE 6620 Health Program Planning and Evaluation 3 credits.** Theory and processes of assessment, planning, implementing, and evaluating health education, promotion, and disease prevention programs. Principles taught in this course will be applied to community situations. Cross-listed as MPH 6620.

**HE 6623 Curriculum and Supervision 3 credits.** Consideration of the health education curriculum in public schools and in colleges and universities. Recent developments and current trends that influence the curriculum and supervision policies. Observation techniques, standards in judging instruction, the supervisory conference, cooperative supervision, basic foundation of curriculum construction, and lesson planning.

**HE 6639 Teaching Strategies in Health 3 credits.** An advanced study of strategies and innovative methods of teaching health education. Emphasis on application to a variety of educational levels.

**HE 6640 Research and Writing in Health 3 credits.** Application of principles of research design in the health sciences. Requires preparation of a thesis/project proposal. Cross-list with MPH 6640.

**HE 6648 Problems in Health Education 1-3 credits.** Individual and group study of problems in the area of health. May be repeated to 6 credit hours. PREREQ: APPROVAL OF ADVISOR AND/OR CHAIRPERSON. Graded S/U.

**HE 6650 Thesis 1-6 credits.** Graded S/U. May be repeated.

**HE 6651 Master's Project in Health Education 1-6 credits.** Graded S/U. May be repeated.

**HE 6655 Internship 1-3 credits.** Administration, supervision and operation of a community health program. Students work under the direction of a graduate faculty member and practicing administrator. May be repeated up to 3 credits. PREREQ: APPROVAL OF ADVISOR AND/OR CHAIR. Graded S/U.

**HE 6660 Behavior Change Theory and Applications 3 credits.** Provides a basic understanding of the social, emotional, and lifestyle factors related to health behavior. Strategies designed to identify barriers to behavior and to enhance the health of selected populations are examined. Cross-listed with MPH 6660.

**HE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Master of Science in Medical Laboratory Science

Program Director & Clinical Associate Professor: Nehr-Kanet  
Assistant Professor: Ma  
Clinical Associate Professors: Galindo  
Clinical Professor: Spiegel (Emeritus)

Medical laboratory scientists are vital healthcare detectives, uncovering and providing key medical information from laboratory analyses that assist physicians in patient diagnosis, treatment, as well as in disease monitoring or prevention.

Laboratory testing encompasses such disciplines as clinical chemistry, hematology, immunology, transfusion medicine, microbiology, and molecular biology.

The Medical Laboratory Science program is located in the Division of Health Sciences, Kasiska School of Health Professions in both Pocatello and Meridian Idaho.

The Master of Science in Medical Laboratory Science degree is designed for either the practicing medical laboratory scientist (certified lab professional) or those students who wish to become certified and then go into leadership positions in administration, education or specialize in a certain area of athology/laboratory medicine. Graduates are ideally suited for positions involving teaching, laboratory management, and research. Full-time and part-time options are available, and many courses are available online. A curriculum of course work and research project is designed and personalized for each student, depending on his/her area of interest and experience.

The M.S. program in Clinical Laboratory Science requires an original research project that culminates in a thesis, a minimum of 32 credits earned in graduate courses (including research and thesis), and expertise in core conceptual areas of Medical Laboratory -Science (scientific, administrative, or educational).

### Admission Requirements

Applicants must have a minimum 3.0 GPA for upper division credits taken at the undergraduate level. Graduate School Admission GPA is calculated based on the last 60± semester un-

dergraduate credits (90± quarter credits). The student must apply to, and meet all criteria for admission to the Graduate School.

In addition, admission into the M.S. program will require the student to meet one of the two following conditions:

1. Professionals already certified as Medical Laboratory Scientist (BOC) and completion of a B.S. or B.A. degree in a related science from an accredited university or college. Note: Certification as Medical Laboratory Scientist categorical does not wholly satisfy this requirement.

OR

2. Professional entry-level M.S. completing certification requirements while pursuing the M.S. degree. Completion of a B.S. or B.A. degree from an accredited institution and completion of the following requirements during the M.S. program of study:

- a. At least 16 semester hours of chemistry to include inorganic chemistry and some combination or organic, biochemistry and analytical chemistry;
- b. At least 16 semester hours of biology, to include at least one semester in microbiology, cell biology, genetics, immunology, anatomy and physiology and human pathophysiology.
- c. Successful completion of the ISU Medical Laboratory Science professional program, accredited by NAACLS (National Accrediting Agency for Clinical Laboratory Science). Successful completion qualifies the applicant to take the national credentialing examinations offered by Board of Certification (BOC) and this should be attempted within one year of finishing the MLS professional block and prior to completion of the MLS research thesis.

## Core Curriculum Areas

The three core areas for Medical Laboratory Science that all students could include in their programs of study are:

1. Scientific subject core area including pathology, hematology, transfusion medicine (immunohematology), clinical chemistry, genetics, microbiology or molecular biology.
2. Management core area including information management, statistics, Quality Assurance Programs (i.e. Westgard, 6 Sigma Lean) predictive value theory, personnel, financial, organizational or regulatory concepts.
3. Educational core area including educational design and adult learning for professionals within and outside the medical labora-

tory setting.

Students are expected to have significant exposure to these core areas by the time they complete their degree requirements. Students coming in with MLS credentials have already demonstrated mastery of the core scientific subject area and those who do not have these credentials will be expected to demonstrate mastery by an examination administered by the program before they finish their M.S. studies.

Students may opt to gain expertise through a variety of mechanisms including independent readings, formal course work, seminars or special projects. For those students who are not already credentialed, the 6 credits of the MLS Practicum are at the undergraduate level. This does not count toward the 32 graduate credit requirements.

Required Courses for the M.S. in MLS used to satisfy the core areas described below:

MLS 4490, MLS 4491, MLS 4492, MLS 4493 and MLS 4494 Practicum experiences 6 cr (does not count for graduate credit)

OR

BOC MLS certification (does not count for graduate credit)

MLS 6648 Graduate Problems (research)	4 cr
MLS 6650 Thesis	6 cr
and	
at least 3 cr of MLS graduate course work (MLS 6640, MLS 6641, MLS 6642, MLS 6643 and/or MLS 6644)	3 cr

The remaining credits are to be taken from graduate-level courses (a minimum of 16 at the 6600 level) in one or more of the core areas with the approval of the applicant's committee and MLS Program Director.

Three graduate level courses (6 to 9 credits) approved by the graduate student's committee may be taken from outside the department (to be taken at Boise State University, Idaho State University, or another approved university) and may include adult education, management, and/or medical informatics.

The thesis project may be in a core scientific subject, management or education or a combination thereof.

## Medical Laboratory Science Courses

**MLS 5512 Urinalysis and Body Fluids 1 credit.** Fundamental principles of urine and body fluid analysis with correlation of laboratory methods and practice. Graduate students will prepare, conduct, and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5514 Hematology and Hemostasis 3 credits.** Theoretical and applied aspects of medical hematology and hemostasis with emphasis on recognition and correlation of abnormal laboratory observations with pathological conditions. Graduate students will prepare, conduct, and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5516 Medical Microbiology I 3 credits.** Study and identification of medically important bacteria, viruses, fungi, chlamydiae, rickettsiae, and parasites as applicable to laboratory and infection control settings. Graduate students will prepare, conduct, and evaluate case study sessions. PREREQ: BIOL 2235 OR 2221 OR EQUIVALENT. ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5518 Medical Chemistry and Instrumentation 3 credits.** Theoretical and applied aspects of medical chemistry with emphasis on test development, validation, and use in diagnosis and management of pathological conditions. Graduate students will prepare, conduct and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5520 Medical Immunology 2 credits.** Practical aspects of immunology with emphasis on pathological conditions and laboratory practice. Graduate students will prepare, conduct, and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5522 Basic Concepts in Transfusion Medicine 2 credits.** Practical aspects and theoretical considerations of major blood groups with respect to transfusion therapy. Oral and written project presentation required for graduate credit. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5524 Medical Laboratory Fundamentals 1 credit.** Theory and application of basic techniques and instruments used in all areas of medical laboratories. Graduate students will evaluate laboratory methods and write standard operating procedures.. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE. LAB FEE.

**MLS 5531 Medical Microbiology II 3 credits.** Advanced topics in medical microbiology, including application of laboratory techniques to the identification and evaluation of medically important pathogens, and correlations with disease states. Graduate students will prepare, conduct and evaluate case study sessions. PREREQ: CLS 5516 MEDICAL MICROBI-

LOGY I, ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5533 MLS Management and Education 2 credits.** Advanced principles of current personnel, financial, regulatory issues, laboratory information systems, management, and education. Student presentations will be required. Students taking the course for graduate credit will prepare, conduct and evaluate a project. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5535 Molecular Diagnostics 3 credits.** A comprehensive overview of the fundamental principles of medical molecular diagnostics and use of molecular techniques in the diagnosis of disease. Topics include: nucleic acid structure and function, genetics, DNA chemistry, introduction to nucleic acid isolation, identification and amplification techniques. Graduate students will prepare, conduct, and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5537 Critical Analysis of Lab Information 3 credits.** Evaluation of clinical laboratory values with emphasis on advanced methods, specialized statistics, algorithm building, and clinical correlations. Graduate students will prepare, conduct and evaluate case study sessions. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5539 Advanced Concepts in Transfusion Medicine 2 credits.** Advanced topics in Immunohematology. Application of laboratory techniques to the identification and evaluation of antibodies and antigens. Emphasis on transfusion therapy. Graduate students will prepare, conduct and evaluate case study sessions. PREREQ: CLS 5522 BASIC CONCEPTS IN TRANSFUSION MEDICINE. ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5541 MLS Graduate Research 1-3 credits.** Individual theory and application of related topics associated with the medical laboratory. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE.

**MLS 5555 MLS Student Laboratory Practices 2 credits.** Directed practice in the advanced tests and techniques in common use in the medical laboratory (including molecular biology, microbiology, hematology, chemistry, blood bank). Graduate students will be responsible for higher complexity testing and advanced problem solving exercises. PREREQ: ACCEPTANCE INTO MLS PROGRAM. PROFESSIONAL FEE. LAB FEE.

**MLS 6640 Advanced Topics in Hematology 1-4 credits.** Current research and practice in hematology and hemostasis including molecular approaches to medical diagnosis and treatment. May be repeated for a maximum of 4 credits.

**MLS 6641 Advanced Topics in Immunology and Transfusion Medicine 1-4 credits.** Current research and practice in immunology and transfusion medicine including molecular approach to diagnosis and treatment. May be repeated for a maximum of 4 credits.

**MLS 6642 Advanced Topics in Medical Chemistry 1-4 credits.** Current research and practice in medical chemistry including innovative instrumentation and molecular diagnostics. May be repeated for a maximum of 4 credits.

**MLS 6643 Advanced Topics in Medical Laboratory Education 1-4 credits.** Curriculum design and evaluation in the Medical Laboratory setting. May be repeated for a maximum of 4 credits.

**MLS 6644 Advanced Topics in Medical Microbiology 1-4 credits.** Current research and in microbiology and molecular diagnostics including the molecular basis of important infectious diseases, microbial pathogenesis, and host-pathogen interactions. May be repeated for a maximum of 4 credits.

**MLS 6648 Graduate Problems 1-9 credits per semester (may be repeated).** Thesis related research. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. GRADED S/U

**MLS 6650 Thesis 1-9 credits.** Thesis related research. May be repeated. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. Graded S/U.

## Master of Public Health (MPH)

Program Director and Assistant Professor: Fore

Assistant Professor: Mispierita

Public health has as a basic goal to improve the health of populations through planning, implementing, and evaluating health promotion and disease prevention programs. Public health professionals design these intervention programs by using a combination of health education and related organizational, economic, legislative, and environmental supports to enhance the probability of creating a healthier populace.

The Master of Public Health Program curriculum prepares individuals to carry out the following core public health functions as defined by the American Public Health Association: assess both the health needs and the resources available in a community, assist in health policy development that supports programs in prevention, and assure that necessary, high quality, effective services including education are available to every citizen.

To meet this challenge, the MPH degree at Idaho State University is designed to meet the needs of two types of students: (1) those practicing health professionals who desire to augment their previous preparation so they may better implement health promotion strategies in their current work setting or community, and (2) those professionals who wish to train for careers in public health.

Core courses focus on the acquisition of requisite public health knowledge and skills in the disciplines of epidemiology, biostatistics, health policy management, social and behavioral sciences and environmental health. Elective courses allow the student to focus additional coursework in her/his chosen area of interest.

### Admission Requirements

For classified admission into the program, applicants must satisfy the following criteria:

1. The student must apply to, and meet all criteria for, admission to the Graduate School.
2. Have a cumulative undergraduate grade point of at least 3.0 in upper division (3000-4000 level) courses. Applicants who currently hold a graduate degree must submit their transcripts. All official college transcripts must be submitted to the ISU Graduate School.
3. Score an average of at least 40th percentile when considering both quantitative and verbal sections of the GRE general test but no lower than the 20th percentile in either section. No other instruments such as MCAT, LSAT, or GMAT may be substituted.
4. Applicants currently holding degrees at the doctoral level from an accredited institution will not be required to submit GRE general test scores (this includes professional doctoral degrees such as PharmD, Juris Doctorate, Medical Doctor, Doctor of Osteopathy, Doctor of Veterinary Medicine). Students who are admitted as Classified w/PR status without GRE scores must take the general test within their first semester of enrollment. Continuation in the program is contingent on the student meeting GRE score requirements. GRE scores must be submit-

ted to the Idaho State University Graduate School.

5. Have two letters of recommendation from non-relative individuals familiar with applicant's academic or professional abilities (no personal references) sent to the Department of Health and Nutrition Sciences at the same time application is sent to the Graduate School. The letters must be sealed with the signature of the recommender across the envelope flap.
6. Submit a typed essay (one to two pages, single spaced) describing applicant's interest in pursuing the MPH degree and vision of how it will facilitate the applicant's career goals.
7. International students who have not graduated from an accredited college or university in the United States, and whose native language is not English, must achieve satisfactory scores on the Test of English as a Foreign Language (TOEFL). Satisfactory TOEFL requirements for classified admission are described in the Idaho State University Graduate Catalog under "Admission of International Students." In addition, international student applicants who have not graduated from an accredited college or university in the United States must take the GRE and are required to score in the 40th percentile on at least one section of the GRE but no lower than the 20th percentile on the other section.

### General Requirements:

Applicants' transcripts will be evaluated by the Departmental Graduate Admissions Committee at the time of application to determine if deficiencies exist in the undergraduate coursework. Any deficiency that is identified must be made up prior to beginning the MPH program. Committee members will specify to the student courses that must be taken to rectify any deficiency.

Students pursuing the MPH degree must complete a minimum of 48 credits of coursework, including a 6-credit thesis and 9 credits of elective course work.

All students must maintain a satisfactory record of scholarship. A 3.0 grade point average (GPA) is required for any graduate degree or certification at Idaho State University. A grade below B is essentially failing at the graduate level. Students who earn a grade below a B in a core course will be required to retake that course. Students who earn grades below a B in two courses will be dismissed from the program.

### Course Requirements

The MPH curriculum includes 36 credit hours of core courses, 6 credit hours of approved, electives at the graduate level, and 6 credit hours of either a thesis or a project.

MPH 6601	Applications in Epidemiology	3 cr
MPH 6602	Biostatistics	3 cr
MPH 6604	Social and Cultural Perspective in Public Health	3 cr
MPH/HE 6605	Leadership, Policy and Administration	3 cr

### Master of Public Health Graduate Courses

**MPH 5585 Independent Study in Public Health 1–3 credits.** Individual work under staff guidance. Field and/or library research on specific public health problems of interest to majors and minors. Permission of instructor. May be repeated up to 6 credits.

**MPH 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MPH 6601 Applications in Epidemiology 3 credits.** Facilitates an epidemiological approach to problem solving in the health sciences through practical application of field epidemiology concepts and methods. PREREQ: PERMISSION OF INSTRUCTOR IF STUDENT IS NOT IN THE MPH PROGRAM.

**MPH 6602 Biostatistics 3 credits.** This course will equip students with a conceptual understanding of the calculation and interpretation of inferential statistics in public health research. PREREQ: PERMISSION OF INSTRUCTOR IF STUDENT IS NOT IN THE MPH PROGRAM.

**MPH 6604 Social and Cultural Perspectives in Public Health 3 credits.** Exploration of multicultural health beliefs, health disparities and needs of our society focusing on local cultures to develop culturally competent interventions. Learn about ethical issues, social justice, community systems, coalition building, and development of community partnerships.

**MPH 6605 Leadership Policy and Administration 3 credits.** Development of leadership and administrative skills which contribute to implementation of effective public health policies and programs. Students will learn strategic planning, facilitation techniques, communication strategies, budget development, and management. Cross-listed with HE 6605.

**MPH 6606 Environmental and Occupational Health 3 credits.** Understanding the interaction of humans with their environment and the implications of human actions. Learn about assessment and control of health risks posed by chemical and biological contaminants and physical exposures (noise, heat, and radiation) in occupational and non-occupational environments.

**MPH 6607 U.S. and Global Health Systems 3 credits.** Explore the historical and contemporary multi-layered social, cultural, political, and economic determinants in the US and internationally that shape health status, health behavior, and health inequalities. Practical application of creating appropriate interventions specific to the target population.

**MPH 6608 Technological Applications in Public Health 3 credits.** Introduction and application of software programs utilized in public health practice. Examples include SPSS, MS Excel, GIS, EpiInfo, MS Publisher. PREREQ: MPH 6602.

**MPH 6609 Seminar in Public and Community Health 3 credits.** Study of topics, trends and challenges within public health.

**MPH 6620 Health Program Planning and Evaluation 3 credits.** Theory and processes of assessment, planning, implementing, and evaluating health education, promotion, and disease prevention programs. Principles taught in this course will be applied to community situations. Cross-listed as HE 6620.

**MPH 6632 Community Health 3 credits.** A study of the role of health education/health promotion in the community setting. Emphasis on methods to build coalitions to address community health concerns and on the role of needs assessment.

**MPH 6640 Research and Writing in Health 3 credits.** Application of principles of research design in the health sciences. Requires preparation of a thesis/project proposal. Cross-list with HE 6640.

**MPH 6650 Thesis 1-6 credits.** Completion of a thesis/manuscript. Practical application of knowledge/skills in a public health setting. Graded S/U. May be repeated. PREREQ: MPH 6601, 6602, 6603, 6620, AND 6640.

**MPH 6651 Public Health Project 1-6 credits.** Completion of a public health project. Practical application of knowledge/skills in a public health setting. May be repeated. Graded S/U. PREREQ: MPH 6601, MPH 6602, MPH 6603, MPH 6620, and MPH 6640.

**MPH 6655 Public Health Internship 3 credits.** Application of skills in a public health agency, organization or other entity to provide the student with practical experience in the field. Graded S/U. May be repeated.

**MPH 6660 Behavior Change Theory and Applications 3 credits.** Provides a basic understanding of the social, emotional, and lifestyle factors related to health behavior. Strategies designed to identify barriers to behavior and to enhance the health of selected populations are examined. Cross-listed with HE 6660. PREREQ: PERMISSION OF INSTRUCTOR.

**MPH 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## School of Nursing

Mary A. Nies, PhD, RN, FAAN, FAAHB  
Dean and Professor, School of Nursing  
Karen S. Neill, Ph.D., R.N., SANE-A  
Associate Director for Graduate and Undergraduate Studies and Clinical Assistant Professor:

Professors: Neill, Nies  
Associate Professor: Arvidson  
Assistant Professor: Tavernier,  
Clinical Associate Professor: Pesnell  
Clinical Assistant Professors: Adams, Baron,  
Belliston, Bledsoe, Ovitt, Reiland, Sabel,  
Jardine-Dickerson, Ro-cha  
Clinical Instructors: Moore, Omotowa

### Mission and Vision

#### Mission

The SON Mission is to prepare exemplary

nurse leaders who integrate education, service and research to enhance the quality of life for diverse and rural populations.

#### Vision

The SON Vision is to be an internationally renowned college of nursing sought out by those who are committed to lifelong inquiry for improving the health of diverse populations.

### Degree Programs

Degree programs offered by the School of Nursing include:

Doctor of Philosophy (Ph.D.) in Nursing  
Doctor of Nursing Practice (DNP)  
DNP specific options include: Family Nurse Practitioner (FNP), Adult Gerontology Clinical Nurse Specialist (ACNS) and Psychiatric Mental Health Nurse Practitioner (PMHNP)  
Master's in Nursing (M.S)  
M.S. specific options include: Education and Leadership

### Accreditation

The graduate and undergraduate programs in the School of Nursing are accredited by the American Association of College of Nursing, Commission on Collegiate Nursing Education (CCNE).

Note: The DNP program in the SON is scheduled for initial accreditation review in the fall of 2014. The Ph.D. in Nursing program not subject to CCNE accreditation.

### School of Nursing Fees:

The School of Nursing (SON) charges a student professional fee each semester of enrollment including summer session in any nursing program. Other fees may apply. Please see ISU School of Nursing Finance and Administration website at <http://www.isu.edu/finserv/costinfo.shtml> for further information.

Students may be required to enroll in Nursing Education Exchange (NEXus) courses as part of any graduate program/option in Nursing.

## Doctor of Philosophy (Ph.D.) in Nursing

The Ph.D. in Nursing degree program will prepare the candidate to conduct independent research, collaborate as a scholar and leader, and educate for improving health and health care globally. The Ph.D. program will admit students on full time status. The Ph.D. in Nursing program is delivered online.

### Goals

The Ph.D. in Nursing is designed with a research emphasis dedicated to extending nursing science and improving the delivery of

health care for rural and vulnerable individuals, families and communities within existing cultural, geographical, and health care context. An interprofessional research focus will provide an opportunity for students to learn by collaborating with other professionals, and prepare graduates for leading change and advancing health and health care systems.

### Ph.D. Degree Program Outcomes

Each student will complete a core curriculum and work closely with faculty to complete an individualized course of study that fulfills the student's goals and develops the foundation for a program of research using online technologies integrating an interprofessional approach to:

1. Communicate scientific knowledge through mentorship, collaboration, and dissemination.
2. Create original research that contributes to scientific nursing knowledge.
3. Contribute to the development of methodologies congruent with the broad concerns of the nursing discipline.
4. Contribute to the discovery, application and integration of nursing and interprofessional knowledge and leadership.

### Admission Requirements:

The student must apply to and meet all requirements for admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Earned Bachelor of Science (B.S. in Nursing or B.S.N.) from programs accredited the Commission on Collegiate Nursing Education (CCNE) for the accreditation commission or Education in Nursing (ACEN). Master's degree in Nursing from an accredited program will be considered.
2. Cumulative GPA of 3.5 or higher from a Bachelor of Science in Nursing (B.S. or B.S.N.) program of study or  $\geq 3.5$  GPA based on previous 60 credits of undergraduate coursework.
3. English Proficiency Exams: Students whose native language is not English must provide evidence of satisfactory scores on the English Foreign Language (TOEFL) or on the International English Language Testing System (IELTS). (See Graduate Catalog for details).
  - a. Satisfactory TOEFL requirements for admission include: 1) Internet-based total test score of 80 with a score of at least 20 on each Section and 23 or above on the Speaking Section; or 2) Computer-based total test score of 213 with a score of at

least 21 on Section 1 (Listening Comprehension); or 3) Paper-based total test score of 550 with a score of at least 55 on section 1 (Listening Comprehension).

- b. Satisfactory IELTS requirement for admission include scoring 6.5 or higher on the total band and 6.5 on the speaking test component. Completed application to the SON by established deadline
5. Verification of valid and current unencumbered Registered Nursing license.
6. Completion of a preadmission interview by the SON Ph.D. Admissions Committee. If the applicant resides at a distance over 100 miles, an interview by video conference may be provided for at the student's expense.
7. Mandatory attendance at the orientation for the Ph.D. program to be held on the ISU campus in the summer session following admission.

The SON Ph.D. Admissions committee will make the final recommendation regarding admission. This decision will be based on evaluation of established application and admission requirements.

### Application Requirements

The student must apply to and meet all requirements for admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Application to the Graduate School AND to the School of Nursing with payment of appropriate fees (separate application process).
2. Submission of official transcripts of all degrees including the completion of BS in Nursing or BSN from an accredited nursing program.
3. Evidence of completing descriptive or inferential statistics course with a C grade or higher prior to admission to the program.
4. Submission of a professional essay (3-4 pages).
5. Submission of a writing sample (professional paper).
6. Three professional references attesting to the applicant's capacity and potential for doctoral study. Two references should be from academic sources and one from a recent employer.
7. Submission of professional vitae or resume.

### Selection Schedule for Ph.D. Program

Application for the Ph.D. program will open in September of any academic year. Preference

will be given to applications submitted by February 1 of any year. Applications are accepted on a rolling basis until class filled. Notification of applicants selected for admission and alternates will be announced by April 14 of any year.

### Dissertation Preparation and Advancement to Candidacy

#### Comprehensive Examination

The student must complete designated required and elective courses in order to complete the comprehensive qualifying examination requirements. If the student fails any component of the comprehensive examination, the student may retake the examination one time within established ISU SON guidelines, Ph.D. Handbook.

#### Admission to Candidacy

Each student that has successfully completed the comprehensive examination may apply for degree candidacy.

#### Dissertation

Once the student has been admitted to degree candidacy, the student enrolls in NURS 8890 for completion of the dissertation until completed.

### Continuous Enrollment

Students must maintain continuous enrollment in dissertation (NURS 8890) credit while in the process of research and writing the dissertation.

\*Upon admission to the Ph.D. program the student will be provided access to a SON Ph.D. Handbook which will include further information, program specific policies and procedures.

#### Required Courses and Electives

NURS8805 Philosophy of Inquiry	3 cr
NURS8808 Theoretical and Conceptual Analysis in Nursing Science	3 cr
NURS8809 Rural/Global Communities in Society	2 cr
NURS8813 Advanced Qualitative Analysis	3 cr
NURS8814 Advanced Statistics: Multivariate	3 cr
NURS8815 Advanced Quantitative Analysis	3 cr
NURS8816 Advanced Statistical Methods	3 cr
NURS8825 Grant and Scholarly Writing	2 cr
NURS8826 Advanced Scientific Writing	2 cr
NURS8830 Mixed Methods in Health Care Research	3 cr
NURS8835 Mentored Research Project	4 cr
NURS8840 Health Policy	3 cr
NURS8890 Dissertation	1-12 cr
Electives	9 cr
NURS 8880/8881/8882/8883 Research Seminar	1 cr each
Total	59 cr

## Curriculum for the Bachelor of Science in Nursing to Doctor of Philosophy in Nursing Program

#### Fall Semester

NURS 8805 Philosophy of Inquiry	3 cr
NURS 8809 Rural/Global Communities in Society	2 cr
NURS 8813 Advanced Qualitative Analysis	3 cr
NURS 8814 Advanced Statistics: Multivariate	3 cr
NURS 8880 Research Seminar	1 cr
Total	12 cr

#### Spring Semester

NURS 8815 Advanced Quantitative Analysis	3 cr
NURS 8840 Healthy Policy	3 cr
NURS 8825 Grant and Scholarly Writing	2 cr
NURS 8881 Research Seminar	1 cr
Elective	3 cr
Total	12 cr

#### Year 2

##### Fall Semester

NURS 8808 Theoretical and Conceptual Analysis in Nursing Science	3 cr

Elective	3 cr
Total	12 cr

##### Spring Semester

NURS 8835 Mentor Research Project	4 cr
NURS 8816 Advanced Statistical Methods	3 cr
NURS 8883 Research Seminar	1 cr
Elective	3 cr
Oral Examination	
Total	11 cr

#### Year 3

##### Fall/Spring Semester

NURS 8890 Dissertation	12 cr
------------------------	-------

## Doctor of Nursing Practice (DNP)

### DNP Degree Program

The primary objective of the DNP degree program is to prepare clinical leaders who can effectively evaluate clinical outcomes, identify and manage health care needs of individuals, families, and populations, use technology and information to transform health care systems, and participate in interprofessional collaboration to develop efficient and effective models of health care delivery. The graduate of the DNP program will be prepared for specific national certification examination.

The DNP program options are delivered online. The DNP program will enroll students on full time, part time or Post Master's status. Admission to any option on full time, part time or Post Masters status is contingent on sufficient enrollment as defined by the SON. Three specific options are open for enrollment in the DNP program. These options include: Family Nurse Practitioner (FNP), Adult Gerontology Clinical Nurse Specialist (ACNS), and Psychiatric Mental Health Nurse Practitioner (PMHNP).

In order to be eligible for Post Master's DNP

degree program, the applicant must hold national certification as a Family Nurse Practitioner (FNP), Psychiatric Mental Health Nurse Practitioner (PMHNP) or Adult-Gerontology Clinical Nurse Specialist (ACNS).

#### Option Descriptions for the DNP degree program:

**Family Nurse Practitioner (FNP):** The Family Nurse Practitioner (FNP) is prepared to be a leader in primary care, combining the roles of provider, mentor, educator and administrator. The FNP is prepared to practice autonomously and in collaboration with other healthcare professionals to provide evidence-based care to individuals, families, and populations across the lifespan in a variety of settings.

**Adult-Gerontology Clinical Nurse Specialist (ACNS):** The Adult-Gerontology Clinical Nurse Specialist (ACNS) demonstrates expert knowledge and ability to advance health care in adult and geriatric populations. The ACNS functions in collaboration with health care professionals for continuous improvement of patient outcomes and nursing care through three spheres of influence including the patient, nurse and system.

**Psychiatric Mental Health Nurse Practitioner (PMHNP):** The Psychiatric Mental Health Nurse Practitioner is prepared to provide psychiatric mental health care along the wellness-illness continuum, effectively evaluate clinical outcomes, and identify and manage primary and acute mental health care needs of individuals and families.

#### DNP Program Outcomes

Upon completion of the DNP degree program, the graduate will:

1. Assume interprofessional leadership to advance clinical practice and health care delivery to rural and diverse populations.
2. Integrate nursing science into evidence based care for individuals, families, and communities to improve outcomes.
3. Incorporate practice initiatives to improve systems of health care delivery.
4. Advocate policy for health care.

#### Admission Requirements:

The student must apply to and meet all requirements for admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Earned Bachelor of Science (B.S. in Nursing or B.S.N.) from programs accredited by the commission on Collegiate Nursing Education (CCNE) or the Accreditation Commission for Education in Nursing (ACEN).
2. Cumulative GPA of 3.0 or higher

(calculated based on previous 60 credits of undergraduate coursework) from a Bachelor of Science degree (B.S. in Nursing or BSN).

3. English Proficiency Exams: Students whose native language is not English must provide evidence of satisfactory scores on the English Foreign Language (TOEFL) or on the International English Language Testing System (IELTS). (See Graduate Catalog for details).
  - a. Satisfactory TOEFL requirements for admission include: 1) Internet-based total test score of 80 with a score of at least 20 on each Section and 23 or above on the Speaking Section; or 2) Computer-based total test score of 213 with a score of at least 21 on Section 1 (Listening Comprehension); or 3) Paper-based total test score of 550 with a score of at least 55 on section 1 (Listening Comprehension).
  - b. Satisfactory IELTS requirement for admission include scoring 6.5 or higher on the total band and 6.5 on the speaking test component.
5. Completed application to the SON by established deadline. Verification of valid and current unencumbered Registered Nursing license.
6. Completion of a preadmission interview by the SON DNP Admissions committee. If the applicant resides at a distance over 100 miles, an interview by videoconference may be provided for at the student's expense.

Two years of documented previous healthcare or nursing experience before admission is preferred, but not required.

The SON DNP Admissions committee will make the final recommendation regarding admission. This decision will be based on evaluation of established application and admission requirements.

Admission to the FNP, or ACNS or PMHNP DNP degree option is contingent on sufficient enrollment as defined by the SON.

#### Application Requirements:

The student must apply to and meet all requirements for admission to the Graduate School. In addition, the following must be complied with:

1. Application to the Graduate School AND to the School of Nursing with payment of appropriate fees (separate application process).
2. Submission of official transcripts of all degrees including the completion of the Bachelor of Science in Nursing (B.S.N. or B.S. in Nursing) from an accredited

nursing program. Official transcripts must be sent directly to the Graduate School from the Registrar's office of the applicant's previous institution(s) of study.

3. Evidence of completing prerequisite descriptive or inferential statistics course with a C grade or higher prior to admission to the program.
4. Submission of professional essay.
5. Three professional references attesting to the applicant's capacity and potential for clinical doctoral study.
6. Submission of professional vitae or resume.

#### Selection Schedule for DNP Program

Application for the DNP program will open in October of any academic year. Preference will be given to applications submitted by February 1 of any year. Applications are accepted on a rolling basis until class filled. Notification of applicants selected for admission and alternates will be announced by April 14th of any year.

#### Graduation Criteria

1. Successfully complete a scholarly project.
2. Successfully pass an oral examination.
3. Meet all requirements established by ISU, the Graduate School and the School of Nursing for graduation with the DNP degree.

#### Scholarly Project

The scholarly project includes synthesis of scientific evidence and theoretical principles within a practice environment(s) to improve healthcare outcomes. The Scholarly Project involves the incorporation of knowledge of current and emerging healthcare technologies to improve care delivery and organizational systems for groups and populations. Requires a minimum of eight credit hours.

#### Continuous Enrollment

Following admission to doctoral study, and enrolling in credits for scholarly project (NURS 7790) the student must maintain continuous enrollment until graduation.

#### Doctorate of Nursing Practice (DNP) Programs of Study

##### Core Courses (required for all DNP options)

Advanced Human Pathophysiology (Or NEXus course OR equivalent)	3 cr
NURS6611 Advanced Health Assessment	2 cr
NURS6611L Advanced Health Assessment Lab	2 cr
(96 clinical hours)	
PHAR6645 Pharmacotherapeutics for APN	3 cr
NURS5580 Genetics for the Health Care Professional	2 cr
NURS6600 Theoretical Foundations	3 cr
NURS6610 Advance Evidence Application	3 cr
NURS6655 Advanced Leadership	3 cr
NURS7720 Professional Issues of the DNP I	3 cr
NURS7723 Health Promotion for APN	3 cr
NURS7725 Informational Technology in	

Health Care	2 cr
NURS7735 Statistical Analysis in Evidence Based Practice	3 cr
NURS7760 Professional Issues of the DNP II	3 cr
NURS8809 Rural/Global Communities in Society	2 cr
NURS8826 Advanced Scientific Writing	2 cr
NURS8840 Health Policy Elective	3 cr 2 cr
NURS7790 Scholarly Project (384 project hours)	8 cr
TOTAL HOURS	Core Theory and Scholarly Project 52 cr

**Adult-Geriatric Clinical Nurse Specialist**

NURS6657 Advanced Adult-Gerontology Health	3 cr
NURS6657L Advanced Adult Gerontology Health Lab (96 clinical hours)	2 cr
NURS6658 Advanced Adult Gerontology Health	3 cr
NURS6658L Advanced Adult Gerontology Health Lab (96 clinical hours)	2 cr
NURS7750 Advanced Adult-Geriatric Health Concepts	2 cr
NURS7750L Advanced Adult-Geriatric Health Concepts Lab (144 clinical hours)	3 cr
NURS7785 Advanced Adult-Geriatric Practicum Lab (192 clinical hours)	4 cr
Elective	3 cr
Total Option Specific Credits	22 cr
Total Clinical Hours	13 cr 624

**Family Nurse Practitioner**

NURS6642 Primary Care of the Young Adult	3 cr
NURS6642L Primary Care of the Young Adult Lab (96 clinical hours)	2 cr
NURS6643 Primary Care of Child & Adolescents	3 cr
NURS6643L Primary Care of Child & Adolescents Lab (96 clinical hours)	2 cr
NURS6644 Primary Care of the Older Adult	3 cr
NURS6644L Primary Care of the Older Adult Lab (96 clinical hours)	2 cr
NURS7740 Primary Care Throughout the Lifespan	1 cr

## Master of Science in Nursing

The Master of Science in Nursing (M.S.) program is offered online and requires 40-43 credits depending upon the option in which the student is enrolled. Full time options are available in Leadership or Education options. Delivery of a Master's degree program option in any academic year is based on number of total applicants and ability to establish a full cohort at the time of the admission process as determined by SON.

**Pathways to the M.S. degree:**

Bachelor of Science (B.S.) to Master of Science (M.S.). Students enrolled in the Nursing Education option will be prepared to teach in an academic nursing program as well as in other settings. Students enrolled in the Nursing Leadership option will be prepared to assume leadership roles within acute, ambulatory care, or community based settings.

Application for the Master of Science degree options open in October of any academic year. Notification of applicants selected for admission and alternates will be announced by April 14th of any year.

**Admission Requirements**

The student must apply to and meet all requirements for admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Earned Bachelor of Science (B.S. in Nursing or BSN) from program accredited by the Commission on Collegiate Nursing Education (CCNE) or the Accreditation Commission for Education in Nursing (ACEN).
2. Cumulative GPA of 3.0 or higher (calculated based on previous 60 credits of undergraduate coursework).
3. English Proficiency Exams: Students whose native language is not English must provide evidence of satisfactory scores on the English Foreign Language (TOEFL) or on the International English Language Testing System (IELTS). (See Graduate Catalog for details).
  - a. Satisfactory TOEFL requirements for admission include: 1) Internet-based total test score of 80 with a score of at least 20 on each Section and 23 or above on the Speaking Section; or 2) Computer-based total test score of 213 with a score of at least 21 on Section 1 (Listening Comprehension); or 3) Paper-based total test score of 550 with a score of at least 55 on section 1 (Listening

Comprehension).

- b. Satisfactory IELTS requirement for admission include scoring 6.5 or higher on the total band and 6.5 on the speaking test component.
5. Completed application to the SON by established deadline.
  6. Verification of valid and current unencumbered Registered Nursing license.

**Application Requirements**

The student must apply to and meet all requirements for admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following:

1. Application to the Graduate School AND to the School of Nursing with payment of appropriate fees (separate application process).
2. Submission of official transcripts of all degrees including completion of the Bachelor of Science in Nursing (BSN or B.S. in Nursing) degree from an accredited nursing program. Official transcripts must be sent directly to the Graduate School from the Registrar's Office of the applicant's previous institution(s) of study.
3. Evidence of completing prerequisite descriptive or inferential statistics course with a C grade or higher prior to admission to the program.
4. Submission of a professional essay (2-3 pages)
5. Three professional reference forms attesting to the applicant's capacity and potential for Master's study. (It is recommended two references be from academic sources and one from a recent employer.
6. Submission of professional vitae or resume.

**Master of Science (MS) Options of Study Required Coursework Nursing Education**

Total Practicum Hours	288
Total Option Credits	40

The SON Admissions Committee will make the final recommendation regarding admissions. This decision will be based on evaluation of established admission and application requirements for any program.

Individuals who do not meet these admissions requirements may be considered from admission as a classified student with program restrictions until all requirements are met, or candidate is evaluated for progress based on establish SON guidelines, policies and/or Procedures.

## Progression of Graduate Students:

1. Progression criteria established by the SON and Graduate School. Each degree program or option have specific progression requirements established within the SON. These policies are made available in specific program option Student Handbooks provided upon admission. Students are admitted and enter into an established curricular plan of study and must maintain that plan of study in order to progress.
2. Maintenance of a cumulative minimum GPA of 3.0.

## Graduation Criteria

To qualify for graduation with a graduate degree (M.S., D.N.P., or Ph.D.) from the School of Nursing, the student must:

1. Successfully pass a written and oral comprehensive examination or equivalent as established by the School of Nursing.
2. Meet all requirements established by ISU, the Graduate School and the School of Nursing specific to the degree program in which the student is enrolled.

**NURS 5517 Interdisciplinary Evaluation Team 1 credit.** Introduction to the principles and techniques associated with interdisciplinary evaluation. Disciplines emphasized: Au-

diology, Nursing, Physical Therapy, Psychology, Social Work, Special Education, Speech-Language Pathology. Cross-listed as PSYC 5517, SOWK 5517, CSD 5517.

**NURS 5580 Genetics for Health Care Professionals 2 credits.** An in depth interprofessional review of the impact of genetics on patients and patient care and biological, social, ethical, and legal issues surrounding genetics and genomics. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**NURS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NURS 6600 Theoretical Foundations for Nursing Practice 3 credits.** Critical examination of the development of nursing knowledge; critique, evaluate and apply a variety of theories from nursing, family and related disciplines as a base for advanced nursing practice.

**NURS 6602 Health Policy 3 credits.** Analysis of policy research relevant to health care. Evaluate effects of local, regional, national and international health policy and trends on delivery systems and care of rural and diverse populations. PREREQ: NURS 6600.

**NURS 6610 Advanced Evidence Application 3 credits.** Analysis of current evidence to nursing practice. Includes question formulation, comprehensive review of evidence related to clinical issues, evidence appraisal, and application for research informed practice.

**NURS 6611 Advanced Health Assessment 2 credits.** Concepts of advanced health assessment required for advanced nursing practice in various settings and diverse populations. Introduction to differential diagnosis and clinical reasoning skills.

**NURS 6611L Advanced Health Assessment Lab 2 credits.** Acquisition and application of advanced health assessment, skills in diverse populations. Skills include health history, physical assessment and health promotion. COREQ: NURS 6611. Graded S/U

**NURS 6612 Health Care of Rural Communities 2 credits.** Explores rural culture using theories, frameworks and methodologies from various disciplines. Focus on culturally responsive care systems at the community level. Rural life analyzed to identify factors related to health systems and health care practice needs.

**NURS 6613 Health Assessment 2 credits.** Concepts of health assessment for practice in various settings and with diverse populations. COREQ: NURS 6613L.

**NURS 6613L Health Assessment Lab 1 credits.** Acquisition and application of advanced health assessment skills in diverse populations. Skills include health history, physical assessment, health promotion, and pharmacological evaluation in practice. Graded S/U COREQ: NURS 6613.

**NURS 6621 Advanced Nursing Roles 2 credits.** Integration of theory and research related to role development, transition and ambiguity in nursing practice. PREREQ: NURS 6600.

**NURS 6633 Rethinking Nursing Education 3 credits.** Theoretical perspective on teaching and learning in nursing education, creating a theoretical base for the education curriculum. The learners will examine theories of learning and adult learning and explore their application to nursing education.

**NURS 6635 Curriculum Issues and Development 3 credits.** Examination of various external and internal issues influencing nursing curriculum. Curriculum components and designs will be explored and a model curriculum developed. PREREQ: NURS 6633.

**NURS 6636 Special Problems 1-3 credits.** Independent study under faculty guidance. May be repeated up to 6 credits. PREREQ: - PERMISSION OF INSTRUCTOR.

**NURS 6639 Teaching and Learning Strategies in Nursing Education 3 credits.** Exploration of a variety of strategies to facilitate achievement of curriculum outcomes. The use of current technology and learner-centered strategies are emphasized. PREREQ: NURS 6633.

**NURS 6640 Evaluation Issues and Strategies in Nursing Education 3 credits.** Examination of issues surrounding program and student evaluation. Plans for formative and summative evaluation will be developed.

**NURS 6642 Primary Care of the Young Adult 3 credits.** Management and evaluation of primary care problems in the young adult. Provides the student with knowledge to assist individuals with common health problems, while integrating the concepts of health promotion. PREREQ: NURS 6611, 6611L, PHAR 6645; COREQ: 6642L.

**NURS 6642L Primary Care of the Young Adult Lab 2 credits.** Delivery of advanced nursing care to young adults and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6611, 6611L, PHAR 6645; COREQ: NURS 6642. Graded S/U.

**NURS 6643 Primary Care of the Child and Adolescent 3 credits.** Management and evaluation of primary care problems of children, adolescents and their families in a variety of ambulatory settings. The initiation of health promotion and health maintenance activities is stressed. PREREQ: NURS 6642, 6642L; COREQ: NURS 6643L.

**NURS 6643L Primary Care of the Child and Adolescent Lab 2 credits.** Delivery of advanced nursing care to children and adolescents and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6642, 6642L; COREQ: NURS 6643. Graded S/U.

**NURS 6644 Primary Care of the Middle and Older Adult 3 credits.** Management and evaluation of primary care problems of middle and older adults, including acute episodic and chronic illnesses. The initiation of health promotion and maintenance activities is stressed. PREREQ: NURS 6642, 6642L; COREQ: NURS 6644L.

**NURS 6644L Primary Care of the Middle and Older Adult Lab 2 credits.** Delivery of advanced nursing care to middle and older adults and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by nurse practitioners in primary health care. Identification and management of a broad range of common health problems including health promotion in various clinical settings. PREREQ: NURS 6642, 6642L; COREQ: NURS 6644. Graded S/U.

**NURS 6647 Advanced Practicum in Nursing Education 6 credits.** Application of learning theories, strategies and evaluation in a nursing program. The learners will explore and practice various facets of the faculty role. PREREQ: NURS 6633, 6635, 6639, 6640. Graded S/U.

**NURS 6652 Administrative Approaches to Nursing Leadership 3 credits.** Synthesis and evaluation of organizational theory in leadership and management of health care organizations. Emphasis on system-wide structures, processes, and outcomes.

**NURS 6653 Organizational Behavior in a Changing Health Care System 3 credits.** Examination of administration and organizational behavior in relation to population-based needs. Includes examination of organization and management theory in relation to strategic planning, management of the changing health care delivery system, program planning and evaluation, decision-making, and change. PREREQ: NURS 6600, 6652.

**NURS 6654 Financial Management 3 credits.** Application of basic strategies for evaluating financial resources for health care systems; models of forecasting, prediction, and politics of budgeting and health care finances.

**NURS 6655 Advanced Leadership 3 credits.** Examination of nursing leadership in health care delivery systems. Theoretical knowledge required for program management and interprofessional collaboration. Examination of quality and risk management, legal and ethical implications, shared governance, and conflict management. PREREQ: NURS 6600, 6610, 6653

**NURS 6655L Advanced Leadership Lab 2 credits.** Application of knowledge and practice of skills required for program management and interprofessional collaboration. Application of quality and risk management, legal and ethical implications, shared governance, and conflict management. PREREQ: NURS 6600, 6610, 6653; Graded S/U.

**NURS 6656 Advanced Leadership Practicum 4 credits.** Critical examination and application of leadership in health care delivery systems with an emphasis on individualized leadership experiences. PREREQ: NURS 6655, 6655L. Graded S/U.

**NURS 6657 Advanced Adult Gerontology Health Nursing I 3 credits.** Physiological concepts of health and illness and the role of the Clinical Nurse Specialist in assisting patients, families, and caregivers to manage simple health situations in adult and geriatric populations. PREREQ: NURS 6611, 6611L; COREQ: 6657L.

**NURS 6657L Advanced Adult Gerontology Health Nursing I Lab 2 credit.** Delivery of advanced nursing care to adult and geriatric populations and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by clinical

nurse specialists. Management of simple health situations in various clinical settings. PREREQ: NURS 6611, 6611L COREQ: NURS 6657. Graded S/U.

**NURS 6658 Advanced Adult-Gerontology Health Nursing II 3 credits.** Physiological concepts of health and illness and the role of the Clinical Nurse Specialist in assisting patients, families, and caregivers to manage complex health situations in specialty adult and geriatric populations. PREREQ: NURS 6657, 6657L; COREQ: NURS 6658L.

**NURS 6658L Advanced Adult-Gerontology Health Nursing II Lab 2 credits.** Delivery of advanced nursing care to adult and geriatric population and their families. Clinical application of theoretical knowledge with ongoing refinement of essential skills used by clinical nurse specialists. Management of complex health situations in various clinical settings. PREREQ: NURS 6657, 6657L; COREQ: NURS 6658. Graded S/U.

**NURS 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NURS 7720 Professional Issues of the DNP I 3 credits.** Introduction to DNP related professional issues including DNP background, APRN role development, and interprofessional practice. Exploration of current and emerging healthcare issues.

**NURS 7723 Health Promotion for Advanced Practice Nurses 3 credits.** Critical examination of and implementation of therapeutic interventions employed in disease prevention and health maintenance, protection, promotion, and resonation across age and culture in various populations, with focus on the role o the advanced practice nurse in primary care. PREREQ: NURS 6600, NURS 6611 NURS 6611L, PHAR 6645

**NURS 7725 Informational Technology in Health Care 2 credits.** Application of technologies and information systems to evaluate and improve health care outcomes. Exploration of information technologies in clinical practice, education, research, and administration will be emphasized with a focus on transformation of data into information.

**NURS 7735 Statistical Analysis in Evidence Based Practice 3 credits.** Exploration of biostatistical methods used in implementing and evaluating health care related research and evidence based practice. Legal and ethical

issues in research are addressed. PREREQ: NURS 6610.

**NURS 7740 Primary Care Throughout the Life Span (FNP) 1 credit.** Integration of advanced nursing care for patients and families across the lifespan. Application and evaluation of primary care management of complex diagnoses and system foci. PREREQ: NURS 6642 and NURS 6642L, NURS 6643 and NURS 6643L, NURS 6644 and NURS 6644L, NURS 7723. COREQ: NURS 7740L.

**NURS 7740L Primary Care Throughout the Life Span Lab (FNP) 4 credit.** Delivery of advanced nursing care to patients and families across the lifespan. Clinical application and evaluation of theoretical knowledge and skills used by the nurse practitioner in primary health care at a more complex level. Includes focus on systems individualized by each student. PREREQ: NURS 6642 and NURS 6642L, NURS 6643 and NURS 6643L, NURS 6644 and NURS 6644L, NURS 7723. COREQ: NURS 7740. Graded S/U

**NURS 7745 Adult Psychiatric Mental Health 3 credits.** Assessment, diagnosis, treatment planning, evaluation, and documentation of common mental health problems and major psychiatric disorders of adulthood. PREREQ: NURS 6611/6611L NURS 6645; COREQ: NURS 7745L

**NURS 7745L Adult Psychiatric Mental Health Practicum 2 credits.** Clinical application and evaluation of theoretical knowledge, evidence, and skills used by the PMHNP in caring for the adult in varied care settings. PREREQ: NURS 6611/6611L NURS 6645; COREQ: NURS 7745

**NURS 7750 Advanced Adult and Geriatric Health Concepts (ACNS) 2 credits.** Exploration of advanced health care concepts relating to adult and geriatric populations for the Adult/Geriatric Clinical Nurse Specialist (ACNS).

**NURS 7750L Advanced Adult and Geriatric Health Concepts Lab (ACNS) 3 credits.** Implementation of advanced nursing care concepts to adult and geriatric population in various clinical settings. PREREQ: NURS 6657 and NURS 6657L, NURS 6658 and NURS 6658L, NURS 7723 COREQ: NURS 7750.

**NURS 7755 Child/Adol Psych Mental Health 3 credits.** Assessment, diagnosis, treatment, planning, evaluation, and documentation of common mental health problems and major psychiatric disorders of the child and adolescent. PREREQ: NURS 6611/6611L NURS 6645 NURS 7723 NURS 7745 AND

NURS 7745L; COREQ: NURS 7755L

**NURS 7755L Child/Adol Psych Mental Health 2 credits.** Clinical application and evaluation of theoretical knowledge, evidence, and skills used by the PMHNP in primary health care for the child/adolescent population. PREREQ: NURS 6611/6611L NURS 6645 NURS 7723 NURS 7745 AND NURS 7745L; COREQ: NURS 7755

**NURS 7760 Professional Issues of the DNP II 3 credits.** Integration of DNP related professional issues including the APRN's role in the initiation and evaluation of change in patient care, interprofessional practice and current and emerging health care issues. Transition into the APRN role is emphasized. PREREQ: NURS 7720.

**NURS 7780 FNP Practicum 4 credits.** Application of theoretical content, research findings and intervention strategies to advanced nursing practice in both rural and non-rural settings. PREREQ: NURS 7723, NURS 6642 and NURS 6642L, NURS 6643 and NURS 6643L, and NURS 6644 and NURS 6644L, NURS 8809.

**NURS 7785 Advanced ACNS Practicum 4 credits.** Synthesis and application of clinical specialty and ACNS role knowledge and skills in adult-geriatric populations. PREREQ: NURS 6657 and NURS 6657L, NURS 6658 and NURS 6658L, NURS 7750 and NURS 7750L NURS 8809.

**NURS 7790 DNP Scholarly Project 1-3 credits.** Synthesis of scientific evidence and theoretical principles within a practice environment to improve health care outcomes. Incorporation of knowledge of current and emerging health care technologies to improve care delivery and organizational systems for groups and populations. Requires a minimum of eight credit hours over three semesters. May be repeated.

**NURS 7795 Individual, Group, and Brief Therapies 4 credits.** Survey of current, brief psychodynamic, cognitive behavioral, and interpersonal therapy models applied to individuals and groups. Developing a therapeutic alliance, and viewing the patient from a developmental and sociocultural context will be examined. PREREQ: NURS 6611/6611L NURS PHAR 6645 NURS 723 NURS 7745/7745L NURS 7755/7755L

**NURS 7798 PMHNP Advanced Practicum 4 credits.** Synthesis and application of clinical specialty and PMHNP/DNP role, knowledge, and skills in select areas of family psychiatric mental health practice. PREREQ: NURS 6611/6611L PHAR 6645 NURS 7723 NURS

7745 NURS 7745L NURS 7755 NURS 7755L

**NURS 8805 Philosophy of Inquiry 3 credits.** Discusses the nature and characteristics of philosophical inquiry for researchers. This course will include conceptual clarification, analysis of arguments and problems related to the ontology, epistemology and ethics of health care and nursing.

**NURS 8808 Theoretical Analysis Nursing Science 3 credits.** This course focuses on the relationship of theory to research with an emphasis on applying theory in the design, implementation and interpretation of research. Students will develop an understanding of the evaluation of theory, utility in research and ability to compare research strategies from different theoretical perspectives. Emphasis will be placed on multidisciplinary midrange theories that are relevant to clinical research. The course will provide the foundation for learners to create new approaches and paradigms of advanced nursing science. Prerequisite: NURS 8805.

**NURS 8809 Rural and Global Communities in Society 2 credits.** Explores rural culture using theories, frameworks and methodologies from various disciplines. Focus on culturally responsive methodologies. Rural life analyzed to identify factors related to health systems and health care practice needs. Students critique rural research articles for use of conceptual frameworks and generate researchable questions related to rural/global nursing practice issues.

**NURS 8813 Advanced Qualitative Analysis 3 credits.** This course focuses on the study of research that guides the collection and analysis of qualitative data. The course provides an overview of qualitative methods such as phenomenology, grounded theory, case study, ethnography, hermeneutics and historical approaches. Emphasis is placed on the appropriateness of each approach for description and explanation of phenomena encountered in clinical, organizational, and educational settings. Experience is provided in problem formulation and development of the qualitative research proposal.

**NURS 8814 Advanced Statistics: Multivariate 3 credits.** This course provides an understanding of how to interpret multivariate analysis and their associated techniques including (1) data reduction (principal components, factor analysis, and cluster analysis), (2) discrimination and classification (cluster analysis, discriminant analysis), and (3) hypothesis testing (multivariate regression, multivariate analysis of variance, logistic regression).

**NURS 8815 Advanced Quantitative Analysis 3 credits.** This course focuses on quantitative research methods with an emphasis on research designs appropriate for studying health care phenomena. Some of the methods include descriptive, comparative, correlational, survey, methodological, epidemiological, experimental and quasi-experimental designs, clinical trials, longitudinal and secondary analysis. Research designs and related statistical analyses are explored with respect to appropriateness for addressing rural and global health care relative to individuals, families and communities in society. Pre-requisite: NURS 8814.

**NURS 8816 Advanced Statistical Methods 3 credits.** The focus of the this course will be on developing a conceptual understanding of the uses and interpretation of statistics involving the differences between and among populations (groups) including t-tests, one way ANOVA, multifactorial ANOVA and MANOVA, analysis of Covariance, (ANCOVA and MANCOVA) and repeated measures ANOVA. Computer applications such as SPSS will be utilized. Prerequisites: NURS 8814 and 8815.

**NURS 8825 Grant and Scholarly Writing 2 credits.** This course provides the foundation upon which to build skills for grant writing and grant applications. From seeking appropriate mechanisms for accomplishing the dissertation through the completion of a grant application. Students will use this course to develop a pre-doctoral proposal.

**NURS 8826 Advanced Scientific Writing 2 credits.** Using a workshop approach students will learn how to present and publish their research findings in scholarly journals and books. Students will critique their classmates work in mock peer review process and will critically examine the publishing standards and approaches of academic nursing journals. Students will prepare one paper for publication in a peer reviewed journal.

**NURS 8830 Mixed Methods Health Care Research 3 credits.** Research approaches combining quantitative and qualitative research methods will be applied to examine complex clinical and other problems and health behaviors. The course will provide an overview and introduction to mixed methods/multi-method research designs. Prerequisites: NURS 8813, NURS 8814, NURS 8815, NURS 8816

**NURS 8835 Mentored Research Project 4 credits.** This course is designed to give the student actual research experience in research outside the dissertation. Interprofessional

teamwork and collaboration are encouraged. Students may participate as a team member in their mentor's research. Activities may include developing a research proposal, preparing a protocol for Human Subjects' committee submission, assisting with recruitment or data collection, learning data management skills, conducting literature searches and participating in team meetings.

**NURS 8840 Health Policy 3 credits.** Analysis of policy research relevant to health care access, affordability, delivery, finance and integrated care systems. Students will evaluate effects of local, regional, national and international health policy and trends that impact research funding agencies and agendas, and national and international systems of health care delivery.

**NURS 8880 Research Seminar I 1 credit.** Seminar to examine research, conduct a literature review, and critically appraise current evidence around a research idea with development of initial research question. Introduction of interprofessional and translational research, and the process of building a program of scholarship.

**NURS 8881 Research Seminar II 1 credit.** Beginning development of research proposal with further refinement of questions for investigation and inquiry. PREREQ: NURS 8800

**NURS 8882 Research Seminar III 1 credit.** Continued development of the research proposal and plan for implementation process. PREREQ: NURS 8881

**NURS 8883 Research Seminar IV 1 credit.** Final development of the research proposal with preparation for written comprehensive examination and oral defense. PREREQ: NURS 8882

**NURS 8890 Dissertation 1-12 credits.** Completion of original research.

**NURS 8899 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Office of Medical and Oral Health Department of Dental Hygiene

Interim Director and Professor: Gurenlian  
Emerti Professors: Bowen, Herzog, Paarmann  
Professor: Hodges  
Associate Professors: Calley, Freudenthal, Rogo  
Assistant Professor: Johnson

### Master of Science in Dental Hygiene

The Master of Science degree in Dental Hygiene is an advanced degree; therefore, the program is designed for students who are licensed dental hygienists with baccalaureate degrees. Graduates will be prepared for various career opportunities within the health care arena.

#### Goals

Program goals of this graduate level dental hygiene program are to prepare professional dental hygienists to:

1. Assume leadership roles in academics, rural and community health settings, research, professional associations or commercial industry.
2. Develop advanced clinical abilities that improve oral health and access to dental hygiene care.
3. Acquire research abilities that contribute to the scientific dental hygiene body of knowledge.
4. Assume responsibility for professional development through life-long learning capability.
5. Provide a foundation for future doctoral education.

#### Admission Requirements

The student must fulfill the following requirements:

- Graduation from an accredited entry level dental hygiene program
- Bachelor's degree in dental hygiene or a related field
- Minimum grade point average of 3.0 in upper division and dental hygiene coursework
- Current dental hygiene licensure in good standing

1. The student must apply to, and meet all criteria for, admission to the Graduate School, and submit a completed application, residency form, fee payment, and transcripts. International students should

refer to the "Admission of International Students" section of this Catalog for TOEFL and other requirements. Information is online at [www.isu.edu/departments/graduate](http://www.isu.edu/departments/graduate). Send results of the Graduate Record Examination (GRE) or the Miller Analogy Test (MAT) to the Graduate School.

2. Complete the Dental Hygiene Department application form for the Master of Science degree program (available at [www.isu.edu/departments/dentahy/dhmasters/msadmissions.shtml](http://www.isu.edu/departments/dentahy/dhmasters/msadmissions.shtml)).
3. Submit two recommendation forms provided by the department. One recommendation must be completed by an individual who has personal knowledge of the applicant's clinical skills such as a faculty member from a dental hygiene program, employer, or colleague. The second recommendation must be completed by an individual who has personal knowledge of the applicant's academic and professional qualifications for graduate study such as a faculty member, officer of a professional association, or colleague.
4. Submit to the Graduate School official transcripts to provide evidence of:
  - Graduation from an accredited entry level dental hygiene program
  - Bachelor's degree in dental hygiene or a related field
  - Minimum grade point average of 3.0 in upper division courses and a 3.0 in dental hygiene coursework.
5. Previous education in local anesthesia and nitrous oxide administration is not a requirement for admissions; however, it is preferred. If previous education in these pain control methods was completed, provide evidence of successful completion of classroom and clinical experiences in local anesthesia and nitrous oxide administration. Evidence could include transcripts, course descriptions, expanded functions or continuing education certificates.
6. Send a photocopy of a license to provide evidence of current dental hygiene licensure in good standing.
7. Complete a telephone or personal interview.

Applicants can contact the Department at the following address:  
 Graduate Program Director  
 Department of Dental Hygiene  
 Division of Graduate Studies  
 921 South 8th Avenue, STOP 8048  
 Pocatello, Idaho 83209-8048  
 E-mail address: [msdh@isu.edu](mailto:msdh@isu.edu)  
 Telephone: (208) 282-2482

## General Requirements

A total of 37 credits, including a thesis (minimum of 6 credits), will be required for degree completion. Requirements include 7 courses (22-23 credits) in the core curriculum, 4 courses (a minimum of 11 credits) in an area of emphasis, and 3 credits of electives.

The core courses advance the theory and practice of dental hygiene and prepare students in research methodology to apply during the thesis process. A thesis is required because the Master of Science degree in Dental Hygiene is the terminal degree in the discipline and a research foundation is imperative to advance the theoretical knowledge base of the profession. In addition to the core curriculum, graduates complete an area of emphasis in dental hygiene education or rural and community health. Two required dental hygiene courses in the emphasis area, coupled with a practicum experience and a related elective course, provide a strong basis for advanced study and thesis work. To enhance the breadth of knowledge, students are required to complete a minimum of 3 credits of electives selected from related graduate coursework offered outside the Department of Dental Hygiene.

The program is an online graduate curriculum with on-campus visitations required for orientation, DENT 6619, and oral examination for thesis defense. The advanced clinical course will be offered in Pocatello at the on-campus clinical facility during the Summer Semester. A maximum of 9 credits may be transferred officially to Idaho State University.

## Core Course Requirements

DENT 5596 Graduate Seminar I	1 cr
DENT 6605 Program Development and Evaluation	3 cr
DENT 6610 Special Care Populations	2 cr
DENT 6615 Progressive Dental Hygiene Theory	3 cr
DENT 6618 Leadership Strategies to Improve Health Care	3 cr
DENT 6619 Graduate Seminar II	1 cr
DENT 6646 Health Research*	3 cr
DENT 6650 Thesis	minimum 6 cr
<b>TOTAL</b>	<b>37 cr</b>

\*Undergraduate statistics or biostatistics must be taken as a prerequisite. A minimum grade of "C" or better is required.

## Dental Hygiene Education Emphasis

DENT 6620 Advanced Educational Theory and Methods	3 cr
DENT 6621 Dental Hygiene Clinical Instruction and Administration	3 cr
DENT 6625 Dental Hygiene Education Practicum	2-4 cr
Elective course in emphasis area (Program Director approval required)	3 cr
<b>TOTAL</b>	<b>11-13 cr</b>

## Rural and Community Health Emphasis

DENT 6630 or MPH/HE 6626 Rural and Community Health Programs	3 cr
DENT 6631 Management Strategies for Health Care	3 cr
DENT 6635 Rural and Community Health Practicum	2-4 cr
Elective course in emphasis area (Program Director approval required)	3 cr
<b>TOTAL</b>	<b>11-13 cr</b>
Elective course requirements (Program Director approval required)	3 cr
<b>TOTAL DEGREE CREDITS:</b>	<b>36 cr</b>

## Academic Requirements

1. Once admitted, students must complete a plan of graduate study with their dental hygiene graduate advisor no later than the end of the first semester after enrollment. This plan must be approved by the Program Director.
2. Any student who, after admission to the Master of Science program, falls below a 3.0 GPA, or who receives a grade of C+ or below in two graduate courses during his or her program of study will be deemed to be performing at an unsatisfactory level and will be dismissed.
3. Any student who, after admission to the Master of Science program, receives a C-, C-, D, F, or grade in any graduate course in his or her program of study will be dismissed. Courses with grades of C or lower may not be used to satisfy graduation requirements.
4. Current CPR, related screenings and/or immunizations are required prior to attending the on-campus orientation.

## Graduation Requirements

1. Successfully conduct and defend a thesis as outlined in the Department of Dental Hygiene, Division of Graduate Studies, Graduate Student Handbook.
2. Complete the coursework on the study plan approved by the Program Director, Department of Dental Hygiene, Division of Graduate Studies, and by the ISU Graduate School.

## Dental Hygiene Graduate Courses

**DENT 5596 Graduate Seminar I 1 credit.** This seminar uses web based activities and on-site campus activities to assist students in developing skills and abilities essential for successful participation in the MSDH Program. Graded S/U.

**DENT 5598P Professional Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills.

May be applied to graduate degrees under special circumstances. Graded S/U.

**DENT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**DENT 6605 Program Development and Evaluation 3 credits.** An overview of general principles of teaching, learning and evaluation in academic and community oral health programs. Emphasis on assessment, planning, implementation and evaluation of programs.

**DENT 6610 Special Care Populations 3 credits.** Concepts related to providing oral health care for special care populations. Emphasis on assessment, planning, implementation and evaluation of care for individuals with transient or lifelong physical, mental, medical or social health needs.

**DENT 6615 Progressive Dental Hygiene Theory 3 credits.** Critical analysis of the dental hygiene process of care related to advanced preventive and therapeutic interventions to various population groups, technology and outcomes.

**DENT 6618 Leadership Strategies to Improve Health Care 3 credits.** Application of leadership theory and models to professional issues, policy development, advocacy, coalition building, strategic planning, communication, conflict resolution and professional advancement.

**DENT 6619 Graduate Seminar II 1 credit.** This course provides students with experiential learning in dental hygiene practice, research, education, and innovations in technology. The course will culminate in an updated portfolio that addresses career goals within and beyond graduate education. PREREQ: DENT6625 or PERMISSION OF INSTRUCTOR. Graded S/U.

**DENT 6620 Advanced Educational Theory and Methods 3 credits.** Study of theory, principles, and research related to the faculty role in active teaching and learning, development of ethical reasoning, critical thinking and reflective judgment, development of curricular frameworks, outcomes and competencies, and course delivery methods. PREREQ: DENT 6605 OR DEPARTMENTAL APPROVAL.

**DENT 6621 Dental Hygiene Clinical Instruction and Administration 3 credits.** Theory and practices of clinical instruction and supervision, related to psychomotor skill

development, competency-based evaluation, student mentoring and remediation. Examination of organizational and administrative philosophy and practice in curriculum planning, implementation, and evaluation based on accreditation standards. PREREQ: DENT 6620 OR DEPARTMENTAL APPROVAL.

**DENT 6625 Dental Hygiene Education Practicum 2-4 credits.** Individualized experience to apply principles and theories in dental hygiene education. Approval required for practicum sites. May be repeated for a maximum of 6 credits. PREREQ: DENT 6616 and 6620, OR DEPARTMENTAL APPROVAL. Graded S/U.

**DENT 6630 Rural and Community Health Programs 3 credits.** Study of theories, epidemiology, cultural competence, and trends impacting rural and community health care programs. Emphasizes needs assessment, planning, implementation, and evaluation of health promotion/disease prevention programs and service-learning opportunities. Cross-listed as MPH 6620 or HE 6620. PREREQ OR COREQ: DENT 6605 OR DEPARTMENTAL APPROVAL.

**DENT 6631 Management Strategies for Health Care 3 credits.** Study of organizational leadership and management theory in a variety of health care delivery settings. Includes planning, organization, decision making, financial management, delivery of care, insurance and reimbursement practices. PREREQ: DENT 6605 OR DEPARTMENTAL APPROVAL.

**DENT 6635 Rural and Community Health Practicum 2-4 credits.** Individualized service-learning experience designed to apply theories in rural and community health to improve access to care. Approval required for practicum sites. May be repeated for a maximum of 6 credits. PREREQ: DENT 6616 AND 6630 OR DEPARTMENTAL APPROVAL. Graded S/U.

**DENT 6640 Independent Study in Dental Hygiene 2-3 credits.** Specific problems selected on the basis of interest and preparation. Individualized student effort under the guidance of the instructor. May be repeated up to 6 credits.

**DENT 6646 Health Research 3 credits.** Development of foundations in health research and design. The focus will be on effective literature searching with critical analysis and synthesis of evidence-based literature leading to identification of problems for research. PREREQ: UNDERGRADUATE STATISTICS OR BIostatISTICS.

**DENT 6650 Thesis 1-9 credits.** Research project under supervision of academic faculty member. May be repeated. Minimum of 6 credits required. PREREQ DENT 6646 or PERMISSION OF PROGRAM DIRECTOR. Graded S/U.

**DENT 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Department of Dental Science

Chair, IAGD Director, and Associate Professor: Crawford

IDEP Director and Assistant Professor: Ybarguen

Adjunct Faculty: Nielsen

### Certificate in Idaho Dental Education Program (IDEP)

The Department of Dental Science administers the Idaho Dental Education Program (IDEP) for predoctoral dental students, and the Idaho Advanced General Dentistry Residency (IAGD) as a postdoctoral program.

The Idaho Dental Education Program is designed to provide residents of Idaho with access to a high quality dental education as if Idaho had its own dental school. The IDEP program is fully accredited as a Satellite Program of Creighton University School of Dentistry by the American Dental Association. The program involves a first year curriculum at Idaho State University in Pocatello, followed by completion of the second through fourth years at Creighton University in Omaha, Nebraska. Students completing the four year program receive the Doctor of Dental Surgery (D.D.S.) degree and are eligible to take the licensure examinations necessary to become a practicing dentist. Students may also elect to pursue advanced training through residencies or specialty programs, eventually becoming board certified in one of the recognized dental specialties.

There are eight positions available for Idaho residents. Applicants to the program must have completed the necessary prerequisites in English, Biology, Inorganic Chemistry, Organic Chemistry, Physics and other requirements as outlined in the Department of Dental Science Bulletin. In addition to fulfilling the minimal prerequisites, most students accepted into the program will have a bachelor's degree at the time of entry into IDEP. Occasionally,

some exceptional students who have completed the junior level (upper division) of college course work are admitted into the program.

Students are encouraged to work closely with their pre-dental academic advisor in making course selections which fulfill dental school and degree completion requirements.

Formal application for admission to the IDEP program follows the guidelines printed in the Department of Dental Science Bulletin and the Creighton University School of Dentistry Bulletin. The application process involves: taking the Dental Aptitude Test (DAT), completion of the American Dental Education Association Application Service centralized application, the Creighton Supplemental Application and the IDEP Residency Certification Form. Although the application process can be completed as late as January 1 of the year the student plans to enter the program, earlier application is strongly encouraged to allow adequate time for completion of admission requirements and consideration by the admission committee.

Further information concerning the program, admission requirements, Bulletins and Residency Certification forms can be obtained by contacting the program at the following address:

## Idaho Advanced General Dentistry Residency Program (IAGD)

The Department of Dental Sciences sponsors the Idaho Advanced General Dentistry Residency. The goal of the program includes increasing the knowledge and clinical skills of the general dentist beyond that achieved in the predoctoral education. Through an integrated multidisciplinary learning environment, residents are able to increase their competence in the application of modern standards of care and practice management.

This one-year residency focuses on providing comprehensive care in a variety of clinical settings, emphasizing rural, underserved, and at-risk populations. Residents also receive training with patients who have emergency or episodic needs. A certificate is awarded upon the successful completion of the program.

The IAGD is fully accredited by the American Dental Association Commission on Dental Accreditation until 2015.

Further information concerning this program, e.g., admission requirements, forms, etc., can be obtained by contacting the Program Director.

### Idaho Advanced General Dentistry Courses

**IAGD 5599 1-6 credits.** This is an experiential course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**IAGD 6610 General Dentistry Practicum I 12 credits.** Supervised provision of general dental services with emphasis on increasing skills in routine general dental procedures and introduction to selected specialty procedures. Course may include periodic lectures on selected topics. PREREQ: ACCEPTANCE INTO IAGD PROGRAM.

**IAGD 6620 General Dentistry Practicum II 12 credits.** Continued provision of general dental services with emphasis on increasing skills in advanced general dental procedures and completion of selected specialty procedures. Course may include periodic lectures on selected topics. PREREQ: IAGD 6610.

**IAGD 6624 Dental Practice Management I 1 credit.** An experiential course in dental practice management. Enrollees will participate in aspects of the management of the AEGD program's dental clinic. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6625 Dental Practice Management II 1 credit.** Continuing experiential course in dental practice management. Enrollees will participate in aspects of the management of the AEGD program's dental clinic. PREREQ: IAGD 6624.

**IAGD 6626 Dental Practice Management III 1 credit.** Advanced course in dental practice management. Enrollees will participate in all aspects of the management of the AEGD program's dental clinic. PREREQ: IAGD 6625.

**IAGD 6630 Dental Implantology I 1 credit.** A coordinated lecture, laboratory and clinical experience in treatment planning, placement and restoration of dental implants. This course emphasizes the theory and basic biology of dental implants. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6631 Dental Implantology II 1 credit.** Continuing lecture, laboratory and clinical experience in treatment planning, placement, restoration and maintenance of dental implants. This course emphasizes problem solving and incorporation of implants in general dental practice. PREREQ: IAGD 6630.

**IAGD 6632 Dental Implantology III 1 credit.** Continuing lecture, laboratory and clinical experience in treatment planning, placement, restoration and maintenance of dental implants. This course emphasizes problem solving and incorporation of implants in general dental practice. PREREQ: IAGD 6631.

**IAGD 6635 Dental Medicine Seminar I 1 credit.** Participation in the ISU Family Medicine residents' seminar series covering topics of internal and specialty medicine. PREREQ: -ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6636 Dental Medicine Seminar II 1 credit.** Continuing participation in the ISU Family Medicine residents' seminar series covering topics of internal and specialty medicine. PREREQ: IAGD 6635.

**IAGD 6637 Dental Medicine Seminar III 1 credit.** Continuing participation in the ISU Family Medicine residents' seminar series covering topics of internal and specialty medicine. PREREQ: IAGD 6636.

**IAGD 6640 Dental Conscious Sedation I 2 credits.** Integrated lecture and clinical experience in safe and efficacious delivery of conscious sedation. The two-semester experience is designed to fulfill the ADA guidelines. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6641 Dental Conscious Sedation II 2 credits.** Continuing lecture and clinical experience in safe and efficacious delivery of -conscious sedation. PREREQ: IAGD 6640

**IAGD 6645 General Dentistry Videoteleconference I 4 credits.** Participation in the weekly two-way videoteleconference general dentistry series originating from Lutheran Medical Center in Brooklyn, NY, designed for AEGD programs. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6646 General Dentistry Video teleconference II 4 credits.** Continuing participation in the weekly two-way video- teleconference general dentistry series originating from Lutheran Medical Center in Brooklyn, NY, designed for AEGD programs. PREREQ: IAGD 6645.

**IAGD 6647 General Dentistry Video teleconference III 3 credits.** Continuing participation in and presentation for the weekly two-way video teleconference general dentistry series originating from Lutheran Medical Center in Brooklyn, NY, designed for AEGD - programs. PREREQ: IAGD 6646.

**IAGD 6650 Dental Literature Review I 1 credit.** Critical review of current and historical dental literature in general dentistry and selected recognized specialty areas of dentistry. PREREQ: ACCEPTANCE INTO THE IAGD PROGRAM.

**IAGD 6651 Dental Literature Review II 1 credit.** Continuing review of current and historical dental literature in general dentistry and selected recognized specialty areas of dentistry emphasizing outcomes and parameters of care. PREREQ: IAGD 6650.

**IAGD 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Idaho Dental Education Program Courses

**IDEP 5513 Dental Anatomy Lecture I 1 credit.** Nomenclature, chronology and methods of designation of human teeth. Form, size and contour of the teeth, including external and internal anatomy of the permanent and deciduous dentitions, intertooth relations and occlusion. COREQ: IDEP 5514

**IDEP 5514 Dental Anatomy Laboratory 3 credits.** Carving of plaster teeth larger than average measurements and carving of wax teeth to natural size. Mounting of study casts on a functional articulator and waxing of teeth in occlusion. COREQ: IDEP 5513

**IDEP 5515 Dental Materials Science I 2 credits.** Composition, properties and application of the materials used in dentistry. Basic information on the design of preparatory work necessary for the mouth incident to the reception of these materials.

**IDEP 5517 Interpersonal Relationships and Communication 1 credits.** To assist their orientation and adjustment to professional education, freshmen will participate in group introductions followed by a discussion on interpersonal relationships with classmates, administrators, faculty, and staff; dealing with stress; and establishing study habits.

**IDEP 5523 Preventive Dentistry 2 credits.** Introducing the philosophy and need for preventive dentistry by developing the student's knowledge of and skills for effective oral hygiene. Concepts of self motivation, knowledge of dental diseases and abnormalities; application of the principles of flouridation, nutrition, patient motivation, and home care.

**IDEP 5525 History of Dentistry 1 credit.** To acquaint the student with the history of dentistry from ancient times to present, emphasis is placed upon contributions by individuals and groups of individuals leading to the current status of dentistry in the United States.

**IDEP 5526 Community Dentistry Field Experience 1 credit.** Designed to acquaint students with area health problems and with area health services and agencies. Field experience is gained during dental health and/or career presentations in public schools. To provide a variety of experiences, visits are made, for example, to the chronically ill, aged, or handicapped; to water purification facilities; to Indian groups.

**IDEP 5533 Oral Hygiene Technique 1 cred-**

**it.** Introduction to the instruments and their usage in performing a complete scaling prophylaxis of the teeth. Perodontal charting and instrument sharpening techniques are also performed. Didactic, laboratory, and clinical introduction.

**IDEP 5534 Dental Materials Science II 3 credits.** Continuation of ISU DENT 5515. PREREQ: ISU DENT 5515.

**IDEP 5535 Occlusion Laboratory 1 credit.** Various exercises simulating clinical diagnostic and treatment procedures are employed to - exemplify principles of maxillomandibular - relationships. COREQ: IDEP 5554

**IDEP 5544 Values and Ethics 1 credit.** Designed to identify and understand one's own ethical decision-making processes and the relationship of religion with values and ethics. Students will discuss the areas of value of care for people as individuals, challenges of personal and professional opportunities, code of ethics of the ADA and dental care delivery systems.

**IDEP 5554 Occlusion Lecture 1 credit.** Basic principles of maxillomandibular relationships, static and functional, as related to the occlusal surfaces of the teeth. COREQ: IDEP 5535

**IDEP 5563 Dental Radiology I 1 credit.** History, theory and application of ionizing radiation resulting in radiography of the oral structures; including exposure and developing parameters along with basic interpretation. COREQ: IDEP 5564.

**IDEP 5564 Dental Radiology Technique 1 credit.** Practical experience in exposing and developing dental radiographs. The course will include techniques required to complete a diagnostic full mouth series, bitewing films and panoramic radiographs. COREQ: IDEP 5563.

**IDEP 5565 Dental Radiology II 1 credit.** History, theory, and application of radiographic methods in dentistry including cephalometric, panoramic, and digital modalities. COREQ: IDEP 5563 and IDEP 5564.

**IDEP 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**IDEP 6617 Extramural Dental Education Program 2 credits.** Community clinical experience at the ISU dental clinic. Under direct

supervision, dental students observe and participate in total patient care and office management while serving Idaho residents who would not normally receive dental care.

**IDEP 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Department of Physician Assistant Studies

[www.isu.edu/paprog](http://www.isu.edu/paprog)

Chair and Program Director: Phelps  
Medical Director: D'Souza, McClusky  
Associate Professors: Phelps  
Assistant Professors: Forbes, Johnson, Martin, Mirly, Papa, Smetanka, Smith, Talford, Whitaker

### Master of Physician Assistant Studies (MPAS)

Physician Assistants (PAs) are highly skilled health practitioners who work under physician supervision to provide patient care services. PAs take complete medical histories, perform physical examinations, order and interpret diagnostic studies, such as laboratory tests and x-rays, diagnose and treat patients. Physician Assistants improve the accessibility of health care of underserved individuals in both urban and rural settings. The Physician Assistant Program at Idaho State University is the only PA Program in the state of Idaho.

### The Program

The Physician Assistant (PA) Program at Idaho State University awards the Master's of Physician Assistant Studies (MPAS) degree and a PA certificate upon successful completion of its 24 month graduate curriculum. A class of 72 students is enrolled each fall semester with 30 seats located at the Pocatello campus and 30 seats located at the Meridian campus and 12 seats located at the College of Idaho campus in Caldwell.

The program maintains continued accreditation by the Accreditation Review Commission on Education for the Physician Assistant, Inc., (ARC-PA).

Graduates of the program are eligible to take the Physician Assistant National Certification

Examination (PANCE) which is administered by the National Commission for Certification of Physician Assistants (NCCPA).

### Vision & Mission

Idaho State University Department of Physician Assistant Studies is the preferred educational destination for individuals who desire to be trained in a student-centered, service oriented environment.

The mission of the Idaho State Physician Assistant program is to train PAs through service-oriented, multimodal, innovative learning. Graduates from ISU's PA Program will be highly competent, compassionate health care providers dedicated to serving individuals and their communities.

### Admission Requirements

1. Baccalaureate Degree: A Baccalaureate degree needs to be completed by June 30th of the year you plan to enter the PA Studies program. It must be from a regionally accredited U.S. institute of higher learning.

2. Prerequisite Courses

Required courses must also be completed at a regionally accredited U.S. institute of higher learning. The required prerequisite courses are:

Microbiology  
Biochemistry  
Human Anatomy (as a single course or as part of a two semester combined anatomy and physiology course)  
Human Physiology (as a single course or as part of a two semester combined anatomy and physiology course)  
Statistics  
Abnormal Psychology (or Developmental Psychology throughout the Lifespan)

Applicants must have a minimum cumulative prerequisite grade point average of 3.0 as well as a minimum grade of C in all prerequisite courses (listed above). Course work ten years or older is not accepted as prerequisite coursework. Applicants may have up to two prerequisite courses in progress during spring of the year they plan to enter the program. This course work and any degree work must be completed by June 30 of the year of admission.

Highly Recommended Courses:

(Please note: This list is not meant to be all inclusive and includes suggestions only!)

- Upper level biology courses such as:
  - Advanced Anatomy (BIOL 4420 Musculo-Skeletal Anatomy, BIOL 4470 Cross-Sectional Anatomy)

- Advanced Human Physiology (BIOL 3304 Comparative Functional Morphology and Physiology, BIOL 4449 - Human Physiology I, BIOL 4456 Human Physiology II, BIOL 4464 Lectures in Human Physiology, BIOL 4486 Human Systemic Physiology)
- Immunology (BIOL 4451 Immunology, BIOL 4454 Advanced Immunology)
- Genetics (BIOL 3358 Genetics, BIOL 4461 Advanced Genetics)
- Endocrinology (BIOL 4443 Endocrinology)
- Other health-related courses from departments such as Psychology, Sociology, Anthropology, Health Education, and Gender Studies.
- Proficiency in a foreign language, especially Spanish

Additional considerations for admission include:

- Maturity
- Work and health care experience
- Evidence of the ability to achieve academic success in a rigorous academic program
- Interpersonal skills and the ability to relate effectively with patients, peers and at a professional level
- Evidence of a desire to practice primary care in Idaho, particularly among the medically underserved

Required Applications:

3. Central Application Services for Physician Assistants ([www.caspaonline.org](http://www.caspaonline.org))

The **CASPA application** must be completed by the PA program application deadline of November 1. As part of the CASPA application process you will be required to submit three letters of recommendations and official transcripts.

4. Graduate Record Exam (GRE)  
([www.ets.org](http://www.ets.org))

The **GRE** is an important admission requirement as the scores are used for ranking applicants. Please go to ETS website for information about testing locations and scheduling the exam.

The GRE must be taken by November 1. The ISU GRE School Code is 4355 and the Department Code is 0634.

5. ISU Graduate School Application  
([www.isu.edu/graduate](http://www.isu.edu/graduate))

The **ISU Graduate School application** (also called the "Supplemental Application") is required for admission to the PA program. When applying to the Graduate School, select the Fall semester. Please refer to the ISU

Graduate School for information regarding the application, requirements, and fees.

CASPA DOES NOT forward transcripts to the Graduate School or the PA program. A separate set of official transcripts must be requested for ISU's Graduate School.

Official transcripts are to be sent directly to the Graduate School at the following address:

ISU Graduate School  
921 S 8th Ave, Stop 8075  
Pocatello, ID 83209-8075

The Graduate School application deadline is November 1.

#### 6. Technical Standards

All entering students must meet the required list of Technical Standards. A complete list of technical standards covering essential capacities for observation, communication, sensory and motor function, intellectual, conceptual, integrative and quantitative abilities, behavioral and social attributes, and other student performance requirements is available from the program or on the program's website at <http://www.isu.edu/paprog/technical-standards.shtml>

## Curriculum

The ISU PA Program Graduate Curriculum is twenty-four (24) months in length, divided into twelve (12) months of didactic (3 semesters) and twelve (12) months of clinical education (3 semesters).

The Didactic Curriculum is comprised of foundation courses in the fall semester, followed in the spring and summer semesters by modules that provide an immersion experience in the diagnosis and treatment of diseases commonly encountered in primary care medicine.

Elective course work in Medical Spanish is available to Physician Assistant students. The Department of Languages & Literatures offers a graduate certificate in Spanish for Health Professions along with other elective courses. This is an excellent opportunity for students as well as graduates to enhance their credentials.

Clinical Year Rotation goals are designed to meet the needs of the student and to address the Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA) accreditation standards. The Clinical Year staff places students in eight rotations which best address PA student educational objectives and at sites which promote continued, quality, preceptor relations with the ISU PA Program. There are seven required content areas which include Inpatient Medicine, Out-

patient Medicine, Obstetrics and Gynecology, Pediatrics, Emergency Medicine, Surgery and Psychiatry. One rotation will be an elective. Students are expected to travel during the clinical year and will pay for the expenses incurred for this travel.

## Course Sequence Didactic Year

Fall Semester	
BIOL 5529 Regional Anatomy and Histology	4 cr
BIOL 5563 Human Pathophysiology	4 cr
BIOL 5564 Lectures in Human Physiology	4 cr
PAS 6601 Intro to Physician Assistant	7 cr
PAS 6602 Evidence-based Medicine	3 cr
PAS 6603 Clinical Assessment	6 cr
PAS 6604 Pharmacology	2cr
<b>Total Credits</b>	<b>30 cr</b>

Spring Semester	
PAS 6630 Allergy/Immunology Module	1 cr
PAS 6631 Infectious Disease Module	2 cr
PAS 6632 Hematology/Oncology	2 cr
PAS 6633 Endocrinology Module	2 cr
PAS 6634 Renal Module	2 cr
PAS 6635 Pulmonary Module	3 cr
PAS 6636 Cardiology Module	4 cr
PAS 6637 Gastroenterology Module	4 cr
PAS 6638 ENT Module	2 cr
PAS 6640 Rheumatology Module	2 cr
PAS 6641 Orthopedics Module	2 cr
PAS 6642 Psychiatry Module	3 cr
PAS 6645 Ophthalmology Module	1 cr
PAS 6656 Alternative/Occupational Medicine Module	1 cr
<b>Total Credits</b>	<b>31 cr</b>

Summer Semester	
PAS 6639 Dermatology Module	2 cr
PAS 6643 Genitourinary Module	4 cr
PAS 6646 Neurology Module	2 cr
PAS 6650 Obstetrics/Perinatology Module	1 cr
PAS 6561 Pediatrics Module	2 cr
PAS 6652 Geriatrics Module	1 cr
PAS 6653 Surgery Module	2 cr
PAS 6654 Emergency Medicine Module	8 cr
PAS 6657 Comprehensive Evaluation	1 cr
<b>Total Credits</b>	<b>23 cr</b>

Clinical Year	
Fall, Spring, Summer Semesters

PAS 6672 Capstone Assessment II	2cr
PAS 6673 Capstone Assessment III	1cr

## Physician Assistant Studies Graduate Courses

**PAS 5587 Individual Problems in Physician Assistant Studies 1-3 credits.** Assigned on the basis of interest, preparation, and faculty availability. Participation in this course in no way influences opportunity to be accepted into the PA Program. May be repeated for up to 3 credits. PREREQ: APPROVAL OF PA DIRECTOR.

**PAS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PAS 6601 Introduction to Physician Assistant 2 credits.** Provides an introduction to the physician assistant profession, health promotion/ disease prevention, medical ethics, medical imaging, laboratory medicine, and medical decision-making.

**PAS 6602 Evidence-based Medicine 2 credits.** Emphasizes use of current research evidence in medical decision making, a practice known as evidence-based medicine. Topics include critical analysis of the medical literature, biostatistics, and application of EBM to patient care.

**PAS 6603 Clinical Assessment 3 credits.** Provides an introduction to medical interviewing and techniques for performing and recording a complete medical history and physical examination.

**PAS 6604 Pharmacology 1 credit.** An introduction to foundational concepts of therapeutic pharmacology, with emphasis on pharmacokinetics and pharmacodynamics.

**PAS 6630 - 6566 Module Course Descriptions. Credit varies for each module.** Lectures, laboratory practicum, problem-based learning, small group discussions, research methods, evidence-based medicine, and service learning are integrated to provide an immersion experience in the diagnosis and treatment of diseases commonly encountered in primary care medicine. May be graded S/U .

Modules have the following content areas which are tailored to the specific module:

Case-Based Learning
Clinical Anatomy
Clinical Medicine
Clinical Physiology
Diagnostic Procedures
Ethics and Law
Health Promotion/Disease Prevention
Laboratory Medicine
PA Role and Issues
Pathophysiology
Physical Diagnosis
Research/Evidence-Based Medicine
Service Learning
Therapeutics

**PAS 6657 Comprehensive Evaluation 1 credit.** An end-of-didactic-year comprehensive evaluation of the physician assistant student's knowledge, skills, abilities, and profes-

sional behavior. The student must receive a grade of "satisfactory" in order to progress to the clinical year of the program.

**PAS 6661 Clinical Rotation I 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: Successful completion of all PAS Didactic Year Requirements. Graded S/U.

**PAS 6662 Clinical Rotation II 4 credits.** Supervised clinical practicum in primary care or specialty care in medical practice settings. PREREQ: PAS 6661. Graded S/U.

**PAS 6663 Clinical Rotation III 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6662. Graded S/U.

**PAS 6664 Clinical Rotation IV 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6663. Graded S/U.

**PAS 6665 Clinical Rotation V 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6664. Graded S/U.

**PAS 6666 Clinical Rotation VI 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6665. Graded S/U.

**PAS 6667 Clinical Rotation VII 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6666. Graded S/U.

**PAS 6668 Clinical Rotation VIII 4 credits.** Supervised clinical practicum in primary care and/or specialty care in medical practice settings. PREREQ: PAS 6667. Graded S/U.

**PAS 6671 Capstone Assessment I 1 credit.** There are three Capstone Assessment Courses in the second year of the PA Program. Together they represent a comprehensive assessment of the students. Capstone Assessment I course is the first of the series. Students are required to study for and pass multiple objective examinations.

**PAS 6672 Capstone Assessment II 2 credits.** There are three Capstone Assessment Courses in the second year of the PA Program. Together they represent a comprehensive assessment of the students. The Capstone Assessment II course is the second of the series. Students are required to study for and pass multiple objective examinations, additionally they are required to complete and present a medical case study, under the direction of the PA Program faculty.

**PAS 6673 Capstone Assessment III 1 credit.** There are three Capstone Assessment Courses in the second year of the PA Program. Together they represent a comprehensive assessment of the students. The Capstone Assessment III course is the third one in the series and students are required to study for and pass multiple objective examinations.

**PAS 6689 Graduate Special Topics 1-4 credits.** Special topics in specific areas of physician assistant studies which may include didactic and/or clinical studies. May be repeated up to 14 credits.

**PAS 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

## Family Medicine Residency Program

The Idaho State University Family Practice Residency is a postgraduate training program for physicians who have an M.D. or D.O. degree. The program is affiliated with the medical schools of the University of Washington and the University of Utah and is accredited by the Accreditation Council for Graduate Medical Education. The Pocatello Family Medicine Clinic, located on the Idaho State University campus, is the outpatient training site; hospital rotations are scheduled at Portneuf Medical Center.

Accepting seven residents per year, the program trains Family Physicians to practice in rural Idaho. The curriculum includes family medicine, obstetrics/gynecology, surgery, internal medicine, pediatrics, geriatrics, emergency medicine, community medicine, behavioral science, rural medicine, orthopedics, and other subspecialties.

For more information, please contact:  
Family Medicine Residency Program

## Curriculum Overview

### First Year

4 weeks Community Medicine  
4 weeks Psychology  
12 weeks Internal Medicine  
8 weeks Pediatrics (Inpatient)  
8 weeks Obstetrics

8 weeks General Surgery  
8 weeks Emergency Medicine

### Second Year

8 weeks Internal Medicine  
8 weeks Pediatrics  
4 weeks Cardiology  
4 weeks Pulmonary/ICU  
4 weeks Medicine Subspecialty  
4 weeks Rural Rotations  
4 weeks Electives  
4 weeks Obstetrics  
4 weeks Orthopedic/Sports Medicine  
4 weeks Family Medicine Center Chief

### Third Year

8 weeks Internal Medicine  
2 weeks ENT (Longitudinal)  
2 weeks Urology  
4 weeks Ophthalmology (longitudinal)  
2 weeks Dermatology (longitudinal)  
4 weeks Orthopedics/Sports Medicine/  
Rheumatology  
4 weeks Family Medicine Center Chief  
4 weeks Rural Rotations  
4 weeks Gynecology  
12 weeks Electives/Obstetrics  
2 weeks Hospitalist  
2 weeks Pediatrics

# School of Rehabilitation and Communication Sciences

Associate Dean and Director: Devine

## Departments

The School of Rehabilitation and Communication Sciences (SRCS) is composed of 2 departments with 2 Doctoral degrees and 2 Master's degrees. The department of Communication Sciences and Disorders (CSD) consists of graduate-level programs in Audiology and Speech-Language Pathology. The department of Physical and Occupational Therapy (DPOT) includes graduate programs in Occupational Therapy and in Physical Therapy. The programs within the School reflect the organization found in many rehabilitation facilities, acknowledging the strong relationships found among these disciplines.

## Degree Programs

The School of Rehabilitation and Communication Sciences is home to 2 Doctoral degrees: The Doctor of Audiology (AuD) and the Doctor of Physical Therapy (DPT). The School is also home to two Master's degrees: The Master's of Science in Occupational Therapy (MS

OT) and the Master's of Science in Speech-Language Pathology (MS SLP).

# Department of Communication Sciences and Disorders

Chair and Professor: Kangas  
 Associate Chair and Professor: Johnson  
 Professors: Seikel  
 Associate Professors: Brockett  
 Assistant Professors: Altieri, Barga, Hudock, Ogiela, Ramsdell, Sanford  
 Clinical Professor: Loftin, Whitaker  
 Clinical Associate Professors: Bishop, Guryan, Knudson, Holst, Turner, Wallbe  
 Clinical Assistant Professors: Ament, Hansen, Hardy, Melton, Miller, E. Morgan, W. Morgan  
 O'Donnell, Smith, Stone  
 Clinical Instructors: Tucker

## Doctor of Audiology (Au.D.)

### Accreditation

The Doctor of Audiology (Au.D.) is accredited by the Council on Academic Accreditation (CAA) in Audiology and speech-Language Pathology (<http://professional.asha.org/academic/>)

### Admission Requirements

For admission to the Au.D. degree program in audiology, an applicant is expected to meet the stated (Masters') admission criteria to ISU Graduate School, and, in addition, provide three (3) letters of recommendation from those who can speak to the applicant's academic qualifications to pursue graduate education.

The Graduate School criteria include:	
GPA	Standardized Test
(last 60 credits)	
3.5 to 4.000	No standardized test
3.0 to 3.499	(GRE/MAT) required
	40th Percentile on at least
40th	one area of the GRE or
	Percentile on the MAT
2.5 to 2.999	Combined Verbal and
	Quantitative (V+Q) score
of	1000 on GRE or 45th
	Percentile on the MAT
below 2.499	No admission

### International Students

Students whose native language is not English must achieve at least the 50th percentile on the Verbal section of the GRE. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test or a score of 84 on the MTELP, or a score of 6.5 on the IELTS. Once admitted, non-native English-speaking students must also receive a passing score on a test of spoken English to participate in clinic.

### Program Capacity

A total of 24 students are admitted to the program. The number of seats available for new admissions will vary. Classes begin in the Fall Semester of each year. Meeting entry-level requirements for admission does not guarantee a seat in the program.

### Curriculum

The curriculum is four years in duration, and includes one year (fourth year) of full-time clinical practicum. There are eight regular (fall and spring) semesters and three summer semesters. For the third year, students will be required to relocate to the ISU Meridian campus to continue their academic and clinical instruction in a robust audiology community. Students will assume the financial, housing, and logistical responsibilities of the relocation.

### Doctor of Audiology (Au.D.)

#### Course List (Regular 4 year)

CSD 5517	Interdisciplinary Evaluation Team (or CSD 6691 Topical Seminar if IET was taken as an undergraduate)	3 cr
CSD 5560	Educational Audiology (or Elective if Educational Audiology was taken as an undergraduate)	3 cr
CSD 6600	Principles of Research in Communication Disorders	3 cr
CSD 6603	Clinic Practicum-Audiology	9 cr
CSD 6603L	Clinic Practicum- Audiology Lab	
CSD 6605	Externship in Audiology	1-8 cr
CSD 6611	Auditory Assessment and Speech Audiometry	4 cr
CSD 6621	Aud Rehab and Amplification I	3 cr
CSD 6623	Pediatric Audiology	3 cr
CSD 6631	Immittance/Special Assessment	2 cr
CSD 6633	Introduction to Evoked Potential Audiometry and Balance Assessment	3 cr
CSD 6633L	Introduction to Evoked Potential Audiometry and Balance Assessment Lab	1 cr
CSD 6641	Aud Rehab and Amplification II	2 cr
CSD 6641L	Aud Rehab and Amp II Lab	1 cr
CSD 6645	Auditory Anatomy and Physiology	2 cr
CSD 6647	Auditory Physiology of Speech and	

	Non-speech Signals	2 cr
CSD 6675	Hearing Conservation and Noise	2 cr
CSD 6670	Auditory Pathologies	2 cr
CSD 6673	Instrumentation and Calibration	1 cr
CSD 6680	Counseling in Audiology	3 cr
CSD 6691	Topical Seminar (Note 1)	3 cr
CSD 7705	Off-campus Clinical Practicum	1-4 cr
CSD 7705L	Off-campus Clinical Practicum Lab	1-4 cr
CSD 7710	Adv Topics in Aud Rehab	3 cr
CSD 7720	Audiology Practice Management and Dispensing	3 cr
CSD 7730	Auditory Evoked Potential Audiometry & Early Identification	3 cr
CSD 7740	Advanced Vestibular Assessment	3 cr
CSD 8805	Fourth Year Externship	1-8 cr
CSD 8810	Clinical Project	6 cr
	Advanced Electives	6 cr

Note 1: If a student has not taken IET she/he may take it as a graduate student and substitute it for one of the 3 required topical seminars.

### General Requirements

Students receiving the degree of Doctor of Audiology must have satisfactorily completed all courses in the curriculum and passed all clinical practicum assignments. In addition, in spring semester of the third year, the student must pass the written comprehensive examination, and an oral comprehensive examination that includes defense of the doctoral project. According to university regulations, no student may be granted a graduate degree who does not have a 3.0 grade point average for courses listed on the Program of Study upon completion of all academic work. The Department of Communication Sciences and Disorders will terminate the graduate program of any student who has received grades of C+ or lower in two or more departmental courses, or if the cumulative GPA falls below 2.7 in the first year of study, or 3.0 by the completion of graduate studies. If a student's graduate education is terminated for reasons of poor academic performance, the student may reapply for admission no sooner than one full semester following the semester of dismissal.

Additionally, graduate students deemed by the faculty not to have made satisfactory progress in the acquisition of clinical skills may be required to enroll for further credits in clinical practicum in addition to the minimum required of all students. Students may be dismissed for failure to make satisfactory progress in clinical practicum.

## Master of Science in Speech-Language Pathology

### Admission Requirements

For admission to the M.S. degree program in Speech-Language Pathology the applicant must:

1. Have an earned Baccalaureate degree

with a major in communication sciences and disorders, or a Baccalaureate degree in any major with equivalent Post-Baccalaureate coursework in communication sciences and disorders.

2. Possess a 3.0 or higher GPA . The method of calculating an Admission GPA is based on the last 60± semester undergraduate credits (90± quarter credits) for coursework taken during the last two years of undergraduate training. Post-Baccalaureate coursework in communication sciences and disorders will be considered in computing GPA.
3. Obtain score of 40th Percentile or better on at least one area of the GRE.
4. Submit three letters of recommendation.
5. Apply through Communication Sciences and Disorders Centralized Application Service at [www.csdcas.org](http://www.csdcas.org).
6. Apply to, and meet all criteria for, admission to Graduate School.

### International Students

International students whose native language is not English must achieve at least the 50th percentile on the Verbal section of the GRE. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2 ) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test or a score of 84 on the MTELP, or a score of 6.5 on the IELTS. Once admitted, non-native English-speaking students must also receive a passing score on a test of spoken English to participate in clinic.

### Required Courses for Speech-Language Pathology Emphasis

CSD 6600 Principles of Research in Communication Disorders	3 cr
Clinical Practicum (combined credits of CSD 602 and CSD 604)	11 cr
CSD 6602 Clinical Practicum: Speech-Language Pathology	
CSD 6602L Clinical Practicum: Speech-Language Pathology Lab	
CSD 6604 Off-Campus Clinical Practicum	
CSD 6606 Extenship in Speech-Language Pathology	8 cr
CSD 6614 School-age Language Development and Disorders	3 cr
CSD 6616 Augmentative and Alternative Communication	3 cr
CSD 6620 Early Language Development and Disorders	3 cr
CSD 6622 Speech Sound Disorders	3 cr

CSD 6624 Disorders of Swallowing	2 cr
CSD 6625 Advanced Issues in Language Disorders	3 cr
CSD 6629 Neuropathologies 1	3 cr
CSD 6630 Fluency Disorders in Children and Adults	3 cr
CSD 6632 Craniofacial Anomalies	2 cr
CSD 6634 Voice Disorders	2 cr
CSD 6639 Neuropathologies of Language and Cognition	3 cr
CSD 6648 Professional Issues	3 cr
CSD 6650 Thesis (optional)	6 cr
Electives Non-thesis option	3 cr
Total 58-61 cr	

### Non-Thesis students are required to complete three credits from the following courses:

CSD 6636 Medical/School Practice in Speech-Language Pathology	3 cr
CSD 6651 Master's Paper	3 cr
CSD 6691 Topical Seminar	3 cr
CSD 6651 Master's Paper	3 cr
CSD 6691 Topical Seminar	3 cr

Note that an adequate undergraduate background is assumed for entry to the graduate curriculum in speech-language pathology. When meeting with an advisor, if deficiencies are found, such as lack of a basic course, the student may be required to make up the course. An advisor must be consulted during registration week. Note also that an undergraduate or graduate course in statistics or experimental design is required if not previously taken in an undergraduate program, as is 136 Graduate School 2012-2013 Catalog CSD 5517, Interdisciplinary Evaluation Team.

Students in the Graduate Program in Speech-Language Pathology must have the following ISU courses or their equivalents from another institution, or provide evidence from course syllabi that the basic information was covered in their undergraduate program. Certain of these courses may be taken during the graduate program.

CSD 4435 Speech Science	4 cr
CSD 3315 Clinical Processes: Management	3 cr
CSD 3321 Clinical Phonology	4 cr
CSD 3325 Speech Sound Disorders	3 cr
CSD 3330 Language Development	3 cr
CSD 3335 Language Disorders	3 cr
CSD 3341 Audiology I: Hearing Sciences and Audiometry	3 cr
CSD 4405 Neurological Bases of Communication Disorders	3 cr
CSD 4417 Interdisciplinary Evaluation Team	1 cr
CSD 3345 Aural Rehabilitation OR	
CSD 4460 Educational Audiology	3 cr
CSD 4420 Clinical Processes: Assessment	3 cr
MATH 2253 Introduction to Statistics	3 cr

### General Requirements

Students must pass written and oral comprehensive examinations. For the Master of Science in Speech-Language Pathology the written exam may be fulfilled by either a portfolio or a thesis.

According to the university regulations, no student may be granted a graduate degree who does not have a 3.0 grade point average for courses listed on the program of study upon completion of all academic work. In addition, the Department of Communication Sciences & Disorders will terminate the graduate program of any student who has received grades of C+, or lower, in two or more departmental courses, or if the cumulative GPA falls below 2.7 in the first year of study and 3.0 by the completion of graduate studies. If a student's graduate education is terminated for reasons of poor academic performance, he/she may reapply for admission no sooner than one full semester following the semester of -dismissal.

Students with inadequate backgrounds in speech pathology and audiology may be required to take up to one year of undergraduate course work in addition to the above courses. In addition to the required graduate courses, students may have to take other courses in the department and related areas such as psychology and statistics. In addition to taking clinical practice (CSD 6602, 6603, or 6604) in the department, all graduate -students must complete a minimum of an -eight-week, full-time externship in some professional program or agency. Exceptions may be made depending on the student's background. Graduate students deemed by the faculty not to have made satisfactory progress in the acquisition of clinical skills may be required to enroll for further credits in clinical practicum in addition to the minimum required of all students. Students may be dismissed for failure to make satisfactory progress in clinical practicum.

### Speech-Language Pathology and Audiology Graduate Courses

**CSD 5505 Neurological Bases of Communication Disorders 3 credits.** Provides fundamental knowledge of neuroanatomy and physiology as related to speech, language and hearing disorders. Introduction to communication disorders related to neurological damage (e.g., dysarthria, apraxia, aphasia).

**CSD 5517 Interdisciplinary Evaluation Team 1 credit.** An introduction to the principles and techniques associated with interdisciplinary evaluation. Disciplines emphasized: Audiology, Nursing, Physical Therapy, Occupational Therapy, Dietetics, Social Work, Psychology, Special Education, Speech-Language Pathology. Cross-listed as PSYC 5517, SOWK, 5517, NURS 5517.

**CSD 5520 Clinical Processes: Assessment 3 credits.** Diagnostic principles, procedures, tests and clinical examination in the evaluation of speech, language and hearing disorders.

Covers norms, reliability and validity. PREREQ: PSYCH 4445, CSD 3315, AND STATISTICS, AND/OR APPROVAL OF INSTRUCTOR.

**CSD 5540 Special Topics Workshop 1-3 credits.** Presentation of professionally related topics in workshop format. Meets for a minimum of 16 contact hours per credit with appropriate outside assignments, readings, or papers. May be -repeated for up to 6 credits. Graded S/U.

**CSD 5560 Educational -Audiology 3 credits.** Overview of school-based audiology services and the educational audiology model of service provision including working within the public school system, legal issues, and options for providing comprehensive services to children with hearing loss and their families.

**CSD 5580 Genetics for Health Care Professionals 2 credits.** An in depth interdisciplinary review of the impact of genetics on patients and patient care and the biological, social, ethical and legal issues surrounding genetics and genomics. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. Cross listed as NURS 5580.

**CSD 5582 Independent Study 1-4 credits.** Study of problems selected by students and faculty. May be repeated up to 8 credits.

**CSD 5591 Seminar 1-4 credits.** Reading, preparation, and discussion of reports and projects in all areas of speech and hearing science, speech -pathology and audiology. May be repeated up to 12 credits.

**CSD 5597 Professional Education Development Topics. Variable credit.** May be repeated. A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be graded S/U.

**CSD 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CSD 6600 Principles of Research in Communication Disorders 3 credits.** Methodology including quantitative and qualitative approaches to research and use of evidence-based practice. Use of informational resources to develop a research proposal. PREREQ: STATISTICS OR PERMISSION OF INSTRUCTOR.

**CSD 6602 Clinical Practicum: Speech-Language 1 credit.** Students, under supervision, gain experience in the diagnosing, staffing, programming, and counseling of cases with speech and language disorders. May be repeated up to 16 credits. Approval of Clinic Director required.

**CSD 6602L Clinical Practicum: Speech-Language Lab** Weekly staffing, grand rounds discussion, and professional presentations of new trends in audiology. COREQ: CSED 6602

**CSD 6603 Clinical Practicum: Audiology 1-4 credits.** Students gain experience in diagnosing, programming, and counseling cases with hearing disorders, and implementing rehabilitation programs for persons with hearing losses. May be repeated up to 13 credits. PREREQ: APPROVAL OF -ADVISOR AND AUDIOLOGY CLINIC -COORDINATOR.

**CSD 6603L Clinical Practicum: Audiology Lab** Weekly staffing, grand rounds discussion, and professional presentations of new trends in audiology.

**CSD 6604 Off-Campus Practicum 1-4 -credits.** Designed to provide clinical experience under -supervision of speech-language pathologist within placement setting. Placements include private -clinics, hospitals, residential care facilities, developmental centers, and schools. May be repeated up to 16 credits. PREREQ: CLINIC DIRECTOR APPROVAL. Graded S/U.

**CSD 6605 Externship in Audiology 4-8 credits.** Eight week off-campus placement that can be split between two summers. Final approval is the responsibility of the clinic director. Each student should obtain a minimum of 100 clock hours of clinical experience per eight week externship. PREREQ: CLINICAL DIRECTOR APPROVAL. COREQ: CSD 7705L. May be repeated. Graded S/U.

**CSD 6606 Externship in Speech-Language Pathology 4-9 credits.** Designed to give Speech-Language Pathology students full-time practical experience in a professional setting, i.e., schools, hospitals, clinics, and private practices. PREREQ: COMPLETION OF ACADEMIC -PROGRAM. May be repeated up to 18 credits. Graded S/U.

**CSD 6611 Advanced Auditory Assessment and Speech Audiometry 4 credits.** Thorough study in the historical, theoretical, and clinical aspects of fundamental audiological procedures such as pure-tone air- and bone-conduction testing, speech audiometry, and masking.

**CSD 6614 School-Age Language Development and Disorders 3 credits.** Advanced study of language development and disorders in school-age children and youth. Methods of assessing later language disorders in educational settings. PREREQ: CSD 6620.

**CSD 6616 Augmentative and Alternative Communication 3 credits.** Functional approaches to enhancing communication for people with severe disabilities. Includes introduction to electronic communication devices, low technology strategies, empowering clients, and inclusive practices. PREREQ: CSD 6620, OR EQUIVALENT.

**CSD 6620 Early Language Development and Disorders 3 credits.** Study of language development and disorders in children (0-5 years of age). Includes theories of development and disorders, assessment and intervention of child and environment. PREREQ: CSD 3330, CSD 3335, OR EQUIVALENT.

**CSD 6621 Aud Rehab and Amplification I 3 credits.** Introduction to practice of audiologic rehabilitative patient care with an emphasis on acoustic hearing aids. Basic instrument design, components, and coupling features of various wearable amplification devices will be included. Assessment of patient candidacy, fitting protocols, and outcome measures.

**CSD 6622 Speech Sound Disorders 3 credits.** Characteristics of children with speech sound disorders. Current approaches to assessment and theoretically-based treatment of speech sound errors, including multicultural applications. PREREQ: CSD 3325, OR PERMISSION OF INSTRUCTOR.

**CSD 6623 Pediatric Audiology 3 credits.** Advanced study of hearing disorders and hearing test procedures in children. Topics include development of the auditory mechanism, auditory pathologies, developmental milestones, auditory testing, differential diagnosis, and management.

**CSD 6624 Disorders of Swallowing 3 credits.** Assessment and treatment of disorders associated with all stages of swallowing in adults and children. Includes oromyofunctional, oral preparatory, oral, pharyngeal, and esophageal swallowing disorders. PREREQ: CSD 4435, OR PERMISSION OF INSTRUCTOR.

**CSD 6625 Advanced Issues in Language Disorders 3 credits.** Critical issues in childhood language disorders including linguistic and cultural diversity, classroom-based strategies, and children with mental retardation, autism, learning disability and deafness. PRE-

REQ: CSD 614 OR EQUIVALENT.

**CSD 6629 Neuropathologies of Speech 3 credits.** Examines etiologies, characteristics, assessment and treatment of dysarthria, apraxia, and right-hemisphere dysfunction.

**CSD 6630 Fluency Disorders in Children and Adults 3 credits.** Advanced study of assessment and treatment for fluency disorders in adults and children. Includes theory, developmental issues, cluttering, and specific treatment for adults and children.

**CSD 6631 Immittance/Special Assessment 3 credits.** Study of immittance and other special audiological tests used in site of lesion (differential) diagnostic workshops. Background, rationale, administration, and interpretations of immittance and other special tests will be considered along with the concept of Clinical Decision Analysis (CDA).

**CSD 6632 Craniofacial Anomalies 2 credits.** Consideration of the speech-language pathologist's role in the habilitation of patients with craniofacial anomalies. Clefts of the lip and palate are discussed. Team approaches to assessment and management are presented.

**CSD 6633 Introduction to Evoked Potential Audiometry and Balance Function Assessment 3 credits.** Introduction to the study of evoked potential audiometry, balance function testing, and otoacoustic emissions. Emphasis will be on the physiologic processes and instrumentation. COREQ: CSD 6633L.

**CSD 6633L Introduction to Evoked Potential Audiometry and Balance Function Assessment Laboratory 1 credit.** An introductory course designed to provide the hands-on study and clinical practice of ABR, ENG/VNG, and OAE tests. Emphasis on clinical protocol, interpretation of test findings, and methods of reporting interpretations to referring sources. COREQ: CSD 6633.

**CSD 6634 Voice Disorders 2 credits.** Study of the anatomical, physiological, and behavioral aspects of voice production. Consideration of voice disorders by the speech-language pathologist. Principles of assessment and treatment will be discussed. PREREQ: CSD 6614 OR EQUIVALENT

**CSD 6635 Speech Audiometry 1 credit.** Review of basic and advanced audiometric tests which utilize speech as an approach to hearing assessment. Course treatment includes historic development of speech tests and description of psychophysical principles which underlie speech audiometry.

**CSD 6636 Medical/School Practice in Speech-Language Pathology 3 credits.** Examines methods and practices specific to medical and school settings. Includes billing procedures, record keeping, referral procedures, ethics, treatment models related to settings, caseload management, Interdisciplinary Education program requirements, legal mandates, collaborative strategies, and inclusive practices. PREREQ: CSD 6614 AND/OR EQUIVALENT.

**CSD 6639 Neurogenic Disorders of Language and Cognition 3 credits.** Etiologies, characteristics, assessments, and treatment of aphasia, traumatic brain injury, and dementia.

**CSD 6641 Aud Rehab and Amplification II 2 credit.** Continuation of wearable amplification technology with focus on advanced signal processing, prescriptive fitting rationales, and programming software. Objective and subjective verification and validation methodologies as well as patient orientation, adjustment, and care of devices will be included. PREREQ: CSD 6621. COREQ: CSD 6641L.

**CSD 6641L Aud Rehab and Amplification II Laboratory 1 credit.** Experimental learning activities with hearing aid programming software, ANSI test measures, Real Ear Measurements (REM), and hearing aid repair. PREREQ: CSD 6621. COREQ: CSD 6641.

**CSD 6643 Aud Rehab and Implants 3 credits.** Patient candidacy evaluations, surgical procedures, fitting, and programming of FDA approved implantable technologies for the hearing impaired patient. Patient orientation, troubleshooting, and operation of devices as well as validation and verification of outcomes will be included. PREREQ: CSD 6621, 6641.

**CSD 6645 Auditory Anatomy and Physiology 2 credits.** Comprehensive treatment of the anatomy, physiology, and neuroanatomy of the auditory system from the outer ear to the auditory cortex.

**CSD 6647 Auditory Physiology of Speech and Non-Speech Signals 2 credits.** Continuation of advanced study of the auditory system, including central pathways, auditory perception of speech and non-speech signals, and psychoacoustics, with focus on pitch and loudness phenomenon, masking, and binaural effect. PREREQ: CSD 6645.

**CSD 6648 Professional Issues: Speech-Language Pathology 3 credits.** Advanced preparation for professional practice in speech-language pathology. Includes study of policies and practices in employment settings, service delivery models, ethics, counseling, supervision. PREREQ: TWO SEMESTERS OF CSD

6602.

**CSD 6650 Thesis 1-9 credits.** Research project under supervision of academic faculty member. PREREQ: ABILITY TO DEAL WITH TECHNICAL LITERATURE, PROVEN WRITING -ABILITY. APPROVAL OF ADVISOR AND INSTRUCTOR. May be repeated. Graded S/U.

**CSD 6651 Master's Paper 1-3 credits.** Major paper or project synthesizing aspects of a specialized area of speech-language pathology, audiology. A large component of the paper must reflect the student's own original thinking. May be repeated. Graded S/U.

**CSD 6652 Auditory Language Learning 3 credits.** This course examines the development of speech and hearing in children who are hard or deaf. Focus is placed on how children with hearing impairments differ in their learning of language compared to children with normal hearing. Language strategies for use by professionals serving deaf and hard of hearing children to promote language learning will also be discussed.

**CSD 6670 Auditory Pathologies 2 -credits.** Study and discussion of a wide range of auditory pathologies. Emphasis will be placed on the relationship between the pathology and the corresponding audiometric findings.

**CSD 6673 Instrumentation and Calibration 1 -credit.** The basic study of electronics, sound, acoustics, instrumentation, and hands on activity using a wide variety of audiometric equipment.

**CSD 6675 Hearing Conservation in Noise 2 credits.** Hearing conservation programs from historical and current-model perspectives. Additionally, measurement of sound, OSHA and other applicable regulations, and the effects of noise on human hearing will be discussed.

**CSD 6680 Counseling in Audiology 2 credits.** Examination of the role of personal adjustment counseling in audiology. Students review counseling theory and the application of counseling techniques to patient interactions.

**CSD 6691 Topical Seminar 1-4 credits.** Reading and discussions involving subjects of concern. May be repeated up to 12 credits.

**CSD 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be re-

peated.

**CSD 7705 Off-Campus Clinical Practicum 1-4 -credits.** These externships, referred to as 3rd year rotations, are for the two semesters of the third year. Students will rotate through one experience every eight weeks or two per semester. Affiliation agreements and placement decisions are arranged by the externship coordinator. COREQ: CSD 7705L. May be repeated. Graded S/U.

**CSD 7705L Off-Campus Clinical Practicum Laboratory 1 -credit.** Staffing seminar conducted online with students in clinical experience settings. May be repeated. Graded S/U. PREREQ: CSD 6603.

**CSD 7710 Adv Topics in Aud Rehab 3 credits.** Advanced topics include rehabilitation issues in central auditory processing disorders, tinnitus, and pharmacology. Audiologic rehabilitation outcome measures and efficacy will be included. PREREQ: CSD 6621, 6641, 6643.

**CSD 7720 Audiology Practice Management and Dispensing 3 -credits.** Ethics and professional issues in various practice settings, including multicultural considerations, licensure certification, best practice, outcome measures, hearing aid dispensing, liability, malpractice, marketing, and practice/business management. PREREQ: CSD 6641, 6643.

**CSD 7730 Advanced Electrophysiology 3 -credits.** Comprehensive discussion of advanced evoked potentials including test protocols, measurement, and interpretation. Topics in early identification of individuals with hearing loss will also be covered. PREREQ: CSD 6633.

**CSD 7740 Advanced Vestibular and Balance Function Assessment 3 -credits.** Advanced vestibular and balance function assessment including underlying causes of balance disorders, rotary chair, computerized posturography, VEMP, advances in VNG/ENG technology, and collaborative approaches to vestibular rehabilitation. PREREQ: CSD 6633.

**CSD 8805 Fourth Year Externship 1-8 credits.** Full time placement designed to provide the student with a breadth and depth of clinical experience equivalent to one year of full-time work (approximately 2,000 hours). Students must enroll for three semesters minimum. Students are responsible for identifying potential sites and working with externship coordinator to arrange affiliations agreements. Final approval is the responsibility of the clinical director. COREQ: CSD 7705L. May be repeated. Graded S/U.

**CSD 8810 Clinical Project 1-6 -credits.** Clinically-based scholarly project completed under the supervision of the audiology faculty. May be repeated for a total of 6 credits. Graded S/U.

## Department of Physical and Occupational Therapy

Chair and Associate Professor: Creelman  
Occupational Therapy Program Director and Associate Professor: Gee  
Professor:

Associate Professors: Creelman, Devine, Dye, Gee, Seiger, Thompson  
Assistant Professors: Alexander, Jackman, Kendall, Lloyd, Peterson, Ralphs

### Program Mission

The primary mission of the Doctor of Physical Therapy Program is to provide entry-level education in a supportive learning environment fostering diverse and interdisciplinary didactic and clinical experiences, clinical skills acquisition, and a desire for lifelong learning to enhance the delivery of physical therapy services and the profession. Further, the program emphasizes faculty and student enrichment through scholarly endeavors, teaching, service, and clinical practice contributions within their areas of expertise.

## Doctor of Physical Therapy

The graduate entry level program in Physical Therapy is a professional entry level program designed to prepare students for licensure to practice as physical therapists. The program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association.

The Doctor of Physical Therapy program (DPT) was granted re-accreditation status by the Commission on Accreditation in Physical Therapy Education (CAPTE) in October 2006. Prospective students having questions about the program's accreditation status should contact the Commission on Accreditation of Physical Therapy Education, 111 North Fairfax Street, Alexandria, VA 22314; accreditation@apta.org; (703)684-2782 or (703)706-3245.

### Admission Requirements

The student must apply to, and meet all criteria for admission to the Graduate School. In addition,

the following conditions must be met:

1. Completion of bachelor's degree from a college or university accredited in the United States or its equivalent from a school in another country. (Must complete degree before onset of classes in PT Program of the Fall Semester in year of acceptance.)
2. Grade point average of 3.0 or above on the equivalent of the most recent four full-time semesters of academic work. GPA is calculated on upper division courses only.
3. Grade point average of 3.0 or above in each prerequisite set of science courses. Please contact the Department of Physical Therapy for clarification.
4. Applicants must take the Graduate Record Examination (GRE) or Miller Analogies Test (MAT).
  - a. GRE must meet the following requirements to be competitive: A total combined score of at least 950 in the verbal and quantitative portions. Verbal must be at least 400. Minimum of 4.0 on the analytical portion.
  - b. MAT must meet the following requirements to be competitive: A total score of 390.
  - c. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test or a score of 84 on the MTEFL, or a score of 6 on the IELTS.
  - d. Applicants with scores lower than the requirements may not be considered.
  - e. The scores of the GRE/MAT/TOEFL must be received by the Graduate School by the application deadline (November 15) for an application to be considered. The ISU code for these three tests is: 4355.
5. At least 80 hours of salaried or voluntary experience in two or more physical therapy practice settings. Experience must be supervised and documented by licensed physical therapists. This experience must have occurred within the last five years.
6. Three letters of recommendation. Two

letters must be from licensed physical therapists under whom the student has obtained hours of experience. One letter must be from a professor.

The admissions committee reviews all applicants on a competitive case-by-case basis during any admissions cycle.

Qualified applicants may be invited for a personal interview with physical therapy admissions committee.

Prospective applicants should contact the department for specific descriptions of the above general requirements.

A maximum of 28 students are admitted to the program each year. Classes begin in the Fall Semester of each year. Meeting entry level requirements for admission does not guarantee a seat in the program. Admission is on a competitive basis, and a majority of the seats are offered to Idaho residents. Please contact the Department of Physical Therapy for details.

## General Requirements

The curriculum is 3 years in duration and includes 5 clinical affiliations. There are 8 semesters and 2 full-time summer sessions encompassing a total of 101 credits. The clinical affiliations mandate student travel and housing with the usual expenses borne by the student. Out-of-state travel for affiliations is required.

## Doctor of Physical Therapy Curriculum\*

### Fall - Semester 1

PTOT 5512 Professional Communication	2 cr
PTOT 5513 Physical Therapy Profession	2 cr
BIOL 5574/5574L Human Anatomy - PT emphasis	5 cr
BIOL 5586/5586L Human Systemic Physiology	5 cr
PTOT 6623 Physical Agents	3 cr
PTOT 6643 Physical Agents Lab	1 cr
Total	18 cr

### Spring - Semester 2

PTOT 5501 Clinical Kinesiology	4 cr
PTOT 5502 Clinical Neuroscience	5 cr
PTOT 6606 Clinical Therapeutic Exercise	3 cr
PTOT 6620 Clinical Procedures	2 cr
PTOT 6640 Clinical Procedures Lab	1 cr
PTOT 6621 Manual Evaluation and Treatment	2 cr
PTOT 6641 Manual Evaluation and Treatment Lab	1 cr
PTOT 6618 Practicum	1 cr
Total	19 cr

### Summer - Semester 3

PTOT 5514 Research Methodology	4 cr
PTOT 6608 Pharmacology for Physical and Occupational Therapists	3 cr
PTOT 6631 Clinical Affiliation I	3 cr
Total	10 cr

### Fall - Semester 4

PTOT 6616 Professional Project	1 cr
PROR 667 Research Practicum	1-2 cr

PTOT 6618 Practicum	1 cr
PTOT 6622 Musculo-Skeletal System Management	4 cr
PTOT 6642L Musculo-Skeletal System Management Lab	1 cr
PTOT 6624 Cardiac and Pulmonary System Management	5 cr
PTOT 6632 Clinical Affiliation II	3 cr
Total	18 cr

### Spring - Semester 5

PTOT 6616 Professional Project	1 cr
PTOT 6619 Practicum	1 cr
PTOT 6626 Neurological Systems Management	5 cr
PTOT 6646L Neurological Systems Mgmt Lab	1 cr
PTOT 7715 Resource Management	3 cr
Total	11 cr

### Summer - Semester 6

PTOT 7733 Clinical Affiliation III	5 cr
PTOT 6616 Professional Project	1 cr
Total	6 cr

### Fall - Semester 7

Oral & Comprehensive Exams	
PTOT 6616 Professional Project (elective)	1 cr
PTOT 6619 Practicum	1 cr
PTOT 7725 Multi-Systems Management	4 cr
PTOT 7727 Geriatric Management	1 cr
PTOT 7728 Lifespan Development	4 cr
Total	11 cr

### Spring - Semester 8

PTOT 7734 Clinical Affiliation IV	5 cr
PTOT 7735 Clinical Externship	5 cr
PTOT 6648 Graduate Special Topics (Elective)	1 cr
Total	10 cr

## TOTAL CREDITS

**101**

\*Minor curriculum changes and progression alteration may occur without notice in line with accreditation standards.

## Degree and Licensure Requirements

Students receiving the degree of Doctor of Physical Therapy must satisfactorily complete all courses in the curriculum, prepare and present study papers on a regular basis, prepare and present a professional project, attend and successfully complete all clinical affiliations, and satisfactorily pass comprehensive oral and written departmental examinations. For state licensure, students must have met the degree requirements and pass the National Board Examinations for Physical Therapy.

NOTE: Admitted students should be aware that some required external clinical rotation sites will require criminal background and drug checks. In addition, students who have a record of criminal activity may have difficulty procuring a license to practice in some states after completing the program.

## Grade Requirements

The Graduate School and the Department of Physical and Occupational Therapy requires that an overall GPA of 3.0 be maintained in all graduate course work and all clinical affiliations must be completed with an S

(satisfactory) grade. In addition, the Department of Physical and Occupational Therapy will terminate the graduate program of any student who has received grades of "B- or lower" in more than 6 credits or a maximum of two program courses. Students should consult specific departmental grading policies for specific information.

# Master of Occupational Therapy

The graduate entry level program in Occupational Therapy is a professional entry level program preparing students for licensure to practice as occupational therapists. The following information provides the specific requirements for applying to the Idaho State University Occupational Therapy (OT) Program.

Occupational therapy is a profession that uses occupation to promote well-being and health among people of all ages and abilities. Occupations are goal-directed, meaningful pursuits that occupy a person's time each day. Occupations include work and productive activities, self care or care of others, and leisure/recreational activities. Occupational therapists adapt the environment, tasks, or techniques to meet individual needs while helping each client develop new skills necessary to function productively. Occupational therapists view every aspect of a client's life as important to his/her health.

Occupational therapy seeks to improve the quality of life for individuals who are at risk for physical, cognitive, mental or psychosocial impairments. Demand for occupational therapy will increase to address the needs of a growing population of aging adults, children with developmental disabilities and those who struggle with traumatic injuries and illness. When one experiences physical or mental illness or injury, it is the job of the occupational therapist to help the individual return to work, family roles and satisfying life.

The curative nature of occupational therapy is extremely broad and requires individuals with an interest in the complexity of humanity and occupations. One also needs an ability to think critically and creatively and be able to address occupational performance problems resulting from disease, trauma and mental illness. To be well prepared, a student must enter the profession with a foundation in the liberal arts, biological, physical, and social sciences.

## Admission Requirements

Students can be admitted into the Master of Occupational Therapy (MOT) program by applying to, and meeting all criteria for, admission to the Graduate School. They must also meet the prescribed prerequisite course requirements. Students may also have the option of early pre-professional entry into the program through the established guidelines of the Bachelors of University Studies (BUS) program. The BUS is an interdisciplinary degree designed for students whose career and educational goals are not met by traditional degrees offered at Idaho State University.

During the first three years, the student develops a course of study that will meet the student's interests, university degree requirements and Occupational Therapy Program prerequisites admission requirements. The student can apply to the BUS program during his/her junior year. With successful completion of the first professional year in the OT program, the student will receive a Bachelor of University Studies and will continue directly into the MOT program over the next two years. The combination of the BUS degree with the MOT degree program creates a seamless entry into the occupational therapy profession, ensuring that all prerequisites in social, physical and biological sciences are completed in a timely manner. For further information on the BUS and Occupational Therapy program, contact the Department of Physical and Occupational Therapy at (208)282-4095.

1. Applicants must complete a bachelor's degree from a college or university accredited in the U.S. or its equivalent from a school in another country. This degree may be in progress during the application process but must be completed prior to beginning OT courses in the Fall semester.
2. All applicants applying to the OT Program must also apply for admission to ISU through the Graduate School. General admissions requirements are explained in the Admissions section of the Graduate Catalog. PLEASE NOTE: Some of the requirements for admission into the OT Program are higher than the general requirements for admission to Graduate School.
3. Applicants must have a minimum of an earned grade point average (GPA) of at least 3.0 over all upper division course work to apply to the OT Program. A minimum of 25 upper division credits must be completed, or in progress, by January of the year of admission for applications to be considered. Applicants with advanced degrees may use the most recent upper division or graduate credits completed.
4. Applicants must take the Graduate Record Examination (GRE) or Miller Analogies Test (MAT).
  - a. GRE must meet the following requirements to be competitive: A total combined score of at least 950 in the verbal and quantitative portions. Verbal must be at least 400. Minimum of 4.5 on the analytical portion.
  - b. MAT must meet the following requirements to be competitive: A total score of 390.
  - c. Applicants whose first language is not English need to meet the following TOEFL requirements for Classified admission: (1) Internet-based test (iBT): a total score of 80 with a score of at least 20 on each Section (graduate assistants who teach courses must score 23 or above on the Speaking Section) on the iBT; or (2 ) Computer-based test: a total score of 213 with a score of at least 21 on Section 1 (Listening Comprehension) on the computer test; or (3) Paper-based test: a total score of 550 with a score of at least 55 on Section 1 (Listening Comprehension) on the paper test, or a score of 84 on the MTELP, or a score of 6 on the IELTS.
  - d. Applicants with scores lower than the requirements may not be considered.
  - e. The scores of the GRE/MAT/TOEFL must be received by the Graduate School by the application deadline (December 15) for an application to be considered. The Idaho State University code for these three tests is: 4355.
5. Applicants must complete specific prerequisites courses with a GPA of 3.0 in each of the specified categories. Prerequisite course work in anatomy and physiology must be completed within the last five (5) years. Prerequisite course work that is ten (10) years or older may not be acceptable for admission unless approved by the Department Admissions Committee prior to application. An applicant with more than four (4) prerequisite courses in progress or planned for the spring/summer semesters may not be considered for admission. Please contact the Department of Physical and Occupational Therapy for specific information on the prerequisite course work.
6. Applicants must demonstrate knowledge and exposure to the occupational therapy profession. All of the required experience must be completed PRIOR to admission to the Idaho State University OT Program. All of the experience must be completed under the direct supervision of a practicing occupational therapist and must have occurred within the last FIVE years. A total of 40 hours of experience is required and must be completed in a minimum of two different occupational therapy practices.
7. Each applicant must submit three letters of reference with the application. One of the letters must be from the Occupational Therapist who directly supervised the volunteer or aide experience(s). Please contact the Idaho State University OT Program for additional information.
8. Applicants meeting all of the above requirements will be given preference for admission into the program, and have been more successful in gaining entry. The admissions committee reviews all applicants on a competitive case-by-case basis during any admissions cycle.

## Program Accreditation

The Idaho State University Master of Occupational Therapy Program received accreditation from the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) in December 2000. ACOTE can be contacted at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220 or by telephone at (301) 652-AOTA. Graduates of the program will be eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT).

After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. In addition, the OT program requires that all occupational therapy students complete Level II Fieldwork within 12 months following the completion of academic component of the program.

## General Requirements

The curriculum is 33 months in duration and includes 4 clinical affiliations. There are 6 semesters and 2 full-time summer sessions encompassing a total of at least 83 credits. Please contact the Department of Physical and Occupational Therapy for additional information regarding clinical affiliations.

**Graduation Requirements**

Students receiving the Master of Occupational Therapy (MOT) degree must satisfactorily complete all courses in the curriculum with a minimum of 3.0 GPA, prepare and present academic study papers on a regular basis, prepare and present a professional project or case study, successfully complete all Fieldwork I and II clinical affiliations, and satisfactorily pass both oral and written comprehensive examinations.

Once the student has completed the degree requirements, he/she is eligible to sit for the NBCOT Certification Examination. Students are required to complete Level II Fieldwork within 12 months of completing the academic component of the program. Students convicted of a felony may not be able to sit for the NBCOT certification examination or attain state licensure.

NOTE: Admitted students should be aware that some required external clinical rotation sites will require criminal background and drug checks. In addition, students who have a record of criminal activity may have difficulty procuring a license to practice in some states after completing the program.

**Physical Therapy and Occupational Therapy Graduate Courses**

**PTOT 5501 Clinical Kinesiology and Biomechanics 4 credits.** Analysis of normal and pathological human movement in joints, posture, gait, and the vertebral column. Application of movements to therapeutic interventions is emphasized. PREREQ: BIOL 5574.

**PTOT 5502 Clinical Neuroscience 5 credits.** Study of structure and function of the human nervous system at the cellular and systemic levels. Specific application to clinical management of neurological problems and pathology. PREREQ: BIOL 5574, BIOL 5586.

**PTOT 5512 Professional Communication 2 credits.** Introduction to standard forms of professional communication in physical and occupational therapy and among other health care professions. Medical record-keeping and interdisciplinary communication are emphasized.

**PTOT 5513 Occupational Therapy Profession 3 credits.** Historical overview of occupational therapy in health care, education and psychosocial settings. Occupational therapy process, rural human service delivery system, professionalism, ethics, and legal issues will be examined.

**PTOT 5514 Research Methodology 4 credits.** Application of principles of research design in the biological, psychological and social sciences. Clinical and laboratory research in occupational and physical therapy are emphasized. Preparation for professional project. PREREQ: PTOT 5513, PTOT 5522, PTOT 6613.

**PTOT 5515 Service Delivery of Occupational Therapy 3 credits.** Application of theoretical concepts of management to the delivery of occupational therapy services. Development, implementation and outcome evaluation of community-based service delivery systems will be emphasized. PREREQ: PTOT 5522, PTOT 5532.

**PTOT 5518 Practicum 1-3 credits.** Clinical experience in the on-campus clinic or in the community under the direction and supervision of faculty. Current issues in management and administration of practice within interdisciplinary

teams are discussed. PREREQ: PTOT 5532. Graded S/U.

**PTOT 5519 Practicum 1-3 credits.** Advanced experience in the on-campus clinic or community practice under the direction and supervision of faculty. Current issues in management and administration of clinical practice within interdisciplinary teams are discussed. PREREQ: PTOT 5533. Graded S/U.

**PTOT 5521 Self-exploration in Occupation 3 credits.** Focus on self-exploration in occupation and purposeful activity. Self-evaluation in occupational performance areas, components, and context. The student will complete a self-development plan in occupation.

**PTOT 5522 Occupational Performance 3 credits.** Person/occupation/environment interactions are examined from the perspective of multiple theories and models that analyze typical occupations and address performance dysfunctions. PREREQ: PTOT 5513, PTOT 5521. COREQ: PTOT 5542.

**PTOT 5523 Therapeutic Use of Self in Occupation 2 credits.** Survey of historical and philosophical perspective of the therapeutic relationship and its development and implementation with individuals and groups with psychosocial dysfunction. PREREQ: PTOT 5521.

**PTOT 5524 Physical Function in Occupation Performance 4 credits.** The study of theory and application of occupational performance addressing function. Overview of evaluation and treatment of physical and psychosocial function in rehabilitation and orthopedic management. PREREQ: PTOT 5501, PTOT 5502. COREQ: PTOT 5544

**PTOT 5525 Psychosocial Function in Occupation 4 credits.** Theory, evaluation and intervention techniques in occupational therapy across the lifespan for persons with psychosocial dysfunction in different treatment settings. PREREQ: PTOT 5522. COREQ: PTOT 5545.

**PTOT 5526 Neurological Function in Occupation 5 credits.** Occupational therapy management of clients with neurological trauma, degenerative disorders, central and peripheral neural and neuromuscular dysfunction. Overview of rehabilitation approach to evaluation and treatment. PREREQ: PTOT 5502, PTOT 5524. COREQ: PTOT 5546.

**PTOT 5527 Occupation and Environmental Management 3 credits.** The study and application of occupational therapy in managing environmental factors that restore func-

tion and decrease disability. PREREQ: PTOT 5522, PTOT 5526. COREQ: PTOT 5547.

**PTOT 5528 Occupation with Children and Adolescents 4 credits.** Study of occupational therapy evaluations and interventions for children and adolescents who have disabling conditions that cause occupational performance problems. PREREQ: PTOT 5526. COREQ: PTOT 5548.

**PTOT 5531 Clinical Affiliation I (Fieldwork I) 1 credit.** Fieldwork opportunities to observe occupational performance of persons served by local institutional or community-based health, education, and human service organizations. PREREQ: PTOT 5522, PTOT 5542. Graded S/U.

**PTOT 5532 Clinical Affiliation II (Fieldwork I) 1 credit.** Fieldwork experiences focusing on evaluation of occupational performance dysfunction and interventions with persons served by local institutional or community-based health, educational, and human service organizations. PREREQ: PTOT 5531. Graded S/U.

**PTOT 5533 Clinical Affiliation III (Fieldwork II) 7 credits.** An in-depth clinical fieldwork with clients having physical, psychosocial, neurological, and/or multisystem impairments/disabilities in a facility-based setting such as a hospital or rehabilitation center. PREREQ: PTOT 5532. Graded S/U.

**PTOT 5534 Clinical Affiliation IV (Fieldwork II) 7 credits.** An in-depth clinical fieldwork with clients having physical, psychosocial, neurological, educational or health impairments/disabilities in community-based settings. PREREQ: PTOT 5533. Graded S/U.

**PTOT 5542 Occupational Performance Laboratory 1 credit.** Introduction to and practice using occupation focused evaluation tools and methodologies used in analyzing, evaluating, and categorizing occupational performance. COREQ: PTOT 5522.

**PTOT 5544 Physical Function in Occupation Laboratory 1 credit.** Laboratory exercise designed to apply evaluation and treatment techniques used in physical and psychosocial occupational performance approach. COREQ: PTOT 5524.

**PTOT 5545 Psychosocial Function in Occupation Laboratory 1 credit.** Laboratory exercise designed to apply evaluation and treatment techniques in the management of psychosocial dysfunction to optimal func-

tion. The laboratory develops preclinical competency in psychosocial function across the lifespan. COREQ: PTOT 5525.

**PTOT 5546 Neurological Function in Occupation Laboratory 1 credit.** Designed to apply evaluation and treatment techniques to promote adaptation and optimal function. The laboratory serves to develop preclinical competency in the management of neurological disorders. COREQ: PTOT 5526.

**PTOT 5547 Occupation and Environmental Management Laboratory 1 credit.** Application of environmental modifications and adaptations within work, self care and recreational environments. Development, implementation and evaluation of environmental modifications to improve occupational performance. COREQ: PTOT 5527.

**PTOT 5548 Occupation with Children and Adolescents Laboratory 1 credit.** Laboratory exercise designed to apply evaluation and treatment techniques for children and adolescents specific to occupational performance dysfunction, adaptation and optimal function. COREQ: PTOT 5528.

**PTOT 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PTOT 6606 Clinical Therapeutic Exercise 3 credits.** Theoretical and evidence-based application of exercise for various pathological conditions. Aerobic conditioning, muscular strengthening, flexibility, balance, coordination, power and agility are discussed, demonstrated and evaluated. Specific exercise prescription, modes of exercise, and application for desired outcomes are emphasized. PREREQ: BIOL 5574 and 5586.

**PTOT 6608 Applied Pharmacology for Physical and Occupational Therapists 3 credits.** Study of the major drug groups, therapeutic implications and side effects. Musculoskeletal, cardiovascular, connective tissue and nervous system disorders are emphasized. PREREQ: BIOL 5574, BIOL 5586, PTOT 5502

**PTOT 6613 Physical Therapy Profession 2 credits.** Survey of current status of the physical therapy profession in health care systems. Professionalism, ethics, legal issues, validation of practice. Future projections and historical perspective.

**PTOT 6616 Professional Project 1-2 credits.**

Individual in-depth study of treatment, administrative or education problem in physical or occupational therapy. Preparation and public presentation of a publishable is required. Repeatable to 6 credits. PREREQ: PTOT 5514. Graded S/U.

**PTOT 6617 Research Practicum 1-2 credits.** Faculty supervised clinical, basic or applied research project which may include review of literature preparation, proposal development, data collection and manuscript preparation. PREREQ: PTOT 5514. May be repeated up to 4 credits. Graded S/U.

**PTOT 6618 Practicum I 1-2 credits.** Supervised clinical experience in physical therapy (may be repeated up to four credits). PREREQ: PTOT 621, PTOT 641. Graded S/U.

**PTOT 6619 Practicum II 1-2 credits.** Supervised clinical experience in physical therapy (may be repeated up to four credits). PREREQ: PTOT 6618. Graded S/U.

**PTOT 6620 Clinical Procedures 2 credits.** Study and practice of theory and application of basic techniques of patient evaluation, handling, and treatment in physical therapy. COREQ: PTOT 5501 or PTOT 6640.

**PTOT 6621 Manual Evaluation and Treatment 2 credits.** Study and practice of theory and application of basic manual techniques of patient evaluation, handling and treatment in physical therapy. PREREQ: PTOT 6620. COREQ: PTOT 6641.

**PTOT 6622 Musculo-Skeletal System Management I 4 credits.** Physical therapy evaluation, treatment, and management of patients with muscle, skeletal, and connective tissue problems. Overview of orthopedic pathology. PREREQ: BIOL 5574, BIOL 5586, PTOT 6601, PTOT 6621. COREQ: PTOT 6642.

**PTOT 6623 Physical Agents 3 credits.** Study and practice of theory and application of the therapeutic uses of physical agents and electromagnetic energy in physical therapy. PREREQ: PTOT 6620, PTOT 6640. COREQ: PTOT 6643.

**PTOT 6624 Cardiac and Pulmonary Systems Management 5 credits.** Physical therapy management of persons with dysfunction of the cardiac and/or pulmonary systems and related pathologies. Management by other health professional team members. PREREQ: BIOL 5586.

**PTOT 6626 Neurological Systems Management 5 credits.** Physical therapy manage-

ment of patients with central and peripheral neural and neuromuscular dysfunction. Survey of management by other health professionals. PREREQ: PTOT 5502, PTOT 6605. COREQ: PTOT 6646.

**PTOT 6631 Clinical Affiliation I 3 credits.**

Application of physical therapy manual evaluation and treatment skills in acute and rehabilitation settings. PREREQ: BIOL 5574, BIOL 5586, PTOT 6621. Graded S/U.

**PTOT 6632 Clinical Affiliation II 3 credits.**

Clinical management practicum related to orthopedics, sports medicine, and/or cardiopulmonary problems. PREREQ: PTOT 6622, PTOT 6623, PTOT 6624, PTOT 6631. Graded S/U.6

**PTOT 6640 Clinical Procedures Lab 1 credit.**

Laboratory exercises designed to practice and enhance overall skills in the initial evaluation and treatment of patients. COREQ: PTOT 6620.

**PTOT 6641 Manual Evaluation and Treatment Lab 1 credit.**

Laboratory exercises designed to introduce basic theoretic and applied concepts and skills of patient handling, evaluation and modalities. COREQ: PTOT 6621.

**PTOT 6642 Musculo-Skeletal System Management Lab 1 credit.**

Designed to develop preclinical competency in the evaluation, treatment, and management of disorders of the musculoskeletal system. Emphasis on the trunk and lower extremities. COREQ: PTOT 6622.

**PTOT 6643 Physical Agents Laboratory 1 credit.**

Designed to develop clinical competence in the use of physical agents in the treatment of patients with specific pathologies. PREREQ: PTOT 6620, PTOT 6640. COREQ: PTOT 6623.

**PTOT 6646 Neurological Systems Management Lab 1 credit.**

Designed to develop preclinical competency in the evaluation, treatment, and management of the patient with neurological disorders including stroke, spinal cord injury, degenerative disease. COREQ: PTOT 6626.

**PTOT 6648 Graduate Special Topics 1-3 credits.**

Individual or group critical analysis and study of a specific area of physical therapy patient management, administration, or research. PREREQ: 2ND-YEAR STUDENTS, AND/OR PERMISSION OF INSTRUCTOR. May be repeated.

**PTOT 6681 Theories and Resources to**

**Guide Clinical Decision Making in Physical Therapy 3 credits.** Study and application of applying evidence in physical therapy practice. The Guide to PT Practice, Physical Therapy differential diagnosis, and legal and ethical considerations will be addressed.

**PTOT 6682 Promoting Behavioral Change in Physical Therapist Practice 2 credits.**

Study of the theories of learning, compliance, and behavior modification as related to the application of prevention and wellness in physical therapy practice. PREREQ: PTOT 6681.

**PTOT 6693 Contemporary Musculoskeletal System Management for Physical Therapists 2 credits.**

Applying evidence and elements of accepted practice to PT management of patients across the lifespan with musculoskeletal diagnoses. PREREQ: PTOT 6682.

**PTOT 6694 Contemporary Cardiopulmonary System Management for Physical Therapists 2 credits.**

Applying evidence and elements of accepted practice to PT management of patients across the lifespan with cardiac and/or pulmonary diagnoses. PREREQ: PTOT 6693.

**PTOT 6695 Contemporary Neurological System Management for Physical Therapists 2 credits.**

Applying evidence and elements of accepted practice to PT management of patients across the lifespan with neurological diagnoses. PREREQ: PTOT 6694.

**PTOT 6696 Patient Case Seminar 2 credits.**

Selection and development of a patient case with which the student has worked to demonstrate application of evidence and the Guide to Physical Therapist Practice to Physical Therapy practice. PREREQ: PTOT 6695. Graded S/U.

**PTOT 6699 1-6 credits.**

This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PTOT 7701 Contemporary Multiple System Management for Physical Therapists 2 credits.**

Applying evidence and accepted clinical practice to PT management of patients across the lifespan with diagnoses affecting multiple systems. PREREQ: PTOT 6696.

**PTOT 7705 Clinical Case Management 3 credits.**

Advisor guided development and completion of a patient case study demonstrating the application of evidence for PT examination, diagnoses, medical management, treatment and discharge. Oral presentation required. PREREQ: PTOT 7701. Graded S/U.

**PTOT 7715 Physical Therapy Resource Management 3 credits.**

Application of business and health care administration principles to the practice of physical therapy; resource management strategies with an emphasis on community service delivery. PREREQ: PTOT 6612, PTOT 6163, PTOT 6621, PTOT 6632.

**PTOT 7725 Multi-Systems Management 4 credits.**

Physical therapy management of persons with problems affecting multiple systems; burns, wounds, amputations, neoplasms, metabolic disorders. PREREQ: PTOT 6621, PTOT 6622, PTOT 6623, PTOT 6624.

**PTOT 7727 Geriatric Management 1 credit.**

Examination, evaluation and treatment of the elderly population with emphasis on the management of normal and pathological conditions. PREREQ: PTOT 6626, PTOT 6646. COREQ: PTOT 7728.

**PTOT 7728 Lifespan Development 4 credits.**

Normal and abnormal development of neuromuscular, musculoskeletal, cardiopulmonary systems; cognitive/perceptual and psychosocial behavior associated with life through adolescence. Evaluation, program planning and treatment strategies are introduced. PREREQ: BIOL 5574, BIOL 5856. COREQ: PTOT 7727.

**PTOT 7733 Clinical Affiliation III 5 credits.**

Clinical management practicum related to patients with orthopedic, neurological, and multisystem problems. PREREQ: PTOT 6626/PTOT 6646, AND PTOT 6632. Graded S/U.

**PTOT 7734 Clinical Affiliation IV 5 credits.**

Clinical management practicum related to patients with orthopedic, neurological, cardiopulmonary, pediatric, and multisystem problems. PREREQ: PTOT 7733. Graded S/U.

**PTOT 7735 Clinical Externship 5 credits.**

Clinical management experiences related to patient care, administration, or research in a variety of practice environments. PREREQ: PTOT 7734. Graded S/U.

# College of Science and Engineering

Richard R. Brey, Ph.D., CHP, Dean and Professor  
David Rodgers, Associate Dean and Professor

## Department of Biological Sciences

Chair and Professor: Austin

Professors: Anderson, Bowyer, Delehanty, Finney, Keeley, Meldrum, C. Peterson, Rodnick, Rose, Scalarone, Sheridan, R. Smith, Winston

Associate Professors: Baxter, Bearden, Evilia, Groome, Hill, Kelchner, Magnuson, Pfau, Thomas, Williams

Assistant Professors: Aho, Benson, Cretekos, Lohse, Loxterman, Pilarski, Reinhardt, Weber, Yang

Lecturers: Abbruzzese, Black, Crandall, Frank, Shurley

## Doctor of Philosophy (Ph.D.) in Biology

The Doctor of Philosophy is a research degree granted for proven ability, independent investigation, and scholarly contribution in a specialized field. It is not granted solely on the completion of a certain number of credits, and there is no set credit requirement for this degree. The dissertation research must involve original and creative work. Credits for the dissertation and the research on which it is based should comprise a substantial portion of the program.

### Admission Requirements

For applicants who hold a M.S. degree, entrance into the Ph.D. program requires a minimum GPA of 3.0 for courses taken in the previous degree program, and scores in the 35th percentile or higher on the verbal and quantitative sections of the GRE.

For applicants who hold only a Bachelor's degree in biological sciences or a closely related discipline, entrance into the Ph.D. program requires a GPA of 3.0 or higher for all undergraduate work and scores in the 50th percentile or higher on the verbal and quantitative sections of the GRE.

Students for whom English is a second language who do not meet the minimum verbal GRE score must meet the Graduate School

minimal TOEFL score. Other exceptions to the verbal and quantitative GRE requirements will be granted only in exceptional circumstances.

All applicants must also submit scores for the GRE subject area test in Biology or in Biochemistry/Cell/Molecular Biology.

The application must be approved by a majority vote of the Graduate Programs Committee prior to formal acceptance by the Department. No student in the Department's Master's program will be permitted to advance to the Ph.D. program without approval of the Graduate Programs Committee. Application for advancement must include (1) a letter from the student that provides a rationale for the status change and (2) a letter of support from the major professor.

## Progressing Through the Ph.D. Program (10 Easy Steps)

### 1. Initial Evaluation

The purpose of this evaluation is to provide incoming students with guidance regarding coursework and other studies that will help them to be successful in their degree programs. The evaluation should take place by the end of the second full month in residence (October, for students entering in the fall).

The Evaluation Committee should consist of the major advisor and two other faculty members, at least one of whom is also a regular (i.e., tenure track or research) faculty member in the Department of Biological Sciences. Members of the Evaluation Committee should be chosen by the advisor and student, and may become part of the student's Advisory Committee.

The result of the Initial Evaluation should be the creation of an Initial Program of Study.

### 2. Initial Program of Study

Based on the results of the GRE Subject test, the student's transcripts, and the student's research interests, the Evaluation Committee should help the student draft an Initial Program of Study that lists coursework the student will take to meet the program requirements and support the student's research. The Initial Program of Study should indicate how the student will meet the requirement for exposure to three Core Areas (Cellular and Molecular Biology, Organismal Biology, and Ecology & Evolution). A copy of the Initial Program of

Study should be given to the Chair of the Graduate Programs Committee and then filed in the student's permanent file.

### 3. Core Areas

Students in the Ph.D. program are required to have some exposure to each of the following core areas:

- Cellular and Molecular Biology which can include cellular structure and function, genetics, and molecular biology
- Organismal Biology - which can include any of the '-ologies', organismal structure, function, development, growth, and diversity
- Ecology and Evolution - which can include population biology, conservation biology, evolutionary ecology, community ecology, population ecology, and behavior

Exposure to these areas can include undergraduate coursework, graduate coursework, or directed readings. The taxonomic focus of coursework may reflect the student's research focus. For example, a microbiologist could satisfy the first core area with coursework in microbial genetics, the second core area with coursework in microbiology, and the third core area with coursework in microbial evolution, whereas a mammalian physiologist could satisfy the first core area with coursework in population genetics, the second core area with coursework in comparative anatomy, and the third core area with coursework in vertebrate paleontology.

### 4. Advisory Committee

Ph.D. students should establish an advisory committee no later than the end of their second semester in residence. The Advisory Committee will consist of the major professor, at least three other members of the graduate faculty, and a Graduate Faculty Representative (GFR). The GFR is officially appointed by the Dean of the Graduate School, however, recommendations made by the Department are typically honored by the Graduate Dean. Because the primary role for GFR is to serve as a representative of the Graduate Faculty, the GFR does not have to be identified during the first year of the student's program. The Advisory Committee may include individuals from other departments or persons from outside the University who hold affiliate rank in the Department, but the majority of any committee must consist of regular departmental faculty.

Within the broad guidelines outlined in this document and the General Graduate Program Requirements, it is the responsibility of the

Advisory Committee to monitor and direct the student's progress and:

1. identify how the student will satisfy the requirement to have some background in each of the three core areas;
2. review the student's research proposal, conduct an oral examination following a public presentation of the research proposal, and determine if the student has passed that examination;
3. review and sign the student's Program of Study, ensuring that it meets the Graduate School requirements (i.e., total number of credits, number of 600-level credits, number of credits if a minor is part of the student's program);
4. conduct a comprehensive examination after the student has completed the majority of the coursework on the Program of Study; and
5. review the dissertation and conduct a rigorous examination of the candidate's research before approving and signing the dissertation.

### **5. Research Proposal**

All Ph.D. students are required to develop a research proposal that details how they will develop the research that will form the basis of their dissertation. The proposal should follow the guidelines for an NSF dissertation improvement grant or proposal to a comparable national funding source. The proposal will include: (1) a survey of the literature to develop a rationale for the research, (2) a statement of the problem(s) or hypothesis(es) to be addressed, (3) detailed descriptions of methods including the experimental design and planned statistical analyses, (4) preliminary data (optional, but strongly encouraged), (5) a time line, (6) a bibliography, and (7) a budget.

The student must present the proposal to the department during a one-hour seminar to be scheduled no later than the end of the third semester of residency. The proposal must be provided to all members of the Advisory Committee at least seven days before the seminar. After the seminar, the student will meet with the Advisory Committee for an oral defense of the proposal. The committee may ask to re-examine the student upon revision of the proposal if significant shortcomings are identified.

If the committee decides that the student is not able to demonstrate sufficient mastery of the research area, the committee may recommend that the student not complete the Ph.D. program, but consider alternative possibilities, such as switching to the M.S. program. Following approval of the proposal by the Advisory Committee, the proposal should be submitted to an appropriate agency for funding.

Once the student has successfully defended the research proposal, the student is advanced to candidacy.

### **6. Revised Program of Study**

Following the successful proposal defense, the student should submit to the Assistant Chair for Graduate Programs a Program of Study that has been approved and signed by the Advisory Committee. This form should indicate how the student will satisfy all of the degree coursework requirements. Subsequent substitutions for any courses on this Program of Study must be approved by the student's Advisory Committee.

### **7. Minor**

There is no requirement for Ph.D. candidates to have a minor, however a candidate may identify a minor that develops expertise in an area outside the major research focus. Courses to be applied to a minor must appear on the Final Program of Study for the minor to be noted on the transcript. The minor should consist of 9 or more credit hours that address a common theme. That theme may be in a subject area outside of Biology (e.g., Geosciences), or it may be an area within the Biological Sciences that is distinct from the candidate's primary research topic. For example, a microbiologist might develop a minor in ecology, a physiologist might develop a minor in environmental science, an ecologist might develop a minor in microbiology. In addition, any candidate may develop a minor in Biology Education by taking advantage of the existing Doctor of Arts in Biology curriculum. The minor in biology Education will normally consist of 4 credits of seminars (BIOS 6693 - Seminar in College Teaching and/or BIOS 6694 - Advanced Studies in College Teaching) and 5 credits of Supervised Teaching Internship (BIOS 7700). Students who pursue the minor in Biology Education are eligible for one year of D.A. Fellowship support.

### **8. Comprehensive Examination**

The student must pass a Comprehensive Examination intended to test his/her preparation for completing the Ph.D. degree program. The Comprehensive Examination should address at least two of the three core areas (see above). The extent to which these areas are addressed in the Comprehensive Examination will be determined by the Advisory Committee, and should reflect the student's area of research specialization. In addition to the core areas, the Comprehensive Examination should address the specific knowledge the Advisory Committee feels the student will need to successfully address the research that is the focus of the dissertation.

The Comprehensive Examination should be

scheduled after the student has completed the majority (i.e., all but one or two classes) of the coursework for the degree program. At least three months prior to the examination, the student should meet with the Advisory Committee to identify the specific areas that will be covered and the committee member who will be responsible for writing questions for each area. If the student has a minor, then a portion of the comprehensive examination should focus on that minor. Students should meet individually with committee members to determine how best to prepare for the specific topics that will be covered by the examination. The examination must be partly written and partly oral. Both portions must be passed satisfactorily in order to complete the Comprehensive Examination requirements.

The written portion of the Comprehensive Examination generally will consist of eight sections (each meant to be completed in 3-4 hours). The form of the written portion is flexible. If it is of a 'closed book' type, it should not be less than the equivalent of three (8 hour-long) days nor more than five (8 hour-long) days of actual writing time. Normally the written exams will be completed within the span of one week. Evaluation of each section of the written examination is on a pass/fail basis. The student must earn a passing evaluation on at least 75% of the sections to pass the written portion of the comprehensive examination. Failed sections may be repeated once, at a time designated by the student's Advisory Committee, but within a year of the original examination. The completed and graded written portion of the Comprehensive Examination is to be placed in the student's departmental file.

The purpose of the oral portion of the examination is to provide an opportunity to clarify and explore further implications of the written examination as well as to present the student with new questions in the same general subject areas as those covered by the written exams. The oral portion should not be given until after the written examination has been evaluated by all of the committee members, but no later than two weeks after completion of the written portion. The orals must be passed by simple majority vote of the advisory committee. In case of failure, the student may be allowed to retake all or part of the oral examination at the discretion of his/her advisory committee. If the Graduate Faculty Representative (GFR) was chosen to provide specific expertise to support the student's graduate program, the GFR should participate in both the written and oral portions of the Comprehensive Examination.

### **9. Dissertation**

Every student working toward the Ph.D. degree must submit a dissertation embodying the

results of original and creative research. The dissertation must demonstrate the student's ability in independent investigation and must be an original contribution to scientific knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions.

The form and style of the dissertation should comply with the format prescribed by the national- or international-level journal(s) in which the student intends to publish the material and must meet the requirements of "Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects," which is available from the Graduate School. Within the framework of these constraints, however, the format of the dissertation can vary, ranging from a series of stand-alone chapters to a single, comprehensive unit. In the former case, a preface that explains the overall layout should be included. After the dissertation has been approved for format and content by the major professor, and at least two weeks before the date of the final examination, the student must deliver a copy of the dissertation to each member of the Advisory Committee.

#### **10. Dissertation Defense**

The student's Advisory Committee, including the GFR, will conduct the final examination of the dissertation. The final defense must be completed at least two weeks before the date set for the commencement exercises at which the student expects to obtain a degree. Students are required to give a departmental seminar on the dissertation immediately preceding the final defense, and the student is required to publicize the seminar at least one week in advance (i.e., notice in the Departmental Newsletter and notices posted in the Life Sciences Building).

The examination is concerned primarily with the student's research as embodied in the dissertation, but it may be broader and extend over fields of study related to the dissertation. The final examination is entirely oral and is open to faculty invited by the advisor, Department Chair, or Dean of the Graduate School. Committee members may ask questions, and those visitors specifically invited to do so by mutual agreement of the student's Advisory Committee and the Dean of the Graduate School may also ask questions. A majority of the examining committee must approve the dissertation and the final defense.

## **Doctor of Philosophy (Ph.D.) in Microbiology**

The degree of Doctor of Philosophy is granted for proven ability, independent investigation, and scholarly attainment in a special field. Although it is primarily a research degree and is not granted solely on the completion of a certain number of credits, there are specific course requirements that must be met. The training of a Ph.D.-level Microbiologist is based on a strong foundation in Mathematics, Chemistry, Genetics, Molecular Biology, and Biochemistry in addition to extensive coursework in the various disciplines within the field of Microbiology. This base is built upon advanced course work in the major sub-disciplines of Microbiology (Molecular Biology, Biochemistry and Physiology, Genetics, Biotechnology, Virology, Industrial and Environmental Microbiology, and Medical Microbiology) as the student focuses his/her area of interest.

### **Admission Requirements**

Application to the Ph.D. program in Microbiology requires (1) at least a 3.0 grade point average (GPA) for all upper division credits taken in the previous degree program, (2) scores in the 35th percentile or higher on the verbal and quantitative sections of the Graduate Record Exam (GRE), (3) submission of scores for the GRE Biology or Biochemistry subject area exam, and (4) completed application forms for the Graduate School and Department of Biological Sciences, including three letters of recommendation. Scores in the verbal, quantitative, and analytical sections of the GRE must be submitted before entrance can be considered. International students may be accepted without GRE scores, with the requirement that they take the GRE during their first semester in residence. Individuals for whom English is a second language must meet the Graduate School minimal TOEFL score.

Applicants who do not meet the minimum GPA and/or GRE requirements may be admitted under "Classified (w/PR)" status. The conditions of acceptance will be specified on the applicant's Approval for Admission to Graduate School form. In some cases, students may be required to retake the GRE during their first semester in residence. Students admitted under "Classified (w/PR)" status because of low/missing GRE scores will be transferred to "Classified" status if new GRE scores that meet the minimal requirement are submitted. Failure to meet the minimum GRE standards during the first year of residence may result in expulsion from the program. Students under

"Classified (w/PR)" status must petition the Graduate Programs Committee for transfer to "Classified" status after a year of graduate work and successful remediation of any deficiencies in coursework or GRE scores. This petition will include a recommendation from the student's Advisory Committee signed by the research advisor. Continuation in the Microbiology Ph.D. program is contingent upon approval of transfer to "Classified" status. In rare cases, the Graduate Programs Committee may grant approval for a student to remain on "Classified (w/PR)" status for a second year. Any student with "Classified (w/PR)" status who has not been approved for transfer to "Classified" status by the end of his/her second year will be dismissed from the program. Acceptance into the Microbiology Ph.D. program must be approved by the Microbiology Graduate Program committee.

For applicants who hold only a Bachelor's degree, acceptance into the Microbiology Ph.D. program requires a minimum of a 3.0 GPA for all undergraduate work, scores in the 50th percentile or higher on the verbal and quantitative sections of the GRE, and submission of scores for the GRE Biology or Biochemistry subject area exam. No waiver of GRE scores is allowed except in the case of students for whom English is a second language who receive a lower verbal GRE score; these individuals must meet the Graduate School minimal TOEFL score. The application must include three letters of recommendation. The application must be approved by the Departmental Microbiology Program Committee.

Students in the Microbiology or Biology M.S. program may be permitted to change to the Microbiology Ph.D. program with approval of the Microbiology Graduate Program Committee. Application for change must include 1) a letter from the student that provides a rationale for the status change and 2) a letter of support from the research advisor.

### **Prerequisites**

The following courses are recommended for the Microbiology Ph.D. program. It is expected that applicants to the program will have a broad background in Biology, and will have completed coursework at the undergraduate level in the following areas:

- 1 semester of Calculus (Calculus through Multivariable Calculus recommended)
- 1 year of General Chemistry
- 1 year of Organic Chemistry
- 1 year of Physics

- 1 semester of Quantitative Analysis, Analytical Chemistry, or Inorganic Chemistry
- 1 semester of Statistics or equivalent
- Genetics
- General Microbiology

The Microbiology Ph.D. program will be tailored to the requirements of the student's program of study (as determined by the student's Advisory Committee), and will include coursework to rectify any deficiencies as determined by the Microbiology Graduate Program Committee. Deficiencies will be made up in the first year of study.

### Graduate Coursework in the Microbiology Ph.D. program

The intent of the Microbiology Ph.D. program is to produce scientists with a broad background in the major sub-disciplines of Microbiology, while ensuring focused study in their major field of interest. The student's Graduate Advisory Committee will direct the student to specific course offerings within the Department and University to satisfy coursework guidelines. The three core areas in the Microbiology Ph.D. program are:

- Biochemistry, Genetics, Molecular Biology, and Physiology of Microorganisms
- Immunology, Virology, and Medical Microbiology
- Microbial Ecology and Applied, Industrial, and Environmental Microbiology

Students in the Microbiology Ph.D. program will take at least 30 credits of formal graduate coursework (at least 15 credits will be at the 6600-level). The following courses are NOT to be considered part of this 30 credits of formal graduate coursework: BIOL 5581-5582 Independent Problems; BIOL 6648 Graduate Problems; BIOL 6650 Thesis; BIOL 8850 Doctoral Dissertation. Six credits will consist of BIOL 6695 Graduate Seminar in Microbiology. Six credits of courses will be taken in each of the three Microbiology core areas (18 credits total). The remaining 6 credits will be taken in any one of the three core areas or in subject areas recommended by the student's Advisory Committee. It is expected that students in the Microbiology Ph.D. program will complete the majority of their coursework by the end of their 4th semester (or equivalent) in the program. Students in the Microbiology Ph.D. program may be required to take other courses (as determined by recommendation of

the student's Graduate Advisory Committee). The 6 credits of Graduate Seminar in Microbiology may be taken at any time during the student's residence in the Microbiology Ph.D. program, but it is recommended that the student start taking Graduate Seminar no later than their 5th semester (or equivalent) in the program. The specific course list for each student will be determined by the student's Graduate Advisory Committee based on the criteria outlined in this document. Students who have already received an M.S. degree may transfer 9 credits of graduate level work, providing a grade of "B" or higher was earned. Transfer of credits is subject to approval by the Graduate Programs Committee. Specific course requirements include:

BIOL 6695 Graduate Seminar in Microbiology	6 cr
Microbiology Core Area Courses (6 credits in each area)	18 cr
Advisory Committee recommended Courses	6 cr minimum

### Residency Requirements

The equivalent of at least four years of full-time study (minimum of 75 graduate credits) is required and the research upon which it is based should compose a substantial portion of the program and involve original work. Part of the work may be completed elsewhere with the approval of a student's Advisory Committee, but two consecutive regular semesters of full-time study must be taken in residence at this university.

### Advisory Committee

The student's Advisory Committee will consist of the graduate research advisor and (at least) three additional members of the graduate faculty who are chosen by the student in consultation with the research advisor. It is the student's responsibility to contact members of the faculty to ascertain their willingness to serve. The Advisory Committee may include individuals from other departments or persons from outside the University who hold affiliate rank in the Department, with the approval of the Dean of the Graduate School, but the majority of any committee must consist of regular departmental faculty.

The final member of the student's Advisory Committee is a Graduate Faculty Representative (GFR) from outside the Department who is appointed by the Dean of the Graduate School. The Dean will automatically appoint a GFR to participate in the defense of the dissertation if one has not been appointed before that time. However, it has been traditional for the GFR to be an active member of the Advisory Committee who participated in committee meetings and the Comprehensive Examination. In such cases, the student must submit a request in writing to the Dean of the Graduate School that a particular individual be appoint-

ed. The GFR must be a member of the Graduate Faculty of Idaho State University.

### Comprehensive Examination and Research Proposal Seminar

Before submission of the final program of study, the student must pass a Comprehensive Examination intended to test his/her knowledge of the relevant sub-disciplines within the field of Microbiology that pertain to the dissertation research project(s). The student will be admitted to this examination when the student is considered by his/her Advisory Committee to be adequately prepared. This is to be interpreted as allowing the student to take the Comprehensive Exam, even though some courses remain to be taken for the completion of the student's program of study. The Comprehensive Examination should be taken following the 2nd semester (or equivalent) of residence in the Microbiology Ph.D. program, and prior to the end of the student's 5th semester (or equivalent) in the program. Several months (3 to 6) prior to the intended date for examination, the student should meet with his/her Advisory Committee to seek approval to schedule the exam. If approval is given, the student may at that time ascertain from the committee which topical areas will be covered and which committee member will be responsible for each. Students should meet individually with committee members to determine more specifically what materials will be pertinent and how to prepare for the exam. The examination will consist of a written and an oral portion, which will be administered during a closed session following the student's public Research Proposal Seminar. Both portions must be passed satisfactorily in order to complete the comprehensive requirements.

The written portion of the Comprehensive Exam should not be less than 25 hours nor more than 40 hours of actual writing time. Normally the written exams will be completed within the span of one week. The written portion of the Comprehensive Examination generally will involve the student applying the knowledge gained through graduate coursework and readings suggested by the Advisory Committee. The examination will consist of five sections, each meant to be answered by a five-hour essay. The specific topic areas covered will be determined by the student's Advisory Committee. Grading on the written portion will be on a Pass/Fail basis with four of the five sections graded satisfactory required for a Pass. If the student fails two or more sections of the written portion of the exam, the student's Advisory Committee will convene to determine if the student will be allowed to remain in the program. The student's Advisory Committee may recommend one of three options: dismissal from the program; transfer

from the Microbiology Ph.D. program to the Microbiology M.S. program; or re-examination of the failed sections of the written exam. Failed sections may be repeated once, at a time designated by the student's Advisory Committee, but within a year of the original examination. If a student has not passed all the written sections after repeating the failed sections once, that student will be dismissed from the program. The completed and graded written portion of the Comprehensive Exam is to be deposited in the student's department file.

Students pursuing the Microbiology Ph.D. are required to present a Seminar based on their Research Proposal to the Department of Biological Sciences prior to the end of their 5th semester (or equivalent) in the program. The seminar will be given during a scheduled meeting time of the Graduate Seminar in Microbiology (BIOL 6695) and will be considered part of the course requirements for that student. The purposes of Research Proposal Seminar is to assess the student's potential for graduate study at the doctoral level, to determine areas in which the student shows strength or weakness, and to assess the student's ability to assimilate, evaluate, and synthesize subject matter. Immediately after the seminar, the student will meet in closed session with his/her Advisory Committee to review and critique the Research Proposal Seminar and the written portion of the Comprehensive Exam. This will qualify as the oral portion of the Comprehensive Exam.

The purpose of the oral portion of the examination following the Research Proposal Seminar is to provide an opportunity to clarify and explore further implications of the written examination as well as to present the student with new questions in the same general subject areas as those covered by the written exams, but it can also cover other areas that are relevant to the student's graduate program. The oral portions should not be given until after the written examination has been evaluated by all of the committee members, but no later than four weeks after completion of the written portion. The student must pass the written portion of the Comprehensive Exam prior to taking the oral portion of the Comprehensive Exam. The oral exam must be passed by simple majority vote of the Advisory Committee. Once a student has passed both the written and oral portions of the Comprehensive Exam, the student will be admitted to Candidacy in the Microbiology Ph.D. program. When the student has passed both written and oral portions of the Comprehensive Exam, the Advisory Committee should finalize and approve the student's Final Program of Study. The Advisory Committee may recommend additional coursework to strengthen the student's back-

ground in areas in which the student was considered weak. In case of failure, the student may be allowed to retake all or part of the oral examination at the discretion of his/her Advisory Committee. If a student fails the oral exam a second time, that student will be dismissed from the program.

### Doctoral Dissertation

Every student working toward the Microbiology Ph.D. degree must submit a dissertation embodying the results of original and creative research. The dissertation must demonstrate the student's ability in independent investigation and must be a contribution to scientific knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and a creative discussion of the conclusions. Students may register for dissertation credit only after completion of all formal course work.

After the dissertation, in substantially final form, has been approved for format and content by the research advisor, and not later than two weeks before the date of the final examination, the student must personally deliver a copy of the dissertation to each member of the Advisory Committee.

### Final Examination

The final examination of the dissertation will be conducted by the student's Advisory Committee including the GFR. Students are required to give a departmental seminar on the dissertation immediately preceding the final examination. The examination is concerned primarily with the student's research as embodied in the dissertation, but it may be broader and extend over fields of study related to the dissertation. Questions may be asked by committee members and those visitors specifically invited to do so by mutual agreement of the student's Advisory Committee and the Dean of the Graduate School. A majority of the examining committee must approve the dissertation and the final examination

## Doctor of Arts (D.A.) in Biology

The Doctor of Arts degree in Biological Sciences is granted for proven ability and scholarly attainment in biological science instruction. The program stresses preparation for undergraduate teaching at colleges and universities and the development of research abilities that complement instruction at the college level. The program is concerned with the development of the candidate as a biologist, a scholar, and a professional educator. The program is designed to provide the student with a broad background in the biological sciences, the

ability to conduct and interpret research, and excellent pedagogical skills.

### Goals

All D.A. students must demonstrate:

1. a broad background in the biological sciences and an understanding of scientific inquiry;
2. the ability to synthesize concepts of biology and to effectively communicate these concepts;
3. the ability to conduct, analyze, and critique research in biological sciences and biological sciences instruction;
4. the ability to integrate current biological and educational research into their teaching;
5. an understanding of the history and philosophy of science and the impact of contemporary science on society;
6. expertise with teaching strategies appropriate for a variety of teaching and learning environments, including undergraduate research;
7. strong content knowledge in three of the departmental core coursework areas and competency in the remaining three core areas;
8. a well-developed philosophy of education.

### Doctor of Arts Fellowships

Students admitted to the program with Fellowship Support can anticipate three years of support, contingent upon satisfactory performance toward their degree. Typically, provisions will be made for a fourth year of support, but the student and his/her major advisor must submit a letter to the departmental Graduate Programs Committee requesting an extension of support and provide a rationale and timeline toward completion of the degree.

### Master's Degree Requirement

All applicants for the program must have completed a Master's degree prior to entrance into the program. If a student enters the program without having completed a Master's-level thesis or research paper in biology or a related science, he/she must complete this requirement in addition to the degree requirements or design a dissertation project that incorporates biological research as a major component. This additional requirement may increase the length of time in the program and may limit the flexibility of the degree.

### Diagnostic Examination

Incoming D.A. students are required to take an oral diagnostic examination. The purpose of the examination is to assess the student's potential to become an effective instructor by examining the depth of his/her background in

biological science and communicative skills. The examination is meant to be primarily diagnostic, and the results are used by the student's Advisory Committee to help plan the Program of Study. The examination covers six core conceptual areas of biology (Cell Biology, Genetics, Ecology, Evolution, Physiology, Organismal Biology) and knowledge of pedagogy. The purpose of the oral examination is to validate the results of the Biology GRE and the coursework listed on the student's transcript, and to observe the student's oral communicative skills.

The oral examination is conducted no later than six weeks after the beginning of the first semester of the student's program (exception: for students taking the Biology subject GRE in November of their first semester, the oral exam may be delayed until the end of the student's first semester). The oral examining committee is appointed by the Chair of the Graduate Programs Committee. After completion of the examination, the oral examining committee will submit suggestions to the student and his/her Advisory Committee for planning the Program of Study. Normally, the student, in conjunction with the committee, will select three of the core areas to emphasize, however a student must demonstrate competency in the remaining three areas as well.

Although the diagnostic examination is used primarily for advising purposes, if the student's performance is generally unsatisfactory, the oral examining committee will select one of the following options: (1) the student may continue in the program but with certain specified additional requirements, (2) the student may take a second oral examination the following semester, or (3) the student will not continue in the program. If the performance on the second oral examination is unsatisfactory, the student will be dismissed from the program.

### Advisory Committee

Graduate programs in the Department of Biological Sciences are directed by Advisory Committees selected by the student, in consultation with their advisor. The committee will consist of at least four faculty members, plus a Graduate Faculty Representative (GFR). At least three faculty must be from the Department of Biological Sciences, and at least two committee members should have expertise in the core areas of coursework chosen by the student.

### Coursework Requirements

The D.A. degree program requires a minimum of 48 semester credits beyond the Master's degree. A program of coursework is estab-

lished jointly by the student and his/her committee. The program should reflect previous coursework, previous teaching experiences, results of the diagnostic examination, the interests and professional goals of the student, and the goals of the D.A. in Biological Sciences instruction as previously listed in this document. All D.A. students are required to take Advanced Studies in College Teaching (4 credits) and a minimum of two Seminars in College Teaching (4 credits). D.A. students are encouraged to participate in topical seminars, professional organizations, grant writing, and to submit their work to education and scientific journals.

### Internship Requirements

Internships are a very important part of the D.A. program. Each internship should be a rigorous, thoroughly planned pedagogical activity that provides an opportunity for development of skills in traditional and innovative teaching methods and for utilizing techniques, etc. developed during the program. Students must follow the Guidelines for the Supervised Teaching Internships. The internship requirement is flexible to accommodate the needs of each student.

Written proposals for each internship must be discussed and approved by the student's committee before the internship begins. Exact procedures for evaluating the internship will depend on the nature of what is done and where it occurs. However, evaluation is considered to be an integral and important part of the internship, and students must develop an evaluation system in concert with the internship supervisors. It is expected that this evaluation will at least include provisions for substantive feedback from students, the major advisor, committee members, and supervising faculty. Students must complete an internship report within one semester of teaching.

Typically, students will be expected to focus on coursework and their scholarly research during their first two semesters in residence, and not begin internships until after their second or third semester in the program. Internships must be completed prior to the last semester of residency. A minimum of 9 credits of internship are required, but no more than 16 can be counted toward the degree. A comprehensive report of each internship, including evaluation, must be submitted to the student's committee prior to the final seminar and examination. This comprehensive internship report should be prefaced by a Statement of Teaching Philosophy. A copy of this report will be retained separately in the student's departmental file unless it is part of the dissertation.

### Dissertation Proposal and Defense

During the first three semesters in residence, the student will prepare a written dissertation proposal. The dissertation can be designed to include multiple components such as:

- biological research;
- application of biological research to the classroom;
- pedagogical research related to biological sciences instruction at the college level;
- assessment of student learning;
- in-depth analysis and evaluation of internship teaching;
- multi-media or other curricular development, use, and evaluation;
- conducting research and involving undergraduates in such research, and evaluating the efficacy of such involvement.

The written proposal will include: (1) a survey of the literature to develop a rationale for the research, (2) a statement of the problem(s) or hypothesis(es) to be addressed, (3) detailed descriptions of methods including the experimental design and planned statistical analyses, (4) preliminary data (optional, but strongly encouraged), (5) a time line, (6) a bibliography, and (7) a budget (optional).

When the research proposal has been approved by the major professor and the remainder of the Advisory Committee, the student will prepare and present a one-hour seminar on the proposed research to the Department. This presentation will occur no later than the end of the student's third semester in residence. Immediately after the seminar, the student will be given an oral examination by his/her Advisory Committee. This examination will focus on the proposed research. The student's Advisory Committee will evaluate the student's performance and may (1) admit the student to further work toward the D.A., (2) recommend that the student revise the proposal and/or improve her/his background before attempting to continue graduate work, (3) recommend limitation of the program to the M.S. degree, or (4) in rare cases, recommend dismissal from the graduate program. In the event of the first two decisions, the committee will provide the student with specific recommendations or requirements. In the case of the second decision, the committee also will schedule a second evaluation after not less than one semester.

Once the student has successfully defended the research proposal, the student is advanced to candidacy.

### Comprehensive Examination

The comprehensive examination consists of a written and an oral portion. The written examination tests the student's knowledge of the core areas of biology and the topics covered in the education seminars. Depth and breadth of the examination on these topics should be commensurate with the recommendations from the diagnostic examining committee, and the three selected core areas as represented in the student's program of study. The oral examination assesses the student's capability to communicate answers effectively and areas of weakness indicated by the written examination.

Each member of the student's committee will submit a section of the examination on which the student will be expected to write for 4 to 6 hours. Each committee member will individually determine whether the student passed his/her section of the examination; the student must pass at least 75% of these sections. If the written examination is not passed, the committee may recommend that the student not proceed further in the program, or that the student re-take those portions of the written examination that were not passed.

The oral examination should be scheduled within two weeks of satisfactory completion of the written examination. Failure to pass the oral examination can result in the recommendation that the student not proceed further in the program, or that the oral examination should be re-taken at a later date. Failure to pass the comprehensive examination twice results in automatic termination from the program.

### Doctoral Dissertation

Every student working toward the D.A. degree must submit a dissertation embodying the results of original and creative research. The dissertation must demonstrate the student's ability in independent investigation and must be a contribution to scientific or science education knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions.

The form and style of the dissertation should comply with the format prescribed by the journal in which the student intends to publish the material and must meet the requirements of "Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects,"

which is available from the Graduate School. Within the framework of these constraints, however, the format of the dissertation can vary, ranging from a series of stand-alone chapters, to a single, comprehensive unit. In the former case, a preface that explains the overall layout should be included. After the dissertation has been approved for format and content by the major professor, and not later than two weeks before the date of the final examination, the student must deliver a copy of the dissertation to each member of the Advisory Committee (including the GFR).

### Dissertation Defense

The student's Advisory Committee, including the GFR, will conduct the final examination of the dissertation. The final defense must be completed at least two weeks before the date set for the commencement exercises at which the student expects to obtain a degree. Students are required to give a departmental seminar on the dissertation immediately preceding the final defense. The examination is concerned primarily with the student's research as embodied in the dissertation, but it will also include the Teaching Internships. A majority of the examining committee must approve the dissertation and the final defense.

## Master of Science (M.S.) in Biology

A program of study leading to the Master of Science (M.S.) Degree is designed to enable students to develop an advanced understanding of the biological sciences and the capability to teach or conduct biological research. Programs are flexible and can be tailored to satisfy the professional and personal needs of each student.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following department requirements. Acceptance to an M.S. program is contingent upon a biology faculty member agreeing to serve as the applicant's advisor. Students interested in pursuing an advanced degree in the biological sciences at Idaho State University are encouraged to contact the faculty member(s) with whom they wish to study, prior to making formal application to the department. Applicants must have at least a 3.0 GPA for all upper-division credits taken in the previous degree program. Scores on the verbal, quantitative, and analytical portions of the GRE must be submitted.

Certain courses are prerequisite for admission

to the M.S. degree program, and any student who has not met these requirements through previous course work must take them as part of his/her M.S. program. These courses are:

1. One semester of calculus
2. One year of inorganic chemistry
3. One semester of organic chemistry
4. One semester of physics
5. Six additional credits in physics, chemistry, or mathematics that differ from those courses listed in 1-4 above

Note: Because these are undergraduate courses, these credits do not count toward the 30-credit hour requirement for the M.S. degree.

### General Requirements

A substantial, original research project is required that culminates in a written thesis and oral presentation of the findings at a Biological Sciences department seminar. A minimum of 30 credits (including research and thesis) are required in graduate courses and seminars that provide mastery in core conceptual areas in the biological sciences.

The core areas for the M.S. in Biology are:

1. genetics and evolution
2. animal or plant physiology
3. cell biology, biochemistry, or molecular biology, and
4. ecology or morphology

Students may gain expertise in the core areas through a variety of mechanisms, including graduate courses, seminars, special projects, or readings. Although there are no specific credit hour requirements for the core areas, it is expected that the total effort expended in each area would be at least equivalent to that required in a rigorous course in that subject area, and that any credits earned as part of the graduate program will be at the graduate level (i.e., at the 5500-level or above). The credit hours earned in such classes will count toward the 30-credit requirement for the degree.

The ability to utilize a research tool is required, which can be satisfied by taking classes in biometry, microscopy, or a related field outside the biological sciences, such as geology, engineering, economics, or computer science. Graduate credits that satisfy the tool requirement count toward the 30-credit requirement for the degree.

## Specific Requirements for the M.S. Degree

Of the required 30 credits for the M.S. degree, at least 15 credits must be earned at the 6600-level, which include:

BIOL 6648 Graduate Problems	1-4 cr
BIOL 6650 Thesis	1-6 cr
BIOL 6691 and 6692 Graduate Seminars	2 cr

In addition, all M.S. students must take a statistics course approved by their graduate committee.

Note: A student may take an unlimited number of credits of BIOL 6650 and BIOL 6648, although a maximum of only 6 credits of BIOL 6650 and 4 credits of BIOL 6648 may be counted toward the required 30 credit hours for the degree.

## Advisory Committee

The Advisory Committee consists of a minimum of three faculty members who are members of the Idaho State University graduate faculty. The student, in consultation with the major advisor, selects at least one additional faculty member from the Department of Biological Sciences. An additional faculty member from outside the Department of Biological Sciences, designated as the Graduate Faculty Representative (GFR), also must serve on the committee. The GFR is appointed by the Dean of the Graduate School, who is open to recommendations from the major advisor. The GFR need only participate in the thesis defense, but may be involved throughout the student's program. The initial committee meeting should be held during the first semester of the student's graduate program.

## Written Proposal, Proposal Seminar, and Proposal Defense

M.S. students are required to present a seminar on their proposed thesis research in the first year of their program. The purpose of this proposal seminar is to have each student develop and present formal statements of the objectives (hypotheses), design, and importance of their proposed research. Students must submit an abstract to the seminar organizer at least one week prior to their presentation. Students also must write a research proposal and have the proposal approved by the Advisory Committee by the end of the semester in which they present. This proposal will: (1) be at least 5 pages in length, with citations appended, (2) address comments that resulted from the seminar presentation, and (3) be retained in the student's departmental file.

## Thesis, Thesis Seminar, and Thesis Defense

Each M.S. applicant must submit a thesis embodying the results of original and creative research. The thesis must demonstrate the student's ability in scientific investigation. The thesis must include a comprehensive review of literature on the topic, and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion of the conclusions. The form and style of the thesis should comply with the format prescribed by the national- or international-level journal in which the student intends to publish the material and must meet the requirements of "Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects," which is available from the Graduate School. Within the framework of these constraints, however, the format of the thesis can vary in the number and arrangement of chapters.

Following completion of the written thesis, the student will present the research findings in a seminar. The thesis presentation will be followed by an oral defense conducted by the Advisory Committee. The student is responsible for scheduling the defense with the Graduate School and advertising the thesis seminar, with notices posted in the Life Sciences Building and in the Department newsletter, at least one week in advance of the seminar date. After the thesis has been approved for format and content by the major professor, and not later than two weeks before the date of the final examination, the student must deliver a copy of the thesis to each member of the Advisory Committee.

Please refer to [http://www.isu.edu/graduate/pdf/Thesis\\_Dissertation\\_Instructions.pdf](http://www.isu.edu/graduate/pdf/Thesis_Dissertation_Instructions.pdf) for the manual, Instructions for Preparing Theses, Dissertations, Doctor of Arts Papers, and Professional Projects, for thesis clearance instructions.

## Master of Science (M.S.) in Microbiology

The intent of the Microbiology M.S. program is to produce scientists with the ability to conduct independent research and to be fluent in the scientific literature. As a terminal degree, the Master of Science in Microbiology qualifies students for technical research positions in academia, industry and government research facilities. It also prepares students to progress into doctoral programs in Microbiology and related areas.

## Admissions

Acceptance to the Microbiology M.S. program requires that a faculty member agree to serve as the candidate's advisor. Candidates must have at least a 3.0 GPA for all upper division credits taken in the previous degree program. Scores in the verbal, quantitative, and analytical portions of the GRE must be submitted; scores in the 35th percentile or higher are required on the verbal and quantitative portions of the GRE. If either the GPA or GRE requirement is not met, the Microbiology Graduate Programs Committee may choose to admit the candidate to "Classified (w/PR)" status.

## Prerequisites

It is expected that applicants to the program will have a broad scientific background, and will have completed coursework at the undergraduate level in the following areas:

- 1 semester of Calculus (Calculus through Multivariable Calculus recommended)
- 1 year of General Chemistry (+lab)
- 1 year of Organic Chemistry (+lab)
- 1 year of Physics (+lab)
- 1 semester of Quantitative Analysis, Analytical Chemistry, or Inorganic Chemistry (+lab)
- 1 semester of Statistics
- Genetics (lab recommended)
- General Microbiology (+lab)

The Microbiology M.S. program will be tailored to the requirements of the student's program of study (as determined by the student's Advisory Committee), and will include coursework to rectify any deficiencies as determined by the student's Advisory Committee.

Coursework taken at the undergraduate level to satisfy deficiencies does not count toward the graduate degree; however, such coursework must appear on the student's Planned Program of Study. Coursework taken at the undergraduate level to satisfy deficiencies must be taken for letter grades and the grades earned must be "C" or better.

## Graduate Coursework in the Microbiology M.S. program

The M.S. program requires a substantial, original research project that culminates in a thesis; a minimum of 30 credits (including research and thesis) earned in graduate courses and seminars and expertise in one or more conceptual areas of the major sub-disciplines of Microbiology. The student's Advisory Committee will direct the student to specific course offerings to satisfy the coursework guidelines.

The three core areas in the Microbiology M.S. program are:

- Biochemistry, Genetics, Molecular Biology, and Physiology of Microorganisms
- Immunology, Virology, and Medical Microbiology
- Microbial Ecology and Applied, Industrial, and Environmental Microbiology

Thirty total graduate credits approved by the Microbiology Graduate Programs Committee and the Graduate School are required to complete the Microbiology M.S. degree program. At least 15 of these credit hours must be earned at the 6600 level. Students must take a minimum of 3 credits of BIOL 6648 and 3 credits of BIOL 6650. During the second semester of their first year in the program, students in the Microbiology M.S. program will present their research proposal in a public forum as part of BIOL 6695 Graduate Seminar in Microbiology. Students in the Microbiology M.S. program will also take 2 additional credits of Graduate Seminar in Microbiology (BIOL 6695).

Course requirements include:

BIOL 6610 Principles of Molecular Biology	3 credits
BIOL 6648 Graduate Problems	minimum 3 credits
BIOL 6650 Thesis	minimum 3 credits
BIOL 6695 Graduate Seminar in Microbiology	3 credits
Other course work	6 credits

### Advisory Committee

The Advisory Committee consists of a minimum of three members of the Idaho State University Graduate Faculty, including a Graduate Faculty Representative (GFR). The student, in consultation with the major advisor, selects at least one additional faculty member with expertise related to the student's research area. At least one of the advisory committee must be a member of the Microbiology Graduate Programs Committee. The GFR is appointed by the Dean of the Graduate School, who is open to recommendations from the major advisor. The GFR need only participate in the thesis defense, but may be involved throughout the student's program. The initial committee meeting should be held during the first semester of the student's graduate program.

### Written Proposal, Proposal Seminar, and Proposal Defense

During the second semester of the first year in the program, Microbiology M.S. students must submit a research proposal to the student's Advisory committee two weeks prior to a formal seminar presentation of the proposed research. This proposal will: (1) be at least 5 pages in length, with citations appended, (2) be retained in the student's departmental file. Students will present a seminar on their pro-

posed thesis research as part of BIOL 6695. At least one week prior to the seminar, students must submit an abstract to the seminar organizer. Immediately following the proposal seminar, the student will defend the proposal in a closed session with their Advisory Committee. A revised proposal addressing questions raised at the defense must be approved by the advisory committee by the end of the semester in which the seminar was given.

### Thesis, Thesis Seminar and Thesis Defense

Each Microbiology M.S. applicant must submit a thesis embodying the results of original and creative research. The thesis must demonstrate the student's ability in scientific investigation. The thesis must include a comprehensive review of the literature on the topic, and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and creative discussion on the conclusions. The form and style of the thesis should comply with the format prescribed by the national or international-level journal in which the student intends to publish the material and must meet the requirements of "Instructions for Preparing Theses, Dissertations, D.A. Papers, and Professional Projects," which is available from the Graduate School. Within the framework of these constraints, however, the format of the thesis can vary in the number and arrangement of chapters. After the thesis has been approved for format and content by the major professor, and not later than two weeks before the date of the final examination, the student must deliver a copy of the thesis to each member of the advisory committee.

Following completion of the written thesis, the student will present the research findings in a public seminar. The thesis presentation will be followed by an oral defense conducted by the Advisory Committee. The student is responsible for scheduling the defense with the Graduate School and advertising the thesis seminar, with notices posted in the Life Sciences Building and in the Department newsletter, at least one week in advance of the seminar date. Please refer to [http://www.isu.edu/graduate/pdf/Thesis\\_Dissertation\\_Instructions.pdf](http://www.isu.edu/graduate/pdf/Thesis_Dissertation_Instructions.pdf) for the manual, Instructions for Preparing Theses, Dissertations, Doctor of Arts Papers, and Professional Projects, for thesis clearance instructions.

### Residency Requirements

The equivalent of at least two years of full-time study is required. Part of the work may be completed elsewhere with the approval of a student's Advisory Committee, but two consecutive regular semesters of full-time study must be taken in residence at this university.

## Bachelor of Science/ Master of Science

The goal of this option is to allow academically strong students to begin work towards an M.S. degree after completing the Junior year. This will allow students to complete an M.S. degree, as well as a B.S. degree, with only one additional year in school. This option is only available to students who have demonstrated an interest in independent research before the end of the Junior year, who can meet the Biological Sciences GPA and GRE requirements for admission to the M.S. program, and who have worked with a member of the Graduate Faculty who has agreed to serve as the student's Graduate Advisor. After being accepted into the M.S. program, students who pursue this option will have to spend at least two summers doing research and/or coursework. Given its compressed timeline and academic intensity, this option is only available to students who have demonstrated a high level of academic ability.

The student will be required to complete all of the graduation requirements for a B.S. degree in the Department of Biological Sciences. That degree will be awarded when those requirements are met, typically at the end of the 4th year. In completing the graduation requirements for a B.S. degree, these students should have met all of the coursework requirements for admission to the M.S. program.

The student will be admitted Classified with Performance Requirements (w/PR) to the MS Program after completing the Junior year. Admission requires that the student meet the existing GPA requirement (at least 3.0 for the Sophomore and Junior years).

The M.S. degree will be awarded only after the student has completed all of the requirements for the M.S. program.

### Requirements

These requirements are for undergraduate students admitted to the BS/MS Option ONLY. BS/MS students are restricted to a maximum of six graduate-level credits until after completion of the B.S. degree.

Summer following Junior Year:  
BIOL 5581 Independent Problems 2 cr

Spring Semester of Senior Year:  
BIOL 6692 Seminar 1 cr

Other undergraduate and graduate credits, as required by the Department of Biological Sciences.

## Master of Natural Science (M.N.S.) in Biology

The Master of Natural Science (MNS) degree is designed to strengthen an individual's background in biological sciences for secondary school teaching or for work in nature interpretation or environmental education centers. The student must possess or be working toward a standard teaching certificate, or, under exceptional circumstances, be employed or have specific career objectives that would not require teacher certification (as approved by the Graduate Programs Committee). This degree emphasizes subject matter and is a non-thesis program. It is not designed to prepare students for a doctoral program with a research emphasis or requirement. The degree is granted upon successful completion of a minimum of 30 graduate-level credits and satisfactory performance on a comprehensive written and oral examination.

### General Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following department requirements. The MNS degree is primarily a coursework degree and therefore differs from the MS degree in Biology in several important ways. It does not require course prerequisites for admission. To complete the program, MNS students: (1) need not demonstrate breadth through coursework in each of the Core Areas, (2) are exempt from the Experimental Design/Statistics requirement, and (3) do not complete a Thesis. MNS students must meet Admission, Residency, Transfer of Credit requirements, and minimum Performance Levels.

A minimum of 30 graduate credits is required to complete the MNS degree program. Courses numbered 5500 and above, and those completed with a grade of B or better, are the only courses which may be applied toward the degree. It is expected that the courses will enhance both the breadth and depth of the student's biological content knowledge. At least 20 of the credits must be taken in Biological Sciences. Biology Teaching Methods (BIOL 5513) is strongly recommended. A proposed plan of study should be submitted to, and approved by, the student's advisory committee by the end of the first semester.

### Advisory Committee

The student must select a major advisor, and, in consultation with the advisor, select at least one additional faculty member from the De-

partment of Biological Sciences to serve on an advisory committee. Additionally, a Graduate Faculty Representative (GFR) from outside the Department of Biological Sciences must serve on the committee. The GFR is approved by the Graduate School, though students may recommend to the Dean of the Graduate School a faculty member from another department to serve as GFR. The initial committee meeting should be held in the first semester of the program. However, the GFR need only attend the final oral comprehensive examination.

### Written and Oral Comprehensive Examination

The comprehensive examination consists of a written and an oral portion. The written examination tests the student's knowledge of biological and educational topics commensurate with the student's program of study. The oral examination assesses the student's capability to communicate answers effectively to areas of weakness indicated by the written examination.

The written comprehensive examination must be completed no later than six weeks before the end of the student's last semester. Each member of the student's committee (excluding the GFR) will submit a section of the examination on which the student will be expected to write. The entire examination should be designed to require no more than 10 hours for completion. Each committee member will individually determine whether the student passed his/her section of the examination; the student must pass at least 75% of these sections. If the written examination is not passed, the committee may recommend that the student not proceed further in the program, or that the student re-take those portions of the written examination that were not passed.

The oral comprehensive examination should be scheduled within two weeks of satisfactory completion of the written examination, and no later than three weeks prior to the end of the semester. The oral examination will consist of questions posed by the student's advisory committee after they have reviewed the results of the written examination. Failure to pass the oral examination can result in the recommendation that the student not proceed further in the program, or that the oral examination be re-taken at a later date. Failure to pass the comprehensive examination twice results in automatic termination from the program.

### Biological Sciences Graduate Courses

**BIOL 5500 Oral Histology and Embryology 3 credits.** The microanatomy and formative

processes of the teeth and their surrounding structures. COREQ: BIOL 5500L.

**BIOL 5500L Oral Histology and Embryology Lab 0 credits.** Assignments to apply principles from BIOL5500. COREQ: BIOL 5500.

**BIOL 5504 Plant Physiology 3 credits.** Study of plant physiological processes including water relations, mineral nutrition, photosynthesis, respiration, translocation of photosynthate, secondary compounds and phytohormones. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**BIOL 5504L Plant Physiology Lab 1 credit.** Assignments to apply principles from BIOL 5504.

**BIOL 5505 Plant Form and Function 3 credits.** Integrated studies of anatomical and physiological adaptations of plants to their natural environment. Data collection and analysis will be emphasized. PREREQ: BIOL 102 OR BIOL 2203. COREQ: BIOL 5505L.

**BIOL 5505L Plant Form and Function Lab 1 credit.** Assignments to apply principles from BIOL 5505. COREQ: BIOL 5505.

**BIOL 5506 Plant Diversity and Evolution 4 credits.** Study of the reproduction, structure, development, evolution, and classification of the fungi, algae, bryophytes, and vascular plants. Lectures, laboratories. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5506L.

**BIOL 5506L Plant Diversity and Evolution 0 credits.** Assignments to apply principles from BIOL 5506. COREQ: BIOL 5506

**BIOL 5508 Plant Ecology 3 credits.** Major factors limiting plant growth and distribution with emphasis on adaptation and response at the individual, population, and community levels. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**BIOL 5508L Plant Ecology Lab 1 credit.** Assignments to apply principles from BIOL 5508. COREQ: BIOL 5508.

**BIOL 5512 Systematic Botany 4 credits.** Study of classification and evolution of flowering plants; techniques of phylogeny reconstruction based on molecular and morphological characters. Collection/identification of local flora. Field trips. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5512L.

**BIOL 5512 Systematic Botany Lab 0 credits.** Assignments to apply principles from BIOL 5512. COREQ: BIOL 5512.

**BIOL 5513 Biology Teaching Methods 3 credits.** Planning, teaching and evaluating teaching activities. Practical experience in methods used in science classrooms and enhancing professional development. Required for secondary education major in biology. PREREQ 16 CREDIT HOURS OF BIOLOGY AND EDUC 3302, OR PERMISSION OF INSTRUCTOR.

**BIOL 5514 Graduate Teaching Assistant Seminar 2 credits.** Introduction to college science teaching, with an emphasis on inquiry-based methods in the laboratory setting. Topics include how people learn, classroom management, professional ethics, peer evaluation of teaching. Required for all new graduate Teaching Assistants. Graded S/U.

**BIOL 5515L Human Neurobiology Lab 1 credit.** Detailed examination of the gross anatomy and pathways of the human central nervous system. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5516 Population Ecology 3 credits.** Introduces quantitative analysis of populations and communities, emphasizing demography, distribution, abundance, spatial and temporal dynamics, biodiversity, coexistence, and applications to conservation and land use decision-making. Includes data collection and analysis. PREREQ: BIOL 2209. COREQ: BIOL 5516L.

**BIOL 5516L Population Ecology 1 credits.** Assignments to apply principles from BIOL 5516. COREQ: BIOL 5516.

**BIOL 5517 Organic Evolution 3 credits.** An integrated study of evolution as a unifying concept in biology. An examination of patterns and processes that affect the origin and diversification of species through time. PREREQ: BIOL 3358.

**BIOL 5518 Ecological Topics 1 credit.** - Flexible use of seminars, lectures, and laboratory/field work dealing with current issues in ecology. Topic/emphasis varies. May be repeated until a maximum of 3 credits is earned. PREREQ: BIOL 2209 OR PERMISSION OF INSTRUCTOR.

**BIOL 5519 Mammalian Histology 4 credits.** Study of human animal tissues, including structural and functional characteristics of tissues and organs. PREREQ: BIOL 2206, BIOL 2207, OR BIOL 3303 OR BIOL 3301 AND BIOL 3302. COREQ: BIOL 5519L.

**BIOL 5519L Mammalian Histology 0 cred-**

**its.** Assignments to apply principles from BIOL 5519. COREQ: BIOL 5519.

**BIOL 5520 Musculo-Skeletal Anatomy 2 credits.** Study of human body structure emphasizing muscular system and its relationship to axial and appendicular skeleton. Focus on extremities, thorax, and pelvis with applications toward normal, diseased and rehabilitative functions. PREREQ: BIOL 3301 AND BIOL 3302.

**BIOL 5521 Ecological Concepts 3 credits.** Major concepts in ecology in relation to environmental degradation, pollution, hazardous materials, and environmental management. Credit may not be used for a graduate degree in biology.

**BIOL 5523 General Parasitology 3 credits.** Study of the parasitic symBIOLes of animals, plants and other organisms focusing on concepts, principles, and consequences of such interactions and the coevolutionary processes by which they are created. PREREQ: BIOL 1101 AND BIOL 1102.

**BIOL 5526 Herpetology 3 credits.** The biology of amphibians and reptiles: lecture topics include evolutionary history, functional morphology, physiological ecology, biogeography, reproductive, and population ecology. Laboratories and field trips cover systematic, natural history, and collecting/sampling techniques. PREREQ: BIOL 2209. COREQ: BIOL 5526L.

**BIOL 5526L Herpetology Lab 1 credit.** Assignments to apply principles from BIOL 5526. COREQ: BIOL 5526.

**BIOL 5527 Ichthyology 3 credits.** The biology of fishes; lecture topics include evolutionary history, functional morphology, physiological ecology, and biogeography. Laboratory and weekend field trips cover identification, life history and collecting techniques. Emphasis on Idaho species. PREREQ: BIOL 2209. COREQ: BIOL 5527L.

**BIOL 5527L Ichthyology Lab 1 credit.** Assignments to apply principles from BIOL 5527. COREQ: BIOL 5527.

**BIOL 5528 Medical Parasitology and Entomology 3 credits.** Study of animal parasites, with an emphasis on protists, helminths and arthropods affecting human health and welfare by their presence or indirectly via pathogens they transmit. PREREQ: BIOL 1101 AND BIOL 1102. COREQ: BIOL 5528L.

**BIOL 5528L Medical Parasitology and Entomology 0 credits.** Assignments to apply principles from BIOL 5528. COREQ: BIOL 5528.

**BIOL 5529 Regional Anatomy and Histology 4 credits.** Regional approach to gross human anatomy emphasizing the use of projected materials and microscopic anatomy. Designed primarily for students in the Physician Assistant Program. PREREQ: BIOL 301, BIOL 302. COREQ: BIOL 5529L.

**BIOL 5529L Regional Anatomy and Histology 0 credits.** Assignments to apply principles from BIOL 5529. COREQ: BIOL 5529.

**BIOL 5531 General Entomology 3 credits.** Study of structure, development, classification, and life histories of insects, including ecological, economic and management considerations. An insect collection may be required. Field trips. PREREQ: BIOL 101 AND BIOL 102. COREQ: BIOL 5531L.

**BIOL 5531L General Entomology Lab 1 credit.** Assignments to apply principles from BIOL 5531. COREQ: BIOL 5531.

**BIOL 5532 Biochemistry 3 credits.** Comprehensive discussion/presentation of structure, function and metabolism of biological macromolecules and their constituents, including energetics, regulation, and molecular biology, with emphasis on critical analysis of biochemical issues PREREQ: Organic Chemistry or Introduction to Biology OR PERMISSION OF INSTRUCTOR.

**BIOL 5533 Microbial Physiology 3 credits.** Comparative physiology of microorganisms, including structure/function, metabolic diversity, enzyme mechanisms of microbial metabolism, and physiology of extreme organisms. Lectures, Class Exercises. PREREQ: Microbiology OR PERMISSION OF INSTRUCTOR. COREQ: BIOL 5533L.

**BIOL 5533L Microbial Physiology Lab 1 credit.** Laboratory exercises in comparative physiology of microorganisms. COREQ: BIOL 5533.

**BIOL 5534 Microbial Diversity 3 credits.** Enrichment, cultivation, and isolation of prokaryotes from various metabolic groups and environments. Microorganisms will be identified using classical microbial techniques and modern molecular methodologies. PREREQ: Microbiology and BIOL 5533 OR PERMISSION OF INSTRUCTOR. COREQ: BIOL 5534L.

**BIOL 5534L Microbial Diversity Lab 1 credit.** Enrichment, cultivation and isolation of prokaryotes from various metabolic groups and environments. COREQ: BIOL 5534.

**BIOL 5535 Vertebrate Paleontology 4 - credits.** Phylogenetic history of the vertebrates outlined in the light of morphology, classification, evolution, paleoecology, and the significance of fossils. Field trips. Cross-listed as GEOL 5535. PREREQ: GEOL 5531 OR BIOL 3314 OR EQUIVALENT.

**BIOL 5537 Experimental Biochemistry 1 credit.** Laboratory course including both qualitative and quantitative experiments. Cross-listed as CHEM 5538. PREREQ or COREQ: BIOL 5532 or BIOL/CHEM 5545.

**BIOL 5538 Ornithology 4 credits.** Study of the origin, evolution, structure, habits, adaptations, distribution, and classification of birds. Field trips. PREREQ: BIOL 1101 AND BIOL 1102.

**BIOL 5539 Principles of Taphonomy 3 credits.** Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed with ANTH 5539 and GEOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5540 Human Gross Anatomy 4 - credits.** Comprehensive regional study of gross human anatomy with emphasis on the upper limb, thorax, abdomen, pelvis and perineum. Designed for the first year dental students and complements BIOL 5550. Lecture and laboratory. COREQ: BIOL 5540L.

**BIOL 5540L Human Gross Anatomy 0 credits.** Assignments to apply principles from BIOL 5540. COREQ: BIOL 5540.

**BIOL 5541 Mammalogy 3 credits.** General study of mammals including classification, identification, habits, ecology, economics, and techniques of study, with emphasis on North American forms. Field trips. PREREQ: BIOL 2209. COREQ: BIOL 5541L.

**BIOL 5541L Mammalogy Lab 1 credit.** Assignments to apply principles from BIOL 5541. COREQ: 5541.

**BIOL 5542 Plant-Animal Interactions 3 credits.** Coevolution of plant and animal form and function emphasizing pollination, herbivory, parasitism, frugivory/seed dispersal, and optimal foraging.

**BIOL 5543 Endocrinology 3 credits.** Study of the anatomy and physiology of the ductless glands and the properties and uses of natural and synthetic hormones. PREREQ: BIOL 3303.

**BIOL 5544 Cell and Molecular Biology 4 credits.** Fundamental principles of molecular

biology: DNA replication, repair, and recombination, transcriptional and post-transcriptional regulation of gene expression, RNA metabolism, protein synthesis, targeting and turnover, post-translational modifications, signal transduction, regulation of the cell division cycle, and molecular genetics of development. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: Introductory Biology and Organic Chemistry. COREQ: BIOL 5544L

**BIOL 5544L Cell and Molecular Biology Laboratory 1 credit.** Laboratory techniques in molecular biology, including cloning, PCR and DNA sequencing. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus COREQ: BIOL 5544.

**BIOL 5545 Biochemistry I 3 credits.** Introduction to basic aspects of biochemical systems, including fundamental chemical and physical properties of biomolecules. Enzymology including allosterism, metabolic regulation, bioenergetics, and carbohydrate metabolism. PREREQ: Introduction to Biology and Organic Chemistry OR PERMISSION OF - INSTRUCTOR.

**BIOL 5546 Selected Topics in Physiology 1 credit.** Selected topics in physiology for dental students: blood coagulation-complement-kinin systems, prostaglandin and related substances, vitamins, steroids, mucopolysaccharides, collagen and other extracellular matrix molecules and cyto- and molecular genetics.

**BIOL 5547 Biochemistry II 3 credits.** Functional continuation of 5545. Lipid, amino acid and nucleotide metabolism. Emphasis is on metabolic regulation, metabolic dysfunction, biochemical mechanism of hormone action, biochemical genetics, protein synthesis, and metabolic consequences of genetic defects. PREREQ: BIOL/CHEM 5545.

**BIOL 5548 Advanced Experimental Biochemistry 2 credits.** Advanced laboratory projects designed to emphasize techniques of qualitative and quantitative biochemical analysis. PREREQ: BIOL 5537/CHEM 5538. COREQ: BIOL/CHEM 5547.

**BIOL 5549 Human Physiology I 4 credits.** First of a two-course sequence. Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. PREREQ: BIOL 2202; CHEM 1111, CHEM L1111, CHEM 1112, CHEM L1112; COREQ: BIOL 5525.

**BIOL 5550 Head and Neck Anatomy 4 credits.** Comprehensive presentation of the anatomy of the head and neck as it applies to

the practice of dentistry. Lecture and laboratory. COREQ: BIOL 5550L.

**BIOL 5550L Head and Neck Anatomy 0 credits.** Assignments to apply principles from BIOL 5550. COREQ: BIOL 5550.

**BIOL 5551 Immunology 3 credits.** Fundamental concepts of antibody-mediated and cell-mediated mechanisms of immunity. In-vivo and in-vitro antigen-antibody interactions are discussed. PREREQ: Microbiology OR PERMISSION OF INSTRUCTOR.

**BIOL 5551L Immunology Laboratory 1 credit.** Selected laboratory experiments to accompany BIOL 5551 Immunology. PREREQ OR COREQ: BIOL 5551. OPEN TO NON-MAJORS BY SPECIAL PERMISSION.

**BIOL 5553 Foundations in Neuroscience 3 credits** Organizing principles in neuroscience including biological signaling of excitable cells, neuroanatomy and regional brain functions, and sensorimotor integration of behavior. Specific, graduate-level activities and / or performances are identified in the course syllabus. PREREQ: PERMISSION OF INSTRUCTOR. S.

**BIOL 5554 Advanced Immunology 3 credits.** Detailed study of selected areas of immunobiology. Course content will vary with current demand. Students will lead discussions and present current literature. PREREQ: BIOL 5551 AND PERMISSION OF INSTRUCTOR. COREQ: BIOL 5554L.

**BIOL 5555 Pathogenic Microbiology 3 credits.** How the medically important bacteria, viruses and fungi interact with the host to produce disease, including microbe characteristics, pathogenesis, pathological processes, prevention, and treatment methods. PREREQ: Microbiology OR PERMISSION OF - INSTRUCTOR.

**BIOL 5555L Pathogenic Microbiology Laboratory 2 credits.** Will emphasize procedures for the isolation and identification of pathogenic bacteria. Clinical specimens will be provided for use in identification of unknowns. PREREQ OR COREQ: BIOL 5555.

**BIOL 5556 Human Physiology II 4 credits.** Physiology of gastrointestinal, endocrine, and reproductive systems. Includes studies of acid-base balance, peripheral circulation, shock, and temperature regulation. PREREQ: BIOL 5549 OR EQUIVALENT.

**BIOL 5559 Fish Ecology 3 credits.** Study of the behavior, habitat use, population dynamics, and management of freshwater fishes, especially salmon and trout. Laboratory and

weekend field trips emphasize sampling techniques and data analysis. PREREQ: BIOL 2209, BIOL 3315, BIOL 5527. COREQ: BIOL 5559L.

**BIOL 5559L Fish Ecology Lab 1 credits.** Assignments to apply principles from BIOL 5559. COREQ: BIOL 5559.

**BIOL 5560 Neuroscience 4 credits.** Comprehensive presentation of the anatomy of the central nervous system, the brain and spinal cord. Combined lecture and laboratory demonstration. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5560L Neuroscience Lab 1 credits.** Detailed examination of the gross anatomy and pathways of the human central nervous system. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5561 Advanced Genetics 3 credits.** Detailed and critical consideration of selected genetic topics with emphasis on recent advances. PREREQ: Genetics AND PERMISSION OF INSTRUCTOR.

**BIOL 5562 Freshwater Ecology 3 credits.** Study of the interaction of physical and biotic factors in aquatic communities. Field trips. PREREQ: BIOL 2209. COREQ: BIOL 5562L.

**BIOL 5562L Freshwater Ecology Lab 1 credit.** Assignments to apply principles from BIOL 5562. COREQ: BIOL 5562.

**BIOL 5563 Human Pathophysiology 4 credits.** The study of basic processes underlying diseases with an emphasis on correlating anatomical, functional, and biochemical alterations with clinical manifestations. Laboratory required. PREREQ: BIOL 3301 AND BIOL 3302, OR PERMISSION OF INSTRUCTOR. COREQ: BIOL 5563L.

**BIOL 5563L Human Pathophysiology 0 credits.** Assignments to apply principles from BIOL 5563. COREQ: BIOL 5563.

**BIOL 5564 Lectures in Human Physiology 4 credits.** Physiology of the nervous, muscular, circulatory, respiratory, and excretory systems. PREREQ: BIOL 3301, BIOL 3302, AND ONE YEAR OF COLLEGE CHEMISTRY.

**BIOL 5566 Medical Mycology 3 credits.** Lecture/laboratory course addressing medically important fungi. Taxonomy, clinical disease, pathogenesis, immunological diagnosis and laboratory identification of contaminants, opportunists, superficial, cutaneous, subcutaneous and systemic mycoses. PREREQ: Microbiology.

**BIOL 5568 Oral Microbiology 1 credit.** Study of microbiology of plaque, caries, periodontal disease, immunobiology of oral disease and control of microorganisms with antimicrobial agents. Four periods devoted to laboratory study of medically important oral microbes. PREREQ OR COREQ: BIOL 5555.

**BIOL 5569 Special Topics in Microbiology 1-4 credits.** Study of selected topics in microbiology. Course contents will vary with topics selected. May be repeated with departmental approval for non-repetitive course content. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5570 Cross-Sectional Anatomy 2 credits.** Applied regional anatomy as viewed in sectional planes, emphasizing topographic relationships of organs and surface anatomy, with interpretation of correlated CT and MRI imaging. PREREQ: BIOL 3301 AND BIOL 3302.

**BIOL 5571 Biological Imaging 3 credits.** Microscopy with an emphasis on image formation, documentation, interpretation and analysis relevant to experimental applications in the biological sciences. Lecture and laboratory with independent research component. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. (EF, LL)

**BIOL 5573 Applied and Environmental Microbiology 3 credits.** Concepts in applied microbiology and microbial ecology, including fermentation, biotechnology, and ecophysiology. COREQ: BIOL 5573L.

**BIOL 5573L Applied and Environmental Microbiology Lab 1 credit.** Laboratory exercises in applied and environmental microbiology. COREQ: BIOL 5573.

**BIOL 5574 Human Anatomy (Occupational Therapy/Physical Therapy) 5 credits.** Applied regional anatomy emphasizing the development, histology and gross anatomy of the musculoskeletal, peripheral nervous, and cardiopulmonary systems. Includes laboratory with cadaver dissection. PREREQ: PERMISSION OF INSTRUCTOR. COREQ: BIOL 5574L.

**BIOL 5574L Human Anatomy OT and PT Lab 0 credits.** Assignments to apply principles from BIOL 5574. COREQ: BIOL 5574.

**BIOL 5575 General Virology 3 credits.** Introduction to the general principles of virology through consideration of structure, genetics, replication and biochemistry of animal and bacterial viruses. PREREQ: COMPLETION OF 90 CREDITS.

**BIOL 5577 Bacterial Virology Laboratory 1 credit.** Designed to acquaint students with the techniques and experimental principles used in the study of bacterial viruses. Must be accompanied by BIOL 5575.

**BIOL 5578 Animal Virology Laboratory 1 credit.** Introduces tissue culture methods and other techniques employed in the study of animal viruses. Must be accompanied by BIOL 5575.

**BIOL 5580 Mentored Research Alliance 2 credits.** Discovery research in life sciences conducted in a cooperative learning community that includes mentoring undergraduates. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. May be repeated. PREREQ: permission of the instructor.

**BIOL 5581-5582 Independent Problems 1-4 credits.** Individual problems will be assigned to students on the basis of interest and previous preparation. May be repeated. PREREQ: A MINIMUM OF TWO COURSES IN BIOLOGICAL SCIENCES AND PERMISSION OF INSTRUCTOR.

**BIOL 5586 Human Systemic Physiology 5 credits.** One semester human physiology course emphasizing the function and regulation of the muscular, skeletal, circulatory, respiratory, urinary, reproductive, and immune systems. PREREQ: CHEM 1111, CHEM L1111, CHEM 1112, CHEM L1112; BIOL 3301 AND BIOL 3302 OR EQUIVALENT. COREQ: BIOL 5586L.

**BIOL 5586L Human Systemic Physiology 0 credits.** Assignments to apply principles from BIOL 5586. COREQ: BIOL 5586.

**BIOL 5588 Advanced Radiobiology 3 credits.** An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Cross-listed as PHYS 5588. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 5589 Field Ecology 4 credits.** An intensive field of study of at least one biogeographical region to increase students' knowledge of and skill with field sampling techniques, field-study design, data collection and analysis, and report preparation. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**BIOL 5590 Ecosystems and Global Change** Examination of the structure and function of ecosystems and their responses to natural and

anthropogenic changes emphasizing energy, water, carbon, and nitrogen cycling. Field trips. Specific, evaluated grade-level activities and/or performances are identified in the course syllabus. Offered: Every Spring, No equivalent courses, no registration restrictions.

**BIOL 5595 Animal Behavior 4 credits.** Behavior of animals and the evolutionary mechanisms that dictate behavioral patterns. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: UPPER DIVISION STATUS OR GRADUATE STATUS.

**BIOL 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**BIOL 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**BIOL 6601 Advanced Animal Behavior 3 credits.** Behavior and social organization of animals with particular attention to the vertebrates. Lecture, laboratory, and field work. PREREQ: GRADUATE STANDING AND PERMISSION OF DEPARTMENT.

**BIOL 6602 Advanced Plant Physiology 3 credits.** Study of interrelationships of soil, water, and minerals in the nutrition of plants. PREREQ: BIOL 5504.

**BIOL 6603 Comparative Physiology 3 credits.** Study of the ways in which organisms meet their functional requirements. Lecture and laboratory. PREREQ: GRADUATE STANDING AND PERMISSION OF DEPARTMENT.

**BIOL 6604 Advanced Ecology of Streams and Rivers 3 credits.** Study of the ecology of streams; chemical, physical, and geological aspects in relation to biota. The production of organic matter in flowing water is emphasized, including the tracing of food chains and food webs and the construction of energy budgets. Field trips. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 6605 Biometry 4 credits.** Application of descriptive and analytical statistical methods to experimental design and biological research. PREREQ: MATH 1143 OR EQUIVALENT OR PERMISSION OF INSTRUCTOR.

**BIOL 6606 Scientific Writing 3 credits.** Review of basic principles of grammar, organization, style, and persuasive argument as applied to specific areas of scientific writing. Each student will write proposals, technical reports and review manuscripts, and reviews of proposals and manuscripts.

**BIOL 6607 Environmental Physiology 3 credits.** Study of the physiological mechanisms and interrelated behavioral patterns by which animals respond to environmental factors. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

**BIOL 6608 Stable Isotopes in Environmental Science 4 credits.** Theory and use of stable isotopes in natural sciences, with an emphasis towards the fields of ecology, geology and archeology. Basic principals or stable isotope analysis and applications towards understanding cycles of C, N, S and water, food web analysis, and paleoclimate. Individual student laboratory projects developed and carried out.

**BIOL 6610 Principles of Molecular Biology 3 credits.** Introduction to subcellular biology and molecular genetics. DNA replication, cell division, the genetic code, transcription, translation, enzyme function, and control mechanisms in procaryotic and eucaryotic cells. PREREQ OR COREQ: BIOL 5532.

**BIOL 6613 Biogeography 3 credits.** Discussion of patterns of distribution of species and their historical and ecological causes. Includes research project.

**BIOL 6614 Evolutionary Ecology 3 credits.** Evolutionary theory applied to ecological processes, including selection theory, ecological genetics, life-history evolution and coevolution. PREREQ: BIOL 2209, BIOL 3358, BIOL 5517.

**BIOL 6616 Advanced Community Ecology 4 credits.** Historical and contemporary concepts and methods in community ecology and its interface with other fields, including molecular biology, informatics, conservation, social sciences, and landscape and ecosystem ecology. Emphasizes quantitative models and data analysis.

**BIOL 6621 Advanced Methods in Microbiology 3 credits.** PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

**BIOL 6623 Soil and Ground Water Bioremediation 3 credits.** Theoretical and applied aspects of biological treatment for contaminated subsurface systems.

**BIOL 6624 Microbial Ecology 3 credits.** Ecological principles applied to microorganisms. PREREQ: GRADUATE STANDING AND A COURSE IN MICROBIOLOGY.

**BIOL 6628 Cytology and Cell Physiology 4 credits.** Advanced study of the functions and structural components of cells. Lecture and laboratory. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR.

**BIOL 6629 Basic Concepts in Biology 3 credits.** Considerations of fundamental concepts of biology, their origin and development. PREREQ: PERMISSION OF INSTRUCTOR.

**BIOL 6631-6632 Advanced Systematic Botany 3 credits.** Classification of plants as it rests on morphological, chemical, ecological, and genetic bases. PREREQ: BIOL 5512.

**BIOL 6633 Advanced Microbial Physiology 3 credits.** Advanced topics in microbial physiology and biochemistry. PREREQ: BIOL 5532 AND PERMISSION OF INSTRUCTOR.

**BIOL 6634 Intermediary Metabolism 3 credits.** Theory, reactions, and methods pertinent to research in intermediary metabolism. PREREQ: BIOL 5532 AND PERMISSION OF INSTRUCTOR.

**BIOL 6636 Experimental Intermediary - Metabolism 2 credits.** Must be accompanied by or preceded by BIOL 6634.

**BIOL 6648 Graduate Problems 1-9 credits per semester** (may be repeated). Thesis related research. PREREQ: GRADUATE STANDING AND PERMISSION OF INSTRUCTOR. Graded S/U.

**BIOL 6650 Thesis 1-6 credits.** Graded S/U.

**BIOL 6651 Advanced Studies in Ecology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with ecological relationships. May be repeated.

**BIOL 6652 Advanced Studies in Physiology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in physiology. May be repeated.

**BIOL 6653 Advanced Studies in Vertebrate Zoology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in vertebrate zoology.

**BIOL 6654 Advanced Studies in Invertebrate Zoology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in invertebrate zoology.

May be repeated.

**BIOL 6655 Advanced Studies in Vertebrate Paleontology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in vertebrate paleontology. May be repeated.

**BIOL 6656 Advanced Studies in Systematic Biology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in systematic biology. May be repeated.

**BIOL 6657 Advanced Studies in Plant Biology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with - problems in plant biology. May be repeated.

**BIOL 6658 Advanced Studies in Limnology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in limnology. May be repeated.

**BIOL 6659 Advanced Studies in Genetics 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in genetics. May be repeated.

**BIOL 6660 Selected Topics in Biochemistry 3 credits.** Detailed study of selected areas of biochemistry. Course content will vary with current demand. PREREQ: BIOL 5532 OR - PERMISSION OF INSTRUCTOR.

**BIOL 6661 Advanced Studies in Environmental Physiology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in environmental physiology. May be repeated.

**BIOL 6662 Advanced Studies in Developmental Biology 2-6 credits.** Flexible use of seminars, lectures, and laboratory work dealing with problems in developmental biology. May be repeated.

**BIOL 6675 Advanced Bacterial Virology 3 credits.** Detailed study of selected areas of bacterial virology. Course content will vary with current demand. PREREQ: BIOL 5575 AND PERMISSION OF INSTRUCTOR.

**BIOL 6676 Advanced Animal Virology 3 credits.** Detailed study of selected areas of animal virology. Course content will vary with current demand. PREREQ: BIOL 5575 AND PERMISSION OF INSTRUCTOR.

**BIOL 6687 Environmental Science and Pollutants 3 credits.** Structure and function of ecosystems, sources and characteristics of hazardous materials, mechanisms and pathways of pollutant transport and degradation, mechanisms of pollutant impact on ecosystems

and human health. PREREQ: BIOL 5521, AN UNDERGRADUATE ECOLOGY COURSE, OR EQUIVALENT.

**BIOL 6691 Seminar 1 credit.** Review of current research and literature. May be repeated until a maximum of 4 credits is earned. Graded S/U.

**BIOL 6692 Seminar 1 credit.** Review of current research and literature. May be repeated until a maximum of 4 credits is earned. Graded S/U.

**BIOL 6693 Seminar in College Teaching 2 credit.** Review of current research and literature. Rotation of topics will include professional development, theory and practice of science education, and current issues in biology instruction. May be repeated for up to 6 credits. Graded S/U.

**BIOL 6694 Advanced Study in College Teaching 2-6 credits.** Rotating topics on practical approaches to teaching college-level biology and conducting research in science education. May be repeated for up to 6 credits.

**BIOL 6695 Seminar in Microbiology 1-3 credits.** Review of current research and literature in Microbiology. May be repeated until 6 credits are earned. Graded S/U.

**BIOL 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**BIOL 7700 Supervised Teaching Internship variable to 9 credits** per semester. May be repeated. Graded S/U.

**BIOL 8850 Doctor's Dissertation variable credit.** May be repeated. Graded S/U.

## Department of Chemistry

Chair and Professor: Rodriguez

Professors: Castle, Holman, Kalivas, Pak, DeJesus, J. Rosentreter

Associate Professors: Evilia, Goss, Holland

Assistant Professors: Bennett

Instructor: Halpenny-Weathersby, Jolley

Senior Lecturers: Omar, R. Rosentreter

Assistant Lecturers: Quarder

### Application Process

All applications to Chemistry must be post-marked by April 1, and should include the following components in addition to the appli-

cation form:

1. Official transcripts describing all post-secondary work.
2. A letter of intent describing your reasons for choosing our program, and how your personal strengths and goals align with our expectations of the program.
3. Three letters of recommendation from professionals in the sciences or mathematics attesting to your potential to succeed in a graduate chemistry program.

Applications for the BS/MS program should be submitted directly to the Chemistry Department, and should also include a summary of current courses and expected grades. Applications for the MS and MNS programs should be submitted to the graduate school, following their additional guidelines on pages 7-9. These included submission of GRE scores and payment of a processing fee

## Master of Science in Chemistry

The M.S. program includes both thesis and non-thesis options.

### Thesis Option

The M.S. program, thesis option, requires a substantial, original research project that culminates in a thesis, a minimum of 30 credits (including thesis credit) earned in graduate courses and seminars.

### Non-Thesis Option

A non-thesis option exists in which students are required to take 15 credits of approved 6600-level chemistry courses, including CHEM 6601 (Seminar, 2 credits), and 15 credits of graduate electives.

### Goals

1. Graduates will attain a broad knowledge in the four major areas of Chemistry.
2. Graduates will conduct novel research in Chemistry.
3. Graduates will be prepared to continue their education in pursuit of a Ph.D.

### Admission Requirements

The student must meet all criteria for, admission to the Graduate School (as listed on pages 7-9).

In addition, applicants must have at least a 3.0 GPA for all upper-division credits taken in the previous degree program (a B.S. or a B.A. in Chemistry). Graduate Record Examination (GRE) scores of two of the three sections must be in the 35th percentile or higher.

Several courses are prerequisite for the M.S. degree programs; any student who has not met these requirements through previous course work must take them as part of his/her M.S. program. These are: one semester of calculus, one year of physics, one semester of inorganic chemistry, one year of organic chemistry, one semester of analytical chemistry, and one year of physical chemistry. Because these are undergraduate course prerequisites, any credit earned in taking these courses does not count toward the 30 credit requirement for the M.S.

## General Requirements

The Master of Science in Chemistry (Thesis Option) requires a minimum of 30 total credits approved by the Department of Chemistry and the Graduate School. Required courses include three of the following:

CHEM 6609 Advanced Inorganic Chemistry	3 cr
CHEM 6630 Advanced Analytical Chemistry	3 cr
CHEM 6655 Advanced Physical Chemistry	3 cr
CHEM 6671 Advanced Organic Chemistry	3 cr
AND	
6600 level lecture courses in Chemistry or Related disciplines	6 cr
CHEM 6601 Seminar	2 cr(min)
CHEM 6650 Thesis	6-10 cr

## Combined BS/MS Program in Chemistry

### Goals

1. Students will obtain a broad knowledge in the four major areas of Chemistry.
2. Graduates will conduct research in a narrow part of one of the above.
3. Graduates will be prepared to continue their education in pursuit of a Ph.D.

Students may be admitted to the program after having completed 64 credit hours. Application for admission must be made to the Chemistry Department. In addition, the student should have completed the following courses or the equivalent:

### Admission Requirements

CHEM 1111-1112 General Chemistry I & II	9 cr
CHEM 2211 Inorganic Chemistry I	2 cr
CHEM 2232 Quantitative Analysis	2 cr
CHEM 2234 Quantitative Analysis Laboratory	2 cr
CHEM 3301-3302 Organic Chemistry I & II	6 cr
CHEM 3303-3304 Organic Chemistry Laboratory I & II	2 cr
MATH 1170 Calculus I	4 cr
MATH 1175 Calculus II	4 cr
PHYS 2211-2212 Engineering Physics	8 cr
PHYS 2213-2214 Engineering Physics Laboratory	2 cr

### General Requirements (See the suggested schedule)

During the first semester each student is expected to select three faculty members to serve

as his/her advisory committee subject to the approval of the Department Chair. In the second semester, each student will form his/her planned program of study with the research advisor, write a research overview of the project, apply and be admitted to the Graduate School. The student is expected to begin his/her research no later than the beginning of the first summer session. Thereafter, individual sections of the research paper will be required as students progress through the program.

The student must apply to, and meet all criteria for, admission to the Graduate School prior to their fourth year. Continuation in the program requires that the student maintain a minimum GPA of 3.0 from date of admission and annual approval of his/her committee. It will be recommended that students who are not making adequate progress discontinue the program.

The student must complete a total of 150 credit hours. This corresponds to 120 credit hours for the BS degree and 30 credit hours for the MS degree. The final course selection must be approved by the student's advisory committee. Students are required to have completed all general education requirements by the end of their second year in the combined BS/MS program. It is the intent that all students will finish within the period of 3 years after admission to the program. Successful completion of the program requires that the student write and defend a research paper embodying his/her research before his/her research committee.

### Suggested Schedule

The following schedule will show how a typical student might progress through the BS/MS program. Even though courses are listed as suggested, each student is required to meet all course requirements for the BS degree in chemistry (except independent problems CHEM 4481 and CHEM 4482). Each student is also required to complete all four advanced chemistry courses (CHEM 6609, CHEM 6630, CHEM 6655, and CHEM 6671). These courses are taken during the second and third years of the program.

#### Third Year (Junior)

##### Fall/Spring

*CHEM 3331 Instrumental Analysis	2 cr
*CHEM 3334 Instrumental Analysis Laboratory	2 cr
*CHEM 3351 Physical Chemistry	3 cr
*CHEM 3352 Physical Chemistry	3 cr

## Master of Natural Science in Chemistry

The student must meet all criteria for admission to the Graduate School.

The Master of Natural Science (MNS) in Chemistry is designed primarily for teachers and prospective teachers who want to improve their understanding of the subject matter of chemistry. Emphasis is upon the subject matter and it is generally a non-thesis program. Individuals interested in this degree should hold a teaching certificate or be working towards one. The program of study will be determined in consultation with the student's advisor and committee. The program requires a minimum of at least 30 credits, 22 of which must be taken in residence. A final oral examination is required.

## Doctor of Philosophy in Engineering and Applied Science

A Ph.D. program in Engineering and Applied Science, administered through Engineering, is available to Chemistry students. The complete program description is provided under the School of Engineering section of the Graduate Catalog.

### Chemistry Graduate Courses

**CHEM 5500 Practicum in Physical Science 2 credits.** Practical problems associated with equipping, setting up, and operating laboratories in chemistry. PREREQ: PERMISSION OF INSTRUCTOR.

**CHEM 5507 Inorganic Chemistry II 2 credits.** Structure and reactivity of inorganic compounds including coordination compounds; acid-base chemistry and nonaqueous solvent systems; organometallic chemistry and other special topics of current interest. PREREQ: CHEM 2211, CHEM 3352, OR PERMISSION OF INSTRUCTOR.

**CHEM 5533 Environmental Chemistry 2 credits.** This course applies chemical principles and calculation to investigate environmental issues. Natural systems, environmental degradation and protection, and the methodology of chemical detection and monitoring. PREREQ: CHEM 2232 AND CHEM 2234, OR PERMISSION OF INSTRUCTOR.

**CHEM 5537 Environmental Chemistry Laboratory 1 credit.** This laboratory course utilizes both structured and self-designed field and classroom experiments to emphasize principles of environmental chemistry. COREQ: CHEM 5533, OR PERMISSION OF INSTRUCTOR.

**CHEM 5538 Experimental Biochemistry 1 credit.** Laboratory course including both qualitative and quantitative experiments. Cross-listed as BIOL 5538. PREREQ OR COREQ: BIOL 5532 or BIOL/CHEM 5545

**CHEM 5545 Biochemistry I 3 credits.** Introduction to basic aspects of biochemical systems, including fundamental chemical and physical properties of biomolecules. Enzymology including allosterism, metabolic regulation, bioenergetics, and carbohydrate metabolism. Cross-listed as BIOL 5545. PREREQ: Introduction to Biology and Organic Chemistry OR PERMISSION OF INSTRUCTOR.

**CHEM 5547 Biochemistry II 3 credits.** Functional continuation of 5545. Lipid, amino acid and nucleotide metabolism. Emphasis is on metabolic regulation, metabolic dysfunction, biochemical mechanism of hormone action, biochemical genetics, protein synthesis, and metabolic consequences of genetic defects. Cross-listed as BIOL 5547. PREREQ: BIOL/CHEM 5545

**CHEM 5548 Advanced Experimental Biochemistry 2 credits.** Advanced laboratory projects designed to emphasize techniques of qualitative and quantitative biochemical analysis. Cross-listed as BIOL 5548. PREREQ: BIOL 5537/CHEM 5538. COREQ: BIOL/CHEM 5547

**CHEM 5553 Modern Experimental Physical Chemistry 2 credits.** Magnetic, optical, and electrical properties of materials, calorimetry, voltammetry, optical and laser spectro-

scopic techniques. PREREQ: CHEM 3334 AND CHEM 3352.

**CHEM 5581-5582 Independent Problems in Chemistry 1-4 credits each.** Directed library and laboratory research. Courses may be repeated to a maximum of 6 credits. PREREQ: CHEM 3352.

**CHEM 5591 Seminar 1 credit.** A formal introduction to the chemical literature including electronic methods of literature searching. A detailed treatment of methods for presenting scientific seminars including a full-length student presentation on selected library or laboratory research. COREQ: CHEM 5581, 5582, 4485, OR PERMISSION OF INSTRUCTOR.

**CHEM 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**CHEM 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CHEM 6601 Seminar 1 credit.** Oral reports of current literature and research in chemistry. This course may be taken multiple times as determined by degree requirements. Graded S/U.

**CHEM 6609 Advanced Inorganic Chemistry 3 credits.** Synthesis, reactions, spectroscopic characterization methods, and application of transition metal complexes. Foci will vary and may include metal carbon bond transformations, bioinorganic chemistry, or materials chemistry. PREREQ: Chem 5507 OR PERMISSION OF INSTRUCTOR.

**CHEM 6610 Special Topics in Chemistry 1-3 credits.** Detailed consideration of a limited phase of chemistry; course content will vary with current demand and with the instructor; may be repeated with departmental approval for non-repetitive course content.

**CHEM 6615 Neutron Activation Analysis 4 credits.** Theory and use of neutron activation methods for quantitative chemical analysis of natural and synthetic materials. Applications in geologic systems will be emphasized. Cross-listed as GEOL 6615, PHYS 6615. PREREQ: PERMISSION OF INSTRUCTOR.

**CHEM 6617 Environmental Geochemistry**

**3 credits.** Geochemistry of environmental systems. Emphasis given to low-temperature water-rock interactions, including sorption processes, retardation, reaction kinetics and reaction-mass transport modeling. Cross-listed as GEOL 6617. PREREQ: GEOL 5520, OR CHEM 3351 AND GEOL 1109.

**CHEM 6621 Organic Reactions 3 credits.** Advanced study of organic chemical reactions with emphasis on synthetic applications. PREREQ: CHEM 3302.

**CHEM 6625 Quantitative Geochemistry Lab 3 credits.** Applications of instrumental methods for geochemical analysis. Cross-listed as GEOL 6625.

**CHEM 6630 Advanced Analytical Chemistry 3 credits.** Advanced treatment of standards, sampling, special methods of analysis, and methods of separation. PREREQ: CHEM 3302, CHEM 3304, CHEM 3334 AND CHEM 3352, OR PERMISSION OF INSTRUCTOR.

**CHEM 6635 Master's Research 2-6 credits.** A continuation of CHEM 4435 to improve ability of students to solve chemical problems independently and pursue research at an advanced level. May be repeated for up to 12 credits. PREREQ: CHEM 4485.

**CHEM 6640 Research Techniques in Chemistry 2-6 credits.** Designed to improve the ability of students to solve chemical problems independently in the laboratory; special emphasis on development of manipulative skills, instrumental methods and supporting library research; nature of the projects dictated by students' needs; may be repeated with departmental approval for non-repetitive course content. Limit 12 credits.

**CHEM 6650 Thesis 1-10 credits.** Graded S/U.

**CHEM 6655 Advanced Physical Chemistry 3 credits.** Introductory material from quantum chemistry and statistical mechanics with applications in chemical thermodynamics. PREREQ: CHEM 3352, OR PERMISSION OF INSTRUCTOR.

**CHEM 6671 Advanced Organic Chemistry 3 credits.** Kinetics and mechanisms in organic reactions. PREREQ: CHEM 3302 AND CHEM 3352, OR PERMISSION OF INSTRUCTOR.

**CHEM 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CHEM 8850 Doctoral Dissertation (Ph.D. in Engineering and Applied Science) 1-12 credits.** Research toward and completion of the dissertation. May be repeated. Graded S/U.

## Engineering Departments

### Doctoral Programs

The graduate program in Engineering offers the student a choice of two doctoral degrees. These interdisciplinary doctoral programs are administered by Engineering and are available to students from engineering, and the physical sciences.

### Doctor of Philosophy in Engineering and Applied Science

The program allows for a broad range of research topics in Engineering (Civil Engineering, Electrical Engineering, Environmental Engineering, Environmental Science and Management, Measurement and Control Engineering, Mechanical Engineering, and Nuclear Engineering including Health Physics), Chemistry (Biochemistry, Atmospheric, Environmental, Materials, Inorganic, Organic, Organometallic, and Physical Chemistry), Geosciences (Geology, Geophysics, Geochemistry, Environmental Geosciences), Mathematics (Applied Mathematics and Computational Mathematics), and Physics (Radiation Science, Accelerator Applications, and Applied Nuclear Physics).

### Masters Programs in Engineering

The graduate program in Engineering offers the student a choice of the following majors for specialization at the master's level together with a breadth of courses to fit individual educational goals. The majors are:

1. Civil Engineering
2. Environmental Engineering
3. Environmental Science and Management
4. Measurement and Control Engineering
5. Mechanical Engineering
6. Nuclear Science and Engineering

### Goals

- Prepare graduates to have an advanced understanding and the ability to apply problem-solving skills in their chosen field of study.
- Prepare graduates to undertake doctoral study and/or to take challenging careers in teaching, research, and industry, for continued personal growth and contribution to the global competitiveness of the United States.

### Admission Requirements

The student must meet all criteria for admission and then apply to the Graduate School.

### General Requirements

With the assistance of the graduate faculty of the School of Engineering, the student shall select an initial advisor during the first semester of residence to help in planning a program of studies and research. The student must also complete a Plan of Study and form a complete advisory committee by the time six credits of course work have been completed.

Depending on the major and thesis or non-thesis option, 30 to 33 credit hours are required to complete M.S. degree (at least 50% of the credits should be at 6000 level). Approximately half of the credits are engineering and technical electives, subject to the approval of the student's advisory committee. Thesis or Special Project, required in each major, should consist of study and research that complements the course work selected. Depending on the major, each student may also be required to complete two semesters of seminar, an important component in developing research and communication skills.

### Department of Civil Engineering

Chair and Associate Professor: Savage  
Professors: Ebrahimpour, Leung, Sato  
Assistant Professors: Sorenson  
Senior Lecturer: Mahar

### Admission Requirements

The student must meet all criteria for admission and then apply to the Graduate School.

### General Requirements

With the assistance of the Civil Engineering faculty, the student shall select an initial advisor during the first semester of residence to help in planning a program of studies and research. The student must also complete a Plan of Study and form a complete advisory

committee by the time six credits of course work have been completed.

30 to 33 credit hours are required to complete the M.S. degree (at least 50% of the credits should be at 6000 level). Approximately half of the credits are engineering and technical electives, subject to the approval of the student's advisory committee. The Thesis or Special Project, should consist of study and research that complements the course work selected. Each student may also be required to complete two semesters of seminar, an important component in developing research and communication skills.

### Master of Science in Civil Engineering

The M.S. program in Civil Engineering is designed to provide advanced study, both theoretically and experimentally, in structures, mechanics, finite element methods, water resources, and geotechnics. This program prepares the student for advanced placement in the civil engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Civil Engineering. The program is offered both at the Pocatello and the Idaho Falls campuses, primarily through the use of telecommunications/distance learning, which includes partial in-class instruction.

### Goals

- Enhance the knowledge of graduates in the advanced concepts in Civil Engineering fields such as structures, mechanics, finite element methods, geotechnics, and water resources.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic designs in fields related to civil engineering and to solve identified problems, and design strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to effectively communicate these concepts both in oral and written formats.

### Thesis, Non-Thesis options

- a. Thesis option (30 credits): 15 credits from the approved list of courses, 9 credits of electives from the approved list of electives, and 6 credits of thesis.
- b. Non-thesis option (33 credits): 21 credits from the approved list of courses, 9 credits of electives from the approved list of

electives, and 3 credits of Special Project in the related field and a written report. After completion of the course work and special project, students are required to take an oral exam on their special project, and other courses from the student's approved M.S. program.

Note: For lists of approved courses and elective courses, student should see an advisor. The approved and elective courses may be changed with the approval of the advisor.

## Master of Science in Environmental Engineering

This program is designed to provide students with advanced technical training in environmental engineering, with an emphasis on hazardous waste treatment and control in water and wastewater. The program fills a need in industry and government for professionals with a broad understanding of the technical aspects of environmental issues. Students enrolled in the program are generally expected to have a sufficient background in mathematics and chemistry (a minimum of one year of general chemistry). Students with an insufficient background in engineering and mathematics are required to make up the deficiencies according to the advice of their advisory committee (usually includes ME 3307, CE 3332, CE 3351).

### Goals

- Enhance the knowledge of graduates in the advanced concepts of environmental control and remediation, involving a significant fraction of the following: chemistry, water & waste water quality, air quality, radioactive material handling and disposal, environmental laws and regulations, global environmental issues, toxicity and assessment, and cost benefit analyses.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic designs and to solve identified problems, as well as to implement strategies to carry out these designs safely, ethically, and effectively.
- Enhance the ability of graduates to communicate these concepts effectively both in oral and written formats.

### Thesis, Non-Thesis options

- a. Thesis option (30 credits): 15 credits from the approved list of courses, 9 credits from the approved list of electives, and

6 credits of thesis.

- b. Non-thesis option (33 credits): 21 credits from the approved list of courses, 9 credits from the approved list of electives, and 3 credits of Special Project in the related field and a written report.

After completion of the course work and special project, students are required to take an oral exam on their special project, and other courses from the student's approved M.S. program.

Note: For lists of approved courses and elective courses, student should see an advisor. The approved and elective courses may be changed with the approval of the advisor. (Web link to the approved courses: [http://engr.isu.edu/gp/docs/course\\_listing.pdf](http://engr.isu.edu/gp/docs/course_listing.pdf)).

## Master of Science in Environmental Science and Management

The Environmental Science and Management (ENSM) Program is an interdisciplinary program designed to allow students to combine courses in environmental engineering with related courses in an interdisciplinary area of emphasis. Interdisciplinary course work may come from a combination of courses from the following emphasis areas: Geosciences, Biological Sciences, Chemistry, Mathematics, Physics, Pharmaceutical Sciences, Political Science, and Business. Students may also choose Environmental Engineering as the academic emphasis; thus maintaining the entire program of study within the Department of Civil and Environmental Engineering. The ENSM program is jointly sponsored by the University of Idaho, and some of the courses are cross-listed. Students must complete at least ten credits in an interdisciplinary discipline (academic emphasis), and satisfy all departmental and Graduate School requirements.

Students entering the ENSM program are required to obtain interdisciplinary admission into the Department of Civil and Environmental Engineering and one other academic discipline (emphasis). Admission requirements vary between academic units, and there may be departmental requirements beyond those of the Department of Civil and Environmental Engineering which the student must fulfill to gain departmental admission. At least 30 credits are required for the degree, of which at least 15 must be at the 6600 level. At least 10 credits must be completed within the academic emphasis, with the remainder of the course

work representing ENSM course work. No more than 9 credits may be transferred from another university, with the exception of courses from the University of Idaho, which will be accepted as resident credits. Students must have successfully completed course work equivalent to Idaho State University's MATH 1160 (Brief Calculus) and Idaho State University's CHEM 1111/1112 (General Chemistry) with grades of "C" or better. Students with pre-requisite course deficiencies may be admitted as Classified with Performance Requirements with the understanding that these requirements must be satisfied prior to graduation, and such efforts may not necessarily count toward graduation. Classified with Performance Requirements (w/PR) admission into the ENSM program is the prerogative of individual departments.

Thesis and non-thesis options are available for the ENSM degree. For the thesis option, a maximum of ten thesis credits may be counted toward the degree. For the non-thesis option, a maximum of three "Special Project" credits may be counted toward the degree. These credits may apply toward the requirement of 15 credits at the 6600 level. There are program-wide and department-specific requirements for the thesis and non-thesis options, and students must create a program of study in conjunction with their advisory committee. Students will register for thesis credits or non-thesis project credits in the home department of the thesis/project advisor. Some departments' "Special Project" courses may have a different title and/or course number.

Within the framework of the basic degree requirements, an advisory committee is chosen to work with the student to create an individualized program of study. The advisory committee consists of two faculty advisors: one from the Department of Civil and Environmental Engineering (CEE), and one from the student's other academic discipline (emphasis). The student's major advisor provides direction to the student regarding all relevant aspects of the program. All courses selected for fulfillment of the program of study must be approved by the advisory committee. The initial program of study must be submitted to the ENSM program director no later than the second semester of enrollment. Changes in the initial program of study may only be made with the approval of the student's advisory committee. The final program of study is submitted to the Graduate School for graduation clearance in accordance with Graduate School policy.

### Required Courses

The following courses are required for every student receiving the M.S. degree in Environ-

### mental Science and Management.

ENVE 5510 Introduction to Environmental Engineering	3cr
ENGR 6655* Environmental Topics Seminar and	1cr
ENGR 650** Thesis or	1-6cr
ENGR 6660** Special Project	3cr

\*Course must be completed two times in order to satisfy requirement. A student may choose a seminar other than ENGR 6655 offered in his/her interdisciplinary discipline with approval of the advisory committee.

\*\* Students will register for thesis or non-thesis "Special Project" credits in the home department of the thesis/non-thesis project advisor. Some departments' "Special Project" courses may have a different title and/or course number.

In addition, the following courses are required for students choosing chemistry, environmental engineering or mathematics as the second academic emphasis. Course work in other emphasis areas will be selected from elective course work with the approval of the advisory committee.

#### Chemistry Emphasis

CHEM 5535 Environmental Chemistry	2cr
CHEM 5537 Environmental Chemistry Laboratory	2cr

#### Environmental Engineering Emphasis

ENVE 5508 Water and Wastewater Quality	3 cr
ENVE 5509 Water and Wastewater Laboratory	1cr
ENVE 5504 Environmental Risk Assessment	3cr

#### Mathematics Emphasis

MATH 5521 Advanced Engineering Mathematics I	3 cr
MATH 5522 Advanced Engineering Mathematics II	3 cr
and	
MATH 5565 Partial Differential Equations or	3 cr
MATH 6664 and MATH 6665 Applied Mathematics	6 cr

#### Elective Courses

Students will select a core of courses from the following list. (Students may select one or more courses not on this list, with the approval of the advisory committee, for the purpose of focusing students in a particular direction not covered by this abbreviated list.)

#### Chemistry Electives

CHEM 5507 Inorganic Chemistry II	2 cr
CHEM 6601 Seminar	1 cr
CHEM 6609 Advanced Inorganic Chemistry	3 cr
CHEM 6630 Advanced Analytical Chemistry	3 cr
CHEM 6621 Organic Reactions	3 cr
CHEM 6655 Advanced Physical Chemistry	3 cr
CHEM 6671 Advanced Organic Chemistry	3 cr

#### Environmental Engineering Electives

ENVE 5508 Water and Wastewater Quality	3 cr
ENVE 5509 Water and Wastewater Quality Laboratory	1 cr
ENVE 5530 Air Pollution and Solid Waste	3 cr

ENVE 6610 Introduction to Radioactive Waste Management	3 cr
ENVE 6611 Treatment Systems for Environmental Remediation	3 cr
ENVE 6615 Water Quality Modeling and Control	3 cr
ENVE 6617 Environmental Systems Engineering and Design	3 cr
ENVE 6629 Physical and Chemical Treatment of Water and Wastewater	3 cr
ENVE 6630 Air Pollution and Control	3 cr
ENVG 6606 Environmental Law and Regulation	3 cr
CE 5599 Open Channel Flow	3 cr
CE 5535 Hydraulics Design	3 cr
CE 5554 Basic Engineering Geol	3 cr
CE 5555 Geologic Data Methods	3 cr
NSEN 6618 Treatment of Low Level Radioactive Waste	3 cr
NSEN 6619 Treatment of High Level Radioactive Waste	3 cr

#### Geosciences Electives

GEOL 5504 Advanced Geographic Information Systems	3 cr
GEOL 5506 Environmental Geology	3 cr
GEOL 5509 Remote Sensing	3 cr
GEOL 5515 Quaternary Global Change	3cr
GEOL 5516 Global Environmental Change	3 cr
GEOL 5520 Principles of Geochemistry	3 cr
GEOL 5530 Principles of Hydrogeology	3 cr
GEOL 5554 Basic Engineering Geology	3cr
GEOL 5583 Earthquake Engineering	3 cr
GEOL 6602 Advanced Geomorphology	3 cr
GEOL 6606 Geostatistical Spatial Data Analysis and Modeling	4 cr
GEOL 6617 Environmental Geochemistry	3 cr
GEOL 6625 Quantitative Geochemistry Laboratory	3 cr
GEOL 6630 Advanced Hydrogeology	3 cr

## Department of Mechanical Engineering

Chair and Professor: Williams

Professor: Schoen

Associate Professors: Perez, Wabrek

Visting Assistant Professor: Sebastian

Senior Lecturer: Hofle

### Admission Requirements

The student must meet all criteria for admission and then apply to the Graduate School.

### General Requirements

With the assistance of the Mechanical Engineering faculty, the student shall select an initial advisor during the first semester of residence to help in planning a program of studies and research. The student must also complete a Plan of Study and form a complete advisory committee by the time six credits of course work have been completed.

30 to 33 credit hours are required to complete the M.S. degree (at least 50% of the credits should be at 6000 level). Approximately half of the credits are engineering and technical electives, subject to the approval of the student's advisory committee. The Thesis or Special Project, should consist of study and re-

search that complements the course work selected. Each student may also be required to complete two semesters of seminar, an important component in developing research and communication skills.

## Master of Science in Measurement and Control Engineering

The master's degree program in Measurement and Control Engineering is designed to provide advanced study (analytically, computationally, and experimentally) in measurements, modeling, simulation, adaptive, intelligent, nonlinear, optimal, robotics, and robust control. This program prepares the student for advanced placement in the measurement and control engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Electrical or Mechanical Engineering. The program is offered both at the Pocatello and the Idaho Falls campuses, primarily through the use of telecommunications/distance learning, which includes partial in-class instruction.

All applicants for the MS in MCE program must meet Idaho State University Graduate School MS admission requirements. In addition, official Graduate School record Examination (GRE) score reports are required for all applicants with at least a 40th percentile on the Quantitative Reasoning area being required for admission.

### Goals

- Enhance the knowledge of graduates in advanced concepts of measurement, control, signal processing, engineering mathematics, computation and other related areas.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic measurement and control engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to effectively communicate these concepts both in oral and written formats.

### Required Courses (30 credits)

The following courses are required of every student receiving the M.S. Degree in Measurement and Control Engineering covered by the abbreviated list.

ENGR 5521 Advanced Engineering Mathematics I	3 cr
MCE 6642 Advanced Control Systems	3 cr
MCE 6643 Advanced Measurement Methods	3 cr
Approved Engineering Electives	6 cr
Approved Technical Electives	9 cr
ENGR 6650 Thesis	6 cr
Or	
One additional elective courses	3 cr
And	
ME 6660 Special Project*	3 cr

\*Students desiring to do the non-thesis option must have a minimum of two years industry experience. In place of the 6-credit thesis, the non-thesis option consists of a 3-credit Special Project in addition to a 3-credit course. At the completion of the Special Project, the student will be required to present an oral presentation/defense of the Project.

## Master of Science in Mechanical Engineering

The master's degree program in Mechanical Engineering is designed to provide advanced study, (analytically, computationally, and experimentally) in thermodynamics, fluids, heat transfer, energy systems, vibrations, engineering mechanics, and their associated measurement systems. This program prepares the student for advanced placement in the mechanical engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Mechanical Engineering. The program is offered both at the Pocatello and Idaho Falls campuses, primarily through the use of telecommunications/distance learning, which includes partial in-class instruction.

All applicants for the MS in ME program must have a Bachelor of Science degree in engineering, physical sciences, mathematics or a closely related field, and must meet Idaho State University Graduate School MS admission requirements. In addition, official Graduate Record Examination (GRE) score reports are required for all applicants, except those with a BS degree in an Engineering discipline from ISU, with at least a 40th percentile on the Quantitative Reasoning area being required for admission.

### Goals

- Enhance the knowledge of graduates in advanced concepts of thermodynamics, fluids, heat transfer, energy systems, vibrations, engineering mechanics, measurements, and engineering mathematics.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic mechanical

engineering designs implementing them safely, ethically, and effectively.

- Enhance the ability of graduates to effectively communicate these concepts both in oral and written forms.

### Required Courses (30 credits)

3 credits (1 course) from the following list:

ME 6607 Advanced Thermodynamics	3 cr
ME 6635 Transport Phenomena	3 cr
ME 6676 Conduction Heat Transfer	3 cr

3 credits (1 course) from the following list:

ME 6640 Advanced Vibrations	3 cr
ME 6644 Advanced Kinematic Design	3 cr
ME/CE 6665 Finite Element Methods	3 cr

6 credits (2 courses) from the following list of Math courses:

MATH 5506 Advanced Linear Algebra	3 cr
MATH 5521 Advanced Engineering Mathematics I	3 cr
MATH 5522 Advanced Engineering Mathematics II	3 cr
MATH 5542 Introduction to Numerical Analysis	3 cr
MATH 5565 Partial Differential Equations	3 cr

12 credits (4 courses) of Approved Electives

Students are encouraged to work with their advisor to determine appropriate electives that fit within their area of focus

ME 6650 Thesis	6 cr
Or	
One additional elective courses	3 cr
And	
ME 6660 Special Project*	3 cr

\*Students desiring to do the non-thesis option must have a minimum of two years of industry experience, or a previous graduate degree (MS or PhD) in an engineering discipline that included the completion of a thesis or dissertation. In place of the 6-credit thesis, the non-thesis option consists of a 3-credit Special Project in addition to a 3-credit course. At the completion of the Special Project, the student will be required to do an oral presentation/defense of the Project.

## Department of Electrical Engineering

Chair and Professor: Stuffle  
 Professors: Mousavinezhad, Naidu  
 Associate Professors: Ellis  
 Adjunct Faculty: Hunter

### Admission Requirements

The student must meet all criteria for admission and then apply to the Graduate School.

### General Requirements

With the assistance of the Electrical Engineering faculty, the student shall select an initial advisor during the first semester of residence to help in planning a program of studies and research. The student must also complete a Plan of Study and form a complete advisory committee by the time six credits of course work have been completed.

30 to 33 credit hours are required to complete the M.S. degree (at least 50% of the credits should be at 6000 level). Approximately half of the credits are engineering and technical electives, subject to the approval of the student's advisory committee. The Thesis or Special Project, should consist of study and research that complements the course work selected. Each student may also be required to complete two semesters of seminar, an important component in developing research and communication skills.

## Master of Science in Measurement and Control Engineering

The master's degree program in Measurement and Control Engineering is designed to provide advanced study (analytically, computationally, and experimentally) in measurements, modeling, simulation, adaptive, intelligent, nonlinear, optimal, robotics, and robust control. This program prepares the student for advanced placement in the measurement and control engineering field in industry, research, or development areas. Additionally, this program provides a suitable base for entrance into a Ph.D. program in a field related to Electrical or Mechanical Engineering. The program is offered both at the Pocatello and the Idaho Falls campuses, primarily through the use of telecommunications/distance learning, which includes partial in-class instruction.

All applicants for the MS in MCE program must meet Idaho State University Graduate School MS admission requirements. In addition, official Graduate School record Examination (GRE) score reports are required for all applicants with at least a 40th percentile on the Quantitative Reasoning area being required for admission.

### Goals

- Enhance the knowledge of graduates in advanced concepts of measurement, control, signal processing, engineering mathematics, computation and other related areas.
- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic measurement and control engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to effec-

tively communicate these concepts both in oral and written formats.

### Required Courses (30 credits)

The following courses are required of every student receiving the M.S. Degree in Measurement and Control Engineering covered by the abbreviated list.

ENGR 5521 Advanced Engineering Mathematics I	3 cr
MCE 6642 Advanced Control Systems	3 cr
MCE 6643 Advanced Measurement Methods	3 cr
Approved Engineering Electives	6 cr
Approved Technical Electives	9 cr
ENGR 6650 Thesis	6 cr

ME 6660 Special Project*	3 cr

\*Students desiring to do the non-thesis option must have a minimum of two years industry experience. In place of the 6-credit thesis, the non-thesis option consists of a 3-credit Special Project in addition to a 3-credit course. At the completion of the Special Project, the student will be required to present an oral presentation/defense of the Project.

## Department of Nuclear Engineering and Health Physics

### Doctor of Philosophy in Nuclear Science and Engineering

Professor and Chair: Brey

Professors: Imel

Associate Professors: Burgett, Dunzik-Gougar, Harris, Pope

This program combines the atomic nuclear aspects of Engineering and Science. Research areas range from the more traditional nuclear engineering disciplines (reactor physics, thermal hydraulics, and reactor design) to cross-discipline topics in the fields of radiation detection and measurement, nuclear fuels, and materials development, nuclear fuel cycle systems studies and radioactive waste management.

#### Goals

- Prepare graduates to conduct and disseminate independent scholarly research.
- Prepare graduates for careers in academia or industry.

#### Objectives:

- Increase the knowledge of graduates in their specialized field: Chemistry, Engineering (all disciplines), Geosciences,

Mathematics, and Physics.

- Enhance the ability of graduates to contribute to their chosen field.
- Enhance effective written and oral communication skills of graduates.

### Admission Requirements

All applicants must meet Idaho State University Graduate School admission requirements for doctoral programs. Additionally, applicants must have attained a master's degree in engineering, physics, chemistry, geosciences, mathematics, or a closely related field. Applicants must submit a one-page (only) statement of research interests, a one-page (only) statement of career interests, a resume, and at least 3 letters of reference along with their applications. In some special cases, a student with exceptional undergraduate academic record and aptitude for research but without an M.S. degree may be directly admitted to the Ph.D. program with the approval of the Ph.D. program committee.

### General Requirements

The Ph.D. degree requires completion of at least 84 credits consisting of 30 credits for the M.S. degree, 18 credits of additional course work (at least 50% of the credits should be at 6000 level), 4 credits of graduate seminar and 32 credits of dissertation research. Six credits of core courses are required for each emphasis area. At least 9 of the 18 credits of course work must be in collateral areas as designated by the student's advisor. Additional dissertation research credits may be required by the student's dissertation committee.

### Program of Study

An advisory committee consisting of Idaho State University graduate faculty (a minimum of 2 from the student's parent department and 1 from other relevant department) will be formed for each student upon entry into the program. The committee will guide the student in establishing his or her program of course work and laboratory study based upon the student's background and research interest. The advisory committee has the responsibility of ensuring that the student has adequate knowledge to support research in his or her chosen area of interest.

At the end of the first year, the student will take an 8-hour written, comprehensive qualifying examination covering the relevant information within the scope of the research area. A student taking the comprehensive qualifying exam needs to be prepared to take an oral examination conducted by the student's Advisory Committee. The oral exam needs to focus primarily on material in the written exam that was not adequately answered. However, the Advisory Committee, at its discretion, may

excuse a student from taking the oral examination if the student excels in the written examination. The student will be allowed two attempts to pass the comprehensive examination, and the second attempt must be within one-half year after the first attempt. The student will be admitted to candidacy upon passing the comprehensive qualifying examination.

A dissertation committee is formed with a minimum of 5 members consisting of a major professor, 2 members from the student's parent department, a member from other relevant department, and GFR. The major professor chairs the dissertation committee. Within six months of passing the comprehensive qualifying examination, the candidate, with guidance from the major professor, will satisfactorily complete an oral presentation and defense of a proposal for dissertation research to the Dissertation Committee. The research and dissertation preparation must be conducted under the close supervision of the committee and must include at least one full year of work performed under Idaho State University graduate faculty. The candidate can submit the final dissertation anytime after six months from the date of acceptance of the research proposal.

Dissertation approval requires a public presentation of the dissertation and a satisfactory oral defense to the Dissertation Committee. Doctoral oral examinations are open to all regular members of the faculty as observers. Further, oral presentations are open to the public until questioning by the Dissertation Committee begins.

## Master of Science in Nuclear Science and Engineering

The master's degree program in Nuclear Science and Engineering prepares the student for advanced placement in the nuclear industry in commercial, research, or development areas. It provides in-depth studies and advanced design concepts in several areas of modern nuclear science and engineering. It is also an excellent program of study for entering the Ph.D. program in Nuclear Science and Engineering.

#### Goals

- Enhance the knowledge of graduates in the physics and engineering of nuclear reactors, the nuclear fuel cycle, and other aspects of the study of nuclear engineering. At Idaho State University, while our emphasis is on advanced reactors and the science and technology of nuclear fuel recycling, we allow the flexibility to build programs on other aspects, which can

include systems studies and simulations including policy aspects, radiation shielding and detection, medical applications of radiation, and the economics and safety of all of these applications.

- Increase the ability of graduates to synthesize and apply these advanced concepts to develop realistic nuclear engineering designs and to solve identified problems, designing strategies for implementing them safely, ethically, and effectively.
- Enhance the ability of graduates to effectively communicate these concepts both in oral and written formats.

### Required Courses

12 credits from the following list:

NE 5521 Mathematical Methods for Nuclear Engineers	3 cr
OR	
PHYS 6602 Theoretical Methods of Physics	3 cr
NE 5545 Reactor Physics	3 cr
NE 5546 Nuclear Fuel Cycle System Analysis	3 cr
NSEN 6684-6685 Nuclear Engineering Basics	6 cr
NSEN 6601 Nuclear Engineering Experiments	3 cr
NSEN 6608 Radiation Transport	3 cr
NSEN 6609 Radiation Detection	3 cr
NSEN 6618 Radioactive Waste Management	3 cr
NSEN 6619 Nuclear Waste Immobilization	3 cr

12 credits of Engineering or Physics courses approved by the major advisor

NSEN 6650 Thesis	6 cr
ENGR 6651 Seminar	2 cr
Total credits:	32 cr

## Certificate Program in Applied Nuclear Energy

This program provides BS/BA graduates who do not have recent experience or education in the nuclear energy field with historical insights, information on basic concepts, regulatory requirements, and economic and environmental considerations. This program is not intended to lead to M.S. and Ph.D. programs in the areas of Nuclear Science and Engineering. The Certificate is granted upon completion of fourteen (14) credit hours of class work, consisting of nine credit hours of required courses, a three-credit elective course and participation in two semesters of a one-credit graduate seminar. Up to six credits of appropriate graduate course work taken at another university may be applied toward the Certificate program subject to approval by the student's Certificate Committee. With appropriate pre-planning, some of these credits could be applied to a master's degree.

### Admission Requirements

The student must apply to, and meet all criteria

for admission to the Graduate School. GRE scores are not required if an earned grade point average of at least 3.0 or higher is required for all upper division credits taken at the undergraduate level, regardless of the institution at which the credits were earned.

### Required courses (8 credits):

NSEN 6615 Introduction to Practical Nuclear Engineering	3 cr
NSEN 6617 Applications in Nuclear Energy	3 cr
ENGR 6651 Seminar	2 cr
One of the following four courses (3 credits):	
ENGR 6606 Environmental Law and Regulation	3 cr
PHYS 6610 Radiation Regulations	3 cr
NSEN 6618 Treatment of Low Level Radioactive Waste	3 cr
NSEN 6619 Treatment of High Level Radioactive Waste	3 cr
Approved NE, NSEN, ENGR, ENVE, or PHYS 55xx/66xx elective course	3 cr

## Master of Science (Health Physics Emphasis):

The Department of Nuclear Engineering and Health Physics additionally offers the M.S. option in Health Physics. Health physics, an applied science, is concerned with the protection of humans and their environment from the possible harmful effects of radiation while providing for its beneficial uses. It is a multi-disciplined profession that incorporates aspects of both the physical and biological sciences. The Master of Science (MS) program in Health Physics is accredited by the Applied Sciences Accreditation Commission of ABET, <http://www.abet.org>. The Idaho State University Health Physics programmatic educational objectives have been developed in close collaboration of faculty and the Idaho State University Health Physics Program Advisory Board.

The educational objectives of the ISU Health Physics program are to produce Health Physicists with

- 1) broad, fundamental technical knowledge,
  - 2) written and verbal communication skills
  - 3) professional judgment and capability to think critically
  - 4) practical experience in solving applied health-physics problems
  - 5) the ability to work independently
  - 6) a professional ethic
- of magnitude sufficient for them to productively and successfully work in a variety of health physics settings. The graduate program has two additional educational objectives:
- 1) An ability to conduct research
  - 2) Professional tools and experience above that expected for the baccalaureate program.

The ISU Health Physics Program is in a state

of transition from the Department of Physics to the newly named Department of Nuclear Engineering and Health Physics. This process of moving programs and realigning degree titles is also ongoing. Currently students earn a degree in Physics with Emphasis in Health Physics. This degree is being transitioned to a Masters of Science in Health Physics. Students interested in Health Physics at this time must apply to the Department of Physics M.S. program but indicate on their application their interest in Health Physics.

Students may enter the M.S. program in Health Physics from several undergraduate majors including health physics, physics, chemistry, biology, and other science or engineering majors. Additional course work to correct deficiencies may be necessary.

### Admission Requirements

For admission, the student must apply to, and meet all criteria for, admission to the Graduate School, including a baccalaureate degree in a physical or biological science or engineering.

### General Requirements

The basic program requirements are 33 credits, of which 15 credits must be at the 6600-course level. Six of the eighteen required credits may be thesis. The normal core program is listed below. Students who are prepared with some education and experience in health physics will likely not need all of the elective health physics courses. Therefore, the student's program will be determined in consultation with the student's advisor and committee and can include electives to meet his/her needs. An oral examination in defense of the thesis is required for the thesis option.

See Department of Physics for additional degree requirements.

## Thesis Option in Engineering Master's Programs

All students entering with less than two years of industrial experience as determined by Engineering are required to complete six credits of thesis in their related field. Students who are planning to continue their education beyond the master level are strongly encouraged to choose this option. After the completion of the course work and the thesis, an oral defense of the thesis will be required. No more than six credits of Thesis will be allowed on the student's final Program of Study.

ENGR 6650 Thesis

1-9 cr

## Non-Thesis Option in Engineering Master's Programs

All students entering with a minimum of two years industrial experience in the related area as determined by Engineering are eligible to choose this option. In the non-thesis program students will be required to take an additional 3-credit course, to complete a 3-credit Special Project (ENGR 6660) in the related field and submit a written report. After completion of the course work and the Special Project, students are required to take a two-hour oral exam on their Special Project and other courses in the MS program. No more than three credits of special Project will be allowed on the student's final Program of Study.

ENGR 6660 Special Project

1-9 cr

## Engineering Graduate Courses

**ENGR 5516 Applied Engineering Methods 3 credits.** Applied discrete and continuous probability, random variables, probability distributions, sampling, data description, parameter estimation, hypothesis testing, inference, correlation, and linear and multiple regression. PREREQ: MATH 1170.

**ENGR 5560 Engineering Cost Estimating 3 credits.** Introduction to design/construction processes, planning, contracts, procurement, plans/specifications, productivity analyses, safety, cost estimating, scheduling and environmental considerations. Use of data from actual construction projects. PREREQ: ENGR 3360 OR PERMISSION OF INSTRUCTOR.

**ENGR 5578 Probabilistic Risk Assessment 3 credits.** Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance emphasized. Cross-listed as NE 5578. PREREQ: ENGR 3364, MATH 3360 AND SENIOR STANDING IN ENGINEERING.

**ENGR 5591 Seminar in Engineering 1 credit.** A series of lectures on current topics in the literature by participants or guest lecturers chosen from industry. PREREQ: PERMISSION OF INSTRUCTOR.

**ENGR 5593 Human Factors in Engineering 3 credits.** Overview of the discipline of human factors engineering, including design of information displays, controls, workspace, and human performance. Relationship of engineering to corporate issues such as R&D, maintenance, training, operations, safety.

**ENGR 5501 Methods of Engineering 3 credits.** Introduction to fundamental concepts of engineering related to hazardous waste management. Not counted toward graduation. PREREQ: PHYS 111.

**ENGR 5510 Introduction to Environmental Engineering 3 credits.** Introduction to physical, chemical, and biological principles of solid and hazardous waste management, water and wastewater treatment, air pollutant control, and national environmental regulation. PREREQ: CHEM 1112 AND ENGR 3309, OR PERMISSION OF INSTRUCTOR.

**ENGR 5570 Survey of Hazardous Waste Management Problems 3 credits.** Environmental, technical, political and economic aspects of hazardous waste management. Credit not given if UI ChE 5570 or ISU ENVE 6607 taken. PREREQ: ENGR 5501 OR EQUIVALENT.

**ENGR 5572 Waste Treatment Technologies 3 credits.** Procedures for characterization of hazardous waste sites, identification and application of physical, chemical, biological and thermal treatment. PREREQ: PERMISSION OF INSTRUCTOR.

**ENGR 5589 Principles of Hazardous Waste Site Remediation 3 credits.** Restoration technologies for waste sites. Site characterization and clean-up methods for chemical, radioactive, mixed wastes in soils and water. Practical methodologies. Credit not granted if ENVE 6614 taken. PREREQ: ENGR 5570 OR ENVE 6607.

**ENGR 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENGR 6606 Environmental Law and Regulations 3 credits.** Federal, state, local environmental regulations addressing environmental impact assessment; water and air pollution control, hazardous waste, resource recovery, reuses, toxic substances, occupational safety and health, radiation, siting, auditing, liability. Cross-listed with POLS 6606. PREREQ: PERMISSION OF INSTRUCTOR.

**ENGR 6607 Hazardous Waste Management 3 credits.** Management of hazardous and solid wastes, emphasis on CERCLA (Superfund) process for cleaning of uncontrolled hazardous waste sites and RECRA process for industrial treatment, storage, disposal facilities. PREREQ: MATH 5508.

**ENGR 6650 Thesis 1-9 credits.** Thesis research must be approved by the student's advisory committee. Six credits may be used to satisfy the research requirements for the degree. Graded S/U.

**ENGR 6651 Seminar 1 credit.** Current topics in engineering. Invited speakers will be used when possible. Students presentations required. May be taken a maximum of four times. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**ENGR 6652 Special Problems 1-3 credits.** Special experimental, computational, or theoretical investigation leading to development of proficiency in some area of engineering. Formal report required. PREREQ: PRIOR PROJECT APPROVAL REQUIRED BY AN ENGINEERING FACULTY. May be graded S/U. May be repeated.

**ENGR 6655 Environmental Topics Seminar 1 credit.** Environmental engineering and science topics related to hazardous waste characterization, cleanup, regulations. Includes case histories and presentations by graduate students and visiting speakers. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**ENGR 6660 Special Project 1-9 credits.** A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Graded S/U.

**ENGR 6670 Industrial Practice 1 credit.** Work in an approved, supervised, engineering and/or computer science position. Students will submit a report, inclusive of hours logged, to the instructor with a written narrative focusing on the accomplishments and learning gained through the work performed. May be repeated. Not counted towards graduation requirements. PREREQ: Instructor approval.

**ENGR 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENGR 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Civil Engineering Graduate Courses

**CE 5506 Green and Sustainable Engineering 3 credit.** Study of green engineering and sustainability, topics focused on design of processes to advance sustainability, manufacturing and disposal alternatives, energy and material life-cycle assessment, and environmental law and related issues. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: CHEM 1111.

**CE 5524 Open Channel Flow 3 credits.** Application of the principles of fluid mechanics to flow in open channels—natural and manmade. Topics include uniform flow, flow resistance, gradually varied flow, flow transitions, unsteady flow, and hydraulic structures (culverts, weirs, etc.) used in open channel control. Computer applications will be used in the analysis of open channel systems. PREREQ: CE 3341 or equivalent or permission of instructor. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CE 5525 Water Resources 3 credits.** Overview of the general field of water resources engineering. Course topics covered in other courses such as CE 3351—Engineering Hydrology, CE 4435/5535—Hydraulic Design and CE 4424/5524 Open Channel Flow will be limited. The course is structured to give students a background in the diverse field of water resources and help prepare them for future careers in water supply, wastewater, floodplain, storm water and groundwater management. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus.

**CE 5531 Advanced Mechanics of Solids 3 credits.** An introduction to elasticity, plasticity, and energy foundations, stability, plates. PREREQ: ENGR 3350 AND MATH 3360.

**CE 5534 Geotechnical Design 3 credits.** Application of soil mechanics to design of foundations, retaining wall, stable slopes, buried conduits and pavement structures. Computer methods utilized. PREREQ: ENGR 3350, AND CE 3332.

**CE 5535 Hydraulic Design 3 credits.** Hydraulic design of water control and transport structures, pipelines, and distribution systems. Computer methods utilized. PREREQ: CE/ME 3341.

**CE 5536 Transportation Engineering 3 credits.** Fundamentals of earthwork, route location, drainage, and pavement materials

with application to geometric and pavement design of highways, streets and rural roads. PREREQ: ENGR 2223; CE 3301 OR 3302. COREQ: CE 3332.

**CE 5537 Geotechnical Engineering Laboratory 1 credits.** Field and laboratory work on site investigation, soil sampling classification and testing. Evaluation of soil properties. Design of experiment. PREREQ: CE 3332.

**CE 5554 Basic Engineering Geology 3 credits.** Geology applied to civil engineering projects; rock engineering classification systems and geotechnical parameters such as joint set orientation; ground behavior and underground construction. Preparation of baseline geotechnical reports. Cross-listed as GEOL 5554. COREQ: GEOL 3314 OR CE 3332.

**CE 5555 Geologic Data Methods 3 credits.** Geotechnical investigations for civil works projects. Geologic mapping for civil engineering purposes. Development of engineering geologic profiles. Core logging. Preparation of Geotechnical Data Reports for civil works projects. Cross-listed as GEOL 5555. PREREQ: CE 5554.

**CE 5561 Project Management 3 credits.** Knowledge, techniques and tools for management of civil, electrical, mechanical and environmental engineering projects and firms. Topics include contract organization/interpretation; project responsibility/authority; cost estimating; scheduling; quality control; construction safety; environmental requirements and project closeout. Examples from actual construction projects used as teaching aid. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: CE 3360 or CE 3361.

**CE 5562 Design of Steel Structures 3 credits.** Design of steel members and connections with emphasis on the AISC specifications. PREREQ: CE 3362.

**CE 5564 Design of Concrete Structures 3 credits.** Design of reinforced concrete beams, columns, and slabs. Introduction to prestressing. PREREQ: CE 3362.

**CE 5565 Prestressed Concrete Structures 3 credits.** Basic concepts in prestressed concrete design, full versus partial prestressing, flexural design, ultimate load design, beams with constant and variable tendon eccentricity, design of reinforcement for shear and torsion. PREREQ: CE 5564.

**CE 5566 Design of Wood Structures 3 credits.** Design of solid and laminated wood members and connections. Includes the design of

wooden diaphragms for resisting lateral loads. PREREQ: CE 3362.

**CE 5567 Structural Engineering Laboratory 1 credit.** Measurement of stresses and load distribution through concrete, steel and wood components and structures. Design of experiment. PREREQ: CE 3362.

**CE 5568 Behavior of Composite Materials 3 credits.** Macro and micromechanical behavior of laminae and laminates; bending, buckling and vibration of laminated beams and plates. Cross-listed as ME 5568. PREREQ: ENGR 3350 AND MATH 2230.

**CE 5575 Essentials of Geomechanics 3 credits.** Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as GEOL 5575. PREREQ: GEOL 4421 OR ENGR 3350.

**CE 5576 Engineering Geology Project 1 credits.** Team projects studying actual problems in engineering geology. Cross-listed as GEOL g576. PREREQ: GEOL 5554 OR CE 5554.

**CE 5580 Earthquake Engineering 3 credits.** Topics include: mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. PREREQ: GEOL 3313 or CE 3332, OR PERMISSION OF INSTRUCTOR.

**CE 5599 1-6 credits. This is an experimental course.** The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CE 6650 Thesis 1 - 6 credits.** Thesis research must be approved by the student's advisory committee. Total of six credits are required to satisfy the research requirements for the degree. May be repeated. Graded S/U.

**CE 6652 Advanced Topics 3 credits.** Advanced topics in Civil Engineering and related fields, depending upon the interest of students and faculty. May be repeated for credit when topics vary. PREREQ: PERMISSION OF INSTRUCTOR.

**CE 6660 Special Project 1-3 credits.** A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Total of three credits may be used to satisfy the degree requirement. May be

repeated. Graded S/U.

**CE 6664 Dynamics of Structures 3 credits.** Evaluation of response of structures subjected to dynamic forces including earthquake-induced forces and deformations. Applications include single- and multi-degree of freedom systems, and continuous systems. PREREQ: CE/ME 5540 OR PERMISSION OF INSTRUCTOR.

**CE 6665 Finite Element Methods 3 credits.** Introduction to finite element methods applied to linear one- and two-dimensional problems. Application of the concept to specific problems in various fields of engineering and applied sciences. Cross-listed as ME 6665. PREREQ: ENGR/CE/ME 3350 AND MATH 3360.

**CE 6667 Structures and Mechanics Laboratory 3 credits.** Strain gauge installation and circuitry. Strain measurements and analysis of variety of structural and mechanical systems. Dynamic measurements of various structures. PREREQ: CE 5531 OR PERMISSION OF INSTRUCTOR.

**CE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**CE 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Electrical Engineering Graduate Courses

**EE 5513 Techniques of Computer-Aided Circuit Analysis and Design 3 credits.** Automatic formulation of equations and fundamental programming techniques pertinent to computer-aided circuit analysis, design, modeling. May include sensitivity calculations, system analogies, optimization. PREREQ: ENGR 3340, 3342.

**EE 5516 Applied Engineering Methods 3 credits.** Applied discrete and continuous probability, random variables, probability distributions, sampling, data description, parameter estimation, hypothesis testing, inference, correlation and linear and multiple regression.

**EE 5517 Probabilistic Signals and Systems**

**3 credits.** Introductory probability theory. Density functions, moments, random variables. Normal, exponential distributions, Estimation of mean and variance. Correlation, spectral density. Random processes, response of linear systems to random inputs. PREREQ: EE 3345.

**EE 5518 Communication Systems 3 credits.** Basic principles of analysis and design of modern analog and digital communication systems, including transmission and reception. PREREQ: EE 3329 AND EE 3345.

**EE 5525 Mechatronics 3 credits.** Basic kinematics, sensors, actuators, measurements, -electronics, microprocessors, programmable logic controllers, feedback control, robotics and intelligent manufacturing. Cross-listed as ME 5525. PREREQ: ENGR 3340, ENGR 3342, MATH 3360.

**EE 5526 Computer Architecture and Organization 3 credits.** Design, implementation, and performance evaluation of modern computer systems; instruction sets; datapath and control optimization; single-cycle, multiple-cycle, and pipelined processors; hazard detection and resolution; memory hierarchies; peripheral devices. PREREQ: EE 2274 and EE 2275 or EQUIVALENT.

**EE 5527 Embedded Systems Engineering 2 credits.** Integration of algorithms, software and hardware to design real-time and embedded systems for signal processing and control. PREREQ: CS 5575. COREQ: EE 5527L.

**EE 5527L Embedded Systems Engineering Laboratory 1 credit.** Lab activities include the complete process of design and implementation of embedded signal processing and control systems through the integration of algorithms, software, and hardware. COREQ: EE 5527.

**EE 5529 Advanced Electronics 2 credits.** Introduction to operational amplifiers and their applications, current mirrors, active loads, differential amplifiers, feedback and stability, filters, oscillators, Schmitt triggers, power amplifiers and voltage regulators. PREREQ: EE 3329, 3345. COREQ: EE 5529L.

**EE 5529L Advanced Electronics Laboratory 1 credit.** Laboratory course emphasizing transistor biasing, amplifiers and other basic analog circuit designs. COREQ: EE 5529.

**EE 5532 Introduction to VLSI Design 3 credits.** Photolithography, CMOS fabrication, MOSFET operation, CMOS passive elements, design rules and layout, CAD tools for IC design, invertors, static logic and transmission gates, dynamic logic. PREREQ: EE 3329.

**EE 5533 Mixed Signal Design 3 credits.** Analog IC design. Passive components, parasitic elements, component matching, IC layout techniques, amplifiers, current sources, comparators, op amps, noise, switched capacitor circuits. Includes lab work using design tools. PREREQ: EE g532.

**EE 5572 Electrical Machines and Power 3 credits.** Theory and application of electrical machinery and transformers. Power and energy relationships in power systems, transmission lines, network solutions and symmetrical components. Includes 1-credit laboratory component. PREREQ: ENGR 3340, ENGR 3332, MATH 3360.

**EE 5572L Electrical Machines and Power Laboratory 1 credit.** Laboratory course emphasizing an experimental study of the fundamental physical phenomena and characteristics of transformers, induction motors, synchronous and direct current machines. COREQ: EE 5572.

**EE 5573 Automatic Control Systems 3 - credits.** Study of continuous-time and control systems using both frequency-domain and state-space techniques; topics include design methodology, performance specifications, analysis and design techniques. PREREQ: EE 3345 OR ME 5505.

**EE 5574 Advanced Circuit Theory 3 credits.** Methods of analog electrical circuit analysis and synthesis. Topics include signal flow graphs, multi-port networks, simulation techniques, and topological methods for formulation of network equations. PREREQ: ENGR 3340.

**EE 5575 Digital Signal Processing 3 credits.** Design of recursive and non-recursive digital filters; frequency-domain analysis, fast Fourier transform techniques, spectral analysis; applications. Includes 1-credit laboratory component. PREREQ: EE 3345.

**EE 5576 Semiconductor Processing and Fabrication 3 credits.** Silicon semiconductor processing and basic integrated circuit fabrication. Physics, chemistry and technology in basic processing steps in production of integrated circuits. PREREQ: PHYS 2211-2212 AND MATH 1170 OR EQUIVALENT.

**EE 5578 Semiconductor Devices 3 credits.** Operating principles of basic building blocks of modern silicon-based semiconductor devices to include p-n junctions, field effect transistors and bipolar junction transistors. PREREQ: PHYS 2212 OR EQUIVALENT.

**EE 5579 Advanced Semiconductor Devices**

**3 credits.** Review of semiconductor band theory. Opto-electronics, quantum mechanics, heterojunctions, power and microwave semiconductor devices. PREREQ: EE 5578 OR EQUIVALENT.

**EE 5582 Principles of Power Electronics 3 credits.** Introduction to steady state converter modeling and analysis. Principles of converter dynamics and control including controller design. PREREQ: EE 3329. COREQ: EE 5573.

**EE 5584 Signal Processing Laboratory 1 credit.** Design finite and infinite response digital filters in digital signal processing system applications. COREQ: EE 5575.

**EE 5592 Digital Control Systems 3 credits.** Design of advanced control algorithms; topics include: observers and state estimation, linear quadratic regulator, frequency-domain techniques for robust control, and an introduction to multivariable and nonlinear control. PREREQ: ENGR 5573.

**EE 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**EE 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Environmental Engineering Graduate Courses

**ENVE 5504 Environmental Risk Assessment 3 credits.** Quantitative and qualitative approaches to characterizing and controlling contaminant pathways. Risk assessment requirements and implications in superfund projects for engineers working on remediation. PREREQ: BIOL 5521 AND ENGR 5501 IF REQUIRED BY HWM.

**ENVE 5508 Water and Waste Water Quality 3 credits.** Principles of chemistry in applications to water and waste water treatment systems for water quality control and reuse. PREREQ: CHEM 1111, CHEM L1111, CHEM 1112, CHEM L1112.

**ENVE 5509 Water and Waste Water Lab 1 credit.** Fundamental analytical procedures for measurement of water and wastewater quality. Introduction to materials and protocols associated with general environmental analytical techniques. COREQ: ENGR 5508.

**ENVE 5510 Introduction to Environmental Engineering 3 credits.** Introduction to physical, chemical, and biological principles of solid and hazardous waste management, water and waste water treatment, air pollution control, and national environmental regulation. PREREQ: ENVE 5508 OR EQUIVALENT.

**ENVE 5530 Air Pollution and Solid Waste 3 credits.** Sources, characteristics, regulations, and effects of air pollution and solid waste on environmental quality; analysis and design of control systems, including the recovery of resources from solid waste. PREREQ: PERMISSION OF INSTRUCTOR.

**ENVE 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENVE 6610 Introduction to Radioactive Waste Management 3 credits.** Principles and practices of radioactive waste storage, transportation and disposal. Evolution of government regulations and current solutions developed in response to the regulations. PREREQ: ENGR 5501.

**ENVE 6611 Treatment Systems for Environmental Engineering 3 credits.** Fundamental principles and processes for physical, chemical, and biological treatment of wastes including mixing, flocculation, sedimentation, stripping, aeration, sorption and leaching. Some experiments required. PREREQ: ENVE 5510.

**ENVE 6615 Water Quality Modeling and Control 3 credits.** Fundamental principles for mathematical modeling and analysis of environmental contaminant's fate and transport in lakes, rivers, estuaries, and groundwater. PREREQ: ENVE 5510.

**ENVE 6616 Biological Treatment of Wastewater 3 credits.** Fundamental principles, design, and operation of aerobic and anaerobic biological waste treatment processes. PREREQ: ENVE 5510.

**ENVE 6617 Environmental Systems Engineering and Design 3 credits.** Application of physical, chemical, and biological operations

and processes to the design of water, waste water, and industrial waste treatment systems. PREREQ: ENVE 5510 OR PREVIOUS DESIGN EXPERIENCE.

**ENVE 6629 Physical and Chemical Treatment of Water and Waste Water 3 credits.** Fundamental principles, design and operations of physical and chemical water and waste water treatment processes. Removal of hazardous materials emphasized. PREREQ: ENVE 5510.

**ENVE 6630 Air Pollution and Control 3 credits.** An introductory air pollution course. Regulations, atmospheric dispersion models, control of emissions and sources and human health effects are emphasized. PREREQ: ENVE 5510.

**ENVE 6650 Thesis 1-6 credits.** Thesis research must be approved by the student's advisory committee. Total of six credits are required to satisfy the research requirements for the degree. May be repeated. Graded S/U.

**ENVE 6652 Advanced Topics 3 credits.** Advanced topics in Environmental engineering and related fields, depending upon the interest of students and faculty. May be repeated for credit when topics vary. PREREQ: PERMISSION OF INSTRUCTOR.

**ENVE 6660 Special Project 1-3 credits.** A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Total of three credits may be used to satisfy the degree requirement. May be repeated. Graded S/U.

**ENVE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ENVE 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Health Physics Graduate Courses

(See page 195 for Health Physics courses)

## Measurement and Control Engineering Graduate Courses

**MCE 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MCE 6640 System Modeling, Identification and Simulation 3 credits.** Model development, off-line and on-line identification methods for engineering systems, diagnostic tests and model validation and analog and digital simulation methods. PREREQ: EE 5573.

**MCE 6642 Advanced Control Systems 3 credits.** State space analysis and design to include stability, controllability, observability, realizations, state feedback and estimation. PREREQ: EE/ME 5573 OR EQUIVALENT.

**MCE 6643 Advanced Measurement Methods 3 credits.** Instrumentation systems used in detection and signal conditioning of thermal-hydraulic process variables, radiation including lasers, and electrical and mechanical properties of materials. PREREQ: ME 5505 OR EQUIVALENT.

**MCE 6644 Measurements and Controls Laboratory 3 credits.** Work with measuring systems for a variety of process variables. Investigation of characteristics of various process control components and systems. Transient and stationary conditions will be included. PREREQ: MCE 6642 AND MCE 6643 OR EQUIVALENT.

**MCE 6645 Advanced Control Theory and Applications 3 credits.** Topics selected from advanced control theory and applications, depending upon the interest of students and faculty. May be repeated for credit when topics vary. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6646 Intelligent Control Systems 4 - credits.** Analysis and design of systems using intelligent techniques such as neural networks, fuzzy logic, genetic algorithms, and artificial intelligence. PREREQ: PERMISSION OF INSTRUCTOR.

**MCE 6647 Nonlinear Control Systems 3 credits.** Phase plane analysis. Lyapunov stability. Describing functions. Singular perturbation and feedback linearization. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6649 Robotics and Automation 3 credits.** Robotic manipulator kinematics, dynamics, trajectory planning, sensors, programming and control. The application concepts of robotics in industry will be briefly introduced. PREREQ: MCE 6642.

**MCE 6650 Thesis 1-9 credits.** Thesis research must be approved by the student's advisory committee. Six credits may be used to satisfy the research requirements for the degree. Graded S/U.

**MCE 6652 Special Problems 1-3 credits.** Special experimental, computational, or theoretical investigation leading to development of proficiency in some area of engineering. Formal report required. PREREQ: PRIO PROJECT APPROVAL REQUIRED BY AN ENGINEERING FACULTY. May be graded S/U. May be repeated.

**MCE 6653 Optimal Control Systems 3 credits.** Performance index. Calculus of variations, Pontryagin maximum principle. Linear quadratic regulator. Time and fuel optimal control. Linear quadratic Gaussian problem. Kalman Filter. H optimal control. Industrial applications. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6654 Adaptive Control Systems 3 credits.** Real-time parameter estimation. Deterministic, stochastic, and predictive self-tuning regulators. Model reference adaptive systems. Auto tuning. Stochastic adaptive control. Properties of adaptive systems. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6656 Robust Control Systems 3 credits.** Analyze and design basic robust controllers using methods for robustness investigation such as v-analysis and H 4 control algorithms. PREREQ: MCE 6642 OR PERMISSION OF INSTRUCTOR.

**MCE 6660 Special Project 1-9 credits.** A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Graded S/U. May be repeated.

**MCE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MCE 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Mechanical Engineering Graduate Courses

**ME 5505 Measurement Systems Design 3 credits.** Introduction to instrumentation systems analysis and design, including: statistical analysis, system modeling, actuators, transducers, sensor systems, signal transmission, data acquisition, and signal conditioning. PREREQ: ENGR 3340, ENGR 3342 AND MATH 3360.

**ME 5506 Measurement Systems Laboratory 1 credit.** Principles of measurement, measurement standards and accuracy, detectors and transducers, digital data acquisition principles, signal conditioning systems and readout devices, statistical concepts in measurement, experimental investigation of engineering systems. COREQ: ME 5505.

**ME 5515 Model Theory 3 credits.** Theory of design and texting of scaled system models. Dimensional analysis with application to physical models. True and distorted models, linear and non-linear models, and analogies. Laboratory work required. PREREQ: ME 3341 AND CE/ME 3350.

**ME 5525 Mechatronics 3 credits.** Basic kinematics, sensors, actuators, measurements, electronics, microprocessors, programmable logic controllers, feedback control, robotics and intelligent manufacturing. Cross-listed as EE 5525. PREREQ: ENGR 3340, ENGR 3342, MATH 3360.

**ME 5540 Vibration Analysis 3 credits.** Free vibration and forced response of single and multiple degree of freedom systems, normal modes, random vibrations, discrete, lumped mass, and continuous systems. Vibration control techniques. PREREQ: MATH 3360 PREREQ OR COREQ: ME 3323.

**ME 5551 Compressible Fluid Flow 3 credits.** Fundamentals of compressible flow and gas dynamics, development of basic principles, practical applications. Techniques developed for isentropic friction, heat addition, isothermal flow, shock wave analysis, propagation, expansion waves, reflection waves. PREREQ: ME 3307 AND CE/ME 3341.

**ME 5573 Mechanical Control Systems 3 credits.** Discrete and continuous time control system design, signal processing, embedded systems. PREREQ: ME 2220, EE 2240, and MATH 3360, or Equivalent.

**ME 5568 Behavior of Composite Materials 3 credits.** Macro and micromechanical behavior of laminae and laminates; bending, buckling and vibration of laminated beams and plates. Cross-listed as CE 5568. PREREQ: ENGR 3350 AND MATH 2230.

**ME 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ME 6607 Advanced Thermodynamics 3 credits.** Thermodynamic property relationships, gas mixtures, thermodynamic optimization, irreversible thermodynamics, structural theory, applications towards solar power, power generation, and refrigeration systems. PREREQ: ME 4416, MATH 3360.

**ME 6635 Transport Phenomena 3 credits.** Systematic and parallel treatment of heat transfer, mass transfer, and momentum transfer (viscous flow). PREREQ: Heat Transfer (ME 4476), Fluid Mechanics (ME 3341), Differential Equations (MATH 3360). RECOMMENDED: Advanced Engineering Math (ENGR/MATH 5521).

**ME 6640 Advanced Vibrations 3 credits.** Vibrational theory of continuous, multiple-degree-of-freedom systems, and random vibrations. Use of advanced numeric techniques. PREREQ: ME 5540. COREQ: ENGR/MATH 5521.

**ME 6644 Advanced Kinematic Design 3 credits.** Application of kinematic synthesis theory to the design of planar and spatial articulated systems. Finite-position precision synthesis, trajectory and workspace optimization and motion analysis for planar, spherical and spatial open and closed-loop chains. PREREQ: MATH2240 and ME3320.

**ME 6648 Robotic Grasping and Manipulation 3 credits.** Theoretical issues for multi-fingered robotic hands. Grasp analysis, grasp synthesis, mechanics of manipulation, path planning. Screw theory, twists, and wrenches. Study of robotic hands and related sensing devices. PREREQ: none

**ME 6650 Thesis 1-9 credits.** Thesis research must be approved by the student's advisory committee. Six credits may be used to satisfy the research requirements for the degree. Graded S/U. May be repeated.

**ME 6652 Special Problems 1-3 credits.** Special experimental, computational, or theoretical investigation leading to development of proficiency in some area of engineering. For-

mal report required. PREREQ: PRIO PROJECT APPROVAL REQUIRED BY AN ENGINEERING FACULTY. May be graded S/U. May be repeated.

**ME 6660 Special Project 1-9 credits.** A significant project, involving engineering applications, toward the completion of M.S. program with non-thesis option. Includes a report and oral examination. Graded S/U. May be repeated.

**ME 6665 Finite Element Methods 3 credits.** Introduction to finite element methods applied to linear one- and two-dimensional problems. Application of the concept to specific problems in various fields of engineering and applied sciences. Cross-listed as CE 6665. PREREQ: ENGR 3350 AND MATH 3360.

**ME 6676 Conduction Heat Transfer 3 credits.** Single and multiple dimension steady and unsteady conduction heat transfer. Non-constant thermal conductivity. Emphasis on problem formulation, analytical solutions, and numerical techniques. PREREQ: ME 4476. CO-REQ: MATH 5521.

**ME 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**ME 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Nuclear Engineering Graduate Courses

**NE 5519 Energy Systems and Nuclear Power 3 credits.** Fundamentals of conventional and renewable energy systems. Energy sources, distribution, use and environmental effects. Nuclear power plant "balance of plant" design. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PREREQ: ME 3307 and MATH 3360 or instructor permission.

**NE 5521 Mathematical Methods in Nuclear Engineering 3 credits.** First and second order ordinary differential equations (ODEs), generalization to systems of ODEs, Laplace transforms, series solutions to second order ODEs, special functions and Sturm-Liouville systems; partial differential equations by separation of variables. Examples will emphasize practical problems of interest to nuclear engineers. PHYS 6602 may be substituted for this course.

PREREQ: MATH 3360.

**NE 5543 Thermal Fluids Laboratory 1 credit.** Measurement of thermal and fluid properties, experiments on fluid flow and heat transfer systems. Cross-listed as ME 5543. PREREQ: CE/ME/NE 3341 AND ME/NE 5576.

**NE 5545 Reactor Physics 3 credits.** Neutron balance equations in reacting systems, diffusion and diffusion-perturbation theory, introductory reactor kinetics, the multi-group energy approach, neutron slowing down and thermalization, introductory concepts in reactor systems. PREREQ: NE 3302 or NSEN 6685, NE 5521 OR EQUIVALENT.

**NE 5546 Nuclear Fuel Cycle Systems 3 credits.** Uranium mining, milling, conversion; enrichment technology including cascade analysis; fuel fabrication, criticality safety in the nuclear fuel cycle, introduction to ORIGEN and Monte-Carlo methods and codes, reactor fuel management, waste management (LLW, HLW, TRU waste). PREREQ: NE 3302 or NSEN 6684 OR EQUIVALENT.

**NE 5548 Design, Control and Use of Radiation Systems 3 credits.** Generation detection and measurement systems design for control and use of neutrons and gamma rays in industrial and medical applications. Radiation protection, regulations, environmental and economic considerations. COREQ: ENGR 5545.

**NE 5551 Nuclear Seminar 1 credit.** Current topics in nuclear science and engineering. PREREQ: Graduate student status in NSEN or HPHY program.

**NE 5558 Monte Carlo Methods and Applications 3 credits.** Basics of the application of stochastic methods to calculate the transport of neutrons, photons, and other sub-atomic particles. Includes introduction to the MCNP code, and sample application problems in both nuclear reactor design and in applications such as radiation beams used for cancer therapy.

**NE 5576 Heat Transfer 3 credits.** Principles and engineering applications of heat transfer. Analysis of conduction, convection and radiation heat transfer. Design of heat exchangers. PREREQ: ME 3341.

**NE 5578 Reliability and Risk Assessment 3 credits.** Methods of evaluating process and equipment reliability. Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance. Specific, evaluated graduate-level activities and/or performances are identified in the course syllabus. PRE-

REQS: MATH 3360 and EE 4416 or permission of instructor.

**NE 5587 Medical Applications in Engineering and Physics 3 credits.** Applications of engineering and physics, principles, particularly nuclear science, to medicine. Covers radioisotopes, x-ray imaging, magnetic resonance and ultrasound imaging, radiation protection, codes and standards. PREREQ: MATH 3360 AND PHYS 2212.

**NE 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NE 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NE 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Nuclear Science and Engineering Graduate Courses

**NSEN 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NSEN 6601 Nuclear Engineering Experiments 3 credits.** Experimental verification of theoretical models will be stressed. Kinetic behavior, neutron spatial distribution, perturbation, and other characteristic equations will be investigated. PREREQ: NE 5545 OR EQUIVALENT.

**NSEN 6603 Thermal Hydraulics 3 credits.** Advanced studies of both fluid flow and heat transfer in nuclear reactor cores. Conservation equations, constitutive relations, formulation and solution approaches for complete equation set. PREREQ: CE/ME/NE 3341, ME 5576.

**NSEN 6604 Dynamic Behavior of Nuclear Systems 3 credits.** Kinetic behavior of nuclear reactors including feedback effects of power transients, fuel burn up, coolant perturbations, etc. Mathematical models developed to predict both short and long term behavior. PREREQ:

NE 5545.

**NSEN 6605 Nuclear Reactor Design 3 credits.** Detailed treatment of current, advanced nuclear power reactor designs. Emphasis on the inherent and engineered safety features and on advantages and disadvantages of each design. PREREQ: NE 5545.

**NSEN 6608 Radiation Transport 3 credits.** Advanced treatment of radiation transport and shielding concepts; interaction and attenuation of neutral particles, including photons. Use of deterministic and Monte-Carlo computer codes. PREREQ: NE 5521 or EQUIVALENT.

**NSEN 6609 Radiation Detection, Measurements, and Applications 3 credits.** Advanced treatment of radiation detectors measurement techniques, data acquisition, and signal processing. Emphasis on applications in science, industry and medicine. PREREQ: NE 5545.

**NSEN 6615 Introduction to Practical Nuclear Engineering 3 credits.** Basic concepts of nuclear reactor physics. Present nuclear plant descriptions. Evaluation of fossil, nuclear plant environmental impacts, cycle and overall efficiencies and economics. PREREQ: ACCEPTANCE IN CERTIFICATE PROGRAM in APPLIED NUCLEAR ENERGY.

**NSEN 6616 Special Applications of Nuclear Energy 3 credits.** Isotopic power systems for remote applications, nuclear propulsion for space vehicles, process heat and space heat reactors, maritime nuclear power plants, medical and industrial applications of nuclear radiation. PREREQ: ACCEPTANCE IN CERTIFICATE PROGRAM in APPLIED NUCLEAR ENERGY.

**NSEN 6617 Applications of Nuclear Energy 3 credits.** Continued study of nuclear power plant design, operation, and safety analysis of present plants, proposed future concepts. Examination of biological effects of radiation and nuclear medicine, food irradiation and waste heat applications. PREREQ: NSEN 6615 and ACCEPTANCE IN CERTIFICATE PROGRAM in APPLIED NUCLEAR ENERGY.

**NSEN 6618 Radioactive Waste Management 3 credits.** Overview of historical, legal, political and social aspects radioactive waste management; radwaste across the nuclear fuel cycle; waste definition and classification, treatment and disposal; design and assessment of repositories and radionuclide migration. PREREQ: NSEN 6684, NSEN 6685 or EQUIVALENT.

**NSEN 6619 Nuclear Waste Immobilization 3 credits.** Materials chemistry and fabrication

of waste glasses, ceramics and cements; waste form development and characterization; waste form degradation, radionuclide release and migration. PREREQ: ENGR 3350, NE 5546 or EQUIVALENT.

**NSEN 6631 Computational Transport Theory 3 credits.** Study of advanced theories used in the calculation of nuclear reactor parameters including such topics as the Boltzman transport equation with energy and space dependence, multi-group, multi-region diffusion for reflected systems, perturbation theory, etc. Special emphasis will be given to the application of digital computers in nuclear reactor design problems. PREREQ: NSEN 6608.

**NSEN 6678 Probabilistic Risk Assessment 3 credits.** Probabilistic methods applied to analysis and design. Setting probabilistic design objectives and calculating probabilistic performance emphasized. PREREQ: NSEN 6605

**NSEN 6684-6685 Nuclear Engineering Basics 3 credits.** For BS physical science graduates with little or no nuclear background. Lecture, laboratory each semester. Nuclear science; reactor physics, kinetics and thermal hydraulics; nuclear fuel cycle. PREREQ: PERMISSION OF NE DEPARTMENT CHAIR

**NSEN 6686 Modeling, Experimentation, and Validation 3 credits.** 2 week summer course. Provides early career nuclear engineers with advanced studies in integrated modeling, experimentation, and validation. The course emphasis rotates yearly among thermal-hydraulics, reactor physics, fuels and materials, and simulations. PREREQ: PERMISSION OF NE DEPARTMENT CHAIR

**NSEN 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**NSEN 8850 Doctoral Dissertation variable credits.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

## Engineering and Applied Science Doctoral Graduate Courses

**EAS 8850 Doctoral Dissertation variable credit.** Research toward completion of the dissertation for the Ph.D. in Engineering and Applied Science. Graded S/U. May be repeated.

# Department of Geosciences

Chair and Professor:

Professors: Link, McCurry, Rodgers

Associate Professor: Crosby, Tapanila

Assistant Professors: Kobs-Nawotniak, Godsey, Delparte, Pearson

Research Associate Professor: Shapley

Assistant Instructors: Tapanila, Bottenberg

Joint Appointment Faculty: Finney, Lohse

IGS Research Geologist: Welhan

GIS TReC Director: Weber

Emeritus Professor: Hughes

Affiliate Faculty: Ames, Dehler, Davis,

Hailemichael, Heath, Manic, Plummer, Ritzenour, Schlegel, Sherwin, Smith, Solan, Stephens

## Goals - All Programs

1. Graduates will think critically and comprehend written and verbal communications about geoscience topics.
2. Graduates will have specific skills for careers in geoscience and related industries, licensure, or to continue in graduate study.
3. Graduates will attain employment in geology or related fields or gain admission to graduate programs.

## Graduate Degree Programs

### Goals

1. Graduates will be prepared to communicate effectively at the professional level.
2. Graduates will be prepared to define, implement, and complete geologic investigations.
3. Graduates will have professional skills for employment or further graduate study.

### Objectives

1. Provide graduate students with coursework, laboratory experiences, field exercises and research opportunities in order to achieve all goals set forth above.
2. Provide graduate students with a professional interactive environment that improves their opportunities to enter successful careers in geoscience.
3. Increase graduate students' probability of obtaining employment in academia or industry, or of being accepted for doctoral studies.

## Admission Requirements

A complete graduate application for classified status in the Idaho State University Geosciences Department consists of:

1. The student must apply to and meet all criteria for admission to the Graduate School. In addition to the general requirements of the Graduate School. Applicants must hold the degree of Bachelor of Science or Bachelor of Arts in geology or the equivalent as determined by the department. An Idaho State University Graduate School application form and official copies of transcripts from all previous coursework are required.
2. GRE aptitude scores - 50th percentile or above in two of the three categories, or strengths clearly demonstrated in other components of the application
3. A letter of intent and statement of goals in Graduate School
4. Three letters of recommendation
5. Notification to the department: geology@isu.edu

## Doctor of Philosophy in Geosciences

### Brief Description

The Ph.D. program in geosciences is offered to those students who have demonstrated strong aptitude for research and scholarly activity. Research can be conducted in any field of the geosciences in which ISU faculty have expertise. The student's course of study will be determined in consultation with his or her advisors. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average and making satisfactory progress toward the degree. In order to complete the research and prepare the dissertation, the program will normally require at least four years of full-time study beyond the master's degree. In some cases, students without an appropriate M.S. degree but demonstrating an exceptional undergraduate academic record and aptitude for research may be directly admitted to the Ph.D. program.

### Admission Requirements

All applicants must meet Idaho State University Graduate School admission requirements for doctoral programs. In addition, applicants must have attained a minimum of a bachelor's degree in geosciences or a closely related field (environmental science, physics, engineering, chemistry, biology, etc.). The student's course of study will be determined through consultation with the lead advisor, the department chair or the department's graduate advising committee. Students may be required to com-

plete any missing course material that is required for the B.S. degree in geosciences at Idaho State University.

A complete graduate application for classified status in the Idaho State University Geosciences Department Ph.D. program consists of:

1. GRE scores (a minimum of 50th percentile is required in both verbal and quantitative categories); Students for whom English is a second language who do not meet the minimum verbal GRE score must meet the Graduate School minimal TOEFL score.
2. An Idaho State University Graduate School application form, fee, and official copies of transcripts;
3. Three letters of recommendation;
4. A statement outlining your motivation for graduate school and your longer term career goals.

### General and Course Requirements

The Ph.D. degree requires completion of at least 84 graduate credits. Of these, at least 32 credits must be doctoral dissertation credits (GEOL 8850) and 35 credits must come from coursework at the graduate level, 2 to 4 of which must be a graduate seminar. Of the total 84 credits, at least 40 must be taken from the ISU Department of Geosciences. Students entering the program with a master's degree may receive credit for up to 30 credits toward the Ph.D., split between dissertation and coursework as appropriate, subject to the department chair's approval. Classes and seminars may be taken at, or in collaboration with, Boise State University and/or the University of Idaho.

### Program of Study

An advisory committee of 3-4 graduate faculty, inclusive of the major professor, will guide each student in establishing his or her program of study based upon the student's background and research interests. The committee has the responsibility of ensuring that the student has adequate knowledge to support research in his or her area of research.

During the full-time student's third semester, the student will sit for a written Qualifying Examination. Exceptions to this schedule may be made when a student has academic deficits to make up, in which case the student may be granted an additional year. The student will be allowed two attempts to pass this examination. The student will be admitted to candidacy upon passing the Qualifying Examination.

A dissertation committee of 3-4 graduate faculty and a Graduate Faculty Representative (GFR), chaired by the candidate's major pro-

essor, must be decided upon within six months of passing the qualifying examination. The dissertation committee may include individuals from other departments, affiliate graduate faculty, or graduate faculty from collaborating universities, such as Boise State University or the University of Idaho, but the majority of any committee must consist of graduate faculty from the ISU Department of Geosciences. In the semester following the passing of the qualifying exam, the full-time candidate, with guidance from the major professor, must satisfactorily complete the Preliminary Examination. This consists of an oral presentation and defense of a written proposal for dissertation research to the student's dissertation committee.

The research and dissertation preparation must be done under the close supervision of the dissertation committee and must include at least one full year of work performed under the supervision of Idaho State University graduate faculty. The dissertation must demonstrate the student's ability in independent investigation and must be a contribution to scientific knowledge. It must display mastery of the literature of the subject field and must demonstrate an organized, coherent development of ideas, with a clear exposition of results and a creative discussion of the conclusions.

Dissertation examination approval requires a public presentation of the dissertation and a satisfactory oral defense to the dissertation committee. Doctoral oral examinations are open to all regular members of the graduate faculty as observers. Further, oral presentations are open to the public until questioning by the dissertation committee begins. Additional details regarding the graduate timeline are available on the ISU Department of Geosciences website.

## Doctor of Philosophy in Engineering and Applied Science

A Ph.D. program in Engineering and Applied Science, administered through the College of Engineering, is available to Geoscience students who wish to emphasize Subsurface Science. The complete program description is provided under the College of Engineering section of the Graduate Catalog.

## Master of Science in Geology

The M.S. degree is offered to those students who have degrees in geology who have

demonstrated the potential for research and a professional career. Classified (degree-seeking, fully accepted) admission to the program is recommended by the graduate faculty of the Geosciences Department.

The student's course of study will be determined by consultation and possibly an entrance examination. Students will normally be required to complete deficiencies at the undergraduate level any courses required for the B.S. in geology at Idaho State University that they have not already taken. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average and making satisfactory progress toward the degree.

Unclassified status is used for students with large numbers of deficiencies or with low undergraduate GPAs. Unclassified students may apply for classified status when their performance warrants.

### General Requirements

A student who wants to earn an M.S. in Geology must complete at least 30 credits of course work. These credits must be earned under the following conditions:

1. The student must earn at least 17 credits (including six Thesis credits) at the 6600 level in Geology.
2. The remaining 13 credits may be earned at the 5500 or 6600 level, of which eight credits may come from a related discipline.

In addition to the 30 required credits, each student must take two approved courses from outside the Geosciences Department (e.g., technical writing, anthropology, etc.) or may opt to take the foreign language challenge exam at the elementary level.

The department requires that the following core courses be completed. These classes are normally taken during the first and second semesters of graduate study:

GEOL 5591 Seminar	1 cr
GEOL 6601 Advanced Physical Geology	2 cr
GEOL 6603 Geologic Writing Seminar	1 cr

Graduate students may not sign up for GEOL 6650 (Thesis) until their thesis prospectus has been submitted and approved by the Thesis Committee. Additionally, all graduate students are required to present at least one geology colloquium dealing with their thesis topic prior to taking their oral examination.

## Master of Science in Geology with Emphasis in Environmental Geoscience

A Geology M.S. degree may be awarded with the annotation "Emphasis in Environmental Geoscience" added, if the student completes the requirements for an M.S. Geology degree plus at least 9 credits in approved graduate-level courses in the general area of Environmental Geoscience. Students who wish their M.S. degree to contain the added designation "With Emphasis in Environmental Geoscience", need to file an amended program of study form with the Graduate School. The curriculum may be developed in, but is not limited to, the following areas: surface and groundwater hydrology; environmental geochemistry; surficial geological processes; geomorphology; volcanic, earthquake and other geologic hazards; environmental geophysics; assessment and remediation of hazardous waste sites; Neogene and Quaternary geology. Courses in related sciences and engineering disciplines may also be included.

The curriculum must be approved by the student's graduate committee, and may include components taken at Boise State University and/or the University of Idaho. Inter-university graduate committees are encouraged.

## Master of Science in Geographic Information Science

The M.S. in GISci degree is offered to students who wish to become competent geospatial researchers and as Geographic Information Systems (GIS) analysts and developers. The program focuses on advancing knowledge to acquire, store and manage, visualize, model, and analyze information about spatial features and phenomena, with strong emphasis on real-world geospatial applications. The M.S. in GISci is designed as an interdisciplinary study of the nature, function, and development of spatial information systems and the application of these systems in research. Students will be involved in the technical study of the design and evaluation of scientific inquiry methods, tools, and techniques that will involve formulating hypotheses, collecting spatial information, and developing techniques for spatial analysis.

Applicants must hold a degree of Bachelor of

Science or Bachelor of Arts in any discipline that allows research focus on geotechnologies including, but not limited to: Geosciences, Anthropology, Biology, Business, Information Technology, Computer Science, and Engineering. Students can focus on either the development of new GIS tools and analytical procedures or the application of established and new tools and procedures to scientific problems. Each student in this program will have a member of the current Geotechnology Faculty as his/her major advisor. Applicants will be requested to state an advisor preference at the time of application; otherwise a preliminary advisor will be assigned upon acceptance to the program.

**NOTE:** Due to the interdisciplinary nature of this program, applicants should initially contact a faculty member or the Geotechnologies Program Director in the Department of Geosciences in order to match their interests with those of potential faculty advisors.

### Admission Requirements

Applicants must apply to and meet all criteria for admission to the Graduate School as well as additional criteria for admission to the Department of Geosciences.

### General Requirements

In their application, students must state a preference for the Thesis Option or Non-thesis Option for the M.S. in GISci. The geotechnologies graduate faculty will determine for which track the student is accepted.

**Thesis Option:** Students desiring to enter careers in research or to pursue a Ph.D. are encouraged to request the Thesis Option M.S. in GISci. Students supported on Research Assistantships or Teaching Assistantships will typically be required to enroll in the Thesis Option. A minimum of 30 credit hours is required for completion of the Thesis Option M.S. in GISci, with a minimum of 15 credit hours (including six thesis credits) completed in 6600-level courses. The student's graduate advisory committee (major advisor and co-advisor) will establish specific research goals, thesis topic, and the course electives in the program of study.

**Non-Thesis Option:** The Non-Thesis Option M.S. in GISci is particularly suited for working professionals who are interested in earning additional education without interrupting their careers. Typically students are not awarded Research Assistantships or Teaching Assistantships in the Non-Thesis Option. A minimum of 30 credit hours is required for completion of the Non-Thesis Option M.S. in GISci, with a minimum of 15 credit hours completed in 6600-level courses. The student must pre-

pare and submit to the Geotechnologies Program Director a program of study in his or her first semester indicating the courses to be taken to meet these requirements. In their final semester, all Non-Thesis Option students will complete a written and oral cap-stone exam administered by geotechnologies graduate faculty.

All M.S. in GISci students are required to take a 1 credit hour graduate seminar (in any related discipline) and eight credit hours of core courses. Generally these will be taken during the first year of study. Prerequisites for core courses are designed to permit students entering the M.S. program from all disciplines. Students entering with some or all of the core courses taken at the undergraduate level may, with permission from the student's advisory committee, substitute other graduate-level courses in the program of study.

Program requirements are summarized as follows:

Graduate Seminar, (taken in a related discipline)	1 cr
Core Geotechnologies Courses	8 cr
Electives	15 cr
Thesis (GEOL 6650)	6 cr
Total (includes 15 hours at 6600-level)	30 cr

#### Section A - Core Courses

GEOL 5504 Advanced GIS	3 cr
GEOL 5507 GPS Applications in Research	3 cr
GEOL 5508 Geotechnology Seminar	2 cr
GEOL 5509 Remote Sensing	3 cr

#### Section B - Electives

ANTH 6641 Research Project 1-6 credits	1-6 cr
BIOL 5518 Ecotopics: Ecological Applications of GIS	2 cr
BIOL 6651 Advanced Topics in Ecology: Landscape Ecology	3 cr
BIOL 5599 Advanced Data Analysis for Biologists	3 cr
CIS 5503 Systems Analysis and Logical Design	3 cr
CIS 5507 Database Design and Implementation	3 cr
CIS 5524 Decision Support Systems	3 cr
CIS 5540 Object-Oriented Development	3 cr
CIS 5590 Management of Information Systems and Information Security	3 cr
CS 5551 Database Theory and Implementation	3 cr
CS 5542 GUI Development	3 cr
GEMT 5530 GPS Principles and Applications	3 cr
GEMT 5532 Principles of Photogrammetry	3 cr
GEOL 5502 Geomorphology	3 cr
GEOL 5555 Geologic Data Methods	3 cr
GEOL 5527 Information Technology for GIS	3 cr
GEOL 5528 Programming for GIS	3 cr
GEOL 5571 Historical Geography of Idaho	3 cr
GEOL 5581 GeoTechnology Internship	1-3 cr
GEOL 6628 Advanced GIS Programming	3 cr
GEOL 6606 Geostatistical Spatial Data Analysis and Modeling	3 cr
GEOL 6607 Spatial Analysis	3 cr
GEOL 6609 Advanced Image Processing	1 cr
GEOL 6648 Research Problems	1-6 cr
GEOL 6604 Watershed Modeling	3 cr
HIST 5590 and HIST5590L Cartography: History and Design	4 cr
HIST 6610 Geographic Information Systems in Historical Studies	3 cr
HIST 5589 GIS for Social Sciences	3 cr

Certain graduate courses not shown in the list above may be acceptable with approval of the

student's advisory committee. All courses in the program of study require approval by the student's advisory committee and final approval by the Graduate School. Non-Thesis Option M.S. GISci students must have their planned program of study approved by the Geotechnologies Program Director in their first semester and by the Graduate School in their final semester.

Thesis Option M.S. GISci students are expected to complete a thesis that will be original and encompass all stages of scientific work, including project design, implementation, and communication. Graduate students may sign up for Thesis credits only after their thesis prospectus has been submitted and approved by the advisory committee. Additionally, all Thesis Option M.S. GISci students are required to present at least one colloquium dealing with their thesis topic prior to taking their oral examination

## Master of Natural Science in Geology

The Master of Natural Science (MNS) degree in Geology is designed primarily for teachers and prospective teachers who wish to broaden their understanding of geologic processes, the nature of natural resources, and the effect of humans on their environment. This is a non-thesis program of study with an emphasis on subject matter that will enhance the ability of the teacher to give students an interesting, up-to-date class in earth science or geology. Those interested in the program should possess or be working toward a standard teaching certificate. Requirements include completion of a prescribed program of study of 30 credits approved by a departmental committee selected by the student in consultation with the student's major professor and approved by the Dean of the Graduate School, and satisfactory performance on final written and oral examinations. See Master of Natural Science in the General information section of this catalog for details of the M.N.S. degree.

## Post-Baccalaureate GeoTechnology Certificate

(19 credits required)

## GeoTechnology Certificate

### Goals

1. Graduates will have the knowledge and skills necessary to apply geotechnology in their chosen careers or fields of inter-

- est.
2. Graduates will have the background to compete successfully for industrial and academic positions.

## Objectives

1. Learn and perform techniques in Geographic Information Systems, Global Positioning System, Remote Sensing, and related skills.
2. Increase knowledge of how geotechnical applications are incorporated into research, education, and industry.
3. Increase knowledge of geotechnical workforce needs and the future directions of geotechnological applications.

The Graduate Certificate in GeoTechnology is offered to students who wish to become proficient in the collection, management, and analysis of spatial data. Courses in three disciplines—geographic information systems (GIS), global positioning systems (GPS), and remote sensing—are used to teach the theory and application of GeoTechnology. Students may pursue the Certificate independently or in conjunction with another Idaho State University degree.

## Admission Requirements

Classified admission is necessary to complete the Certificate and is recommended by the graduate faculty of the Geosciences Department in accordance with standards set by the Graduate School. Applicants must have a bachelor's degree from an accredited school and meet the Graduate School admission requirements. All applicants must submit an application to the Graduate School. In addition, applicants who wish to apply for a Graduate Assistantship should submit to the Geosciences Department a GA request form, 3 letters of recommendation, and a statement of goals for graduate study.

## General Requirements

Students will complete 14 credits of required course work and 5 credits of elective course work to obtain the Certificate. The following courses are relevant:

### Core Courses (14 credits required):

GEOL 5503 Principles of GIS	3 cr
GEOL 5504 Advanced GIS	3 cr
GEOL 5507 GPS Applications in Research	3 cr
GEOL 5508 GeoTechnology Seminar	2 cr
or	
BIOL 5518 Ecological Topics	1 cr
GEOL 5509 Remote Sensing Applications	3 cr

### Electives (5 credits required):

ANTH 5582 Independent Problems in Anthropology*	3 cr
BIOL 5582 Independent Problems in Biology	1-3 cr allowed
CIS 5580 Data Base Management Systems	3 cr
GEOL 5527 Information Technology for GIS	3 cr

GEOL 5528 Programming for GIS	2 cr
GEOL 5580 Special Topics in GIS	1-3 cr
GEOL 5581 GeoTechnology Internship	1-3 cr
GEOL 6606 Geostatistics Spatial Data Analysis and Modeling	4 cr
GEOL 6607 Spatial Analysis	3 cr
GEOL 6628 Advanced GIS Programming	3 cr
GEOL 6648 Research Problems	1-3 cr allowed
TOTAL:	19 cr

Topic: Geographical Information Systems and Anthropology (or GIS and Anthropology)

For current information regarding GIS Center and courses, see the website: <http://giscenter.isu.edu>

## Geology Graduate Courses

**GEOL 5502 Geomorphology 4 credits.** Process-response approach to landforms and landscapes. Historical perspectives, endo- and exogenetic processes, equilibrium and relict landforms. Emphasis on interrelations among various geologic sub-disciplines. Field trips, some lab exercises. PREREQ: GEOL 3313 OR PERMISSION OF INSTRUCTOR.

**GEOL 5502L Geomorphology Laboratory 0 credits.**

**GEOL 5503 Principles of Geographical Information System 3 credits.** Study of GIS fundamentals, introduction to GPS, databases, and metadata. Build, edit, and query a GIS; basic spatial analysis. Requires competence in computer operating systems. PREREQ: CIS 1101 OR INSTRUCTOR APPROVAL; COREQ: GEOL 5503L.

**GEOL 5503L Principles of GIS Laboratory 0 credits.** Computer lab assignments to apply principles from GEOL 5503.

**GEOL 5504 Advanced Geographic Information Systems 3 credits.** Study of relational databases, including spatial analysis, and remote sensing. Exercises include digitizing, querying, digital terrain modeling, and image processing. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.

**GEOL 5505 Volcanology 3 credits.** Aspects of physical and chemical volcanology: types of volcanoes; interpretation of volcanic deposits; properties of magma; generation, rise, and storage of magma; volcanic hazards and prediction. PREREQ: ONE OF GEOL 3314, GEOL 5502, GEOL 4421, OR GEOL 5552.

**GEOL 5506 Environmental Geology 3 credits.** Humans and the environment. Topics include: industrial exploitation of fossil fuels, energy sources, soils, water and other materials, environmental health, pollution, waste disposal, hazards, disasters, and land use. PREREQ: GEOL 1100 OR GEOL 1101.

**GEOL 5507 GPS Application in Research 3**

**credits.** Overview of satellite positioning systems usage. Topics include GPS theory, basic mapping concepts, use of mapping grade receivers for GIS data collection, and processing of carrier phase data for high precision applications.

**GEOL 5508 GeoTechnology Seminar 2 credits.** GIS applications in natural and social sciences; ethical and legal issues, current status and recent advances in GeoTechnology. Lectures, discussion, readings. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.

**GEOL 5509 Remote Sensing 3 credits.** Fundamentals and applications of single frequency, multispectral, and hyperspectral remote sensing for physical, natural, engineering, and social sciences. Emphasis on acquiring, processing, integrating, and interpretation of imagery. Requires competence in computer operating systems.

**GEOL 5510 Science in American Society 2 credits.** Observational basis of science; technology's historical influences on scientific developments; perceptions of science in contemporary America; tools/strategies for teaching science. Cross-listed as PHYS 5510. PREREQ: JUNIOR STANDING AND PERMISSION OF INSTRUCTOR.

**GEOL 5511 Planetary Petrology 3 credits.** Chemistry, mineralogy, tectonic association and petrogenesis of the principal igneous and metamorphic rock types on Earth and other planetary bodies. PREREQ: GEOL 3314.

**GEOL 5512 Petrology Lab 2 credits.** Microscopic identification of igneous and metamorphic minerals and rocks. PREREQ: GEOL 3313 AND GEOL 2211. COREQ: GEOL 5511.

**GEOL 5515 Quaternary Global Change 3 credits.** Use and interpretation of landforms, sediments, and fossil life in the reconstruction of Quaternary events, environment, and climates. PREREQ: PERMISSION OF INSTRUCTOR.

**GEOL 5516 Global Environmental Change 3 credits.** Analysis of the causes and effects of both natural and human-induced environmental change. Integrates knowledge from other Earth Systems Science Courses, and examines and analyzes relevant problems in global environmental change using scientific methods. PREREQ: GEOL 1115, GEOL 1115L, GEOL 2310, GEOL 5506, and BIOL 2209.

**GEOL 5517 General Soils 3 credits.** Formation, morphology, and distribution of soils, including developments in soil classification.

PREREQ: GEOL 1100 OR GEOL 1101 OR GEOL 1115, OR PERMISSION OF INSTRUCTOR.

**GEOL 5520 Principles of Geochemistry 3 credits.** Chemistry of the earth; discussion of factors controlling abundance, distribution, and migration of chemical elements within the earth. PREREQ: GEOL 2211, AND CHEM 1111, CHEM L1111, CHEM 1112, CHEM L1112, OR PERMISSION OF INSTRUCTOR.

**GEOL 5522 Planetary Geology 3 credits.** Formation of planetary bodies (planets, moons, asteroids, and comets), internal and surficial processes, tectonics, and planetary exploration. PREREQ: GEOL 1100 OR GEOL 1101 OR PERMISSION OF INSTRUCTOR.

**GEOL 5527 Information Technology for GIS 3 credits.** Study of servers, networks, system administration, relational database design and management, spatial database engines, and serving maps on the internet. The course uses traditional lectures along with demonstrations, and hands-on exercises. PREREQ: GEOL 5503, GEOL 5503L OR PERMISSION OF INSTRUCTOR.

**GEOL 5528 Programming for GIS 3 credits.** Course introduces students to Visual Basic programming for GIS. Students will learn the fundamentals of object oriented programming, rapid application development, basic coding, help documentation, and compiling. Students will complete a project where they develop a GIS utility of their choice. PREREQ: MATH 1147 AND GEOL 1100 OR 1101, OR PERMISSION OF INSTRUCTOR.

**GEOL 5530 Principles of Hydrogeology 3 credits.** Surface and groundwater occurrence, movement and recovery, water quality and pollution, well construction principles, and computer modeling. PREREQ: GEOL 1100 OR GEOL 1101, OR PERMISSION OF INSTRUCTOR.

**GEOL 5531 Geobiology and the History of Life 4 credits.** Principles of biology and geology applied to the study of fossil invertebrates; consideration is given to morphology, classification, evolution, paleoecology, and the stratigraphic significance of fossils. PREREQ: GEOL 2202 (recommended); PERMISSION OF INSTRUCTOR.

**GEOL 5531L Invertebrate Paleontology Laboratory 0 credits.**

**GEOL 5535 Vertebrate Paleontology 4 credits.** Phylogenetic history of the vertebrates outlined in the light of morphology, classifica-

tion, evolution, paleoecology, and the significance of fossils. Field trips. Cross-listed as BIOL 5535. PREREQ: GEOL 5531 OR BIOL 3314 OR EQUIVALENT.

**GEOL 5539 Principles of Taphonomy 3 credits.** Effects of processes which modify organisms between death and the time the usually fossilized remains are studied. Emphasis on vertebrates. Cross-listed as ANTH 5539 and BIOL 5539. PREREQ: PERMISSION OF INSTRUCTOR.

**GEOL 5540 Ore Deposits 3 credits.** Nature, mode of occurrence, and origin of ores with each type related to a given rock association and as the product of a particular environment. PREREQ: ONE OF GEOL 3314, GEOL 5552 (RECOMMENDED), OR GEOL 4421.

**GEOL 5545 Environmental and Engineering Geophysics 4 credits.** Geophysical applications to environmental and geological engineering problems. Includes seismic, gravity, magnetic, electrical, and electromagnetic methods. (Includes lab.) PREREQ: MATH 1144 OR 1147, GEOL 1100 OR 1101, OR PERMISSION OF INSTRUCTOR.

**GEOL 5550 Field Geology 6 credits.** Five-week summer field camp, applying standard geologic field instruments and geologic concepts to a series of field problems. PREREQ: GEOL 4421 and GEOL 5552, GEOL 3314 (recommended) or GEOL 4420.

**GEOL 5551 Field Methods in Environmental Sciences 3 credits.** Practical application of field methods with an Earth systems focus. Analysis of topographic and vegetational data, hydrologic methods, riverine processes and habitat, and soil characteristics, emphasizing use of GIS, GPS, remote sensing and other geotechnologies. Two-week summer course at Lost River Field Station. PREREQ: GEOL 5503 and GEOL 5503L, and either GEOL 5515 or GEOL 5516, and BIOL 2209.

**GEOL 5552 Sedimentation-Stratigraphy 4 credits.** Principles of sedimentation from source to diagenesis. The basis of stratigraphic nomenclature, classification, and correlation of rock units. Laboratory covers unconsolidated sediment, hand specimens, subsurface, and field techniques. PREREQ: GEOL 2210 AND ENGL 1102 OR PERMISSION OF INSTRUCTOR. COREQ: CHEM 1111.

**GEOL 5552L Sedimentation-Stratigraphy Laboratory 0 credits.** Assignments to apply principles in GEOL 5552. COREQ: GEOL 5552.

**GEOL 5554 Basic Engineering Geology 3 credits.** Geology applied to engineering pro-

jects; geotechnical problems in civil projects; site methods. Subsurface investigations including scope, logging, and in situ and geophysical methods. Cross-listed as CE 5554. PREREQ: GEOL 3314 OR CE 3332.

**GEOL 5555 Geologic Data Methods 3 credits.** Classification of geotechnical projects. Geologic mapping for civil engineering purposes. Development of engineering geologic profiles. Pre-bid geotechnical investigations and field instrumentation for civil works projects. Cross-listed as CE 5555. PREREQ: GEOL 4450.

**GEOL 5556 Geology of Idaho 2 credits.** Geologic provinces and plate tectonic history of Idaho. Topics include basement, Belt Supergroup, Phanerozoic passive margin, Cordilleran orogen, accreted terranes, Idaho batholith, Challis volcanics, Idaho mineral deposits, Basin and Range, Snake River and Pleistocene floods. PREREQ: GEOL 1100 OR GEOL 1101.

**GEOL 5558 Geology of North America 3 credits.** Regional stratigraphy and tectonics of North America emphasizing National Parks and the Intermountain West. Graduate students will do extensive additional reading in current literature. PREREQ: GEOL 1100 OR GEOL 1101.

**GEOL 5565 Subsurface Geology 3 credits.** Principles of well log interpretation and correlation, core and cuttings description, cross section and subsurface map creation. Environmental geology, hydrogeology, mining, geological engineering, and petroleum applications. PREREQ: GEOL 2210 OR PERMISSION OF INSTRUCTOR.

**GEOL 5571 Historical Geography of Idaho 3 credits.** Influences of geography and geology on Idaho's economic, political and cultural history. May be team taught and include field trips, discussion sections. Cross-listed as HIST 5571 and POLS 5571.

**GEOL 5575 Essentials of Geomechanics 3 credits.** Essentials of rock fracture relevant to geological engineering including stress and strain, properties and classification of rock masses, rock fracture mechanisms. Cross-listed as CE 5575. PREREQ: GEOL 4421 OR ENGR 3350.

**GEOL 5576 Engineering Geology Project 1 credit.** Team projects studying actual problems in engineering geology. Cross-listed as CE 5576. PREREQ: GEOL 5554 OR CE 5554.

**GEOL 5580 Special Topics in GIS 1-3 credits.** May be repeated. PREREQ: GEOL

5503 and GEOL 5503L OR PERMISSION OF INSTRUCTOR.

**GEOL 5581 GeoTechnology Internship 1-3 credits.** Choose a project with either natural resource or municipal GIS emphasis and work with real-world data at the internship's off-campus location. Projects focus on using/creating geotechnical data. PREREQ: GEOL 5503 and GEOL 5503L OR PERMISSION OF INSTRUCTOR.

**GEOL 5583 Earthquake Engineering 3 credits.** Mechanism and characterization of earthquakes; seismic risk analysis; site and structural response; applications from points of view of engineer and geologist. Cross-listed as CE 5580. PREREQ: GEOL 3313 OR CE 3332, OR PERMISSION OF INSTRUCTOR.

**GEOL 5590 Ecosystems and Global Change** Examination of the structure and function of ecosystems and their responses to natural and anthropogenic changes emphasizing energy, water, carbon, and nitrogen cycling. Field trips. Specific, evaluated grade-level activities and/or performances are identified in the course syllabus. Offered: Every Spring. No equivalent courses, no registration restrictions.

**GEOL 5591 Seminar 1 credit.** Field trip or discussion of current geologic literature and geologic problems. May be repeated until 3 credits are earned. PREREQ: PERMISSION OF INSTRUCTOR. Graded S/U.

**GEOL 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**GEOL 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**GEOL 6601 Advanced Physical Geology 2 credits.** An advanced level course in physical geology required for all first year graduate students. A review of the principles of physical geology, and an overview of current hypotheses and research in the field.

**GEOL 6602 Advanced Geomorphology 3 credits.** Seminar in the treatment of theoretical concepts in classical and modern geomorphology.

**GEOL 6603 Geologic Writing Seminar 1**

**credit.** Review of quality geologic writing practices; extended field trip and introduction to regional geology. Topics include databases, abstracts, stratigraphic terminology, grant proposals, thesis prospecti, and use of reference library. Required for all Geosciences graduate students.

**GEOL 6604 Watershed Modeling 3 credits.** Use of geographic information systems and integrated simulation models to study the hydrologic cycle, water quality, agricultural and industrial impacts, environmental and related issues at the watershed scale. PREREQ: GEOL 5404.

**GEOL 6606 Geostatistical Spatial Data Analysis and Modeling 4 credits.** Description, analysis and modeling of spatial data in the geosciences, emphasizing hands-on application of geostatistical software tools for spatial analysis and probabilistic modeling in any application involving spatially-varying data. PREREQ: PERMISSION OF INSTRUCTOR.

**GEOL 6607 Spatial Analysis 3 credits.** This course focuses on advanced techniques for spatial data analysis covering issues in sampling, characterizing, visualizing, exploring and modeling spatial data. Techniques for point patterns, continuous data, area data, and spatial interaction data will be emphasized. PREREQ: GEOL 5503, MATH 1170/1175, AND A BASIC STATISTICS CLASS (e.g., MATH 2253) OR PERMISSION OF INSTRUCTOR.

**GEOL 6609 Advanced Image Processing 1 credit.** An advanced-level course in image processing techniques, such as using transforms, filters, and classifiers for data derived in the visible, infrared, and microwave. Specific topics include preprocessing, endmember analysis, classification (including spectral unmixing), and accuracy assessment. Practical application of theory for graduate student theses and dissertations. PREREQ: GEOL 5509.

**GEOL 6615 Neutron Activation Analysis 4 credits.** Theory and use of neutron activation methods for quantitative chemical analysis of natural and synthetic materials. Applications in geologic systems will be emphasized. Cross-listed as CHEM 6615, PHYS 6615. PREREQ: PERMISSION OF INSTRUCTOR.

**GEOL 6617 Environmental Geochemistry 3 credits.** Geochemistry of environmental systems. Emphasis given to low-temperature water-rock interactions, including sorption processes, retardation, reaction kinetics and reaction-mass transport modeling. Cross-listed as CHEM 6617. PREREQ: CHEM 1112 AND

GEOL 5520 OR CHEM 3351.

**GEOL 6618 Applied Geophysics 3 credits.** - Geologic interpretation of reflection seismic, refraction seismic, gravity, magnetic, and ground-penetrating radar data.

**GEOL 6621 Advanced Structural Geology 3 credits.** Current aspects of structural geology or tectonics. May focus on regional structures, tectonic theories, orogenic mechanics, global tectonic model(s), or topics of special interest in structural geology.

**GEOL 6622 Orogenic Belts of the World 3 credits.** Interdisciplinary analysis of Alpine and Cordilleran-type mountain belts including their infrastructure, tectonic evolution, and mechanisms of formation.

**GEOL 6623 Tectonics and Sedimentation 3 credits.** Sedimentary basin analysis and mechanisms of subsidence. Extensional, compressional and strike-slip tectonics as related to depositional systems, facies architecture, and provenance.

**GEOL 6625 Quantitative Geochemistry Lab 3 credits.** Practical application of theory involving use and operation of instrumental techniques. Cross-listed as CHEM 6625.

**GEOL 6628 Advanced GIS Programming 3 credits.** PREREQ: GEOL 5503, GEOL 5528, AND PERMISSION OF INSTRUCTOR.

**GEOL 6630 Advanced Hydrogeology 3 credits.** Advanced topics in hydrogeology, including precipitation and stream flow, soil moisture, principles and modeling of groundwater flow, migration of wastes in both saturated and unsaturated zones, design and impact of production wells, water chemistry. PREREQ: GEOL 5530 OR EQUIVALENT.

**GEOL 6631 Sedimentology 3 credits.** Provenance, dispersal, and environments of deposition; emphasis on various aspects of surface equilibria.

**GEOL 6641 Advanced Petrology 3 credits.** Selected topics in igneous and/or metamorphic petrology, regional and/or global aspects of current interest, including relationship to major advances in other areas of solid earth sciences.

**GEOL 6646 The Sedimentary Record 4 credits.** Earth history as revealed in sedimentary facies, provenance, chemical and isotopic excursions. Methods of analysis including sequence stratigraphy, geochronology, biogeochemistry, chemostratigraphy. Sedimentary petrology and field methods emphasized in lab.

**GEOL 6648 Research Problems 1-6 credits.** Independent research on non-thesis subject matter, subject to approval of the staff before results receive credit. Course may be repeated until 10 credits are earned.

**GEOL 6650 Thesis 1-9 credits.** Ordinarily a field problem with supporting laboratory work undertaken by the student with approval of the geology graduate faculty, and after a thesis prospectus has been accepted. May be repeated. Graded S/U.

**GEOL 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**GEOL 8850 Doctoral Dissertation (Ph.D. in Engineering and Applied Science) variable credits.** Research toward and completion of the dissertation. May be repeated Graded S/U.

## Department of Mathematics

Chair and Professor Fisher

Assistant Chair and Professor Laquer

Professors: Egger, Hanin, Kriloff, Palmer, Payne, Stowe, Wolper

Associate Professors: S. Chen, Y. Chen, Derbyberry, Gironella, Gryazin, W. Zhu

Assistant Professors: Y. Zhu

### Goals

- M.S. students develop a broad knowledge of mathematics and a degree of competence in one field within mathematics.
- D.A. students develop a broad knowledge of mathematics; learn about the roles of instruction, service, and research in the mathematical profession; and study a mathematical topic in depth, reporting their findings in a thesis that meets professional standards.
- Graduate students find employment in teaching or industry.

## Doctor of Arts in Mathematics

The Doctor of Arts program in mathematics is designed to prepare the student for a teaching career in institutions of higher learning. The program emphasizes broad competence in mathematics rather than specialization and makes provision for classroom teaching - experience.

### Admission Requirements

Admission to the D.A. program requires the completion of the requirements for a master's degree equivalent to the M.S. in mathematics at Idaho State University with a 3.5 GPA or higher in all graduate work. The general Graduate Record Examination (GRE) is required with a minimum score at the 67th percentile on the quantitative section and at the 50th percentile for the average of the percentiles on the quantitative, verbal, and analytical sections.

In addition to completing the application procedure specified by the Graduate School (page 7), applicants to the D.A. program in Mathematics must:

1. Submit directly to the Department of Mathematics a letter discussing the applicant's reasons for wishing to pursue the D.A. program. The letter must contain a request for an assistantship or fellowship if the applicant wishes to be considered for such.
2. Arrange for three confidential letters of recommendation to be sent directly to the Department of Mathematics. These letters must address the applicant's background and potential for success in the study of advanced mathematics and in the teaching of college-level mathematics.

Applicants will be selected according to the following criteria:

1. Measure of success in completing the master's program;
2. Satisfactory GRE scores;
3. Teaching experience;
4. Letters of recommendation;
5. Applicant's reasons for wishing to pursue this specific program.

Applications must be received by April 1 to be given full consideration.

### Residence

Up to six semester hours beyond the master's degree may be transferred into the program. Two consecutive semesters of full-time study are required in residence.

### Committees and Advising

The student will be advised initially by the departmental graduate committee. This group will be the student's temporary advising committee and will assist in the selection of the student's permanent committee which will supervise the remainder of the student's - program.

### General Requirements

The program requires course work, a thesis, teaching internships, and examinations as described below. The program must include a

minimum of 48 credits beyond the masters degree, and at least two 6600-level sequences taken in residence. Approval for optional courses is granted by the Mathematics Department Graduate Committee.

#### 1. Course Work

##### a. Mathematics Component

##### i. CORE COURSES

MATH 6625-6626 Real Analysis	6 cr
MATH 6627-6628 Complex Analysis	6 cr
MATH 6631-6632 Abstract Algebra	6 cr
MATH 6671-6672 Topology	6 cr

##### ii. Twelve additional 6600-level Mathematics credits, including one full-year sequence

##### b. Interdisciplinary and Applied Mathematics Component Fifteen (15) credit hours of coursework in statistics, applied mathematics, and/or approved interdisciplinary subjects are required.

##### i. The following mathematics courses satisfy this requirement:

MATH 5550-5551 Mathematical Statistics
MATH 5521-5522 Advanced Engineering Mathematics
MATH 5541-5542 Numerical Analysis
MATH 5557 Applied Regression Analysis
MATH 5558 Experimental Design
MATH 5559 Applied Multivariate Analysis
MATH 5565 Partial Differential Equations
MATH 6641-6642 Numerical Analysis
MATH 6652 Stochastic Processes
MATH 6653 Advanced Topics in Probability and Statistics
MATH 6662-6663 Differential Equations
MATH 6664-6665 Applied Mathematics

##### ii. Graduate courses taken in other departments may be applied toward this requirement, but such courses must contain a substantial mathematics component and be approved by the mathematics department graduate committee.

##### c. Education Component

- MATH 6600 Introduction to College Mathematics Teaching 1 cr
- MATH 6610 Topics in College Mathematics Teaching 1 cr
- MATH 6692 Doctor of Arts Seminar 2 cr
- MATH 6693 Mathematical Exposition 1 cr

An approved course in technical or expository writing if recommended by the departmental graduate committee in consultation with the student's permanent committee

2. Doctor of Arts Thesis—The Doctor of Arts Thesis is an expository or research paper in mathematics or mathematics education. Six hours of course credit are given for the completion of the thesis.
3. Teaching Internship—Each candidate must complete teaching internships under the supervision of the departmental Graduate Committee. Six hours of course credit must be earned in MATH 7700 Supervised Teaching Internship.
4. Examinations
  - a. D.A. Written Examination: A written comprehensive examination on undergraduate-level mathematics.
  - b. Oral Examination: An oral examination on the four core areas previous-

ly described in Section 1.

- c. Final Examination: The candidate will present to the public a lecture on the candidate's dissertation, and will answer any questions that arise. Following the lecture and question period, the candidate will be examined orally by the candidate's dissertation committee on topics related to the dissertation.

## Doctor of Philosophy in Engineering and Applied Science

This Ph.D. program is available to students wishing to study mathematics applied to problems in subsurface science. The complete program description is provided under the College of Engineering section of the Graduate Catalog.

## Master of Science in Mathematics

The Master of Science degree program is designed to provide a broad and in-depth background and prepare the student for further study at the doctoral level or for an industrial or academic career.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements.

For full admission to the M.S. degree program in mathematics, the applicant must have completed all requirements for a bachelor's degree in mathematics at an accredited institution. The applicant should have a grade point average of at least 3.0 in upper-division undergraduate course work and have taken the Graduate Record Examination, achieving at least the 50th percentile on the quantitative part of the general aptitude test. The student should have completed course work in modern algebra, differential equations, advanced calculus, and introductory analysis. Applicants not fully meeting these requirements may be allowed to make up deficiencies at Idaho State University. If the applicant wishes to be considered for an assistantship, the applicant must send directly to the Department of Mathematics a letter requesting such and a brief outline of the applicant's qualifications for a teaching or research assistantship.

Applications must be received by April 1 to be given full consideration.

### General Requirements

The Master of Science program in Mathematics provides thesis and non-thesis options. Students choosing either option must take 15 credits in mathematics at the 6600 level, including two full-year sequences. Of the remaining 15 graduate credits required for the degree, at least 9 must be in mathematics. The entire program of study must be approved by the departmental graduate committee.

Students must pass a written examination on one of the 6600-level sequences in their programs of study. Those who choose the thesis option must also complete and defend an expository or research thesis, for which they will receive 6 credits of MATH 6649. Those who choose the non-thesis option must pass a final oral examination over all courses in their program of study.

## Master of Arts in Mathematics for Secondary Teachers

The degree Master of Arts in Mathematics for Secondary Teachers (MAMST) is designed for people with a bachelor's degree who hold a secondary school teaching certificate for the teaching of mathematics and have at least three years of full-time teaching experience. The objective of the program is to enhance the mathematical training of secondary teachers and to equip such teachers with a broad and modern background in mathematics.

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with the following departmental requirements. For full admission to the MAMST program, the applicant (1) must hold a bachelor's degree and a standard secondary school teaching certificate in mathematics; (2) must have at least three years' full-time teaching experience; (3) must have a GPA of at least 3.0 for the last two years of undergraduate work; (4) must have taken the Graduate Record Examination (GRE), achieving at least the 50th percentile on the quantitative part of the general aptitude test; and (5) must have completed undergraduate work equivalent to that required for the Idaho State University Teaching Major in Mathematics.

### General Requirements

The MAMST degree requires the following:

1. Possession of a bachelor's degree and a secondary teaching certificate in mathe-

tics.

2. Completion of a program of study approved by the Graduate Committee of the Department of Mathematics and the Dean of the Graduate School.
3. Completion of a minimum of 30 credits beyond the bachelor's degree in courses numbered 5500 or above.
4. Approval of semester papers as required by the Graduate Committee of the Department of mathematics.
5. Satisfactory performance on comprehensive written and oral examinations on the student's program of study.

### Mathematics Graduate Courses

**MATH 5503 Survey of Combinatorics and Graph Theory 3 credits.** Enumeration techniques, including generating functions. Applications. Introductory graph theory. Students enrolled for graduate credit will be assigned additional work beyond the undergraduate students as outlined by the instructor and noted on the course syllabus. PREREQ: MATH 1175 and MATH 2240.

**MATH 5504 Topics in Combinatorics and Graph Theory 3 credits.** Application of algebraic, analytic, and/or probabilistic methods to combinatorial, graph-theoretic, and algorithmic problems. Students enrolled for graduate credit will be assigned additional work beyond the undergraduate students as outlined by the instructor and noted in the course syllabus. PREREQ: MATH 5503 or Permission of instructor.

**MATH 5506 Advanced Linear Algebra 3 credits.** Advanced linear algebra with a strong emphasis on proof. Real and complex vector spaces, linear transformations, polynomials associated to matrices, determinants, canonical forms, inner product spaces. Suggested prereq MATH 2240.

**MATH 5507-5508 Modern Algebra 3 credits each.** Rings, fields, groups, algebras, and selected topics in abstract algebra. Suggested prereqs MATH 2240 and MATH 2287.

**MATH 5521 Advanced Engineering Mathematics I 3 credits.** Analysis of complex linear and nonlinear engineering systems using advanced techniques, including Laplace transforms, Fourier series and classical partial differential equations. Suggested prereq MATH 3360.

**MATH 5522 Advanced Engineering Mathematics II 3 credits.** Analysis of complex linear and nonlinear engineering systems using advanced techniques, including probability and statistics, advanced numerical methods and variational calculus. Suggested prereqs

MATH 5521.

**MATH 5523 Introduction to Real Analysis I 3 credits each.** The real number system, topology of metric spaces, sequences, limits, series of functions and convergence, continuity, theory of differentiation and Riemann integration of functions of one variable and several variables, and selected topics on measure theory and integration. Suggested PREREQ: MATH 2240, MATH 2275, and MATH 3326.

**MATH 5524 Introduction to Real Analysis II 3 credits.** The real number system, topology of metric spaces, sequences, limits, series of convergence and convergence, continuity, theory of differentiation and Riemann integration of functions of one variable and several variables, and selected topics on measure theory and integration. Suggested PREREQ: MATH 4423 or MATH 5523.

**MATH 5526 Elementary Analysis 3 credits.** A beginning course in analysis on the real line. Proof writing and the underlying logic are emphasized throughout the course. Topics include sets and functions, sequences, convergence, limits, continuity, and infinite series. Enrollment restricted to students admitted to the MAMST program approved by the department graduate committee.

**MATH 5535 Elementary Number Theory 3 credits.** Diophantine equations, prime number theorems, residue systems, theorems of Fermat and Wilson, and continued fractions. Suggested prereq MATH 5507.

**MATH 5541 Introduction to Numerical Analysis 3 credits.** Introduction to standard numerical techniques for solving problems dealing with nonlinear equations, systems of linear equations, differential equations, interpolation, numerical integration, and differentiation. Suggested prereqs MATH 2240, MATH 3326, and MATH 3360 or PERMISSION OF INSTRUCTOR.

**MATH 5542 Introduction to Numerical Analysis 3 credits.** Extension of MATH 5541 for students who wish to pursue more advanced techniques with emphasis on analysis. Typical topics covered include numerical methods applied to partial differential equations, integral equations, and in-depth treatment of topics covered in MATH 5541. Suggested prereq MATH 5541.

**MATH 5544 Modern Geometry 3 credits.** Transformation groups. Topics from hyperbolic, projective, and other geometries.

**MATH 5550-5551 Mathematical Statistics 3 credits each.** Probability, random variables, discrete and continuous distributions, order

statistics, limit theorems, point and interval estimation, uniformly most powerful tests, likelihood ratio tests, chi-square and F tests, nonparametric tests. Suggested prereqs MATH 3326 and MATH 3352.

**MATH 5552 Introduction to Probability 3 credits.** Fundamentals of probability, discrete and continuous random variables, distributions such as binomial, uniform, Poisson, hypergeometric, normal, gamma; expectation; joint, marginal, conditional distributions; central limit theorem; applications to statistics. Emphasizes materials needed to develop statistical inference methods. Enrollment restricted to students admitted to the MAMST program and approved by the department graduate committee.

**MATH 5553 Topics in Statistics 1-3 credits.** Content varies. May be repeated for up to 6 credits. Suggested prereq PERMISSION OF INSTRUCTOR.

**MATH 5557 Applied Regression Analysis 3 credits.** Simple and multiple linear regression, polynomial regression, diagnostics, model selection, models with categorical variables. Suggested prereqs MATH 3350 or MATH 3352 or PERMISSION OF INSTRUCTOR.

**MATH 5558 Experimental Design 3 credits.** The linear model for experimental designs, analysis of variance and covariance, block designs, factorial designs, nested designs, choice of sample size. Suggested prereqs MATH 3350 or MATH 3352 or PERMISSION OF INSTRUCTOR.

**MATH 5559 Applied Multivariate Analysis 3 credits.** Matrix computation of summary statistics, graphical analysis of multivariate procedures, multivariate normal distribution, MANOVA, multivariate linear regression, principal components, factor analysis, canonical correlation analysis. Suggested prereq MATH 2240 and one of the following: MATH 3350, MATH 5557, MATH 5558 or PERMISSION OF INSTRUCTOR.

**MATH 5565 Partial Differential Equations 3 credits.** Equations of the first and second orders, methods of solution, Laplace's Equation, heat equation, and the wave equation. Emphasis on applications to problems in the physical sciences and engineering. Suggested prereqs MATH 2275 and MATH 3360.

**MATH 5573 Introduction to Topology 3 credits.** Metric spaces; convergence; notions of continuity; connected, separable and compact spaces. Suggested prereq PERMISSION OF INSTRUCTOR.

**MATH 5581 Special Problems 1-3 credits.** Reading and conference in an area not usually covered by a regular offering. Individual work under the supervision and guidance of a professor whose specialty includes the chosen area. Open to seniors and graduate students in good standing and with the consent of the instructor. May be repeated until 6 credits are earned.

**MATH 5591 Mathematics Seminar 1-3 credits.** Advanced reading and discussion on selected topics in mathematics. May be taken for credit more than once. Suggested prereq SENIOR STANDING OR EQUIVALENT.

**MATH 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**MATH 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

### **Courses 5526 through 5562 are restricted to students admitted to the MAMST program**

**MATH 5526 Elementary Analysis 3 credits.** Rigorous calculus on the real line. Completeness, compactness and connectedness. Continuity, images of compact and connected sets. Series, uniform convergence. Differentiability, inverse functions, chain rule. Integration, fundamental theorem, improper integrals. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5527 Vector Analysis 3 credits.** Calculus of vector functions of several variables, derivative matrix, chain rule, inverse function theorem, multiple integration. Change of variables. Integrals over curves and surfaces. Green's, Stokes' and Divergence Theorems. Applications to Physics. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5543 Modern Geometry I 3 credits.** Planar Euclidean geometry. Rigid motions and symmetry in the plane. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5552 General Statistics 3 credits.** Probability, random variables, discrete and continuous distributions such as the Binomial, Poisson, Geometric, Hypergeometric, Normal and Gamma, sampling distribution, point and interval estimation, hypothesis testing. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5555 Operations Research I 3 credits.** Deterministic problems in operations research oriented towards business. Includes linear programming, transportation problems, network analysis, PERT, dynamic programming, and elementary game theory. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5556 Operations Research II 3 credits.** Probabilistic models oriented towards business are treated. Selections from stochastic processes, Markov chains, queuing theory, inventory theory, reliability, decision analysis and simulation. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5560 Differential Equations 3 credits.** Theory and applications of ordinary differential equations. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 5562 Introduction to Complex Variables 3 credits.** Introduction to the study of functions of a complex variable including the algebra and geometry of complex numbers, analytic functions, power series, integral theorems, and applications. Enrollment restricted to students admitted to the MAMST program and approved by the departmental graduate committee.

**MATH 6600 Introduction to College Mathematics Teaching 1 credit.** Practical course management issues for teaching mathematics at the college level. Open only to graduate students in mathematics. May not be repeated. Graded S/U.

**MATH 6610 Topics in College Mathematics Teaching 1 credit.** Theories and research related to mathematics teaching and learning. May be repeated. Graded S/U.

**MATH 6625-6626 Real Analysis 3 credits each.** Measures, the Lebesgue integral,  $L_p$  spaces and other normed vector spaces, approximation theorems. Suggested prereq MATH 5524.

**MATH 6627-6628 Complex Analysis 3 credits each.** Theory of functions of a single complex variable, including their differentiation, integration and representation by sums, products and integrals. The Cauchy integral formula and its consequences, conformal mappings, harmonic functions.

**MATH 6631-6632 Abstract Algebra 3 credits each.** Advanced theory and structural properties of groups, rings, modules, and fields, including topics such as group actions, universal maps, and Galois theory. Suggested prereqs MATH 5508 or PERMISSION OF INSTRUCTOR.

**MATH 6633 Matrix Analysis 3 credits.** Eigenvalues, special matrices, normal forms, matrix polynomials, matrix functions, matrix norms, Kronecker products, stability, matrix equations, generalized inverses, nonnegative matrices. Suggested prereqs MATH 5506 and MATH 5524.

**MATH 6636-6637 Lie Groups and Lie Algebras 3 credits each.** Lie groups, Lie algebras, and their representations. Structure of real and complex Lie algebras. Representations of semisimple Lie algebras and compact Lie groups. Suggested prereqs MATH 5506 and MATH 5507 or PERMISSION OF INSTRUCTOR.

**MATH 6641-6642 Numerical Analysis 3 credits each.** Topics selected from approximation theory, optimization, numerical linear algebra, differential and integral equations, spline analysis, computer algorithms, and other areas of current research in numerical analysis. Suggested prereqs MATH 5523 and MATH 5541.

**MATH 6650 Thesis (M.S.) 1-6 credits.** Graded S/U.

**MATH 6652 Stochastic Processes 3 credits.** Topics from conditional probability and expectation, martingales, Kolmogorov's Theorem, Markov processes, random walks, Brownian motion, diffusions, dynamic programming, stochastic differential equations. Applications to modeling physical and/or social dynamical systems. Suggested prereq MATH 5550.

**MATH 6653 Advanced Topics in Probability and Statistics 3 credits.** Topics such as experimental design, regression analysis, multivariate statistical analysis. Suggested prereqs MATH 3352 AND MATH 5506 or PERMISSION OF INSTRUCTOR.

**MATH 6655-6656 Combinatorics 3 credits each.** Theory and applications of: choice and enumeration techniques, generating functions, partitions, designs and configurations, graph

theory including digraphs, algebraic graph theory and extremal problems. Suggested prereq PERMISSION OF INSTRUCTOR.

**MATH 6662-6663 Differential Equations 3 credits each.** Existence, uniqueness, and dependence of solutions upon initial conditions; linear equations; autonomous equations; dynamical systems and stability; partial differential equations of first and second order, with applications. Suggested prereqs MATH 3326, MATH 3327, and MATH 3360.

**MATH 6664-6665 Methods of Applied Mathematics 3 credits each.** Transform, spectral, variational and perturbation methods applied to the analysis of equations involving differential and integral operators. Emphasis on equations arising in physical and biological sciences. Suggested prereqs MATH 5506 and MATH 5565.

**MATH 6667-6668 Functional Analysis 3 - credits each.** Major results of functional analysis, such as the Hahn-Banach, open mapping, and closed graph theorems; study of Hilbert and Banach spaces; spectral analysis. Suggested prereqs MATH 5523 or MATH 6625 or PERMISSION OF INSTRUCTOR.

**MATH 6671-6672 Topology 3 credits each.** Fundamental theorems and examples from point-set topology; emphasis on general and metric topologies and continuous mappings; introduction to topology of manifolds, covering spaces, homotopy, homology, and cohomology. Suggested prereqs MATH 5573 or PERMISSION OF INSTRUCTOR.

**MATH 6681-6682 Differential Geometry 3 credits each.** Differentiable manifolds and mappings; bundles, connections, geodesics, and curvature; Lie groups; topics from Riemannian, Hermitian, or symplectic geometry. Suggested prereq MATH 3327.

**MATH 6691 Directed Reading 1-3 credits.** Reading and problems arranged on an individual basis with a faculty supervisor.

**MATH 6692 Doctor of Arts Seminar 2 credits.** Topics include the nature and practice of mathematical research, grants, public speaking, professionally and classroom related software, information media, issues in mathematical pedagogy, standards, and curricula, university organization, history of mathematics. Graded S/U.

**MATH 6693 Mathematical Exposition 1 credit.** Presentation of mathematics in a seminar setting. Small group practice in and critique of mathematical exposition. Requirements include presentation of a departmental colloquium on an assigned topic. Graded S/U.

**MATH 6694 Special Topics in Mathematics 1-3 credits.** Each offering will deal with a topic selected from such fields of mathematics as algebra, analysis, geometry, number theory, topology, applied analysis, probability, and -mathematical logic. May be repeated.

**MATH 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**MATH 7700 Supervised Teaching Internship. Credit variable up to 9 credits.** Graded S/U. May be repeated.

**MATH 7750 Thesis (D.A.) 1-6 credits.** Graded S/U.

**MATH 8850 Dissertation (Ph.D. in Engineering and Applied Science) Variable credit.** Graded S/ U.

## Department of Physics

Chair and Professor: Khandaker

Professors: Dale, Shropshire

Associate Professors: Cole, Tatar

Research Associate Professor: Chouffani, Hunt, Forest

Assistant Professor: McNulty

Research Assistant Professors: Starovoitova, Y. Kim

Senior Lecturer: Hackworth

Visiting Assistant Professor: Calderon

Instructor: Bernabee

Adjunct Faculty: Franckowiak, Millward, Hobbey

Affiliate Faculty: Blackburn, DeVeaux, Harris, Hill, Jones, K. Kim, Roney, Wells

Professors Emeritus: Beezhold, Harmon, Parker, Vegors

### General Objectives of Graduate Programs

The objectives of our graduate degrees, which are the M.S., M.N.S., and a Ph.D. in Applied Physics, are to develop a core competence in the fundamental physical science that is appropriate for the level of the degree, to develop more generalized skills of quantitative reasoning that are applicable to any discipline, and to understand the nature and influence of physics in particular, and science in general, upon our society. Additional objectives for these students include the development of (1) broad, fundamental technical skills and knowledge, (2) strong communication skills, and (3) the

capability to think critically and work independently. The expectations for each of these objectives have a "level" that is appropriate for the degree.

The Department offers two emphases in its Applied Physics programs. These are Health Physics, which is the science and practice of radiation protection, and Physics, which is the science and application of the physical laws of nature. (Health Physics will be moving to the Nuclear Engineering Department.)

The learning objectives of the M.S. degree with an emphasis in physics, are mastery of the "core" subjects of electromagnetism, non-relativistic quantum mechanics, and theoretical methods of classical physics (principally mechanics).

The objectives of the Idaho State University Health Physics M.S. program are to produce health physicists with broad, yet fundamental, technical knowledge, written and verbal communication skills, professional judgment and capability to think critically, practical experience in solving applied health-physics problems, the ability to work independently, and a professional ethic of magnitude sufficient for students to productively and successfully work in a variety of health-physics settings. (This degree will be moving to the Nuclear Engineering Department.)

The purpose of the M.N.S. degree is to provide a broad spectrum of knowledge in physical science for teachers of secondary education. The technical learning objectives are flexible in order to accommodate the interests of the student, so long as the subject area is physical science. There is no thesis requirement or expectation for this degree.

The communication objectives for these degrees are writing and speaking skills that are sufficient for students to represent themselves, their projects, and their organizations at regional, national, or international scientific meetings. Our expectations are that these students will obtain critical thinking skills and an ability to work independently at a level that will require minimal or no supervision by a more senior scientist or management.

The educational objectives of the Ph.D. degree in Applied Physics (emphasis on physics or health physics) include all of those of the M.S. programs, plus mastery of additional graduate-level classes of the student's choosing (in physics or health physics), plus completion of an original doctoral research thesis project with the objective of mastery of planning, executing, and publishing original research in physics or health physics at the highest level of the discipline. The communication objec-

tives at this level are writing and speaking skills that are sufficient to teach in higher education, attract interest and funding to their projects, and to represent themselves, their projects and their organizations at regional, national, or international scientific meetings. Our expectations are that these students will develop critical thinking skills and an ability to work independently such that they are capable of initiating and leading their own scientific projects, and can work at a level that requires no supervision.

## Doctor of Philosophy in Applied Physics

### Program Goals

- Prepare graduates to conduct and disseminate independent scholarly research in applied physics.
- Prepare graduates for careers in academia, or related fields in the health professions, industry, or government.

### Program Objectives

- Increase the knowledge of graduates in their chosen field of applied physics.
- Enhance the ability of graduates to contribute to their chosen field of applied physics.
- Enhance effective written and oral communication skills of graduates.

The Ph.D. program in Applied Physics is an interdisciplinary program offered by the Department of Physics that allows for a broad range of research topics. Areas of emphasis in the department include: nuclear physics applications, medical physics, radiation effects in materials, biological systems and devices, accelerator physics and applications, materials science, homeland security applications, and other areas of applied nuclear science.

To attain a degree in this program, a student must demonstrate scholarly achievement and ability for independent investigation. The program will normally require approximately five years of full-time study beyond the bachelor's degree (or three years beyond the master's degree), including class work, research, and preparation of the dissertation.

### Admission Requirements

All applicants must meet Idaho State University Graduate School admission requirements for doctoral programs. In addition, applicants must have attained a minimum of a bachelor's degree in physics, health physics, or a closely

related field (engineering, chemistry, biology, etc.). Students with degrees in biology, for example, are excellent candidates for admission to the health physics program. The student's course of study will be determined by consultation with the department chair, the health physics program director, or the department's graduate advising committee. Students may be required to complete any missing course material that is required for the B.S. degree in physics or health physics at Idaho State University. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average, and upon making satisfactory progress toward the degree.

A complete graduate application for classified status in the Idaho State University Physics Department Ph.D. program consists of:

- GRE scores (normally, a minimum of 50th percentile on verbal, quantitative, or analytical is required for classified students);
- An Idaho State University Graduate School application form, fee, and official copies of transcripts;
- Three letters of recommendation;
- A statement of career goals.

## General Requirements

The Ph.D. degree requires completion of at least 84 credits at the 500-course or greater. Of these, at least 32 credits, but no more than 44 credits, must be doctoral dissertation credits (PHYS 6699). At least 4 must be graduate seminar (or equivalent, as determined by the department). The remaining required credits consist of electives and the required courses listed below. Students entering the program with a master's degree may receive credit for up to 30 credits toward the Ph.D., subject to the department chair's approval. Students should complete the required courses as listed below (or their equivalent, as determined by the department), at Idaho State University. The required courses depend upon whether the student is enrolled in the health physics option or the physics option.

## Required Courses

### Physics Option (or equivalent at other institutions):

PHYS 6602 Theoretical Methods of Physics	3 cr
PHYS 6611-6612 Electricity and Magnetism	6 cr
PHYS 6621 Classical Mechanics	3 cr
PHYS 6624-6625 Quantum Mechanics	6 cr
PHYS 6649 Graduate Seminar	4cr

### Health Physics option (or equivalent at other institutions):

HPHY 5588 Advanced Radiobiology	3 cr
HPHY 6605 Radiological Environmental Monitoring and Surveillance	3 cr
HPHY 6610 Radiation Regulations	3 cr
PHYS 6649 Graduate Seminar	4 cr

## Program of Study

A departmental advisory committee consisting of graduate faculty will guide each student in establishing his or her program of course and laboratory study based upon the student's background and research interest. The advisory committee has the responsibility of ensuring that the student has adequate knowledge to support research in his or her area of research.

At the beginning of a full-time student's second year, the student will sit for a written Qualifying Examination. Exceptions to this schedule may be made when a student has academic deficits to make up, in which case the student will have an additional year. These exams are offered in January and September. The student will be allowed two attempts to pass this examination, and the second attempt must be the next available examination. The student will be admitted to candidacy upon passing the qualifying examination.

A dissertation committee of four departmental members and a Graduate Faculty Representative (GFR), chaired by the candidate's major professor, must be appointed within six months of passing the qualifying examination. Within one year of passing the qualifying exam, the full-time candidate, with guidance from the major professor, must satisfactorily complete the Preliminary Examination, which consists of an oral presentation and defense of a written proposal for dissertation research to the student's dissertation committee.

The research and dissertation preparation must be done under the close supervision of the committee and must include at least one full year of work performed under the supervision of Idaho State University graduate faculty.

Dissertation Examination approval requires a public presentation of the dissertation and a satisfactory oral defense to the dissertation committee. Doctoral oral examinations are open to all regular members of the graduate faculty as observers. Further, oral presentations are open to the public until questioning by the dissertation committee begins.

## Master of Science Programs

### Admission Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School. In addition to the general requirements of the Graduate School, the student must comply with departmental requirements:

A complete graduate application for classified status in the Idaho State University Physics

Department consists of:

- GRE aptitude scores;
- An Idaho State University Graduate School Application form, fees, and official copies of transcripts;
- Three letters of recommendation;
- A brief statement of career goals.

Applicants must hold the degree of Bachelor of Science or Bachelor of Arts in Physics, or a closely related field for the physics emphasis, or a B.S. or B.A. degree in health physics, biology, chemistry, physics, engineering, or similar field for the health physics option, as determined by the department. The student's course of study will be determined by consultation with the chair and the student's major advisor. In some circumstances, a placement examination will be given. Students will normally be required to complete as deficiencies any courses required for the B.S. in Physics at Idaho State University which they have not already taken. Continued enrollment in the program is contingent upon maintaining a 3.0 grade point average and upon making satisfactory progress toward the degree.

## Master of Science Thesis Option (Physics Emphasis):

A satisfactory score on physics examination(s) may be required before admission to candidacy. A total of 30 credits are required for the Master of Science Degree with Physics Emphasis.

### Required Courses

PHYS 6602 Theoretical Methods of Physics	3 cr
PHYS 6611 Electricity and Magnetism	3 cr
PHYS 6624-6625 Quantum Mechanics	6 cr
PHYS 6650 Thesis	6 cr

12 additional graduate level credits are required in courses approved by the student's advisor, department chair, and the Graduate School.

A public presentation of the thesis is required, along with a satisfactory oral defense to the thesis committee consisting of two departmental members and one GFR.

## Master of Science Non-Thesis Option (Physics Emphasis):

There are two mechanisms by which a student may attain a non-thesis M.S. degree. First, students in the Ph.D. program who do not pass the qualifying examination at the Ph.D. level after two attempts may complete a non-thesis M.S. degree. The required core courses for the non-thesis M.S. degree are the same as those

for the Ph.D., i.e. those listed above. In addition, a non-thesis M.S. student must pass the qualifying examination at a level appropriate for the M.S., and he or she must complete an oral presentation and defense of a written proposal for research project to the student's graduate committee.

Second, students in the Ph.D. program who have completed all required courses for the Ph.D. and have passed both their qualifying examination and their oral presentation and defense of a written proposal for research project are eligible for a non-thesis M.S. degree.

## Master of Science (Health Physics Emphasis):

The Department of Nuclear Engineering and Health Physics additionally offers the M.S. option in Health Physics. Health physics, an applied science, is concerned with the protection of humans and their environment from the possible harmful effects of radiation while providing for its beneficial uses. It is a multi-disciplined profession that incorporates aspects of both the physical and biological sciences. The Master of Science (MS) program in Health Physics is accredited by the Applied Sciences Accreditation Commission of ABET, <http://www.abet.org>. The Idaho State University Health Physics programmatic educational objectives have been developed in close collaboration of faculty and the Idaho State University Health Physics Program Advisory Board.

The educational objectives of the ISU Health Physics program are to produce Health Physicists with

- 1) broad, fundamental technical knowledge,
- 2) written and verbal communication skills
- 3) professional judgment and capability to think critically
- 4) practical experience in solving applied health-physics problems
- 5) the ability to work independently
- 6) a professional ethic

of magnitude sufficient for them to productively and successfully work in a variety of health physics settings. The graduate program has two additional educational objectives:

- 1) An ability to conduct research
- 2) Professional tools and experience above that expected for the baccalaureate program.

The ISU Health Physics Program is in a state of transition from the Department of Physics to the newly named Department of Nuclear Engineering and Health Physics. This process of moving programs and realigning degree

titles is also ongoing. Currently students earn a degree in Physics with Emphasis in Health Physics. This degree is being transitioned to a Masters of Science in Health Physics. Students interested in Health Physics at this time must apply to the Department of Physics M.S. program but indicate on their application their interest in Health Physics.

Students may enter the M.S. program in Health Physics from several undergraduate majors including health physics, physics, chemistry, biology, and other science or engineering majors. Additional course work to correct deficiencies may be necessary.

### Admission Requirements

For admission, the student must apply to, and meet all criteria for, admission to the Graduate School, including a baccalaureate degree in a physical or biological science or engineering.

### General Requirements

The basic program requirements are 33 credits, of which 15 credits must be at the 6600-course level. Six of the eighteen required credits may be thesis. The normal core program is listed below. Students who are prepared with some education and experience in health physics will likely not need all of the elective health physics courses. Therefore, the student's program will be determined in consultation with the student's advisor and committee and can include electives to meet his/her needs. An oral examination in defense of the thesis is required for the thesis option.

### Required Courses

HPHY 5588 Advanced Radiobiology	3 cr
HPHY 6605 Radiological Environmental Monitoring and Surveillance	3 cr
HPHY 6610 Radiation Regulations	3 cr
HPHY 6650 Thesis	6 cr
<b>TOTAL:</b>	<b>18 cr</b>

### Electives - may be required if not taken at the undergraduate level.

PHYS 5509 Introductory Nuclear Physics	3 cr
HPHY 5516 Introduction to Nuclear Measurements	3 cr
HPHY 5531 Radiation Physics I	3 cr
HPHY 5532 Radiation Physics II	3 cr
HPHY 5533 External Dosimetry	3 cr
HPHY 5534 Internal Dosimetry	3 cr
HPHY 5555 Topics in Health Physics I	2 cr
HPHY 5556 Topics in Health Physics II	2 cr
PHYS 5592 Colloquium in Physics (may be repeated)	1 cr

## Master of Natural Science in Physics

The Master of Natural Science (MNS) in Physics is designed primarily for teachers and prospective teachers who want to improve their understanding of the subject matter of

physics. Emphasis is upon the subject matter and the M.N.S. is generally not a thesis program. Individuals interested in this degree should hold a teaching certificate or be working toward one. The student's program will be determined in consultation with the student's advisor and committee. The program requires a minimum of 30 credits, 22 of which must be in residence. A final oral examination is required, with thesis committee consisting of two departmental members and one GFR.

### Admissions Requirements

The student must apply to, and meet all criteria for, admission to the Graduate School.

### General Requirements

The student's program will be determined in consultation with the student's advisor and committee. The program requires a minimum of 30 credits, 22 of which must be in residence. A final oral examination is required.

### Health Physics Courses

**HPHY 5511 Accelerator Health Physics 3 credits.** Fundamentals of particle accelerator design and operation. Examination of the potential radiation environment associated with accelerators and health and safety issues of their operation. PREREQ: SENIOR STANDING IN HEALTH PHYSICS OR PERMISSION OF INSTRUCTOR.

**HPHY 5512 Environmental Health Physics 3 credits.** State-of-the-art applied mathematical techniques for estimating the release, transport, and fate of contaminants in multimedia environmental pathways (air, groundwater, terrestrial). Both radiological and non-radiological contaminants will be addressed, with emphasis on radiological contaminants. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5513 Fundamentals of Industrial - Hygiene 3 credits.** Overview on the recognition, evaluation, and control of hazards arising from physical agents in the occupational environment. The exposure consequences associated with agents of major occupational health concerns are considered. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5516 Introduction to Nuclear Measurements 3 credits.** Lecture/laboratory course emphasizing practical measurement techniques in nuclear physics. PREREQ: CHEM1112 AND PHYS1111 AND PHYS1113 OR PHYS 2211 AND PHYS2213 OR EQUIVALENT OR PERMISSION OF INSTRUCTOR.

**HPHY 5517 Industrial and Aerosol Physics 3 credits.** This course focuses on two distinct subject areas: an elaboration on the details of

the ACGIH method of local exhaust-system design, and a study of applied aerosol physics based upon trajectory analysis. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5518 Non-ionizing Radiation Protection 3 credits.** Occupational safety and health issues of human exposure to non-ionizing radiation. Topics include health concerns and safety strategies developed for extremely low frequency, microwave, radio-frequency, ultraviolet, infrared, laser radiation, and sound waves. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5519 Radiological Emergency Planning 3 credits.** Radiological emergency planning for facilities ranging from reactors and other major nuclear facilities to transportation accidents and smaller-scale nuclear accidents. Topics include planning, coordination, "exercises", exposure pathways, modeling, measurement, control, decontamination, and recovery. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5520 Reactor Health Physics 3 credits.** Introduction to reactor physics; nuances peculiar to reactor health physics; reactor designs. Critiques of exposure pathways accidents, decommissioning, contamination control, and emergency planning examine radiation safety approaches within the nuclear fuel cycle. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5531 Radiation Physics I 3 credits.** Atomic and nuclear structure, series and differential-equation descriptions of radioactive decay, physical theory of the interaction of radiation with matter suitable for the discipline of Health Physics. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5532 Radiation Physics II 3 credits.** Continuation of 5531 considering dosimetric quantities/units, theory and technology of radiation detection and measurement, and radiobiology important to an advanced understanding of radiation protection. PREREQ: PHYS 5531 OR PERMISSION OF INSTRUCTOR.

**HPHY 5533 External Dosimetry 3 credits.** A lecture course emphasizing external radiation protection including study of point kernel techniques, monte carlo modeling, and NCRP-49 methods. Also discussed are external dosimetry measurement techniques. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

**HPHY 5534 Internal Dosimetry 3 credits.** A lecture course emphasizing internal radiation protection including studies of ICRP-2,

ICRP-26&30, ICRP-60&66, and MIRD methods of internal dosimetry. PREREQ: PHYS 5533 OR PERMISSION OF INSTRUCTOR.

**HPHY 5555 Topics in Health Physics I 2 credits.** A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

**HPHY 5556 Topics in Health Physics II 2 credits.** A continuation of 5555. A lecture/seminar course covering special topics in Health Physics such as state and federal regulations, waste disposal methodology, and emergency procedures. PREREQ: PHYS 5532 OR PERMISSION OF INSTRUCTOR.

**HPHY 5588 Advanced Radiobiology 3 credits.** An advanced-level class covering aspects of molecular radiobiology, teratogenesis, oncogenesis, and acute radiation illnesses. It also considers nonstochastic radiation effects and the epidemiology of radiation exposures. Cross-listed as BIOL 5588. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 5590 ABHP Review 3 credits.** A course for practicing professionals aimed at the development and improvement of skills. PREREQ: PERMISSION OF INSTRUCTOR. May be graded S/U.

**HPHY 6605 Radiological Environmental Monitoring and Surveillance 3 credits.** Advanced considerations in the design of monitoring programs. Sampling and analytical measurement programs for specific radionuclides and sources with emphasis in quality assurance.

**HPHY 6610 Radiation Regulations 3 credits.** Covers regulation of ionizing and non-ionizing radiation. Historical, biological, and legal foundations; federal regulations; state regulations; nuclear fuel cycle; emergency response; academic and medical facilities; transportation; accelerators; NORM/NARM; non-ionizing radiation. PREREQ: PERMISSION OF INSTRUCTOR.

**HPHY 6650 Thesis 1-12 credits.** May be repeated. Graded S/U.

**HPHY 8850 Doctoral Dissertation Variable credit.** Research toward and completion of the dissertation. May be repeated. Graded S/U.

## Physics Graduate Courses

**PHYS 5503 - 5504 Advanced Modern Physics 3 credits.** Study of the elementary principles of quantum mechanics and an introduction to atomic, solid state and nuclear physics. Quan-

tum mechanics will be used as much as possible. PHYS 5503 is a PREREQ for 5504. PREREQ: MATH 3360 OR EQUIVALENT, AND PHYS 3301.

**PHYS 5505 Advanced Laboratory 2 credits.** Experiments in radiation detection and measurement, nuclear spectroscopy including x-ray and gamma spectroscopies, neutron activation and ion beam methods. Available to Geology, Engineering, Health Physics, and Physics majors. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 5509 Introductory Nuclear Physics 3 credits.** A course in Nuclear Physics with emphasis upon structural models, radioactivity, nuclear reactions, fission and fusion. PREREQ: KNOWLEDGE OF ELEMENTARY QUANTUM MECHANICS AND DIFFERENTIAL EQUATIONS OR PERMISSION OF INSTRUCTOR.

**PHYS 5510 Science in American Society 2 credits.** Observational basis of science; technology's historical influences on scientific developments; perceptions of science in contemporary America; tools/strategies for teaching science. Cross-listed as GEOL 5510. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 5514 Electronic Instrumentation and Measurement 3 credits.** Lecture course with laboratory requirements. Topics include: DC and AC Electrical Circuits, Analog pulses, Bipolar Transistors, Field Effect Transistors, Operational amplifiers. PREREQ: PHYS2212, PHYS2214, and MATH 3360.

**PHYS 5515 Statistical Physics 3 credits.** Topics covered may include kinetic theory, elementary statistical mechanics, random motion and the theory of noise. Choice of topics will depend upon the interest of the students and instructor. PREREQ: PHYS 2212, MATH 3360.

**PHYS 5516 Radiation Detection and Measurement 3 credits.** Lecture/laboratory course emphasizing practical measurement techniques in nuclear physics. PREREQ: CHEM 1111, CHEM L1111, CHEM 1112, CHEM 1112L, AND EITHER (PHYS 1111 AND PHYS 1113) OR (PHYS 2211 AND PHYS 2213).

**PHYS 5521-5522 Electricity and Magnetism 3 credits.** Intermediate course in fundamental principles of electrical and magnetic theory. Free use will be made of vector analysis and differential equations. PHYS 5521 is a PREREQ for 5522. PREREQ: PHYS 2212 AND MATH 3360.

**PHYS 5542 Solid State Physics 3 credits.** Introduction to the field of solid state physics emphasizing the fundamental concepts. Topics usually covered are crystal structure, X-ray diffraction, crystal binding energies, free electron theory of solids, energy bands. PREREQ: PHYS 3301, PHYS 5583, MATH 3360 OR PERMISSION OF INSTRUCTOR.

**PHYS 5552 Intermediate Optics 3 credits.** Wave theory, e/m waves, production of light, measurement of light, reflection, refraction, interference, diffraction, polarization, optical systems, matrix methods, Jones vectors, Fourier optics, propagation of e/m waves in materials, atmospheric optics. PREREQ: PHYS 2212. COREQ: MATH 3360

**PHYS 5553 Topics in Astrophysics 2 credits.** Applications of physics to astronomy or cosmology. May include lab exercise. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 5561-5562 Introduction to Mathematical Physics 3 credits.** Introduction to the mathematics most commonly used in physics with applications to and practice in solving physical problems; includes vector analysis, ordinary and partial differential equations. PHYS 5561 is a PREREQ for 5562. PREREQ: PHYS 2212 AND MATH 3360.

**PHYS 5583 Theoretical Mechanics 4 credits.** Detailed study of the motion of particles, satellites, rigid bodies and oscillating systems. Develop and apply Lagrangian and Hamiltonian methods. PREREQ: PHYS 2212 AND MATH 3360.

**PHYS 5592 Colloquium in Physics 1 credit.** Faculty and student lectures in current research topics in physics. Open to upper division and graduate students in physics. May be repeated to a maximum of 4 credits.

**PHYS 5597 Professional Education Development Topics. Variable credit.** A course for practicing professionals aimed at the development and improvement of skills. May not be applied to graduate degrees. May be repeated. May be graded S/U.

**PHYS 5599 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PHYS 6602 Theoretical Methods of Physics 3 credits.** Calculus of variations, Lagrangian and Hamiltonian formalisms of classical mechanics, some classical scattering theory,

methods of solving PDEs, Green's functions, functions of complex variables, vector and tensor analysis, matrix, group and operator theory, and numerical methods integrated throughout each topic.

**PHYS 6603 Particle Physics 3 credits.** Basic constituents of the standard model, experimental methods, particle interactions: weak, gravitational, strong and electromagnetic, conservation laws, hadron structure and interactions, unification of interactions, physics beyond the standard model. PREREQ: PHYS 6624 OR PERMISSION OF INSTRUCTOR.

**PHYS 6609 Advanced Nuclear Physics 3 credits.** Nucleon-nucleon interaction, bulk nuclear structure, microscopic models of nuclear structure, collective models of nuclear structure, nuclear decays and reactions, electromagnetic interactions, weak interactions, strong interactions, nucleon structure, nuclear applications, current topics in nuclear physics. PREREQ: PHYS 6624 OR PERMISSION OF INSTRUCTOR.

**PHYS 6611 Electricity and Magnetism 3 credits.** Maxwell's equations and methods of solution, plane wave propagation and dispersion, wave guides, antennas and other simple radiating systems, relativistic kinematics and dynamics, classical interaction of charged particles with matter, classical radiation production mechanisms.

**PHYS 6612 Advanced Electricity and Magnetism 3 credits.** Advanced topics in application of Maxwell's equations to wave guides, antennas and other simple radiating systems. Particular emphasis upon the relativistic interaction of charged particles with matter, energy loss, and classical radiation production and absorption mechanisms. PREREQ: PHYS 6611 OR PERMISSION OF INSTRUCTOR.

**PHYS 6615 Activation Analysis 3 credits.** Theory and use of activation methods for quantitative chemical analysis of natural and synthetic materials. Applications will be emphasized. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 6621 Classical Mechanics 3 credits.** Lagrange equations, small vibrations; Hamilton's canonical equations; Hamilton's principal, least action; contact transformation; Hamilton-Jacobi equation, perturbation theory; nonlinear mechanics. PREREQ: PHYS 5583, PHYS 5561-5562, OR PERMISSION OF INSTRUCTOR.

**PHYS 6624-6625 Quantum Mechanics 3 credits.** Schrodinger wave equation, stationary state solution; operators and matrices; perturbation theory, non-degenerate and degenerate cases; WKB approximation, non-harmonic

oscillator, etc.; collision problems. Born approximation, method of partial waves. PHYS 6624 is a PREREQ for 6625. PREREQ: PHYS 5561-5562, PHYS 6621 OR PERMISSION OF INSTRUCTOR.

**PHYS 6626 Advanced Quantum Mechanics 3 credits.** Elementary quantum field theory and practical applications. Emphasis upon non-relativistic and relativistic quantum electrodynamics, radiative processes, bremsstrahlung, pair-production, scattering, photoelectric effect, emission and absorption. PREREQ: PHYS 6625 OR PERMISSION OF INSTRUCTOR.

**PHYS 6630 Accelerator Physics 3 credits.** The physics of direct voltage accelerators, betatrons, synchrotrons, linear induction acceleration; high current accelerators; electromagnetic particle optics, free electron lasers and synchrotron light sources. PREREQ: PHYS 6612, PHYS 6624 OR EQUIVALENT.

**PHYS 6631 Accelerator Technology 3 credits.** Topics will include high voltage and pulsed power techniques, wave guide and R.F. structures, ion and electron beam sources and beam measurements as applied to particle beam machines. PREREQ: PHYS 6612 OR EQUIVALENT.

**PHYS 6632 Particle Beam Laboratory 1-4 credits.** Laboratory projects in particle beam and ion optics, radiation detectors, ion source operation, etc. May be repeated up to 4 credits. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 6640 Statistical Mechanics 3 credits.** Statistical ensembles; the Maxwell-Boltzmann law; approach to equilibrium, quantum statistical mechanics; application of statistical mechanics to thermodynamic processes. PREREQ: PHYS 5515 AND PHYS 6621.

**PHYS 6641 Field Theory, Particles, and Cosmology I 3 credits.** Topics may include Dirac theory, group theory, Feynman diagrams, superstrings, super gravity, relativity and cosmology. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 6642 Field Theory, Particles, and Cosmology II 3 credits.** A continuation of 641. Topics may include Dirac theory, group theory, Feynman diagrams, superstrings, super gravity, relativity and cosmology. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 6643 Advanced Solid State Physics 3 credits.** Electron many-body problem, crystal and reciprocal lattice, Bloch functions,

pseudo potentials, semi-conductors, transition metals, crystal momentum and coordinate representations, electric and magnetic fields, impurities and defects in crystals and semi-conductors, radiation effects on solids, lattice vibrations, electron transport. PREREQ: PHYS 6624 OR PERMISSION OF INSTRUCTOR.

**PHYS 6648 Special Topics in Physics 1-3 credits.** Survey, seminar, or project (usually at an advanced level) in one area of physics. Content varies depending upon the desires of the students and faculty. May be repeated until 6 credits are earned. PREREQ: PERMISSION OF INSTRUCTOR.

**PHYS 6649 Graduate Seminar 1 credit.** Advanced seminar topics in currently-active areas of applied physics. Students will be required to provide presentations and may be required to submit a paper. Four credits required. May be repeated.

**PHYS 6650 Thesis 1-10 credits.** May be repeated. Graded S/U.

**PHYS 6699 1-6 credits.** This is an experimental course. The course title and number of credits are noted by course section and announced in the class schedule by the scheduling department. Experimental courses may be offered no more than three times. May be repeated.

**PHYS 8850 Doctoral Dissertation Variable credit.** Research toward and completion of the dissertation. May be repeated. Graded S/U.

# Informatics Research Institute

Director and University Professor of Informatics: Schou  
 Associate Director and Professor: Lohse  
 Professor: Cady  
 Associate Professors: Sammons, J. Strickland, Turley-Ames  
 Assistant Professor: Frost  
 Affiliate Professors: Leibrock, Longley, Murray, Stephenson  
 Affiliate Assistant Professors: Moulton, Slay, Willes

## Mission

The Informatics Research Institute (IRI) is an academic unit providing coordination for several interdisciplinary degrees and research centers across campus. Informatics is an integrative discipline that arises from the synergistic application of computational, informational, organizational, cognitive, and other disciplines whose primary focus is in the acquisition, storage and use of information in a broad spectrum of domains. It includes the study and application of information technology in the arts, sciences, commerce, medicine, and society in general. The IRI has a mission in teaching, research, and service. Activities include:

- Developing interdisciplinary programs in informatics
- Developing interdisciplinary degree programs
- Developing and offering outreach programs
- Coordinating activities of related centers on campus
- Providing leadership in critical infrastructure protection
- Developing educational programs
- Developing infrastructures to support research in diverse fields
- Coordinating interdisciplinary academic concentrations

The IRI coordinates activities among the National Information Assurance Training and Education Center (NIATEC), Simplot Decision Support Center (SDSC), Center for Innovative Technology in Archaeological Informatics (CITI-AI), and the Center for Innovative Technology in Mathematics, Science, and Social Sciences Learning (CITI-MSSSL). The IRI charter includes development of interdisciplinary AA, AS, BA, BS, Masters and Doctoral programs, as well as concentrations in Infor-

mation Assurance.

## Archaeological Informatics

Associate Director and Professor of Anthropology: Lohse

## CITI-AI - Center for Innovative Technology in Archaeological Informatics

The CITI-AI leads research in the organization and analysis of archaeological information. It creates and maintains active partnerships within the archaeological community and serves as an interdisciplinary center of activity uniting basic informatics research and modeling within the Informatics Research Institute, Idaho State University, and its affiliated faculty.

## Educational Informatics

## CITI-MSSSTL - Center for Mathematics, Science, Social Sciences, and Technology Learning

The CITI-MSSSTL focus is on PK-16 learning in the current environment of accountability. The faculty of CITI-MSSSTL collaborates with other institutions to explore technology and informatics solutions to improve learning. Curriculum development, assessment, data management, and teacher training are but a few of the services offered by CITI-MSSSTL. The staff of CITI-MSSSTL are experienced in all aspects of instructional systems design and implementation. The center creates and maintains active partnerships with public schools and higher education institutions interested in improving the quality of learning within our educational systems.

## Simplot Decision Support Center

### SDSC - Simplot Decision Support Center

The Simplot Decision Center is a facility designed to increase group decision-making effectiveness and efficiency. It is a research

and development effort of Idaho State University resulting from the generosity of the Simplot Corporation. The Simplot Decision Support Center is one of a few dedicated facilities in the nation and is available as a resource to both local and national organizations. It has led the national effort in developing information assurance and computer security training and education standards for the federal government.

## Information Assurance

### NIATEC - National Information Assurance Training and Education Center

The NIATEC Center is a consortium of academic, industry, and government organizations to improve the literacy, awareness, training, and education standards in information assurance. As the federally designated cornerstone for essential education and training components of a strong information assurance initiative, the mission is to establish an effective information assurance infrastructure. NIATEC is associated with the Idaho State University Center for Academic Excellence. It is a component in the national plan to establish a federal cyber-corps to defend against cyber-based disruption and attacks. Key to building such a cyber-corps is the implementation of robust graduate and undergraduate curricula in information assurance.

## Information Assurance Degree Concentrations

The Informatics Research Institute coordinates the federally designated Center of Academic Excellence in Computer Security Education. The Center of Academic Excellence includes formal concentrations in information assurance at the undergraduate and graduate level in cooperation with NIATEC and CITI-MSSSL. In addition, the IRI offers formal concentrations in information assurance for baccalaureate, masters, and doctoral programs. These concentrations may be above the regular degree requirements documented by the DHS/CNSS approved certificates offered by ISU.

### Certificates for Concentrations:

- CNSS 4011 - National Training Standard for Information Systems Security (INFOSEC) Professionals
- CNSS 4012 - Senior Systems Manager
- CNSS 4013 - Systems Security Admin-

istration

- CNSS 4014 - Information Systems Security Officer
- CNSS 4015 - Systems Certification

## General Requirements

Students with appropriate prerequisites may take courses within the information assurance program as part of a formal information assurance concentration in their degree program. With approval of their advisor and the faculty, they may pursue certificates in specialty areas. In addition to courses that support specialized certificates, the program offers courses in computer forensics and risk analysis. All courses require preparation of research papers on information assurance topics related to their major fields.

CNSS 4011 - Students in the CIS emphasis in the MBA program may take CIS 511, a minimum of 6 hours of 519 (Informatics Practicum) or 593 (Internship) and two additional courses in information assurance. Graduate courses increase focus on theory, history, software assurance, assured systems design, and networks. Students in other majors may have to take additional remedial courses or demonstrate appropriate experience.

All students seeking additional certifications must complete the requirements for CNSS 4011 and the following:

- CNSS 4012 - Students certifying for 4012 must complete CIS 511, 512, 513, 514, and 515.
- CNSS 4013 - Students certifying for 4013 must complete CIS 511, 513, and 585
- CNSS 4014 - Students certifying for 4014 must complete CIS 511, 513, and 514
- CNSS 4015 - Students certifying for 4015 must complete CIS 511, 514, and 515

Doctoral students wishing to build a concentration in Information Assurance should contact the director to discuss research and coursework opportunities customized to meet their academic program

# Graduate Faculty

(NOTE: The date in parentheses is the date of first appointment at Idaho State University. Adjunct, Affiliate and Emeritus Faculty are listed in the Undergraduate Catalog.)

- Adams, Naomi S.**, Assistant Professor, Art. B.A., 1999, Washington State University; M.F.A., 2012, University of North Texas. (2012)
- Adamcik, Barbara A.**, Emeritus, Pharmacy Practice and Administrative Sciences; Associate Vice President for Academic Affairs. B.A., 1974, University of California, Los Angeles; M.A., 1981; Ph.D., 1984, University of Southern California. (1985)
- Ahola-Young, Laura**, Assistant Professor, Art. B.F.A., 1992, Minneapolis College of Arts and Design; M.F.A., 2000, San Jose State University. (2013)
- Allen, Virginia B.**, Emeritus, Counseling. B.A., 1974, University of Montana; M.Ed., 1978, South Dakota State University; Ed.D., 1981, University of South Dakota. (1981)
- Altieri, Nicholas A.**, Assistant Professor, Communication Sciences and Disorders. B.A., 2005, The Ohio State University; M.S. 2010, Indiana University; Ph.D., 2010, Indiana University (2012)
- Aly, Mohamed H.**, At-Large Graduate Faculty, Geosciences. B.Sc., 1992, Zagazig University, Egypt; M.Sc., 1997, Zagazig University, Egypt; Ph.D., 2006, Texas A&M University. (2006)
- Anderson, Curtis W.**, Professor, Biological Sciences. B.S., 1991, Southwest Missouri State University; M.S., 1994; Ph.D., 1996, Northern Arizona University. (1998)
- Anderson, Sean K.**, Professor, Political Science. B.A., 1975, Western Washington University; M.B.A., 1978, University of Washington; Ph.D., 1993, University of Oklahoma. (1993)
- Apel, William A.**, At-Large Graduate Faculty, Biological Sciences. B.A., 1973; M.S., 1976; Ph.D., 1978, The Ohio State University.
- Appleby, Karen M.**, Associate Professor, Sport Science and Physical Education. B.A., 1998, Hanover College; M.S., 1999; M.S., 2000; Ph.D., 2004, University of Tennessee. (2004)
- Arvidson, Cathy R.**, Associate Professor, Nursing. B.S.N., 1978, Vanderbilt University; M.S.N., 1981, University of Florida; Ph.D., 1990, Texas Woman's University. (1992)
- Attebery, Brian L.**, Professor, English and Philosophy. A.B., 1974, College of Idaho; A.M., 1976; Ph.D., 1979, Brown University. (1982)
- Attebery, Jennifer Eastman**, Professor, English and Philosophy; Department Chair. B.A., 1973, College of Idaho; M.A., 1974; Ph.D., 1985, Indiana University, Bloomington. (1992)
- Austin, Mark, C.**, Professor, Biological Sciences; Department Chair. B.S., 1981, Pennsylvania State University; Ph.D., 1988, Washington State University. (2012)
- Baergen, Ralph**, Professor, English and Philosophy. B.A., 1983, University of Manitoba; M.A., 1989; Ph.D., 1990, Syracuse University. (1993)
- Barlow, Fred D. III**, At-Large Graduate Faculty, Professor, Electrical Engineering and Computer Science, B.S., 1990, Emory University; M.S., 1994, Virginia Polytechnic Institute; Ph.D., 1999, Virginia Polytechnic Institute.
- Baxter, Colden**, Associate Professor, Biological Sciences. B.A., 1993, University of Oregon; M.S., 1997, University of Montana; Ph.D., 2002, Oregon State University. (2004)
- Beachboard, John C.**, Associate Professor, Computer Information Systems. B.S., 1976, University of Arizona; M.S., 1990, Boston University; M.S., 1995; Ph.D., 1999, Syracuse University. (2001)
- Beachboard, Martine R.**, Associate Professor, Communication, Media, and Persuasion. B.S., 1976, Northern Arizona University; B.A., 1990, University of Maryland; M.S., 1995, M.S., 1996, Syracuse University; Ph.D., 2008, Touro University International. (2002)
- Beard, David V.**, Professor, Computer Science; Department Chair. B.A., 1978, Hope College; M.S., 1983; Ph.D., 1985, University of Michigan. (1995)
- Bearden, Shawn**, Associate Professor, Biological Sciences. B.S., 1994, University of Virginia; M.S., 1996, George Mason University; Ph.D., 2000, Florida State University. (2004)
- Beckmann, Jon**, At-Large Graduate Faculty, Biological Sciences. B.S., 1996, Kansas State University; Ph.D., 2002, University of Nevada, Reno. (2005)
- Bennett, Byron L.**, Assistant Professor, Chemistry. B.A., 1989, Cedarville College; Ph.D., 1997, University of Wyoming. (2007)
- Bennett, Cory, A.**, Assistant Professor, Education. B.A., 2005, Western Washington University; M.Ed., 2008, University of Hawaii at Manoa; Ph.D., 2010, University of Hawaii at Manoa.
- Benson, Marc A.**, Assistant Professor, Biological Sciences. B.S., 2000, University of Puget Sound; Ph.D., 2010, Medical College of Wisconsin. (2012)
- Benson, C. Scott, Jr.**, Professor, Economics. A.B., 1972, University of California, Berkeley; M.A., 1979; Ph.D., 1988, University of California, Davis. (1986)
- Berger, Joel**, At-Large Graduate Faculty, Biological Sciences. B.A., 1974; M.S., 1975, California State University, Northridge; Ph.D., 1978, University of Colorado, Boulder. (2005)
- Bigelow, James**, Associate Professor, Biomedical and Pharmaceutical Sciences. B.S., 1979, University of Illinois, Urbana-Champaign; Ph.D., 1985, Indiana University, Bloomington. (2004)
- Blanton, Cynthia A.**, Assistant Professor, Health and Nutrition Sciences. B.S., 1994, California State University; Northridge; Ph.D., 2000, University of California, Davis. (2007)
- Bleich, Vernon**, At-Large Graduate Faculty, Biological Sciences. B.S., 1970; M.A., 1973, California State University, Long Beach; Ph.D., 1993, University of Alaska, Fairbanks. (2005)
- Boes, Richard F.**, Emeritus, Accounting. B.S., 1970; M.B.A., 1971, University of Utah; Ph.D., 1978, Michigan State University. (1977)
- Bolinger, Alexander R.**, Assistant Professor, Management. B.B.A., 2002, Idaho State University; M.A., 2004, Idaho State University; M.B.A., 2004, Idaho State University; Ph.D., 2010, University of Utah. (2010)

- Bond, Kori**, Professor, Music. B.S., B.A., 1992, Walla Walla College; M.Mus., 1994, Northern Illinois University; D.Mus., 1999, Indiana University, Bloomington. (1999)
- Bosworth, Kenneth W.**, Professor, Mathematics and Mechanical Engineering. B.S., 1977; M.S., 1980; Ph.D., 1984, Rensselaer Polytechnic Institute. (1992)
- Bowen, Denise**, Professor Emeritus, Dental Hygiene, B.S. 1975, M.S. 1976, Old Dominion University. (1976)
- Bowyer, Terry**, Professor, Biological Sciences. B.S., 1970, Humboldt State University; M.S., 1976, Humboldt State University; Ph.D., 1985, University of Michigan. (2004)
- Brey, Richard R.**, Professor, Nuclear Engineering and Health Physics; Department Chair. B.S., 1988; M.S., 1990; Ph.D., 1994, Purdue University. (1994)
- Brockett, Jeff E.**, Associate Professor, Audiology. B.S., 1982, University of Idaho; M.S., 1987, Idaho State University; Ed.S., 1996, Idaho State University; Ed.D., 2003, Idaho State University. (1994)
- Brookman, Jeffrey T.**, Assistant Professor, Finance. B.S., 1987 University of Utah; MBA, 1991, University of Oregon; Ph.D., 2001 University of Oregon. (2007)
- Brooks, Patrick L.**, Professor, Music. B.S., 1980; University of Illinois; M.Mus., 1985, University of Cincinnati College-Conservatory of Music; D.M.A., 1995, University of Cincinnati College-Conservatory of Music. (1991)
- Brumley, Michele R.**, Associate Professor, Psychology. B.A., 1999, DePaul University; Ph.D., 2005, University of Iowa. (2002)
- Bunde, Carolyn J. W.**, At-Large Graduate Faculty, Biological Sciences. B.S., 1980, California State University, Stanislaus; B.S., 1983; Ph.D., 1987, Idaho State University.
- Bunnage, Corbin B.**, Clinical Assistant Professor, Physician Assistant Studies. B.S., 1999, Idaho State University; M.S., 2004, A.T. Still University of Health Sciences. (2003)
- Burgett, Eric, A.**, Associate Professor, Nuclear Engineering and Health Physics. B.S., 2005' M.S., 2008; Ph.D., 2010 Georgia Institute of Technology. (2010)
- Byers, Steven S.**, Professor, Finance; Department Chair. B.A., 1982; MBA, 1989, Indiana University; Ph.D., 1996, Texas A&M University. (1996)
- Cady, Paul S.**, Professor, Pharmacy Practice and Administrative Sciences; Interim Dean, College of Pharmacy, Department Chair. B.S., 1980; M.S., 1986, Ph.D., 1988, University of Arizona. (1990)
- Callen, Jeffrey, C.**, Assistant Professor, Political Science. B.A., 1999, Montana State University; M.P.A., 2008, Montana State University; Ph.D., 2013, Arizona State University. (2012)
- Calley, Kristin H.**, Associate Professor, Dental Hygiene. B.S., 1988, Idaho State University; M.S., 1993, Old Dominion University. (1992)
- Carlisle, Juliet E.**, Assistant Professor, Political Science. B.A., 1994, University of Washington, Seattle; M.A., 1999, University of California, Santa Barbara; Ph.D., 2007, University of California, Santa Barbara. (2008)
- Cartwright, Elizabeth**, Professor, Anthropology. B.A., 1983; M.A., 1988, University of Wyoming; B.S., 1989; Ph.D., 1998, University of Arizona. (1999)
- Cashmore, Catherine A.**, Professor, Pharmacy Practice and Administrative Sciences; Associate Dean. B.A., 1980, University of California, San Diego; M.S. 1984, West Virginia University; Pharm.D., 1993, Idaho State University. (1994)
- Casey, Teresa**, Assistant Professor, Sociology. B.S., 2002 Oregon State University; Ph.D., 2011 University of California, Davis. (2012)
- Castle, Lyle W.**, Professor, Chemistry; Dean, Academic Programs, Idaho Falls. B.S., 1985, Southern Utah State College; M.S., 1988, University of Nebraska; Ph.D., 1992, University of South Florida. (1994)
- Cellucci, Emilie "Leigh" W.**, Assistant Professor, Health Care Administration. B.S., 1981, College of Charleston; M.A., 1983, College of William and Mary; Ph.D., 1989, University of Virginia; M.B.A., 2002, Idaho State University. (2004)
- Chen, Yu**, Associate Professor, Mathematics. B.E., 1991, Tongji University; M.S., 1994, Tongji University; D.S., 1997, East China Normal University; Ph.D., 2002, University of Notre Dame. (2003)
- Chen, Shu-Chuan**, Associate Professor, Mathematics, B.A., 1994, National Chung-Hsing University, Taiwan; M.S., 1996, National Donghua University, Taiwan; Ph.D., 2003, Pennsylvania State University. (2012)
- Chiu, Steve C.**, Associate Professor, Electrical Engineering and Computer Science. B.S. 1990, University of Illinois; M.E.M. 1995, Northwestern University; Ph.D. 2004, Northwestern University. (2005)
- Chouffani, Khalid**, Research Associate Professor, Physics. B.S., 1987, Ecole Nationale Supérieure de Physique de Marseille; M.S., 1988, Université de Saint Jérôme Marseille; M.S., 1992, The Catholic University of America; Ph.D., 1992, The Catholic University of America. (2002)
- Christelow, Allan**, Emeritus, History. B.A., 1969, Stanford University; M.A., 1973; Ph.D., 1977, University of Michigan. (1983)
- Christelow, Stephanie**, Professor, History. B.A., 1977, San Diego State University; M.A., 1978; Ph.D., 1983, University of California, Santa Barbara. (1990)
- Christensen, M. Candace**, Assistant Professor, Social Work. B.A., 1997, University of Texas at Dallas; M.S.W., 2008, University of Utah; Ph.D., 2012, University of Utah. (2012)
- Coffland, David A.**, Associate Professor, Organizational Learning and Performance. B.S., 1984, Virginia Polytechnic Institute and State University; B.S., University of Miami; M.A., 1991, Washington State University; Ed.D., 1999, Idaho State University. (2000)
- Cole, Philip**, Associate Professor, Physics. B.A., 1983, Cornell University; M.S., 1986; Ph.D., 1991, Purdue University. (2004)
- Connelly, John William, Jr.**, At-Large Graduate Faculty, Biological Sciences. B.S., 1974, University of Idaho; M.S., 1977; Ph.D., 1982, Washington State University.
- Crawford, Brian R.**, At-Large Graduate Faculty, Associate Professor, Dental Science. D.D.S., 1984, University of Illinois, Chicago. (2003)
- Creelman, Jim**, Associate Professor, Physical and Occupational Therapy; Department Chair, Doctor of Physical Therapy Program, Program Director. B.S., 1971, U.S. Navel Academy; B.S., 1982, University of Maryland; M.S., 1997, Idaho State University; D.P.T., 2006, University of St. Augustine. (1990)
- Cretekos, Chris**, Assistant Professor, Biological Sciences. B.S., 1989, University of Rochester; Ph.D., 1998, University of Utah. (2007)

**Crews, Judith A.**, Associate Professor, Counseling. B.A., 1993; M.A., 1996; Ph.D., 1999, University of Nevada, Reno. (2000)

**Crocker, Robert E.**, Emeritus, Human Resource Training and Development; Department Chair. B.S., 1979, Purdue University; M.S., 1980, Indiana State University; Ed.D., 1986, Washington State University. (1994)

**Crosby, Benjamin T.**, Associate Professor, Geosciences. B.A., 1999, University of California, Berkeley; Ph.D., 2006, Massachusetts Institute of Technology. (2006)

**Culbertson, Vaughn L.**, Professor, Pharmacy Practice and Administrative Sciences. B.S., 1971, University of Nebraska, Lincoln; Pharm.D., 1981, University of Nebraska, Omaha. (1989)

**Dale, Daniel S.**, Professor, Physics. B.S., 1984, Stanford University; M.S., 1985, University of Illinois; Ph.D., 1991, University of Illinois. (2006)

**Davis, Todd A.**, Associate Professor, Chemistry. B.A., 2000, Grand Valley State University; Ph.D., 2004, Texas Tech University. (2007)

**Dean, Patricia A.**, Research Associate, Anthropology. M.A., 1982, University of Utah; Ph.D., 1992, University of Oregon. (1993)

**De Jesus, Karl**, Professor, Chemistry. B.Sc., 1977, Texas Christian University; Ph.D., 1986, University of Wisconsin-Madison. (1994)

**Delehanty, David J.**, Professor, Biological Sciences. B.S., 1985, University of Minnesota; M.S., 1991, University of North Dakota; Ph.D., 1997, University of Nevada, Reno. (2000)

**Delparte, Donna, M.**, Geosciences, B.S., 1989, University of Regina; M.S., 1997, University of Calgary; Ph.D., 2008, University of Calgary. (2012)

**Denner, Peter R.**, Professor, School Psychology and Educational Leadership; Associate Dean, College of Education. B.A., 1973, University of New Hampshire; M.S., 1975; Ph.D., 1981, Purdue University. (1982)

**Derryberry, DeWayne R.**, Associate Professor, Mathematics. B.S., 1988; M.S., 1990, Arizona State University; Ph.D., 1998, Oregon State University. (2006)

**Devine, Nancy L.**, Associate Professor, Physical and Occupational Therapy, School of Rehabilitation and Communication Sciences; Associate Dean. B.S., 1986, University of Vermont; M.S., 1993, Idaho State University; D.P.T., 2006, MGH Institute of Health Professions. (1990)

**Diedrich, Dana L.**, Professor, Biomedical and Pharmaceutical Sciences. B.S., 1969; M.S., 1972, University of Kentucky; Ph.D., 1974, Pennsylvania State University. (1991)

**Dienstfrey, Sherri R.**, Professor, Theatre and Dance. B.S., 1977, University of Nebraska, Lincoln; M.A., 1980, North Dakota State University; Ph.D., 1986, Kent State University. (1987)

**Dillon, Sandra, I.**, Assistant Lecturer, German. B.A., 2000, Idaho State University; M.A., 2002, University of Colorado at Boulder; Ph.D., 2011, University of Oregon. (2006)

**DiSanza, James R.**, Professor, Communication, Media, and Persuasion. B.A., 1982, California State University, Stanislaus; M.A., 1985, San Francisco State University; Ph.D., 1989, Pennsylvania State University. (1989)

**Dodson, Robin A.**, At-Large Graduate Faculty, Biomedical and Pharmaceutical Sciences. B.A., 1970, Eastern Washington; B.S., 1981, Idaho State University; Ph.D., 1978, Washington State University.

**Downing, Chris**, Assistant Professor, Biomedical and Pharmaceutical Science. B.A., 1994, Metropolitan State College of Denver; M.A., 1999, University of Northern Colorado; Ph.D., 2001, State University of New York at Albany. (2009)

**Dudgeon, John V.**, Assistant Professor, Anthropology. B.A., 1990, University of Colorado; M.A., 1998, University of Washington; Ph.D., 2008, University of Hawai'i. (2008)

**Dunzik-Gougar, Mary Lou**, Research Associate Professor, Nuclear Engineering and Health Physics. B.S., 1987, Cedar Crest College; M.S., 1997; Ph.D., 2004, Pennsylvania State University. (2004)

**Dye, Deanna C.**, Associate Professor, Physical and Occupational Therapy. B.S., 1990, Boston University; M.A., 2000, University of Wyoming; Ph.D., 2007, University of Idaho. (2002)

**Earles, Randy A.**, Professor, Music; Department Chair. B.Mus., 1974; M.Mus., 1976, University of Houston; D.M.A., 1991, University of Oklahoma. (1991)

**Easterly, Debra M.**, At-large Graduate Faculty, Educational Leadership. B.S., 1979, Iowa State University; M.Ed., 1998, Ed.D., 2006, Idaho State University. (2008)

**Ebrahimpour, Arya**, Professor, Civil and Environmental Engineering; Interim Department Chair. B.S., 1981; M.S., 1984; Ph.D., 1987, University of Idaho. (2000)

**Egger, Alan G.**, Professor, Mathematics. B.S., 1976, Colorado State University; M.S., 1977, The Ohio State University; Ph.D., 1981, Colorado State University. (1984)

**Ellis, Mikle**, Associate Professor, Electrical Engineering. B. E., 1983, Brigham Young University; M.S., 1984, Rensselaer Polytechnic Institute; Ph.D., 1994, Virginia Polytechnic Institute and State University. (1999)

**Elshabini, Aicha**, At-Large Graduate Faculty, Professor, Electrical Engineering and Computer Science, B.S., 1973, Cairo University; M.S., 1975, University of Toledo; Ph.D., 1978, University of Colorado at Boulder.

**Engbretsen, Terry O.**, Associate Professor, English and Philosophy. B.A., 1973, Lewis and Clark College; M.A., 1975, Portland State University; Ph.D., 1982, Washington State University. (1988)

**Evans, Scott E.**, Professor, Art. B.S., 1976, Temple University; M.F.A., 1981, Indiana University. (1986)

**Evilia, Caryn M.**, Associate Professor, Chemistry. B.S., 1991, University of Massachusetts; Ph.D., 1998, University of Pennsylvania. (2006)

**Farnsworth, Tracy, J.**, Assistant Professor, Health Care Administration. B.A., 1982, Brigham Young University; M.B.A. 1985, Arizona State University; M.H.S.A., 1986; Arizona State University; Ed.D., 2013, Idaho State University. (2010)

**Faure, Caroline E.**, Associate Professor, Sport Science and Physical Education. B.A., 1991; M.P.E., 1994; Ed.D., 2006, Idaho State University. (2007)

**Feit, Stephen S.**, Emeritus, Counseling; Interim Dean, Kasiska College of Health Professions. B.A., 1969, University of New Hampshire; M.A., 1970; Ed.D., 1973, West Virginia University. (1973).

- Finney, Bruce P.**, Professor, Biological Sciences. B.S., 1979, University of Minnesota; Ph.D., 1987, Oregon State University. (2008)
- Fisher, Robert J., Jr.**, Professor, Mathematics; Department Chair. A.B., 1975, College of the Holy Cross; Ph.D., 1981, University of Massachusetts, Amherst. (1989)
- Fitzpatrick, John**, Associate Professor, Sport Science and Physical Education. B.A., 1981, University of California, Santa Barbara; M.A., 1991, California State University, Northridge; Ph.D., 1998, Michigan State University. (2004)
- Force, Rex W.**, Professor, Pharmacy Practice and Administrative Sciences. B.S., 1988, Oregon State University; Pharm.D., 1991, University of Texas Health Center, San Antonio. (1993)
- Fore, Margaret Elizabeth**, Assistant Professor, B.A., Psychology, 1992, Clemson University; M.Ed., 1994, Clemson University; Ph.D., 2006, University of South Carolina. (2011)
- Forest, Tony A.**, Research Associate Professor, Physics. B.S., 1987, Colorado State University; M.A., 1991, Western Michigan University; Ph.D., 1998, University of Illinois, at Urbana-Champaign. (2006)
- Frantz, Alan C.**, Professor, School Psychology and Educational Leadership. B.S., 1980, Idaho State University; M.A.T., 1984, Indiana University; Ph.D., 1994, University of Denver. (1987)
- Frazier, Timothy H.**, Emeritus, Mass Communication. B.M.E., 1970, Vanderbilt University; M.F.A., 1985, University of Florida. (1987)
- Freudenthal, Jacqueline**, Assistant Professor, Department of Dental Hygiene. B.S., 1982, Idaho State University; M.H.Ed., 2005, Idaho State University. (2006)
- Frischmann, Peter J.**, Professor, Accounting. B.S., 1975, Utica College of Syracuse University; MBA, 1977, University of Michigan; Ph.D., 1992, Arizona State University. (2000)
- Gabardi, Wayne**, Professor, Political Science; Department Chair. B.A., 1977, Stockton State College; M.A., 1981; Ph.D., 1986, University of California, Santa Barbara. (1990)
- Garibaldi, Josephine**, Associate Professor and Program Director of Dance. B.A., 1985, Cal State Long Beach; M.A., 1990, Cal State San Francisco; M.F.A., University of California Irvine, 1997.
- Garland, Kandis V.**, Associate Professor, Dental Hygiene. B.S., 1998, University of Minnesota; M.S., 2007, University of Minnesota. (2006)
- Gauthier, Howard L.**, Associate Professor, Sports Science and Physical Education. B.A., 1981, Washington State University; M.S., 1984, St. Thomas University; Ph.D., 1988, Southern Illinois University. (2008)
- Gee, Bryan, M.**, Clinical Assistant Professor, Occupational Therapy.; Director of Occupational Therapy and Assistant Chair. B.S./M.S. 2002, D'Youville College; M.Ed., 2011, Idaho State University; OTD, 2007, University of St. Augustine. (2007)
- Gee, Perry M.**, Assistant Professor, Nursing. B.S.N., 1992, Montana State University; M.S.N., 1997, University of Utah; Ph.D., 2014, University of California, Davis. (2014)
- Gesell, Thomas F.**, Professor, Nuclear Engineering and Health Physics. B.S., 1965, San Diego State University; M.S., 1968; Ph.D., 1971, University of Tennessee. (1991)
- Gironella, Ann Inez Nolasco**, Associate Professor, Mathematics. B.S., 1965, University of the Philippines; M.S., 1972, University of Waterloo; Ph.D., 1978, Kansas State University. (2003)
- Goslee, Susan**, Assistant Professor, English and Philosophy. B.A., 1993, Swarthmore College; M.A., 2001, University of Alabama; Ph.D., 2007, University of Utah. (2008)
- Goss, Lisa M.**, Associate Professor, Chemistry. B.S., 1992, Willamette University; Ph.D. 1998, University of Colorado, Boulder. (1999)
- Green, Carie J.**, Assistant Professor, Elementary Education. B.S., 2003 Northern Arizona University; M.S., 2008, University of Wyoming; Ph.D. 2011, University of Wyoming. (2011)
- Gribas, John**, Professor, Communication, Media, and Persuasion. B.S., 1984, Montana State University; M.A., 1990; Ph.D., 1993, University of Kansas. (1996)
- Groome, James**, Associate Professor, Biological Sciences. B.A., 1981, Wake Forest University; Ph.D., 1988, University of New Hampshire. (2003)
- Gross, Chad W.A.**, Associate Professor, Theatre and Dance. B.A., 1999, Central Washington University; M.F.A., 2002, Southern Illinois University. (2003)
- Gryazin, Yuriy**, Associate Professor, Mathematics. M.S., 1986; M.S., 1991; Ph.D., 1996, Novosibirsk State University, Russia. (2001)
- Guilmette, Raymond A.** At-Large Affiliate Professor, Health Physics. B.S., 1968, Rensselaer Polytechnic Institute; M.S., 1971, New York University; Ph.D. 1975, New York University. (2012)
- Gurenlian, JoAnn R.**, Professor and Graduate Director, Dental Hygiene. B.S., 1978 Fairleigh Dickinson University; M.S., 1979, Columbia University, Ph.D., 1991, University of Pennsylvania. (2012)
- Hachey, David M.**, Clinical Associate Professor, Physician Assistant Studies. Pharm. D., 1998, University of Rhode Island. (1998)
- Hackert, Ann M.**, Professor, Finance. B.A., 1979, University of South Dakota; Ph.D., 1987, Iowa State University. (1984)
- Haight, Courtney**, Assistant Professor, Psychology. B.A., 2003, University of Northern Iowa; Ph.D., 2011, University of Nevada. (2012)
- Hale, Thomas F.**, Professor, History. B.A., 1967, Bellarmine College; M.A., 1969; Ph.D., 1972, University of Kentucky; J.D., 1985, Northwestern School of Law, Portland. (1977)
- Hanin, Leonid G.**, Professor, Mathematics. M.S., 1978, University of Leningrad; Ph.D., 1985, Steklov Mathematical Institute. (1997)
- Hansen, Richard D.**, Affiliate Research Associate Professor, Anthropology/Spanish B.S., 1978, Brigham Young University; M.S., 1984, Brigham Young University; Ph.D., Archaeology, 1992, University of California, Los Angeles. (2005)
- Harrawood, Laura K.**, Assistant Professor, Counseling. B.A., 1997; M.S., 1999; Ph.D., 2004, Southern Illinois University Carbondale. (2004)
- Harris, Jason T.**, Associate Professor, Nuclear Engineering and Health Physics. B.S., 1995, University of Tampa; M.S., 2002, University of Illinois at Urbana-Champaign; Ph.D., 2007, Purdue University. (2008)
- Harwood, Brett**, Associate Professor, Theatre and Dance. B.S., 1990, Idaho State University; M.F.A., 1994, University of Montana. (2002)
- Hasenpflug, Thom**, Associate Professor, Music. B.A. (2), 1989; M.M., 1993, Ithaca College; D.M.A., 1996, University of Colorado - Boulder. (2003)

- Hatzenbuehler, Linda C.**, Professor, Psychology; Interim Vice President, Health Education. B.A., 1969, John Carroll University; M.A., 1971; Ph.D., 1977, Kent State University. (1976)
- Hatzenbuehler, Ronald**, Professor, History. B.A., 1967, Southwestern University, Memphis; M.A., 1969; Ph.D., 1972, Kent State University. (1972)
- Hearn, Gesine K.**, Assistant Professor, Sociology. R.N., 1986, School of Nursing, Chirurgische Klinik an der Universität Erlangen-Nürnberg, Germany; M.A., 1993, Universität Tübingen, Germany; Ph.D., 2006, Universität Erlangen-Nürnberg, Philosophische Fakultät, Germany. (2003)
- Hedeen, Deborah L.**, Professor, Educational Learning and Development; Dean, College of Education. B.S., 1984, St. Cloud State University; M.Ed., 1985, Lesley College; Ph.D., 1994, Syracuse University. (1993)
- Hellwig, Harold H.**, Associate Professor, English and Philosophy. B.A., 1972, State University of New York, Buffalo; M.A., 1976, California State University, Fullerton; Ph.D., 1985, University of California, Los Angeles. (1987).
- Hermanson, Patrick M.**, Assistant Professor & Program Director, Health Care Administration. B.S., 1973, United States Military Academy; M.S., 1976, University of Utah; DHA, 2012, Central Michigan University. (2011)
- Hevener, Kirk, E.**, Assistant Professor, Biomedical and Pharmaceutical Sciences. B.S., 2005, Tennessee State University; Pharm.D., 2005, University of Tennessee; Ph.D., 2008, University of Tennessee. (2013)
- Heyneman, Nicholas E.**, At-Large Graduate Faculty, Psychology. B.A., 1980, University of California, San Diego; M.S., 1982; Ph.D., 1985, West Virginia University.
- Hewett, Beverly J.**, Clinical Assistant Professor, Nursing. B.S., 1975, M.S., 1992, Idaho State University; Ph.D., 2008, University of Idaho. (1992)
- Hill, Cynthia D.**, Associate Professor, Economics. B.A., 1989, University of Montana; Ph.D., 1997, Washington State University. (1997)
- Hill, Jeffrey P.**, Associate Professor, Biological Sciences. B.S., 1982, State University of New York, Binghamton; M.S., 1984, University of California, Davis; Ph.D., 1989, University of California, Riverside. (1991)
- Hill, Tony S.**, At-Large Affiliate Faculty, Nuclear Engineering. B.S. 1991, Abilene Christian University; M.S. 1993, Iowa State University; Ph.D. 1996, Iowa State University. (2010)
- Hiller, Anna, E.**, Assistant Professor, Spanish. B.A., 1997, Oberlin College; M.A., 2001, University of Delaware; Ph.D., 2010, University of California, Berkeley. (2012)
- Hodges, Kathleen O.**, Professor Emeritus, Dental Hygiene. M.S., 1979, Old Dominion University. (1979)
- Hoeger, Werner W.K.**, At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1974; M.S., 1975; Ed.D., 1978, Brigham Young University.
- Holland, Andrew**, Associate Professor, Chemistry. B.S., 1997, University of Washington, Seattle; Ph.D., 2002, University of California, Berkeley. (2005)

- Holmer, Richard N.**, Emeritus, Anthropology; Department Chair. B.A., 1972; M.A., 1975; Ph.D., 1978, University of Utah. (1983)
- Horn, Elizabeth A.**, Assistant Professor, Counseling. B.A., 1996, East Texas State University; M.A., 1998, Sam Houston State University; Ph.D., 2006, Texas A&M University-Commerce. (2006)
- Howard, Hope**, At-Large Graduate Faculty, Biological Sciences. B.A., 1996, Hood College; Ph.D., 2002, Georgia Institute of Technology. (2005)
- Hudock, Daniel J.**, Assistant Professor, Communication Sciences and Disorders, B.S., 2006, Clarion University of Pennsylvania; M.S., 2008, East Carolina University; Ph.D., 2012, East Carolina University. (2012)
- Hummel, Daniel**, Assistant Professor, Political Science. B.A., 2004, Pennsylvania State University; M.P.A., 2009, University of Nebraska at Omaha; Ph.D., 2013, Florida Atlantic University. (2013)
- Hunt, Alan W.**, Research Associate Professor, Physics. B.S., 1994, University of Michigan; Ph.D., 2000, Harvard University. (2002)
- Hunt, Daniel P.**, Associate Professor, Languages and Literatures. B.A., 1980; M.A., 1987; D.A., 1990, Idaho State University. (1992)
- Hunt, Timothy L.**, Associate Professor, Pharmacy Practice and Administrative Sciences. B.A., 1967, Otterbein College; M.S., 1972, South Dakota State; Ph.D., 1981, Kansas State University. (2005)
- Hunter, Ann S.**, Emeritus, Sociology, Social Work and Criminal Justice. B.A., 1962, Wheaton College; M.A., 1986; Ph.D., 1991, University of North Texas. (1991)
- Hurst, Bethany Schultz**, Assistant Professor, English. B.A., 2000, Colorado State University; M.F.A., 2003, Eastern Washington University. (2003)
- Imel, George R.**, Professor, Health Physics and Nuclear Engineering. B.S., 1971, Lafayette College; M.S., 1973; Ph.D., 1977, Pennsylvania State University. (2007)
- Jacobsen, Richard T.**, Professor Mechanical Engineering. B.S., 1963, University of Idaho; M.S., 1965, University of Idaho; Ph.D., 1972, Washington State University. (2006)
- Jenkins, Susan J.**, Professor, Educational Foundations; Assistant Dean, College of Education. B.S., 1978; M.S., 1983; Ph.D., 1986, Kansas State University. (1988)
- Jenks, Jonathan Alden**, Distinguished Professor and Graduate Program Coordinator, Wildlife and Fisheries Science, South Dakota State University. B.S., 1984, Unity College, Unity ME; M.S., 1986, University of Maine, Orono, ME; Ph.D., 1991, Oklahoma State University, Stillwater, OK>
- Johnson, Alan G.**, Professor, English and Philosophy. B.A., 1984, Southern Illinois University; M.A., University of Virginia, 1988; Ph.D., 1998, University of California, Riverside. (2000)
- Johnson, Jeanne M.**, Professor, Communication Sciences & Disorders. B.A., 1973, Western Washington State College. M.A., 1978, Western Washington University, Ph.D., 1986, Southern Illinois University-Carbondale.
- Johnson, LaMar J.**, At-Large Graduate Faculty, Biological Sciences. B.S., 1959, Utah State University; M.S., 1963, University of Kansas; Ph.D., 1969, Colorado State University.
- Johnson, Margaret E.**, Professor, English and Philosophy. B.S., 1986, University of California, Berkeley; M.A. 1990, San Jose State University; Ph.D., 1998, University of Oregon. (1999)

**Johnson, Mark A.**, Professor, Management. B.S., 1978; M.S.B.A., 1981, California State University, Los Angeles; Ph.D., 1988, University of Iowa. (1987)

**Johnson, Tara L.**, Assistant Professor, Dental Hygiene. B.S., 1981; M.Ed., 1992; Ph.D., 2007, Idaho State University. (1986)

**Jolly, James**, Professor, Management; Department Chair. B.A. 1975, Purdue University; M.S., 1979; Ph.D., 1985, University of Texas, Dallas. (1982)

**Jones, Amy, L.**, Assistant Professor, Counseling. B.S., 1998, Bowling Green State University; M.Ed., 2002, Vanderbilt University; Ph.D., 2012, University of Toledo. (2012)

**Jull, Paula**, Professor, Communication, Media, and Persuasion. B.F.A., 1979, Louisville School of Art; M.F.A., 1982, Indiana University. (1989)

**Kalivas, John H.**, Professor, Chemistry. B.S., 1978, California Polytechnic State University; Ph.D., 1982, University of Washington. (1985)

**Kangas, Kathleen A.**, Professor, Communication Sciences and Disorders; Department Chair. B.S., 1974, Northern Michigan University; M.S.P.A., 1977, University of Washington; Ph.D., 1990, Purdue University. (1990)

**Kantabutra, Vitit**, Associate Professor, Computer Science (Engineering). M.Eng., 1979, McGill University; M.S.E., 1982; Ph.D., 1985, Johns Hopkins University. (1995)

**Keeley, Ernest R.**, Professor, Biological Sciences. B.Sc., 1990; M.Sc., 1993, Concordia University; Ph.D., 1998, University of British Columbia. (1999)

**Keener, William**, At-Large Graduate Faculty, Biological Sciences. B.S., 1988, Texas A&M University; Ph.D., 1996, Oregon State University. (2001)

**Kehinde, Julius O.**, Assistant Professor, School of Nursing. B.Sc. 1994, Obafemi Awolowo University; MSN, 2007, University of Phoenix; Ph.D., 2011, Medical University of South Carolina. (2014)

**Kelchner, Scot**, Associate Professor, Biological Sciences. B.S., 1992; M.S., 1996, Iowa State University; Ph.D., 2003, Australian National University. (2004)

**Khandaker, Mahub**, Professor, Physics; Department Chair. B.A., 1979, Brandeis University; Ph.D., 1987, University of Washington. (2012)

**Khong, Kenneth**, Professor, Finance. B.S., 1983, University of Oregon; M.B.A., 1987, University of California, Berkeley; Ph.D., 1998, University of Washington. (2004)

**Kim, Jeehoon**, Assistant Professor, Social Work. B.A., 1995, Seoul National University; M.He., 1997, Seoul National University; M.S.W., 2003, University at Albany, NY; Ph.D., 2011, University at Albany, NY. (2012)

**Kim, Yunjong**, Research Assistant Professor, Physics. B.S., 1991, Hanyang University; M.S., 1996, POSTECH; Ph.D., 2000, POSTECH, 2000. (2010)

**Klein, Thomas P.**, Associate Professor, English and Philosophy. B.A., Kenyon College 1990; M.A., 1992; Ph.D., 1998, University of Toronto. (2000)

**Kleist, David M.**, Professor, Counseling. B.A., 1987, University of Wisconsin; M.A., 1991, Governors State University; Ph.D., 1995, Southern Illinois University. (1995)

**Kloss, Thomas, E.**, Assistant Professor, Music Education. B.S., B.M.E., 1998, University of Arizona; M.M., 2005, Arizona State University; Ph.D., 2011, Arizona State University. (2011)

**Klug, Beverly J.**, Associate Professor, Educational Learning and Development. B.S., 1974; M.Ed., 1978; Ed.D., 1983, University of Cincinnati. (1985)

**Kobs-Nawotniak, Shannon**, Assistant Professor, Geosciences. B.S., 2003, Michigan Technological University; Ph.D., 2009, State University of New York at Buffalo. (2011)

**Kriloff, Catherine**, Professor, Mathematics. B.S., 1990, University of Washington; M.S., 1992; Ph.D., 1995, University of Michigan. (1997)

**Krumwiede, Dennis**, Professor, Management. B.S., 1977, University of Nebraska, Lincoln; M.S., 1989, University of Colorado; Ph.D., 1997, Kansas State University. (2000)

**Kuhlman, Erika**, Professor, History. B.A., 1983; M.A., 1987, University of Montana; Ph.D., 1995, Washington State University. (2003)

**Kunze Jay F.**, Emeritus, Nuclear Engineering and Health Physics. B.S., 1954; M.S., 1955; Ph.D., 1959, Carnegie-Mellon University. (1995)

**Lai, James C. K.**, Professor, Biomedical and Pharmaceutical Sciences. B.Sc., 1970, University College, Cardiff, Wales; M.Sc., 1971, The Medical School, Birmingham University, U.K.; Ph.D., 1975, St. Bartholomew's Hospital Medical College, London University, U.K. (1991)

**Laquer, H. Turner**, Professor, Mathematics. B.S., University of New Mexico; M.A., 1979; Ph.D., 1982, Harvard University. (1991)

**Larson, Howard A.**, At-Large Graduate Faculty, Nuclear Engineering. B.S., 1962, University of North Dakota; Ph.D., 1970, University of Washington.

**Launspach, Sonja**, Associate Professor, English and Philosophy. B.F.A., 1982; B.A., 1982; Washington University; M.A., 1995; Ph.D., 1998, University of South Carolina. (1999)

**Lawson, Jonathan N.**, Emeritus, School Psychology and Educational Leadership; B.F.A., 1964; M.A., 1966; Ph.D., 1970, Texas Christian University. (1995)

**Lawyer, Steven**, Associate Professor, Psychology. B.A., 1995, Western Michigan University; M.S., 1999; Ph.D., 2002, Auburn University. (2004)

**Leavitt, Gregory C.**, Professor, Sociology, Social Work and Criminal Justice. B.A., 1969, Central Washington University; M.A., 1971, University of Bridgeport; Ph.D., 1976, University of Nebraska, Lincoln. (2001)

**Legge, Nancy**, Professor, Communication, Media, and Persuasion. B.A., 1982, Wayne State University; M.A., 1984, Indiana University; Ph.D., 1988, Pennsylvania State University. (1991)

**Lehman, R. Michael**, At-Large Graduate Faculty, Biological Sciences. B.A., 1983, University of Colorado; M.S., 1991, University of Virginia; Ph.D., 2000, Idaho State University. (2001)

**Lester, Michael J.**, Professor, Sport Science and Physical Education. B.S., 1976, Lewis-Clark State College; M.S., 1978, University of Arizona; Ed.D., 1985, Oklahoma State University. (1990)

**Letzring, Tera D.**, Associate Professor, Psychology. B.A., 1999, University of Puget Sound; M.A., 2002; Ph.D., 2005, University of California, Riverside. (2005)

**Leung, Solomon W.**, Professor, Civil and Environmental Engineering. B.A., 1978; M.S., 1982; Ph.D., 1989, University of Iowa. (1992)

- Levenson, Carl A.**, Professor, English and Philosophy. B.A., 1967, Allegheny College; M.A., 1974; Ph.D., 1980, University of Chicago. (1981)
- Lin, Shu-Yuan**, At-Large Graduate Faculty, Associate Lecturer, Educational Foundations. B.A., 1985, Chunghsing University, Taiwan; M.Ed., 1993, University of Houston; Ed.D., 2003, Idaho State University. (2003)
- Lindbeck, Robin, L.**, Assistant Professor, Human Resource Training & Development. B.S., 1982, University of Wisconsin-Stout; M.Ed., 1984, Lesley College; C.A.S., 1993, Harvard University; Ed.D., 2004, Pepperdine University. (2012)
- Lineberry, Michael J.**, Professor, Nuclear Engineering and Health Physics. B.S., University of California, Los Angeles; M.S., 1968; Ph.D., 1972, California Institute of Technology.
- Link, Paul Karl**, Professor, Geosciences. B.S., 1976, Yale University; B.Sc., 1977, University of Adelaide; Ph.D., 1982, University of California, Santa Barbara. (1980)
- Lion, Robert, W.**, Assistant Professor, Human Resource Training and Development. B.A., 2000, Graceland University; M.S., 2002, Drake University; Ph.D., 2010, Capella University. (2012)
- Loeb, Bruce D.**, Professor, Communication, Media, and Persuasion. B.A., 1959, University of California, Santa Barbara; M.S., 1964; Ph.D., 1968, University of Oregon. (1969)
- Loether, Christopher P.**, Professor, Anthropology. B.A., 1981; M.A., 1985; Ph.D., 1991, University of California, Los Angeles. (1989)
- Lohse, Ernest**, Professor, Anthropology. B.A., 1975, California State University, Chico; M.A., 1977; Ph.D., 1981, University of Utah. (1989)
- Lohse, Kathleen A.**, Assistant Professor, Biological Sciences. B.A., B.S., 1993, Cornell University; Ph.D., 2002, University of California, Berkeley. (2010)
- Lott, Rex S.**, Professor, Pharmacy Practice and Administrative Sciences. B.S., 1972, Washington State University; Pharm.D., 1977, University of Minnesota. (1997)
- Loxterman, Janet L.**, Assistant Professor, Biological Sciences. B.S., 1992, Lehigh University; M.S., 1995, Virginia Commonwealth University; Ph.D., 2001, Idaho State University. (2008)
- Lybecker, Donna L.**, Associate Professor, Political Science. B.A., 1992, Grinnell College; M.A., 1996, Tulane University; Ph.D., 2003, Colorado State University. (2007)
- Lynch, Shannon**, Professor, Psychology; Department Chair. B.A., 1992, Tufts University; M.S., 1996; Ph.D., 1999, University of Michigan. (2004)
- Lyons, Gerard G.**, Professor, Sport Science and Physical Education. B.S., 1977, St. Joseph's College; M.S., 1978, Long Island University; Ed.D., 1984, Texas A&M University. (1998)
- Ma, Yongsheng**, Assistant Professor, Biological Sciences. M.D., 1982, Lanzhou Medical School; Ph.D., 1994, New York University. (2008)
- Madaras-Kelly, Karl**, Professor, Pharmacy Practice and Administrative Sciences. B.S., 1991; Pharm.D., 1992, University of Minnesota. (1994)
- Magnuson, Timothy**, Associate Professor, Biological Sciences. B.S., 1987, University of Minnesota; Ph.D., 1996, University of Idaho. (2001)
- Mahar, James W.**, At-Large Graduate Faculty, Civil and Environmental Engineering. B.S., 1967, Idaho State University; M.S., 1972, Colorado State University; Ph.D., 1977, University of Illinois. (2003)
- Mahasukhon, Puttipong**, Assistant Professor, Electrical Engineering. B.S., 2000, Kasetsart University, Bangkok, Thailand; M.S., 2004, University of Nebraska Lincoln; Ph.D., 2012., University of Nebraska Lincoln. (2011)
- Marsh, Kevin**, Associate Professor, History; Department Chair. B.A., 1989, University of Oregon; M.A., 1995; Ph.D., 2002, Washington State University. (2003)
- Martin, Anthony**, Professor, Art. B.S., 1967, Kent State University; M.A., 1969; M.F.A., 1975, Illinois State University. (1977)
- Martin, Dave E.**, Clinical Assistant Professor, Physician Assistant Studies. B.S., 1980, University of Oklahoma; M.P.A.S., 2000, University of Nebraska. (2003)
- Maschner, Herbert D. G.**, Professor, Anthropology. B. A., 1983, University of New Mexico; M.A., 1987, University of Alaska; Ph.D., 1992, University of California, Santa Barbara. (1999)
- Mason, Barbara J.**, Professor, Pharmacy Practice and Administrative Sciences. Pharm.D., 1982, University of Nebraska, Lincoln. (1987)
- McAleese, Willis J.**, Professor, Health and Nutrition Sciences; Department Chair. B.S., 1976, Northwest Missouri State University; M.P.E., 1978, Idaho State University; Ph.D., 1990, University of New Mexico. (1989)
- McBeth, Mark K.**, Professor, Political Science. B.A., 1987; M.P.A., 1989; D.A., 1992, Idaho State University. (1995)
- McCardle, Michael**, Assistant Professor, Marketing. B.A., 1998, Jacksonville State University; M.A., 1999, University of Alabama; Ph.D., 2005, University of Central Florida. (2011)
- McChesney, John W.**, At-Large Graduate Faculty, Sport Science. B.A., 1982, California State University, Chico; M.A., 1984, Western Michigan University; Ph.D., 1996, University of Oregon.
- McCurry, Michael O.**, Professor, Geosciences. B.A., 1974, University of Washington; Ph.D., 1985, University of California, Los Angeles. (1990)
- McNulty, Dustin**, Assistant Professor, Physics. B.S., 1994, James Madison University; Ph.D., University of Virginia, 2002. (2010)
- McNeil, Rita C.**, Associate Professor, Human Resource Training and Development. B.G.E., 1988, Athabasca University; M.S., 1992; Ed.D., 1997 Montana State University. (2001; 2008)
- Meldrum, D. Jeffrey**, Professor, Biological Sciences. B.S., 1982; M.S., 1984, Brigham Young University; Ph.D. 1989, State University of New York, Stony Brook. (1993)
- Mercaldo, David J.**, Associate Professor, School Psychology, Literacy & Special Education; Chair. B.A., 1966, Roberts Wesleyan College; M.S., 1973, University of Tennessee; Ed.D., 1977, University of Rochester. (1990)
- Meyers, Michael, C.**, Associate Professor, Sport Science and Physical Education. B.S., 1980, Oklahoma State University; M.S., 1986, Texas A&M University; Ph.D., 1990, Texas A&M University. (2013)
- Miyake, Tina, M.**, Visiting Assistant Professor, Psychology. B.S., 1999, Idaho State University; M.S., 2001, Idaho State University; Ph.D., 2007, University of North Carolina at Greensboro. (2012)

- Mispireta, Monica**, Assistant Professor, Psychology. 2003, MD, San Martin de Porres University, School of Medicine, Lima, Peru 2003, 2007 MHS Clinical Epidemiology, Cayetano Heredia Peruvian University, School of Medicine, Lima, Peru, 2007 Ph.D. candidate, Johns Hopkins School of Public Health. (2010)
- Moffit, Dani, M.**, Assistant Professor, Athletic Training. B.S., 1991, Idaho State University; M.A., 1992, Western Michigan University; M.P.E., 2001, Idaho State University; Ph.D., 2008, Temple University. (2012)
- Mousavinezhad, Seyed Hossein**, Professor, Electrical Engineering and Computer Science; Department Chair. B.S., 1972, National Taiwan University; M.S., 1973, Michigan State University; Ph.D., 1977, Michigan State University. (2007)
- Murphy, Gregory B.**, Associate Professor, Management. B.A., 1985, Weber State University; M.S., 1989, University of Central Texas; Ph.D., 1996, University of Houston. (2008)
- Nadelson, Sandra, G.**, Associate Clinical Professor, Nursing. B.S., 1987, Oregon Health Science University; M.S.N., 1990, California State University Los Angeles; M.S.Ed., Portland State University; Ph.D., 2007, University of Nevada Las Vegas. (2012)
- Naidu, D. Subbaram**, Professor, Electrical Engineering. B.E., 1964, Sri Venkateswara University; M.Tech., 1967; Ph.D., 1977, Indian Institute of Technology. (1990)
- Neill, Karen S.**, Professor, Nursing. B.S.N., 1982; M.S., 1985; Ph.D., 1994, Idaho State University. (1985)
- Neill, Mark W.**, Associate Professor, School Psychology and Educational Leadership. B.S., 1977, Western Montana College; M.Ed., 1995; Ed.D., 1999, University of Montana. (2004)
- Nies, Mary A.**, Professor, School of Nursing, Director and Associate Dean of Division of Health Sciences. B.S.N., 1974, University of Wisconsin Madison; M.S.N., 1980, Loyola University Chicago; Ph.D., 1988, University of Illinois at Chicago. (2012)
- Nigg, David**
- Ogiela, Diane A.**, Assistant Professor, Communication Sciences and Disorders. B.A., 1991, Benedictine University; M.A., 1993, Syracuse University; M.S., 1995, Purdue University; Ph.D., 2007, Michigan State University (2011)
- Olsen, Janette**, Assistant Professor, Health Education. B.S., 1995, Brigham Young University; M.S., 1999, Brigham Young University; Ph.D., 2010, University of Utah. (2007)
- Ottaway, Thomas A.**, Professor, Computer Information Systems. B.S., 1990, Wichita State University; M.S., 1993; Ph.D., 1995, Texas Tech University. (2001)
- Ougouag, Abderrafi M.**, At-Large Graduate Faculty, Nuclear Engineering. D.E.S., 1975; D.E.A., 1976, University of Algiers; M.S., 1981; Ph.D., 1984, University of Illinois. (2008)
- Ownby, Terry**, Assistant Professor, Photo Media. Ph.D., Colorado State University; M.A., Webster University-Saint Louis; B.S., Missouri State University. (2013)
- Owens, Christopher T.**, Associate Professor, Pharmacy Practice. B.A., 1998, Utah State University; Pharm.D., 2002, Idaho State University. (2003)
- Owens, J. B. "Jack"**, Research Professor, History. B.A., 1966, Oberlin College; M.A., 1968; Ph.D., 1972, University of Wisconsin. (1975)
- Paarmann, Carlene**, Professor, Dental Hygiene. M.Ed., 1978, Idaho State University. (1976)
- Pak, Joshua**, Professor, Chemistry. B.A., 1993, Whittier College; M.S., 1995, Duquesne University; Ph.D., 1999, University of Oregon. (2001)
- Palmer, Bennett**, Professor, Mathematics. B.S., 1979, University of Massachusetts; Ph.D., 1986, Stanford University. (2002)
- Pan, Wei**, At-Large Graduate Faculty, Electrical Engineering. B.S., 1989; M.S., 1992; Ph.D., 1996, Zhejiang University. (2008)
- Papa, Jared**, Clinical Assistant Professor, Physician Assistant Studies. B.S., Brigham Young University; M.S., Pacific University. (2012)
- Park, Pamela**, Professor, Languages and Literatures. B.A., 1972, Fordham University; Licence Lettres ès Modernes, 1974, Université de Nancy; Ph.D., 1979, City University of New York. (1985)
- Parker, Kevin R.**, Professor, Computer Information Systems. B.A., 1982, University of Texas, Austin; M.S., 1991; Ph.D., 1995, Texas Tech University. (1999)
- Partlow Lefevre, Sarah T.**, Professor, Communication, Media, and Persuasion; Director, James M. & Sharon E. Rupp Debate Society. B.A., 1995, University of Utah; M.A., 1998, University of Kansas; Ph.D., 2009, University of Kansas. (2001)
- Pattillo, Robin**, Associate Professor, Nursing. B.S., 1976, M.Ed., 1981, B.S.N., 1985, Auburn University; M.S.N., 1992, Troy University; Ph.D., 2000, Auburn University. (2007)
- Paulson, Donald L.**, Associate Professor, Counseling. B.A., 1966, Hamline University; M.S., 1968, Indiana University; Ph.D., 1972, University of Iowa. (1991)
- Payne, Tracy L.**, Professor, Mathematics. B.S., 1988, University of Wisconsin- Madison; Ph.D., 1995, University of Michigan. (2001)
- Pearson, David**, Assistant Professor, Geosciences. B.S., 2002, University of California; M.S., 2007, and Ph.D. 2012, University of Arizona. (2012)
- Pemberton, Cynthia Lee A.**, At-Large Graduate Faculty, Educational Leadership and Instructional Design. B.S., 1980, Willamette University; M.S., 1983, Southern Oregon State College; Ed.D., 1996, Portland State University. (1998)
- Perez, Alba**, Associate Professor, Mechanical Engineering. B.S., 1996, Polytechnic University of Catalonia, Spain; M.S., 1999; Ph.D., 2003, University of California, Irvine. (2004)
- Peterson, Charles R.**, Professor, Biological Sciences. B.S., 1972; M.S., 1974, University of Illinois, Urbana; Ph.D., 1982, Washington State University. (1988)
- Peterson, David**, Assistant Professor, Anthropology. B.A., 1987; M.A., 1993, University of Minnesota; Ph.D., 2007, University of Chicago. (2008)
- Peterson, Teri S.**, Instructor, College of Business and Division of Health Sciences; B.A., 1977, UCLA; M.S., 1980, San Diego State University; M.S., 1989, Utah State University; Ed.D., 2013, Idaho State University
- Petit, Angela**, Assistant Professor, English and Philosophy. B.A., 1989; M.A., 1992, Louisiana State University; Ph.D., 1999, The University of Southern Mississippi. (2008)
- Petlichkoff, Linda M.**, At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1972; M.A., 1982, Michigan State University; Ph.D., 1988, University of Illinois at Urbana-Champaign.

- Pettinger, Tracy K.**, Clinical Associate Professor, Pharmacy. Pharm.D., 2003, Idaho State University. (2005)
- Pfau, Jean C.**, Associate Professor, Biological Sciences. B.A., 1978; Ph.D., 1998, University of Montana. (2008)
- Pfeiffer, Ronald P.**, At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1976, Central Michigan University; M.S., 1979, University of Oregon; Ed.D., 1985, Brigham Young University.
- Phelps, Paula**, Associate Professor, Physician Assistant Studies. B.A., 1988, Earlham College; P.A. Certificate, 1995, University of Utah; Master of Health Education, 2000, Idaho State University. (1995)
- Picard, Robert R.**, Professor, Accounting; Department Chair. B.S., 1976, Northern Michigan University; M.B.A., 1984, University of St. Thomas; Ph.D., 1994, University of Kentucky. (1994)
- Pierce, Becky**, At-Large Graduate Faculty, Biological Sciences. B.S., 1987, California Polytechnic State University; M.S., 1991, University of Nevada, Reno; Ph.D., 1999, University of Alaska, Fairbanks. (2005)
- Piland, Neill F.**, Research Professor, Institute of Rural Health/Health & Nutrition Sciences. B.A., 1965, University of California, Los Angeles; M.A., 1966, University of California, Davis; M.P.H., 1970; Dr. P.H., 1979, University of California, Los Angeles. (2002)
- Pilarski, Jason Q.**, Assistant Professor, Biological Sciences and Dental Sciences. B.S., 1996, Indiana University, Bloomington; M.S., 2000, Indiana University, Bloomington; Ph.D., 2006, Northern Arizona University, Flagstaff. (2012)
- Pope, Chad L.**, Associate Professor, Nuclear Engineering. B.S. 1989, Idaho State University; M.S., 1993, ISU; Ph.D., 2011, Idaho State University. Licensed Professional Engineer. (2013)
- Porter, Warren P.**, At-Large Graduate Faculty, Biological Sciences. B.S., 1961, University of Wisconsin; M.A., 1963, University of California; Los Angeles Ph.D., 1966, University of California, Los Angeles.
- Pugmire, Brooke**, Clinical Associate Professor, Pharmacy Practice. Pharm.D., 2004 Idaho State University. (2006)
- Ramsdell-Hudock, Heather L.**, Assistant Professor, Communication Sciences and Disorders. B.A., 2001, Iona College; M.S., 2003, Boston University; Ph.D., 2009, University of Memphis. (2012)
- Rankin, Linda L.**, Professor, Health and Nutrition Sciences. B.S., 1974, Iowa State University; M.S., 1975, University of Wisconsin-Stout; Ph.D., 1996, University of Idaho. (1991)
- Rasmussen, Erin**, Professor, Psychology. B.S., 1994, Utah State University; M.S., 1999; Ph.D., 2001, Auburn University. (2004)
- Ray, Beverly**, Professor, Educational Foundations. B.S., 1984, University of Texas, Austin; M.A., 1989; Ph.D., 2000, University of Alabama. (2001)
- Reedy-Maschner, Katherine L.**, Assistant Professor, Anthropology. B.A., 1997, University of Wisconsin; Ph.D., 2004, University of Cambridge, UK. (2004)
- Reinhardt, Keith**, Assistant Professor, Biological Sciences. B.S., 1994, College of William & Mary; M.S., 2001, University of Virginia; Ph.D., 2009, Wake Forest University. (2012)

- Sato, Chikashi**, Professor, Civil and Environmental Engineering. B.S., 1971, Fukushima National College of Technology; M.S., 1976, University of Kansas; Ph.D., 1981, University of Iowa. (1995)
- Savage, Bruce M.**, Assistant Professor, Civil and Environmental Engineering. B.S., 1992; M.S., 1997; Ph.D., 2002, Utah State University. (2006)
- Scalarone, Gene M.**, Professor, Biological Sciences. B.S., 1962, Kansas State College; M.S., 1965, University of Oklahoma; Ph.D., 1970, University of California, Berkeley. (1980)

**Schmidt, Roger P.**, Professor, English and Philosophy. B.A., 1980; M.A., 1985; Ph.D., 1989, University of Washington. (1989)

**Schoen, Marco P.**, Professor, Mechanical Engineering; Department Chair. B.S., 1989, Swiss College of Engineering, Muttenz, Switzerland; M.E., 1993, Widener University; Ph.D., 1997, Old Dominion University. (2001)

**Schou, Corey D.**, Professor, Computer Information Systems. B.S., 1968, Rollins College; M.S., 1970; Ph.D., 1972, Florida State University. (1985)

**Schou, Sue B.**, At-Large Graduate Faculty, Educational Leadership and Instructional Design. B.S., 1971; M.S., 1974 Florida State University; Ph.D., 2007, Idaho State University.

**Schroder, Norman E.**, Professor, Theatre and Dance. B.A., 1978, University of Wisconsin-Eau Claire; M.A., 1988; Ph.D., 1997, Bowling Green State University. (1999)

**Schultz, Richard R.**, At-Large Associate Adjunct Professor, Nuclear Engineering. B.S. 1967, University of Florida; M.S., 1971, Rensselaer Polytechnic Institute; Ph.D., 2010, Idaho State University. (2010)

**Schwartz, Anna L.**, Associate Professor, School of Nursing. B.S., 1985, Exercise Science, University of Florida; B.S., 1988, Nursing, University of Florida; M.S., 1994, Community Health Nursing and Family Nurse Practitioner, Arizona State University; M.S., 1991, Health Education, Florida State University; Ph.D., 1997, University of Utah; . (2011)

**Scott, Karen Wilson**, Professor, Human Resource Training and Development. B.A., 1974, Linfield College; M.Ed., 1999; Ph.D., 2002, University of Idaho. (2005)

**Seiger, Cindy**, Associate Professor, Physical & Occupational Therapy. B.S., 1995, University of Utah; B.S. (Hons.), 1999, University of Ulster; M.S., 2002, Rocky Mountain University of Health Professions; Ph.D., 2009, Brigham Young University. (2006)

**Seikel, J. Anthony**, Professor, Communication Sciences and Disorders. B.S., 1979, Phillips University; M.A., 1981, Wichita State University; Ph.D., 1988, University of Kansas. (1998)

**Shapley, Mark**, At-large Graduate Faculty, Geosciences. B.S., 1979, University of Washington; M.S., 1985, University of Montana; Ph.D., 2005, University of Minnesota. (2008)

**Sheridan, Peter**, Professor, Biological Sciences. B.A., 1984; M.S., 1991, Rutgers University; Ph.D., 1996, University of Cincinnati. (2001)

**Shropshire, Steven L.**, Professor, Physics. B.S., 1985; M.S., 1988; Ph.D., 1991, Washington State University. (1992)

**Sieber, Sharon L.**, Professor, Languages and Literatures. B.A., 1977; M.A., 1982; Ph.D., 1992, Indiana University. (1993)

**Skidmore, James R.**, Associate Professor, English and Philosophy. B.A., 1992; B.A., 1993, Washington State University; Ph.D., 2000, University of Minnesota. (2000)

**Smetanka, Rachel, D.**, Assistant Professor, Physician Assistant Studies. B.A., 1996, University of Minnesota-Duluth; Ph.D. 2001, University of Iowa; M.P.A.S., 2013, Idaho State University. (2013)

**Smith, Curtis L.**, At-Large, Adjunct Assoc. Faculty, Nuclear Engineering. B.S., 1988, Idaho State University; M.S., 1990, Idaho State University; Ph.D., 2003, Massachusetts Institute of Technology. (2009)

**Smith, Kenneth A.**, Professor, Accounting; Dean, College of Business. B.S., 1968, University of Montana; C.P.A., 1968; Ph.D., 1971, University of Texas. (1970)

**Smith, Linda S.**, Professor, Nursing. B.S., 1979, Alverno College; M.S., 1982, University of Wisconsin-Milwaukee; D.S.N., 1998, University of Alabama, Birmingham. (2004)

**Smith, Rosemary J.**, Professor, Biological Sciences. B.A., 1984, Pomona College; M.S., 1988; Ph.D., 1991, University of Arizona. (1999)

**Smolarski, Jan**, Professor, Accounting. B.S.B.A., 1982, Montana State University – Billings; M.B.A., 1984, Texas A&M; Ph.D., 1996, University of North Texas. (2014)

**Sorensen, Andrew, D.**, Emeritus, Civil and Environmental Engineering. B.S. 2002, University of Wyoming; Ph.D., University of Nebraska-Lincoln. (2011)

**Spear, Caile E.**, At-Large Graduate Faculty, Sport Science and Physical Education. B.S., 1985, Texas Woman's University; M.S., 1991; Ph.D., 1996, University of Arkansas, Fayetteville. (1996)

**Speck, Sandra K.** Smith, Professor, Marketing. B.A., 1977; M.B.A., 1979, University of Wyoming, Laramie; Ph.D., 1992, University of Illinois, Urbana-Champaign. (2005)

**Spiegel, Kathleen**, Emeritus, B.S., 1971, Old Dominion University; M.S., 1972, Idaho State University; Ph.D., 1983, University of Utah. (2000)

**Squires, David**, Professor, Educational Learning and Development; Department Chair. B.S., 1971, Pacific Union College; M.A., 1992, Fresno Pacific College; Ph.D., 2001, Indiana University, Bloomington. (2000)

**Stamm, Beth Hudnall**, At-Large Graduate Faculty, Psychology. B.S., 1986; M.A., 1989, Appalachian State University; Ph.D., 1993, University of Wyoming.

**Starovoitova, Valeriia, N.**, Research Assistant Professor, Physics. B.S., 1996, St-Petersburg State University; Ph.D., 2007, Purdue University. (2007)

**Stegner, Tesa**, Professor, Economics; Department Chair. B.S., 1983, Valparaiso University; Ph.D., 1989, Washington State University. (1992)

**Stephenson, Thomas**, At-Large Graduate Faculty, Biological Sciences. B.S., 1986, Colorado State University; M.S., 1989, Virginia Polytechnic Institute and State University; Ph.D., 1995, University of Idaho. (2005)

**Stewart, Tara L.**, Assistant Professor. B.A., 2002, University of Manitoba; M.A., 2006, University of Manitoba; Ph.D., 2010, University of Manitoba. (2012)

**Stowe, Dennis C.**, Professor, Mathematics. B.S., 1974, University of Michigan, Ann Arbor; M.A., 1977; Ph.D., 1980, University of California, Berkeley. (1988)

**Strickland, Jane M.**, Associate Professor, Organizational Learning and Performance. B.S., 1988; M.Ed., 1989, Montana State University; Ed.D., 1999, Idaho State University. (1999)

**Stuffle, R. Eugene**, Professor, Electrical Engineering. B.S.E.E., 1966; M.S.E.E., 1969, Rose Polytechnic Institute; M.S.B.A., 1975, Indiana University, Fort Wayne; Ph.D.E.E., 1979, Purdue University. (1989)

**Swetnam, Susan H.**, Emeritus, English and Philosophy. B.A., 1972, M.A., 1975, University of Delaware; Ph.D., 1979, University of Michigan. (1979)

**Talford, David, B.**, Clinical Assistant Professor, Physician Assistant Studies, B.S., 1999, Des Moines University; M.S., 2007, University of Nebraska. (2007)

- Talley, Todd T.**, Assistant Professor, Department of Biomedical and Pharmaceutical Sciences. B.S., 1995, University of Utah; Ph.D., 2001, University of Montana. (2012)
- Tapanila, Leif**, Associate Professor, Geosciences. B.S., 1999, University of Waterloo, Canada; M.S., 2001, Laurentian University, Canada; Ph.D., 2005, University of Utah. (2005)
- Tatar, Eddie**, Associate Professor, Physics. M.S., 2001; Ph.D., 2000, University of Notre Dame. (2001)
- Tavernier, Susan S.**, Assistant Professor, B.S.N., 1985, Whitworth University; M.S.N., 1990, Loyola University of Chicago; Ph.D., 2009, University of Utah; Post-Doc, 2013, University of Utah. (2013)
- Terrell, Patricia Smith**, At-Large, B.S.Ed., 1973, University of Louisville; M.Ed., 1978, University of Louisville; Ed.D., University of Kentucky, 1988. (2012)
- Terry, Thomas C.**, Professor, Mass Communication; Department Chair. B.S., 1975, University of Iowa; M.A., 2003; Ph.D., 2007, University of North Carolina. (2008)
- Thackray, Glenn D.**, Professor, Geosciences. B.S., 1985, Beloit College; M.S., 1989, University of Oregon; Ph.D., 1996, University of Washington. (1995)
- Thomas, Gloria Jean**, Senior Lecturer, School Psychology and Educational Leadership. B.A., 1974, Idaho State University; M.S., 1976, Oregon State University; M.B.A., 1985, Colorado State University; Ph.D., 1988, Brigham Young University. (2002)
- Thomas, Jeremy N.**, Assistant Professor, Sociology. B.A., 1997, Asbury College; M.Div., 2002, Asbury Theological Seminary; M.S., 2007, Purdue University; Ph.D., 2012, Purdue University. (2012)
- Thomas, Michael**, Associate Professor, Biological Sciences. B.S., 1991, University of Nebraska, Lincoln; M.S., 1994, Kansas State University; Ph.D., 2000, Pennsylvania State University. (2003)
- Thompson, Kelly**, Clinical Associate Professor, Physical and Occupational Therapy; B.S., 2002, Belmont University; Ed.D., 2008, Idaho State University.
- Tivis, Laura**, Research Associate Professor, Institute of Rural Health. B.A., 1986, Boise State University; M.S., 1989, Eastern Washington University; Ph.D., 1993, University of Oklahoma Health Sciences Center. (2004)
- Tivis, Rick**, At-Large Graduate Faculty, Counseling. B.A., 1980, University of Central Oklahoma; M.P.H., 1994, University of Oklahoma Health Science.
- Tocher, Neil**, Assistant Professor, Management. B.S., 2002, Gonzaga University; M.S., 2005; Ph.D., 2007, Auburn University. (2007).
- Tokle, Joanne**, Professor, Management. B.S., 1981, University of Wisconsin; M.S., 1983; University of Minnesota; Ph.D., 1988, Iowa State University. (1992)
- Tokle, Robert J.**, Professor, Economics. B.A., 1980, University of Wisconsin-Madison; Ph.D., 1986, Iowa State University. (1986)
- Turley-Ames, Kandi J.**, Professor, Psychology; Dean, College of Arts and Letters. B.S., 1990; M.S., 1993, Idaho State University; Ph.D., 1996, Washington State University. (1997)
- Van der Schyf, Cornelis J.**, Professor, Biomedical & Pharmaceutical Sciences. B.Pharm., 1978, Potchefstroom University, South Africa; M.Sc., 1982, Potchefstroom University, South Africa; D.Sc., 1983, Potchefstroom University, South Africa. (2013)
- Van Winkle, Matthew**, Assistant Professor, English. B.A., 1995 Boston University; M.A., 1998, Boston College; Ph.D., 2006, Boston College (2012)
- Vaughn, Ross E.**, At-Large Graduate Faculty, Sport Science and Physical Education. B.A., 1968, Chico State College; M.S., 1969; Ph.D., 1982, Washington State University.
- Vereen, Linwood**, Assistant Professor, Counseling. B.S., 1991; M.A., 1997, University of Connecticut; Ph.D., 2002, University of Nevada, Reno. (2004)
- Vik, Peter W.**, Professor, Psychology. B.S., 1982, University of California, Davis; M.A., 1986, San Diego State University; Ph.D., 1992, University of Colorado. (1996)
- Wabrek, Richard M.**, Associate Professor, Mechanical Engineering. B.S., 1971, Valparaiso University; M.S., 1976, University of Vermont; Ph.D., 1985, New Mexico State University. (1989)
- Wahl, Russell E.**, Professor, English and Philosophy. B.A., 1974, Colby College, Maine; M.A., 1977; Ph.D., 1982, Indiana University. (1985)
- Warnock, Douglas**, Professor, Art. B.A., 1975, University of California, Santa Barbara; M.A., 1979, San Jose State University; M.F.A., 1986, City University of New York. (1995)
- Watkins, Paul R.**, Professor, School Psychology and Educational Leadership. B.S., 1974; MBA., 1975; Ph.D., 1980, Arizona State University. (2013)
- Weber, Carolyn F.**, Assistant Professor, Biological Sciences. B.A., 2004, Cornell College; Ph.D., 2009, Louisiana State University. (2012)
- Weeden, Allisha M.**, Assistant Professor, Dietetics. B.S., 2002, Kansas State University; M.S., 2004, University of Kansas; Ph.D., 2008, Kansas State University. (2009)
- Welhan, John A.**, Affiliate Faculty, Geosciences; Supervisory Research Geologist, Idaho Geological Survey. B.Sc., 1972, University of Manitoba; M.Sc., 1974, University of Waterloo; Ph.D., 1981, University of California, San Diego. (1990)
- Weller, Joshua, A.**, Assistant Professor, Psychology. B.A., 1995, Lehigh University; Ph.D., 2007, University of Iowa. (2012)
- Wheaton, Joseph M.**, At-Large Graduate Faculty, Geosciences. B.S., 2002; M.S., 2003, University of California, Davis; Ph.D., 2008, University of Southampton. (2008)
- Whitaker, Curtis**, Associate Professor, English and Philosophy. B.A., 1986, University of California, Davis; M.A., 1997; Ph.D., 2001, University of California, Los Angeles. (2001)
- Whitaker, Kent**, Clinical Assistant Professor, Physician Assistant Studies. B.S., 1987; M.Ed., 1993, Weber State University; P.A. Certificate, 1995, University of Utah. (1998)
- White, Craig**, At-Large Graduate Faculty, Geosciences. B.A., 1967, Earlham College; M.A., 1970, University of Wisconsin; Ph.D., 1980, University of Oregon. (1980)
- Williams, Brian G.**, Associate Professor, Mechanical Engineering. B.S., 1990, Brigham Young University; M.S., 1991; Ph.D., 1997 Utah State University. (2001)
- Williams, Charles F. (Rick)**, Associate Professor, Biological Sciences. B.S., 1979, University of Oklahoma; M.S., 1985, University of Miami; Ph.D., 1991, University of Wisconsin-Madison. (1999)

**Williams, D J**, Assistant Professor, Social Work. B.S., 1992, Weber State University; M.S., 1998, University of Utah; M.S.W., 2000, University of Utah Ph.D. 2004, University of Alberta, Canada. (2006)

**Winston, Jessica**, Associate Professor, English and Philosophy. B.A., 1994, Wellesley College; M.A., 1996; Ph.D., 2002, University of California, Santa Barbara. (2002)

**Winston, Vern D.**, Professor, Biological Sciences. B.S., 1970; Ph.D., 1976, University of Nebraska, Lincoln. (1980)

**Wolfley, Jeanette**, At-Large Graduate Faculty, Anthropology. B.A., 1979, University of Minnesota; J.D., 1982, University of New Mexico School of Law.

**Wolper, James S.**, Professor, Mathematics. B.A., 1976, Harvard University; Ph.D., 1981, Brown University. (1991)

**Wolter, Brent**, Associate Professor, English and Philosophy. B.A., 1991, Wartburg College; M.A., 1999, University of Birmingham, U.K.; Ph.D., 2005, University of Wales, Swansea. (2005)

**Wong, Maria**, Professor, Psychology. B.S.S., 1983, Chinese University of Hong Kong; M.A., 1985, University of North Carolina, Chapel Hill; Ph.D., 1993, University of Chicago. (2004)

**Woodworth-Ney, Laura**, Professor, History; Associate Vice President. B.A., 1989, University of Idaho; M.A., 1991; Ph.D., 1996, Washington State University. (2000)

**Xie, Ying**, Assistant Professor, Educational Leadership and Instructional Design. B.A. and B.S., 2000, University of Science and Technology of China; Ph.D. 2008, Pennsylvania State University. (2011)

**Xu, Dong**, Assistant Professor, Biomedical and Pharmaceutical Sciences. B.S., 1996, NanKai University; M.S., 2003, San Diego State University; Ph.D., 2008, San Diego State University. (2012)

**Xu, Xiaomeng**, Assistant Professor, Psychology. B.S., 2005, New York University; M.S., 2007, Stony Brook University; Ph.D., 2011, Stony Brook University. NIH Postdoctoral Fellowship, 2013, Brown University (2013)

**Yates, Chad**, Assistant Professor, Counseling. B.S., 2005, University of Toledo; M.S., 2008, University of Toledo; Ph.D., 2012, Kent State University. (2013)

**Yan, Guang**, Assistant Professor, Biomedical and Pharmaceutical Science. B.S., 1996; M.S., 1999, Shenyang Pharmaceutical University; Ph.D., 2004, University of Utah. (2009)

**Yang, Luobin**, Research Assistant Professor, Biological Sciences. B.S., 1992, Peking University; M.S., 2003, Marquette University and Medical College of Wisconsin; Ph.D., 2011, Idaho State University. (2012)

**Young, Tara**, Professor, Theatre and Dance; Director of Theatre. B.A., 1996; M.F.A., 2002, Southern Illinois University, Carbondale. (2002)

**Youngs, Yolonda**, Assistant Professor, History. B.A., 1993, Florida State University; M.S., 2004, Montana State University; Ph.D., 2009, Arizona State University. (2012)

**Zager, Peter**, At-Large Graduate Faculty, Biological Sciences. B.S., 1973; M.A., 1976, Western Michigan University; Ph.D., 1980, University of Montana. (2006)

**Zhu, Wenxiang**, Associate Professor, Mathematics. B.S., 1992; M.S., 1995, Fudan University, China; Ph.D., 2002, Iowa State University. (2006)

**Zhu, Yunrong**, Associate Professor, Mathematics. B.S., 2000, Southeast University, Nanjing, China; M.S., 2003, Southeast University, Nanjing, China; Ph.D., 2008, Pennsylvania State University. (2012)

**Zink, Amanda J.**, Assistant Professor, English. B.A., 2000, Olivet Nazarene University; M.A., 2005, University of Massachusetts, Boston; Ph.D., 2013, University of Illinois, 2013. (2013)

**Zydek, Dawid, M.**, Assistant Professor, Electrical Engineering; M.Sc., 2005, Wraclaw University of Technology; Ph.D., 2010, University of Nevada Las Vegas. (2011)

# Allied Graduate Faculty

**Agamba, Joachim, J.** Lecturer, Educational Foundations. B.A., 1993, University of California, Los Angeles; M.A., 2005, University of California, Los Angeles; Ph.D., 2012, Idaho State University. (2014)

**Bottenberg, H. Carrie.** Assistant Lecturer, Geosciences. B.A., 1997, Geography/German, University of Montana; B.S., 2005, Geology, University of Montana; M.S., 2009, Missouri University of Science and Technology; Ph.D., 2012, Missouri University of Science and Technology. (2011)

**Kamusoko, Sibongile D.**, Associate Lecturer. Bachelor of Education (Physical Education Option), University of Zimbabwe; M.P.E.—A.A., 2004, Idaho State University; Ed.D., 2010, Idaho State University. (2013)

**Kickman, Richard D.**, Nuclear Engineering and Health Physics. B.S., 2002, Idaho State University; M.S., 2006, University of Utah; Ph.D., 2010, University of Utah. (2014)

**Miller, Scott C.**, Research Professor, Radiology. B.S., 1970, University of Utah; Ph.D., 1974, University of Utah.

**Ostrom, Lee T.**, Professor, Industrial Engineering. B.S., 1979, University of Idaho; M.S., 1980, and Ph.D., 1988, Texas Tech University. (2014)

**Rempe, Joy Lynn.** Nuclear Engineering & Health Physics. B.S., 1981, University of Missouri, Rolla; M.S., 1983, Massachusetts Inst. Of Technology; D.Eng., 1983, Massachusetts Inst. Of Technology. (2014)

**Thorpe, Justin N.**, Assistant Professor, Education. B.S., 2007, Utah State University; Ph.D., 2012, Michigan State University. (2013)

**Wilhelmsen, Cheryl A.**, Assistant Professor, Industrial Technology. B.S., 1995, Idaho State University; M.S., 2002, Ed.S., 2006, and Ph.D., 2013, University of Idaho. (2014)

**Total Operating Revenues** have increased by approximately \$973K for the three-month period ended September 30, 2013 compared to the same period in 2012. Net student tuition and fee revenue increased \$2.2 million between fiscal year 2014 and 2013 through the first quarter. The increase in tuition and fee revenue is primarily driven by an increase of 238 nonresident students, 194 of which are full-time equivalents, as well as the 4.5% tuition and fee rate increase. Declines in grants and contracts and sales and services of educational departments offset the tuition and fee revenue increase.

**Line 4: Federal grants and contracts** decreased 26% compared to September 30, 2012. This was primarily due to decreased grant spending and closures. The institution saw decreased spending and closures in grants from the Departments of Health and Human Services, Labor, Energy, Defense, Justice, and Interior, as well as the National Science Foundation and the Nuclear Regulatory Authority totaling approximately \$752K. The decreased grant spending and closures are primarily from an Idaho Oral Health Institute grant totaling \$303K, College of Engineering grants totaling \$114K, a Physics grant totaling \$106K, an Awareness to Action Youth Suicide Prevention Project grant in the Division of Health Sciences totaling \$83K, a History grant for understanding social networks totaling \$75K, a College of Technology grant for its Virtual Safety Training Center totaling \$47K, and a Psychology grant researching pathways to jail for women totaling \$24K.

**Line 5: State and local grants and contracts** decreased by \$131K due to various grants. The College of Education had a grant from the Idaho Department of Education for regional special education that closed causing a decrease of \$111K. The College of Technology had decreased grant expenditures and a grant closure from the Idaho Department of Labor and the Division of Professional Technical Education (PTE) for instructional equipment and renewable energy education totaling approximately \$194K. Geosciences had a grant close from the Idaho Department of Water Resources for Priest Lake research amounting to \$90K. Conversely, the Research in Science and Engineering (RISE) facility received a grant

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

from the Idaho Global Entrepreneurial Mission (IGEM) in the amount of \$225K for nanofabrication, and the Division of Health Sciences received an increase of approximately \$22K in grant revenue from the Idaho Department of Health and Welfare for the Idaho Center for Disabilities Evaluation. The remaining \$17K is due to changes in various grants.

**Line 6: Private grants and contracts** decreased primarily due to four significant grants closing. The Idaho Accelerator Center had a decline of \$248K from a Wyle Laboratories grant, a decrease of \$116K from a Battelle Energy Alliance grant, and an increase of \$156K from a Battelle Energy Alliance grant that just closed in September. Additionally, an Albertson's Foundation grant closed in the College of Technology causing a decline of \$131K. The offsetting difference is due to changes in remaining grants and contracts.

**Line 7: Sales and services of education departments** decreased by \$224K compared to September 30, 2012. COT Work Force Training received \$116K less in sales and the Family Medicine Center received \$136K less in clinic fees. These decreases were offset by a \$28K increase in Dental Clinic fees.

**Line 8: Sales and services of auxiliary enterprises** have increased by approximately \$345K for the three-month period ended September 30, 2013 compared to the same period in 2012. This increase is reflected by increased revenue from the Student Health Center totaling \$73K, athletic NCAA payments totaling \$82K, and housing rentals and food service totaling \$113K. The remaining increase is due to revenue from the Center for Advanced Energy Studies (CAES) rent and an Athletics cheerleading camp.

**Line 9: Other operating revenues** decreased by \$135K. The primary contributing factors include declines in revenue from parking permits, commuter bus operations, and event management ticket sales for events such as the symphony, Season of Note, and performances at the ISU Theatre. Other operating revenues include items such as rentals, royalty income, and fines.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**Total Operating Expenses** have decreased by approximately \$567K for the three-month period ended September 30, 2013 compared to the same period in 2012. The primary drivers of this decrease are scholarships and fellowships, services, and supplies coupled with increases in personnel costs and insurance, utilities and rent.

**Line 11: Personnel costs** increased by \$1.0 million. The primary factors driving this increase include health insurance costs increasing by \$204K due to an increase in premiums and an institution wide pay increase that included a 2% CEC plus an average 2.5% salary increase based upon performance contributing approximately \$528K. The remaining increase of \$268K is due to compensatory leave and other post-employment benefits.

**Line 12: Services** decreased by \$722K compared to the same period in 2012 largely due to one-time expenses. For instance, approximately \$594K in bond issuance costs was expensed last period as required by GASB Statement No. 65. The remaining decreases are due to a Student Recreation Center tennis court lighting upgrade and a new boiler system for the Rendezvous Complex that were paid for last period.

**Line 13: Supplies** decreased by approximately \$386K. This reduction is primarily caused by one-time expenses taken in the prior period. The lighting upgrades to the Student Recreation Center tennis courts last period contributed to a decline in expense of \$116K. New marching band uniforms purchased last period amount to \$72K. A decline in merchandise purchased this period for Student Health Center pharmaceuticals and Dental Hygiene student tool kits totaled \$59K. Dental Hygiene also had purchased \$24K in high-definition digital cameras last period contributing to the decline in supplies. Lastly, the College of Technology spent approximately \$115K in supplies expense last period for projectors, processors, medical and calibration equipment, and engines for its academic programs.

**Line 14: Insurance, utilities and rent** increased by approximately \$630K compared to September 30, 2012. Approximately \$517K of the increase is due to timing differences that will adjust to a normal rate over the year and an increase in utility rates. The remaining increase of \$113K is due to an increase in malpractice insurance as well as office and equipment rentals.

**Line 15: Scholarships and fellowships** decreased by approximately \$1.2 million almost solely due to reductions and stricter eligibility requirements in federal financial aid, primarily Pell grants. All other forms of scholarships and fellowships stayed close to the same levels as the prior period.

**Line 16: Depreciation** increased primarily due to a refinement to the useful life estimation for the telephone system that will now be depreciated over four years.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**Line 17: Miscellaneous operating expenses** decreased by \$78K. The primary reason for this decline is due to the football team's travel, in 2012, to the University of Nebraska. A similar trip did not occur in the first quarter of 2013.

31	Interest on capital asset related debt net of capitalized	(530,470)	(614,042)	83,572	-14%
32	<b>Net nonoperating revenues (expenses)</b>	<b>\$ 39,617,703</b>	<b>\$ 38,708,277</b>	<b>\$ 909,426</b>	<b>2%</b>

**Total Nonoperating Revenues (Expenses)** increased by approximately \$909K as compared to the same period in fiscal year 2013. The primary drivers of this change are State appropriations, gifts, and title IV funds.

**Line 20: State general education appropriation** revenue increased by \$1.9 million due to expending appropriated funds earlier than last year for items such as personnel, repair and maintenance, computer and internet, and other costs such as a new fire alarm system at the Idaho Falls campus.

**Line 21: Endowment income** increased by \$26K due to an increase in the normal school endowment causing an increase in this period's spending and subsequent reimbursement. The normal school endowment is given to the College of Education to support the State's education mission.

**Line 22: Other State Appropriations** increased by \$29K due to expending Family Medicine and Idaho Dental Education Program appropriated funds earlier than last year. The Idaho Museum of Natural History had a decrease in both appropriated funds and the spending of those funds.

**Line 23: Professional technical education** funds that support the College of Technology decreased by approximately \$242K due to a timing difference related to when monies are expended.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**Line 24: Department of Public Works (DPW)** funding decreased due to a timing difference related to when monies are expended. During quarter one of the prior period, DPW repair and maintenance funds were largely used to reconfigure the east entry access to the Meridian building.

**Line 25: Gifts** increased by \$320K largely due to gifts from the ISU Foundation to Holt Arena, to Athletics for the new practice field, and to Biology for a colony microscope.

**Line 26: Title IV** funds decreased by \$1.2 million because of reductions and stricter eligibility requirements in federal financial aid, primarily Pell grants.

**Line 28: Net increase (decrease) in fair market value of investments** declined because of market volatility and due to the fact that the institution did not have any investments in the same period last year. As of November 14, 2013, the fair market value of ISU's investments actually increased.

**Line 29: Amortization of bond insurance costs** decreased this period because older bond issues were defeased last period and, as a result, the remaining unamortized bond insurance on these defeased bonds was expensed.

**Line 30: Bond issuance costs** were incurred last fiscal year due to GASB 65 that states debt issuance costs, except any portion related to prepaid insurance costs, should be recognized as an expense in the period incurred. These issuance costs are related to the Series 2012 Refunding Bonds.

**Line 31: Interest on capital asset related debt net of capitalized** decreased due to interest expense on bonds and the Banner lease.

11	Other long-term assets	62,000	75,000	(13,000)	-17%
12	Property, plant, and equipment, net	183,799,418	190,306,348	(6,506,930)	-3%
13	<b>TOTAL ASSETS</b>	<b>\$ 337,294,529</b>	<b>\$ 327,672,069</b>	<b>\$ 9,622,460</b>	<b>3%</b>

**Total Assets** have increased by approximately \$9.6 million for the three-month period ended September 30, 2013 compared to the same period in 2012. This growth is largely due to the increase in cash, investments, and accounts receivable. These increases are offset by decreases in property, plant, and equipment and due from state agencies.

**Lines 1 and 2: Cash and cash equivalents and cash with Treasurer** increased in total by \$4.1 million due to a 4.5% tuition increase, a positive enrollment mix, and an increase in State general education appropriation revenue. The positive enrollment mix is reflected in an increase of 238 nonresident students, all of whom pay higher tuition and fees. These positive factors were partially offset by a 2.6% decrease in headcount.

**Line 3: Investments** increased by \$10.0 million because ISU invested operating funds primarily to diversify its holdings and to minimize risk. ISU has had excellent cash flow over several years allowing the institution to move some of these funds to different financial institutions in order to minimize risk and to improve returns. ISU implemented a strategy investing \$5.0 million with Wells Fargo and an additional \$5.0 million with Zions Bank, all within the investment guidelines allowed by the SBOE while addressing the institution's liquidity needs.

**Line 4: Student loans receivable** decreased by \$86K because of Perkins loan collections.

**Line 5: Accounts receivable and unbilled charges, net** increased by \$2.6 million primarily due to an increase in third party guarantors and billing in the amount of \$2.0 million. The remaining \$600K increase is due to a Family Medicine receivable from Health West.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**Line 6: Due from state agencies** decreased by \$683K compared to the same period last year. This decrease is caused by a College of Technology PTE receivable, an Idaho Center for Disabilities Evaluation receivable from the Idaho Department of Health and Welfare, and a College of Education receivable from the Idaho Department of Education that were all recorded last period. These 2012 receivables were subsequently collected and not replaced in the first quarter of 2013.

**Line 7: Inventories** decreased \$20K primarily to the pharmaceutical inventory being sold to Bengal Pharmacy.

**Line 8: Prepaid expense** increased by \$73K due to preliminary work for the Meridian anatomy and physiology lab as well as a payment advance made to DPW for CAES improvements.

**Line 9: Assets held in trust** increased by almost \$199K as a result of the bond debt service payment due in October.

**Line 10: Prepaid bond insurance costs** decreased because portions of older bond issues were refunded and, as a result, the corresponding bond insurance was expensed. Because the interest rate on the Series 2012 and 2013 Refunding Bonds was so low, they did not require insurance. According to GASB 65, prepaid bond insurance costs are to be amortized over the length of the bonds since they benefit future periods.

**Line 11: Other long-term assets** decreased by \$13K as a result of fewer funds set aside for the other post-employment benefits (OPEB) obligation.

**Line 12: Property, plant, and equipment, net** decreased by \$6.5 million because the increase in depreciation expense of \$11.9 million exceeded the \$5.4 million increase in current year additions. Buildings, equipment, and library materials are the primary drivers of the depreciation increase.

26	Other post-employment benefits payable	7,084,000	6,438,000	646,000	10%
27	<b>TOTAL LIABILITIES</b>	<u>\$ 121,309,825</u>	<u>\$ 125,032,877</u>	<u>\$ (3,723,052)</u>	<u>-3%</u>

**Total Liabilities** have decreased by approximately \$3.7 million for the three-month period ended September 30, 2013 compared to the same period in 2012. This decrease is largely due to the decrease in notes and bonds payable offset by increases in due to state agencies, accrued salaries and benefits payable, and other post-employment benefits payable.

**Line 17: Accounts payable and accrued liabilities** decreased \$316K over the three-month periods ended September 30, 2013 and 2012. The primary reason for the decrease is the receipt and subsequent payment for a confocal microscope purchased in the prior period.

**Line 18: Due to state agencies** increased by \$729K due to monies owed to DPW for various projects. Athletics owes for its new football practice field, CAES owes for HVAC upgrades, and Housing owes for an ADA elevator upgrade in Turner Hall.

**Line 19: Accrued salaries and benefits payable** increased by \$561K due to the salary increase and timing of new contracts for faculty and professional staff.

**Line 24: Accrued interest payable** slightly increased by \$107K due to interest expense on the Series 2012 Refunding Bonds.

**Line 25: Notes and bonds payable** decreased because of scheduled bond payments and the defeasance of old bond issues.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**Line 26: Other post-employment benefits payable** increased by \$646K, which is an accounting estimate.

		Unaudited as of 9/30/2013	Unaudited as of 9/30/2012	\$ Change	% Change
<b>DEFERRED INFLOWS OF RESOURCES</b>					
28	Series 2013 Bond Defeasance	33,519	-	33,519	100%

**Total Deferred Inflows of Resources** increased due to the Series 2013 Refunding Bonds. The deferred inflow of resources is calculated by taking the new bond funds minus the carrying value of the old bond funds. This deferred refunding amount is amortized over the life of the new or old debt, whichever is shorter, per GASB 65.

<b>NET POSITION</b>					
29	Invested in capital assets, net of related debt	\$ 123,101,399	\$ 124,388,817	\$ (1,287,418)	-1%
30	Restricted, expendable	4,809,746	4,417,942	391,804	9%
31	Unrestricted	88,654,027	74,552,143	14,101,884	19%
32	<b>TOTAL NET POSITION</b>	<b>\$ 216,565,172</b>	<b>\$ 203,358,902</b>	<b>\$ 13,206,270</b>	<b>6%</b>

**Line 29: Invested in capital assets, net of related debt** decreased by \$1.3 million due to the decrease in property, plant, and equipment of \$6.5 million and the decrease in capital debt of \$5.5 million. The remaining \$300K decrease is due to bond issuance costs, interest expense, and interest payable.

**Line 30: Restricted, expendable** increased by \$392K primarily due to private grants given to the College of Pharmacy from the ALSAM Foundation.

**Line 31: Unrestricted** increased by \$14.1 million largely due to the increase in cash and investments that primarily come from tuition and fee revenue and state appropriations.

Idaho State University  
Quarterly Report  
For the Three Months Ended September 30, 2013

**OPERATIONAL TREND DATA**

Enrollment Data

Illustrated by the graphs below, enrollment decreased slightly by 364, or 428 full-time equivalents, in Fall 2013 when compared to Fall 2012. Student credit hours decreased by 6,436 from 150,884 during this same period. This is primarily due to a decrease in full-time students. Full-time undergraduates decreased by 394 students and full-time graduates decreased by 34. Full-time resident students decreased by 622, although, full-time nonresident students increased by 194.

A two percent drop in the number of Idaho high school graduates in May of 2013 is partially responsible for the decline in headcount. Other possible reasons include decreased housing capacity, the move by Utah colleges and universities to waive the out-of-state portion of tuition for nonresident students, The Church of Jesus Christ of Latter-day Saints lowering the missionary service age for both men and women, federal financial aid decreases with stricter eligibility requirements, decreases in scholarships, and reductions in federal grants effecting monies available to fund graduate and teaching assistants. In addition to these reasons for declining enrollment, Moody's also suggests the following factors in their report *US Higher Education Outlook Negative in 2013*: 1) economic hardships for students caused by the rising burden of student loans coupled with a prolonged period of depressed family income and household net worth, 2) reduced job prospects due to weak economic conditions, 3) declining demand for graduate and professional programs, and 4) the transition to a more diverse student body requiring greater scheduling flexibility.

### Total Fall Credit Hours by Colleges/Divisions

### Total Fall Student Headcount by Colleges/Divisions

## Idaho State University Student Headcount by Classification

### Employment

The total number of employees paid by the University decreased during the quarter to 3,828 from the same time period in fiscal year 2013. This is a total decrease of 48 employees, of which, student employees increased by 22, graduate assistants increased by 14, and professional staff increased by 5. The number of temporary staff decreased by 59, classified staff decreased by 9, full-time faculty decreased by 14, adjunct faculty decreased by 7, and part-time faculty had no change.

The changes in employment can be explained by unfilled, vacant positions due to an approximate 10% turnover as well as the utilization of Career Path Internship students. The employment increase in Academic Affairs, Finance and Administration, the Division of Health Sciences, and the colleges of business and education is primarily due to an increase of student employees, many of whom participate in the Career Path Internship program, and professional staff. The decrease in some of the colleges is primarily due to the decrease of full-time and adjunct faculty. The decrease in Student Affairs employment is largely due to temporary staff and student employees. University Advancement had a slight increase in temporary employees.

Research and Sponsored Activity

In the first quarter of fiscal year 2014, ISU submitted 90 proposals to 44 different funding agencies, including requests of over \$20 million to federal funding agencies (\$1.98 million to NIH, \$0.9 million to NASA, \$5.3 million to NSF, and \$11.7 million to DOE). ISU received 64 awards from 35 different funding agencies including awards from the National Institutes of Health (\$366K), the National Science Foundation (\$501K), Battelle Energy Alliance (\$739K), and the M.J. Murdock Charitable Trust (\$266K).

The research profile and volume at ISU parallel those in the United States. This is due to several factors, including the completion of ARRA funding, federal budget sequestration during the fiscal year, and the resultant slowdown of our ability to submit and receive grants. It is noteworthy that the average award amount increased from approximately \$106,000 a year to approximately \$109,000 a year. Further, although the total dollar volume of requested awards declined, the total number of proposals submitted was similar to previous years. We expect this trend to reverse as a) we strengthen our research infrastructure and facilitate faculty proposal development and the concurrent success rate, b) we focus on opportunities where we can be nationally competitive, c) we develop a robust federal relations process, and d) we build state and regional private partners to partially fund our research enterprise.

Idaho State University Foundation

The Idaho State University Foundation (Foundation) continues its mission to stimulate voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of Idaho State University. The Foundation, through its Board of Directors, appoints an investment committee that determines investment guidelines, sets spending rules, and engages the investment managers and custodians.

The Foundation received an increase of \$505K in gifts for the 1<sup>st</sup> quarter of fiscal year 2014 as compared to the same period in fiscal year 2013. The Foundation’s outlook is for a strong gift year.

The overall investment policy is to maximize the return on investments within an acceptable range of risk. The Board oversees and approves all investment and asset allocation policies proposed by its Investment Committee.

The chart below illustrates the Foundation’s actual return on investments for the three-month periods ended September 30, 2013 and 2012 along with the Foundation’s policy benchmarks.

	<u>Quarter Ended</u> <u>9/30/13</u>	<u>Quarter Ended</u> <u>9/30/12</u>	<u>12 month</u> <u>return</u>
Actual Returns	4.81%	4.67%	10.88%
Policy Benchmark	5.45%	5.43%	9.80%

The fair market value of the endowment was \$37,684,074 and \$36,195,715 for the periods ended September 30, 2013 and September 30, 2012, respectively.

**Total Endowment Market Value as of

Auxiliary Analysis

## Auxiliary Revenue *(in thousands)*

The increases in auxiliary revenues for the three-month period ending September 30, 2013 can be attributed to a few factors. Housing received an increase of \$113K in rentals and food service. Athletics received an increase of \$82K in NCAA payments. The Student Union had a slight increase in its food service revenue and both the Student Health and Recreation Centers had an increase in sales and services. Additionally, CAES and Holt Arena rental income increased.

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

Timing Differences Applicable to the Quarterly Reports

Significant timing differences may exist at the end of a quarter in the normal course of business. Timing differences in revenues may result from expenses incurred by the University during the quarter for which the related reimbursements/revenues have not yet been received at quarter-end, such as state general appropriation expenses/reimbursements and cost reimbursement grants. Accounts receivable may also fluctuate due to the timing of cash inflows such as Athletic game guarantee payments and student tuition/fee collections. Timing differences in expenses may result from the date a request for payment is submitted to the Controller's Office and/or paid, such as utility bills and scholarship payments. These differences in timing may affect the comparability of financial data from the current period versus the prior period. Every effort is made to identify significant timing differences and to adjust the financial statements for comparability purposes or to explain which significant variances are solely due to timing issues.

10	<b>\$ 63,947,714</b>	<b>\$ 64,981,637</b>	<b>\$ (1,033,923)</b>	<b>-2%</b>

**Total Operating Revenues** decreased by approximately \$1.0 million for the six-month period ended December 31, 2013, compared to the same period in 2012. Declines in federal, private, and state grants and contracts of approximately \$2.4 million are partially offset by a student tuition and fee revenue increase. Gross student tuition and fee revenue increased \$2.4 million less \$1.0 million more in scholarship discounts and allowances resulting in a net tuition and fee revenue increase of \$1.4 million. The increase in tuition and fee revenue is primarily driven by an increase of 223 nonresident students, 197 of which are full-time equivalents, as well as a 4.5% tuition and fee rate increase.

**Line 4: Federal grants and contracts** decreased consistent with federal budget declines, sequestration, and other cuts. Specifically impacting the University were decreased spending and closures in grants and contracts. The institutional departments impacted include the College of Science and Engineering,

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

the Idaho Oral Health Institute, TRIO programs, the Museum of Natural History, the History department, the Institute of Rural Health, Geosciences, and the College of Technology.

**Line 6: Private grants and contracts** decreased due to several significant grant closings offset by minimal increases in other grants. The Idaho Accelerator Center had a decline of \$507K from a Wyle Laboratories grant and a decrease of \$90K from a Jefferson National Accelerator Facility grant. Additionally, an Albertson's Foundation grant closed in the College of Technology causing a decline of \$169K and an ALSAM Foundation grant closed in the Pharmacy department leading to a decline of \$152K.

**Line 7: Sales and services of educational departments** decreased by \$246K compared to the same period in 2012. Largely due to fewer customers, the College of Technology's Work Force Training received \$180K less in sales and the Family Medicine Center received \$91K less in clinic fees. The Idaho Falls Tingey Administration Building's rental income decreased by \$47K because fewer events were held in the auditorium. Conversely, these decreases were offset by increases of \$52K in Idaho Dental Education Program (IDEP) dental clinic fees and by \$20K in School of Performing Arts (SOPA) Theatre ticket sales for an opera and dance concert.

**Line 8: Sales and services of auxiliary enterprises** increased by approximately \$138K for the six-month period ended December 31, 2013, compared to the same period in 2012. This change is reflected by an increase in revenue from athletic game guarantees of \$95K and NCAA payments of \$69K. Additionally, Student Health Center clinic fees increased by \$73K and housing rentals increased by \$35K. A decrease of \$134K is primarily due to timing differences when revenue is received for Center for Advanced Energy Studies (CAES) rent, food services, and a student health insurance semi-annual administration fee.

**Line 9: Other operating revenues** increased by \$190K. The primary contributing factor is the receipt of a \$115K insurance claim settlement due to a College of Science and Engineering reactor tool that was damaged. The remaining change is due to an increase in event management ticket sales for events such as the ISU Symphony, Season of Note, and performances at the ISU Theatre.

17	Miscellaneous	2,082,337	2,255,428	(173,091)	-8%
18	<b>Total operating expenses</b>	<b>\$ 107,140,072</b>	<b>\$ 110,399,021</b>	<b>\$ (3,258,949)</b>	<b>-3%</b>

**Total Operating Expenses** decreased by approximately \$3.3 million for the six-month period ended December 31, 2013, compared to the same period in 2012. The primary drivers of this decrease are scholarships and fellowships and services. These decreases were offset by an increase in personnel costs.

**Line 11: Personnel costs** increased by \$693K primarily due to a \$406K increase in health insurance premiums. The remaining difference is due to an institution-wide pay increase that included a 2% CEC plus an average 2.5% performance-based salary increase.

**Line 12: Services** decreased by \$1.5 million compared to the same period in 2012 largely due to one-time expenses. Approximately \$594K in bond issuance costs were expensed last period as required by GASB Statement No. 65. The remaining decreases were due to several repairs that were incurred during 2012, primarily to Turner Hall, the Center for Higher Education in Idaho Falls, the Student Recreation Center tennis court lighting upgrade, and the water line/piping at Graveley Hall and the Student Union.

**Line 13: Supplies** decreased by approximately \$260K. This reduction is primarily caused by one-time expenses taken in the prior period including a \$135K decline in merchandise purchases for Student Health Center pharmaceuticals and Dental Hygiene student tool kits and \$125K in lighting upgrades to the Student Recreation Center tennis courts.

**Line 14: Insurance, utilities and rent** increased by approximately \$334K compared to same period in 2012. Approximately \$208K of the increase is due to an increase in electric and gas utility rates. The average cost per kilowatt hour (for Idaho Power) increased approximately 18% compared to the prior period while usage stayed approximately the same. The remaining increase of \$126K is due to an increase in malpractice insurance as well as office and equipment rentals.

**Line 15: Scholarships and fellowships** decreased by approximately \$2.5 million. The primary factors driving this decrease include stricter eligibility requirements in federal financial aid, primarily PELL

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

grants, as well as an increase in tuition discounts and waivers. All other forms of scholarships and fellowships stayed close to the same levels as the prior period.

**Line 16: Depreciation** increased primarily due to a refinement to the useful life estimation for the telephone system that will now be depreciated over four years.

**Line 17: Miscellaneous operating expenses** decreased by \$173K. The primary reason for this decline is due to the football team's travel in 2012 to the University of Nebraska. A similar trip did not occur in the current period.

32	<b>\$ 65,935,683</b>	<b>\$ 63,314,932</b>	<b>\$ 2,620,751</b>	<b>4%</b>

**Total Nonoperating Revenues (Expenses)** increased by approximately \$2.6 million compared to the same period in 2012. The primary drivers of this change are state appropriations, specifically general education and Department of Public Works appropriations.

**Line 20: State general education appropriation** revenue increased by \$2.2 million primarily due to an increase in budget of \$1.3 million for materials, supplies, and capital items for fiscal year 2014. The remaining difference is due to an increase of approximately \$900K in payroll.

**Line 21: Endowment income** increased by \$51K due to an increase in the State's Charitable Institutions endowment, causing an increase in this period's spending and subsequent reimbursement. The charitable institutions endowment is given to Idaho State University to support and maintain the institution's health mission.

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

**Line 23: Professional technical education** funds that support the College of Technology decreased by approximately \$380K due to a timing difference related to when monies are expended and the subsequent reimbursements are received.

**Line 24: Department of Public Works (DPW)** funding increased due to a lump sum allocation received during the current period for all fiscal year 2014 delegated projects. During the current period DPW repair and maintenance funds were largely used to upgrade the Turner Hall elevator and a campus-wide replacement of damaged concrete walkways.

**Line 25: Gifts** increased by \$1.1 million largely due to the Foundation remitting gifts to the University on a semi-annual basis instead of an annual basis as they did in prior periods. These gifts are primarily from private donors for scholarship programs. Other gifts include funds for a new Athletics practice field and a scientific digital camera for the Biology department.

**Line 26: Title IV** funds decreased by \$1.4 million because of stricter eligibility requirements in federal financial aid, primarily PELL grants.

**Line 28: Net increase (decrease) in fair market value of investments** declined because of market volatility in the Wells Fargo investment account and due to the fact that the institution did not have any investments in the same period last year.

**Line 29: Amortization of bond insurance costs** increased this period because older bond issues were defeased last period and, as a result, the remaining unamortized bond insurance on these defeased bonds was expensed.

**Line 30: Bond issuance costs** were incurred last fiscal year due to GASB 65 that states debt issuance costs, except any portion related to prepaid insurance costs, should be recognized as an expense in the period incurred. These issuance costs are related to the Series 2012 Refunding Bonds.

**Line 31: Interest on capital asset related debt net of capitalized** declined due to a decrease in interest expense from scheduled bond and Banner ERP lease payments.

12	181,777,845	188,729,594	(6,951,749)	-4%	
13	<b>TOTAL ASSETS</b>	<b>\$ 372,350,741</b>	<b>\$ 359,334,526</b>	<b>\$ 13,016,215</b>	<b>4%</b>

**Total Assets** increased by approximately \$13.0 million for the six-month period ended December 31, 2013, compared to the same period in 2012. This growth is largely due to the increase in cash, investments, and accounts receivable. These increases are offset by decreases in property, plant, and equipment and due from state agencies.

**Lines 1 and 2: Cash and cash equivalents and cash with Treasurer** increased in total by \$9.2 million largely due to the receipt of state appropriated funds and increases in gifts, educational and auxiliary department sales and services, and tuition and fee revenue due to a positive enrollment mix and a 4.5% tuition increase.

**Line 3: Investments** increased by \$10.0 million because ISU invested operating funds primarily to diversify its holdings and to minimize risk. ISU has had excellent cash flow over several years allowing the institution to move some of these funds to different financial institutions in order to minimize risk and to improve returns. ISU implemented a strategy investing \$5.0 million with Wells Fargo and an additional \$5.0 million with Zions Bank, all within the investment guidelines allowed by the SBOE while addressing the institution's liquidity needs.

**Line 4: Student loans receivable** decreased by \$72K because of Perkins loan collections.

**Line 5: Accounts receivable and unbilled charges, net** increased by \$2.3 million due to an increase in third party guarantors and billing in the amount of \$4.2 million. The remaining decrease of

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

approximately \$1.9 million is due to a decline in student tuition and fee receivables, a reduction in Athletics game guarantee receivables primarily for football games, and a decrease in Dental Hygiene receivables due to a Portneuf Medical Center receipt.

**Line 6: Due from state agencies** decreased by \$1.4 million compared to the same period last year. This decrease is caused by a College of Technology PTE receivable, an Idaho Center for Disabilities Evaluation receivable from the Idaho Department of Health and Welfare, and a College of Education receivable from the Idaho Department of Education that were all recorded last period. These 2012 receivables were subsequently collected and not replaced in the second quarter of 2013.

**Line 7: Inventories** decreased \$20K primarily to the pharmaceutical inventory being sold to Bengal Pharmacy.

**Line 8: Prepaid expense** increased by \$147K due to preliminary work for the Meridian anatomy and physiology lab as well as maintenance and consulting contract payments for the Banner ERP system and IT security consulting.

**Line 9: Assets held in trust** decreased by almost \$54K as a result of the bond debt service payment paid in the current period.

**Line 10: Prepaid bond insurance costs** decreased because portions of older bond issues were refunded and, as a result, the corresponding bond insurance was expensed. Because the interest rate on the Series 2012 and 2013 Refunding Bonds was so low, they did not require insurance. According to GASB 65, prepaid bond insurance costs are to be amortized over the length of the bonds since they benefit future periods.

**Line 11: Other long-term assets** decreased by \$13K as a result of fewer funds set aside for the other post-employment benefits (OPEB) obligation.

**Line 12: Property, plant, and equipment, net** decreased by almost \$7.0 million because the increase in accumulated depreciation of \$11.9 million exceeded the \$4.9 million increase in current period additions. Buildings, equipment, and library materials are the primary drivers of the depreciation increase.

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

	Unaudited as of 12/31/2013	Unaudited as of 12/31/2012	\$ Change	% Change	
<b>DEFERRED OUTFLOWS OF RESOURCES</b>					
14	Series 2012 Bond Defeasance	598,244	-	598,244	100%
15	Series 2003 Bond Defeasance	-	701,111	(701,111)	-100%
16	<b>TOTAL DEFERRED OUTFLOWS OF RESOURCES</b>	<b>598,244</b>	<b>701,111</b>	<b>(102,867)</b>	<b>-15%</b>

**Total Deferred Outflows of Resources** will continue to decrease over time. The deferred outflows of resources for the Series 2003 and 2012 bond defeasance is calculated by taking the new bond funds minus the carrying value of the old bond funds. This deferred refunding amount is amortized over the life of the new or old debt, whichever is shorter, per GASB 65.

	Unaudited as of 12/31/2013	Unaudited as of 12/31/2012	\$ Change	% Change

24	Accrued interest payable	619,756	699,930	(80,174)	-11%
25	Notes and bonds payable	61,279,755	66,731,969	(5,452,214)	-8%
26	Other post-employment benefits payable	7,153,500	6,679,000	474,500	7%
27	<b>TOTAL LIABILITIES</b>	<b>\$ 136,956,849</b>	<b>\$ 140,143,352</b>	<b>\$ (3,186,503)</b>	<b>-2%</b>

**Total Liabilities** decreased by approximately \$3.2 million for the six-month period ended December 31, 2013, compared to the same period in 2012. This decrease is largely due to reductions in notes and bonds payable and accrued salaries and benefits payable. These decreases are offset by increases in unearned revenue, accounts payable and accrued liabilities, and other post-employment benefits.

**Line 17: Accounts payable and accrued liabilities** increased \$681K for the six-month period ended December 31, 2013, compared to the same period in 2012. The increase is due to monies owed for student health insurance, the receipt of grant management software for the Office of Research, and funds owed to Chartwells for food services.

**Line 18: Due to state agencies** decreased by \$29K. The primary reason for the decrease is the remodeling and subsequent payment for student union building improvements in the prior period.

Idaho State University  
Quarterly Report  
For the Six Months Ended December 31, 2013

**Line 19: Accrued salaries and benefits payable** decreased by \$1.1 million compared to the same period last year. This change is due to decreases in temporary staff (71), classified staff (3), full time faculty (3), adjunct faculty (15), and the timing of accruals for 9-month faculty paid over 12 months.

**Line 21: Deposits** increased slightly by \$22K primarily because rent and a security deposit were paid in advance for the use of Holt Arena for a 3-day agricultural show.

**Line 22: Funds held in custody for others** decreased by \$100K largely due to timing differences in awards from the Bureau of Indian Affairs and State of Idaho scholarships.

**Line 23: Unearned revenue** increased by \$2.3 million primarily due to an increase in the subsequent spring semester's unearned revenue. Spring semester unearned revenue increased due to earlier billing, a 4.5% tuition increase, and a positive enrollment mix.

**Line 24: Accrued interest payable** decreased by \$80K because the University's debt continues to decline and the issuance of the Series 2012 Refunding Bonds has helped the University take advantage of lower interest rates.

**Line 25: Notes and bonds payable** decreased because of scheduled bond payments and the defeasance of old bond issues.

**Line 26: Other post-employment benefits payable** increased by \$475K, which is an accounting estimate.

		Unaudited as of 12/31/2013	Unaudited as of 12/31/2012	\$ Change	% Change
<b>NET POSITION</b>					
29	Invested in capital assets, net of related debt	\$ 121,160,374	\$ 122,894,342	\$ (1,733,968)	-1%
30	Restricted, expendable	5,825,396	5,650,610	174,786	3%
31	Unrestricted	108,974,088	91,347,333	17,626,755	19%
32	<b>TOTAL NET POSITION</b>	<b>\$ 235,959,858</b>	<b>\$ 219,892,285</b>	<b>\$ 16,067,573</b>	<b>7%</b>

**Line 29: Invested in capital assets, net of related debt** decreased by \$1.7 million due to the decrease in property, plant, and equipment of \$7.0 million and the decrease in capital debt of \$5.5 million. The remaining \$200K decrease is primarily due to bond issuance costs, interest expense, and accrued interest payable.

**Line 30: Restricted, expendable** increased by \$175K. DPW deferred maintenance funding increased the restricted net position by \$1.1 million. This increase was offset by a decrease of \$338K in the ALSAM foundation donation for expenses associated with the Meridian facility, a decrease of \$286K in the construction fund for ongoing DPW activities at CAES, and a decrease of \$301K in various scholarship funds.

**Line 31: Unrestricted** increased by \$17.9 million largely due to the increase in cash and investments.

### **OPERATIONAL TREND DATA**

#### Enrollment Data

Illustrated by the graphs below, enrollment decreased slightly by 519, or 430 full-time equivalents, in Fall 2013 when compared to Fall 2012. Student credit hours decreased by 6,439 from 153,278 during this same period. This is primarily due to a decrease in full-time students. Full-time undergraduates decreased by 395 students and full-time graduates decreased by 35 students. Full-time resident students decreased by 627, although, full-time nonresident students increased by 197.

A two percent drop in the number of Idaho high school graduates in May of 2013 is partially responsible for the decline in headcount. Other possible reasons include the move by Utah colleges and universities to waive the out-of-state portion of tuition for nonresident students, The Church of Jesus Christ of Latter-day Saints lowering the missionary service age for both men and women, federal financial aid decreases with stricter eligibility requirements, and reductions in federal grants effecting monies available to fund graduate and teaching assistants. In addition to these reasons for declining enrollment, Moody's also suggests the following factors in their report *US Higher Education Outlook Negative in 2013*: 1) economic hardships for students caused by the rising burden of student loans

Idaho State University  
 Quarterly Report  
 For the Six Months Ended December 31, 2013

coupled with a prolonged period of depressed family income and household net worth, 2) reduced job prospects due to weak economic conditions, 3) declining demand for graduate and professional programs, and 4) the transition to a more diverse student body requiring greater scheduling flexibility. Further, Moody's identified other macroeconomic pressures including heightened competition for government funds, donors, and students combined with pressure to increase compensation and invest in programs and facilities, a relatively high unemployment rate, a lagging labor force participation rate, and income stagnation.

 Quarterly Report  
 For the Six Months Ended December 31, 2013

Employment

The total number of employees paid by the University decreased during the quarter from 3,797 to 3,737 from the same time period in fiscal year 2013. This is a total decrease of 60 employees. Of this amount, student employees increased by 6, graduate assistants increased by 19, and professional staff increased by 10. The number of temporary staff decreased by 71, classified staff decreased by 3, full-time faculty decreased by 6, adjunct faculty decreased by 15, and part-time faculty had no change.

The employment increases in Finance and Administration and the colleges of education and science and engineering are primarily due to an increase of student employees, many of whom participate in the Career Path Internship program, and professional staff. The employment decreases in Student Affairs and the colleges of technology and arts and letters are largely due to the decrease of temporary staff and student employees.

## Employee Headcount

### Research and Sponsored Activity

In the second quarter of fiscal year 2014, ISU faculty researchers and scholars submitted 173 proposals to over 40 different funding agencies requesting nearly \$60 million. These include multiple awards from the National Science Foundation, including \$571,000 for the first installment of a five-year, \$2.5 million award for Biological Sciences, as well as \$366,000 for the first year of a five-year, \$1.7 million award from National Institutes of Health (NIH) for Psychology. Other agencies awarding funds to ISU include, but are not limited to, the US Department of Interior, Battelle Energy Alliance, LLC, Murdock Charitable Trust, and Mt. Sinai Medical School, in which the funding is a subaward from an NIH award.

The federal government shutdown for over half of the month in October 2013 reduced the funding activity and levels during the second quarter. It is anticipated that effects of the government shutdown may carry over into the third quarter.

 For the Six Months Ended December 31, 2013

Idaho State University Foundation

The Idaho State University Foundation (Foundation) continues its mission to stimulate voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of Idaho State University. The Foundation, through its Board of Directors, appoints an investment committee that determines investment guidelines, sets spending rules, and engages the investment managers and custodians.

The Foundation received an increase of \$330K in gifts for the second quarter of fiscal year 2014 as compared to the same period in fiscal year 2013. Total gifts have increased by \$835K for the first two quarters of fiscal year 2014 compared to the same period in fiscal year 2013. The Foundation’s outlook is for a strong gift year.

The overall investment policy is to maximize the return on investments within an acceptable range of risk. The Board oversees and approves all investment and asset allocation policies proposed by its Investment Committee.

The chart below illustrates the Foundation’s actual return on investments for the six-month period ended December 31, 2013, and 2012 along with the Foundation’s policy benchmarks.

	<u>Quarter Ended</u> <u>12/31/13</u>	<u>Quarter Ended</u> <u>12/31/12</u>	<u>12 month</u> <u>return</u>
Actual Returns	5.42%	1.73%	14.90%
Policy Benchmark	4.81%	1.63%	13.23%

The fair market value of the endowment was \$39,708,659 and \$37,684,074 for the periods ended December 31, 2013, and 2012, respectively.

Appropriated Budget Analysis

<b>General Education Appropriated Budget Summary For the Quarter Ending 12/31/13</b>					
<b>College/Division</b>	<b>Budget</b>	<b>Actual Expensed</b>	<b>Encumbered</b>	<b>Budget Balance</b>	<b>% Remaining</b>
Finance & Administration	\$ 35,169,292	\$ (14,273,943)	\$ (1,263,649)	\$ 19,631,700	56%
College of Arts & Letters	15,455,287	(6,654,180)	(36,427)	8,764,680	57%
College of Science & Engineering	14,612,380	(6,707,608)	(24,739)	7,880,033	54%
Academic Affairs	13,274,305	(4,369,899)	(302,877)	8,601,529	65%
Division of Health Sciences	12,860,924	(4,837,475)	(15,412)	8,008,037	62%
President's Office	5,241,254	(2,558,440)	(208,276)	2,474,538	47%
College of Business	5,221,564	(2,137,212)	-	3,084,352	59%
Library	5,206,674	(2,205,556)	(4,582)	2,996,536	58%
College of Education	5,059,016	(2,418,649)	(3,723)	2,636,644	52%
Office of Research	4,829,939	(2,089,068)	(295,834)	2,445,037	51%
Student Affairs	4,483,096	(2,207,376)	(50,483)	2,225,237	50%
College of Pharmacy	3,414,102	(1,596,726)	-	1,817,376	53%
University Advancement	2,458,946	(1,099,699)	(23,423)	1,335,824	54%
College of Technology	1,305,230	(580,811)	(1,750)	722,669	55%
Graduate School	619,882	(244,996)	-	374,886	60%
<b>Grand Total</b>	<b>\$ 129,211,891</b>	<b>\$ (53,981,638)</b>	<b>\$ (2,231,175)</b>	<b>\$ 72,999,078</b>	<b>56%</b>

Spending patterns are fairly consistent with the first two quarters of the prior year. In total, 56% of the appropriated budget is remaining, which is expected given that we are halfway through the fiscal year and portions of spring and summer semesters remain to be funded.

Idaho State University  
 Quarterly Report  
 For the Six Months Ended December 31, 2013

Auxiliary Analysis

## Auxiliary Revenue *(in thousands)*

The increases in auxiliary revenues for the six-month period ending December 31, 2013, can be attributed to a few factors. Housing received an increase of \$35K in rental income due to an approximate 6% increase in the overall occupancy rate. Athletics received an increase of \$95K in game guarantees and \$69K in NCAA payments. Additionally, the Student Health Center, Holt Arena, and Recreation Center had increases in student health services, game ticket sales, and membership fees, respectively. On the other hand, ASISU and rental income had a decline in revenue primarily caused by timing differences. The Student Union and Bookstore had a slight decrease in revenue caused by the timing of when commission revenue was collected.

Timing Differences Applicable to the Quarterly Reports

Timing differences can have a major effect on the financial variances in our quarterly financial statements. Significant timing differences may exist at the end of a quarter in the normal course of University business. Timing differences in revenues may result from expenses incurred by the University during the quarter for which the related reimbursements/revenues have not yet been received at quarter-end, such as state general appropriation expenses/reimbursements and cost reimbursement grants. Accounts receivable may also fluctuate due to the timing of cash inflows such as Athletic game guarantee payments and student tuition/fee collections. These differences in timing may affect the comparability of financial data from the current period versus the prior period. Every effort is made to identify significant timing differences and to adjust the financial statements for comparability purposes or to explain which significant variances are solely due to timing issues.

9	Other	2,947,593	2,660,176	287,417	11%
10	<b>Total operating revenues</b>	<u>\$ 99,821,096</u>	<u>\$ 96,827,997</u>	<u>\$ 2,993,099</u>	<u>3%</u>

**Total Operating Revenues** increased by approximately \$3.0 million for the nine-month period ended March 31, 2014, compared to the same period in 2013. Increases in net student tuition and fees of approximately \$5.3 million, sales and services of educational departments of \$496K, and other operating revenue of \$287K were offset by declines in federal and private grants and contracts of approximately \$3.0 million.

In their report, *Outlook for US Higher Education Remains Negative for 2014*, Moody's identified macroeconomic pressures affecting revenue in Higher Education. These include: 1) heightened competition for government funds, donors, and students, combined with pressure to increase compensation and invest in programs and facilities, 2) a relatively high unemployment rate, a lagging labor force participation rate and income stagnation, 3) federal budget pressures affecting Pell Grants

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

and other financial aid, 4) reduced, stagnant, or only slightly increased state funding, and 5) federal research funding contracting further, following a 5% cut due to sequestration. ISU was primarily impacted by reduced private, state, and federal government funding.

**Line 3: Student tuition and fees, net** increased by \$5.3 million compared to the same period in 2013. Gross student tuition and fee revenue increased \$4.9 million, coupled with \$426K less in scholarship discounts and allowances, which resulted in a net tuition and fee revenue increase of \$5.3 million. The increase in tuition and fee revenue is largely driven by an increase of 262 nonresident students, 256 of which are full-time equivalents, as well as a 4.5% tuition and fee rate increase.

**Line 4: Federal grants and contracts** decreased consistent with federal budget declines, sequestration, and other cuts. Specifically impacting the University were decreased spending and closures in grants and contracts. The institutional departments impacted include the College of Science and Engineering, the Idaho Oral Health Institute, TRIO programs, the Museum of Natural History, the College of Arts and Letters, and the Institute of Rural Health.

**Line 5: State and local grants and contracts** decreased by \$270K due to grant closures, offset by increases in other grants. The College of Technology had a decline of \$397K from a closed Idaho Department of Labor Renewable Energy Education grant. Also, the Idaho State Board of Education's Total Instruction Alignment grant closed in the College of Education, causing a decline of \$132K. These decreases were offset by the start of the Idaho Global Entrepreneurial Mission's Engineering Nanofabrication grant and other engineering grants resulting in an increase of \$259K.

**Line 6: Private grants and contracts** decreased by \$1.7 million due to several significant grants closing. The Idaho Accelerator Center had a decline of \$565K from a Wyle Laboratories grant, a decrease of \$258K from a Battelle Energy Alliance grant, and a decrease of \$154K from a Jefferson National Accelerator Facility grant. Also, College of Science and Engineering grants sponsored by Battelle Energy Alliance decreased \$286K. Additionally, an Albertson's Foundation grant closed in the College of Technology causing a decline of \$285K and an ALSAM Foundation grant closed in the Pharmacy department leading to a decline of \$107K.

**Line 7: Sales and services of educational departments** increased by \$496K compared to the same period in 2013. This increase is largely due to additional rental income and services rendered by the Family Medicine Center, resulting in an increase of \$627K. The Idaho Dental Education Program (IDEP) also saw an increase of \$62K in clinic fees. Conversely, these increases were offset by a decrease of \$193K in the College of Technology's Workforce Training.

**Line 8: Sales and services of auxiliary enterprises** increased by approximately \$212K for the nine-month period ended March 31, 2014, compared to the same period in 2013. This change is reflected by

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

an increase in revenue from athletic game guarantees of \$261K. This increase was offset by decreases in bookstore commissions of \$35K and Holt Arena facility rental fees of \$14K.

**Line 9: Other operating revenues** increased by \$287K compared to the same period in 2013. The primary contributing factor is the receipt of a \$154K insurance claim settlement for damaged tools and equipment belonging to the College of Science and Engineering. The remaining change is due to an increase in collections from Title IV repayments, CAES building rental income, and accelerator rentals at the Idaho Accelerator Center.

		Unaudited For The Nine Months Ended 3/31/2014	Unaudited For The Nine Months Ended 3/31/2013	\$ Change	% Change
<b>OPERATING EXPENSES</b>					
11	Personnel costs	\$ 110,336,768	\$ 108,749,350	\$ 1,587,418	1%
12	Services	17,894,108	20,171,134	(2,277,026)	-11%
13	Supplies	7,971,203	8,328,447	(357,244)	-4%
14	Insurance, utilities and rent	5,403,037	4,944,787	458,250	9%
15	Scholarships and fellowships	17,741,231	20,008,792	(2,267,561)	-11%
16	Depreciation	9,536,182	9,245,445	290,737	3%
17	Miscellaneous	3,031,805	3,276,293	(244,488)	-7%
18	<b>Total operating expenses</b>	<b>\$ 171,914,334</b>	<b>\$ 174,724,248</b>	<b>\$ (2,809,914)</b>	<b>-2%</b>

**Total Operating Expenses** decreased by approximately \$2.8 million for the nine-month period ended March 31, 2014, compared to the same period in 2013. The primary drivers of this decrease are services and scholarships and fellowships. These decreases were offset by a slight increase in personnel costs.

**Line 11: Personnel costs** increased by \$1.6 million primarily due to a \$640K increase in health insurance premiums, an increase of \$636K in professional salaries attributed to a 2% CEC plus an average 2.5% performance-based salary increase, and an increase of \$264K in faculty/staff waiver benefits.

**Line 12: Services** decreased by \$2.3 million compared to the same period in 2013. A decrease of \$605K in grant subcontracts due to a decline in grant-funded research is a contributing factor. Consultant services decreased by \$189K due to two large consulting engagements that were completed in 2013. DPW expenses decreased by \$321K for architectural and engineering costs and repair projects totaling \$544K that were completed in 2013. Also, non-DPW repair projects totaling \$290K were completed in 2013. Additionally, HIPAA compliance services decreased by \$123K and Geology grant expenses for Priest Lake research decreased by \$95K. The remaining difference is due to decreases in other professional services as departments have sought to cut non-essential expenses to meet tighter budget constraints.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

**Line 13: Supplies** decreased by approximately \$357K due to reductions in several areas. Merchandise resale purchases decreased by \$126K in the Student Health Center due to the transfer of pharmaceutical sales to Bengal Pharmacy at the end of fiscal year 2013. Supplies purchased by the College of Technology decreased by \$132K from the same period in 2013, due to Energy Systems Technology and Education Center (ESTEC) instruments purchased for instructional purposes. The remaining difference is due to marching band uniforms and various fabrication and shop supplies for the RISE building that were purchased in fiscal year 2013.

**Line 14: Insurance, Utilities, and Rent** increased by approximately \$458K. This increase is due, in part, to an increase of 15% in the electricity billing rate and a 7% increase in the natural gas billing rate. These rate increases account for \$287K of the increase. Other items accounting for the additional \$171K are increases in state liability insurance, malpractice insurance, property insurance, office and equipment rentals, and garbage services.

**Line 15: Scholarships and fellowships** decreased due to stricter PELL grant requirements which limited the number of students at ISU who qualified for PELL grant funding.

**Line 16: Depreciation** increased largely due to a refinement to the useful life estimation for the telephone system that is now being depreciated over four years.

**Line 17: Miscellaneous operating expenses** decreased by \$244K. The primary reasons for this decrease are general in-state travel and travel to the University of Nebraska football game in fiscal year 2013 that was not repeated in fiscal year 2014.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

**Total Nonoperating Revenues (Expenses)** increased slightly by approximately \$219K compared to the same period in 2013.

**Line 20: State general education appropriation** revenue increased by \$2.6 million, primarily due to a budget increase of \$1.3 million in personnel costs and \$1.5 million in materials and supplies for fiscal year 2014. The remaining difference is due to a decrease of approximately \$155K in the capital budget.

**Line 21: Endowment income** increased by \$77K due to an increase in the State's Charitable Institutions endowment, thereby causing an increase in this period's spending and subsequent reimbursement. The Charitable Institutions endowment is given to support and maintain the institution's health mission.

**Line 23: Professional technical education** funds that support the College of Technology decreased by approximately \$456K due to a timing difference related to when monies are expended and the subsequent reimbursements are received.

**Line 24: Department of Public Works (DPW)** funding increased due to a lump sum allocation received during the current period for fiscal year 2014 delegated projects.

**Line 26: Title IV** funds decreased by \$2.8 million due to stricter eligibility requirements in federal financial aid, primarily PELL grants.

**Line 27: Net investment income** increased due to a growth in interest revenue received on investments, including income from a \$5.0 million additional investment purchased during the current fiscal year.

**Line 28: Net increase (decrease) in fair market value of investments** declined because of market volatility.

**Line 29: Amortization of bond insurance costs** increased this period because older bond issues were defeased last period and, as a result, the remaining unamortized bond insurance on these defeased bonds was expensed.

**Line 30: Bond issuance costs** were incurred last fiscal year due to GASB Statement No. 65 that states debt issuance costs, except any portion related to prepaid insurance costs, should be recognized as an expense in the period incurred. These issuance costs are related to the Series 2012 Refunding Bonds.

**Line 31: Interest on capital asset related debt net of capitalized** decreased due to interest expense from scheduled bond and Banner ERP lease payments.

11	Other long-term assets	62,000	75,000	(13,000)	-17%
12	Property, plant, and equipment, net	180,284,932	187,879,769	(7,594,837)	-4%
13	<b>TOTAL ASSETS</b>	<b>\$ 349,386,593</b>	<b>\$ 337,122,319</b>	<b>\$ 12,264,274</b>	<b>4%</b>

**Total Assets** increased by approximately \$12.3 million for the nine-month period ended March 31, 2014, compared to the same period in 2013. This growth is largely due to the increase in cash and investments. These increases are offset by decreases in property, plant, and equipment and accounts receivable.

**Lines 1 and 2: Cash and cash equivalents and cash with Treasurer** increased in total by \$15.6 million, largely due to \$63.1 million in tuition and fee collections required to be remitted to the State, less \$48.0 million of cash disbursements from the tuition and fee account for various payroll and non-payroll expenses.

**Line 3: Investments** increased by \$5.0 million because ISU invested operating funds with Zions Bank in order to diversity its holdings and to minimize risk. ISU has had excellent cash flow over several years allowing the University to move some of these funds to different financial institutions in order to

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

minimize risk and to improve returns. During fiscal year 2014, ISU implemented a strategy to move funds to Zions Bank within the investment guidelines allowed by the SBOE while addressing the institution's liquidity needs.

**Line 4: Student loans receivable** decreased by \$69K because of Perkins loan collections.

**Line 5: Accounts receivable and unbilled charges, net** decreased by \$692K, largely due to a decline in grant and contract receivables of \$1.4 million, offset by an increase of \$568K of receivables for the Family Medicine Residency Program. The remaining difference is due to an increase in Title IV repayment receivables offset by a decrease in registration change fee receivables.

**Line 6: Due from state agencies** increased by \$178K compared to the same period last year. This decrease is due to a College of Education vocational teacher education program receivable and a receivable due from the University of Idaho for rent related to the Idaho Falls Student Union building.

**Line 7: Inventories** decreased \$20K primarily to the pharmaceutical inventory being sold to Bengal Pharmacy.

**Line 8: Prepaid expense** increased by \$196K due to preliminary work for the Meridian anatomy and physiology lab as well as a prepayment for a monster truck event.

**Line 9: Assets held in trust** decreased by almost \$254K as a result of the bond debt service payment paid in the current period and the new issuance of Series 2013 Refunding Bonds that refunded the Series 2003 Revenue Bonds.

**Line 10: Prepaid bond insurance costs** decreased because portions of older bond issues were refunded and, as a result, the corresponding bond insurance was expensed. Because the interest rate on the Series 2012 and 2013 Refunding Bonds was so low, they did not require insurance. According to GASB Statement No. 65, prepaid bond insurance costs are to be amortized over the length of the bonds since they benefit future periods.

**Line 11: Other long-term assets** decreased by \$13K as a result of fewer funds set aside for the other post-employment benefits (OPEB) obligation.

**Line 12: Property, plant, and equipment, net** decreased by \$7.6 million because depreciation expense of \$13.2 million exceeded the \$5.6 million of current year additions. Buildings, equipment, and library materials are the primary drivers of the depreciation increase.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

	Unaudited as of 3/31/2014	Unaudited as of 3/31/2013	\$ Change	% Change	
<b>DEFERRED OUTFLOWS OF RESOURCES</b>					
14	Series 2012 Bond Defeasance	582,501	-	582,501	100%
15	Series 2003 Bond Defeasance	-	682,511	(682,511)	-100%
16	<b>TOTAL DEFERRED OUTFLOWS OF RESOURCES</b>	582,501	682,511	(100,010)	-15%

**Total Deferred Outflows of Resources** will continue to decrease over time. The deferred outflows of resources for the Series 2003 and 2012 bond defeasance are calculated by taking the new bond funds minus the carrying value of the old bond funds. This deferred refunding amount is amortized over the life of the new or old debt, whichever is shorter, per GASB Statement No. 65.

	Unaudited as of 3/31/2014	Unaudited as of 3/31/2013	\$ Change	% Change

20	Compensated absences payable	4,776,480	4,645,390	131,090	3%
21	Deposits	327,679	283,557	44,122	16%
22	Funds held in custody for others	714,426	669,444	44,982	7%
23	Unearned revenue	21,262,812	19,860,733	1,402,079	7%
24	Accrued interest payable	1,157,838	1,291,073	(133,235)	-10%
25	Notes and bonds payable	60,706,164	66,173,788	(5,467,624)	-8%
26	Other post-employment benefits payable	7,359,250	7,033,250	326,000	5%
27	<b>TOTAL LIABILITIES</b>	\$ 108,456,245	\$ 111,889,688	\$ (3,433,443)	-3%

**Total Liabilities** decreased by approximately \$3.4 million for the nine-month period ended March 31, 2014, compared to the same period in 2013. This decrease is largely due to reductions in notes and bonds payable, offset by increases in unearned revenue and accrued salaries and benefits payable.

**Line 17: Accounts payable and accrued liabilities** decreased \$336K over the nine-month period ended March 31, 2014. This is primarily due to a student union capital improvement project of \$286K paid to DPW. The remaining decrease is largely due to an outstanding balance paid to Chartwells for food services provided.

**Line 18: Due to state agencies** increased slightly by \$17K due to increases in amounts owed to the Division of Financial Management, DPW, and the Department of Administration.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

**Line 19: Accrued salaries and benefits payable** increased by \$538K due to our having one more accrued pay day during the last pay period of the third quarter compared to the same period in the prior year, an institution-wide performance-based pay increase, and the timing of accruals for 9-month faculty paid over 12 months.

**Line 21: Deposits** increased by \$44K compared to the same period in 2013. This is due to a \$31K increase in housing deposits caused by a 5.4% increase in the occupancy rate in residence halls and apartments, a \$25K increase in security deposits from the Pocatello Spring Fair held in Holt Arena, and a \$12K decrease in registration escrow deposits due to a decline in freshman enrollment.

**Line 22: Funds held in custody for others** increased due to unclaimed stale checks offset by declines in student club accounts and donor selected scholarships.

**Line 23: Unearned revenue** increased by \$1.4 million compared to the same period in 2013. This is primarily comprised of a \$563K increase from the College of Technology receiving more state Professional Technical Education (PTE) appropriations than were spent, an increase of \$434K in tuition and fee revenue for Spring semester due to a 4.5% tuition increase and a positive enrollment mix, and \$212K of unapplied grant payments. The remaining difference is due to increases in interest earned on tuition and IDEP clinic revenue.

**Line 24: Accrued interest payable** decreased by \$133K primarily because the debt service of the 2003 Revenue Bonds was defeased by the Series 2012 and 2013 Refunding Bonds.

**Line 25: Notes and bonds payable** decreased because of scheduled bond payments and the defeasance of old bond issues.

**Line 26: Other post-employment benefits payable** increased by \$326K, which is an accounting estimate.

	Unaudited as of 3/31/2014	Unaudited as of 3/31/2013	\$ Change	% Change
<b>DEFERRED INFLOWS OF RESOURCES</b>				
28 Series 2013 Bond Defeasance	31,036	-	31,036	100%

**Total Deferred Inflows of Resources** increased due to the Series 2013 Refunding Bonds. The deferred inflow of resources is calculated by taking the new bond funds minus the carrying value of the old bond funds. 31	Unrestricted	112,047,581	92,779,186	19,268,395	21%
32	<b>TOTAL NET POSITION</b>	<b>\$ 241,481,813</b>	<b>\$ 225,915,142</b>	<b>\$ 15,566,671</b>	<b>7%</b>

**Line 29: Invested in capital assets, net of related debt** declined by \$2.4 million due to the decrease in property, plant, and equipment of \$7.6 million and the decrease in capital debt of \$5.4 million. The remaining \$200K decrease is due to reductions in prepaid bond insurance and accrued interest payable.

**Line 30: Restricted, expendable** decreased by \$1.3 million primarily due to a large Foundation scholarship accrual in fiscal year 2013, a reduction in debt service from the 2012 and 2013 Refunding Bonds, and a decline in construction funds for Meridian and CAES building improvement projects. These decreases were offset by an increase in DPW deferred maintenance funding.

**Line 31: Unrestricted** increased by \$19.3 million largely due to the increase in cash and investments.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

**OPERATIONAL TREND DATA**

Enrollment Data

The census date for Spring semester enrollment was changed from the tenth class day to March 15. Historical data for Spring 2012 enrollment counted at the new March 15 census day is not available. In order to analyze enrollment data in a consistent manner, figures represented below are counted at the end of term for Spring 2012 and as of the March 15 census date for Spring 2014 and 2013.

Illustrated by the graphs below, enrollment decreased slightly by 446, or 203 full-time equivalents, for Spring 2014 when compared to Spring 2013. Academic credit hours decreased by 3,075 from 139,969 during this same period. This is primarily due to a decrease in full-time undergraduate students. Full-time undergraduates decreased by 216 students while full-time graduates increased by 13. Full-time resident students decreased by 459, although, full-time nonresident students increased by 256.

A two percent drop in the number of Idaho high school graduates in May of 2013 is partially responsible for the decline in headcount. Other factors include the move by Utah colleges and universities to waive the out-of-state portion of tuition for nonresident students, the Church of Jesus Christ of Latter-day Saints lowering the missionary service age for both men and women, federal financial aid decreases with stricter eligibility requirements, and reductions in federal grants affecting monies available to fund graduate and teaching assistants. In addition to these reasons for declining enrollment, Moody's also suggests the following factors in their November 2013 report *Weakened Tuition Revenue Plagues US Higher Education*: 1) cumulative years of depressed family income and net worth as well as weakened full-time job prospects for recent graduates, 2) growth in part-time lower wage jobs, and 3) improved employment rates and continued improvement in the economy.

**Total Spring FTE Student Headcount**

**Total Spring Student Credit Hours**

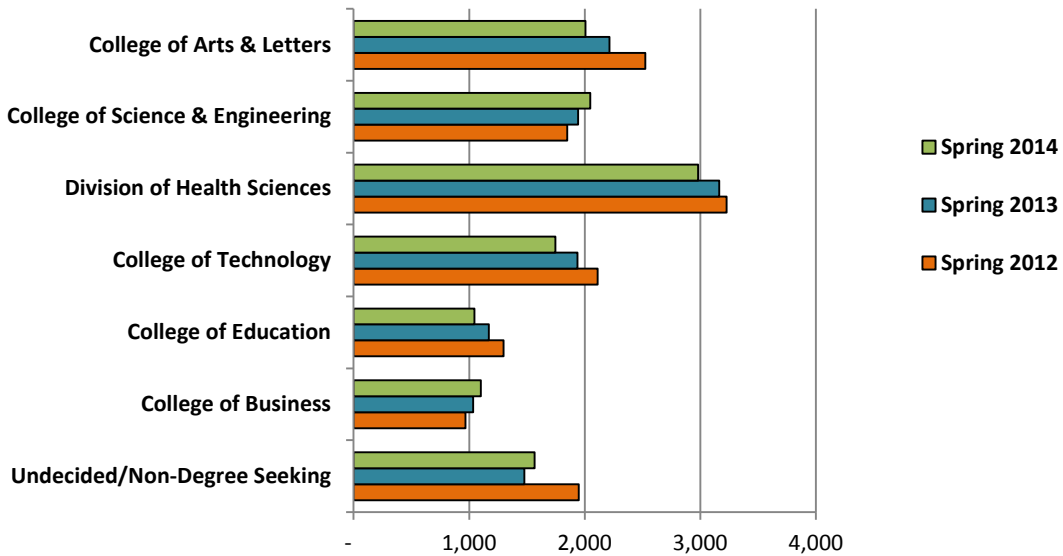

Idaho State University  
 Quarterly Report  
 For the Nine Months Ended March 31, 2014

### Total Spring Credit Hours by Colleges/Divisions

### Total Spring Student Headcount by Colleges/Divisions

## Idaho State University Student Headcount by Classification

### Employment

The total number of employees paid by the University decreased during the quarter to 3,851 from the same period in fiscal year 2013. This is a total decrease of 41 employees, of which, temporary staff decreased by 51 employees, adjunct faculty decreased by 11, full-time and part-time faculty decreased by 9, and classified staff decreased by 9. The number of graduate assistants increased by 26, professional staff increased by 8, and student employees increased by 5. Except for the decreases in temporary staff and adjunct faculty, offset by the increase in graduate assistants, employment numbers have remained fairly constant in the remaining categories.

The employment increases in Academic Affairs, Finance and Administration, University Advancement, and the colleges of education and science and engineering are primarily due to an increase of student employees, many of whom participate in the Career Path Internship program, and temporary staff. The employment decreases in Student Affairs and the colleges of technology and arts and letters are largely due to the decrease of temporary staff and student employees. The increase in professional staff primarily took place in Athletics and the Division of Health Sciences.

Idaho State University  
Quarterly Report  
For the Nine Months Ended March 31, 2014

*Research and Sponsored Activity*

Through the third quarter of fiscal year 2014, ISU submitted 243 proposals requesting nearly \$77.4 million, an increase in requested funds of over 45% from the same time period in fiscal year 2013. ISU received 150 awards from external funding sources totaling over \$15.0 million.

During the quarter, ISU received notable awards from S.M. Stoller Inc. (1 award for \$340,315), Battelle Energy Alliance (6 awards for \$611,720), the Idaho Department of Health and Welfare (3 awards for \$350,872), and the National Science Foundation (1 award for \$176,637). In addition, the University received an immediate award totaling \$457,131 and long-term funding over the next four years totaling \$4.2 million from the U.S. Department of Defense - Office of Naval Research.

The Federal Government shut down for over half of the month in October 2013, reducing the funding activity and levels for the second and third quarters. It is anticipated that effects of the government shutdown may continue to carry over into the fourth quarter. Statistics provided by the government ([www.usaspending.gov](http://www.usaspending.gov)) state that in higher education, the number of federal grant contracts has declined by over 60% and spending has decreased by over 50% comparing federal fiscal year 2013 to the eight months in federal fiscal year 2014.

Idaho State University  
 Quarterly Report  
 For the Nine Months Ended March 31, 2014

Idaho State University Foundation

The Idaho State University Foundation (Foundation) continued its mission to stimulate voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of Idaho State University. The Foundation, through its Board of Directors, appoints an investment committee that determines investment guidelines, sets spending rules, and engages the investment managers and custodians.

The Foundation received an increase of \$400K in gifts for the third quarter of fiscal year 2014, as compared to the same period in 2013. Total gifts have increased by \$1.24 million for the first three periods of fiscal year 2014, over the same periods in fiscal year 2013. Giving during the current fiscal year has supported the Foundation’s expectation of a strong gift year.

The overall investment policy is to maximize the return on investments within an acceptable range of risks. The Board oversees and approves all investment and asset allocation policies proposed by its Investment Committee.

The chart below illustrates the Foundation’s actual return on investments for the nine-month periods ended March 31, 2014 and 2013 along with the Foundation’s policy benchmarks.

	Quarter Ended 3/31/14	Quarter Ended 3/31/13	12 Month Return
Actual Returns	1.36%	4.61%	11.04%
Policy Benchmark	1.42%	4.23%	10.57%

The fair market value of the endowment was \$40,003,981 and \$36,195,715 for the periods ended March 31, 2014 and March 31, 2013, respectively.

**Total Endowment Market Value as of

Appropriated Budget Analysis

<b>General Education Appropriated Budget Summary For the Quarter Ending 3/31/14</b>					
<b>College/Division</b>	<b>Budget</b>	<b>Actual</b>		<b>Budget</b>	
		<b>Expensed</b>	<b>Encumbered</b>	<b>Balance</b>	<b>% Remaining</b>
Finance & Administration	\$ 35,693,700	\$ (21,976,143)	\$ (1,383,205)	\$ 12,334,352	35%
College of Arts & Letters	15,521,711	(10,341,231)	(27,373)	5,153,107	33%
College of Science & Engineering	14,620,361	(10,432,721)	(25,054)	4,162,586	28%
Academic Affairs	13,282,972	(6,460,559)	(343,374)	6,479,039	49%
Division of Health Sciences	13,078,753	(8,904,420)	(22,534)	4,151,799	32%
President's Office	5,364,911	(3,868,189)	(132,418)	1,364,304	25%
College of Business	5,221,564	(3,438,376)	(57)	1,783,131	34%
Library	5,207,545	(3,997,020)	(4,209)	1,206,316	23%
Office of Research	5,141,379	(3,321,719)	(234,792)	1,584,868	31%
College of Education	5,051,288	(3,771,015)	(2,535)	1,277,738	25%
Student Affairs	4,483,096	(3,405,555)	(31,300)	1,046,241	23%
College of Pharmacy	3,414,102	(2,362,470)	-	1,051,632	31%
University Advancement	2,490,946	(1,642,773)	(7,139)	841,034	34%
College of Technology	1,291,568	(857,505)	(6,049)	428,014	33%
Graduate School	669,882	(397,004)	(51,400)	221,478	33%
<b>Grand Total</b>	<b>\$ 130,533,778</b>	<b>\$ (85,176,700)</b>	<b>\$ (2,271,439)</b>	<b>\$ 43,085,639</b>	<b>33%</b>

Spending patterns have remained fairly consistent with the third quarter of the prior year. In total, 33% of the appropriated budget is remaining, which is expected given that portions of Spring and Summer semesters remain to be funded.

 Quarterly Report  
 For the Nine Months Ended March 31, 2014

Auxiliary Analysis

**Auxiliary Revenue**  
*(in thousands)*

The increase of \$212K in auxiliary revenues for the nine-month period ending March 31, 2014 can be attributed to a few factors. Housing had a \$56K increase in food service sales. Athletics received \$240K more in football game guarantees. In fiscal year 2013, Athletics received a game guarantee of \$600K from the University of Nebraska. In fiscal year 2014, Athletics received \$450K from the University of Washington and \$390K from Brigham Young University. Additionally, the recreation facility received a slight increase in revenue from cheerleader camps, building rentals, and membership fees. Conversely, ASISU student health insurance administration fees and the Student Union’s Chartwells commission revenue declined related to timing differences of when revenue is received. Revenue decreases in the Student Health Center, Bookstore, and Holt Arena were primarily due to declines in lab services and medication sales (pharmaceutical transfer to Bengal Pharmacy), textbook sales, and facility rentals. Auxiliary units are performing as planned.

## REPORT OF INDEPENDENT AUDITORS

The Idaho State Board of Education  
Idaho State University

We have audited the accompanying financial statements of Idaho State University (University) and its discretely presented component unit, Idaho State University Foundation, Inc. (the Foundation) as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the University's and Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Idaho State University Foundation, Inc., a discretely presented component unit, as described in Note 14. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it related to the amounts included for that component unit, is based solely on the report of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the University and its discretely presented component unit as of June 30, 2011 and 2010, and the changes in its financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 2 through 11 and certain information in Note 10, *Postemployment Benefits Other Than Pensions*, that is labeled as "required supplementary information" is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

## Management's Discussion and Analysis For the fiscal year ended June 30, 2011

---

### *INTRODUCTION*

This Management's Discussion and Analysis (MD&A) provides an overview of the financial position and activities of Idaho State University for the fiscal year ended June 30, 2011. It is intended to promote greater understanding of Idaho State University's (ISU or the University) financial activities and position. The MD&A includes the University's condensed and comparative statements, along with related graphs and charts. It should be read in conjunction with the financial statements and related footnote disclosures that follow the discussion. The financial statements, footnotes, and this discussion are the responsibility of management.

As a comprehensive public institution of higher learning, Idaho State University, located in Pocatello, Idaho, has served the citizens of the State since 1901, when it was first established as the Academy of Idaho. The University provides both general education and specialized programs in arts, humanities, sciences, the professions, and technologies and contributes to the State and nation through related research and public service programs. Idaho State University offers a diverse range of degree programs from baccalaureate to post-doctoral levels through the Colleges of Science and Engineering, Arts and Letters, Business, Education, Health Professions, Pharmacy, Technology, and the Graduate School. Through its programs in Health Professions, Pharmacy, the Family Practice Medical Residency, and the Idaho Dental Education Program, the University represents the primary higher educational institution for health professions in the state of Idaho.

### *OVERVIEW*

The University's financial statements have been prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*.

The financial statements are comprised of the following components as explained briefly below.

**Independent Auditor's Report** – Presents an unqualified opinion rendered by an independent certified public accounting firm as to the fairness (in all material respects) of the financial statements. The audit firm is selected and engaged by the Idaho State Board of Education.

**Statement of Net Assets** – The statement of net assets includes all assets and liabilities of the University. Assets and liabilities are generally reported at their book value, on an accrual basis, as of the statement date. This statement also identifies any major categories of restrictions on the net assets of the University.

**Statement of Revenues, Expenses, and Changes in Net Assets** – The statement of revenues, expenses, and changes in net assets presents the revenues earned and expenses incurred during the year on an accrual basis, categorized as operating and nonoperating.

**Statement of Cash Flows** – The statement of cash flows presents the inflows and outflows of cash for the year; summarized by operating, non-capital financing, capital and related financing, and investing activities.

**Notes to the Financial Statements** – The Notes provide important additional information that expands and clarifies the financial statement data.

**Component Unit** – The Idaho State University Foundation, Incorporated (the Foundation) is a key partner and contributor to the University’s educational mission and holds significant economic resources that benefit the University. It is the only affiliated organization that qualifies as a component unit of the University. Because the Foundation is a non-governmental entity, their financial statements are based upon reporting standards promulgated by the Financial Accounting Standards Board (FASB) and are audited by separate independent auditors. For purposes of this report, their financial information is presented on separate pages immediately following the corresponding university information.

## ***STATEMENT OF NET ASSETS***

The *Statement of Net Assets* reflects the financial position of the University at the end of the fiscal year. The difference between total assets and total liabilities represents net assets. Changes in net assets occur over time and are one indicator of the financial condition of the University. Net Assets are presented in three major categories on the statement, each of which is described in more detail within the footnotes to the statements. A summary comparison of the assets, liabilities, and net assets for the years ended June 30, 2011, 2010, and 2009, is presented below.

<b>Schedule of Net Assets</b>			
	<b><u>June 30, 2011</u></b>	<b><u>June 30, 2010</u></b>	<b><u>June 30, 2009</u></b>
<b>Assets:</b>			
Current Assets	\$ 94,971,188	\$ 80,612,923	\$ 69,902,072
Noncurrent Assets	<u>196,119,584</u>	<u>191,955,047</u>	<u>192,081,655</u>
Total Assets	<u>291,090,772</u>	<u>272,567,970</u>	<u>261,983,727</u>
<b>Liabilities:</b>			
Current Liabilities	28,439,127	27,585,649	28,214,198
Noncurrent Liabilities	<u>71,749,739</u>	<u>75,445,975</u>	<u>78,931,975</u>
Total Liabilities	<u>100,188,866</u>	<u>103,031,624</u>	<u>107,146,173</u>
<b>Net Assets:</b>			
Invested in capital assets, net of related debt	123,571,307	113,836,708	108,043,090
Restricted, expendable	6,558,524	8,479,940	13,023,152
Unrestricted	<u>60,772,075</u>	<u>47,219,698</u>	<u>33,771,312</u>
Total Net Assets	<u>\$ 190,901,906</u>	<u>\$ 169,536,346</u>	<u>\$ 154,837,554</u>

As shown in the schedule above, the University's total net assets increased by approximately \$21.4 million from the prior fiscal year. The increase results from a variety of issues, but the major contributing factors are holding costs relatively flat, stable enrollment, and reducing debt, coupled with increases in tuition and fees, grants, and additions to capital assets. The overall increase was offset by the continuing decline in state funding.

### ***REVENUES, EXPENSES, AND CHANGES IN NET ASSETS***

A comparative statement summarizing the University's revenues, expenses, and changes in net assets for the years ended June 30, 2011, 2010, and 2009, is shown below.

<b>Summary Statement of Revenues, Expenses &amp; Changes in Net Assets</b>			
	<u><b>FY 2011</b></u>	<u><b>FY 2010</b></u>	<u><b>FY 2009</b></u>
<b>Operating revenues</b>			
Student tuition and fees (net of scholarship discounts and allowances)	\$ 62,525,361	\$ 57,721,128	\$ 52,694,142
Federal grants and contracts	13,653,117	14,166,811	13,734,296
State and local grants and contracts	9,786,215	9,813,602	9,822,969
Private grants and contracts	8,532,830	6,719,031	6,932,162
Sales and services of educational activities	6,066,029	5,543,843	4,233,153
Sales and services of auxiliary enterprises	12,426,182	12,444,156	12,222,735
Other	3,470,991	2,821,388	3,349,149
<b>Total operating revenues</b>	<b>116,460,725</b>	<b>109,229,959</b>	<b>102,988,606</b>
<b>Operating expenses</b>	<b>209,724,689</b>	<b>207,824,538</b>	<b>211,124,375</b>
<b>Operating income (loss)</b>	<b>(93,263,964)</b>	<b>(98,594,579)</b>	<b>(108,135,769)</b>
<b>Nonoperating revenues (expenses)</b>			
State appropriations	75,402,147	78,816,476	88,048,039
State Department of Public Works	7,375,601	3,892,864	11,962,205
Title IV grants	27,767,664	24,301,307	15,515,208
Gifts	5,396,289	5,959,068	6,705,788
Net investment income	252,720	238,229	614,313
Amortization of bond financing costs	(60,954)	(60,953)	(60,953)
Interest on capital asset related debt	(3,355,101)	(3,507,755)	(3,502,128)
<b>Net nonoperating revenues (expenses)</b>	<b>112,778,366</b>	<b>109,639,236</b>	<b>119,282,472</b>
<b>Other revenue and expenses</b>			
Capital gifts and grants	1,937,104	3,639,092	84,764
Gain or (loss) on disposal of fixed assets	(85,946)	15,043	(76,953)
<b>Net other revenues and expenses</b>	<b>1,851,158</b>	<b>3,654,135</b>	<b>7,811</b>
<b>Increase in net assets</b>	<b>21,365,560</b>	<b>14,698,792</b>	<b>11,154,514</b>
<b>Net assets - beginning of year</b>	<b>169,536,346</b>	<b>154,837,554</b>	<b>143,683,040</b>
<b>Net assets - end of year</b>	<b>\$ 190,901,906</b>	<b>\$ 169,536,346</b>	<b>\$ 154,837,554</b>

### ***Revenue***

Operating revenues received by the University are the result of providing goods and services to the various customers and constituencies of the University. Student tuition and fees, as well as research grants and contracts, are prime examples of operating revenues. Nonoperating revenues are those monies received for which goods and services are not provided. For example, as a public institution, one of ISU's primary sources of revenue is appropriations provided by the state of Idaho, which, as directed by GASB standards, are classified as nonoperating revenue. As a result, the University's financial statements typically show an operating loss. A more comprehensive assessment of the operations of the University is reflected in the change in net assets at the end of the year.

Total revenues for the year ended June 30, 2011, were \$234.6 million, representing an increase of 3.8% from fiscal year 2010. Below is a graphic illustration of revenues by source (both operating and non-operating) for the year ended June 30, 2011.

Fiscal year 2011, continued the trend in reduced general and programmatic appropriations from the State of Idaho. This is reflected by a 4.3% reduction in appropriated funding, which equates to \$3.4 million. When combined with the Department of Public Works (DPW), total state funding is relatively flat. However, this is a factor of one-time funding of \$5.2 million from the DPW for completion of the Meridian remodel project.

To help offset appropriated funding reductions, all state-supported institutions of higher education in Idaho increased tuition and fees in fiscal year 2011. This increase at ISU, coupled with the on-going cost reduction initiatives, were strategic steps considered necessary to sustain the institution and build reserves to face the challenging and uncertain economic times, and maintain a course that ensures educational excellence for our students. In addition, revenue from federal title IV grant funds delivered as aid to students rose during the year by \$3.5 million, or 14.3%.

Revenue from research grants was up 4.1%, or about \$1.3 million. The institution continues its strong commitment to research, as evidenced by the Carnegie Foundation's classification of Idaho State University as a Research University-High status. ISU is only one of 98 institutions in the country in this prestigious group. As part of our commitment to research, the University purchased a 209,000 square foot building located in the University Research Park to house the Idaho Joint Research Center. The center

will provide a multidisciplinary approach to energy research, including material sciences, electrical engineering, and nuclear engineering.

**Expenses**

Operating expenses represent the costs associated with providing goods and services to enable us to carry out the mission of the University. A comparative summary of expenses for the years ended June 30, 2011, 2010, and 2009 is presented below, along with a graphic of expenditures by natural classification.

<b>Summary Statement of Expenses</b>			
	<b>2011</b>	<b>2010</b>	<b>2009</b>
<b>Operating</b>			
Personnel costs	\$ 130,457,000	\$ 133,372,372	\$ 137,900,068
Services	23,073,330	21,246,038	22,905,039
Supplies	13,257,589	11,200,367	12,311,174
Insurance, utilities and rent	6,660,260	7,172,329	7,913,599
Scholarships and fellowships	20,084,127	20,067,882	15,048,716
Depreciation Expense	11,462,198	10,832,307	10,047,530
Other operating Expenses	4,730,185	3,933,243	4,998,249
<b>Total operating expenses</b>	<b>209,724,689</b>	<b>207,824,538</b>	<b>211,124,375</b>
<b>Nonoperating</b>			
Amortization of bond financing costs	60,954	60,953	60,953
Loss (gain) on disposal of fixed assets	85,946	(15,043)	76,953
Interest on capital asset related debt	3,355,101	3,507,755	3,502,128
<b>Total nonoperating expenses</b>	<b>\$ 3,502,001</b>	<b>\$ 3,553,665</b>	<b>\$ 3,640,034</b>

At \$209.7 million, fiscal year 2011 operating expenditures increased by less than 1%. Holding operating costs at a relatively flat position is once again indicative of the initiatives the University implemented to

meet the challenges of the declining economy and budget holdbacks and prepare for additional financial challenges in the future. Where feasible, delayed hiring and the use of temporary employees helped to maintain stable personnel costs. The majority of the \$2.9 million dollar decrease in these costs is related to state insurance premium reprieves during the year. This was partially offset by increases in supplies, which were driven by much needed non-capital expenditures in computer labs and centers, instructional media, and the Center for Advanced Energy Studies research facility. Increased outlays for services were primarily the result of completing necessary repair and maintenance efforts through the DPW and an increase in costs stemming from subcontract work on sponsored grants and projects.

In addition to the natural classification of expenses presented previously, the three-year comparative summary of expenses categorized by functional classification provides additional insight into the nature of University expenditures. While there were no material changes over the prior year, it is noteworthy that expenditures for student services continue to increase. This reflects the infusion of \$380,000 in the Career Path Internship program and enhanced efforts for international students and advising.

<b>Summary Statement of Operating Expenses by Function</b>			
	<b><u>2011</u></b>	<b><u>2010</u></b>	<b><u>2009</u></b>
Instruction	\$ 80,931,125	\$ 81,513,589	\$ 86,851,409
Research	18,092,340	17,394,610	17,282,465
Public Service	4,064,941	4,291,417	5,127,353
Academic Support	11,025,514	11,351,090	11,306,932
Libraries	2,400,075	2,522,461	2,552,186
Student Services	8,269,463	7,443,122	7,428,907
Institutional Support	17,620,322	17,526,844	17,824,842
Maintenance and Operations	14,027,825	13,572,310	16,005,877
Auxiliary Enterprises	21,746,759	21,308,706	21,648,158
Scholarships and Fellowships	20,084,127	20,068,082	15,048,716
Depreciation	11,462,198	10,832,307	10,047,530
<b>Total Functional Expenses</b>	<b><u>\$ 209,724,689</u></b>	<b><u>\$ 207,824,538</u></b>	<b><u>\$ 211,124,375</u></b>

## **CASH FLOWS**

The various sources of cash, along with their application and use, are presented in the *Statement of Cash Flows*. This analytical perspective is useful in assessing the ability of the university to satisfy its financial obligations as they come due. The statement classifies the flow of cash in the following four categories.

Operating activities - Displays the net cash flow required to conduct the day-to-day operating activities of the institution and reflects the continued need for funding from the state of Idaho.

Noncapital financing activities - Reflects the net cash flow of non-operating transactions not related to investing or capital financing activities, and includes funds provided by state appropriations.

Capital and related financing activities - Includes payments for the acquisition of capital assets, proceeds from long-term debt, and debt repayment.

Investing activities – Details the funds involved in the purchase and sale of investments and reflects the change in rates of return on invested funds.

The statement summarizes the net cash flow and reconciles to the operating income or loss, as reflected on the *Statement of Revenues, Expenses, and Changes in Net Assets*.

A summary of the *Statement of Cash Flows* for the year ended June 30, 2011, is presented below.

<b><u>Summary Statement of Cash Flows</u></b>			
	<b><u>FY 2011</u></b>	<b><u>FY 2010</u></b>	<b><u>FY 2009</u></b>
Cash and cash equivalents (used in) or provided by:			
Operating activities	\$ (77,316,030)	\$ (86,116,976)	\$ (91,536,212)
Noncapital financing activities	107,537,874	105,911,573	109,034,526
Capital and related financing activities	(16,803,973)	(14,241,614)	(21,467,964)
Investing activities	<u>214,823</u>	<u>217,735</u>	<u>539,831</u>
Net increase (decrease) in cash	13,632,694	5,770,718	(3,429,819)
Cash and cash equivalents, beginning of year	<u>62,597,060</u>	<u>56,826,342</u>	<u>60,256,161</u>
Cash and cash equivalents, end of year	<u>\$ 76,229,754</u>	<u>\$ 62,597,060</u>	<u>\$ 56,826,342</u>

For purposes of the *Statement of Cash Flows*, the University considers all highly liquid investments with an original maturity of three months or less and all non-negotiable certificates of deposit to be cash equivalents.

### ***CAPITAL ASSET AND DEBT ACTIVITIES***

The University considers the effective management of the institution’s physical resources as a fundamental element of its financial stewardship, including the prudent use of debt to finance such resources. The development and maintenance of our physical resources is a key factor in creating and sustaining a learning environment that permits education to flourish. Idaho State University’s total capital assets before depreciation increased by \$14.0 million; from \$326.0 million in 2010, to \$340.0 million in 2011.

Total institutional long-term debt declined by \$4.3 million from \$75.1 million at June 30, 2010, to \$70.8 million at June 30, 2011. The University incurred no new long-term debt and continued to pay down existing debt according to the debt schedule detailed in the notes of this report.

## ***ECONOMIC OUTLOOK***

Despite the challenges experienced during the economic downturn in the nation and world, ISUs overall financial position remains relatively strong. The University has incurred no new debt in recent years and continues to monitor and minimize expenditures wherever and whenever it makes sense to do so. Managing multiple, consecutive years of reductions in state appropriated dollars has been, and continues to be challenging. Along with cost containment, alternative revenue sources have been utilized to maintain and sustain quality educational programs. As the cost of delivering these programs continues to rise, the University must depend on private gifts, research grants, and tuition and fees for incremental revenue.

The University continued its efforts and progress on many initiatives during the fiscal year. The research efforts of faculty and others continue to produce exemplary results. For example, there will be more family doctors in Idaho due to a \$960,000 grant awarded this fall to the Family Medicine Residency Program. The grant is designed to increase the number of primary care physicians in the state and will increase the total number of medical residents in the residency program from 18 to 21 over the next five years.

The College of Technology received a \$1.2 million dollar “Go On” grant from the J.A. and Kathryn Albertson Foundation to improve Idaho’s student retention rates. Under the program, students will work with the Center for New Directions to develop an educational and career plan and counselors and faculty will serve as mentors. Scholarships will be available for further credit courses and various business and industry representatives will frequently meet with students about their career options and choices.

The Idaho Museum of Natural History, located on the Pocatello campus, was awarded full accreditation by the American Association of Museums. The museum met rigid standards in all areas and was cited as making impressive changes, especially in terms of university support. The Association stated the museum has become not only “...one of the finest in Idaho, but also one of the best in America.”

Efforts by University researchers were bolstered by a \$1.0 million grant from the National Science Foundation dealing with “virtual zooarchaeology.” The grant furthers development of an online two and three-dimensional archeological collection of Arctic animal bones and will provide tools necessary to assist more efficient, accurate, and cost-effective analyses by researchers around the world.

The NCAA Division I Committee on Athletics Certification awarded the Department of Athletics NCAA Certification without condition. In meeting the NCAA requirements, the University increased the number of women's athletic scholarships, increased funding for the program, and improved the women's softball complex and the intercollegiate locker rooms for women's volleyball, softball, and basketball.

Since the University is ultimately subject to the same economic variables that affect other financial entities, it is not possible to predict future outcomes. We have a number of challenges ahead and maintaining the ambitious course we have set will not be a simple task. However, we remain confident that through careful stewardship of our resources, exercising thoughtful and prudent decision making, and continuing to work together with the various stakeholders and constituencies that support Idaho State University, we will continue to offer outstanding educational opportunities for our students.

*The audited financial statements included in this report, along with the accompanying notes to the financial statements, provide pertinent information and details related to the financial activities discussed in this analysis.*

**IDAHO STATE UNIVERSITY**  
**STATEMENT OF NET ASSETS**  
**AS OF JUNE 30, 2011 AND 2010**

	<u>2011</u>	<u>2010</u>

# IDAHO STATE UNIVERSITY

## Notes To Financial Statements Years Ended June 30, 2011 And 2010

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Idaho State University (the University) is part of the public system of higher education in the State of Idaho (the State). The system is considered part of the State of Idaho financial reporting entity. The State Board of Education (SBOE), appointed by the Governor and affirmed by the legislature, directs the system. The University is located in Pocatello, Idaho. Significant accounting policies are described below to enhance the usefulness of the financial statements to the reader.

**Reporting Entity** – The Idaho State University Foundation, Inc. (the Foundation) is considered a component unit of the University as defined by GASB Statement No 39, *Determining Whether Certain Organizations are Component Units*. As such, the Foundation is discretely presented for fiscal years ended June 30, 2011 and 2010. Additional detail and discussion related to the Foundation can be found in Note 13 of this report.

**Basis of Accounting** – For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The University has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with the GASB. The University has elected not to apply FASB pronouncements issued after the applicable date.

**Cash Equivalents** – The University considers all liquid investments with a remaining maturity of three months or less at the date of acquisition and all non-negotiable certificates of deposit to be cash equivalents.

**Cash with Treasurer**—Balances classified as Cash with Treasurer are amounts that are required to be remitted to the State of Idaho as a result of the student fee collection process and, once remitted, these balances are under the control of the State Treasurer. Interest accruing on the balance is maintained in a separate fund and must be appropriated by the legislature before any expenditure can occur.

**Student Loans Receivable** – Loans receivable from students bear interest at rates ranging from 3.00% to 7.00% and are generally payable to the University in installments over a 5 to 10 year period, commencing 6 or 9 months after the date of separation from the University.

**Accounts Receivable** – Accounts receivable consist of fees charged to students as well as auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Idaho. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

**Property, Plant and Equipment** – Capital assets are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at date of the gift. The University’s capitalization policy includes all items with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 12 to 25 years for land improvements, 10 years for library books, and 5 to 13 years for equipment.

In fiscal year 2010, in accordance with the requirements and definitions of GASB No. 51, *Accounting and Financial Reporting for Intangible Assets*, the University adopted a policy of capitalizing any intangible assets \$200,000 or greater in value that have an expected useful life of three years or longer. The University adopted this policy in compliance with the State of Idaho guidelines related to the requirements of implementation for GASB No. 51.

The University houses collections at the Idaho Museum of Natural History that it does not capitalize. These collections adhere to the University’s policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. The University charges these collections to operations at the time of purchase, in accordance with generally accepted accounting principles.

**Deferred Revenues** – Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year, but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

**Compensated Absences** – Employee vacation pay that is earned but unused is accrued at year-end for financial statement purposes. Amounts included in accrued salaries and benefits payable in the statement of net assets are \$4,288,645 and \$4,594,205 at June 30, 2011 and 2010, respectively.

**Noncurrent Liabilities** – Noncurrent liabilities include the principal portions of revenue bonds payable, notes payable with contractual maturities greater than one year, and the net amount of other post-employment benefits payable.

**Net Assets** – The University’s net assets are classified as follows.

*Invested in Capital Assets, Net of Related Debt* – This represents the University’s total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

*Restricted, Expendable* – Restricted expendable net assets include resources which the University is legally or contractually obligated to use in accordance with restrictions imposed by external third parties.

*Unrestricted* – Unrestricted net assets represent resources derived from student fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions related to the educational and general operations of the University, and may be used at the discretion of the institution to meet current expenses for any lawful purpose and in accordance with SBOE policy.

***Income and Unrelated Business Income Taxes*** – The University, as a political subdivision of the State of Idaho, is excluded from Federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. The University is liable for tax on its unrelated business income. Defined by the Internal Revenue Code, unrelated business income is income from a trade or business, regularly carried on, that is not substantially related to the performance by the organization of its exempt purpose or function. The University did not incur unrelated business income tax expense in the fiscal years ended June 30, 2011 or 2010.

***Classification of Revenues*** – The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

*Operating Revenues* – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student fees net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

*Nonoperating Revenues* – Nonoperating revenues include activities that have the characteristics of nonexchange transactions such as gifts and contributions, and other revenue resources defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

***Scholarship Discounts and Allowances*** – Student fee revenues are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount paid by students and/or other third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants and other federal, state, or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy student fees and related charges, the University has recorded a scholarship discount and allowance.

***Use of Accounting Estimates*** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements, and revenues and expenses during the year. Actual results could differ from those estimates.

**New Accounting Standards** – The GASB issued Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans* in 2009. This statement addresses issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer OPEB plans. The requirements of this statement are effective for the fiscal year ending June 30, 2012. Management has not yet determined the impact this standard will have on the University’s financial statements.

The GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, in 2010. This statement provides accounting and financial reporting guidance for service concession arrangements. The requirements of this statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the impact this standard will have on the University’s financial statements.

The GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus - and amendment of GASB Statements No. 14 and No. 34*, in 2010. This Statement will improve the information presented about the financial reporting entity. The requirements of this Statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the impact this standard will have on the University’s financial statements.

The GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements* in 2010. This Statement combines all previous applicable FASB and AICPA guidance into the GASB codification. The requirements of this Statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the impact these standards will have on the University’s financial statements.

## 2. CASH WITH TREASURER, CASH AND CASH EQUIVALENTS, AND OTHER DEPOSITS

Cash with treasurer is under the control of the Idaho State Treasurer and is carried at cost. The University's deposits are maintained in commercial checking accounts which, as of June 30, 2011 and 2010, have unlimited coverage through the Federal Deposit Insurance Corporation (FDIC) under the Temporary Liquidity Guarantee Program, which provides full deposit insurance coverage for non-interest bearing deposit transaction accounts in institutions insured by the FDIC, regardless of dollar amount. After all debit and credit transactions have posted at the end of each business day, excess balances are automatically moved to the Automated Repurchase Investment Sweep account for overnight investment at competitive market rates to maximize the use of idle funds, including the cash float from outstanding checks. The investments in the sweep account consist of direct obligations or those that are fully guaranteed as to the principal and interest by the U.S. Government or its agencies and are collateralized at 100% of market value. At June 30, 2011 and June 30, 2010, total deposits consisted of the following:

	<u>2011</u>	<u>2010</u>
Cash	\$ 596,717	\$ 331,959
Non-negotiable certificates of deposit	749,293	749,293
Obligations of the U.S. Government and its agencies	47,850,000	46,814,047
Cash equity with the State Treasurer	<u>29,760,707</u>	<u>16,698,819</u>
Total deposits	<u>\$ 78,956,717</u>	<u>\$ 64,594,118</u>

There were no deposit amounts subject to custodial credit risk at June 30, 2011 and June 30, 2010.

At June 30, 2011 and June 30, 2010, the University had \$100,997 and \$90,882, respectively, of cash on hand in various change funds. The carrying amount of the University's cash and cash equivalents at June 30, 2011 and June 30, 2010, was \$76,229,754 and \$62,597,060, respectively. The net difference between deposits and the carrying amount of cash and cash equivalents is primarily a reflection of investment of the daily float.

### 3. ACCOUNTS RECEIVABLE AND DUE FROM STATE AGENCIES

Accounts receivable and due from state agencies consisted of the following at June 30:

	<u>2011</u>	<u>2010</u>
Accounts receivable	\$ 14,568,082	\$ 11,736,413
Due from state agencies	<u>4,048,548</u>	<u>5,661,440</u>
	18,616,630	17,397,853
Less allowance for doubtful accounts	<u>(1,358,432)</u>	<u>(510,614)</u>
Net accounts receivable and Due from state agencies	<u>\$ 17,258,198</u>	<u>\$ 16,887,239</u>

### 4. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the Program) comprise substantially all of the loans receivable at June 30, 2011 and 2010. Under this Program, the federal government provides approximately 75% of the funding for the Program, with the University providing the balance. The program provides cancellation provisions for borrowers engaging in teaching, public service, service in the military or law enforcement, as well as other disciplines. The Department of Education reimburses the University each year for the principal and interest canceled in its Perkins Loan Fund for all of the cancellation provisions except death, total and permanent disability, and bankruptcy. The University must deposit this reimbursement into its Perkins loan fund. In the event the University should withdraw from the Federal Perkins Loan Program or the government were to cancel the Program, the amount the University would be liable for as of June 30, 2011 and 2010, is \$1,989,979 and \$1,976,001, respectively.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2011 and 2010, the allowance for uncollectible loans was approximately \$504,502 and \$488,852, respectively.

In the spring of 2007, the University began participation in the Nursing Faculty Loan Program (NFLP), a federal loan program authorized under Title VIII of the Public Health Service Act, to increase the number of qualified nursing faculty. In the event the University should withdraw from the NFLP Program, or the government was to cancel the Program, the amount the University would be liable for as of June 30, 2011 and 2010, is \$21,801 and \$24,855. Loans receivable from students bear interest at rates ranging from 5.00% to

10.00% and are generally repayable in installments to the University over a 5 to 10 year period commencing 3 to 9 months after the date of separation from the University.

## 5. PROPERTY, PLANT AND EQUIPMENT

Following are the changes in property, plant and equipment for the years ended June 30:

	2010			2011			Balance at June 30, 2011
	Balance at June 30, 2009	Additions	Retirements	Balance at June 30, 2010	Additions	Transfers & Retirements	
Property, plant and equipment:							
Land	\$ 4,064,973	\$ -	\$ -	\$ 4,064,973	\$ 947,580	\$ -	\$ 5,012,553

Property, plant and equipment, net	\$ 185,652,866	\$ 2,431,024	\$ (331,544)	\$ 187,752,346	\$ 5,621,789	\$ (89,447)	\$ 193,284,688

The Performing Arts Center was constructed by the Foundation with contributions and the proceeds from the Foundation's Multi-Mode Variable Rate Revenue Bond, issued in 2001. The facility was constructed on land leased by the Foundation from the University for \$1 a year for a 20 year term. The land and improvements were, in turn, leased back to the University for \$1 a year for 20 years, with a provision that title to the improvements transfers to the University at the earlier of the end of the lease or retirement of the bonds. A security interest in the land and improvements is held through a Deed

of Trust issued by the Foundation to Wells Fargo Bank, N.A. The excess of the fair value of the improvements (i.e., cost) over the gross rents payable by the University were recorded as an asset of the University in recognition of the permanent transfer of rights of use to the University for only nominal consideration.

In addition to accounts payable for construction in progress, the estimated cost to complete property authorized or under construction at June 30, 2011, is approximately \$1,100,401. These costs will be financed by available resources of Idaho State University and through General Refunding and Improvement Revenue Bond proceeds.

## 6. DEFERRED REVENUE

Deferred revenue consists of the following at June 30:

	<u>2011</u>	<u>2010</u>
Student Fees	\$ 2,987,975	\$ 2,588,321
Auxiliary enterprises	316,723	70,336
Grants and contracts	1,974,067	1,733,172
Other ticket sales	<u>21,959</u>	<u>46,312</u>
	<u>\$ 5,300,724</u>	<u>\$ 4,438,141</u>

## 7. NONCURRENT LIABILITIES

Notes and bonds payable at June 30 consisted of the following:

Description	Balance Outstanding 6/30/2009			Balance Outstanding 6/30/2010			Balance Outstanding 6/30/2011			Amounts Due Within One Year
	Balance Outstanding 6/30/2009	Additions	Reductions	Balance Outstanding 6/30/2010	Additions	Reductions	Balance Outstanding 6/30/2011	Additions	Reductions	
Note payable to a bank, due in annual amounts varying from a maximum of \$11,200 to \$8,082 plus interest of 8.5% through 08/01/2011	\$ 28,755	\$ -	\$ (8,769)	\$ 19,986	\$ -	\$ (9,513)	\$ 10,473	\$ -	\$ -	\$ 10,473
Note payable to a financial institution due in annual amounts varying from a maximum of \$209,629 to \$200,270 plus interest of 2.64% through 10/13/2009	205,557	-	(205,557)	-	-	-	-	-	-	-
Note payable to a financial institution due in semi-annual installments varying from maximum of \$2,993,916 to \$16,696 plus interest of 5.08% through 09/01/2016	5,706,496	-	(111,508)	5,594,988	-	(699,548)	4,895,440	-	-	846,933
Student Facilities Fee Revenue Bonds, Series 1998, (original balance of \$12,400,000), consisting of serial and term bonds (either directly or through sinking funds) in annual amounts increasing periodically from \$585,000 to a maximum of \$920,000, plus interest from 4.875% to 5.00% through the year 2022. All bonds are collateralized by certain student fees and other revenues.	7,430,000	-	(765,000)	6,665,000	-	(800,000)	5,865,000	-	-	835,000
General Refunding and Improvement Revenue Bonds, Series 2003 (original balance of \$35,895,000), consisting of serial bonds payable in annual amounts increasing periodically from \$715,000 to a maximum of \$3,115,000, plus interest from 3.00% to 5.00% through the year 2023. All bonds are collateralized by certain student fees and other revenues.	29,780,000	-	(1,315,000)	28,465,000	-	(1,385,000)	27,080,000	-	-	1,450,000
General Revenue Bonds, Series 2004A (original balance of \$4,980,000), consisting of serial bonds payable in annual amounts increasing periodically from \$210,000 to a maximum of \$375,000, plus interest from 2.00% to 4.375% through the year 2023. All bonds are collateralized by certain student fees and other revenues.	4,120,000	-	(230,000)	3,890,000	-	(235,000)	3,655,000	-	-	245,000
General Revenue Bonds, Series 2004B (original balance of \$3,305,000), consisting of serial and term bonds payable in annual amounts increasing periodically from \$55,000 commencing in 2022 to a maximum of \$345,000, plus interest from 4.50% to 4.75% through the year 2034. All bonds are collateralized by certain student fees and other revenues.	3,305,000	-	-	3,305,000	-	-	3,305,000	-	-	-
General Revenue Bonds, Series 2004C (original balance of \$2,305,000), consisting of term bonds payable in annual amounts increasing periodically from \$95,000 to a maximum of \$190,000, plus interest of 4.88% through the year 2022. All bonds are collateralized by certain student fees and other revenues.	1,910,000	-	(110,000)	1,800,000	-	(115,000)	1,685,000	-	-	125,000
General Revenue Bonds, Series 2006 (original balance of \$10,000,000), consisting of term bonds payable in annual amounts increasing periodically from \$320,000 to a maximum of \$805,000, plus interest of 5.26% through the year 2028. All bonds are collateralized by certain student fees and other revenues.	10,000,000	-	(320,000)	9,680,000	-	(335,000)	9,345,000	-	-	355,000
General Revenue Bonds, Series 2007 (original balance of \$16,120,000), consisting of term bonds payable in annual amounts increasing periodically from \$270,000 to a maximum of \$1,055,000, plus interest from 3.90% to 5.00% through the year 2032. All bonds are collateralized by certain student fees and other revenues.	15,360,000	-	(510,000)	14,850,000	-	(530,000)	14,320,000	-	-	555,000
	77,845,808	-	(3,575,834)	74,269,974	-	(4,109,061)	70,160,913	-	-	4,422,406
Original issue discount on Note payable	(1,630)	1,630	-	-	-	-	-	-	-	-
Premium on bonds	1,301,077	-	(226,687)	1,074,390	-	(199,889)	874,501	-	-	-
Discount on bonds	(261,446)	19,118	-	(242,328)	19,058	-	(223,270)	-	-	-
Totals	\$ 78,883,809	\$ 20,748	\$ (3,802,521)	\$ 75,102,036	\$ 19,058	\$ (4,308,950)	\$ 70,812,144	\$ -	\$ -	\$ 4,422,406

There are a number of limitations and restrictions contained in the various bond indentures. Management believes there were no conditions of noncompliance with any terms or debt covenants.

Principal and interest maturities on notes and bonds payable in future periods for the year ending June 30, 2011, are as follows:

	Bonds		Notes	
	Principal	Interest	Principal	Interest
2012	\$ 3,565,000	\$ 3,125,048	\$ 857,405	\$ 238,945
2013	3,730,000	2,956,920	895,567	194,433
2014	3,905,000	2,777,994	941,639	148,361
2015	3,990,000	2,592,724	924,257	100,743
2016	4,185,000	2,401,616	946,488	53,512
2017-2021	23,090,000	8,780,107	340,557	8,650
2022-2026	15,855,000	3,479,660	-	-
2027-2031	5,520,000	954,106	-	-
2032-2034	1,415,000	114,886	-	-
	<u>\$ 65,255,000</u>	<u>\$ 27,183,061</u>	<u>\$ 4,905,913</u>	<u>\$ 744,644</u>

**Pledged Revenue**—As disclosed, the University currently has two bond issues outstanding: the Student Facilities Fee Revenue Bond (Series 1998) and the General Refunding and Improvement Revenue Bonds, which were issued pursuant to a Resolution adopted by the State Board of Education on September 17, 1992, providing for the issuance of revenue bonds (the “Original Resolution”). The Original Resolution provided for the issuance of an initial series of facility revenue bonds and authorized the issuance of additional series of revenue bonds pursuant to Supplemental Resolutions.

Currently outstanding issuances are Series 2003, 2004A, 2004B, 2004C, 2006, and 2007. The University has pledged certain revenues as collateral for these bonds. The pledged revenue amounts as of June 30 are as follows:

Pledged Revenues	2011		
	Student Facility Fee Revenue Bonds		
	Series 1998	Series 2003, 2004C, 2004A, 2004B, 2006 and 2007	Total
Matriculation fee	\$ -	\$ 42,600,426	\$ 42,600,426
Student facilities fee	3,706,507	482,708	4,189,215
Revenue of student housing system	-	5,104,221	5,104,221
CAES lease payment	-	850,104	850,104
	<u>\$ 3,706,507</u>	<u>\$ 49,037,459</u>	<u>\$ 52,743,966</u>
Debt Service	<u>\$ 1,123,710</u>	<u>\$ 5,566,338</u>	<u>\$ 6,690,048</u>
Debt service coverage	330%	881%	788%
Coverage requirement	110%	110%	110%

2010

Pledged Revenues	Student Facility Fee Revenue Bonds		
	Series 1998	Series 2003, 2004C, 2004A, 2004B, 2006 and 2007	Total
Matriculation fee	\$ -	\$ 37,433,993	\$ 37,433,993
Student facilities fee	3,630,557	472,816	4,103,373
Revenue of student housing system	-	4,951,674	4,951,674
CAES lease payment	-	850,104	850,104
Investment income	-	10,864	10,864
	<u>\$ 3,630,557</u>	<u>\$ 43,719,451</u>	<u>\$ 47,350,008</u>
Debt Service	<u>\$ 1,126,118</u>	<u>\$ 5,558,496</u>	<u>\$ 6,684,614</u>
Debt service coverage	322%	787%	708%
Coverage requirement	110%	110%	110%

As indicated, the Student Facilities Fee is pledged for Series 1998, Series 2003, Series 2004A, Series 2004B, Series 2004C, Series 2006, and Series 2007 bonds. The Revenue of the Housing System is pledged for the Series 2003 bond and the Center for Advanced Energy Studies (CAES) lease payments are pledged for Series 2006 bonds.

## 8. ACCOUNTING FOR LEASES

The University is a lessor under a ground lease agreement with Portneuf Medical Center (lessee). The lease is for 20 years, expiring on August 11, 2012, with a renewal option for an additional 20 years, exercisable in the final year of the original lease term. The lease allows for the construction of a sports medicine facility (the Facility) on the premises, which was completed in September 1994. The lessee pays rent of \$1 per year for the ground lease, payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution.

The University leases a weight/training room and associated common areas from Portneuf Medical Center (lessor). The lease term is 20 years, with a renewal option for an additional 20 years, exercisable if the lessor exercises its option to renew, as provided in the ground lease agreement. Rent for the weight/training room portion of the lease is \$1 per year. Rent for shared use of the common areas is \$14,000 per year. Rents for the initial term and optional lease term are payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution. Upon expiration of the lease term, the Facility shall become the property of the University.

ISU leases building and office facilities under various non-cancelable operating leases. Total costs for such leases were \$306,017 and \$512,463 for the years ended June 30, 2011 and 2010, respectively.

Future minimum lease payments at June 30, 2011 for all leases are as follows:

<u>Fiscal Years</u>	<u>Payments</u>
2012	\$ 250,597
2013	239,540
2014	139,857
2015	13,355
Totals	<u>\$ 643,349</u>

In 2006, Idaho State University (lessor) entered into a lease agreement with Battelle Energy Alliance, LLC (lessee) for facilities located in the newly constructed CAES facility. The lease commenced September 2009, and extends through March 5, 2028.

Future minimum rental income on this operating lease is as follows:

<u>Fiscal Years</u>	
2012	\$ 850,104
2013	850,104
2014	850,104
2015	850,104
2016	850,104
2017-2028	9,988,722
Totals	<u>\$ 14,239,242</u>

Battelle Energy Alliance, LLC makes all lease payments directly to the trustee. Rental income is restricted and is to be used solely for debt service on the 2006 Revenue bonds, the proceeds from which were used to construct the facility. As on June 30, 2011, the book value of the building is \$16,827,981, which is net of accumulated depreciation in the amount of \$872,868.

## 9. RETIREMENT PLANS AND TERMINATION PAYMENTS

**Public Employee Retirement System of Idaho** – The Public Employee Retirement System of Idaho (“PERSI”), a cost-sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The plan provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with

PERSI. The benefits and obligations to contribute to the plan were established, and may be amended by, the Idaho State Legislature. Financial reports for the plan are available from PERSI's website at [www.persi.idaho.gov](http://www.persi.idaho.gov).

After 60 months of credited service, members become fully vested in retirement benefits earned to date and receive a lifetime benefit at retirement. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.00% of the average monthly salary for the highest consecutive 42 months.

Contributions for the three years ended June 30 are as follows:

	2011	2010	2009
University contributions required and paid	\$ 2,565,255	\$ 2,666,184	\$ 2,862,506
Employee contributions	1,538,160	1,597,805	1,716,406
Total contributions	<u>\$ 4,103,415</u>	<u>\$ 4,263,989</u>	<u>\$ 4,578,912</u>
University required contribution rate	10.39%	10.39%	10.39%
Employee contribution rate	6.23%	6.23%	6.23%

**Optional Retirement Plan** – Effective July 1, 1990, the Idaho State Legislature authorized the Idaho State Board of Education to establish an Optional Retirement Plan (ORP), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of the total payroll. Employer contributions are determined by the State of Idaho. The plan provisions were established by, and may be amended by, the State of Idaho.

New faculty and exempt employees hired on or after July 1, 1990, automatically enroll in the ORP and select a vendor option. Faculty and exempt employees hired before July 1, 1990, had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options in the ORP include the *Teachers Insurance and Annuity Association - College Retirement Equities Fund* and the *Variable Annuity Life Insurance Company*.

Participants are immediately fully vested in the ORP. Retirement benefits are available as either a lump sum or any portion thereof upon attaining 55 years of age.

Contributions required and paid are as follows:

	2011	2010	2009
University contributions required and paid	\$ 5,430,019	\$ 5,463,978	\$ 5,536,217
Employee contributions	4,082,768	4,108,157	4,164,171
Total Contribution	<u>\$ 9,512,787</u>	<u>\$ 9,572,135</u>	<u>\$ 9,700,388</u>
University required contribution rate	9.30%	9.30%	9.30%
Employee contribution rate	6.96%	6.96%	6.97%

Although enrollees in the ORP no longer belong to PERSI, the University is required to contribute a percentage of the annual covered payroll to PERSI. Effective July 1, 2007, the percentage was

changed from 3.03% to 1.49%, allowing the difference of 1.54% to be used to increase the University's contribution to ORP retirement accounts. In addition, the payoff period of the unfunded liability obligation was extended from July 1, 2015, to July 1, 2025. During the years ended June 30, 2011 and 2010, supplemental funding payments to PERSI were \$874,510 and \$879,094, respectively. These amounts are not included in the regular University PERSI contribution discussed previously.

**Termination Payments** – Employees who qualify for retirement under PERSI or ORP are eligible to use 50% of the cash value of their unused sick leave to continue their medical insurance coverage through the University. The University partially funds these obligations by depositing 0.65% of employee gross payroll to PERSI, who administers the plan for all participating ISU employees and retirees under a trust fund. The total contributions for the years ended June 30, 2011 and 2010, were \$541,976 and \$549,987, respectively.

## 10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

### *Summary of Plans*

The University participates in other postemployment benefit plans relating to health and disability administered by the State of Idaho as agent multiple-employer defined benefit plans. The life insurance benefit is a single-employer defined benefit plan. Idaho Code, Sections 67-5760 to 67-5767 and 72-1335, establish the benefits and contribution obligations. Each of these benefits is provided by the University to retired or disabled employees. The most recent actuarial valuation is as of June 30, 2010. The University has not set aside any assets to pay future benefits; the University funds these benefits on a pay-as-you-go basis. Details of the plans can be found in the Comprehensive Annual Report of the State of Idaho, which may be obtained as follows:

Office of the Idaho State Controller  
700 W State Street, 4<sup>th</sup> Floor  
P.O. Box 83720  
Boise, ID 83720-0011  
[www.sco.idaho.gov](http://www.sco.idaho.gov)

### *Plan Descriptions and Funding Policy*

**Retiree Healthcare Plan** – A retired employee of the University who is eligible to retire under the Public Employee Retirement System of Idaho (PERSI) may elect to purchase the retiree health insurance coverage for themselves and eligible dependents. Employees must enroll within 60 days of the date of their retirement. Additionally, the unreduced PERSI monthly benefit at the time of retirement must meet or exceed the monthly cost of single retiree health insurance coverage, or employees must have 10 or more years (20,800 or more hours) of credited state service. An employee must have been an active employee on or before June 30, 2009, and must retire directly from State service. Coverage is not available to Medicare-eligible retirees or their Medicare-eligible dependents. Retirees eligible for medical health insurance pay the majority of the premium

cost; however, the retiree plan costs are subsidized by the active employee plan. The maximum benefit is \$1,860 per retiree per year. The University contributed \$16.44 per active employee per month towards the retiree premium cost.

**Long-Term Disability Plan** – Disabled employees are defined as being unable to perform each of the substantial and material duties of the job for which they were hired and unable to earn more than 70% of their monthly salary for the first 30 months of disability. If after 30 months, the employee is unable to perform any job for which they are reasonably qualified by experience, education, or training; and unable to earn more than 60% of their monthly salary, the employee is considered totally disabled. To qualify for long-term disability benefits, the waiting period of the greater of 26 weeks of continuous total disability or the exhaustion of the employee's accrued sick leave must be met.

The plan provides long-term disability income benefits to active employees who become disabled, generally up to a maximum age of 70. The gross benefit equals 60% of monthly pre-disability salary or \$4,000, whichever is less. The benefit does not increase with inflation and may be offset by other sources of income, such as Social Security, worker's compensation, unemployment benefits, and certain retirement benefits. The State of Idaho is self-insured for employees who became disabled prior to July 1, 2003; the state pays 100% of the cost of this benefit. The amount of the contribution is based on active claims and the number of insured individuals.

Employees disabled after July 1, 2003, are insured by Principal Life Insurance Company and the obligation for the payment of benefits has been effectively transferred. The University pays 100% of the cost of the premiums. The University's contribution for the period was 0.324% of payroll in fiscal year 2011. This portion of the long-term disability income benefit is not included in the actuarial estimate.

For up to 30 months following the date of disability, an employee is entitled to continue healthcare coverage under the state plan. The University pays 100% of the University's share of medical and dental premiums while the employee remains disabled. The employee is required to pay the normal active employee contribution for the plan and rate category in which the employee is enrolled. The University's contribution for the period was \$6.96 per active employee per month in fiscal year 2011.

This plan also provides basic life insurance and dependent life coverage to disabled employees, generally up to a maximum age of 70. The life insurance benefit amount is generally 100% of annual salary, but not less than \$20,000. In addition, a \$2,000 life insurance benefit is provided for spouses, and a \$1,000 life insurance benefit is provided for dependent children. These benefits do not increase with inflation. The University pays 100% of the premiums; the contribution is actuarially determined based on actual claims experience.

**Retiree Life Insurance Plan** – This plan provides basic life insurance for certified retired employees. In general, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. Eligible retirees receive basic life insurance coverage equal to 100% of their annual salary at retirement. The University pays 100% of the cost of basic life insurance for eligible retirees. The University's contribution for the period as a percent of payroll was 1.177% for retirees under 65

years of age, 0.0894% for retirees between the ages of 65 and 69, and 0.0600% for retirees over age 70.

**Annual OPEB Cost**

The Annual OPEB Cost (AOC) is actuarially determined based on the Annual Required Contribution (ARC) of the employer in accordance with GASB Statement Nos. 43 and 45. The following tables illustrate the annual OPEB cost, the amount of the contributions made, the increase (decrease) in the net OPEB obligation (NOO), and the NOO (funding excess) for the years ended June 30, 2011 and 2010.

**Annual OPEB Cost and Net OPEB Obligation 2011**  
(dollars in thousands)

	Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan	Total

UAAL as a Percentage of Covered Payroll (3) : (5)	2.90%	0.67%	1.05%	1.17%	13.63%

### ***Actuarial Methods and Assumptions***

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary contains multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Calculations are based on the types of benefits provided under the terms of the plan at the time of each valuation and on the

pattern of sharing costs between the employer and plan members. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the benefits. The projection of benefits for financial reporting purposes does not incorporate the potential effects of legal funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The following table presents the significant methods and assumptions for all plans.

	<b>Significant Methods and Actuarial Assumptions</b>				
	<b>Retiree Healthcare Plan</b>	<b>Long-Term Disability Plan</b>			<b>Retiree Life Insurance Plan</b>
	<b>Healthcare</b>	<b>Life</b>	<b>Insurance</b>	<b>Income</b>	
	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit

	7/1/2008	\$0	\$599	\$599	0.0%	\$84,670	0.71%
	7/1/2010	\$0	\$558	\$558	0.0%	\$83,360	0.67%
Retiree Life Insurance	7/1/2006	\$0	\$8,587	\$8,587	0.0%	\$86,470	9.93%
	7/1/2008	\$0	\$9,753	\$9,753	0.0%	\$84,670	11.52%
	7/1/2010	\$0	\$11,362	\$11,362	0.0%	\$83,360	13.63%

Effective July 1, 2009, legislative changes to the Retiree Healthcare Plan regarding eligibility stipulate that an officer or employee must be an active employee on or before June 30, 2009, and retire directly from State service; the maximum benefit is \$1,860 per retiree per year. Additionally, any retiree will remain eligible until they are eligible for Medicare. Beginning January 1, 2010, coverage was not available to Medicare-eligible retirees or their Medicare-eligible dependents.

**Schedule of Employer Contributions** (*dollars in thousands*):

OPEB Plan	Fiscal Year Ended	Annual Required Contribution (ARC)	Actual Contributions	Actual Contributions as Percentage of ARC
Life Insurance	06/30/09	\$832	\$207	24.88%
	06/30/10	\$862	\$223	25.87%
	06/30/11	\$875	\$148	16.91%

## **12. CONTINGENCIES AND LEGAL MATTERS**

Revenue from federal research and service grants includes amounts for the recovery of overhead and other costs allocated to these projects. The University may be required to make refunds of amounts received for overhead and other costs reimbursed as a result of audits by agencies of the federal government. University officials are of the opinion that the effect of these refunds, if any, will not have a significant effect on the financial position of the University.

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University's administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

## **13. RISK MANAGEMENT**

The University participates in the State of Idaho Risk Management Program, which manages property and general liability risk. That program provides liability (cap) protection to \$500,000 per occurrence. Insurance premium payments are made to the state risk management program based on rates determined by a state agency's loss trend experience and asset value covered. Presently, Idaho State University's total insured property value is \$823,569,521.

The University obtains worker's compensation coverage from the Idaho State Insurance Fund. The University's worker's compensation premiums are based on its payroll, its own loss experience, as well as that of the State of Idaho as a whole.

The University carries commercial insurance for other risks of loss, including but not limited to employee bonds and crime, out of state worker's compensation, business interruption, media liability and automobile physical damage insurance.

## **14. COMPONENT UNIT DISCLOSURE**

The Foundation is discretely presented within the financial statements as a component unit.

The Foundation has adopted a policy of preparing its financial statements based upon generally accepted accounting principles in accordance with standards issued by the Financial Accounting Standards Board. The information disclosed hereafter is related to Foundation items that are determined to be significant to the reporting entity as a whole, but is not wholly inclusive. Separate, audited financial statements are prepared for the Foundation and may be obtained in their entirety by contacting the Idaho State University Foundation, 921 S. 8th Ave, Stop 8050, Pocatello, ID 83209-8050.

### ***Foundation Operations***

The Foundation was established in March 1967 to provide support for the private fundraising efforts of the University and to manage privately donated funds. The Foundation is a not-for-profit corporation incorporated in accordance with the laws of the State of Idaho and managed by a volunteer Board of Trustees. Under the Idaho State Board of Education's administrative rules, the Foundation must be independent of, and cannot be controlled by, the University. A memorandum of understanding between the Foundation and the University defines the relationship between the two entities in accordance to the State Board of Education's rules.

### ***Basis of Accounting***

The Foundation financial statements included in this report have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, whereby revenue is recorded when earned and expenses are recorded when materials or services are received. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed stipulations that will be met either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently Restricted Net Assets – Net assets that are subject to donor-imposed restrictions that they be maintained permanently by the Foundation.

### ***Investments***

Investments are recorded in accordance with FASB Accounting Standards Codification Topic (ASC) ASC 958-320 *Investments – Debt and Equity Securities Held by Not-for-Profit Organizations*. Investments in equity and debt securities that have readily determinable fair values are recorded at quoted market prices. Investment securities without quoted market prices are valued at estimated fair value using appropriate valuation methods that consider the underlying assets and financial reports.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect account balances and the amounts reported in the accompanying financial statements.

### ***Pledges Receivable***

Unconditional promises to give (pledges) are recognized as an asset and contribution revenue in the period the promise is received. Pledges to be received after one year are discounted at rates commensurate with risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any.

### ***Obligations under Split Interest Agreements***

The Foundation administers such life income agreements as charitable remainder trusts where an income beneficiary is the lifetime recipient of income and the Foundation is the remainder beneficiary. Upon receipt of the gift, a liability is established for the estimated net present value of the lifetime recipient's interest using applicable mortality tables and a discount rate commensurate with the risks involved. A contribution is recognized for the estimated remainder interest.

### ***Fair Value Measurements***

The Foundation has determined the fair value of certain assets and liabilities in accordance with the provisions of ASC 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles.

### ***Capitalized Bond Issuance Costs***

Capitalized bond issuance costs consist of legal costs, underwriting fees, printing and other costs incurred to obtain, secure and rate the multi-mode variable rate revenue bonds issued for the construction of the L.E. and Thelma Stephens Performing Arts Center on May 30, 2001. The issuance costs for the bonds have an original cost of \$570,000 at May 30, 2001, and are amortized over the term of the bonds, using the effective interest rate method. Accumulated amortization of these bond costs at the end of June 30, 2011 and 2010 were \$404,846 and \$381,055, respectively.

### ***Fair Value of Assets and Liabilities***

The fair value option was chosen to measure pledges and annuities in order to mitigate volatility in reported changes in net assets. Assets and liabilities measured at fair value on a recurring basis at June 30, 2011 and 2010 are shown below.

	<u>2011</u>	<u>2010</u>
Investment securities		
Mutual funds	\$ 2,079,143	\$ 1,591,289
Fixed income investments	264,451	285,023
Co-mingled and pooled marketable investment funds	36,591,760	34,419,059
Hedge Funds	<u>2,115,646</u>	<u>1,462,350</u>
Total assets	<u>\$41,051,000</u>	<u>\$37,757,721</u>

Assets and liabilities measured at fair value on a nonrecurring basis at June 30, 2011 and 2010 are as follows.

	<u>2011</u>	<u>2010</u>
Gift pledges receivable	\$ 44,458	\$ 3,768,157
Property held for sale and investments	<u>125,000</u>	<u>821,401</u>
Total assets	<u>\$ 169,458</u>	<u>\$ 4,589,558</u>

The related fair value of these assets and liabilities as of June 30, 2011, is determined as follows.

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Index fund	\$ 2,079,143	\$ -	\$ -	\$ 2,079,143
Fixed income investments	124,460	139,991	-	264,451
Co-mingled and pooled marketable investment funds	-	36,591,760	-	36,591,760
Hedge funds	-	-	2,115,646	2,115,646
	<u>\$ 2,203,603</u>	<u>\$ 36,731,751</u>	<u>\$ 2,115,646</u>	<u>\$ 41,051,000</u>

The related fair value of these assets and liabilities as of June 30, 2010, are determined as follows.

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Index fund	\$ 1,591,289	\$ -	\$ -	\$ 1,591,289
Fixed income investments	156,434	128,589	-	285,023
Co-mingled and pooled marketable investment funds	-	34,419,059	-	34,419,059
Hedge funds	-	-	1,462,350	1,462,350
	<u>\$ 1,747,723</u>	<u>\$ 34,547,648</u>	<u>\$ 1,462,350</u>	<u>\$ 37,757,721</u>

The fair value for mutual fund investments is determined based on quoted market prices. For fixed income investments, fair value is determined based on the value of the underlying investments. For co-mingled and pooled marketable investment funds, fair value is obtained by using the net asset value of the underlying investments. At this level, the underlying assets have a direct market reference price that is traceable. For hedge funds, fair value is determined with independent, third part valuations occurring monthly to every six months,

depending upon the investment type. Property held for sale and investments are valued based on property sold that had a similar use, size, and location as the property held by the Foundation. The value of pledges receivable is determined at the present value of expected future cash flows and is fair valued at the time of the gift. In subsequent years, the value is amortized over the life of the pledge.

Assets measured at fair value on a recurring and nonrecurring basis using significant unobservable inputs (level 3) for the year ended June 30, 2011, are shown below.

	<u>Hedge Funds</u>
Beginning balance	\$ 1,462,350
Total unrealized gains and losses included in earnings (or changes in net assets)	109,283
Calls	<u>544,013</u>
Ending balance	<u>\$ 2,115,646</u>

Assets measured at fair value on a recurring and nonrecurring basis using significant unobservable inputs (level 3) for the year ended June 30, 2010, are as follows.

	<u>Hedge Funds</u>
Beginning balance	\$ 2,438,978
Total unrealized gains and losses included in earnings (or changes in net assets)	(998,061)
Calls	<u>21,433</u>
Ending balance	<u>\$ 1,462,350</u>

## REPORT OF INDEPENDENT AUDITORS

The Idaho State Board of Education  
Idaho State University

We have audited the accompanying financial statements of Idaho State University (University) and the discretely presented component unit, Idaho State University Foundation (Foundation) as of and for the years ended June 30, 2012 and 2011, which collectively comprise the University's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the Foundation, a discretely presented component unit as described in Note 12. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for that component unit, is based solely on the report of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the University and its discretely presented component unit as of June 30, 2012 and 2011, and the changes in their financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

**REPORT OF INDEPENDENT AUDITORS**  
**(continued)**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 3 through 12 and certain information in Note 10, *Postemployment Benefits Other than Pension*, labeled as "required supplementary information" be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**IDAHO STATE UNIVERSITY**

**Management’s Discussion and Analysis  
For the fiscal year ended June 30, 2012**

---

***INTRODUCTION***

This Management’s Discussion and Analysis (MD&A) provides an overview of the financial position and activities of Idaho State University for the fiscal year ended June 30, 2012. It is intended to promote greater understanding of Idaho State University’s (ISU or the University) financial activities and position. The MD&A includes the University’s condensed and comparative statements, along with related graphs and charts. It should be read in conjunction with the financial statements and related footnote disclosures that follow the discussion. The financial statements, footnotes, and this discussion are the responsibility of management.

As a comprehensive public institution of higher learning, Idaho State University, located in Pocatello, Idaho, has served the citizens of the State since 1901, when it was first established as the Academy of Idaho. The University provides both general education and specialized programs in arts, humanities, sciences, the professions, and technologies and contributes to the State and nation through related research and public service programs. Idaho State University offers a diverse range of degree programs from baccalaureate to post-doctoral levels through the Colleges of Science and Engineering, Arts and Letters, Business, Education, Health Professions, Pharmacy, Technology, and the Graduate School. Through its programs in Health Professions, Pharmacy, the Family Practice Medical Residency, and the Idaho Dental Education Program, the University represents the primary higher educational institution for health professions in the state of Idaho.

***OVERVIEW***

The University’s financial statements have been prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management’s Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management’s Discussion and Analysis - for Public Colleges and Universities*.

The financial statements are comprised of the following components as explained briefly below.

**Independent Auditor’s Report** – Presents an unqualified opinion rendered by an independent certified public accounting firm as to the fairness (in all material respects) of the financial statements. The audit firm is selected and engaged by the Idaho State Board of Education.

**Statement of Net Assets** – The statement of net assets includes all assets and liabilities of the University. Assets and liabilities are generally reported at their book value, on an accrual basis, as of the statement date. This statement also identifies any major categories of restrictions on the net assets of the University.

**Statement of Revenues, Expenses, and Changes in Net Assets** – The statement of revenues, expenses, and changes in net assets presents the revenues earned and expenses incurred during the year on an accrual basis, categorized as operating and nonoperating.

**Statement of Cash Flows** – The statement of cash flows presents the inflows and outflows of cash for the year; summarized by operating, non-capital financing, capital and related financing, and investing activities.

**Notes to the Financial Statements** – The Notes provide important additional information that expands and clarifies the financial statement data.

**Component Unit** – The Idaho State University Foundation, Incorporated (the Foundation) is a key partner and contributor to the University’s educational mission and holds significant economic resources that benefit the University. It is the only affiliated organization that qualifies as a component unit of the University. Because the Foundation is a non-governmental entity, their financial statements are based upon reporting standards promulgated by the Financial Accounting Standards Board (FASB) and are audited by separate independent auditors. For purposes of this report, their financial information is presented on separate pages immediately following the corresponding university information.

***STATEMENT OF NET ASSETS***

The *Statement of Net Assets* reflects the financial position of the University at the end of the fiscal year. The difference between total assets and total liabilities represents net assets. Changes in net assets occur over time and are one indicator of the financial condition of the University. Net Assets are presented in

three major categories on the statement, each of which is described in more detail within the footnotes to the statements. A summary comparison of the assets, liabilities, and net assets for the years ended June 30, 2012, 2011, and 2010, is presented below.

**Schedule of Net Assets**

	<u>June 30, 2012</u>	<u>June 30, 2011</u>	<u>June 30, 2010</u>
<b>Assets:</b>			
Current Assets	\$ 106,830,059	\$ 94,971,188	\$ 80,612,923
Noncurrent Assets	<u>194,015,430</u>	<u>196,197,584</u>	<u>191,955,047</u>
<b>Total Assets</b>	<u>\$ 300,845,489</u>	<u>\$ 291,168,772</u>	<u>\$ 272,567,970</u>
<b>Liabilities:</b>			
Current Liabilities	\$ 31,045,698	\$ 28,439,127	\$ 27,585,649
Noncurrent Liabilities	<u>67,805,654</u>	<u>71,827,739</u>	<u>75,445,975</u>
<b>Total Liabilities</b>	<u>98,851,352</u>	<u>100,266,866</u>	<u>103,031,624</u>
<b>Net Assets:</b>			
Invested in capital assets, net of related debt	125,992,772	123,571,307	113,836,708
Restricted, expendable	5,554,894	6,558,524	8,479,940
Unrestricted	<u>70,446,471</u>	<u>60,772,075</u>	<u>47,219,698</u>
<b>Total Net Assets</b>	<u>201,994,137</u>	<u>190,901,906</u>	<u>169,536,346</u>
<b>Total Liabilities and Net Assets</b>	<u>\$ 300,845,489</u>	<u>\$ 291,168,772</u>	<u>\$ 272,567,970</u>

In 2012, the University's total unrestricted net assets increased by \$9.7 million over the prior year. This increase is largely due to an increase in cash of \$14.2 million, which was partially offset by a \$2.4 million decrease in student and various receivables. Net property, plant and equipment decreased \$2.1 million during the year with net fixed asset additions amounting to \$8.4 million. Among the additions were synthetic turf, an electron microscope, plus various other pieces of scientific equipment, some additions to construction in progress and building improvements. The cost of these additions was more than offset by a \$10.5 million increase in accumulated depreciation.

Also during the year, total liabilities decreased by \$1.4 million over 2011 balances due to a decrease in long-term debt of \$4.8 million, which was offset by an increase of \$2.6 million in short-term payables and an increase in other post-employment benefits payable of \$0.8 million.

The University's total net assets include investment in capital assets, net of related debt (increased \$2.4 million to \$126.0 million), restricted net assets (decreased \$1.0 million to \$5.6 million) and unrestricted net assets (increased \$9.7 million to a total of \$70.4 million). The decrease in restricted net assets was related to a decrease of funds restricted for the ERP system. Total net assets of the University at June 30, 2012 were \$202.0 million, an increase of 5.8% (\$11.1 million) over the prior year.

**REVENUES, EXPENSES, AND CHANGES IN NET ASSETS**

A comparative statement summarizing the University's revenues, expenses and changes in net assets for the years ended June 30, 2012, 2011, and 2010, is shown below.

**Summary Statement of Revenues, Expenses & Changes in Net Assets**

	<u>FY 2012</u>	<u>FY 2011</u>	<u>FY 2010</u>
Operating revenues			
Student tuition and fees (net of scholarship discounts and allowances)	\$ 72,360,828	\$ 62,525,361	\$ 57,721,128
Federal grants and contracts	9,661,792	13,653,117	14,166,811
State and local grants and contracts	10,982,493	9,786,215	9,813,602

Net assets - end of year	<u>\$ 201,994,137</u>	<u>\$ 190,901,906</u>	<u>\$ 169,536,346</u>

Operating revenues received by the University are the result of providing goods and services to the various customers and constituencies of the University. Student tuition and fees, as well as research grants and contracts, are prime examples of operating revenues. Nonoperating revenues are those monies received for which goods and services are not provided. For example, as a public institution, one of ISU's primary sources of revenue is appropriations provided by the state of Idaho, which, as directed by GASB standards, are classified as nonoperating revenue. As a result, the University's financial statements typically show an operating loss. A more comprehensive assessment of the operations of the University is reflected in the change in net assets at the end of the year.

Total revenues for the year ended June 30, 2012 were \$236.4 million, representing an increase of 0.8% from fiscal year 2011. Below is a graphic illustration of revenues by source (both operating and nonoperating) for the year ended June 30, 2012.

### Operating and Nonoperating Revenue

#### *Operating Revenue*

Tuition and fee revenue was up by 15.7%, or \$9.8 million, over the prior year for a total of \$72.4 million. The increase is due to a combination of a tuition increase of 7% and a favorable enrollment mix. Fiscal year 2012 showed a decrease in federal grants and contracts revenue over the prior year of \$4.0 million with part of that decrease reflecting the timing of awards closing and new ones beginning. The decrease in federal grant revenue was offset with increases in both our state and private grant revenues of \$1.2 million and \$2.7 million, respectively. In total, operating grant revenues in fiscal year 2012 were \$31.9 million compared to \$32.0 million in 2011. Sales and services revenue showed an increase of \$1.4 million to \$19.8 million for fiscal year 2012. This was due to increases in commissions from our food service concessionaire, housing rentals, NCAA payments and advertising sales. The 'other revenue' category also increased over the prior year from \$3.5 million in 2011 to \$5.0 million in 2012. The reason for this increase was a \$1.6 million repayment from the University's utility provider for overcharges that had occurred over several prior years.

***Nonoperating revenue***

The largest component of nonoperating revenue is State appropriations. In 2012, State funding decreased overall by \$7.2 million, or 8.7%, over the prior year. The largest decrease was in state appropriations for general education totaling \$61.6 million in 2011 and \$57.3 million in 2012, a 7.0% decrease amounting to \$4.3 million. Funding from the Department of Public Works (DPW) fluctuates from year to year depending on the number and extent of the building projects. During 2012, it decreased \$3.0 million from the prior year amount of \$7.4 million to \$4.4 million. State funds allocated for professional technical education increased by \$0.1 million. Another significant component of nonoperating revenue is federal Title IV grants. There was a \$1.7 million decrease in Title IV revenue from the prior year. This decrease was due to the federal government restricting Pell grant availability from summer tuition and the ACG and SMART grant programs closing.

Capital gift revenue decreased in fiscal year 2012 by \$1.1 million largely due to a decrease in capital DPW projects.

***Expenses***

Operating expenses represent the costs associated with providing goods and services to enable us to carry out the mission of the University.

Nonoperating expenses are generally those associated with interest on debt and the disposal loss of fixed assets.

**Summary Statement of Expenses**

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Operating			
Personnel costs	\$ 135,940,976	\$ 130,457,000	\$ 133,372,372
Services	27,513,868	23,073,330	21,246,038
Supplies	14,200,321	13,257,589	11,200,367
Insurance, utilities and rent	6,364,159	6,660,260	7,172,329
Scholarships and fellowships	20,885,766	20,084,127	20,067,882
Depreciation Expense	12,104,795	11,462,198	10,832,307
Other operating Expenses	5,025,236	4,730,185	3,933,243
Total operating expenses	<u>222,035,121</u>	<u>209,724,689</u>	<u>207,824,538</u>
Nonoperating			
Amortization of bond financing costs	60,954	60,954	60,953
Loss (gain) on disposal of fixed assets	10,243	85,946	(15,043)
Interest on capital asset related debt	3,177,831	3,355,101	3,507,755
Total nonoperating expenses	<u>\$ 3,249,028</u>	<u>\$ 3,502,001</u>	<u>\$ 3,553,665</u>

## Operating and Nonoperating Expenses

Nonoperating costs include interest on capital debt and bond amortization costs

Expenses in fiscal year 2012 increased by \$12.1 million, or 5.7%, over the prior year. The largest component of this increase is due to an increase in personnel costs of \$5.5 million. Additionally, expenses for services increased \$4.4 million over the prior year totaling \$27.5 million in 2012. Supplies expenses increased by \$0.9 million and scholarship expense increased by \$0.8 million over the prior year amount of \$20.1 million. The remaining expenses increased by \$0.5 million with the majority of that being an increase in depreciation.

## Expense Comparison

(\$ in Millions)

**CASH FLOWS**

The various sources of cash, along with their application and use, are presented in the *Statement of Cash Flows*. This analytical perspective is useful in assessing the ability of the University to satisfy its financial obligations as they come due. The statement classifies the flow of cash in the following four categories.

Operating activities - Displays the net cash flow required to conduct the day-to-day operating activities of the institution and reflects the continued need for funding from the state of Idaho.

Noncapital financing activities - Reflects the net cash flow of nonoperating transactions not related to investing or capital financing activities, and includes funds provided by state appropriations.

Capital and related financing activities - Includes payments for the acquisition of capital assets, proceeds from long-term debt, and debt repayment.

Investing activities – Details the funds involved in the purchase and sale of investments and reflects the change in rates of return on invested funds.

The statement summarizes the net cash flow and reconciles to the operating income or loss, as reflected on the *Statement of Revenues, Expenses and Changes in Net Assets*.

A summary of the *Statement of Cash Flows* for the year ended June 30, 2012 is presented below.

**Summary Statement of Cash Flows**

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Cash and cash equivalents (used in) or provided by:			
Operating activities	\$ (74,228,625)	\$ (77,316,030)	\$ (86,116,976)
Noncapital financing activities	103,483,406	107,537,874	105,911,573
Capital and related financing activities	(15,290,744)	(16,803,973)	(14,241,614)
Investing activities	<u>272,979</u>	<u>214,823</u>	<u>217,735</u>
Net increase (decrease) in cash	14,237,016	13,632,694	5,770,718
Cash and cash equivalents, beginning of year	<u>76,229,754</u>	<u>62,597,060</u>	<u>56,826,342</u>
Cash and cash equivalents, end of year	<u>\$ 90,466,770</u>	<u>\$ 76,229,754</u>	<u>\$ 62,597,060</u>

For purposes of the *Statement of Cash Flows*, the University considers all highly liquid investments with an original maturity of three months or less and all non-negotiable certificates of deposit to be cash equivalents.

## ***CAPITAL ASSET AND DEBT ACTIVITIES***

The University considers the effective management of the institution's physical resources as a fundamental element of its financial stewardship, including the prudent use of debt to finance such resources. The development and maintenance of our physical resources is a key factor in creating and sustaining a learning environment that permits education to flourish. Idaho State University's total capital assets before depreciation increased by \$8.4 million; from \$340.0 million in 2011 to \$348.4 million in 2012.

Total institutional long-term debt declined by \$4.8 million from \$66.4 million at June 30, 2011 to \$61.6 million at June 30, 2012. The University incurred no new long-term debt and continued to pay down existing debt according to the debt schedule detailed in the notes of this report.

## ***ECONOMIC OUTLOOK***

The financial position of Idaho State University is stable and improving, however, we are aware of the need to actively pursue other revenue streams and maintain cost controls. We also are cognizant of the fact that the economic recovery is not complete and that there continue to be many demands on limited federal and state resources. For instance, the continuing fires in the Northwest have greatly impacted finances in Idaho and the surrounding states.

The recent executive order for federal agencies to cut their budgets by ten percent is a cause for concern amongst states heavily dependent on federal grants to help fund their research and outreach activities. Higher education institutions, Idaho State University included, will likely be impacted by both the cut back in federal spending directly and by the reduction in federal awards administered by the state of Idaho.

Idaho State University is in a highly competitive student market in southeast Idaho and efforts to expand the recruiting range will require an investment of additional resources. Starting July 2012, federal financial aid will be more limited and a large segment of southeastern Idaho students will be impacted by the tightened eligibility requirements. The institution is considering how best to assist the students most affected by this change.

As part of the ongoing efforts to reduce costs whenever possible, in July, 2012, the University issued \$27,530,000 of Series 2012 revenue bonds. The proceeds of these bonds will be used to refund existing bonds when they become callable. The University took advantage of record low interest rates to save \$3.2 million in interest expense over the next eleven years. Moody's and Standard and Poors Rating

Services rated the bonds A and A1, respectively, both citing the University's stable financial position and debt coverage as part of the basis for their ratings.

The University proposed and received approval for a 4.7% tuition and fee increase for fiscal year 2013, the lowest increase for ISU in 16 years. It reflects a shared balance between faculty, staff, students, and other institutional needs in meeting the University's budget requirements. However, it is only one piece of several initiatives across all areas of the University. ISU is and remains extremely competitive in tuition and fees, even after the increase, which is essential in enabling the University to balance its budget and continue to provide quality educational opportunities to students.

The University is making a strong commitment toward improving the campus physical environment. A reduction in deferred maintenance is viewed as integral to achieving that objective. The University is underway towards creating and implementing a preventative maintenance plan to achieve the following goals: preserve taxpayers' investment in public buildings, help buildings function and operate at peak efficiency, including minimizing energy consumption, prevent building system failures that will cause interruption of occupants' activities and the delivery of public services, sustain a safe and healthful environment, and provide maintenance in ways that are cost-effective.

In light of the economic environment and aware of our responsibility to the citizenry of the state of Idaho, the University has pursued strategic initiatives that promote the health and welfare of our citizens. Using the University's mission as our guide, we will continue to find partnerships that will provide opportunities and innovation for Idaho and the nation.

Idaho State University has reinforced its financial position in order to protect its future against unforeseen economic impacts. Even though the economic environment is a challenging one, maintaining focus on our central mission has never been more critical as we face the future. Because of the national and global economic uncertainties, the University will continue to strive to increase enrollment, to grow research and to promote collaborations and partnerships with other agencies and institutions. Collaborations that build upon one another's strengths, to gain economies of scale and leverage shared knowledge in order to benefit the citizens of Idaho, the nation, the world and beyond.

*The audited financial statements included in this report, along with the accompanying notes to the financial statements, provide pertinent information and details related to the financial activities discussed in this analysis.*

An ISU researcher designed the portable linear accelerators the Idaho National Laboratory used to check the welds on NASA's newest Mars rover's nuclear power supply.

**IDAHO STATE UNIVERSITY**  
**Notes To Financial Statements**  
**Years Ended June 30, 2012 And 2011**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Idaho State University (the University) is part of the public system of higher education in the State of Idaho (the State). The system is considered part of the State of Idaho financial reporting entity. The State Board of Education (SBOE), appointed by the Governor and affirmed by the legislature, directs the system. The University is located in Pocatello, Idaho. Significant accounting policies are described below to enhance the usefulness of the financial statements to the reader.

**Reporting Entity** – The Idaho State University Foundation, Inc. (the Foundation) is considered a component unit of the University as defined by GASB Statement No 39; *Determining Whether Certain Organizations are Component Units*. As such, the Foundation is discretely presented for fiscal years ended June 30, 2012 and 2011. Additional detail and discussion related to the Foundation can be found in Note 12 of this report.

**Basis of Accounting** – For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The University has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with the GASB. The University has elected not to apply FASB pronouncements issued after the applicable date.

**Cash Equivalents** – The University considers all liquid investments with a remaining maturity of three months or less at the date of acquisition and all non-negotiable certificates of deposit to be cash equivalents.

**Cash with Treasurer** – Balances classified as Cash with Treasurer are amounts that are required to be remitted to the State of Idaho as a result of the student fee collection process and, once remitted, these balances are under the control of the State Treasurer. Interest accruing on the balance is maintained in a separate fund and must be appropriated by the legislature before any expenditure can occur.

**Student Loans Receivable** – Loans receivable from students bear interest at rates ranging from 3.00% to 7.00% and are generally payable to the University in installments over a 5 to 10 year period, commencing 6 or 9 months after the date of separation from the University.

**Accounts Receivable** – Accounts receivable consist of fees charged to students as well as auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Idaho. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

**Property, Plant and Equipment** – Capital assets are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at date of the gift. The University’s capitalization policy includes all items with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 12 to 25 years for land improvements, 10 years for library books, and 5 to 13 years for equipment.

In fiscal year 2010, in accordance with the requirements and definitions of GASB No. 51, *Accounting and Financial Reporting for Intangible Assets*, the University adopted a policy of capitalizing any intangible assets \$200,000 or greater in value that have

an expected useful life of three years or longer. The University adopted this policy in compliance with the State of Idaho guidelines related to the implementation requirements of GASB No. 51.

The University houses collections at the Idaho Museum of Natural History that it does not capitalize. These collections adhere to the University’s policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. The University charges these collections to operations at the time of purchase, in accordance with generally accepted accounting principles.

**Deferred Revenues** – Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year, but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

**Compensated Absences** – Employee vacation pay that is earned but unused is accrued at year-end for financial statement purposes. Amounts included in accrued salaries and benefits payable in the statement of net assets are \$4,791,459 and \$4,288,645 at June 30, 2012 and 2011, respectively.

**Noncurrent Liabilities** – Noncurrent liabilities include the principal portions of revenue bonds payable, notes payable with contractual maturities greater than one year, and other post-employment benefits payable.

**Net Assets** – The University’s net assets are classified as follows.

*Invested in Capital Assets, Net of Related Debt* – This represents the University’s total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent

debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

*Restricted, Expendable* – Restricted expendable net assets include resources which the University is legally or contractually obligated to use in accordance with restrictions imposed by external third parties.

*Unrestricted* – Unrestricted net assets represent resources derived from student fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions related to the educational and general operations of the University, and may be used at the discretion of the institution to meet current expenses for any lawful purpose and in accordance with SBOE policy.

***Income and Unrelated Business Income Taxes*** – The University, as a political subdivision of the State of Idaho, is excluded from Federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. The University is liable for tax on its unrelated business income. Defined by the Internal Revenue Code, unrelated business income is income from a trade or business, regularly carried on, that is not substantially related to the performance by the organization of its exempt purpose or function. The University did not incur unrelated business income tax expense in the fiscal years ended June 30, 2012 or 2011.

***Classification of Revenues*** – The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

*Operating Revenues* – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student fees net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

*Nonoperating Revenues* – Nonoperating revenues include activities that have the characteristics of non-exchange transactions such as gifts and contributions, and other revenue resources defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

***Scholarship Discounts and Allowances*** – Student fee revenues are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount paid by students or other third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants and other federal, state, or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy student fees and related charges, the University has recorded a scholarship discount and allowance.

**Use of Accounting Estimates** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements, and revenues and expenses during the year. Actual results could differ from those estimates.

**New Accounting Standards** – The University will be required to implement the provisions of GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*. This statement provides accounting and financial reporting guidance for service concession arrangements. The requirements of this statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the full impact this standard will have on the University’s financial statements.

The University will be required to implement the provisions of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - and amendment of GASB Statements No. 14 and No. 34*. The University will be required to address modifications to certain requirements for inclusion of component units in the financial reporting entity. The requirements of this statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the full impact this standard will have on the University’s financial statements.

The University will be required to implement the provisions of GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989, FASB and AICPA Pronouncements*. The University will be required to address certain FASB Statements and interpretations, APB opinions, and Accounting Research Bulletins of the AICPA Committee on Accounting Procedure that this standard incorporates into GASB literature. The requirements of this statement are effective for the fiscal year ending June 30, 2013. Management has not yet determined the impact these standards will have on the University’s financial statements.

The University will be required to implement the provisions of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, effective with the fiscal year ending June 30, 2013. This Statement defines deferred outflows and inflows of resources as elements of consuming or acquiring net assets by the University that is applicable to a future reporting period. The standard also incorporates deferred outflows or inflows of resources into the definition of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The University has not yet determined the full impact of this standard on its financial statements.

**Reclassification** – Certain amounts reported in the June 30, 2011 financial statements have been reclassified to conform to the June 30, 2012 financial statement presentation.

**2. CASH WITH TREASURER, CASH AND CASH EQUIVALENTS, AND OTHER DEPOSITS**

Cash with treasurer is under the control of the Idaho State Treasurer and is carried at cost. The University's deposits are maintained in commercial checking accounts which, as of June 30, 2012 and 2011, have unlimited coverage through the Federal Deposit Insurance Corporation (FDIC) under the Temporary Liquidity Guarantee Program, which provides full deposit insurance coverage for non-interest bearing deposit transaction accounts in institutions insured by the FDIC, regardless of dollar amount. After all debit and credit transactions have posted at the end of each business day, excess balances are automatically moved to the Automated Repurchase Investment Sweep account for overnight investment at competitive market rates to maximize the use of idle funds, including the cash float from outstanding checks. The investments in the sweep account consist of direct obligations or those that are fully guaranteed as to the principal and interest by the U.S. Government or its agencies and are collateralized at 100% of market value. At June 30, 2012 and June 30, 2011, total deposits consisted of the following:

	<u>2012</u>	<u>2011</u>
Cash	\$ 1,910,532	\$ 596,717
Non-negotiable certificates of deposit	-	749,293
Obligations of the U.S. Government and its agencies	50,890,000	47,850,000
Cash equity with the State Treasurer	<u>39,110,297</u>	<u>29,760,707</u>
Total deposits	<u>\$ 91,910,829</u>	<u>\$ 78,956,717</u>

There were no deposit amounts subject to custodial credit risk at June 30, 2012 and June 30, 2011.

At June 30, 2012 and June 30, 2011, the University had \$93,943 and \$100,997, respectively, of cash on hand in various change funds. The carrying amount of the University's cash and cash equivalents at June 30, 2012 and June 30, 2011, was \$90,466,770 and \$76,229,754, respectively. The net difference between deposits and the carrying amount of cash and cash equivalents is primarily a reflection of investment of the daily float.

**3. ACCOUNTS RECEIVABLE AND DUE FROM STATE AGENCIES**

Accounts receivable and due from state agencies consisted of the following at June 30:

	<u>2012</u>	<u>2011</u>
Accounts receivable	\$ 13,037,982	\$ 14,568,082
Due from state agencies	<u>3,735,585</u>	<u>4,048,548</u>
	16,773,567	18,616,630
Less allowance for doubtful accounts	<u>(1,683,543)</u>	<u>(1,358,432)</u>
Net accounts receivable and Due from state agencies	<u>\$ 15,090,024</u>	<u>\$ 17,258,198</u>

#### 4. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the Program) comprise substantially all of the loans receivable at June 30, 2012 and 2011. Under this Program, the federal government provides approximately 75% of the funding for the Program, with the University providing the balance. The program provides cancellation provisions for borrowers engaging in teaching, public service, service in the military or law enforcement, as well as other disciplines. The Department of Education reimburses the University each year for the principal and interest canceled in its Perkins Loan Fund for all of the cancellation provisions except death, total and permanent disability, and bankruptcy. The University must deposit this reimbursement into its Perkins loan fund. In the event the University should withdraw from the Federal Perkins Loan Program or the government were to cancel the Program, the amount the University would be liable for as of June 30, 2012 and 2011, is \$1,989,605 and \$1,989,979, respectively.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2012 and 2011, the allowance for uncollectible loans was approximately \$535,112 and \$504,502, respectively.

In the spring of 2007, the University began participation in the Nursing Faculty Loan Program (NFLP), a federal loan program authorized under Title VIII of the Public Health Service Act, to increase the number of qualified nursing faculty. In the event the University should withdraw from the NFLP Program, or the government was to cancel the Program, the amount the University would be liable for as of June 30, 2012 and 2011, is \$12,870 and \$21,801. Loans receivable from students bear interest at rates ranging from 5.00% to 10.00% and are generally repayable in installments to the University over a 5 to 10 year period commencing 3 to 9 months after the date of separation from the University.

**5. PROPERTY, PLANT AND EQUIPMENT**

Following are the changes in property, plant and equipment for the years ended June 30:

	2011			2012			
	Balance at June 30, 2010	Additions	Transfers & Retirements	Balance at June 30, 2011	Additions	Transfers & Retirements	Balance at June 30, 2012

The Performing Arts Center was constructed by the Foundation with contributions and the proceeds from the Foundation's Multi-Mode Variable Rate Revenue Bond, issued in 2001. The facility was constructed on land leased by the Foundation from the University for \$1 a year for a 20 year term. The land and improvements were, in turn, leased back to the University for \$1 a year for 20 years, with a provision that title to the improvements transfers to the University at the earlier of the end of the lease or retirement of the bonds. A security interest in the land and improvements is held through a Deed of Trust issued by the Foundation to Wells Fargo Bank, N.A. The excess of the fair value of the improvements

(i.e., cost) over the gross rents payable by the University were recorded as an asset of the University in recognition of the permanent transfer of rights of use to the University for only nominal consideration.

In addition to accounts payable for construction in progress, the estimated cost to complete property authorized or under construction at June 30, 2012, is approximately \$1,719,205. These costs will be financed by available resources of Idaho State University.

**6. DEFERRED REVENUE**

Deferred revenue consists of the following at June 30:

	<u>2012</u>	<u>2011</u>
Student Fees	\$ 3,045,634	\$ 2,987,975
Auxiliary enterprises	59,090	316,723
Grants and contracts	2,188,833	1,974,067
Other ticket sales	69,283	21,959
	<u>\$ 5,362,840</u>	<u>\$ 5,300,724</u>

**7. NONCURRENT LIABILITIES**

Notes and bonds payable at June 30 consisted of the following:

Description	Balance Outstanding 6/30/2010	Additions	Reductions	Balance Outstanding 6/30/2011	Additions	Reductions	Balance Outstanding 6/30/2012	Amounts Due Within One Year
Note payable to a bank, due in annual amounts varying from a maximum of \$11,200 to \$8,082 plus interest of 8.5% through 08/01/2011	\$ 19,986	\$ -	\$ (9,514)	\$ 10,472	\$ -	\$ (10,472)	\$ -	\$ -
Note payable to a financial institution due in semi-annual installments varying from a maximum of \$2,993,916 to \$16,696 plus interest of 5.08% through 09/01/2016	5,594,988	-	(699,547)	4,895,441	-	(846,934)	4,048,507	895,567
Student Facilities Fee Revenue Bonds, Series 1998, (original balance of \$12,400,000), consisting of serial and term bonds (either directly or through sinking funds) in annual amounts increasing periodically from \$585,000 to a maximum of \$920,000, plus interest from 4.875% to 5.00% through the year 2022. All bonds are collateralized by certain student fees and other revenues.	6,665,000	-	(800,000)	5,865,000	-	(835,000)	5,030,000	880,000
General Refunding and Improvement Revenue Bonds, Series 2003 (original balance of \$35,895,000), consisting of serial bonds payable in annual amounts increasing periodically from \$715,000 to a maximum of \$3,115,000, plus interest from 3.00% to 5.00% through the year 2023. All bonds are collateralized by certain student fees and other revenues.	28,465,000	-	(1,385,000)	27,080,000	-	(1,450,000)	25,630,000	1,520,000
General Revenue Bonds, Series 2004A (original balance of \$4,980,000), consisting of serial bonds payable in annual amounts increasing periodically from \$210,000 to a maximum of \$375,000, plus interest from 2.00% to 4.375% through the year 2023. All bonds are collateralized by certain student fees and other revenues.	3,890,000	-	(235,000)	3,655,000	-	(245,000)	3,410,000	255,000
General Revenue Bonds, Series 2004B (original balance of \$3,305,000), consisting of serial and term bonds payable in annual amounts increasing periodically from \$55,000 commencing in 2022 to a maximum of \$345,000, plus interest from 4.50% to 4.75% through the year 2034. All bonds are collateralized by certain student fees and other revenues.	3,305,000	-	-	3,305,000	-	-	3,305,000	-
General Revenue Bonds, Series 2004C (original balance of \$2,305,000), consisting of term bonds payable in annual amounts increasing periodically from \$95,000 to a maximum of \$190,000, plus interest of 4.88% through the year 2022. All bonds are collateralized by certain student fees and other revenues.	1,800,000	-	(115,000)	1,685,000	-	(125,000)	1,560,000	130,000
General Revenue Bonds, Series 2006 (original balance of \$10,000,000), consisting of term bonds payable in annual amounts increasing periodically from \$320,000 to a maximum of \$805,000, plus interest of 5.26% through the year 2028. All bonds are collateralized by certain student fees and other revenues.	9,680,000	-	(335,000)	9,345,000	-	(355,000)	8,990,000	370,000
General Revenue Bonds, Series 2007 (original balance of \$16,120,000), consisting of term bonds payable in annual amounts increasing periodically from \$270,000 to a maximum of \$1,055,000, plus interest from 3.90% to 5.00% through the year 2032. All bonds are collateralized by certain student fees and other revenues.	14,850,000	-	(530,000)	14,320,000	-	(555,000)	13,765,000	575,000
	74,269,974	-	(4,109,061)	70,160,913	-	(4,422,406)	65,738,507	4,625,567
Premium on bonds	1,074,390	-	(199,889)	874,501	-	(174,575)	699,926	-
Discount on bonds	(242,328)	19,058	-	(223,270)	19,058	-	(204,212)	-
Totals	\$ 75,102,036	\$ 19,058	\$ (4,308,950)	\$ 70,812,144	\$ 19,058	\$ (4,596,981)	\$ 66,234,221	\$ 4,625,567

There are a number of limitations and restrictions contained in the various bond indentures. Management believes there were no conditions of noncompliance with any terms or debt covenants.

Principal and interest maturities on notes and bonds payable in future periods for the year ending June 30, 2012, are as follows:

	Bonds		Notes	
	Principal	Interest	Principal	Interest
2013	\$ 3,730,000	\$ 2,956,920	\$ 895,567	\$ 194,433
2014	3,905,000	2,777,994	941,638	148,361
2015	3,990,000	2,592,724	924,257	100,743
2016	4,185,000	2,401,616	946,488	53,512
2017	4,380,000	2,201,070	340,557	8,650
2018-2022	23,695,000	7,659,873	-	-
2023-2027	12,940,000	2,729,206	-	-
2028-2032	4,195,000	690,399	-	-
2033-2034	670,000	48,213	-	-
	<u>\$ 61,690,000</u>	<u>\$ 24,058,015</u>	<u>\$ 4,048,507</u>	<u>\$ 505,699</u>

**Pledged Revenue**—As disclosed, the University currently has two bond issues outstanding: the Student Facilities Fee Revenue Bond (Series 1998) and the General Refunding and Improvement Revenue Bonds, which were issued pursuant to a Resolution adopted by the State Board of Education on September 17, 1992, providing for the issuance of revenue bonds (the “Original Resolution”). The Original Resolution provided for the issuance of an initial series of facility revenue bonds and authorized the issuance of additional series of revenue bonds pursuant to Supplemental Resolutions.

Currently outstanding issuances are Series 2003, 2004A, 2004B, 2004C, 2006, and 2007. The University has pledged certain revenues as collateral for these bonds. The pledged revenue amounts as of June 30 are as follows:

Pledged Revenues	2012		
	Student Facility Fee Revenue Bonds		
	Series 1998	Series 2003, 2004C, 2004A, 2004B, 2006 and 2007	Total
Matriculation fee	\$ -	\$ 49,177,627	\$ 49,177,627
Student facilities fee	3,725,203	485,143	4,210,346
Revenue of student housing system	-	5,709,462	5,709,462
CAES lease payment	-	850,104	850,104
	<u>\$ 3,725,203</u>	<u>\$ 56,222,336</u>	<u>\$ 59,947,539</u>
Debt Service	\$ 1,128,630	\$ 5,558,290	\$ 6,686,920
Debt service coverage	330%	1012%	896%
Coverage requirement	110%	110%	110%

2011			
Student Facility Fee Revenue Bonds			
Pledged Revenues	Series 1998	Series 2003, 2004C, 2004A, 2004B, 2006 and 2007	Total
Matriculation fee	\$ -	\$ 42,600,426	\$ 42,600,426
Student facilities fee	3,706,507	482,708	4,189,215
Revenue of student housing system	-	5,104,221	5,104,221
CAES lease payment	-	850,104	850,104
	<u>\$ 3,706,507</u>	<u>\$ 49,037,459</u>	<u>\$ 52,743,966</u>
Debt Service	<u>\$ 1,123,710</u>	<u>\$ 5,566,338</u>	<u>\$ 6,690,048</u>
Debt service coverage	330%	881%	788%
Coverage requirement	110%	110%	110%

As indicated, the Student Facilities Fee is pledged for Series 1998, Series 2003, Series 2004A, Series 2004B, Series 2004C, Series 2006, and Series 2007 bonds. The Revenue of the Housing System is pledged for the Series 2003 bond and the Center for Advanced Energy Studies (CAES) lease payments are pledged for Series 2006 bonds.

## 8. ACCOUNTING FOR LEASES

The University is a lessor under a ground lease agreement with Portneuf Medical Center (lessee). The lease is for 20 years, expiring on August 11, 2012, with a renewal option for an additional 20 years, exercisable in the final year of the original lease term. The lease allows for the construction of a sports medicine facility (the Facility) on the premises, which was completed in September 1994. The lessee pays rent of \$1 per year for the ground lease, payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution.

The University leases a weight/training room and associated common areas from Portneuf Medical Center (lessor). The lease term is 20 years, with a renewal option for an additional 20 years, exercisable if the lessor exercises its option to renew, as provided in the ground lease agreement. Rent for the weight/training room portion of the lease is \$1 per year. Rent for shared use of the common areas is \$14,000 per year. Rents for the initial term and optional lease term are payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution. Upon expiration of the lease term, the Facility shall become the property of the University.

ISU leases building and office facilities under various non-cancelable operating leases. Total costs for such leases were \$444,101 and \$306,017 for the years ended June 30, 2012 and 2011, respectively.

Future minimum lease payments at June 30, 2012 for all leases are as follows:

<u>Fiscal Years</u>	<u>Payments</u>
2013	\$ 380,534
2014	263,404
2015	87,938
2016	69,947
2017	4,900
Totals	<u>\$ 806,723</u>

In 2006, Idaho State University (lessor) entered into a lease agreement with Battelle Energy Alliance, LLC (lessee) for facilities located in the CAES facility. The lease commenced September 2009, and extends through March 5, 2028.

Future minimum rental income on this operating lease is as follows:

<u>Fiscal Years</u>	
2013	\$ 850,104
2014	850,104
2015	850,104
2016	850,104
2017	850,104
2018-2028	<u>9,138,618</u>
Totals	<u>\$ 13,389,138</u>

Battelle Energy Alliance, LLC makes all lease payments directly to the trustee. Rental income is restricted and is to be used solely for debt service on the 2006 Revenue bonds; the proceeds were used to construct the facility. As of June 30, 2012, the book value of the building is \$16,473,708, which is net of accumulated depreciation in the amount of \$1,227,141.

## 9. RETIREMENT PLANS AND TERMINATION PAYMENTS

**Public Employee Retirement System of Idaho** – The Public Employee Retirement System of Idaho (“PERSI”), a cost-sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The plan provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with

PERSI. The benefits and obligations to contribute to the plan were established, and may be amended by, the Idaho State Legislature. Financial reports for the plan are available from PERSI's website at [www.persi.idaho.gov](http://www.persi.idaho.gov).

After 60 months of credited service, members become fully vested in retirement benefits earned to date and receive a lifetime benefit at retirement. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.00% of the average monthly salary for the highest consecutive 42 months.

Contributions for the three years ended June 30 are as follows:

	2012	2011	2010
University contributions required and paid	\$ 2,544,195	\$ 2,565,255	\$ 2,666,184
Employee contributions	1,525,532	1,538,160	1,597,805
Total contributions	<u>\$ 4,069,727</u>	<u>\$ 4,103,415</u>	<u>\$ 4,263,989</u>
University required contribution rate	10.39%	10.39%	10.39%
Employee contribution rate	6.23%	6.23%	6.23%

**Optional Retirement Plan** – Effective July 1, 1990, the Idaho State Legislature authorized the Idaho State Board of Education to establish an Optional Retirement Plan (ORP), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of the total payroll. Employer contributions are determined by the State of Idaho. The plan provisions were established by, and may be amended by, the State of Idaho.

New faculty and exempt employees hired on or after July 1, 1990, automatically enroll in the ORP and select a vendor option. Faculty and exempt employees hired before July 1, 1990, had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options in the ORP include the *Teachers Insurance and Annuity Association - College Retirement Equities Fund* and the *Variable Annuity Life Insurance Company*.

Participants are immediately fully vested in the ORP. Retirement benefits are available as either a lump sum or any portion thereof upon attaining 55 years of age.

Contributions required and paid are as follows:

	2012	2011	2010
University contributions required and paid	\$ 5,667,518	\$ 5,430,019	\$ 5,463,978
Employee contributions	4,261,345	4,082,768	4,108,157
Total Contribution	<u>\$ 9,928,863</u>	<u>\$ 9,512,787</u>	<u>\$ 9,572,135</u>
University required contribution rate	9.27%	9.27%	9.27%
Employee contribution rate	6.97%	6.97%	6.97%

Although enrollees in the ORP no longer belong to PERSI, the University is required to contribute a percentage of the annual covered payroll to PERSI. Effective July 1, 2007, the percentage was changed from 3.03% to 1.49%, allowing the difference of 1.54% to be used to increase the University's contribution to ORP retirement accounts. In addition, the payoff period of the unfunded liability obligation was extended from July 1, 2015, to July 1, 2025. During the years ended June 30, 2012 and 2011, supplemental funding payments to PERSI were \$912,212 and \$874,510 respectively. These amounts are not included in the regular University PERSI contribution discussed previously.

**Termination Payments** – Employees who qualify for retirement under PERSI or ORP are eligible to use 50% of the cash value of their unused sick leave to continue their medical insurance coverage through the University. The University partially funds these obligations by depositing 0.65% of employee gross payroll to PERSI, who administers the plan for all participating ISU employees and retirees under a trust fund. The total contributions for the years ended June 30, 2012 and 2011 were \$546,323 and \$541,976, respectively.

## 10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

### *Summary of Plans*

The University participates in other postemployment benefit plans relating to health and disability administered by the State of Idaho as agent multiple-employer defined benefit plans. The life insurance benefit is a single-employer defined benefit plan. Idaho Code, Sections 67-5760 to 67-5767 and 72-1335, establish the benefits and contribution obligations. Each of these benefits is provided by the University to retired or disabled employees. The most recent actuarial valuation is as of June 30, 2010. The University has not set aside any assets to pay future benefits; the University funds these benefits on a pay-as-you-go basis. Details of the plans can be found in the Comprehensive Annual Report of the State of Idaho, which may be obtained as follows:

Office of the Idaho State Controller  
700 W State Street, 4<sup>th</sup> Floor

### *Plan Descriptions and Funding Policy*

**Retiree Healthcare Plan** – A retired employee of the University who is eligible to retire under the Public Employee Retirement System of Idaho (PERSI) may elect to purchase the retiree health insurance coverage for themselves and eligible dependents. Employees must enroll within 60 days of the date of their retirement. Additionally, the unreduced PERSI monthly benefit at the time of retirement must meet or exceed the monthly cost of single retiree health insurance coverage, or employees must have 10 or more years (20,800 or more hours) of credited state service. An employee must have been an active employee on or before June 30, 2009, and must retire directly

from State service. Coverage is not available to Medicare-eligible retirees or their Medicare-eligible dependents. Retirees eligible for medical health insurance pay the majority of the premium cost; however, the retiree plan costs are subsidized by the active employee plan. The maximum benefit is \$1,860 per retiree per year. The University contributed \$8.00 per active employee per month towards the retiree premium cost.

**Long-Term Disability Plan** – Disabled employees are defined as being unable to perform each of the substantial and material duties of the job for which they were hired and unable to earn more than 70% of their monthly salary for the first 30 months of disability. If, after 30 months, the employee is unable to perform any job for which they are reasonably qualified by experience, education, or training, and unable to earn more than 60% of their monthly salary, the employee is considered totally disabled. To qualify for long-term disability benefits, the waiting period of the greater of 26 weeks of continuous total disability or the exhaustion of the employee’s accrued sick leave must be met.

The plan provides long-term disability income benefits to active employees who become disabled, generally up to a maximum age of 70. The gross benefit equals 60% of monthly pre-disability salary or \$4,000, whichever is less. The benefit does not increase with inflation and may be offset by other sources of income, such as Social Security, worker’s compensation, unemployment benefits, and certain retirement benefits. The State of Idaho is self-insured for employees who became disabled prior to July 1, 2003; the state pays 100% of the cost of this benefit. The amount of the contribution is based on active claims and the number of insured individuals.

Employees disabled after July 1, 2003, are insured by Principal Life Insurance Company and the obligation for the payment of benefits has been effectively transferred. The University pays 100% of the premium costs. The University’s contribution for the period was 0.318% of payroll in fiscal year 2012. This portion of the long-term disability income benefit is not included in the actuarial estimate.

For up to 30 months following the date of disability, an employee is entitled to continue healthcare coverage under the state plan. The University pays 100% of the University’s share of medical and dental premiums while the employee remains disabled. The employee is required to pay the normal active employee contribution for the plan and rate category in which the employee is enrolled. The University was not required to make a contribution in fiscal year 2012.

This plan also provides basic life insurance and dependent life coverage to disabled employees, generally up to a maximum age of 70. The life insurance benefit amount is generally 100% of annual salary, but not less than \$20,000. In addition, a \$2,000 life insurance benefit is provided for spouses, and a \$1,000 life insurance benefit is provided for dependent children. These benefits do not increase with inflation. The University pays 100% of the premiums; the contribution is actuarially determined based on actual claims experience.

**Retiree Life Insurance Plan** – This plan provides basic life insurance for certified retired employees. In general, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. Eligible retirees receive basic life insurance coverage equal to 100% of their annual salary at retirement. The University pays 100% of the cost of basic life insurance for eligible retirees. The University’s contribution for the period as a percent of payroll was 1.177% for retirees under 65 years of age, 0.0894% for retirees between the ages of 65 and 69, and 0.0600% for retirees over age 70.

**Annual OPEB Cost**

The Annual OPEB Cost (AOC) is actuarially determined based on the Annual Required Contribution (ARC) of the employer. The following tables illustrate the annual OPEB cost, the amount of the contributions made, the increase (decrease) in the net OPEB obligation (NOO), and the NOO (funding excess) for the years ended June 30, 2012 and 2011:

**Annual OPEB Cost and Net OPEB Obligation 2012**

**Actuarial Methods and Assumptions**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information,

contains multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Calculations are based on the types of benefits provided under the terms of the plan at the time of each valuation and on the pattern of sharing costs between the employer and plan members. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the benefits. The projection of benefits for financial reporting purposes does not incorporate the potential effects of legal funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The following table presents the significant methods and assumptions for all plans:

**Significant Methods and Actuarial Assumptions**

	<b>Retiree Healthcare Plan</b>	<b>Long-Term Disability Plan</b>			<b>Retiree Life Insurance Plan</b>
	<b>Projected Unit Credit</b>	<b>Healthcare Projected Unit Credit</b>	<b>Life Insurance Projected Unit Credit</b>	<b>Income Projected Unit Credit</b>	<b>Projected Unit Credit</b>

	7/1/2008	\$ -	\$ 599,000	\$ 599,000	0.0%	\$84,670,000	0.71%
	7/1/2010	\$ -	\$ 558,000	\$ 558,000	0.0%	\$83,360,000	0.67%
Retiree Life Insurance	7/1/2006	\$ -	\$ 8,587,000	\$ 8,587,000	0.0%	\$86,470,000	9.93%
	7/1/2008	\$ -	\$ 9,753,000	\$ 9,753,000	0.0%	\$84,670,000	11.52%
	7/1/2010	\$ -	\$11,362,000	\$11,362,000	0.0%	\$83,360,000	13.63%

Effective July 1, 2009, legislative changes to the Retiree Healthcare Plan regarding eligibility stipulate that an officer or employee must be an active employee on or before June 30, 2009, and retire directly from State service; the maximum benefit is \$1,860 per retiree per year. Additionally, any retiree will remain eligible until they are eligible for Medicare. Beginning January 1, 2010, coverage was not available to Medicare-eligible retirees or their Medicare-eligible dependents.

**Schedule of Employer Contributions** (dollars in thousands):

OPEB Plan	Fiscal Year Ended	Annual Required Contribution (ARC)	Actual Contributions	Actual Contributions as Percentage of ARC
Life Insurance	06/30/10	\$ 881	\$ 223	25.31%
	06/30/11	\$ 913	\$ 148	16.21%
	06/30/12	\$ 917	\$ 139	15.16%

## 12. COMPONENT UNIT DISCLOSURE

The Foundation is discretely presented within the financial statements as a component unit.

The Foundation has adopted a policy of preparing its financial statements based upon generally accepted accounting principles in accordance with standards issued by the Financial Accounting Standards Board. The information disclosed hereafter is related to Foundation items that are determined to be significant to the reporting entity as a whole, but is not wholly inclusive. Separate, audited financial statements are prepared for the Foundation and may be obtained in their entirety by contacting the Idaho State University Foundation, 921 S. 8th Ave, Stop 8050, Pocatello, ID 83209-8050.

### *Foundation Operations*

The Foundation was established in March 1967 to provide support for the private fundraising efforts of the University and to manage privately donated funds. The Foundation is a not-for-profit corporation incorporated in accordance with the laws of the State of Idaho and managed by a volunteer Board of Trustees. Under the Idaho State Board of Education's administrative rules, the Foundation must be independent of, and cannot be controlled by, the University. A memorandum of understanding between the Foundation and the University defines the relationship between the two entities in accordance to the State Board of Education's rules.

### *Basis of Accounting*

The Foundation financial statements included in this report have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, whereby revenue is recorded when earned and expenses are recorded when materials or services are received. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets - Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed stipulations that will be met either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently Restricted Net Assets – Net assets that are subject to donor-imposed restrictions that they be maintained permanently by the Foundation.

### *Investments*

Investments are recorded in accordance with FASB Accounting Standards Codification Topic (ASC) ASC 958-320 *Investments – Debt and Equity Securities Held by Not-for-Profit Organizations*. Investments in equity and debt securities that have readily determinable fair values are recorded at quoted market prices. Investment securities without quoted market prices are valued at estimated fair value using appropriate valuation methods that consider the underlying assets and financial reports.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect account balances and the amounts reported in the accompanying financial statements.

***Pledges Receivable***

Unconditional promises to give (pledges) are recognized as an asset and contribution revenue in the period the promise is received. Pledges to be received after one year are discounted at rates commensurate with risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any.

***Obligations under Split Interest Agreements***

The Foundation administers such life income agreements as charitable remainder trusts where an income beneficiary is the lifetime recipient of income and the Foundation is the remainder beneficiary. Upon receipt of the gift, a liability is established for the estimated net present value of the lifetime recipient’s interest using applicable mortality tables and a discount rate commensurate with the risks involved. A contribution is recognized for the estimated remainder interest.

***Fair Value Measurements***

The Foundation has determined the fair value of certain assets and liabilities in accordance with the provisions of ASC 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles.

***Capitalized Bond Issuance Costs***

Capitalized bond issuance costs consist of legal costs, underwriting fees, printing and other costs incurred to obtain, secure and rate the multi-mode variable rate revenue bonds issued for the construction of the L.E. and Thelma Stephens Performing Arts Center on May 30, 2001. The issuance costs for the bonds have an original cost of \$570,000 at May 30, 2001, and are amortized over the term of the bonds, using the effective interest rate method. Accumulated amortization of these bond costs at the end of June 30, 2012 and 2011 were \$424,697 and \$404,846, respectively.

***Fair Value of Assets and Liabilities***

The fair value option was chosen to measure pledges and annuities in order to mitigate volatility in reported changes in net assets. Assets and liabilities measured at fair value on a recurring basis at June 30, 2012 and 2011 are shown below.

	<u>2012</u>	<u>2011</u>
Investment securities		
Mutual funds	\$ 2,191,933	\$ 2,079,143
Fixed income investments	222,024	264,451
Co-mingled and pooled marketable investment funds	34,441,074	36,591,760
Hedge Funds	<u>3,728,625</u>	<u>2,115,646</u>
Total assets	<u>\$40,583,656</u>	<u>\$41,051,000</u>

Assets and liabilities measured at fair value on a recurring basis at June 30, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Gift pledges receivable	\$ 1,729,004	\$ 44,458
Property held for sale and investments	<u>107,000</u>	<u>125,000</u>
Total assets	<u>\$ 1,836,004</u>	<u>\$ 169,458</u>

The related fair value of these assets and liabilities as of June 30, 2012, is determined as follows:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Index fund	\$ 2,191,933	\$ -	\$ -	\$ 2,191,933
Fixed income investments	50	145,898	76,076	222,024
Co-mingled and pooled marketable investment funds	-	34,441,074	-	34,441,074
Hedge funds	-	-	<u>3,728,625</u>	<u>3,728,625</u>
	<u>\$ 2,191,983</u>	<u>\$ 34,586,972</u>	<u>\$ 3,804,701</u>	<u>\$ 40,583,656</u>

The related fair value of these assets and liabilities as of June 30, 2011 are determined as follows:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Index fund	\$ 2,079,143	\$ -	\$ -	\$ 2,079,143
Fixed income investments	124,460	139,991	-	264,451
Co-mingled and pooled marketable investment funds	-	36,591,760	-	36,591,760
Hedge funds	-	-	2,115,646	2,115,646
	<u>\$ 2,203,603</u>	<u>\$ 36,731,751</u>	<u>\$ 2,115,646</u>	<u>\$ 41,051,000</u>

The fair value for mutual fund investments is determined based on quoted market prices. For fixed income investments, fair value is determined based on the value of the underlying investments. For co-mingled and pooled marketable investment funds, fair value is obtained by using the net asset value of the underlying investments. At this level, the underlying assets have a direct market reference price that is traceable. For hedge funds, fair value is determined with independent, third party valuations occurring monthly to every six months, depending upon the investment type. Property held for sale and investments are valued based on property sold that had a similar use, size, and location as the property held by the Foundation. The value of pledges receivable is determined at the present value of expected future cash flows and is fair valued at the time of the gift. In subsequent years, the value is amortized over the life of the pledge.

Assets measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended June 30, 2012, are shown below.

	<u>Hedge Funds</u>
Beginning balance	\$ 2,115,646
Total unrealized gains and losses included in earnings (or changes in net assets)	258,719
Calls	<u>1,354,260</u>
Ending balance	<u>\$ 3,728,625</u>

Assets measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended June 30, 2011, are as follows.

	<u>Hedge Funds</u>
Beginning balance	\$ 1,462,350
Total unrealized gains and losses included in earnings (or changes in net assets)	109,283
Calls	<u>544,013</u>
Ending balance	<u>\$ 2,115,646</u>

### **13. SUBSEQUENT EVENTS**

In July 2012, the Idaho State Board of Education approved the issuance of Series 2012 Bonds under a supplemental bond resolution adopted by the Board on June 21, 2012. The Series 2012 Bonds were delivered on July 12, 2012. The Series 2012 Bonds are being issued by the University to (i) refund certain outstanding bonds of the University to achieve debt service savings and (ii) pay the costs of issuance of the Series 2012 Bonds. The Series 2012 Bonds will be dated the date of their delivery and are issuable in fully registered form, book-entry-only, in the aggregate principal amount of \$27,530,000. The Series 2012 Bonds bear interest from the date of issuance of 2% to 4%, payable semiannually on April 1 and October 1 of each year, commencing October 1, 2012.

The Series 2012 Bonds are secured on a parity with the Outstanding Parity Bonds by a pledge of the Pledged Revenues, as designated by the Board, including the University's Tuition Fee, the Student Facilities Fee/Facilities, Revenues of the Housing System and CAES Base Rent, all investment income derived from the Revenue Fund and the Bond Fund, and proceeds from the sale of a series of bonds and money and investment earnings thereon.

The Series 2012 Bonds maturing on or prior to April 1, 2022 are not subject to redemption prior to maturity. The Series 2012 Bonds maturing on or after April 1, 2023 are subject to redemption prior to maturity at the option of the University in whole or in part on any date on and after April 1, 2022, and if in part, in such order of maturity as may be directed by the University at a redemption price equal to 100% of the principal amount of the Series 2012 Bonds to be redeemed plus accrued interest to the date of redemption.

A portion of the proceeds from the sale of the Series 2012 Bonds is being used to provide funds sufficient to refund certain outstanding bonds of the University to achieve debt service savings. The Supplemental Resolution provides for the current refunding of the remaining \$5,030,000 principal amount of the University's Student Facilities Fee Refunding and Improvement Revenue Bonds, Series 1998 which mature April 1, 2017 and April 1, 2022 (the "Series 1998 Refunded Bonds"). The Supplemental Resolution also provides for the advance refunding (i) of \$20,300,000 principal amount of the University's General Refunding and Improvement Revenue Bonds, Series 2003 (ii) of \$2,330,000 principal amount of the University's General Revenue Bonds, Series 2004A and (iii) of \$265,000 principal amount of the University's General Revenue Bonds, Series 2004B.

The university completed the advance refunding to reduce its total debt service payments over the next 10 years by \$3.5 million and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$3.2 million.

### **14. CONTINGENCIES AND LEGAL MATTERS**

Revenue from federal research and service grants includes amounts for the recovery of overhead and other costs allocated to these projects. The University may be required to make refunds of amounts received for overhead and other costs reimbursed as a result of audits by agencies of the federal government. University officials are of the opinion that the effect of these refunds, if any, will not have a significant effect on the financial position of the University.

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University's administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

In May, 2011, it was discovered that a server in one of the health clinics associated with the University and attached to the University's network had been compromised. The server contained the protected health information (PHI) of approximately 4,000 individuals. There is no evidence to suggest that this information was accessed. The University notified the Federal Health and Human Services' Office of Civil Rights (OCR) about the situation and OCR has done an investigation of the University's network security. As a result, the University has implemented or is in the process of implementing OCR's recommendations towards securing PHI information.

The potential penalties for HIPAA violations vary depending on knowledge of the breach, whether it was due to reasonable cause or whether it resulted from willful neglect. The fines that could be levied are tiered by severity (see The Health Information Technology for Economic and Clinical Health (HITECH) provisions of the American Recovery and Reinvestment Act of 2009 (ARRA).

“Tier 1: If person is not aware of the violation (and would not have known with reasonable diligence), the minimum penalty is \$100 per violation, to a maximum of \$25,000 for the calendar year.

Tier 2: If violation is due to “reasonable cause” but not willful neglect, the minimum penalty is \$1,000 per violation, to a maximum of \$100,000 for the calendar year.

Tier 3: If violation is due to willful neglect and is corrected within 30 days, the minimum penalty is \$10,000 per violation, to a maximum of \$250,000 for the calendar year.

Tier 4: If violation is due to willful neglect and is not corrected within 30 days, the minimum penalty is \$50,000 per violation, to a maximum of \$1.5 million for the calendar year.”

As of the date of this report, OCR has not finalized its determination and has not indicated that the University will be fined. Therefore, the University's fiscal year 2012 financial statements do not contain an associated loss expense and liability.

## **15. RISK MANAGEMENT**

The University participates in the State of Idaho Risk Management Program, which manages property and general liability risk. That program provides liability (cap) protection to \$500,000 per occurrence. Insurance premium payments are made to the state risk management program based on rates determined by a state agency's loss trend experience and asset value covered. Presently, Idaho State University's total insured property value is \$934,872,255.

The University obtains worker's compensation coverage from the Idaho State Insurance Fund. The University's worker's compensation premiums are based on its payroll, its own loss experience, as well as that of the State of Idaho as a whole.

The University carries commercial insurance for other risks of loss, including but not limited to employee bonds and crime, out of state worker's compensation, business interruption, media liability and automobile physical damage insurance.

## REPORT OF INDEPENDENT AUDITORS

Idaho State Board of Education  
Idaho State University

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Idaho State University (University) and Idaho State University Foundation (Foundation), its discretely presented component unit as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audits. We did not audit the financial statements of the Idaho State University Foundation, a discretely presented component unit as described in Note 12. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for that component unit, are based solely on the report of other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Idaho State University Foundation, Inc. were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

## **REPORT OF INDEPENDENT AUDITORS (continued)**

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of Idaho State University and its discretely presented component unit, as of June 30, 2013 and 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require the *management's discussion and analysis* listed in the table of contents and certain information in Note 10, *Postemployment Benefits Other Than Pensions*, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**REPORT OF INDEPENDENT AUDITORS  
(continued)**

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Idaho State University's basic financial statements. The schedule of expenditures of federal awards as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects, in relation to the financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2013, on our consideration of Idaho State University's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Idaho State University's internal control over financial reporting and compliance.

**IDAHO STATE UNIVERSITY**

**Management’s Discussion and Analysis  
For the fiscal year ended June 30, 2013**

---

**INTRODUCTION**

This Management’s Discussion and Analysis (MD&A) provides an overview of the financial position and activities of Idaho State University for the fiscal year ended June 30, 2013. It is intended to promote greater understanding of Idaho State University’s (ISU or the University) financial activities and position. The MD&A includes the University’s condensed and comparative statements, along with related graphs and charts. It should be read in conjunction with the financial statements and related footnote disclosures that follow the discussion. The financial statements, footnotes, and this discussion are the responsibility of management.

As a comprehensive public institution of higher learning, Idaho State University, located in Pocatello, Idaho, has served the citizens of the State since 1901, when it was first established as the Academy of Idaho. The University provides both general education and specialized programs in arts, humanities, sciences, the professions, and technologies and contributes to the State and nation through related research and public service programs. Idaho State University offers a diverse range of degree programs from baccalaureate to post-doctoral levels through the Colleges of Science and Engineering, Arts and Letters, Business, Education, Health Professions, Pharmacy, Technology, and the Graduate School. Through its programs in Health Professions, Pharmacy, the Family Practice Medical Residency, and the Idaho Dental Education Program, the University represents the primary higher educational institution for health professions in the state of Idaho.

**OVERVIEW**

The University’s financial statements have been prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements - and Management’s Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management’s Discussion and Analysis - for Public Colleges and Universities*.

The financial statements are comprised of the following components as explained briefly below.

**Report of Independent Auditor’s** – Presents an unqualified opinion rendered by an independent certified public accounting firm as to the fairness (in all material respects) of the financial statements. The audit firm is selected and engaged by the Idaho State Board of Education.

**Statement of Net Position** – The statement of net position includes all assets, deferred outflows, deferred inflows and liabilities of the University. Assets, deferred outflows, deferred inflows and liabilities are generally reported at their book value, on an accrual basis, as of the statement date. This statement also identifies major categories of the net position of the University as net investment in capital assets, restricted and unrestricted.

**Statement of Revenues, Expenses, and Changes in Net Position** – The statement of revenues, expenses, and changes in net position presents the revenues earned and expenses incurred during the year on an accrual basis, categorized as operating and non-operating.

**Statement of Cash Flows** – The statement of cash flows presents the inflows and outflows of cash for the year; summarized by operating, non-capital financing, capital and related financing, and investing activities.

**Notes to the Financial Statements** – The Notes provide important additional information that expands and clarifies the financial statement data.

**Component Unit** – The Idaho State University Foundation, Incorporated (the Foundation) is a key partner and contributor to the University’s educational mission and holds significant economic resources that benefit the University. It is the only affiliated organization that qualifies as a component unit of the University. Because the Foundation is a non-governmental entity, their financial statements are based upon reporting standards promulgated by the Financial Accounting Standards Board (FASB) and are audited by separate independent auditors. For purposes of this report, their financial information is presented on separate pages immediately following the corresponding university information.

**STATEMENT OF NET POSITION**

The *Statement of Net Position* reflects the financial position of the University at the end of the fiscal year. The difference between assets plus deferred outflows and liabilities plus deferred inflows represents net position. Changes in net position occur over time and are one indicator of the financial condition of the University. Net Position is presented in three major categories on the statement each of which is described in more detail within the footnotes to the statements. A summary comparison of the assets, deferred outflows, liabilities, deferred inflows and net position for the years ended June 30, 2013, 2012, and 2011, is presented below.

**Schedule of Net Position**

	<u>June 30, 2013</u>	<u>June 30, 2012</u>	<u>June 30, 2011</u>
Assets:			
Current Assets	\$ 120,533,853	\$ 106,830,059	\$ 94,971,188
Noncurrent Assets	<u>187,731,130</u>	<u>193,801,970</u>	<u>196,197,584</u>
Total Assets	<u>308,264,983</u>	<u>300,632,029</u>	<u>291,168,772</u>
Deferred outflows of resources	<u>629,729</u>	<u>213,460</u>	<u>-</u>
Liabilities:			
Current Liabilities	31,896,377	31,045,698	28,439,127
Noncurrent Liabilities	<u>63,714,764</u>	<u>67,805,654</u>	<u>71,827,739</u>
Total Liabilities	<u>95,611,141</u>	<u>98,851,352</u>	<u>100,266,866</u>
Deferred inflows of resources	<u>34,760</u>	<u>-</u>	<u>-</u>
Net Position:			
Invested in capital assets	124,561,381	125,992,772	123,571,307
Restricted, expendable	4,581,880	5,554,894	6,558,524
Unrestricted	<u>84,105,550</u>	<u>70,446,471</u>	<u>60,772,075</u>
Total Net Position	<u>\$ 213,248,811</u>	<u>\$ 201,994,137</u>	<u>\$ 190,901,906</u>

In 2013, the total unrestricted portion of net position increased by \$13.7 million over the prior year. This increase is largely due to an increase in cash and investments of \$11.6 million, an increase in the amount due from state agencies of \$2.4 million, and an increase of \$0.1 million in prepaid expenses. These were partially offset by a \$0.4 million decrease in student and various receivables. Net property, plant and equipment decreased \$5.2 million during the year with net fixed asset additions amounting to \$8.0 million. The cost of these additions was largely offset by a \$12.9 million increase in accumulated depreciation. Net disposals account for the remaining difference of \$0.3 million. Among the additions are: a confocal microscope, an electron microscope, various pieces of scientific equipment and computer network equipment plus some additions to construction in progress and building improvements. The increase in deferred outflow of resources of \$0.4 million stems from the Series 2012 refunding bond issue.

Also during the year, total liabilities decreased by \$3.2 million over 2012 balances due to a net decrease in long-term debt of \$4.6 million, which was offset by an increase of \$0.9 million in short-term payables

and debt and an increase in other post-employment benefits payable of \$0.5 million. The deferred inflow of resources increased by \$34,760 due to the Series 2013 refunding bond issue.

The University's total net position includes investment in capital assets, net of related debt (decreased \$1.4 million to \$124.6 million), the restricted portion of net position (decreased \$1.0 million to \$4.6 million) and the unrestricted portion of net position (increased \$13.7 million to a total of \$84.1 million). The decrease in restricted net position was related to a decrease of funds restricted for the Meridian facility's improvements, the Center for Advanced Energy Studies parking lot and the Pocatello campus beautification project. Total net position of the University at June 30, 2013 was \$213.2 million, an increase of 5.6% (\$11.3 million) over the prior year.

### **REVENUES, EXPENSES, AND CHANGES IN NET POSITION**

A comparative statement summarizing the University's revenues, expenses and changes in net position for the years ended June 30, 2013, 2012, and 2011, is shown below.

#### **Summary Statement of Revenues, Expenses & Changes in Net Position**

	<b>2013</b>	<b>2012</b>	<b>2011</b>
Operating revenues			
Student tuition and fees (net of scholarship discounts and allowances)	\$ 73,937,311	\$ 72,360,828	\$ 62,525,361
Federal grants and contracts	9,416,032	9,661,792	13,653,117
State and local grants and contracts	11,693,989	10,982,493	9,786,215
Private grants and contracts	9,912,398	11,247,629	8,532,830
Sales and services of educational activities	6,933,778	6,270,535	6,066,029
Sales and services of auxiliary enterprises	13,737,710	13,573,775	12,426,182
Other	3,404,559	5,021,161	3,470,991
Total operating revenues	<u>129,035,777</u>	<u>129,118,213</u>	<u>116,460,725</u>
Operating expenses	<u>223,289,422</u>	<u>222,035,121</u>	<u>209,724,689</u>
Operating income/(loss)	<u>(94,253,645)</u>	<u>(92,916,908)</u>	<u>(93,263,964)</u>
Nonoperating revenues/(expenses)			
State appropriations	77,032,719	71,158,994	75,402,147
State Department of Public Works	2,431,128	4,413,710	7,375,601
Title IV grants	24,104,048	26,076,231	27,767,664
Gifts	5,484,315	4,609,727	5,396,289
Net investment income	60,485	144,574	252,720
Amortization of bond insurance costs	-	(9,539)	(9,539)
Bond issuance costs	(941,514)	(51,415)	(51,415)
Interest on capital asset related debt	<u>(2,354,492)</u>	<u>(3,177,831)</u>	<u>(3,355,101)</u>
Net nonoperating revenues/(expenses)	<u>105,816,689</u>	<u>103,164,451</u>	<u>112,778,366</u>
Other revenues and expenses			
Capital gifts and grants	20,699	854,931	1,937,104
Gain or (loss) on disposal of fixed assets	<u>(329,069)</u>	<u>(10,243)</u>	<u>(85,946)</u>
Net other revenues and expenses	<u>(308,370)</u>	<u>844,688</u>	<u>1,851,158</u>
Increase in net position	11,254,674	11,092,231	21,365,560
Net position - beginning of year	<u>201,994,137</u>	<u>190,901,906</u>	<u>169,536,346</u>
Net position - end of year	<u>\$ 213,248,811</u>	<u>\$ 201,994,137</u>	<u>\$ 190,901,906</u>

Operating revenues received by the University are the result of providing goods and services to the various customers and constituencies of the University. Student tuition and fees, as well as research grants and contracts, are prime examples of operating revenues. Nonoperating revenues are those monies received for which goods and services are not provided. For example, as a public institution, one of ISU’s primary sources of revenue is appropriations provided by the state of Idaho, which, as directed by GASB standards, are classified as non-operating revenue. As a result, the University’s financial statements typically show an operating loss. A more comprehensive assessment of the operations of the University is reflected in the change in net position at the end of the year.

Total revenues for the year ended June 30, 2013 were \$238.2 million, representing an increase of 0.8% from fiscal year 2012. Below is a graphic illustration of revenues by source (both operating and non-operating) for the year ended June 30, 2013.

### Operating and Nonoperating Revenue

#### Operating Revenue

Tuition and fee revenue was up by 2.18%, or \$1.6 million, over the prior year for a total of \$73.9 million. Fiscal year 2013 showed a decrease in federal grants and contracts revenue over the prior year of \$0.2 million to \$9.4 million, with part of that decrease reflecting the timing of awards closing and new ones beginning. Private grant revenue was \$9.9 million in 2013, down \$1.3 million from the 2012 amount of \$11.2. State grant revenue increased by \$0.7 million over 2012 to \$11.7 million for 2013. In total, grant revenue decreased by \$0.8 million in 2013 to \$31.0 million. Sales and services revenue showed an increase of \$0.8 million to \$20.7 million for fiscal year 2013. This was largely due to increases in clinic

revenue and game guarantees which were offset by decreases in advertising revenue. The 'other revenue' category decreased over the prior year from \$5.0 million in 2012 to \$3.4 million in 2013. The reason for this increase was a \$1.6 million repayment in 2012 from the University's utility provider for overcharges that had occurred previously.

### ***Nonoperating revenue***

The largest component of non-operating revenue is State appropriations. In 2013, State funding increased overall by \$3.9 million, or 5.2%, over the prior year. The largest increase was in state appropriations for general education totaling \$62.6 million in 2013 and \$57.3 million in 2012, a 9.3% increase amounting to \$5.3 million. Funding from the Department of Public Works (DPW) fluctuates from year to year depending on the number and extent of the building projects. During 2013, it decreased \$2.0 million from the prior year amount of \$4.4 million to \$2.4 million. State funds allocated for professional technical education increased by \$0.5 million. Another significant component of non-operating revenue is federal Title IV grants. There was a \$2.0 million decrease in Title IV revenue from the prior year. This decrease was due to the federal government restricting Pell grant availability from summer tuition and tighter eligibility requirements.

Capital gift revenue decreased in fiscal year 2013 by \$0.8 million largely due to a decrease in capital DPW projects.

### ***Expenses***

Operating expenses represent the costs associated with providing goods and services to enable us to carry out the mission of the University. Nonoperating expenses are generally those associated with interest on debt and the disposal loss of fixed assets.

**Summary Statement of Expenses**

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Operating			
Personnel costs	\$ 141,146,294	\$ 135,940,976	\$ 130,457,000
Services	27,050,947	27,513,868	23,073,330
Supplies	12,773,653	14,200,321	13,257,589
Insurance, utilities and rent	7,375,222	6,364,159	6,660,260
Scholarships and fellowships	16,851,589	20,885,766	20,084,127
Depreciation Expense	12,914,220	12,104,795	11,462,198
Other operating Expenses	5,177,497	5,025,236	4,730,185
Total operating expenses	<u>223,289,422</u>	<u>222,035,121</u>	<u>209,724,689</u>
Nonoperating			
Amortization of bond insurance costs	-	9,539	9,539
Bond issuance costs	941,514	51,415	51,415
Loss (gain) on disposal of fixed assets	329,069	10,243	85,946
Interest on capital asset related debt	2,354,492	3,177,831	3,355,101
Total nonoperating expenses	<u>\$ 3,625,075</u>	<u>\$ 3,249,028</u>	<u>\$ 3,502,001</u>

**Operating and Nonoperating Expenses**

Nonoperating costs include interest on capital debt and bond

Expenses in fiscal year 2013 increased by \$1.6 million, or 0.7%, over the prior year. The largest component of this increase is due to an increase in personnel costs of \$5.2 million. Additionally, expenses for services decreased \$0.5 million over the prior year totaling \$27.0 million in 2013. Supplies expense decreased \$1.4 million and scholarship expense decreased \$4.0 million over the prior year amount of \$20.9 million to \$16.9 in 2013. Depreciation expense increased \$0.8 million from the prior year. The remaining expenses increased by \$1.5 million with the majority of that being an increase in insurance, utilities and rent.

The University has chosen to early implement the requirements of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, as encouraged. According to the Statement, debt issuance costs, except any portion related to prepaid insurance costs, should be recognized as an expense in the period incurred. Therefore, readers of these financial statements will notice a large bond issuance expense for fiscal year 2013 due to the issuance of the Series 2012 and 2013 Refunding Bonds as well as unamortized portions of previous bond issuances. Bond insurance costs will continue to be amortized over time.

## Expense Comparison

(\$ in Millions)

## CASH FLOWS

The various sources of cash, along with their application and use, are presented in the *Statement of Cash Flows*. This analytical perspective is useful in assessing the ability of the University to satisfy its financial obligations as they come due. The statement classifies the flow of cash in the following four categories.

Operating activities – Displays the net cash flow required to conduct the day-to-day operating activities of the institution and reflects the continued need for funding from the state of Idaho.

Noncapital financing activities – Reflects the net cash flow of non-operating transactions not related to investing or capital financing activities, and includes funds provided by state appropriations.

Capital and related financing activities – Includes payments for the acquisition of capital assets, proceeds from long-term debt, and debt repayment.

Investing activities – Details the funds involved in the purchase and sale of investments and reflects the change in rates of return on invested funds.

The statement summarizes the net cash flow and reconciles to the operating income or loss, as reflected on the *Statement of Revenues, Expenses and Changes in Net Position*.

A summary of the *Statement of Cash Flows* for the year ended June 30, 2013 is presented below.

**Summary Statement of Cash Flows**

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Cash and cash equivalents (used in) or provided by:			
Operating activities	\$ (79,414,677)	\$ (74,228,625)	\$ (77,316,030)
Noncapital financing activities	106,108,619	103,483,406	107,537,874
Capital and related financing activities	(15,177,477)	(15,290,744)	(16,803,973)
Investing activities	<u>(4,945,990)</u>	<u>272,979</u>	<u>214,823</u>
Net increase (decrease) in cash	6,570,475	14,237,016	13,632,694
Cash and cash equivalents, beginning of year	<u>90,466,770</u>	<u>76,229,754</u>	<u>62,597,060</u>
Cash and cash equivalents, end of year	<u>\$ 97,037,245</u>	<u>\$ 90,466,770</u>	<u>\$ 76,229,754</u>

For purposes of the *Statement of Cash Flows*, the University considers all highly liquid investments with an original maturity of three months or less and all non-negotiable certificates of deposit to be cash equivalents.

***CAPITAL ASSET AND DEBT ACTIVITIES***

The University considers the effective management of the institution’s physical resources as a fundamental element of its financial stewardship, including the prudent use of debt to finance such resources. The development and maintenance of our physical resources is a key factor in creating and sustaining a learning environment that permits education to flourish. Idaho State University’s total capital assets before depreciation increased by \$6.5 million; from \$348.4 million in 2012 to \$354.9 million in 2013.

Total institutional long-term debt declined by \$4.3 million from \$66.2 million at June 30, 2012 to \$61.9 million at June 30, 2013. The University issued new general revenue refunding bonds to refund existing bonds when they become callable and to reduce its interest expense. The University continues to pay down existing debt according to the debt schedule detailed in the notes of this report.

## ***ECONOMIC OUTLOOK***

The financial position of Idaho State University remains stable due to increases in unrestricted net assets over the past few years. The nationwide college-age population is decreasing after more than a decade of sharp growth and many adults who chose to leave the job market to go back to school during the recession now have been drawn back to work by the economic recovery. According to the National Student Clearinghouse Research Center, national enrollment of four-year public institutions decreased by 1.1% in spring 2013 compared to the prior year.

Idaho State University's local demographics also are impacting the general enrollment of the University. The regional high schools have fewer graduating students than in prior years and the Church of Jesus Christ Latter Day Saints, which represents a large portion of the regional population, recently reduced the mission age to 18 for men and 19 for women. The Utah state legislature in response to the mission age reduction is allowing Utah higher education institutions to offer in-state tuition rates to non-resident students. These reduced tuition programs offered in Utah may lead to adverse effects on ISU's enrollment.

Meanwhile, Moody's Investor Service has noted some significant factors affecting the higher education market. In January 2013, Moody's announced its 2013 outlook for the U.S. higher education sector reflecting increasing pressure on all key university revenue sources. Price sensitivity continues to suppress net tuition revenue growth as years of depressed family income and net worth, uncertain job prospects for graduates, and declines in high school graduates are creating enrollment pressure and weakened pricing power for colleges and universities. Also, the slow economic recovery and economic stress from federal budget reduction measures have increased pressure on non-tuition revenue sources. Further, while employment and earnings data continue to support the underlying value of a degree, rising student loan burden, defaults, and diminishing affordability of higher education are causing a skeptical public perception of the value of a college or university degree. This increase in public scrutiny may lead to more regulation and accreditation sanctions.

As a result, the University is actively pursuing other revenue streams and evaluating programs and processes in an effort to further cut costs. The University took action to reduce its interest expense by issuing \$27,530,000 of Series 2012 revenue bonds in July 2012 to refund existing bonds when they become callable. And in June 2013, the University issued \$3,810,000 of Series 2013 revenue bonds to refund the Series 2003 revenue bonds. The low bond interest rates will save the University approximately \$3.5 million in interest expense over the next eleven years. Moody's and Standard and Poor's Rating Services rated the bonds A and A1, respectively, both citing the University's stable financial position and debt coverage as part of the basis for their ratings.

During the year, the University proposed and received approval for a 4.5% tuition and fee increase for fiscal year 2014, the lowest increase for ISU in 24 years. It reflects a shared balance between faculty, staff, students, and other institutional needs in meeting the University's budget requirements. However, it is only one piece of several initiatives across all areas of the University. ISU is and remains extremely competitive in tuition and fees, even after the increase, which is essential in enabling the University to balance its budget and continue to provide quality educational opportunities to students. In fact, AffordableCollegesOnline.org released a unique new list of 60 low-cost colleges with graduates

who earn high starting salaries. ISU ranks as the 15th lowest-cost public university with high starting salaries for its graduates in the nation.

The University is also undergoing a resource reallocation and prioritization process to provide a greater infusion of performance measurement metrics into institutional budgeting decisions. It will provide data for better program planning and funding allocation decisions, integrating planning efforts, making institutional and state of Idaho missions operational, and reallocating resources from lower to higher priorities. The University has identified two key objectives for the upcoming fiscal year: 1) fund an ongoing university-wide compensation plan for faculty and staff to recruit and retain talented employees, and 2) fund ongoing student programs in order to maximize student success in terms of

access, opportunity, and retention with a focus on additional scholarship funding. In the current climate of declining enrollment, decreasing revenue, and increasing expense, resource reallocation needs to be data driven in order to meet those goals.

The University continues to make a strong commitment toward improving the campus physical environment. A reduction in deferred maintenance is viewed as integral to achieving that objective. The University began implementing a preventative maintenance plan to achieve the following goals: preserve taxpayers' investment in public buildings, help buildings function and operate at peak efficiency (including minimizing energy consumption, preventing building system failures that could cause interruption of occupants' activities, and delivering public services while sustaining a safe and healthful environment), and provide cost-effective maintenance.

In light of the economic environment and aware of our responsibility to the citizens of the state of Idaho, the University has

continued to pursue initiatives that promote the health and welfare of our neighbors. Using the University's mission as our guide, we will continue to find partnerships that will provide opportunities and innovation for Idaho and the nation.

*The audited financial statements included in this report, along with the accompanying notes to the financial statements, provide pertinent information and details related to the financial activities discussed in this analysis.*

**IDAHO STATE UNIVERSITY**  
**STATEMENT OF NET POSITION**  
**AS OF JUNE 30, 2013 AND 2012**

	2013	2012
<b>ASSETS</b>		
<b>CURRENT ASSETS:</b>		
Cash and cash equivalents	\$ 51,351,770	\$ 51,356,473

**IDAHO STATE UNIVERSITY**  
**Notes To Financial Statements**  
**Years Ended June 30, 2013 And 2012**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Idaho State University (the University) is part of the public system of higher education in the State of Idaho (the State). The system is considered part of the State of Idaho financial reporting entity. The State Board of Education (SBOE), appointed by the Governor and affirmed by the legislature, directs the system. The University is headquartered in Pocatello, Idaho with satellite campuses in Idaho Falls, Twin Falls, and Meridian, Idaho. Significant accounting policies are described below to enhance the usefulness of the financial statements to the reader.

**Reporting Entity** – The Idaho State University Foundation, Inc. (the Foundation) is considered a component unit of the University as defined by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - and amendment of GASB Statements No. 14 and No. 34*. As such, the Foundation is discretely presented for fiscal years ended June 30, 2013 and 2012. Additional detail and discussion related to the Foundation can be found in Note 12 of this report.

**Basis of Accounting** – For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

**Cash Equivalents** – The University considers all liquid investments with a remaining maturity of three months or less at the date of acquisition and all non-negotiable certificates of deposit to be cash equivalents.

**Cash with Treasurer** – Balances classified as Cash with Treasurer are amounts that are required to be remitted to the State of Idaho as a result of the student fee collection process and, once remitted, these balances are under the control of the State Treasurer. Interest accruing on the balance is maintained in a separate fund and must be appropriated by the legislature before any expenditure can occur.

**Investments** – The University accounts for its investments at fair value in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Investment income is recorded on the accrual basis. Changes in unrealized gains and losses on the carrying value of investments are reported as a component of net investment income in the Statement of Revenues, Expenses and Changes in Net Position.

**Student Loans Receivable** – Loans receivable from students bear interest at rates ranging from 3.00% to 7.00% and are generally payable to the University in installments over a 5 to 10 year period, commencing 6 or 9 months after the date of separation from the University.

**Accounts Receivable** – Accounts receivable consist of fees charged to students as well as auxiliary enterprise services provided to students, faculty and staff, the majority of each residing in the State of Idaho. Accounts receivable also include amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

**Property, Plant and Equipment** – Capital assets are stated at cost when purchased or constructed, or if acquired by gift, at the estimated fair value at date of the gift. The University's capitalization policy includes all items with a unit cost of \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the period in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 12 to 25 years for land improvements, 10 years for library books, and 5 to 13 years for equipment.

In fiscal year 2010, in accordance with the requirements and definitions of GASB No. 51, *Accounting and Financial Reporting for Intangible Assets*, the University adopted a policy of capitalizing any intangible assets \$200,000 or greater in value that have an expected useful life of three years or longer. The University adopted this policy in compliance with the State of Idaho guidelines related to the implementation requirements of GASB No. 51.

The University houses collections at the Idaho Museum of Natural History that it does not capitalize. These collections adhere to the University's policy to (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. The University charges these collections to operations at the time of purchase, in accordance with generally accepted accounting principles.

**Deferred Outflows of Resources** – Deferred outflows of resources are a consumption of net assets by the University that are applicable to future reporting periods. Similar to assets, they have a positive effect on net position.

**Unearned Revenues** – Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year, but related to the subsequent accounting period. Unearned revenues also includes amounts received from grant and contract sponsors that have not yet been earned.

**Compensated Absences** – Employee vacation pay that is earned but unused is accrued at year-end for financial statement purposes. Amounts included in accrued salaries and benefits payable in the statement of net position are \$4,782,004 and \$4,791,459 at June 30, 2013 and 2012, respectively.

**Noncurrent Liabilities** – Noncurrent liabilities include the principal portions of revenue bonds payable, notes payable with contractual maturities greater than one year, and other post-employment benefits payable.

**Deferred Inflows of Resources** – Deferred inflows of resources are an acquisition of net assets that are applicable to future reporting periods. Similar to liabilities, they have a negative effect on net position.

**Net Position** – Net position is identified as the residual of all elements presented in the statement of financial position. The University's net position is classified as follows.

*Invested in Capital Assets* – This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

*Restricted, Expendable* – Restricted expendable includes resources which the University is legally or contractually obligated to use in accordance with restrictions imposed by external third parties.

*Unrestricted* – Unrestricted represents resources derived from student fees, state appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions related to the educational and general operations of the University, and may be used at the discretion of the institution to meet current expenses for any lawful purpose and in accordance with SBOE policy.

**Income and Unrelated Business Income Taxes** – The University, as a political subdivision of the State of Idaho, is excluded from Federal income taxes under Section 115(1) of the Internal Revenue Code, as amended. The University is liable for tax on its unrelated business income. Defined by the Internal Revenue Code, unrelated business income is income from a trade or business, regularly carried on, that is not substantially related to the performance by the organization of its exempt purpose or function. The University did not incur unrelated business income tax expense in the fiscal years ended June 30, 2013 or 2012.

**Classification of Revenues** – The University has classified its revenues as either operating or non-operating revenues according to the following criteria:

*Operating Revenues* – Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student fees net of scholarship discounts and allowances, (2) sales and services of auxiliary enterprises, (3) most federal, state and local grants and contracts and federal appropriations, and (4) interest on institutional student loans.

*Nonoperating Revenues* – Non-operating revenues include activities that have the characteristics of non-exchange transactions such as gifts and contributions, and other revenue resources defined as non-operating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary*

*Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

**Scholarship Discounts and Allowances** – Student fee revenues are reported net of scholarship discounts and allowances in the statements of revenues, expenses, and changes in net position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount paid by students or other third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants and other federal, state, or nongovernmental programs, are recorded as either operating or non-operating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy student fees and related charges, the University has recorded a scholarship discount and allowance.

**Use of Accounting Estimates** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements, and revenues and expenses during the year. Actual results could differ from those estimates.

**New Accounting Standards** – The University has early implemented the provisions of *GASB Statement No. 65, Items Previously Reported as Assets and Liabilities*. This Statement establishes a new accounting classification for certain financial statement items that were previously reported as assets and liabilities that will now be classified as deferred outflows of resources and deferred inflows of resources. The requirements of this Statement will improve financial reporting by ensuring consistency in the appropriate use of deferred outflows of resources and deferred inflows of resources. The impact to the University's financial statements of implementing this statement is that the remaining balance of pre-FY 2013 bond issuance costs which were being amortized over the lifetime of the particular bonds associated with them were expensed in FY 2013 along with the issuance costs of the Series 2012 and the Series 2013 bonds issued in FY 2013.

Additional information regarding the impact of this change in accounting principle follows: The line item 'Amortization of bond insurance costs' was added to the face of the statements for clarification and to separate it from the item 'Bond issuance costs'. The bond insurance is attached to the outstanding bonds thus the expense benefits future periods and will be amortized over the life of the bonds. Bond issuance costs do not benefit future periods and is expensed in the period incurred. Both will continue to be reported as nonoperating expenses. In the future 'Bond issuance cost' expense will only be presented during periods when bonds have been issued.

The amount of the pre 2013 bond issuance costs to be expensed due to the implementation of GASB Statement No. 65 was determined to be immaterial to the financial statements and therefore management chose not to restate prior year net position balances as is generally the case when there is a change in accounting principle.

The University will be required to implement the provisions of *GASB Statement No. 67, Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*. The primary objective of

this Statement is to improve financial reporting of state and local government pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions, with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. For defined benefit pension plans, this Statement establishes standards of financial reporting for separately issued financial reports and specifies the required approach to measuring the pension liability of employers and nonemployer contributing entities for benefits provided through the pension plan (the net pension liability). GASB Statement No. 67 is effective for the fiscal year ending June 30, 2014. At this time, management has not yet determined the impact of this Statement on the University's financial statements.

The University will be required to implement the provisions of *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting of pensions by state and local governments. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. Note disclosure and required supplementary information requirements about pensions are also addressed. GASB Statement No. 68 is effective for the fiscal year ending June 30, 2015. The University participates in the State's defined benefit retirement plan where the benefits and obligations to contribute to the plan are established, and may be amended by, the Idaho State Legislature. Since the State administers the plan and provides its component units the respective pension benefit and obligation amounts, the University has not yet determined the impact of this Statement on its financial statements.

In January, 2013, the GASB issued *Statement No. 69, Government Combinations and Disposals of Government Operations*. This Statement requires the use of carrying values to measure the assets and liabilities in a government merger. It also requires measurements of assets acquired and liabilities assumed, generally to be based upon their acquisition values. GASB Statement No. 69 also provides guidance for transfers of operations that do not constitute entire legally separate entities and for which no significant consideration is exchanged. The Statement is effective for the fiscal year ending June 30, 2015. Management believes this Statement does not apply to the University at this time.

In April, 2013, the GASB issued *Statement No. 70, Accounting and Financial Reporting for Non-exchange Financial Guarantees*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive non-exchange financial guarantees. This Statement requires a government that extends a non-exchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This Statement specifies the information required to be disclosed by governments that extend non-exchange financial guarantees. In addition, this Statement requires new information to be disclosed by governments that receive non-exchange financial guarantees. GASB Statement No. 70 is effective for the fiscal year ending June 30, 2014. Under management's current understanding, it does not appear this Statement will have an impact on the University's financial statements.

**Reclassification** – Certain amounts reported in the June 30, 2012 financial statements have been reclassified to conform to the June 30, 2013 financial statement presentation.

**2. CASH WITH TREASURER, CASH AND CASH EQUIVALENTS, OTHER DEPOSITS, AND INVESTMENTS**

***Cash with Treasurer, Cash and Cash Equivalents, and Other Deposits***

Cash with Treasurer is under the control of the Idaho State Treasurer and is carried at cost. The University's deposits are maintained in commercial checking accounts which, as of June 30, 2013, have insurance coverage up to \$250,000 through the Federal Deposit Insurance Corporation (FDIC). After all debit and credit transactions have posted at the end of each business day, excess balances are automatically moved to the Automated Repurchase Investment Sweep account for overnight investment at competitive market rates to maximize the use of idle funds, including the cash float from outstanding checks. The investments in the sweep account consist of direct obligations or those that are fully guaranteed as to the principal and interest by the U.S. Government or its agencies and are collateralized at 100% of market value. At June 30, 2013 and June 30, 2012, total deposits consisted of the following:

	<u>2013</u>	<u>2012</u>
Cash	\$ 54,530,756	\$ 1,910,532
Obligations of the U.S. Government and its agencies	-	50,890,000
Cash equity with the State Treasurer	<u>45,685,475</u>	<u>39,110,297</u>
Total deposits	<u>\$ 100,216,231</u>	<u>\$ 91,910,829</u>

In fiscal year 2012, cash was held in an Automated Repurchase Investment Sweep account. In fiscal year 2013, this cash was moved to an interest-bearing account that will earn a higher rate of return than the sweep account. There was no cash and cash equivalents invested in obligations of the U.S. Government and its agencies for fiscal year 2013.

The deposit amounts subject to custodial credit risk at June 30, 2013 and 2012 were \$54,280,756 and \$0, respectively, which were uncollateralized and uninsured. The increase in risk is attributable to the expiration of the unlimited FDIC insurance coverage provided under the Dodd-Frank Wall Street Reform and Consumer Protection Act on December 31, 2012.

At June 30, 2013 and 2012, the University had \$120,155 and \$93,943, respectively, of cash on hand in various change funds. The carrying amount of the University's cash and cash equivalents at June 30, 2013 and 2012 was \$97,037,245 and \$90,466,770, respectively. The net difference between deposits and the carrying amount of cash and cash equivalents is primarily a reflection of investment of the daily float.

**Investments**

The general investment policy of the University as adopted by the State Board of Education outlines that investments in securities are to be made with the objective of maximizing long-term total return, ensuring safety of principal, and providing satisfactory current income. In accordance with the established investment policy, the University may invest in various mortgage-backed securities, such as collateralized mortgage obligations. These securities are recorded at fair value in the statement of net position. Investment income, including change in fair value of investments, is recognized as revenue in the statement of revenues, expenses and changes in net position.

The following table represents the fair value of investments by type, credit risk (the credit risk ratings issued upon standards set by Standard and Poor’s) and interest rate risk at June 30, 2013 and June 30, 2012, respectively:

Fiscal Year	University Investments	Fair Value	Investment Maturities				Credit Rating
			<1 year	1-3 years	3-5 years	5-10 years	
2013	Mutual Funds – Government Securities	5,003,471	-	650,451	900,625	3,452,395	AA
2012	N/A	-	-	-	-	-	N/A

**Credit Risk**

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligation, causing the University to experience a loss of principal, or that negative perceptions of issuer’s ability to make these payments will cause prices to decline. GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, requires disclosure of credit quality ratings for investments in debt securities. The University does not presently have a formal policy that addresses credit risk.

Credit risk disclosed for Mutual Funds – Government Securities is related to the mutual funds’ underlying assets. The mutual fund typically holds most of its exposure in mortgage-backed securities, including collateralized mortgage obligations, issued or guaranteed by U.S. Government agencies or government-sponsored entities. In addition, it targets maintaining an average credit quality rating that is equivalent to the highest rating available from a Nationally Recognized Statistical Rating Organization.

**Concentration of Credit Risk**

Concentration of credit risk is defined per GASB Statement No. 40 as the risk of loss attributed to the magnitude of an investment in a single issuer other than the federal government. The Governmental Accounting Standards Board has adopted a principle that governments should provide note disclosure when 5 percent of investments are concentrated in any one issuer. At present, the University does not have a formal policy that addresses concentration of risk. The University did not have any investments at June 30, 2013 or 2012 that represented a 5 percent or greater concentration in any one issuer.

**Custodial Credit Risk**

Custodial credit risk for investments is defined as the risk that, in the event of a failure of the counterparty to a transaction, the University will not be able to recover the value of its investments that are in the possession of an outside party. The University does not have a policy that specifically addresses custodial credit risk. As of June 30, 2013, all investments were held by the University or its counterparty in the University's name.

**Interest Rate Risk**

Interest rate risk is the risk that the value of fixed income securities will decline because of change in interest rates. Currently, the University does not have a formal policy that addresses interest rate risk. Interest rate risk disclosed for Mutual Funds – Government Securities is related to the mutual funds' underlying assets.

**Foreign Currency Risk**

GASB Statement No. 40 defines foreign currency risk as the risk that changes in exchange rates will adversely affect the fair value of an investment of deposit. The University does not presently have a policy that addresses foreign currency risk. As of June 30, 2013, all investments held by the University were denominated in U.S. Dollars; therefore, no foreign currency risk needs to be considered at this time.

**3. ACCOUNTS RECEIVABLE AND DUE FROM STATE AGENCIES**

Accounts receivable and due from state agencies consisted of the following at June 30:

	<u>2013</u>	<u>2012</u>
Accounts receivable	\$ 12,556,989	\$ 13,037,982
Due from state agencies	<u>6,131,662</u>	<u>3,735,585</u>
	18,688,651	16,773,567
Less allowance for doubtful accounts	<u>(1,636,158)</u>	<u>(1,683,543)</u>
Net accounts receivable and Due from state agencies	<u>\$ 17,052,493</u>	<u>\$ 15,090,024</u>

#### 4. STUDENT LOANS RECEIVABLE

Student loans made through the Federal Perkins Loan Program (the Program) comprise substantially all of the loans receivable at June 30, 2013 and 2012. Under this Program, the federal government provides approximately 75% of the funding for the Program, with the University providing the balance. The program provides cancellation provisions for borrowers engaging in teaching, public service, service in the military or law enforcement, as well as other disciplines. The Department of Education reimburses the University each year for the principal and interest canceled in its Perkins Loan Fund for all of the cancellation provisions except death, total and permanent disability, and bankruptcy. The University must deposit this reimbursement into its Perkins loan fund. In the event the University should withdraw from the Federal Perkins Loan Program or the government were to cancel the Program, the amount the University would be liable for as of June 30, 2013 and 2012, is \$1,964,160 and \$1,989,605, respectively.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2013 and 2012, the allowance for uncollectible loans was approximately \$589,120 and \$535,112, respectively.

In the spring of 2007, the University began participation in the Nursing Faculty Loan Program (NFLP), a federal loan program authorized under Title VIII of the Public Health Service Act, to increase the number of qualified nursing faculty. In the event the University should withdraw from the NFLP Program, or the government was to cancel the Program, the amount the University would be liable for as of June 30, 2013 and 2012, is \$10,117 and \$12,870. Loans receivable from students bear interest at rates ranging from 5.00% to 10.00% and are generally repayable in installments to the University over a 5 to 10 year period commencing 3 to 9 months after the date of separation from the University.

**5. PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment at June 30, 2013 and 2012 consisted of the following:

	2013				Balance June 30, 2013
	Balance July 1, 2012	Additions	Retirements	Transfers	
Property, plant and equipment not being depreciated:					
Land	\$ 5,012,553	\$ -	\$ -	\$ -	\$ 5,012,553

The Performing Arts Center was constructed by the Foundation with contributions and the proceeds from the Foundation's Multi-Mode Variable Rate Revenue Bond, issued in 2001. The facility was constructed on land leased by the Foundation from the University for \$1 a year for a 20 year term. The land and improvements were, in turn, leased back to the University for \$1 a year for 20 years, with a provision that title to the improvements transfers to the University at the earlier of the end of the lease or retirement of the bonds. A security interest in the land and improvements is held through a Deed of Trust issued by the Foundation to Wells Fargo Bank, N.A. The excess of the fair value of the improvements (i.e., cost) over the gross rents payable by the University were recorded as an asset of the University in recognition of the permanent transfer of rights of use to the University for only nominal consideration.

In addition to accounts payable for construction in progress, the estimated cost to complete property authorized or under construction at June 30, 2013, is approximately \$661,427. These costs will be financed by available resources of Idaho State University.

**6. UNEARNED REVENUES**

Unearned revenues consist of the following at June 30:

	<u>2013</u>	<u>2012</u>
Student Fees	\$ 3,829,436	\$ 3,045,634
Auxiliary enterprises and other	347,366	59,090
Grants and contracts	1,225,182	2,188,833
Other ticket sales	66,306	69,283
	<u>\$ 5,468,290</u>	<u>\$ 5,362,840</u>

**7. NONCURRENT LIABILITIES**

Notes and bonds payable at June 30 consisted of the following:

Description	Balance Outstanding 6/30/2011			Balance Outstanding 6/30/2012			Balance Outstanding 6/30/2013		Amounts Due Within One Year
		Additions	Reductions		Additions	Reductions			
Note payable to a bank, due in annual amounts varying from a maximum of \$11,200 to \$8,082 plus interest of 8.5% through 08/01/2011	\$ 10,472	\$ -	\$ (10,472)	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Note payable to a financial institution due in semi-annual installments varying from maximum of \$2,993,916 to \$16,696 plus interest of 5.08% through 09/01/2016	4,895,440	-	(846,933)	4,048,507	-	(895,567)	3,152,940	941,639	
Student Facilities Fee Revenue Bonds, Series 1998, (original balance of \$12,400,000), consisting of serial and term bonds (either directly or through sinking funds) in annual amounts increasing periodically from \$585,000 to a maximum of \$920,000, plus interest from 4.875% to 5.00% through the year 2022. All bonds are collateralized by certain student fees and other revenues.	5,865,000	-	(835,000)	5,030,000	-	(5,030,000)	-	-	
General Refunding and Improvement Revenue Bonds, Series 2003 (original balance of \$35,895,000), consisting of serial bonds payable in annual amounts increasing periodically from \$715,000 to a maximum of \$3,115,000, plus interest from 3.00% to 5.00% through the year 2023. All bonds are collateralized by certain student fees and other revenues.	27,080,000	-	(1,450,000)	25,630,000	-	(25,630,000)	-	-	
General Revenue Bonds, Series 2004A (original balance of \$4,980,000), consisting of serial bonds payable in annual amounts increasing periodically from \$210,000 to a maximum of \$375,000, plus interest from 2.00% to 4.375% through the year 2023. **Pledged Revenue** — Current outstanding issuances are 2004A, 2004B, 2004C, 2006, 2007, 2012 and 2013. The University has pledged certain revenues as collateral for these bonds. The pledged revenue amounts as of June 30 are as follows:

Pledged Revenues	2013		
	Student Facility Fee Revenue Bonds		
	Series 1998	Series 2004A, 2004B, 2004C, 2006, 2007, 2012 and 2013	Total
Matriculation fee	\$ -	\$ 49,373,663	\$ 49,373,663
Student facilities fee	-	465,944	465,944
Revenue of student housing system	-	5,978,179	5,978,179
CAES lease payment	-	850,104	850,104
	<u>\$ -</u>	<u>\$ 56,667,890</u>	<u>\$ 56,667,890</u>
Debt service	<u>\$ -</u>	<u>\$ 6,298,781</u>	<u>\$ 6,298,781</u>
Debt service coverage	0%	900%	900%
Coverage requirement	0%	110%	110%

Pledged Revenues	2012		
	Student Facility Fee Revenue Bonds		
	Series 1998	Series 2003, 2004C, 2004A, 2004B, 2006 and 2007	Total
Matriculation fee	\$ -	\$ 49,177,627	\$ 49,177,627
Student facilities fee	3,725,203	485,143	4,210,346
Revenue of student housing system	-	5,709,462	5,709,462
CAES lease payment	-	850,104	850,104
	<u>\$ 3,725,203</u>	<u>\$ 56,222,336</u>	<u>\$ 59,947,539</u>
Debt service	<u>\$ 1,128,630</u>	<u>\$ 5,558,290</u>	<u>\$ 6,686,920</u>
Debt service coverage	330%	1012%	896%
Coverage requirement	110%	110%	110%

As indicated, the Student Facilities Fee is pledged for Series 2003, Series 2004A, Series 2004B, Series 2004C, Series 2006, Series 2007, Series 2012 and Series 2013 bonds. The Revenue of the Housing System is pledged for the Series 2012 and 2013 bonds and the Center for Advanced Energy Studies (CAES) lease payments are pledged for Series 2006 bonds.

#### ***Advance Refunding of Debt – Series 2012 Bonds***

On July 12, 2012, General Revenue Refunding Bonds, Series 2012, were issued by the University to refund certain outstanding bonds of the University to achieve debt service savings and to pay the costs of issuance of the Series 2012 Bonds. The Series 2012 Bonds were issued in the aggregate principal amount of \$27,530,000 and bear interest from the date of issuance of 2% to 4% payable semiannually on April 1 and October 1 of each year, commencing October 1, 2012.

The University completed the advance refunding to reduce its total debt service payments over the next 10 years by \$3.5 million and to obtain an economic gain (difference between the present values, on the bonds issuance date, of the prior and refunding debt service payments) of \$3.2 million.

#### ***Advance Refunding of Debt – Series 2013 Bonds***

On June 26, 2013, General Revenue Refunding Bonds, Series 2013, were issued by the University to refund certain outstanding bonds of the University and to pay the cost of issuance of the Series 2013 Bonds. The Series 2013 Bonds were issued in the aggregate principal amount of \$3,810,000 and bear interest from the date of issuance of 2.25% to 2.75% payable on October 1, 2013 and semiannually thereafter on each April 1 and October 1.

The advance refunding resulted in reducing total debt service over the next 7 years by \$315,045 and acquiring an economic gain of \$297,791 (difference between the present values, on the bonds issuance date, of the old and new debt service).

**8. ACCOUNTING FOR LEASES**

The University is a lessor under a current 20 year ground lease agreement with Portneuf Medical Center (lessee). The lease expires May 31, 2032. The lease allowed for the construction of a sports medicine facility (the Facility) on the premises, which was completed in September 1994. The lessee pays rent of \$1 per year for the ground lease, payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution.

The University leases a weight/training room and associated common areas from Portneuf Medical Center (lessor). The current lease is for 20 years. Rent for the weight/training room portion of the lease is \$1 per year. Rent for shared use of the common areas is \$14,000 per year. Rents for the initial term and renewal term are payable on the date of the execution of the lease and annually thereafter on the anniversary date of such execution. Upon expiration of the lease term, the Facility shall become the property of the University.

ISU leases building and office facilities under various non-cancelable operating leases. Total costs for such leases were \$393,883 and \$444,101 for the years ended June 30, 2013 and 2012, respectively.

Future minimum lease payments at June 30, 2013 for all leases are as follows:

<u>Fiscal Years</u>	<u>Payments</u>
2014	\$ 298,300
2015	123,439
2016	91,533
2017	18,988
2018	14,000
Totals	<u>\$ 546,260</u>

In 2006, Idaho State University (lessor) entered into a lease agreement with Battelle Energy Alliance, LLC (lessee) for facilities located in the CAES facility. The lease commenced September 2009, and extends through March 5, 2028.

Future minimum rental income on this operating lease is as follows:

<u>Fiscal Years</u>	<u>Income</u>
2014	\$ 850,104
2015	850,104
2016	850,104
2017	850,104
2018	850,104
2019-2028	8,288,514
Totals	<u>\$ 12,539,034</u>

Battelle Energy Alliance, LLC makes all lease payments directly to the trustee. Rental income is restricted and is to be used solely for debt service on the 2006 Revenue bonds; the proceeds were used to construct the facility. As of June 30, 2013, the book value of the building is \$16,119,435, which is net of accumulated depreciation of \$1,581,414.

## 9. RETIREMENT PLANS AND TERMINATION PAYMENTS

**Public Employee Retirement System of Idaho** – The Public Employee Retirement System of Idaho (“PERSI”), a cost-sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The plan provides benefits based on members’ years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with PERSI. The benefits and obligations to contribute to the plan were established, and may be amended by, the Idaho State Legislature. Financial reports for the plan are available from PERSI’s website at [www.persi.idaho.gov](http://www.persi.idaho.gov).

After 60 months of credited service, members become fully vested in retirement benefits earned to date and receive a lifetime benefit at retirement. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.00% of the average monthly salary for the highest consecutive 42 months. Employer contributions to PERSI are made as set forth in Section 59-1322 of Idaho Code, and described in Section 59.01.03 of the Idaho Administrative Procedure Act. Employee contributions are set at 60% of employer contributions per Section 59-1333 of Idaho Code.

Contributions for the three years ended June 30 are as follows:

	2013	2012	2011
University contributions required and paid	\$ 2,621,008	\$ 2,544,195	\$ 2,565,255
Employee contributions	1,571,598	1,525,532	1,538,160
Total contributions	<u>\$ 4,192,606</u>	<u>\$ 4,069,727</u>	<u>\$ 4,103,415</u>
University required contribution rate	10.39%	10.39%	10.39%
Employee contribution rate	6.23%	6.23%	6.23%

**Optional Retirement Plan** – Effective July 1, 1990, the Idaho State Legislature authorized the Idaho State Board of Education to establish an Optional Retirement Plan (ORP), a defined contribution plan, for faculty and exempt employees. The employee contribution requirement for the ORP is based on a percentage of the total payroll. Employer contributions are determined by the State of Idaho. The plan provisions were established by, and may be amended by, the State of Idaho.

New faculty and exempt employees hired on or after July 1, 1990, automatically enroll in the ORP and select a vendor option. Faculty and exempt employees hired before July 1, 1990, had a one-time opportunity to enroll in the ORP. Enrollees in the ORP no longer belong to PERSI. Vendor options in the ORP include the *Teachers Insurance and Annuity Association - College Retirement Equities Fund* and the *Variable Annuity Life Insurance Company*.

Participants are immediately fully vested in the ORP. Retirement benefits are available as either a lump sum or any portion thereof upon attaining 55 years of age.

Contributions required and paid are as follows:

	2013	2012	2011
University contributions required and paid	\$ 5,913,986	\$ 5,667,518	\$ 5,430,019
Employee contributions	4,446,655	4,261,345	4,082,768
Total Contribution	<u>\$ 10,360,641</u>	<u>\$ 9,928,863</u>	<u>\$ 9,512,787</u>
University required contribution rate	9.27%	9.27%	9.27%
Employee contribution rate	6.97%	6.97%	6.97%

Although enrollees in the ORP no longer belong to PERSI, the University is required to contribute a percentage of the annual covered payroll to PERSI. Effective July 1, 2007, the percentage was changed from 3.03% to 1.49%, allowing the difference of 1.54% to be used to increase the University's contribution to ORP retirement accounts. In addition, the payoff period of the unfunded liability obligation was extended from July 1, 2015, to July 1, 2025. During the years ended June 30, 2013 and 2012, supplemental funding payments to PERSI were \$953,925 and \$912,212, respectively. These amounts are not included in the regular University PERSI contribution discussed previously.

**Termination Payments** – Employees who qualify for retirement under PERSI or ORP are eligible to use 50% of the cash value of their unused sick leave to continue their medical insurance coverage through the University. The University partially funds these obligations by depositing 0.65% of employee gross payroll to PERSI, who administers the plan for all participating ISU employees and retirees under a trust fund. The total contributions for the years ended June 30, 2013 and 2012 were \$579,840 and \$546,323, respectively.

## 10. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

### **Summary of Plans**

The University participates in other postemployment benefit plans relating to health and disability administered by the State of Idaho as agent multiple-employer defined benefit plans. The life insurance benefit is a single-employer defined benefit plan. Idaho Code, Sections 67-5760 to 67-5767 and 72-1335, establish the benefits and contribution obligations. Each of these benefits is provided by the University to retired or disabled employees. The most recent actuarial valuation is

as of July 1, 2012. The University has not set aside any assets to pay future benefits; the University funds these benefits on a pay-as-you-go basis. Details of the plans can be found in the Comprehensive Annual Report of the State of Idaho, which may be obtained from the Office of the Idaho State Controller, 700 W State Street, 4<sup>th</sup> Floor, P.O. Box 83720, Boise, ID 83720-0011 [www.sco.idaho.gov](http://www.sco.idaho.gov).

### ***Plan Descriptions and Funding Policy***

**Retiree Healthcare Plan** – A retired employee of the University who is eligible to retire under the Public Employee Retirement System of Idaho (PERSI) may elect to purchase the retiree health insurance coverage for themselves and eligible dependents. Employees must enroll within 60 days of the date of their retirement. Additionally, the employee must be receiving PERSI monthly benefits at the time of retirement and must have 10 or more years (20,800 or more hours) of credited service. An employee must have been an active employee on or before June 30, 2009, and must retire directly from State service. Coverage is not available to Medicare-eligible retirees or their Medicare-eligible dependents. Retirees eligible for medical health insurance pay the majority of the premium cost; however, the retiree plan costs are subsidized by the active employee plan. The maximum benefit is \$1,860 per retiree per year. The University contributed \$18.84 per active employee per month towards the retiree premium cost.

**Long-Term Disability Plan** – Disabled employees are defined as being unable to perform each of the substantial and material duties of the job for which they were hired and unable to earn more than 70% of their monthly salary for the first 30 months of disability. If, after 30 months, the employee is unable to perform any job for which they are reasonably qualified by experience, education, or training, and unable to earn more than 60% of their monthly salary, the employee is considered totally disabled. To qualify for long-term disability benefits, the waiting period of the greater of 26 weeks of continuous total disability or the exhaustion of the employee's accrued sick leave must be met.

For up to 30 months following the date of disability, an employee may continue healthcare coverage under the State plan. The University pays 100% of the University's share of medical and dental premiums while the employee remains disabled. The employee is required to pay the normal active employee contribution for the plan and rate category in which the employee is enrolled. The University was charged \$8 per active employee per month in fiscal year 2013.

The plan provides long-term disability income benefits to active employees who become disabled, generally up to a maximum age of 70. The gross benefit equals 60% of monthly pre-disability salary or \$4,000, whichever is less. The benefit does not increase with inflation and may be offset by other sources of income, such as Social Security, Workers' Compensation, unemployment benefits, employment rehabilitation earnings, and certain retirement benefits. The State of Idaho is self-insured for employees who became disabled prior to July 1, 2003; the State pays 100% of the cost of this benefit. The amount of the contribution is based on active claims and the number of insured individuals.

Employees disabled on or after July 1, 2003, are insured by Principal Life Insurance Company and the obligation for the payment of benefits has been effectively transferred. The University pays 100% of

the premium costs. The University's contribution rate for the period was 0.264% of payroll in fiscal year 2013. This portion of the long-term disability income benefit is not included in the actuarial estimate.

This plan also provides basic life insurance and dependent life coverage to disabled employees, generally up to a maximum age of 70. The life insurance benefit amount is generally 100% of annual salary, but not less than \$20,000. In addition, a \$2,000 life insurance benefit is provided for spouses, and a \$1,000 life insurance benefit is provided for dependent children. These benefits do not increase with inflation. The University pays 100% of the premiums; the contribution is actuarially determined based on actual claims experience.

**Retiree Life Insurance Plan** – This plan provides basic life insurance for certified retired employees. In general, the employee must have completed at least 30 years of credited service or the sum of his/her age and years of credited service must total at least 80 to qualify for this benefit. Eligible retirees receive basic life insurance coverage equal to 100% of their annual salary at retirement. The University pays 100% of the cost of basic life insurance for eligible retirees. The University's contribution for the period as a percent of payroll was 1.177% for retirees under age 65, 0.894% for retirees between the ages of 65 and 69, and 0.600% for retirees over age 70.

**Annual OPEB Cost**

The Annual OPEB Cost (AOC) is actuarially determined based on the Annual Required Contribution (ARC) of the employer. The following tables illustrate the annual OPEB cost, the amount of contributions made, the increase (decrease) in the net OPEB obligation (NOO), and the NOO (funding excess) for the years ended June 30, 2013 and 2012:

**Annual OPEB Cost and Net OPEB Obligation 2013**  
(dollars in thousands)

	Retiree Healthcare Plan	Long-Term Disability Plan			Life Insurance Plan	Total
		Income	Healthcare	Life Insurance

**Actuarial Methods and Assumptions**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information, contains multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Calculations are based on the types of benefits provided under the terms of the plan at the time of each valuation and on the pattern of sharing costs between the employer and plan members. The projection of benefits for financial reporting purposes does not incorporate the potential effects of legal funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective and actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The following table presents the significant methods and assumptions for all plans:

**Significant Methods and Actuarial Assumptions**

	<b>Retiree Healthcare Plan</b>	<b>Long-Term Disability Plan</b>			<b>Life Insurance Plan</b>
		<b>Healthcare</b>	<b>Life Insurance</b>	<b>Income</b>

	7/1/2010	\$ -	\$ 11,362	\$ 11,362	0.0%	\$ 83,360	13.63%
	7/1/2012	\$ -	\$ 9,898	\$ 9,898	0.0%	\$ 89,105	11.11%

Effective July 1, 2009, legislative changes to the Retiree Healthcare Plan regarding eligibility stipulate that an officer or employee must be an active employee on or before June 30, 2009, and retire directly from State service; the maximum benefit is \$1,860 per retiree per year. Additionally, any retiree will remain eligible until they are eligible for Medicare. Beginning January 1, 2010, coverage was not available to Medicare-eligible retirees or their Medicare-eligible dependents.

## 12. COMPONENT UNIT DISCLOSURE

The Foundation is discretely presented within the financial statements as a component unit.

The Foundation has adopted a policy of preparing its financial statements based upon generally accepted accounting principles in accordance with standards issued by the Financial Accounting Standards Board. The information disclosed hereafter is related to Foundation items that are determined to be significant to the reporting entity as a whole, but is not wholly inclusive. Separate, audited financial statements are prepared for the Foundation and may be obtained in their entirety by contacting the Idaho State University Foundation, 921 S. 8th Ave, Stop 8050, Pocatello, ID 83209-8050.

### ***Foundation Operations***

The Foundation was established in March 1967 to provide support for the private fundraising efforts of the University and to manage privately donated funds. The Foundation is a not-for-profit corporation incorporated in accordance with the laws of the State of Idaho and managed by a volunteer Board of Directors. Under the Idaho State Board of Education's administrative rules, the Foundation must be independent of, and cannot be controlled by, the University. A memorandum of understanding between the Foundation and the University defines the relationship between the two entities in accordance to the State Board of Education's rules.

During fiscal year 2013, the Foundation formed a limited liability corporation called Bengal Pharmacy, LLC (the Pharmacy) to serve students, staff and faculty being seen by the student health center and residency program, in addition to 340b patients of Health West in Southeast Idaho. During 2013 the Pharmacy's activity was limited to startup costs and initial operations. It is anticipated during 2014 for the Pharmacy to reach full operations and will have an impact on the financial statements for 2014.

### ***Principles of Consolidation***

The consolidated financial statements include the accounts of the Foundation and the Pharmacy because the Foundation has both control and economic interest in the Pharmacy. All significant intercompany accounts and transactions have been eliminated in consolidation. Unless otherwise noted, these consolidated entities are hereinafter referred to as the Foundation.

### ***Basis of Accounting***

The Foundation financial statements included in this report have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, whereby revenue is recorded when earned and expenses are recorded when materials or services are received. Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted Net Assets – Net assets that are not subject to donor-imposed restrictions.

Temporarily Restricted Net Assets – Net assets that are subject to donor-imposed stipulations that will be met either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently Restricted Net Assets – Net assets that are subject to donor-imposed restrictions that they be maintained permanently by the Foundation.

### ***Investments***

Investments are recorded in accordance with FASB Accounting Standards Codification Topic (ASC) ASC 958-320 *Investments – Debt and Equity Securities Held by Not-for-Profit Organizations*. Investments in equity and debt securities that have readily determinable fair values are recorded at quoted market prices. Investment securities without quoted market prices are valued at estimated fair value using appropriate valuation methods that consider the underlying assets and financial reports.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect account balances and the amounts reported in the accompanying financial statements.

### ***Promises to Give***

Unconditional promises to give are recognized as an asset and contribution revenue in the period the promise is received. Promises to give received after one year are discounted at rates commensurate with risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any.

### ***Obligations under Split Interest Agreements***

The Foundation administers such life income agreements as charitable remainder trusts where an income beneficiary is the lifetime recipient of income and the Foundation is the remainder beneficiary. Upon receipt of the gift, a liability is established for the estimated net present value of the lifetime recipient's interest using applicable mortality tables and a discount rate commensurate with the risks involved. A contribution is recognized for the estimated remainder interest.

### ***Fair Value Measurements***

The Foundation has determined the fair value of certain assets and liabilities in accordance with the provisions of ASC 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles.

***Capitalized Bond Issuance Costs***

Capitalized bond issuance costs consist of legal costs, underwriting fees, printing and other costs incurred to obtain, secure and rate the multi-mode variable rate revenue bonds issued for the construction of the L.E. and Thelma Stephens Performing Arts Center on May 30, 2001. The issuance costs for the bonds have an original cost of \$570,000 at May 30, 2001, and are amortized over the term of the bonds, using the effective interest rate method. Accumulated amortization of these bond costs at the end of June 30, 2013 and 2012 were \$444,167 and \$424,697, respectively.

***Endowments***

The Foundation's endowment consists of approximately 500 individual funds established for a variety of purposes. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based upon the existence or absence of donor-imposed restrictions.

From time to time, the fair value of assets associated with individual endowment funds may fall below the level that the donor or the Idaho Prudent Management of Institutional Funds Act (IPMIFA) requires the Foundation to maintain as a fund of perpetual duration. The corpus balance of the endowment was \$32,630,944 and \$31,726,688 as of June 30, 2013 and 2012, respectively. In accordance with accounting principles generally accepted in the United States of America, deficiencies of this nature that are reported in unrestricted net assets were \$2,171,690 and \$2,837,754 as of June 30, 2013 and 2012, respectively.

***Fair Value of Assets and Liabilities***

The fair value option was chosen to measure pledges and annuities in order to mitigate volatility in reported changes in net assets. Assets and liabilities measured at fair value on a recurring basis at June 30, 2013 and 2012 are shown below.

	<u>2013</u>	<u>2012</u>
Investment securities		
Mutual funds	\$ 2,642,590	\$ 2,191,983
Co-mingled and pooled marketable investment funds	37,550,505	34,586,972
Common stock	-	76,076
Hedge funds	<u>4,393,333</u>	<u>3,728,625</u>
Total assets	<u>\$ 44,586,428</u>	<u>\$ 40,583,656</u>

The related fair value of these assets and liabilities as of June 30, 2013, is determined as follows:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Stock index fund	\$ 2,642,590	\$ -	\$ -	\$ 2,642,590
Co-mingled and pooled marketable investment funds				
Real estate funds	-	127,454	-	127,454
Bond funds	-	9,646,912	-	9,646,912
Equity funds	-	17,887,355	-	17,887,355
Hedge funds	-	7,418,284	-	7,418,284
Real asset funds	-	2,470,500	-	2,470,500
Hedge funds	-	-	4,393,333	4,393,333
	<u>\$ 2,642,590</u>	<u>\$ 37,550,505</u>	<u>\$ 4,393,333</u>	<u>\$ 44,586,428</u>

The related fair value of these assets and liabilities as of June 30, 2012, is determined as follows:

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds				
Stock index fund	\$ 2,191,983	\$ -	\$ -	\$ 2,191,983
Co-mingled and pooled marketable investment funds				
Real estate funds	-	-	145,898	145,898
Bond funds	-	10,041,327	-	10,041,327
Equity funds	-	15,382,016	-	15,382,016
Money market funds	-	193,706	-	193,706
Hedge funds	-	5,648,741	-	5,648,741
Real asset funds	-	3,175,284	-	3,175,284
Common Stock	-	-	76,076	76,076
Hedge funds	-	-	3,728,625	3,728,625
	<u>\$ 2,191,983</u>	<u>\$ 34,441,074</u>	<u>\$ 3,950,599</u>	<u>\$ 40,583,656</u>

The fair value for mutual fund investments is determined based on quoted market prices. For fixed income investments, fair value is determined based on the value of the underlying investments. For co-mingled and pooled marketable investment funds, fair value is obtained by using the net asset value of the underlying investments. At this level, the underlying assets have a direct market reference price that is traceable. For hedge funds, fair value is determined with independent, third party valuations occurring monthly to every six months, depending upon the investment type.

Property held for sale and investments are valued based on property sold that had a similar use, size, and location as the property held by the Foundation. The value of pledges receivable is

determined at the present value of expected future cash flows and is fair valued at the time of the gift. In subsequent years, the value is amortized over the life of the pledge.

Assets measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the years ended June 30, 2013 and 2012, are shown below.

	2013 Hedge Funds	2012 Hedge Funds
Beginning balance	\$ 3,728,625	\$ 2,115,646
Total unrealized gains and losses included in earnings (or changes in net assets)	88,018	258,719
Calls	576,690	1,354,260
Ending balance	<u>\$ 4,393,333</u>	<u>\$ 3,728,625</u>
 The amount of total gains or losses included in changes in net assets that are attributable to the change in unrealized gains and losses relating to the assets held at the reporting date.	 <u>\$ 88,018</u>	 <u>\$ 258,719</u>

	2013			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Co-mingled and pooled marketable investment funds				
Real estate funds	\$ 127,454	\$ -	Annually	95 days
Bond funds	9,646,912	-	Monthly	5 days
Equity funds	17,868,355	-	Monthly	5 days

Hedge funds	3,728,625	2,708,812	Annually	120 days

**Multi-Mode Variable Rate Revenue Bonds**

A Multi-Mode Variable Rate Revenue Bond was issued on May 30, 2001 in the amount of \$22,170,000. The Bonds fully mature on May 1, 2021 and are secured by donations, pledges and other funds held under the Bond Indenture. Debt balance at June 30, 2013 and 2012 was \$5,800,000 and \$5,900,000, respectively. Interest payments are made monthly with a mandatory bond redemption of \$100,000 due annually on May 1<sup>st</sup>. Total interest expense and fees during 2013 and 2012 were \$106,188 and \$91,425, respectively.

The Bonds bear interest at rates determined for the Weekly Rate until converted to another permitted interest rate. The interest rate for the Bonds may be changed from time to time among the Weekly Rate, the Semi-Annual Rate, and the Long-Term Rate. Each rate will be determined by the Remarketing Agent. The interest rate at June 30, 2013 and 2012 was 0.06% and 0.18%, respectively. The Bonds are also secured by a direct pay letter of credit issued by a commercial bank in the amount of \$5,871,507. On an annual basis, the letter of credit is renewed for a fee of 1.5% of the current debt balance at the time of renewal.

Principal maturities on bonds payable for the year ending June 30 are as follows:

2014	\$ 100,000
2015	100,000
2016	475,000
2017	475,000
2018	475,000
Thereafter	<u>4,175,000</u>
	<u>\$ 5,800,000</u>

**13. SUBSEQUENT EVENTS**

No reportable subsequent events.

**14. CONTINGENCIES AND LEGAL MATTERS**

The University is a defendant in litigation arising from the normal course of operations. Based on present knowledge, the University’s administration believes any ultimate liability in these matters will not materially affect the financial position of the University.

In consequence of discovery of disabled server firewall protections, the University agreed to pay \$400,000 to the U.S. Department of Health and Human Services (HHS) to settle alleged violations of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Security Rule. The settlement involves the breach of unsecured electronic protected health information (ePHI) of approximately 17,500 patients at ISU’s Pocatello Family Medicine Clinic. The University notified HHS of the breach once the server was discovered to be compromised.

Additionally, the University has agreed to a two-year Corrective Action Plan (CAP). The University Information Technology Services Department has reasonably estimated related costs for implementing the CAP at \$318,000.

## **15. RISK MANAGEMENT**

The University participates in the State of Idaho Risk Management Program, which manages property and general liability risk. That program provides liability (cap) protection to \$500,000 per occurrence. Insurance premium payments are made to the state risk management program based on rates determined by a state agency's loss trend experience and asset value covered. Presently, Idaho State University's total insured property value is \$951,253,781.

The University obtains worker's compensation coverage from the Idaho State Insurance Fund. The University's worker's compensation premiums are based on its payroll, its own loss experience, as well as that of the State of Idaho as a whole.

The University carries commercial insurance for other risks of loss, including but not limited to employee bonds and crime, out of state worker's compensation, business interruption, media liability and automobile physical damage insurance.

**REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Idaho State Board of Education  
Idaho State University

We have audited the financial statements of Idaho State University (University) and its discretely presented component unit, Idaho State University Foundation, Inc. (Foundation), as of and for the year ended June 30, 2013, and the related notes to the financial statements, and have issued our report thereon dated September 30, 2013. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the discretely presented component unit as described in our report on the University's financial statements. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the discretely presented component unit.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT  
AUDITING STANDARDS* (continued)**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Idaho State Board of Education  
Idaho State University

### **Report on Compliance for Each Major Program**

We have audited Idaho State University's (University) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2013. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### ***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

**REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133  
(continued)**

***Opinion on Each Major Federal Program***

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as 2013-01. Our opinion on each major federal program is not modified with respect to these matters.

The University's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Finding and Questioned Costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

**Report on Internal Control over Compliance**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

**REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133  
(continued)**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2013-01 that we consider to be a significant deficiency.

The University's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**IDAHO STATE UNIVERSITY  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2013**

---

**Section I - Summary of Auditor's Results**

---

*Financial Statements*

Type of auditor's report issued: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified?  Yes  No
- Significant deficiency(ies) identified?  Yes  None reported

Noncompliance material to financial statements noted?  Yes  No

**Federal Awards**

Internal control over major programs:

- Material weakness(es) identified?  Yes  No
- Significant deficiency(ies) identified?  Yes  None reported

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of Circular A-133?  Yes  No

**Identification of Major Programs**

<i>CFDA Numbers</i>	<i>Name of Federal Program or Cluster</i>	<i>Type of Auditor's Report Issued</i>
17.275	Program of Competitive Grants for Worker Training and Placement in High Growth and Emerging Industry Sectors – ARRA	Unmodified
Various	Student Financial Aid Cluster	Unmodified
Various	TRIO Cluster	Unmodified
93.778	Medicaid Cluster	Unmodified

Dollar threshold used to distinguish between type A and type B programs: \$ 756,267

Auditee qualified as low-risk auditee?  Yes  No

---

**Section II - Financial Statement Findings**

---

None reported.

**IDAHO STATE UNIVERSITY  
SCHEDULE OF FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2013**

---

**Section III - Federal Award Findings and Questioned Costs**

---

**FINDING 2013-01 – Special Tests and Provisions: Enrollment Reporting – Noncompliance and Significant Deficiency**

**Federal Program:** CFDA 84.268 Federal Direct Loans, CFDA 84.038 Federal Perkins Loans

**Federal Agency:** Department of Education

**Criteria** – For changes in student status, Idaho State University (ISU) must update for changes in student status, report the date the enrollment status was effective, enter the new anticipated completion date, and submit the changes electronically through the batch method or the National Student Loan Database System (NSLDS) website. Institutions are responsible for timely reporting, whether they report directly or via a third-party servicer.

**Condition** – ISU reported such changes to a third-party servicer (Clearinghouse); however, the information was not transmitted to NSLDS in a timely manner. ISU did not have monitoring controls in place to ensure the Clearinghouse was reporting all submitted changes to NSLDS timely.

**Questioned Costs** – None

**Context** – During our testing of 25 students, 6 students were not timely reported (or not reported at all) to NSLDS as having a status change.

**Effect** – NSLDS does not have the correct information for these students, which could result in future issues for a student in need of federal aid or for an institution in need of awarding aid to a student.

**Cause** – ISU has controls in place for timely submissions to their third-party servicer; however, ISU was not monitoring that this information was being transmitted to NSLDS.

**Recommendation** – We recommend that ISU implements controls to monitor the NSLDS reporting and that ISU corrects the status of students that were not reported to NSLDS.

**Management’s Response** - Management concurs with the audit finding and has implemented the following processes in response:

A manual review of all students withdrawn after the last date of the Fall and Spring terms will be conducted to make sure the NSLDS records are accurate.

A report has been written to compare student legal first names in the ISU database system with names that were matched in the student financial aid social security matching process. This report is already being generated and reviewed weekly to prevent further NSLDS rejects caused by first name mismatches.

**IDAHO STATE UNIVERSITY****NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**YEAR ENDED JUNE 30, 2013**

---

**1. BASIS OF PRESENTATION**

The schedule of expenditures of federal awards includes the federal grant activity of the University and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

**2. UNIVERSITY ADMINISTERED LOAN PROGRAMS**

The University administers the following Federal Perkins Loan Program (CFDA number 84.038). The outstanding loan balance and total loan disbursements were \$2,150,129 and \$244,500, respectively, for the year ended June 30, 2013. The cumulative administrative costs allowance as of the year ended June 30, 2013 was \$613,869.

Funds distributed as agent for the Federal Direct Lending Program of \$72,149,789 and the Federal Teach Program of \$364,922 are not included in the revenues or expenses of the University.

**3. FEDERAL WORK STUDY**

The University participates in the Federal Work Study program (FWS). A portion of the federal award amount for this program is used by the University to fund America Reads. Under the America Reads waiver provided by the U.S. Department of Education, the federal government waives the 25% matching requirement and pays 100% of the wages of FWS students who serve as reading mentors or tutors to preschool and elementary school children.

**OPERATING AGREEMENT  
BETWEEN  
IDAHO STATE UNIVERSITY FOUNDATION, INC.  
AND  
IDAHO STATE UNIVERSITY**

2013

THIS AGREEMENT, entered into as of this 17<sup>th</sup> day of September ~~2011~~, is between Idaho State University, herein known as "University" and the Idaho State University Foundation, Inc., herein known as "Foundation".

WHEREAS, the Foundation was organized and incorporated in 1967 for the purpose of stimulating voluntary private support from alumni, parents, friends, corporations, foundations, and others for the benefit of the University.

WHEREAS, the Foundation exists to raise and manage private resources supporting the mission and priorities of the University, and provide opportunities for students and a degree of institutional excellence unavailable with state funding levels.

WHEREAS, the Foundation is dedicated to assisting the University in the building of the endowment to address, through financial support, the long-term academic and other priorities of the University.

WHEREAS, as stated in its articles of incorporation, the Foundation is a separately incorporated 501(c)(3) organization and is responsible for identifying and nurturing relationships with potential donors and other friends of the University; soliciting cash, securities, real and intellectual property, and other private resources for the support of the University; and acknowledging and stewarding such gifts in accordance with donor intent and its fiduciary responsibilities.

WHEREAS, furthermore, in connection with its fund-raising and asset-management activities, the Foundation utilizes, in accordance with this Agreement, personnel experienced in planning for and managing private contributions and works with the University to assist and advise in such activities.

WHEREAS, the parties hereby acknowledge that they will at all times conform to and abide by, the Idaho State Board of Education's Governing Policies and Procedures, Gifts and Affiliated Foundations policy, § V.E., and that they will submit this Agreement for initial prior State Board of Education ("State Board") approval, and thereafter every ~~two (2)~~<sup>three (3)</sup> years, or as otherwise requested by the State Board, for review and re-approval.

NOW THEREFORE, in consideration of the mutual commitments herein contained, and other good and valuable consideration, receipt of which is hereby acknowledged, the parties agree as follows:

### **ARTICLE I Foundation's Purposes**

The Foundation is the primary affiliated foundation responsible for securing, managing and distributing private support for the University. Accordingly, to the extent consistent with the Foundation's Articles of Incorporation and Bylaws, and the State Board's Policies and Procedures, the Foundation shall: (1) solicit, receive and accept gifts, devises, bequests and other direct or indirect contributions of money and other property made for the benefit of the University from the general public (including individuals, corporations, other entities and other sources); (2) manage and invest the money and property it receives for the benefit of the University; and (3) support and assist the University in fundraising and donor relations.

In carrying out its purposes the Foundation shall not engage in activities that conflict with (1) federal or state laws, rules and regulations (including, but not limited to all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) applicable polices of the State Board; or (3) the role and mission of the University.

**ARTICLE II**  
**Foundation's Organizational Documents**

The Foundation shall provide copies of its current Articles of Incorporation and Bylaws to the University and the State Board. All amendments of such documents shall also be provided to the University and the State Board. Furthermore, the Foundation shall, to the extent practicable, provide the University with an advance copy of any proposed amendments to the Foundation's Articles of Incorporation and Bylaws.

**ARTICLE III**  
**University Resources and Services**

1. University Employees.

a. *University/Foundation Liaison:* The University's Vice President for University Advancement shall serve as the University's Liaison to the Foundation.

i. The University's Vice President for University Advancement shall be responsible for coordinating the University's and the Foundation's fundraising efforts and for supervising and coordinating the administrative support provided by the University to the Foundation.

ii. The Vice President for University Advancement or her/his designee shall attend each meeting of the Foundation's Board of Directors and shall report on behalf of the University to the the Foundation's Board of Directors regarding the University's coordination with the Foundation's fundraising efforts.

b. *Finance Director:* The *Finance Director* of the Foundation is an employee of the University loaned to the Foundation. All of the *Finance Director's* services shall be provided directly to the Foundation as follows:

i. The *Finance Director* shall be responsible for the supervision and control of the day-to-day operations of the Foundation. More specific duties of the *Finance Director* may be set forth in a written job description prepared by the Foundation and attached to the Loaned Employee Agreement described in iii below. The *Finance Director* shall be subject to the control and direction of the Foundation.

ii. The *Finance Director* shall be an employee of the University and entitled to University benefits to the same extent and on the same

terms as other full-time University employees of the same classification as the *Finance Director*. The Foundation shall reimburse the University for all costs incurred by the University in connection with the University's employment of the *Finance Director* including such expenses as salary, payroll taxes, and benefits.

iii. The Foundation and the University shall enter into a written agreement, in the form of Exhibit "A" hereto, establishing that the *Finance Director* is an employee of the University but subject to the direction and control of the Foundation (generally a "Loaned Employee Agreement"). The Loaned Employee Agreement shall also set forth the relative rights and responsibilities of the Foundation and the University with respect to the *Finance Director*, including the following:

1. The Foundation shall have the right to choose to terminate the Loaned Employee Agreement in accordance with Foundation Procedures and applicable law, such termination may include election by the Foundation for non-renewal of the Loaned Employee Agreement.
2. Termination of the Loaned Employee Agreement in accordance with the Foundation procedures and applicable law shall also result in termination of any obligation of the University to employ the Loaned Employee, subject to applicable legal and procedural requirements of the State of Idaho and the University.
3. Loaned Employee shall be subject to the supervision, direction and control of the Foundation Board of Directors and shall report directly to the Foundation president or her/his designee. Further, the Foundation shall have the primary role in hiring a Loaned Employee, subject to applicable State or University requirements.

c. *Other Loaned Employees.* Other loaned employees providing services pursuant to this Agreement shall also serve pursuant to a Loaned Employee Agreement, Exhibit "A", which shall set forth their particular responsibilities and duties.

d. *Limited Authority of University Employees.* Notwithstanding the foregoing provisions, no University employee who functions in a key administrative or policy making capacity for the University (including, but not limited to, any University Vice-President

or equivalent position) shall be permitted to have responsibility or authority for Foundation policy making, financial oversight, spending authority, investment decisions, or the supervision of Foundation employees.

2. Support Staff Services. The University shall provide administrative, financial, accounting, and development services to the Foundation, as set forth in the Service Agreement attached hereto as Exhibit "B" ("Service Agreement"). All University employees who provide support services to the Foundation shall remain University employees under the direction and control of the University, unless it is agreed that the direction and control of any such employee will be vested with the Foundation in a written Loaned Employee Agreement. The Foundation will pay directly to the University the portion of the overhead costs associated with the services provided to the Foundation pursuant to the Service Agreement. The portion of such costs shall be determined by the agreement of the Parties.

3. University Facilities and Equipment. The University shall provide the use of the University's office space, equipment and associated services to the Foundation's employees upon the terms agreed to by the University and the Foundation. The terms of use (including amount of rent) of the University's office space, equipment and associated services shall be as set forth in the Service Agreement, Exhibit "B" hereto.

4. No Foundation Payments to University Employees. Notwithstanding any provision of this Agreement to the contrary, the Foundation shall not make any payments directly to a University employee in connection with any resources or services provided to the Foundation pursuant to this Article of this Operating Agreement.

#### **ARTICLE IV Management and Operation of Foundation**

1. Gift Solicitation.

a. *Authority of Vice President for University Advancement.* All Foundation gift solicitations shall be subject to the direction and control of the Vice President for University Advancement.

b. *Form of Solicitation.* Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the University; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.

c. *Foundation is Primary Donee.* Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the University.

## 2. Acceptance of Gifts.

a. *Approval Required Before Acceptance of Certain Gifts.* Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by the University, the Foundation shall obtain the prior written approval of the University, and where required by State Board policy, approval of the State Board. Similarly, the Foundation shall also obtain the prior written approval of the University of the acceptance of any gift or grant that would impose a binding financial or contractual obligation on the University.

b. *Acceptance of Gifts of Real Property.* The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. All gifts of real property intended to be held and used by the University shall be approved by the State Board before acceptance by the University and the Foundation. In cases where the real property is intended to be used by the University in connection with carrying out its proper functions, the real property may be conveyed directly to the University, in which case the University and not the Foundation shall be responsible for the due diligence obligations for such property.

c. *Processing of Accepted Gifts.* All gifts received by the University or the Foundation shall be delivered (if cash) or reported (if any other type of property) to the Foundation's designated gift administration office (a unit of the Foundation) in accordance with the Service Agreement.

3. Fund Transfers. The Foundation agrees to transfer funds, both current gifts and income from endowments, to the University on a regular basis as agreed to by the Parties. The Foundation's Treasurer or other individual to whom such authority has been delegated by the Foundation's Board of Directors shall be responsible for transferring funds as authorized by the Foundation's Board of Directors.

a. *Restricted and Unrestricted Gift Transfers.* The Foundation may make restricted donations to the University. Such donated funds will only be expended by the University pursuant to the terms of such restrictions. The Foundation may also make unrestricted donations to the University. Such donated funds will be expended under the oversight of the University President in compliance with state law and University policies. All expenditures notes in this section must comply with the I.R.S. 501(c)(3) code and be consistent with the Foundation's sole mission to support the University.

## 4. Foundation Expenditures and Financial Transactions.

a. *Signature Authority.* The Foundation designates the Foundation Treasurer as the individual with signature authority for the Foundation in all financial transactions with the University. The Foundation may supplement or change this designation with written notice to the University; provided, however, in no event may the person with Foundation signature

authority for financial transactions be a University employee nor a "Loaned Employee" as that term is used in this Agreement.

b. Expenditures. All expenditures of the Foundation shall be (1) consistent with the charitable purposes of the Foundation, and (2) not violate restrictions imposed by the donor or the Foundation as to the use or purpose of the specific funds.

5. University Report on Distributed Funds. On a regular basis, which shall not be less than annually, the University shall report to the Foundation on the use of restricted and unrestricted funds transferred to the University. This report shall specify the restrictions on any restricted funds and the uses of such funds.

6. Transfer of University Assets to the Foundation. No University funds, assets, or liabilities may be transferred directly or indirectly to the Foundation without the prior approval of the State Board except when:

- a. A donor inadvertently directs a contribution to the University that is intended for the Foundation in which case such funds may be transferred to the Foundation so long as the documents associated with the gift indicate the Foundation was the intended recipient of the gift. In the absence of any such indication of donor intent, such funds shall be deposited in an institutional account, and State Board approval will be required prior to the University's transfer of such funds to the Foundation.
- b. The University has gift funds that were originally transferred to the University from the Foundation and the University wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.
- c. The institution has raised scholarship funds through an institution activity and the institution wishes to deposit the funds with the foundation for investment and distribution consistent with the scholarship nature of the funds.
- d. Transfers of a *de minimis* amount not to exceed \$10,000 from the institution to the Foundation provided such funds are for investment by the Foundation for scholarship or other general university support purposes. This exception shall not apply to payments by the institution to the Foundation for obligations of the institution to the Foundation, operating expenses of the Foundation or other costs of the Foundation.

7. Separation of Funds. All Foundation assets (including bank and investment accounts) shall be held in separate, password protected accounts in the name of the Foundation using Foundation's Federal Employer Identification Number. The financial records of the Foundation shall be kept using a separate chart of accounts. For convenience purposes, some

Foundation expenses may be paid through the University such as payroll and campus charges. These expenses will be paid through accounts clearly titled as belonging to the Foundation and shall be reimbursed by the Foundation on a regular basis. Further, the Foundation shall make data available to external auditors as necessary to complete audit responsibilities.

8. Insurance. To the extent that the Foundation is not covered by the State of Idaho Retained Risk program, the Foundation shall maintain insurance to cover the operations and activities of its directors, officers and employees. The Foundation shall also maintain general liability coverage.

9. Investment Policies. All funds held by the Foundation, except those intended for short term expenditures, shall be invested in accordance with the Uniform Prudent Management of Institutional Funds Act, Idaho Code Sections 33-5001 to 33-5010, and the Foundation's investment policy which is attached hereto as Exhibit "C"; provided, however, the Foundation shall not invest any funds in a manner that would violate the applicable terms of any restricted gifts. The Foundation shall provide to the University any updates to such investment policy which updates shall also be attached hereto as Exhibit "C".

10. Organization Structure of the Foundation. The organizational structure of the Foundation is set forth in the Foundation's Articles of Incorporation which are attached hereto as Exhibit "D" and the Foundation's Amended and Restated Bylaws which are attached as Exhibit "E." The Foundation agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to both the University and the State Board.

11. Conflicts of Interest and Ethical Conduct. The Foundation has adopted a written policy addressing the manner the Foundation will address conflict of interest situations. The Foundation's Conflict of Interest Policy is set forth as Exhibit "F", and the Foundations Code of Ethical Conduct is set forth as Exhibit "G".

## **ARTICLE V**

### **Foundation Relationships with the University**

1. Access to Records. The Foundation shall establish and enforce policies to protect donor confidentiality and rights. The donor database, as well as other data, materials and information of the Foundation pertaining to past, current or prospective donors, are proprietary to the Foundation and constitute its confidential information and trade secrets. The University shall not access such information except in compliance with the Foundation's donor confidentiality policies. The Foundation and University shall take the steps necessary to monitor and control access to the donor database and to protect the security of the server and software relevant to the database.

The Foundation will provide access to data and records to the University on a need-to-know basis in accordance with applicable laws, Foundation policies, and guidelines. The University shall, at any time, have access to the financial records of the Foundation. The scope of this right of the University shall be construed as broadly as needed to conduct a complete audit of the Foundation as such an audit would be conducted under generally accepted accounting procedures if the University should so require. Provided, however, that the University need not conduct an audit to be provided such access, but shall be provided such access at any time.

The University's access shall not include donor specific data such that would provide individually identifiable information about donors or their donations made to the Foundation.

2. Record Management.

a. The Parties recognize that the records of the Foundation relating to actual or potential donors contain confidential information. Such records shall be kept by the Foundation in such a manner as to protect donor confidentiality to the fullest extent allowed by law. Notwithstanding the access to records permitted above, access to such confidential information by the University shall be limited to the University's President and any designee of the University's President.

b. The Foundation shall be responsible for maintaining all permanent records of the Foundation including but not limited to the Foundation's Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, all gift instruments, and all other Foundation records as required by applicable laws.

c. Except to the extent that records are confidential (including confidential donor information), the Foundation agrees to be open to public inquiries for information that would normally be open in the conduct of University affairs and to provide such information in a manner consistent with the Idaho Public Records Law, set forth in Idaho Code Sections 9-337 – 9-350, except where otherwise required by state and federal law.

3. Name and Marks. Each Party hereby is granted a general, non-exclusive, royalty-free license to use the corporate name of the other, specifically: "Idaho State University" and "The Idaho State University Foundation" in all activities conducted in association with or for the benefit of the other. Use of the other Party's name must be in manner that clearly identifies the Parties as separate entities, and neither Party may use the other Party's name to imply approval or action of the other Party. Neither Party may delegate, assign, or sublicense the rights granted hereunder without express written consent from the other Party. This license does not extend to any identifying marks of either Party other than the specified corporate name. Use of other marks must receive prior written approval.

4. Identification of Source. The Foundation shall be clearly identified as the source of any correspondence, activities and advertisements emanating from the Foundation.

5. Establishing the Foundation's Annual Budget. The Foundation shall provide the University with the Foundation's proposed annual operating budget and capital expenditure plan (if any) prior to the date the Foundation's Board of Directors meeting at which the Foundation's Board of Directors will vote to accept such operating budget. Any of the University's funding requests to the Foundation shall be communicated in writing to the Foundation's Treasurer and Assistant Treasurer. If the request is for reimbursement, the University shall provide appropriate documentation to the Foundation to ensure that the funds to be reimbursed were used in compliance with donor intent.

6. Attendance of University's President at Foundation's Board of Director Meetings. The University's President shall be invited to attend all meetings of the Foundation's Board of Directors and may act in an advisory capacity in such meetings.

7. Supplemental Compensation of University Employees. Unless approved by the State Board, no supplemental compensation of University employees may be made by the Foundation. Provided the Foundation may reimburse the University for those benefits which are necessary for its normal course of operations, including, but not limited to, travel and continuing professional education. This is not intended to proscribe reimbursement by the Foundation of the University's expenses associated with "Loaned Employees" as set forth elsewhere in this Agreement, nor the payment of funds by the Foundation to the University in support of endowed chairs or similar faculty positions.

## **ARTICLE VI**

### **Audits and Reporting Requirements**

1. Fiscal Year. The Foundation and the University shall have the same fiscal year.

2. Annual Audit. On an annual basis, the Foundation shall have an audit conducted by a qualified, independent certified public accountant who is not a director or officer of the Foundation. The annual audit will be provided on a timely basis to the University's President and the Board, in accordance with the Board's schedule for receipt of said annual audit. The Foundation's Annual Statements may be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the University as defined by the Government Accounting Board Standards Board (GASB). Accordingly, the University, which follows a GASB format, is required to include the Foundation in its Financial Statements. Therefore, if the Foundation presents its audited Financial Statement under FASB, Schedules reconciling the FASB Statements to GASB standards must be provided to the State of Idaho in the detail required by GASB standards. The annual audited Financial Statements and Schedules shall be submitted to the University's Office of Finance and Administration in sufficient time to incorporate the same into the State of Idaho's Comprehensive Annual Financial Review statements.

3. Separate Audit Rights. The University agrees that the Foundation, at its own expense, may at any time during normal business hours conduct or request additional audits or reviews of the University's books and records pertinent to the expenditure of donated funds. The Foundation agrees that the University and the State Board, at its own expense, may, at reasonable times, inspect and audit the Foundation's books and accounting records.

4. Annual Reports to University President. On a regular basis, which shall not be less than annually, the Foundation shall provide a written report to the University President and the State Board setting forth the following items:

- a. the annual financial audit report;
- b. an annual report of Foundation transfers made to the University;
- c. an annual report of unrestricted funds received by the Foundation;
- d. an annual report of unrestricted funds available for use during the current fiscal year;
- e. a list of all of the Foundation's officers, directors, and employees;
- f. a list of University employees for whom the Foundation made payments to the University for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;
- g. a list of all state and federal contracts and grants managed by the Foundation;
- h. an annual report of the Foundation's major activities;
- i. an annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding Foundation fiscal year for the benefit of the University; and
- j. an annual report of (1) any actual litigation involving the Foundation during its fiscal year; (2) identification of legal counsel used by the Foundation for any purpose during such year; and (3) identification of any potential or threatened litigation involving the Foundation.

**ARTICLE VII**  
**Conflict of Interest and Code of Ethics and Conduct**

1. Conflicts of Interest and Code of Ethics and Conduct Policy Statement. The Foundation has adopted a written policy addressing the manner the Foundation will address conflict of interest situations. The Foundation's Conflict of Interest Policy is set as Exhibit "F", and its Code of Ethics and Conduct is set forth as Exhibit "G".
2. Dual Representation. Under no circumstances may a University employee represent both the University and the Foundation in any negotiation, sign for both entities in transactions, or direct any other institution employee under their immediate supervision to sign for the related party in a transaction between the University and the Foundation. This shall not prohibit University employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.
3. Contractual Obligation of University. The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the University without first obtaining the prior written approval of the University and, if applicable under law or policy, the State Board of Education. University approval of any such contract shall comply with policies of the State Board of Education with respect to approval of University contracts.
4. Acquisition or Development of Real Estate. The Foundation shall not acquire or develop real estate or otherwise build facilities for the University's use without first obtaining approval of the State Board. In the event of a proposed purchase of real estate for such purposes by the Foundation, the University shall notify the State Board and where appropriate, the Idaho Legislature, at the earliest possible date, of such proposed purchase for such purposes. Furthermore, any such proposed purchase of real estate for the University's use shall be a coordinated effort of the University and the Foundation. Any notification to the State Board required pursuant to this paragraph may be made through the State Board's chief executive officer in executive session pursuant to Idaho Code Section 67-2345(1)(c).

**ARTICLE VIII**  
**General Terms**

1. Effective Date. This Agreement shall be effective on the date set forth above.
2. Right to Terminate. This Operating Agreement shall terminate upon the mutual written agreement of both parties. In addition, either party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either party may terminate this Operating Agreement in the event the other party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting party specifying the nature of the default. Should the University choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the

Foundation that is not cured within the time frame set forth above, the Foundation may require the University to pay, within 180 days of written notice, all debt incurred by the Foundation on the University's behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. Should the Foundation choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the University that is not cured within the time frame set forth above, the University may require the Foundation to pay any debt it holds on behalf of the Foundation in like manner. The parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event the parties are unable to negotiate a new agreement within the time period specified herein, they will refer the matter to the State Board for resolution. Termination of this Operating Agreement shall not constitute or cause dissolution of the Foundation.

3. Board Approval of Operating Agreement. Prior to the Parties' execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be submitted to the State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every two (2) years or more frequently if otherwise requested by the State Board.

4. Modification. Any modification to the Agreement shall be in writing and signed by both Parties.

5. Providing Document to and Obtaining Approval from the University. Unless otherwise indicated herein, any time documents are to be provided to the University or any time the University's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from, the University's President or an individual to whom such authority has been properly delegated by the University's President.

6. Providing Documents to and Obtaining Approval from the Foundation. Unless otherwise indicated herein, any time documents are to be provided to the Foundation or any time the Foundation's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, the Foundation's Board of Directors or an individual to whom such authority has been properly delegated by the Foundation's Board of Directors.

7. Notices. Any notices required under this agreement may be mailed or delivered as follows:

To the University:

President  
Idaho State University  
921 South 8<sup>th</sup> Ave. Stop 8310  
Pocatello, ID 83209-8410

To the Foundation:

Vice President for Advancement  
Idaho State University  
921 South 8<sup>th</sup> Ave. Stop 8024  
Pocatello, ID 83209-8024

Finance Director  
Idaho State University Foundation  
921 South 8<sup>th</sup> Ave. Stop 8050  
Pocatello, ID 83209-8050

8. No Joint Venture. At all times and for all purposes of this Memorandum of Understanding, the University and the Foundation shall act in an independent capacity and not as an agent or representative of the other party.

9. Liability. The University and Foundation are independent entities and neither shall be liable for any of the other's contracts, torts, or other acts or omissions, or those of the other's trustees, directors, officers, members or employees.

10. Indemnification. The University and the Foundation each agree to indemnify, defend and hold the other party, their officers, directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney's fees arising out of or resulting from the willful act, fault, omission, or negligence of the party, its employees, contractors, or agents in performing its obligations under this Operating Agreement. This indemnification shall include, but not be limited to, any and all claims arising from an employee of one party who is working for the benefit of the other party. Nothing in this Operating Agreement shall be construed to extend to the University's liability beyond the limits of the Idaho Tort Claims Act, Idaho Code §6-901 et seq.

11. Dispute Resolution. The parties agree that in the event of any dispute arising from this Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the parties. If the staff cannot resolve the dispute, the dispute will be referred to the Chair of the Foundation and the University President. If the Foundation and University President cannot resolve the dispute, then the dispute will be referred to the Foundation Chair and the State Board of Education for resolution. If they are unable to resolve the dispute, the parties shall submit the dispute to mediation by an impartial third party or professional mediator mutually acceptable to the parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either party shall have the right to initiate litigation arising from this Agreement. In the event of litigation, the prevailing party shall be entitled, in addition to any other rights and remedies it may have, to

reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

12. Dissolution of Foundation. Consistent with provisions appearing in the Foundation's Bylaws and/or Articles of Incorporation, should the Foundation cease to exist or cease to qualify as an Internal Revenue Code §501(c)(3) organization, the Foundation will transfer its assets and property to the University, to a reincorporated successor Foundation organized to benefit the University, or to the State of Idaho for public purposes, in accordance with Idaho law.

13. Assignment. This Agreement is not assignable by either party, in whole or in part.

14. Governing Law. This Agreement shall be governed by the laws of the State of Idaho.

15. Severability. If any provision of this Agreement is held invalid or unenforceable to any extent, the remainder of this Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

16. Entire Agreement. This Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

IN WITNESS WHEREOF, the University and the Foundation have executed this agreement on the above specified date.

# Message from the Dean

Each year, the Division of Health Sciences (DHS) at Idaho State University issues an annual report documenting our accomplishments and our challenges. This publication serves both as a means of communicating with our external constituents and as an internal “dashboard,” guiding the DHS faculty and administrators.

The DHS continues to grow, and our reliance on state-appropriated funds continues to decrease. Our professional fees, clinic receipts, external grants and contracts and fund raising help us recruit high-quality faculty and assure that our facilities have state-of-the-art equipment. Our faculty’s scholarly activity brings national recognition to ISU. Our clinics provide the training ground for our entry-level professional students and service individuals in the community who might not otherwise have access to care. We continue to seek to increase our federal grants in this era of austerity.

The DHS is the largest academic unit at ISU. We have a major presence on the Pocatello, Idaho Falls and Meridian campuses. Our size and scope increase our responsibility to the University to be productive, high quality and efficient. The information and data contained in this report indicates that the DHS is serving the University and the State of Idaho well. I thank the dedicated staff, faculty and our hard working students for making the DHS an organization in which I take great pride.

Linda Hatzenbuehler, PhD  
Executive Dean and  
Associate Vice President  
ISU Division of Health  
Sciences

# Division of Health Sciences

## Mission Statement

Idaho State University's Division of Health Sciences provides continued leadership in the delivery of rural health care by educating caring and competent professionals across all dimensions of health and promotes collaborative research and practice in the health sciences.

## Vision

The Division of Health Sciences is a leader in improving health through collaboration.

## Core Values

- Professional Integrity - Promoting professional ethical standards and respecting the integrated roles of all health professionals
- Holistic Approach to Health - Emphasizing a comprehensive view of human health, including curative and preventive dimensions
- Collaboration - Recognizing the value of internal and external partnerships through professional and community engagement.
- Discovery and Innovation - Seeking new evidence to improve health
- Dedication - Support to the mission and vision of the DHS
- Excellence - Striving for excellence in all aspects of professional, academic and personal endeavors

## Goal Areas

- Goal 1 - To assure continued viability and quality for DHS programs and services.
- Goal 2 - To create an environment conducive to inquiry.
- Goal 3 - To continue commitment to excellence and innovation in education in ways that effectively improve the health care delivery system.
- Goal 4 - To expand the DHS image, presence, and influence locally and beyond.
- Goal 5 - To expand University Clinics.

# Kasiska School of Health Professions

# Counseling

## Certificate/Degree Programs

- Master of Counseling:
  - School Counseling
  - Clinical Mental Health Counseling
  - Marriage, Couples, and Family Counseling
  - Student Affairs Counseling
- Ed.S. in School Counseling
- Ph.D. program: Counselor Education & Counseling

## New Courses/Programs/Degrees

- Reorganized curriculum for new accreditation standards.

## Student Enrollment

- Master of Counseling:
  - 18 students enrolled in School Counseling
  - 46 students enrolled in Clinical Mental Health Counseling
  - 10 students enrolled in Marriage, Couples, and Family Counseling
  - 3 students enrolled in Student Affairs Counseling
- 1 student enrolled in Ed.S. in School Counseling
- 17 students enrolled in the Ph.D. program: Counselor Education & Counseling

## Post Graduation Idaho Employment

- 75% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 95% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Council for the Accreditation of Counseling and Related Educational Programs (CACREP)

## Faculty Research Engagement

- 8.5 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- 6 Ph.D. students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- 23 community members were served at the ISU Community Health Fairs & Screenings in Pocatello.
- 189 community members were served at the ISU Community Health Fairs & Screenings in Meridian.

## Conferences/Seminars Hosted

- Highlights include the inaugural international trip to Malaysia, high commendations for the Sand Tray workshop, provision of first online programs, and the donation of a framed gift from the participants in the Art Therapy workshop.
- Professional Development Workshops

### July – Dec. 2011

- Counseling Ethics in Sandtray, Pocatello, July 8, Jennifer Kerner & Jill Weadick

  - Psychodiagnosis: Psychotropic Meds., Meridian (DL), June 22 & 23, Stephen DeNagy
  - Learning Theory/Psychology Learning, Online, May 9 - July 6, Virginia Nodoro

## National Recognition

Three doctoral students, namely Steve Moody, Rebecca Pender, and Rebecca Tadlock Marlo, were selected as Emerging Leaders by Association for Counselor Education and Supervision in Fall 2011.

## Goals for the Upcoming Year

- Develop vision and core values of department for the next five years.
- Implement revised curriculum at master's and doctoral level starting fall 2012. Support faculty members as they revise syllabi and course experiences.
- Develop and implement student learning outcomes for all majors and degrees.
- Develop rubrics for comprehensive exams at the master's and doctoral level.
- Expand social media and webpage to be more focused on recruitment and promotion.

# Counseling

## Goals for the Upcoming Year (cont.)

- Develop rubrics for master's and doctoral admissions. Revise admissions procedures by diversifying assessment activities.
- Develop a recruitment strategy at the master's and doctoral level.
- Negotiate and revise workload across all faculty members based on programmatic need, faculty preferences, and faculty transitions.
- Increase scholarly productivity by 3%.
- Map out success rate of translating dissertations into professional publications. Develop strategies to more effectively encourage the publication of dissertation.

## Clinics & Clinical Services

- Two locations – Pocatello and Meridian

## Clinic Patient Visits

- 376 patients were seen by the ISU-Pocatello clinic.
- 1,024 patients were seen by the ISU-Meridian clinic.

## Faculty & Student Clinic Participation

- Pocatello:
  - 1 faculty
  - 11 doctoral students
  - 7 master's students (Fall 2011)
  - 7 master's students (Spring 2012)
- Meridian:
  - 2 faculty
  - 5 doctoral students,
  - 11-15 master's students (Fall 2011)
  - 17-20 master's students (Spring 2012)

## Certificate/Degree Programs

- Baccalaureate of Science in Dietetics
- Post Baccalaureate Certificate

## Student Enrollment

- 97 students are enrolled in the Bachelor of Science program called Didactic Program in Dietetics.
- 16 students are enrolled in the Post Baccalaureate Certificate program (Dietetic Internship).

## Post Graduation Idaho Employment

- 53% of the Didactic Program in Dietetics students obtain employment in Idaho after graduation.
- 38% of the Dietetic Internship students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 93% of their Didactic Program in Dietetics students pass the clinical licensure and certification exams.
- 93% of their Dietetic Internship students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics.

## Faculty Research Engagement

- 5 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- \$48,343 (Cynthia Blanton, PhD, RD, LD)

## Students in Clinical Research

- 7 Didactic Program in Dietetics students participate in clinical research as part of their degree program.
- 16 Dietetic Internship students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- Didactic Program in Dietetics served 500 community members at the ISU & Aberdeen Health Fairs.
- Dietetic Internship program served 50 community members at the ISU-Meridian screening.

## Conferences/Seminars Hosted

- The International Scientific Conference on Probiotics and Prebiotics, Slovakia, June 12-14, 2012. Oral presentation, Dietary synbiotics attenuate bone loss in mature male rats following simulated weightlessness and recovery. Blanton, Cynthia as PI, First Author.
- Experimental Biology 2012, April 21-24: Effect of beef consumption on body iron and cognitive function in iron-deficient women; Blanton, Cynthia as PI, First Author.

## National Recognition

- Dietetic Students/Advisor: Phi Upsilon Omicron National Honor Society-ISU Beta Rho Chapter 1st place regional award for Professional Project.

## Awards & Grants Received

- Dr. Cynthia Blanton - ISU internal grants- \$3380.00

## Goals for the Upcoming Year

- Update DPD and DI program competencies and knowledge statements based upon 2012 ACEND revised standards.
- Complete PAR report with updated short and long term goals for both programs.
- Submit request for NTD 2239 Nutrition course for consideration to meet new University general education goals.
- Conduct needs assessment and develop template for potential combined master's program with Dietetic Internship.

## Publications

- Blanton, C., Green, M., Kretsch, M. (2012). Body Iron is Associated with Cognitive Executive Planning Function in College Women. *Br J Nutrition*, doi:10.1017/S000714512002620.
- Blanton, C., Gabaldon, A. (2012). Effect of dietary synbiotics on bone in mature male rats following recovery from hindlimb unloading. *Int J Probiotics Prebiotics*. Accepted, in press.

# Health Care Administration

## Certificate/Degree Programs

- Baccalaureate Degree in Health Care Administration

## Student Enrollment

- 75 students are enrolled in the Health Care Administration program.

## Post Graduation Idaho Employment

- 50% of their students obtain employment in Idaho after graduation.

## Program Accreditation By

- Association of University Programs in Health Administration

## Awards & Grants Received

- Student Association of Health Care Administrators received \$500 from the American College of Healthcare Executives.

## Goals for the Upcoming Year

- Conduct feasibility of developing a Masters of Health Care Administration Program.
- Grow number of students who declare and admit to major.

## Publications

- Hermanson, P. and Farnsworth, T. (2012). Case 10: Managing Retail-Based Health Clinics: Financial Performance and Mission. In Johnson, J., & Musch, S. (Eds.), *Multi-Sector Casebook in Health Administration, Leadership, and Management*, 1st Ed., Maryland Heights, MO: Delmar Publishers.
- Farnsworth, T., Frantz, A., and McCune, R. (2012). Community-based Distributive Medical Education: Advancing Society. *Medical Education Online*, Vol. 17, 2012.

# Health Education

## Certificate/Degree Programs

- Baccalaureate of Arts Degree in Health Education
- Baccalaureate of Science Degree in Health Education
- Masters Degree in Health Education

## Student Enrollment

- 32 Majors and 17 minors in the Bachelor's Program
- 26 students are enrolled in the Masters of Health Education program.

## Post Graduation Idaho Employment

- 75% of their students obtain employment in Idaho after graduation.

## Program Accreditation By

- The National Council for Accreditation of Teacher Education (NCATE)

## Faculty Research Engagement

- 5 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Idaho Department of Health and Welfare—Addictions Studies Program—\$20,000

## National Recognition

- Dr. John M. Batacan—Collegiate Educator of the Year (2012) IAHPERD

## Awards & Grants Received

- Idaho Department of Health and Welfare—Addictions Studies Program—\$20,000

## Goals for the Upcoming Year

- Recruit HE/MHE students from all ISU recruiting events
- Each HE faculty member publish one article

## Publications

- Olsen, J. (2012). Body image in middle-aged Mormon women: A comparative case study [Dissertation Abstracts and Summaries]. *Body Image*. 9(1). Retrieved from <http://about.elsevier.com/bodyimage/Vol9Iss1/index.html>

# Wellness Center

## Certificate Programs

- CPR/AED Standard Certification
- First Aid Certification
- Basic Life Support for Health Care Providers
- Re-certifications

## New Courses

- New fitness courses offered through Get Fit program:
- High Intensity Interval Training (HITT)
- Resistance, Intervals, Power, Plyometrics, Endurance, Diet (RIPPED)
- Cardio Blast

## Student Enrollment

- CPR/AED Standard Certifications: 61
- First Aid Certifications: 70
- Basic Life Support for Health Care Providers: 71
- Re-certifications: 31
- Note: These are 4 to 8 hour certification trainings, single session. The numbers listed are for completed certifications.

## Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.
- Note: Students are assessed for skills through demonstration and written examinations and have the opportunity to re-take the assessments until skills/knowledge requirements are met.

## Health Fairs & Screening Events

- The Wellness Center served 300 individuals at the ISU Community Health Fairs & Screenings.

## Goals for the Upcoming Year

- Increase program visibility on and off campus
- Increase smoking cessation supports for Smoke Free Campus policy
- Introduce new/popular/trending fitness courses
- Revise Wellness Center website

## Clinics & Clinical Services

- Wellness Center, Idaho State University, Pocatello
- Wellness Center, Idaho State University Health Science Center, Meridian

## Clinic Patient Visits

- 16,277 clients were seen by the ISU Wellness Center

## Faculty & Student Clinic Participation

- 12 Fitness Instructors
- 3 Practicum/Internship Students
- 3 Graduate Teaching Assistants

# Medical Laboratory Science

## Certificate/Degree Programs

- Bachelor of Science in Medical Laboratory Science
- Second Bachelor of Science in Medical Laboratory Science
- Master of Science in Medical Laboratory Science

## Student Enrollment

- 20 students are enrolled in the Bachelor of Science in Medical Laboratory Science program.
- 10 students are enrolled in the Second Bachelor of Science in Medical Laboratory Science program.
- 7 students are enrolled in the Master of Science in Medical Laboratory Science program.

## Post Graduation Idaho Employment

- 66% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 84% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- Next review in 2017

## Students in Clinical Research

- All students participate in clinical research as part of their degree program.
- Health Fairs & Screening Events
- Medical Laboratory Science served more than 2,000 individuals at the ISU Community Health Fairs & Screenings, various health fairs, and Meridian clinics.

## Goals for the Upcoming Year

- Stabilize graduate program
- Evaluate program
- Search for new director

## Publications

- Presentations at at least two national and regional meetings by faculty and students.

# Paramedic Science

## Located on the Meridian Campus

### Certificate/Degree Programs

- Associate of Science in Paramedic Science

### Student Enrollment

- 7 student are enrolled in the Paramedic Science program.

### Post Graduation Idaho Employment

- 57% of their students obtain employment in Idaho after graduation.

### Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

### Program Accreditation By

- The Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP)

### Goals for the Upcoming Year

- Marketing and Enrollment
- Implementation of newly adopted curriculum
- Sustained Faculty
- Submission of a Bachelor's degree program

## Certificate/Degree Programs

- Masters of Public Health

## New Courses/Programs/Degrees

- Spring 2012: Statistics Concepts/Applications—Experimental Course (G. Louis)
- Summer 2012: Survey Development—Experimental Course (G. Louis)

## Student Enrollment

- 56 students are enrolled in the MPH program.

## Post Graduation Idaho Employment

- 80% of their students obtain employment in Idaho after graduation.

## Program Accreditation By

- Council on Education for Public Health (CEPH)

## Faculty Research Engagement

- 3 faculty members are actively engaged in research in the health and biomedical sciences.

## Conferences/Seminars Hosted

- Introduction to Epi Info 7—October 11, 2012 in Meridian, Idaho. Full day training session offered by CDC personnel of Epidemiologic software, hosted by the MPH program. Attendance: MPH faculty, students, and alumni totaling 16 people.

## Awards & Grants Received

- STD/AIDS Compliance and Evaluation—PI: Galen Louis, Co-PI: Elizabeth Fore—Idaho Department of Health and Welfare—\$17,500
- CU Peru—PI: Joshua Campbell—Idaho State University URC Grant—\$2,000
- Rural Health Network Community Health Needs Assessment and Evaluation—PI: Elizabeth Fore—Bingham Memorial Hospital—\$25,000
- Navegantes Para Salud—PI: Elizabeth Fore—University of South Carolina—\$19,206
- Crime and Addiction Reduction Program—PI: Monica Mispireta, Co-PI: Elizabeth Fore—Portneuf Health Care Foundation—\$31,320
- Gateway 2 Health Research Associate—PI: Elizabeth Fore, Co-PI: Monica Mispireta—Portneuf Health Care Foundation—\$5,227

## Goals for the Upcoming Year

- Continue to bring in external funding from research grants
- Recruit a new faculty member for the Meridian campus
- Continue to be involved in the University and Community service activities

## Publications

# Radiographic Science

## Certificate/Degree Programs

- Baccalaureate Degree in Radiographic Science

## New Courses/Programs/Degrees

- New courses in MRI and CT

## Student Enrollment

- 35 students in the Baccalaureate Degree Program
- 3 in the MRI program
- 1 in the CT program

## Post Graduation Idaho Employment

- 80% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Joint Review Committee in Education in Radiologic Technology

## Faculty Research Engagement

- 2 faculty members are actively engaged in research in the health and biomedical sciences.

## Conferences/Seminars Hosted

- 1st Place Sierra Lammers Student Research "Patent Foramen Ovale" paper
- 3rd Place Jessica Kowitz, Student Research "Scoliosis" paper
- 1st Place Julie Lakey, Student Research "Aortic Aneurysm" Poster Presentation
- 2nd Place Sierra Lammers, Student Research "Patent Foramen Ovale" Poster Presentation
- 3rd Place Courtney Wolfe, Student Research "Primary Ciliary Dyskinesia" Poster Presentation
- 2nd Place Regional Conference ACERT, Sierra Lammers, Patient Foramen Ovale, paper

## Goals for the Upcoming Year

- Start mammography training

School of  
Rehabilitation and  
Communication Sciences

# Communication Sciences & Disorders and Education of the Deaf

## Certificate/Degree Programs

- Bachelor of Science in Communication Sciences and Disorders, with an emphasis in pre-audiology
- Doctor of Audiology

## Student Enrollment

- 77 students are enrolled in the Bachelor of Science in Communication Sciences and Disorders program (includes both emphasis).
- 23 students are enrolled in the Doctor of Audiology program.

## Post Graduation Idaho Employment

- 29% of Doctor of Audiology students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams (Praxis Exam).

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology

## Faculty Research Engagement

- 6 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- \$261,902 Total (Figure includes the VA service grant and the ISU Faculty grants.)

## Students in Clinical Research

- 9 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- Communication Sciences & Disorders and Education of the Deaf Program served more than 850 community members at the ISU Community Health Fairs & Screenings.

## Awards & Grants Received

- Re-negotiated contract with Veterans Administration. Investigator: Randy Bishop, Mary Whitaker; Idaho State University VA Hearing; Veterans Administration Salt Lake City Health Care System; Veteran's Administration; Received FY2012 \$249,666.88.
- Investigators: Chris Sanford, Jeff Brockett, & Pocatello ENT Physicians. - Project Title: Predicting Conductive Hearing Loss in Children: Test Performance of Wideband Acoustic measurements. - Submitted To: Division of Health Sciences Enhancement Fund, Award Total: \$10,000 (in control of full award) Award Period: January 1, 2011 – October 1, 2011

## Goals for the Upcoming Year

- Complete Strategic Plan for the Department

## Publications

## Clinics & Clinical Services

- ISU Hearing Clinic (including the VA contract) - Pocatello, ID; ISU campus – hearing services
- ISU Vestibular and Balance Clinic - Pocatello, ID; ISU campus – balance and vestibular testing

## Clinic Patient Visits

- 671 patients were seen by the ISU Hearing Clinic.
- 3,987 VA patients were seen by the ISU Hearing Clinic.
- 100 patients were seen by the ISU Vestibular and Balance Clinic.

## Faculty & Student Clinic Participation

- 4 Faculty Members
- 13 Students

# Educational Interpreting

## Certificate/Degree Programs

- Associate of Science in Sign Language Studies
- Bachelor of Science in Educational Interpreting

## Student Enrollment

- 30 students are enrolled in the Associate of Science in Sign Language Studies program.
- 27 students are enrolled in the Bachelor of Science in Educational Interpreting program.

## Post Graduation Idaho Employment

- 60% of their students obtain employment in Idaho after graduation.

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology

## External Funding for Research

- \$261,902 Total (Figure includes the VA service grant and the ISU Faculty grants.)

## Health Fairs & Screening Events

- Communication Sciences & Disorders and Education of the Deaf Program served more than 850 community members at the ISU Community Health Fairs & Screenings.

## Goals for the Upcoming Year

- Complete Strategic Plan for the Department

# Speech-Language Pathology

## Certificate/Degree Programs

- Bachelor of Science in Communication Sciences and Disorders, with an emphasis in pre-speech-language pathology
- Master of Science in Speech-Language Pathology

## Student Enrollment

- 77 students are enrolled in the Bachelor of Science in Communication Sciences and Disorders program (includes both emphasis).
- 104 students are enrolled in the Master of Science in Speech-Language Pathology program.

## Post Graduation Idaho Employment

- 68% of Master of Science in Speech-Language Pathology students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 95% of their students pass the clinical licensure and certification exams (Praxis Exam).

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology

## Faculty Research Engagement

- 7 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- \$261,902 Total (Figure includes the VA service grant and the ISU Faculty grants.)

## Students in Clinical Research

- 6 students participate in clinical research as part of their degree program.
- Health Fairs & Screening Events
- Communication Sciences & Disorders and Education of the Deaf Program served more than 850 community members at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- Annual ISU CSED Winter Symposium – 2/22/2012 – keynote speakers: Tim Kowalski, Joni Loftin

- Annual ISU NSSLHA Conference – “Expanding the Traditional Scope of Practice in SLP Management of Swallowing & Voice and Behavior Intervention” – keynote speakers: Heather Robinson, Shauna Smith, Cheri Atkins

## National Recognition

- Council of State Association Presidents Nancy McKinley Leadership Award – Jody O’Donnell
- Fellowship of the Association – American Speech-Language-Hearing Association – David Sorensen

## Awards & Grants Received

- ISU Faculty Research Grant: Beth Guryan MS, CCC-SLP and Cally Stone MS, CCC-SLP. No FTE Allocation; The Efficacy of Group plus Individual Communication Treatment Compared to Individual Treatment Only; Faculty Research Committee; Award: \$2,235.00; Total award period: January 3, 2011 through December 31, 2011; Dollar amount under my direct control: 2,235.00; Date Award was received: January 5, 2011

## Goals for the Upcoming Year

- Complete Strategic Plan for the Department
- Hire 2 academic faculty in Speech Language Pathology
- Hire 1 clinical faculty in Speech Language Pathology
- Maintain strength of online programs by maintaining enrollment and moving into year 3 of the 3-year Online Masters in SLP program

  - 8 Faculty Members
  - 28 Students

# Physical and Occupational Therapy

# Occupational Therapy

## Certificate/Degree Programs

- Masters of Occupational Therapy

## Student Enrollment

- 32 students are enrolled in the Occupational Therapy program.

## Post Graduation Idaho Employment

- 86% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Occupational Therapy Education (ACOTE)

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- 32 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- The Occupational Therapy Program served 150 community members at the Back Pack Awareness community event, and 30 community members at the CarFit community event.

## Conferences/Seminars Hosted

- "Integrating web 2.0 technologies," "Bloom's affective domain to facilitate OT student's attitudes and values of occupation," Bryan Gee, OTD, OT, AOTA National Conference in Indianapolis, IN, May 2012.

## Goals for the Upcoming Year

- Maintain viability of our programs
- Increase capacity of the department to mentor, encourage, and reward faculty involvement in research activities
- Improve the health care delivery system through education, research, and service
- Maintain excellence in education through continuous quality improvement of curricula, didactic and laboratory instruction, and clinical experiences
- Increase the financial contribution of clinic operations to the department budget while continuing to provide valuable educational experiences to students

## Clinics & Clinical Services

- ISU Physical and Occupational Therapy Associates, Garrison House Room 202, Physical and Occupational Therapy Services

## Clinic Patient Visits

- 10 occupational therapy clients were seen by the ISU Physical and Occupational Therapy Associates clinic.

## Faculty & Student Clinic Participation

- 4 Faculty Members
- 32 Students

# Physical Therapy

## Certificate/Degree Programs

- Doctorate of Physical Therapy

## Student Enrollment

- 71 students are enrolled in the Physical Therapy program.

## Post Graduation Idaho Employment

- 72% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Commission on Accreditation in Physical Therapy Education (CAPTE)

## Faculty Research Engagement

- 8 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Smart Prosthetic Hand – Telemedicine & Advanced Research Center (DoD) \$47,250.
- Baby Boomers Medical Home – Title VII Grant – Share of \$1.5 Million over 5 years

## Students in Clinical Research

- 71 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- The Physical Therapy Program served 20 community members at the Fit-n-Fall Proof community event.

## Conferences/Seminars Hosted

- “Differences, implication of kinesiotape after a single self instruction exposure to either DVD or text context,” “PT management of a patient with bilateral thoracic outlet syndrome secondary to anterior subluxation of bilateral stenooclavicular joints: A case study.” Cindy Seiger, PT, PhD, APTA National Conference in Tampa, FL, June 2012.

- “Diabetes shorts: Mini lessons in prevention and control.” Cindy Seiger, PT, PhD, AAHPERD National Conference, Boston, MA, March 2012.
- “Research to reality: Mobilization in the ICU,” Deanna Dye, Physical Therapy Association of Georgia, Savannah, GA, March 2012

## Awards & Grants Received

- Department Capstone Dissemination Award – 3 DPT students - \$3500.00

## Goals for the Upcoming Year

- Maintain viability of our programs
- Increase capacity of the department to mentor, encourage, and reward faculty involvement in research activities
- Improve the health care delivery system through education, research, and service
- Maintain excellence in education through continuous quality improvement of curricula, didactic and laboratory instruction, and clinical experiences
- Increase the financial contribution of clinic operations to the department budget while continuing to provide valuable educational experiences to students

## Clinics & Clinical Services

- ISU Physical and Occupational Therapy Associates, Garrison House Room 202, Physical and Occupational Therapy Services

## Clinic Patient Visits

- 1,219 physical therapy patients were seen by the ISU Physical and Occupational Therapy Associates clinic.

## Faculty & Student Clinic Participation

- 8 Faculty Members
- 71 Students

# School of Nursing

## Certificate/Degree Programs

- Accelerated Bachelor of Science in Nursing
- Bachelor of Science Completion
- Bachelor of Science in Nursing
- Master of Science in Nursing
- Post-Masters Certificate

## Student Enrollment

- 26 new students enrolled in the Accelerated Bachelor of Science in Nursing program during the 2011-2012 academic year.
- 22 new students enrolled in the Bachelor of Science Completion program during the 2011-2012 academic year.
- 70 new students enrolled in the Bachelor of Science in Nursing program during the 2011-2012 academic year.
- 31 new students enrolled in the Master of Science in Nursing program during the 2011-2012 academic year.
- 2 new students enrolled in the Post-Masters Certificate program during the 2011-2012 academic year.

## Licensure/Certification Pass Rate

- 95.51% of their students pass the clinical licensure and certification exams, NCLEX.

## Program Accreditation By

- Commission on Collegiate Nursing Education (CCNE)
- Accreditation effective until June 30, 2021

## Faculty Research Engagement

- 2 faculty members are actively engaged in research in the health and biomedical sciences.
- External Funding for Research
- Deana Molinari—HRSA funding of the Northwest Rural Nurse Residency for three years—\$961,460

## Health Fairs & Screening Events

- The School of Nursing served 1,600 community members at the ISU Community Health Fairs & Screenings.
- Additional Events included:
  - Excel Health Fairs - Pocatello – 300 people served
  - SIPH Health Fairs – Stone, Malad, Soda Springs, Marsh Valley, Preston, Montpelier, Lava Hot Springs, St. Anthony Place – Pocatello, Homeless Standdown – Pocatello, Arco, Aberdeen, American Falls – 155 people served
  - Communiversity – Pocatello, ID – 30 people served.

## Meridian Events

- August 2011—Foster Grandparent Health Screening
- September 2011—Community Health Screening
- October 2011—Community Health Screening
- December 2011—Community Health Screening
- February 2012—Community Health Screening
- March 2012—Shepherders Health Screening Event
- March 2012—Community Health Screening
- March 2012—Foster Grandparents Health Screening
- March 2012—Parma Obesity Screening with Kelly Pesnell
- March 2012—Farmway Village Health Event
- April 2012—Community Health Screening
- May 2012—HDSP BP Screening Event

## Conferences/Seminars Hosted

- Anna Schwartz - Presentations
  - ACSM Guidelines and applications: LIVESTRONG at the YMCA, Word Cancer Conference, Montreal
  - LIVESTRONG Assembly, Keynote presentation, Austin, TX
  - LIVESTRONG Assembly panel discussion: Symptom Management and Exercise.
  - Leading Practices in Functional Assessment, LIVESTRONG at the YMCA meeting, July
  - Invited symposium, Exercise Guidelines: LIVESTRONG at the YMCA application and dissemination, World Cancer Conference, Montreal
  - PAC Tour exercise training and heart rate monitor use
  - MedBridge “Cancer Rehabilitation” 9-hour CE program
- Deana Molinari
  - The Northwest Rural Nurse Residency and the Office of Professional Development provides Continuing education to a national audience of nurses. During this time period: 49 courses were delivered for a total of 2,095.5 nursing contact hours

## National Recognition

- Deana Molinari—President of the Rural Nurse Organization
- Cathy Arvidson—American Academy of Nurse Practitioners, Region 10 Director, Executive Board Member at Large

## Awards & Grants Received

- Beverly Hewett— Grant Principal Investigator and Program Director Northwest Rural Nurse Residency
- Anna Schwartz—Oncology Nursing Society 2012 Rose Mary Carroll-Johnson Distinguished award for consistent contributions to nursing literature—\$2,000
- Deana Molinari—Health Resources and Services Administration funding of the Northwest Rural Nurse Residency for three years—\$961,460

## Goals for the Upcoming Year

- Begin two Doctoral programs: The PhD and the DNP
- Begin the process for developing intraprofessional teams
- Become a College of Nursing

# College of Pharmacy

# Pharmacy

## Certificate/Degree Programs

- Undergraduate minor in Pharmaceutical Sciences (in process of being discontinued)
- Residency
- Master of Science in Pharmaceutical Sciences (with or without thesis)
- Doctor of Pharmacy
- Ph.D. in Pharmaceutical Sciences (4 emphasis areas)
- Nontraditional Doctor of Pharmacy

## New Courses/Programs/Degrees

- Residency Readiness Elective (PHAR 4499)

## Student Enrollment

- 3 students are enrolled in the Residency program.
- 9 students are enrolled in the Master of Science in Pharmaceutical Sciences (5 thesis students, 4 non-thesis students)
- 274 students are enrolled in the Doctor of Pharmacy program.
- 4 students are enrolled in the Ph.D. in Pharmaceutical Sciences program.
- 115 students are enrolled in the Nontraditional Doctor of Pharmacy program.

## Post Graduation Idaho Employment

- 44% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams, the 2012 NAPLEX.

## Program Accreditation By

- Accreditation Council for Pharmacy Education (ACPE)
- Next accreditation cycle scheduled 2017

## Faculty Research Engagement

- 14 Pharmacy Practice and Administrative Science faculty members are actively engaged in research in the health and biomedical sciences.
- 7 Biomedical and Pharmaceutical Sciences faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Pharmacy Practice and Administrative Science Faculty
  - \$228,275
- Biomedical and Pharmaceutical Sciences Faculty
  - \$622,000

## Students in Clinical Research

- 56 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- 3,572 community members received direct patient care at the ISU Community Health Fairs & Screenings.
- 303,000 community members received health-related information through public relations efforts.

## Conferences/Seminars Hosted

- Annual Spring Continuing Education Seminar
- Meridian -- March 4, 2012, Meridian School District Service Center
- Pocatello -- March 18, 2012, ISU Pond Student Union Building
- Post Falls -- April 1, 2012, Red Lion Templin's Hotel
- Continuing Education (CE) Talks given by COP Faculty
- Richard Rhodes, PharmD--Preceptors Only Education and Breakfast
- Mark Johnston RPh--Pharmacy Law Update
- Jolie Jantz, PharmD, BCPS -- Community-Associated MRSA
- Tom Wadsworth, PharmD, BCPA -- Dementia
- Roger Hefflinger, PharmD -- Sexually Transmitted Infections
- Glenda Carr, PharmD -- Hepatitis C
- Brooke Pugmire, PharmD, BCPS -- Drug Interactions
- John Holmes, PharmD, BCPS -- Vitamin D Deficiency

## National Recognition

- ISU's student outreach project Operation Diabetes ranked #1 nationally by American Pharmacists Association (APhA).
- Dr. Chris Downing - NIH Study Section Service - Genetics of Health and Disease (GHD)
- Dr. James CK Lai - Veterans' Affairs Merit Review

## Awards & Grants Received

- Topical Delivery of Plasmid DNA Nanoparticles into Skin - Idaho State University Research Grant - \$25,000
- Role of Cellular Signaling Elements Imparting Drug Resistance in Pancreatic Cancer Cells - University Research Committee Award from Idaho State University - \$14,000
- Piperacillin-Tazobactam Pharmacokinetics in Critically Ill, obese Patients - ISU Division of Health Sciences - \$10,000
- Claudia Senekowitsch Summer Graduate Fellowship - \$3,600
- ISU Cultural Affairs Council- \$4,032
- David Chu Annual Lectureship - \$5,000
- Intermountain Cardiometabolic Risk Reduction Clinic - PacificSource Community Health Excellence Program - \$58,000 - 12 months
- Saxagliptin Assessment of Vascular Outcomes Recorded in Patients with Diabetes Mellitus (SAVOR-TIMI ; TIMI Study Group and Astra Zeneca - \$170,275 - 5 years

## Goals for the Upcoming Year

- Pharmacy Practice and Administrative Science
  - Grant under submission: Antibiotic Spectrum Scoring to Measure Hospital Level Antibiotic De-escalation - NIH (NIAID) - \$362,586
  - Capstone Pharmacy Review NAPLEX Preparation. Jones and Bartlett Publishers. In press.
  - 8 scholarly/professional articles in preparation for submission next year
- Biomedical and Pharmaceutical Sciences
  - Complete faculty staffing of the Meridian research laboratory
  - Achieve extramural funding of at least \$500,000 direct costs
  - Acquire two more TAs (teaching assistantships)
  - Replace some deteriorated research capital equipment
  - Revitalize the PharmD/PhD program

## Publications

# Office of Medical and Oral Health

# Dental Hygiene

## Certificate/Degree Programs

- Baccalaureate Degree in Dental Hygiene
- Master of Science Degree in Dental Hygiene

## Student Enrollment

- 58 students are enrolled in the Baccalaureate Degree Program.
- 33 students are enrolled in the Master of Science Degree Program.

## Post Graduation Idaho Employment

- 80% of their Baccalaureate Degree students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- American Dental Association, Commission on Dental Accreditation (CODA)
- Next site visit is 2017

## Faculty Research Engagement

- 8.5 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- Graduate students are encouraged to participate in clinical research as part of thesis research.

## Health Fairs & Screening Events

- Dental Hygiene students served 3590 community members (adults and children) through various outreach programs. Students participated in various community health fairs and events including:
  - ISU Health Fair
  - Homeless Stand Down
  - Recovery Fest
  - Portneuf Medical Center Teddy Bear Clinic
  - Give Kids a Smile Day
  - Head Start
  - South East District Health Department
  - School District 25

## Conferences/Seminars Hosted

- (September, 2011). Infectious Disease Management Annual Training Program, presented by Kandis Garland, RDH, MS, Idaho State University, Pocatello, ID, (2.5 hours).

## National Recognition

- Graduate student, Colleen Stephenson, received the Future Leader Award by the American Dental Hygienists' Association.
- Graduate student, Catherine Beebe, received the American Dental Educator's Association Crest Oral-B Scholarship for future educators.
- Graduate student, Tonette L. Hollingworth, was selected to serve as the American Dental Hygienists' Association District X Trustee representing Colorado, Montana, Utah, and Wyoming dental hygienists.
- Kandis Garland was appointed to the Peer Review Panel for Dimensions of Dental Hygiene.

## Awards & Grants Received

- Idaho Oral Health Institute and Distance Education – PI: Kathleen O. Hodges – U.S. Department of Health and Human Services HRSA - \$329,000.
- Building Online Learning Communities – PI: Ellen Rogo - American Dental Hygienists' Association, Institute for Oral Health - \$4857
- Southeast Idaho Give Kids a Smile Day – PI: Jacque Freudenthal - Ronald McDonald House Charities of Idaho, INC. - \$3,400.00

## Goals for the Upcoming Year

- Complete revised strategic plan process for the Department.
- Recruit and hire new faculty for full-time position opening.

## Clinics & Clinical Services

- ISU Dental Hygiene Clinic – ISU campus, Pocatello, ID – Preventive and Restorative Services

## Clinic Patient Visits

- 3,593 patients were seen by the ISU Dental Hygiene Clinic.

## Faculty & Student Clinic Participation

- 58 Dental Hygiene students
- 15 Faculty Members
- 8 Dentists

# Dental Sciences

## Certificate/Degree Programs

- Doctor of Dental Surgery (DDS) - Idaho Dental Education Program (IDEP)
- Advanced Education in General Dentistry Residency program - Idaho Advanced General Dentistry (IAGD)

## Student Enrollment

- 8 students are enrolled in the Doctor of Dental Surgery (DDS) - Idaho Dental Education Program (IDEP).
- 8 students are enrolled in the Advanced Education in General Dentistry Residency program - Idaho Advanced General Dentistry (IAGD).

## Post Graduation Idaho Employment

- 12.5% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- American Dental Association, Commission on Dental Accreditation
- Next site visit 2015

## Faculty Research Engagement

- 1 IDEP faculty member is actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- 8 IDEP students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- The IAGD program served 300 community members at the ISU Community Health Fairs & Screenings.

## Goals for the Upcoming Year

- Increase collaborative interactions and clinical research.

## Clinics & Clinical Services

- Idaho Advanced Education in General Dentistry Residency
  - Pocatello
  - Meridian

## Clinic Patient Visits

- 8,600 patients were seen by Idaho Advanced General Dentistry.

## Faculty & Student Clinic Participation

- Idaho Dental Education Program (IDEP)
  - 8 Students
  - 2 Faculty Members
- Idaho Advanced General Dentistry (IAGD)
  - 8 Residents
  - 8 IDEP Students
  - 22 Faculty

# Family Medicine Residency

## Certificate/Degree Programs

- Idaho State University and American Board of Family Medicine

## Student Enrollment

- 21 students are enrolled in the Family Medicine Residency program.

## Post Graduation Idaho Employment

- 48% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 88% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Graduate Medical Education (ACGME)

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- 2010-2011 Division of Health Sciences Enhancement Grant, Idaho State University, "Prescription Drug Refill Practices in US Medical Practices" Collaborated with John Holmes, PharmD and Rex Force, Pharm D

## Conferences/Seminars Hosted

- Advanced Life Support in Obstetrics—August 19 and 20, 2011—Speakers: Jonathan Cree, MD; Don Dyer, MD; Kelli Christensen, MD; Charles Clair, MD; Brandon Mickelsen, MD; Jacob Curtis, MD

## National Recognition

- Family Practice Resident, Dr. John Fenstermaker, has been selected to receive the 2012 American Academy of Family Physicians (AAFP) Award for Excellence in Graduate Medical Education.
- "Active Families For Life: Making Multidisciplinary Care Accessible in the Patient-centered Medical Home." Lecture / Discussion. Society of Teachers of Family Medicine. New Orleans, LA. April 28, 2011

## Awards & Grants Received

- 2011-2016—Primary Care Training and Enhancement / Residency Training in Primary Care Program. Title VII, Health Resources and Services Administration. "The Baby Boomer Medical Home Project". William M. Woodhouse, MD, Project Director. Award: \$1,123,155
- 2011—Residency Redistribution Request, Center of Medicare and Medicaid Services, Patient Protection and Affordable Care Act. Wrote proposal on behalf of Portneuf Medical Center to expand Graduate Medical Education slots from ~13.5 FTEs to 22 FTEs. William M. Woodhouse, MD. Additional FTE's. IME: 3.75 / DME: 3.75 New ongoing funding: ~\$260,000 / year.
- 2011—Residency Redistribution Request, Center of Medicare and Medicaid Services, Patient Protection and Affordable Care Act. Wrote proposal on behalf of Madison Memorial Hospital for two new Graduate Medical Education FTE slots for the ISU Madison – Rexburg Rural Training Track. William M. Woodhouse, MD. Additional FTE's. IME: 2.0 / DME: 2.0 New ongoing funding: ~\$140,000 / year.
- 2012—New Access Point Grant. Health Resources and Services Administration. Bureau of Primary Health Care. William M. Woodhouse, MD collaborated with Health West, Inc. and Nattie Prack, grant writer, to develop proposal for transition of Pocatello Family Medicine to a federally qualified health center. Submitted: 2010; Resubmitted and approved: 2012 Award: \$650,000 / year.

## Goals for the Upcoming Year

- Complete merger of the Pocatello Family Medicine Residency and Health West as a new Access Point
- Complete affiliation agreement between PMC and ISU
- Complete affiliation agreement between ISU and Health West
- Achieve an increase in state funding for the ISU residency program through presentations at JFAC in January
- Achieve a good residency match in March 2013
- Start interviewing and recruiting actively for a new director
- Incorporate new faculty, including Dr. Ragan, into the residency program
- Achieve funding for a new fellowship for the residency program as a 4th-year option to start in 2014 and continue annually. Candidates include Dylan Cole, Sarah Tiggelaar.
- Complete reorganization of the department of family medicine as presented at the GMEC meeting in November 2012.

## Publications

- Baergen R, Woodhouse W. "Surrogates and Extra-Familial Interests." Manuscript submitted to The Journal of Clinical Ethics. 11/16/2012

## Clinics & Clinical Services

- Family Medicine Residency
- Family Medicine
- Specialty Clinics (dermatology, ENT, neurology, women's health, gynecology, colposcopy, and pharmacotherapeutic services.
- SE Idaho HIV Clinic
- Obstetric Services
- Geriatrics
- Women's Health/GYN
- Inpatient Medicine
- Sports Medicine Orthopedics
- Psychology Services
- Health Education and Nutrition

## Clinic Patient Visits

- 17,678 patients were seen by Family Medicine Residency.

## Faculty & Student Clinic Participation

- 21 Students and Faculty members

# Physician Assistant Program

## Certificate/Degree Programs

- Masters of Physician Assistant Studies

## Student Enrollment

- 120 students are enrolled in the PA program.

## Post Graduation Idaho Employment

- 33% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 97% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA)

## Faculty Research Engagement

- 3 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- The PA program has received \$7,000 in external funding for research.

## Health Fairs & Screening Events

- PA students have participated in 14 events including:
  - Vinyard Clinic – Boise
  - Friendship Clinic – Boise
  - Bi-Mart Pharmacy Health Fair – Emmett
  - Homeless Stand Down – Pocatello
  - Pocatello Free Clinic – Pocatello
  - Community Health Screening Expo – Meridian
  - Shriners - Pediatric Screening- Meridian
  - Homeless Stand Down – Boise
  - Community Health Screening Expo – Meridian
  - Latino Community Outreach- Meridian
  - Community Health Screening Expo- Meridian
  - Community Health Screening Expo, Boise
  - Sports Physicals, American Falls
  - Health Department, American Falls

## National Recognition

- The Department of PA Studies was recognized in a June/July article in AAPA's national magazine, PA Professional, titled, "In Sync with Distance Learning: Answering the Call for More Providers."
- In November 2011, PA student, Wes Morris, was nationally recognized by PAEA (Physician Assistant Education Association) for his receipt of a PAEA grant for studying burn-out in rural PAs.

## Awards & Grants Received

- Clinical Assistant Professor Jared Papa received ISU's Distinguished Public Service Award in May 2012.
- PA student, Russ Singleton, received the ISU-Meridian Health Science Center's Student Excellence Award in May 2012.

## Goals for the Upcoming Year

- Develop alternative funding sources.
- Complete a strategic plan.
- Submit a NOI for program expansion to the College of Idaho to SBOE.
- Submit the "Program Expansion to a Distant Campus" forms to ARC-PA.
- Investigate the feasibility of a physical plant improvement.

# Non Academic Units

# Idaho Center for Disability Evaluation

## Mission

The mission of the Idaho Center for Disabilities Evaluation is to provide high quality assessments that are administered consistently and reliably in all regions of Idaho to adult participants with developmental disabilities.

## Purpose

Idaho State University through the Idaho Center for Disabilities Evaluation (ICDE) has contracted with the Idaho Department of Health and Welfare to assume the duties of assessment, eligibility determination and budget planning for children and adult participants in this statewide initiative. The contract funding is distributed across higher education institutions based upon mutually agreed to responsibilities that address needs of the institution, ICDE, and the participants.

## Services

All Clinical Supervisors and Independent Assessment Providers are Qualified Intellectual Disability Professionals (QIDP) in accordance with the Federal Medicaid qualifications. The ICDE staff is distributed in each of the seven Health and Welfare Regions in the state of Idaho.

Independent Assessment Providers (IAP's) conduct assessments with the child and adult participants by reviewing all assessment information and documentation and then determining each participant's eligibility for community services. All assessments follow Medicaid Rule, policies and procedures.

Additionally, Clinical Supervisors supervise the assessment process. They oversee the Independent Assessment Provider's, provide technical and clinical expertise and advice and manage the staff workload to assure fidelity statewide and timely completion of reports. They consult and partner with the Department of Health and Welfare Central Office staff to provide feedback as to the assessment process. Clinical Supervisors also conduct assessments as needed.

## Locations

- Region I  
1120 Ironwood Drive, Suite 102  
Coeur d'Alene, ID 83814

## Professional Presentations

### Local Presentations:

- Aubrey, D.L. (2012). An effectiveness study: Do web-based resources impact rural patient discharge care? University Research Symposium, Idaho State University, Pocatello, ID.
- Carr, G., Schneider, R., Tivis, R. (2012). Assessing Heart Age and Fruit/Vegetable Consumption in Patients at Free Community Health Screenings. Presented at Idaho State University's Division of Health Sciences Research Day, Meridian, ID.
- Kirkwood, A.D., Stamm, B.H., Piland, N., Hudnall, A. (2012, March). Analysis of Training, Police, Operations, Finance and Economic Aspects of Suicide and Suicide Prevention Hotlines in the United States. Poster presented at the Division of Health Sciences Research Day, Idaho State University, Meridian, ID.
- Kirkwood, A.D., Stamm, B.H., Bennett, L. (2012, March). Better Today's. Better Tomorrow's. Gatekeeper Training Curriculum: Examining Quality, Post-Course Knowledge, Knowing Youth in need of Mental Health Care and Knowing Youth Who Have Attempted or Completed Suicide. Poster presented at the Division of Health Sciences Research Day, Idaho State University, Meridian, ID.
- Moore, K., Carr, G., Mason, B., Tivis, R., Tivis, L. (2012). Pharmacist Delivered Alcohol Screening, Brief Intervention, and Referral: A Customer Attitude Survey (updated). Poster presented at the Division of Health Sciences Research Day, Idaho State University, Meridian ID.

- Neid, S., Tivis, R., Carr, G., (2012, March). Assessing Risk for Type 2 Diabetes Mellitus in a Community Population with Limited Access to Health Care. Poster presented at the Division of Health Sciences Research Day, Idaho State University, Meridian, ID.
- Papa, J., Carr, G., Guryan, B., Katsilometes, B., Nehr-Kanet, S., Powell, P., Schneider, R., Thorne, J., Tivis, L., Tivis, R. (2012, March). Interprofessional Training in the Community Setting. Poster presented at Idaho State University's Division of Health Sciences Research Day, Meridian, ID.
- Spearman, R. (2011, October). From Hospital to Home: Best Practices From the Idaho Person-Centered Hospital Discharge Model. Presented at the Annual Idaho Conference on Health Care and 4th Annual Thomas Geriatric Health Symposium, October 21, Meridian Health Science Center, Meridian, ID.
- Tivis, L. (2011, October 8). Second Saturday Scholarship Society. Presentation on grant writing, University of Phoenix, Meridian ID. (Invited)
- Tivis, L., Beck, K., Spearman, R.C. (2012, April). Idaho's TBI Virtual Grand Rounds: A Step-by-Step Approach to Delivering Highest Quality Web-based Training. Poster presented at the Division of Health Sciences Research Day, Idaho State University, Meridian, ID.
- Tivis, R. (2012, March). Data Analysis and Outcomes From the ISU Community Health Screening. Presentation at the Ada County Health Summit, Boise, ID. (Invited)

### State Presentations:

- Carr, G., Mason, B., Tivis, R., Tivis, L. (2011, September). Pharmacist Delivered Alcohol Screening, Brief Intervention, and Referral: A Customer Attitude Survey. Presented at the annual meeting of the Idaho Society of Health-System Pharmacists, Sun Valley, ID.

### National/International Presentations:

- Aubrey, D.L. (2011). Parental emotional support and adolescents: Bonding in a domestically violent family. International Society of Traumatic Stress Studies, Baltimore, MD.
- Aubrey, D.L. (2011). Rural Health Care Providers: Dissemination of Self-Care Intervention Tools via Web-based Portal. Association for Behavioral and Cognitive Therapies annual convention, Toronto, Canada.
- Garrett, K., Kirkwood, A., Stamm, B.H. (2012, April). Designing Youth Suicide Prevention Infrastructure for Idaho. Presentation at the Garrett Lee Smith Memorial Action Grantee Meeting, Baltimore, MD. (invited)
- Kirkwood, A.D., Stamm, B.H., Bennett, L. (2011, November). Better Today's Better Tomorrows Gatekeeper Training Curriculum: Examining Quality, Post-Course Knowledge, Knowing Youth in need of Mental Health Care and Knowing Youth Who Have Attempted or Completed Suicide. Poster presented at the International Society for Traumatic Stress Studies conference, Baltimore, MD. (invited)
- Kirkwood, A.D., Stamm, B.H., Piland, N., Hudnall, A. (2011 November). Analysis of Training, Police, Operations, Finance and Economic Aspects of Suicide and Suicide Prevention Hotlines in the United States. . Poster presented at the International Society for Traumatic Stress Studies conference, Baltimore, MD. (invited)
- Kirkwood, A. (2012 March). Creating School Postvention Teams for Idaho Schools. Presentation at the National Institute of Mental Health Outreach Partners Conference, Denver, CO. (invited)
- Kirkwood, A.D., Stamm, B.H., Piland, N., Hudnall, A. (2012, March). Analysis of Training, Police, Operations, Finance and Economic Aspects of Suicide and Suicide Prevention Hotlines in the United States. Poster presented at the National Institute of Mental Health Outreach Partners Conference, Denver, CO. (invited)
- Papa, J., Carr, G., Guryan, B., Katsilometes, B., Nehr-Kanet, S., Powell, P., Schneider, R., Thorne, J., Piland, N. (2011, Sept. 16). Determining Costs and Defining Cost-Effectiveness of Teleradiology for Rural, Underserved Populations, Teleradiology Initiative: A Solution for Increased Access to Health Care in Rural New Mexico. University of New Mexico and Indian Health Service, Albuquerque, NM. (Invited)
- Piland, N. (2011, Nov. 3). The Economic Impact of Ill Health in the Health Care Workforce. Health of the Health Professional Conference 2011, Auckland, New Zealand.
- Roll, J.M., Strode, A., Kennedy, J.J. and Stamm, B.H. (2011). Treating Mental Health and Substance Use Disorders in Rural America. Annual Conference of the American Psychological Association, Washington, DC.
- Spearman, R. (presenter), Tivis, L. (author) (2011, September). Idaho's TBI Virtual Grand Rounds: A Step-by-Step Approach to Delivering Highest Quality Web-based Training. Presented at the Ninth Annual Conference on Brain Injury, New Orleans, LA.
- Spearman, R. (2011, Sept). Tele-Education Strategies: North American Brain Injury Society. Presented at the Ninth Annual Conference on Brain Injury, New Orleans, LA. (invited)
- Spearman, R., Beck, K., Sandford, S., Tivis, L. (2012, March). Idaho's TBI Virtual Grand Rounds: A Step-by-Step Approach to Delivering Highest Quality Web-based Training. Presented at the Health Resources Services Administration, Maternal and Child Health Bureau, 14th Annual Federal TBI Program Leadership Meeting, Alexandria, VA. (invited)
- Spearman, R. and Tivis, L.-developers. (2012, April 12). Webinar: TBI in Idaho: A Partial Perspective Using Idaho Trauma Registry Data, Ginger Floerchinger-Franks, DrPH, Director, Idaho Trauma Registry.

# Institute of Rural Health

- Spearman, R. and Tivis, L.-developers. (2012, April 19). Webinar: ISU Veterans Sanctuary: Overcoming Obstacles To Achieve Great Things, Casey Santee, Veteran Recruiter/ Counselor, Veterans' Sanctuary, Idaho State University.
- Spearman, R. and Tivis, L.-developers. (2012, April 26). Webinar: Concussion and the Adolescent Athlete: Critical Management Guidelines, Caroline "Smitty" Faure, EdD, ATC-L, Assistant Professor of Sport Science & Physical Education, Idaho State University.
- Stamm, B.H., Blampied, S. & Beck, K. (2011). An Analysis of U.S. Federal Law and Policy on Service Animals and the Department of Veterans Affairs (VA). International Society for Traumatic Stress Studies. Baltimore, MD.
- Tivis, L., Tivis, R. (2011). Interprofessional Training in the Community Setting. Poster presented at PAEA Annual Educational Forum, New Orleans, LA.

# Message from the Dean

It is my pleasure to present a report on fiscal year 2013 (July 1, 2012 – June 30, 2013) in the Division of Health Sciences (DHS) at Idaho State University (ISU). The strategic goals of the DHS include:

1. To provide high quality programs that are efficient, cost effective, and student-oriented.
2. To create an environment conducive to inquiry.
3. To expand the DHS image as a destination site for health professions education.

This report, in part, helps us document the progress we have made toward our goals.

The DHS is a comprehensive organization. Our academic units offer programs from associate degrees through post-doctoral certificates in 19 separate professional fields. Several of our programs are fully on-line; others are offered on multiple, in-state campuses. Our programs exceed the requirements dictated by professional accreditation bodies. Our clinics are not only training sites for our student and residents but also provide opportunities for direct service to members of our community in need of care as well as income to support our programs. Supporting and encouraging a culture of inquiry among our faculty and students, including funded research, is a major part of what we do in the DHS. The DHS has our own Idaho Center for Health Research that provides the infrastructure needed for faculty and student scholarship. We also have non-academic units within the DHS that serve the public and bring resources to the DHS that help us meet our academic mission.

This report indicates that FY2013 was a good year for the DHS. Our faculty were productive, our students were successful and our clinics and graduates served the public. ISU is a destination site in Idaho for students pursuing health related careers. Our programs entertain more applicants than they have the capacity to admit.

It is my pleasure to work with the dedicated staff and faculty who make up the DHS. Together we strive to serve our students and the state of Idaho.

Linda Hatzenbuehler, PhD  
Vice Provost and  
Executive Dean

# Division of Health Sciences

## Mission Statement

Idaho State University's Division of Health Sciences provides leadership in the delivery of rural health care by educating caring and competent professionals across all dimensions of health and promotes collaborative research and practice in the health sciences.

## Vision

The Division of Health Sciences is a destination site for health profession education.

## Core Values

- Professional Integrity - Promoting professional ethical standards and respecting the integrated roles of all health professionals
- Holistic Approach to Health - Emphasizing a comprehensive view of human health, including curative and preventive dimensions
- Collaboration - Recognizing the value of internal and external partnerships through professional and community engagement.
- Discovery and Innovation - Seeking new evidence to improve health
- Dedication - Supporting the mission and vision of the DHS.
- Excellence - Striving for excellence in all aspects of professional, academic and personal endeavors

## Goal Areas

- Goal 1 - To provide high quality programs that are efficient, cost effective, and student oriented.
- Goal 2 - To create an environment conducive to inquiry.
- Goal 3 - To expand the DHS image as a destination site for health professions education.

## Idaho State University Clinic Visits Comparison

# Grants & Contracts

## Division of Health Sciences Total Grants & Contracts Number Submitted/Awarded

## Division of Health Sciences Total Grants & Contracts Dollars Awarded

# Grants & Contracts

## Division of Health Sciences FY12 Grants & Contracts Number Submitted/Awarded by Unit

# Kasiska School of Health Professions

# Counseling

## Certificate/Degree Programs

- Master of Counseling:
  - School Counseling
  - Clinical Mental Health Counseling
  - Marriage, Couples, and Family Counseling
  - Student Affairs Counseling
- Ed.S. in School Counseling
- Ph.D. program: Counselor Education & Supervision

## Student Enrollment

- 74 students are enrolled in the Master of Counseling programs across both campuses
- 1 student enrolled in Ed.S. in School Counseling
- 17 students enrolled in the Ph.D. program: Counselor Education & Supervision

## Post Graduation Idaho Employment

- 93% of their Master of Counseling students obtain employment in Idaho after graduation.
- 100% of their Ed.S. students obtain employment in Idaho after graduation.
- 20% of their Ph.D. students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 94% of their Master of Counseling students pass the clinical licensure and certification exams.

## Program Accreditation By

- Council for the Accreditation of Counseling and Related Educational Programs (CACREP)
- Next site visit 2017

## Faculty Research Engagement

- 8 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- A community grant of approximately \$12,000 was received to support clinical services provided in the in-house clinic.

## Students in Clinical Research

- 17 Ph.D. students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- 216 community members were served at the ISU Community Health Fairs & Screenings in Meridian.

## Conferences/Seminars Hosted

- Reaching At-Risk-Youth - July 13-14 - Chandra Crudup
- Ethics-Boundaries-Practice - July 28 - Jessica Berry/Alex Kerwin
- Ethics Working w/Semi-willing - August 4 - Jared Thiemann/Maurice Pittman
- Clinical Supervision for Counselors - August 17-18 - Megan Michalak/Pam Wells
- Applied Behavior Analysis - Aug. 27-Oct. 23 - Virginia Nodoro
- Ethics in Private Practice - September 22 - Thana Singarajah
- Learning Theory - Sept. 26-Nov. 21 - Virginia Nodoro
- Clinical Supervision for Counselors - Nov. 30-Dec. 1 - Rick Boyes/Matt Niece
- ISCA Conference - Oct. 4-5 - Patty Bolinger
- Trauma Training - Nov. 7 - Cheryle Sharp
- Study Abroad: Malaysia - Dec. 20-Jan. 13 - Thana Singarajah
- Clinical Supervision for Counselors - Dec. 20-Jan. 13 - Katie Kostohrya/Steve Moody
- Applied Behavior Analysis - Feb. 19-Apr. 17 - Virginia Nodoro
- Study Abroad: Paris, France - March 22-31 - Thana Singarajah
- Clinical Supervision for Counselors - April 12-13 - Pam Wells/Kirsten LaMantia
- Ethics Working with Adolescents - April 27 - Anna Elliott/Maurice Pittman
- Journeys: Multicultural Grief - May 3 - Anasuya Jegathevi Jegathesan
- Ethics in Private Practice - May 30 - Thana Singarajah
- Psychodiagnosis: Cultural - May 31-June 1 - Thana Singarajah
- Intro to Play & Sand Play Therapy - May 31-June 1 - Jennifer Kerner/Jill Weadick
- Eating Disorders - June 7-8 - Kristi L. Shohet
- Ethical Issues in PSR - June 14 - Zakery Warren
- Mindfulness Strategies/Therapy - June 14-15 - Jill Weadick
- Psychodiagnosis: Psychotropic Meds - June 21-22 - Stephen DeNagy

- Ethics in Family/Couple Counseling - June 29 - Katie Kostohryz
- Clinical Supervision for Counselors - July 12-13 - Alex Kerwin/Beronica Salazar

- Pittman, H.M., & Vereen, L.G. (2012). Psychodrama and role play: The pre-practicum and skills experience. Rocky Mountain Association for Counselor Educations and Supervision. Park City, UT October 4-7. Peer Reviewed

## National Recognition

- Pam Wells, a 2nd year doctoral student was selected as the Association for Counselor Education and Supervision (ACES) Graduate Student Representative for the 2012-2013 term.
- Dr. Nicole Hill served as President of ACES during this same term. Dr. Hill joins ISU Dept. of Counseling faculty Drs. Kleist and Feit who have also served as President of ACES. ISU is the only counseling program in the nation to have had 3 faculty serve as ACES Presidents.

## Awards & Grants Received

- Research grant on behalf of ISU Dept. of Counseling's Pocatello Counseling Clinic was awarded \$14,000 by the Portneuf Health Care Foundation.
- The Department set up the Steve and Susan Feit Endowment with a starting amount of \$150,000.

## Goals for the Upcoming Year

- Expand School Counselor outreach via workshops
- Enhance relationship with on-site supervisors via consistent outreach
- Explore feasibility of integrating technology into clinic data management as well as tracking of student learning

## Publications

- Binkley, E., Wilde, B., Parmanand, S.P., McCaughan, A. M., Kleist, D.M. (2012). Developing counseling skill using the Landro Play Analyzer (LPA): A grounded theory. *The Practitioner Scholar*, 1, 25-39. Peer Reviewed

# Counseling

## Presentations (cont.)

- Poster, ISU Research Day, ISU, Meridian, ID, The Inter Relationships of Physical Health, Mental Health and Oral Health Is More Than Obesity, Carr, G. (Presenter & Author), Tivis, R.D. (Presenter & Author), Powell, P. (Author Only), Horn, E.A. (Author Only), Nelson, C. (Presenter & Author, Graduate), Moore, K. (Presenter & Author, Graduate), Conference, Local, Academic, Not Published in Proceeding, Not Published Elsewhere, Accepted March 2013.
- Oral Presentation, ICA Conference, Idaho Counseling Association, Coeur d' Alene, ID, Reinventing counseling relationships in the age of social media, Glorfield, C. (Leader), Crews, J.A. (Presenter Only), Horn, E.A. (Presenter Only), Conference, State, The current proliferation of social media has altered the quality and tenor of interpersonal relationships and communication for our clients and ourselves. This presentation will discuss the potential implications of the pseudo-relational aspects of social media on interpersonal relationships. Academic, Not Published Elsewhere, Accepted January 2013.

## Clinics & Clinical Services

- Two locations – Pocatello and Meridian

## Clinic Patient Visits

- 240 hours of counseling services provided by the ISU-Pocatello clinic.
- 740 hours of counseling services provided by the ISU-Meridian clinic.

## Faculty & Student Clinic Participation

- Pocatello:
  - 8 students
- Meridian:
  - 14 students

## Certificate/Degree Programs

- Baccalaureate of Science in Dietetics
- Post Baccalaureate Certificate

## Student Enrollment

- 100 students are enrolled in the Bachelor of Science program called Didactic Program in Dietetics.
- 17 students are enrolled in the Post Baccalaureate Certificate program (Dietetic Internship).

## Post Graduation Idaho Employment

- 35% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 60% of their Didactic Program in Dietetics students pass the clinical licensure and certification exams.
- 74% of their Dietetic Internship students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics
- Next Review in 2018

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- AWARDED but declined by Office for Research and Economic Development \$3575, Probiotics as an adjuvant in enhancing the health benefits of a polyphenol-rich diet. Blanton (Principal Investigator), Marc Benson (Co-Investigator).

## Health Fairs & Screening Events

- The Dietetic programs served 1,000 individuals at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- Blanton, C., Tyler, M., Gabaldon, A., Cortical femur response to synbiotics in aging mice. FASEB Journal. 2013;27:1053.4. Poster presentation at Experimental Biology in Boston, MA, April 2013.

## National Recognition

- Continued accreditation status for the didactic program and dietetic internship through 2018 by the Accreditation Council for Education in Nutrition and Dietetics.

## Awards & Grants Received

- ACTIVE: University Research Committee grant \$7500, Mitigating age-related dysbiosis with a synbiotic diet. Blanton (Principal Investigator), Sheridan (Co-Investigator)

## Goals for the Upcoming Year

- Continue to increase preceptors for Twin Falls.
- Present a DHS Research Day poster with the dietetic interns
- Obtain funding from the Clinical and Translational Research Infrastructure Network Pilot Grant \$55,000, Enhancing dietary polyphenol bioactivity with probiotics. Blanton (Principal Investigator).
- Obtain funding from Colorado State University for collaborative project Effects of Dietary Synbiotics on Bone Structure, Density, and Mechanical Strength in Aging Male Mice.
- Publish in the journal Nutrients an original research article, Improvements in Iron Status and Cognitive Function in College Women Consuming Beef or Non-Beef Lunches.
- Complete URC-funded project Mitigating age-related dysbiosis with a synbiotic diet and present and publish results.

## Publications

- Blanton, C., Green, M., Kretsch, M. (2013). Body Iron is Associated with Cognitive Executive Planning Function in College Women. Br J Nutrition, 109:906-913.
- Blanton, C., Tyler, M., Gabaldon, A., Cortical femur response to synbiotics in aging mice. FASEB Journal. 2013;27:1053.4.

# Health Care Administration

## Certificate/Degree Programs

- Baccalaureate Degree in Health Care Administration with a minor in Business

## Student Enrollment

- 133 students are enrolled in the Health Care Administration program.

## Post Graduation Idaho Employment

- 90% (approximately) of their students obtain employment in Idaho after graduation.

## Program Accreditation By

- Association of University Programs in Health Administration
- Next Review in 2015

## Faculty Research Engagement

- 1.5 faculty members are actively engaged in research in the health and biomedical sciences.

## Goals for the Upcoming Year

- Participate in KSHP major initiatives:
  - Leadership in inter-professional education
  - Leadership in online education
  - Leadership in health promotion and wellness
  - University / professional leadership and faculty development

## Publications

- Hermanson, P., Berkshire, S., Piland, N., Leaming, L. (2012). A revolution in healthcare: Store-based retail health clinics. *MGMA Virtual Connexion*, November/December, 53-56.

## Presentations

- Farnsworth, T.J., Hermanson, P.M. "Using portfolios to promote, support, and evaluate learning in an undergraduate healthcare leadership course." AUPHA Annual Meeting; 2013 June 19 – 22: Monterey, CA.
- Hermanson, P., Farnsworth, T. J. "Evaluating student performance in a traditional health care administration program. Poster session presented at: AUPHA Annual Meeting; 2013 June 19 - 22: Monterey, CA.

# Health Education

## Certificate/Degree Programs

- Baccalaureate of Arts Degree in Health Education
- Baccalaureate of Science Degree in Health Education
- Master of Health Education

## New Courses/Programs/Degrees

- Master of Health Education is fully online

## Student Enrollment

- 26 Majors and 17 minors in the Bachelor's Program
- 20 students are enrolled in the Master of Health Education program.

## Post Graduation Idaho Employment

- 98% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Council for the Accreditation of Education Preparation
- Northwest Commission on Colleges and Universities

## Faculty Research Engagement

- 5 faculty members are actively engaged in research in the health and biomedical sciences.

## Health Fairs & Screening Events

- The Health Education program served between 50 and 60 individuals at the ISU Community Health Fairs & Screenings.

## National Recognition

- American Association for Health Education (AAHE) Health Education Major of the Year: Allison Palmer & Jamie Albright
- Idaho Association for Health, Physical Education, Recreation, and Dance (IAHPERD) Outstanding Collegiate Educator of the Year; Dr. John M. Batacan
- Northwest District for the American Alliance for Health, Physical Education, Recreation and Dance (NWD - AAHPERD) College/University Professional of the Year, Nominee; Dr. John M. Batacan
- AAHE College/University Health Education Specialist, Finalist; Dr. John. M. Batacan

## Awards & Grants Received

- Dr. Carol Kirkpatrick - Active Schools Acceleration Project Grant, "Implementing the 100 Mile Club® at Gate City Elementary" (\$1,000.00). Co-author with Deanne Dye, M.Ed.
- Dr. Carol Kirkpatrick - Presidential Youth Fitness Program (PYFP) Grant for implementation of the PYFP at Gate City Elementary (~\$2,500.00). Co-author with Deanne Dye, M.Ed.

## Goals for the Upcoming Year

- Increase MHE students by 5 full time
- Increase undergrad online classes by 2 (additional) courses
- Establish close relationship between MHE & MPH programs

# Wellness Center

## Certificate Programs

- National Safety Council Certificate Programs
  - CPR/AED Standard Certification
  - First Aid Certification
  - Basic Life Support for Health Care Providers
  - Re-certifications

## Program Enrollment

- CPR/AED and/or First Aid Certifications: 145
  - Note: These are 2 to 3 hour certification trainings, single session. The numbers listed are for completed certifications.
- GET-FIT Program Passports: 590 purchased

## Certification Pass Rate

- 100% of their students pass the CPR/AED and First Aid certification exams.
  - Note: Students are assessed for skills through demonstration and written examinations and have the opportunity to re-take the assessments until skills/knowledge requirements are met.

## Health Fairs & Screening Events

- The Wellness Center served over 600 individuals at the ISU Community Health Fairs & CommUniversity.

## Goals for the Upcoming Year

- Increase program visibility on and off campus
- Increase smoking cessation supports for Smoke Free Campus policy
- Introduce new/popular/trending fitness courses
- Revise Wellness Center website

## Clinics & Clinical Services

- Wellness Center, Idaho State University, Pocatello
- Wellness Center, Idaho State University Health Science Center, Meridian
- The ISU Wellness Center offers health education/health promotion services rather than clinical services, such as fitness assessments, personal training sessions, and nutrition counseling.

## Clinic Patient Visits

- 1,550 clients were seen by the ISU Wellness Center for fitness assessments, personal training sessions, or nutrition counseling sessions.
- Students:
  - GET-FIT Program: 322 passports were sold to students.
  - Fitness assessments: 484 fitness assessments were completed on students.
  - Personal training: 210 personal training sessions were provided to students.
  - Nutrition counseling: 107 nutrition counseling sessions were provided to students.
- Faculty/Staff:
  - GET-FIT Program: 133 passports were sold to faculty/staff.
  - Fitness assessments: 3 fitness assessments were completed on faculty/staff.
  - Personal training: 9 personal training sessions were provided to faculty/staff.
  - Nutrition counseling: 1 nutrition counseling session was provided to faculty/staff.
- Other ISU Community:
  - GET-FIT Program: 18 passports were sold to student spouses.
  - GET-FIT Program: 49 passports were sold to faculty/staff spouses.
  - GET-FIT Program: 68 passports were sold to ISU alumni.

## Faculty & Student Clinic Participation

- 12 Fitness Instructors
- 2 Graduate Teaching Assistants

# Medical Laboratory Science

## Certificate/Degree Programs

- Bachelor of Science in Medical Laboratory Science
- Second Bachelor of Science in Medical Laboratory Science
- Master of Science in Medical Laboratory Science

## Student Enrollment

- 18 students are enrolled in the Bachelor of Science in Medical Laboratory Science program.
- 8 students are enrolled in the Second Bachelor of Science in Medical Laboratory Science program.
- 5 students are enrolled in the Master of Science in Medical Laboratory Science program.

## Post Graduation Idaho Employment

- 70% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 82% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
- Next review in 2016

## Faculty Research Engagement

- 1 faculty member is actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- All students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- Medical Laboratory Science served more than 750 individuals at the ISU Community Health Fairs & Screenings, various health fairs, and Meridian clinics.

## Goals for the Upcoming Year

- Stabilize graduate program

# Paramedic Science

## Located on the Meridian Campus

### Certificate/Degree Programs

- Associate of Science in Paramedic Science

### Student Enrollment

- 8 student are enrolled in the Paramedic Science program.

### Post Graduation Idaho Employment

- 50% of their students obtain employment in Idaho after graduation.

### Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

### Program Accreditation By

- The Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP)
- Next Review in October 2013

### Goals for the Upcoming Year

- Marketing and Enrollment
- Implementation of newly adopted curriculum
- Sustained Faculty
- Submission of a Bachelor's degree program

## Certificate/Degree Programs

- Masters of Public Health

## Student Enrollment

- 41 students are enrolled in the MPH program.

## Post Graduation Idaho Employment

- 62% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Council on Education for Public Health (CEPH)
- Next Review 2015

## Faculty Research Engagement

- 2 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- \$26,785.06 Total

## Awards & Grants Received

- Newly awarded in FY 2013
  - Gateway 2 Health \$5,214.08
- Ongoing during FY 2013 (i.e. awarded in FY 2012) with FY 2013 expenditures only
  - Navegantes para Salud \$6,756.53
  - Rural Health Network Community Health Needs Assessment and Evaluation \$14,814.45
  - Decreasing Jail Recidivism in Bannock County \$31,623.31

## Goals for the Upcoming Year

- To move to a completely online format.
- Develop dual degrees in MSDH-MPH and MBA-MPH.
- Revise the curriculum with input from all MPH faculty.

# Radiographic Science

## Certificate/Degree Programs

- Baccalaureate Degree in Radiographic Science
- Certification in MRI and CT

## New Courses/Programs/Degrees

- RS 4421 Computed Tomography
- RS 475 Registry Review
- RS 4481 Independent Study MRI
- RS 4491 MRI/CT Clinical

## Student Enrollment

- 35 students in the Baccalaureate Degree Program
- 4 in the MRI program
- 2 in the CT program

## Post Graduation Idaho Employment

- 100% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Joint Review Committee in Education in Radiologic Technology

## Faculty Research Engagement

- 2 faculty members are actively engaged in research in the health and biomedical sciences.

## Awards & Grants Received

- Received a grant from the Kasiska Foundation for \$112,000 to purchase a new x-ray machine.

## Goals for the Upcoming Year

- Continue to increase enrollment in MRI/CT certification

## Publications

- Hobbs, Dan L; Mickelsen, Wendy; Wertz, Christopher; Stradling, Cauleen; Boyce, Melissa; Chandler, Nannette; Schneyder, Devin; Jackman, Casey (2013) Investigating Orthogonal Radiography in the Diagnosis of Radial Head Fractures. Radiologic Technology, 85(1), 102-106.

# School of Rehabilitation and Communication Sciences

# Communication Sciences & Disorders and Education of the Deaf

## Certificate/Degree Programs

- Bachelor of Science in Communication Sciences and Disorders, with an emphasis in pre-audiology
- Doctor of Audiology

## Student Enrollment

- 88 students are enrolled in the Bachelor of Science in Communication Sciences and Disorders program (includes both emphasis).
- 28 students are enrolled in the Doctor of Audiology program.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams (Praxis Exam).

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology
- American Speech-Language-Hearing Association (ASHA)
- Accredited through Oct 31, 2016

## Faculty Research Engagement

- 14 total CSD faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Barga, Gabriel A (Co-Principal), Kangas, Kathleen A (Co-Principal), "Proposal to perform hearing screenings for the Department of Health and Welfare," Sponsored by Idaho Department of Health and Welfare, Early Hearing Detection and Intervention, External to Idaho State University, \$10,000.00. (June 6, 2011 - June 6, 2013).

## Students in Clinical Research

- 27 total CSD students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- Communication Sciences & Disorders and Education of the Deaf Program served more than 6,312 community members at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- Fifth Annual Winter Symposium, Feb 21-22, 2013. Speakers: Christina Gildersleeve Neumann, PH.D., Assoc Prof and Chair at Portland State University, Portland, Oregon. Dr. Daniel Hudock, Ph.D., Assist Prof at Idaho State University. (Pocatello)
- Tell Me A Story: Increasing the Language and Social Competence of School-Aged Children and Youth. April 19, 2013. Speaker: Kristine Noel, Ph.D., Professional Development Coordinator in New Mexico. (Meridian)
- Collaborative care between speech language pathologist and school counselors for treating students who stutter. April 20, 2013. Cosponsored by National Association of Young People Who Stutter and CSD Department at ISU. Speakers: Daniel Hudock, Ph.D., CSED Department ISU, and Amy Jones, Ph.D., Counseling Department ISU. (Pocatello)

## Awards & Grants Received

- Altieri, Nicholas A, Sponsored by Idea Network of Biomedical Research Excellence (INBRE), Idaho State University, \$7,600.00. (December 31, 2012 - December 31, 2013).
- Altieri, Nicholas A (Principal), "Obtaining Comprehensive Measures of Audio-Visual Speech Integration Skills," Sponsored by URC: Idaho State University, Idaho State University, \$5,400.00. (December 31, 2012 - December 31, 2013).
- Barga, Gabriel A (Co-Principal), Kangas, Kathleen A (Co-Principal), "Proposal to perform hearing screenings for the Department of Health and Welfare," Sponsored by Idaho Department of Health and Welfare, Early Hearing Detection and Intervention, External to Idaho State University, \$10,000.00. (June 6, 2011 - June 6, 2013).
- Bishop, Randy L (Principal), "Department of Veterans Affairs Network Contract for Idaho State University Hearing Services," Sponsored by Veterans Administration Medical Center, External to Idaho State University, \$237,510.00. (October 1, 2013 - September 30, 2014).
- Brockett, Jeff E (Co-Principal), Sanford, Chris A (Principal), "Evaluation of test-retest reliability of high-frequency evoked otoacoustic emissions in children.," Sponsored by Idaho State University, University Research Committee Grant, Idaho State University, \$21,376.00. (August 1, 2011 - July 31, 2012).

# Audiology

- Brockett, Jeff E (Co-Principal), Sanford, Chris A (Principal), "Predicting Conductive Hearing Loss in Children: Test Performance of Wideband Acoustic Measurements (," Sponsored by Idaho State University, Division of Health Sciences Enhancement Grant, Idaho State University, \$10,000.00. (August 1, 2011 - July 31, 2012)
- Holst, Jennifer E (Other), "Healthy Hearing," Sponsored by Idaho Special Olympics, External to Idaho State University, \$1,385.00. (January 1, 2013 - March 2, 2013).

## Goals for the Upcoming Year

- Establish Mentoring Group to assist tenure-track faculty.
- Develop brown bag seminars focused on research
- Establish a data base of individuals willing to be contacted about participating as subjects in research projects
- Expand space to support all aspects of the mission of the department.
- Preserve time for research, especially for tenure track faculty
- Participate in Quality Matters to maintain and improve quality of online teaching

## Clinics & Clinical Services

- ISU Hearing Clinic (including the VA contract) - Pocatello, ID; ISU campus – hearing services
- ISU Vestibular and Balance Clinic - Pocatello, ID; ISU campus – balance and vestibular testing

## Clinic Patient Visits

- 688 patients were seen by the ISU Hearing Clinic.
- 3,663 VA patients were seen by the ISU Hearing Clinic.

## Faculty & Student Clinic Participation

- 25 Faculty Members total in all CSD Clinics
- 71 Students total in all CSD Clinics

# Educational Interpreting

## Certificate/Degree Programs

- Associate of Science in Sign Language Studies
- Bachelor of Science in Educational Interpreting

## Student Enrollment

- 33 students are enrolled in the Associate of Science in Sign Language Studies program.
- 27 students are enrolled in the Bachelor of Science in Educational Interpreting program.

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology
- American Speech-Language-Hearing Association (ASHA)
- Accredited through Oct 31, 2016

## Health Fairs & Screening Events

- Communication Sciences & Disorders and Education of the Deaf Program served more than 6,312 community members at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- Fifth Annual Winter Symposium, Feb 21-22, 2013. Speakers: Christina Gildersleeve Neumann, PH.D, Assoc Prof and Chair at Portland state University, Portland, Oregon. Dr. Daniel Hudock, Ph.D., Assist Prof at Idaho State University. (Pocatello)

# Speech-Language Pathology

## Certificate/Degree Programs

- Bachelor of Science in Communication Sciences and Disorders, with an emphasis in pre-speech-language pathology
- Master of Science in Speech-Language Pathology

## Student Enrollment

- 88 students are enrolled in the Bachelor of Science in Communication Sciences and Disorders program (includes both emphasis).
- 123 students are enrolled in the Master of Science in Speech-Language Pathology program.

## Post Graduation Idaho Employment

- 62% of Master of Science in Speech-Language Pathology students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 94% of their students pass the clinical licensure and certification exams (Praxis Exam).

## Program Accreditation By

- Council on Academic Accreditation in Audiology and Speech-Language Pathology
- American Speech-Language-Hearing Association (ASHA)
- Accredited through Oct 31, 2016

## Faculty Research Engagement

- 14 total CSD faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Hudock, Daniel J (Co-Principal), Kalinowski, Joseph (Co-Principal), Stuart, Andrew (Co-Principal), "Developing web-based and smart phone technology for stuttering," Sponsored by East Carolina University, Office of Technology Transfer., External to Idaho State University, \$25,000.00. (June 2012 - ).
- Ramsdell, Heather L (Supporting), Killeen, Randi (Principal), "Caregiver perception of prelinguistic vocalizations in infant siblings: A case study," Sponsored by American Speech-Language-Hearing Association, External to Idaho State University, \$1,300.00. (January 2013 - May 2014).

- Ramsdell, Heather L (Principal), "The identification of prelinguistic phonological categories in infants with siblings who have autism," Sponsored by 2012 ASHA Foundation New Century Scholar Research Grant, External to Idaho State University, \$10,000.00. (2012).

## Students in Clinical Research

- 27 total CSD students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- Communication Sciences & Disorders and Education of the Deaf Program served more than 6,312 community members at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- Fifth Annual Winter Symposium, Feb 21-22, 2013. Speakers: Christina Gildersleeve Neumann, PH.D, Assoc Prof and Chair at Portland state University, Portland, Oregon. Dr. Daniel Hudock, Ph.D., Assist Prof at Idaho State University. (Pocatello)
- Tell Me A Story: Increasing the Language and Social Competence of School-Aged Children and Youth. April 19, 2013. Speaker: Kristine Noel, Ph.D., Professional Development Coordinator in New Mexico. (Meridian)
- Collaborative care between speech language pathologist and school counselors for treating students who stutter. April 20, 2013. Cosponsored by National Association of Young People Who Stutter and CSD Department at ISU. Speakers: Daniel Hudock, Ph.D., CSED Department ISU, and Amy Jones, Ph.D., Counseling Department ISU. (Pocatello)

## Awards & Grants Received

- Altieri, Nicholas A, Sponsored by Idea Network of Biomedical Research Excellence (INBRE), Idaho State University, \$7,600.00. (December 31, 2012 - December 31, 2013).
- Altieri, Nicholas A (Principal), "Obtaining Comprehensive Measures of Audio-Visual Speech Integration Skills," Sponsored by URC: Idaho State University, Idaho State University, \$5,400.00. (December 31, 2012 - December 31, 2013).

- Hudock, Daniel J (Co-Principal), Kalinowski, Joseph (Co-Principal), Stuart, Andrew (Co-Principal), "Developing web-based and smart phone technology for stuttering," Sponsored by East Carolina University, Office of Technology Transfer., External to Idaho State University, \$25,000.00. (June 2012 - ).
- Johnson, Jeanne M, "Bridging the Summer Learning Gap," Sponsored by Idaho Community Foundation: Southwest Region, External to Idaho State University, \$2,500.00. (June 2012 - July 2012).
- Barga, Gabriel A (Co-Principal), Kangas, Kathleen A (Co-Principal), "Proposal to perform hearing screenings for the Department of Health and Welfare," Sponsored by Idaho Department of Health and Welfare, Early Hearing Detection and Intervention, External to Idaho State University, \$10,000.00. (June 6, 2011 - June 6, 2013).
- Ramsdell, Heather L (Supporting), Killeen, Randi (Principal), "Caregiver perception of prelinguistic vocalizations in infant siblings: A case study," Sponsored by American Speech-Language-Hearing Association, External to Idaho State University, \$1,300.00. (January 2013 - May 2014).
- Ramsdell, Heather L (Principal), "The identification of prelinguistic phonological categories in infants with siblings who have autism," Sponsored by 2012 ASHA Foundation New Century Scholar Research Grant, External to Idaho State University, \$10,000.00. (2012).

### Goals for the Upcoming Year

- Establish Mentoring Group to assist tenure-track faculty.
- Develop brown bag seminars focused on research
- Establish a data base of individuals willing to be contacted about participating as subjects in research projects
- Expand space to support all aspects of the mission of the department.
- Preserve time for research, especially for tenure track faculty
- Participate in Quality Matters to maintain and improve quality of online teaching

### Publications

- Townsend, J.T., & Altieri, N. (2012). An accuracy-response time capacity assessment function that measures performance against standard parallel predictions. *Psychological Review*, 119(3), 500-516. (Peer-reviewed)
- Wenger, M.J., Thomas, R. & Altieri, N. (2012). Applying multidimensional signal detection models of the uncertainty task: An example using face recognition. *Journal of Vision*, 12(9), 502. (Reviewed Abstract)
- Altieri, N. (2012). A tutorial on using The General Recognition Theory for assessing perceptual dependencies in full factorial experimental designs. (Technical Report for website)
- Altieri, N., & Wenger, M. (2013). Neural dynamics of audiovisual integration efficiency under variable listening conditions: an individual participant analysis. *Frontiers in Psychology*, 4(615), 1-15. (Peer Reviewed Academic Journal Article)
- Altieri, N., Townsend, J.T., & Wenger, M.J. (2013). A dynamic assessment function for measuring audiovisual speech recognition. *Behavior Research Methods*. Published in online first before print. (Peer Reviewed Academic Journal Article)
- Dunbar, N.E., Altieri, N., Jensen, M.W., & Wenger, M.J. (2013). The viability of EEG as a method of deception detection. *Proceedings of the Rapid Screening Technologies, Deception Detection and Credibility Assessment Symposium*, 66-74. (Reviewed Conference Proceeding)
- Altieri, N. (2013). Audiovisual integration: An introduction to behavioral and neuro-cognitive methods. *Frontiers in Psychology*, 4(642), 1-2. (Editorial)
- Flipsen, P., Jr., & Lee, S. (2012). Research note: Reference data for the American English acoustic vowel space. *Clinical Linguistics and Phonetics*, 26(11-12), 926-933.

# Speech-Language Pathology

## Publications (cont.)

- Flipsen, P., Jr. (2012). Off-label use of norm-referenced tests in speech pathology: Insights gained from children with hearing impairment. In Goldfarb, R. (Ed.). *Translational Speech-Language Pathology and Audiology: Essays in Honor of Dr. Sadanand Singh* (pp. 113-117). San Diego, CA: Plural Publishing. (invited book chapter)

## Presentations

- Brion-Lopez, L., Hodges, K., Calley, K., Seikel, J. A. (2012). A Comparison of dental ultrasonic technologies on subgingival calculus removal: A pilot study.

- Hudock, D., & Altieri, N. (2013). Foundations to theories and perspectives on stuttering from a historical perspective of societal influences: Part I. *Proceedings of the International Stuttering Conference*.

- Hudock, D., & Altieri, N. (2013). Foundations to theories and perspectives on stuttering from a historical perspective of societal influences: Part II. *Proceedings of the International Stuttering Conference*.

## Clinics & Clinical Services

- ISU Speech Clinic – Pocatello (Pocatello, ID; ISU campus) – speech therapy services
- ISU Speech Clinic – Meridian (Meridian, ID; ISU-Meridian campus) – speech therapy services

## Clinic Patient Visits

- 1,795 patients were seen by the ISU Speech Clinic – Pocatello.
- 1,828 patients were seen by the ISU Speech Clinic – Meridian.

## Faculty & Student Clinic Participation

- 25 Faculty Members total in all CSD Clinics
- 71 Students total in all CSD Clinics

# Physical and Occupational Therapy

# Occupational Therapy

## Certificate/Degree Programs

- Master of Occupational Therapy

## Student Enrollment

- 37 students are enrolled in the Occupational Therapy program.

## Post Graduation Idaho Employment

- 90% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Occupational Therapy Education (ACOTE)
- Next Review in 2016

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- All 2nd and 3rd year students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- The Occupational Therapy Program participated in three health fairs, and provided consultative services to up to 100 community members.

## Conferences/Seminars Hosted

- AOTA's Fieldwork Educator Certification Course – February 8th and 9th, 2013.

## National Recognition

- Bryan Gee, OTD, OTR/L, BCP – Service Commendation from the American Occupational Therapy Association for his service on the BASC – Phase II committee.

## Goals for the Upcoming Year

- Customer Service – increase notification of semester schedules from one week prior to the semester start to at least 6 weeks.

## Publications

- Gee, B. M., Devine, N., Werth, A., & Phan, V. (2013). Paediatric Occupational Therapists' Use of Sound-based Interventions: A Survey Study. *Occupational therapy international*, 20, 155-162.

## Clinics & Clinical Services

- ISU Physical and Occupational Therapy Associates, Garrison House Room 202, Physical and Occupational Therapy Services

## Clinic Patient Visits

- 1,151 occupational therapy and physical therapy clients were seen by the ISU Physical and Occupational Therapy Associates clinic.

# Physical Therapy

## Certificate/Degree Programs

- Doctorate of Physical Therapy

## Student Enrollment

- 72 students are enrolled in the Physical Therapy program.

## Post Graduation Idaho Employment

- 72% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 92% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Commission on Accreditation in Physical Therapy Education (CAPTE)
- Next Review in 2014

## Faculty Research Engagement

- 7 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- 72 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- The Occupational Therapy Program participated in three health fairs, and provided consultative services to up to 100 community members.

## Conferences/Seminars Hosted

- AOTA's Fieldwork Educator Certification Course – February 8th and 9th, 2013.

## Goals for the Upcoming Year

- Customer Service – increase notification of semester schedules from one week prior to the semester start to at least 6 weeks.

## Clinics & Clinical Services

- ISU Physical and Occupational Therapy Associates, Garrison House Room 202, Physical and Occupational Therapy Services

## Clinic Patient Visits

- 1,151 occupational therapy and physical therapy clients were seen by the ISU Physical and Occupational Therapy Associates clinic.

## Faculty & Student Clinic Participation

- 7 Faculty Members
- 72 Students

# School of Nursing

## Certificate/Degree Programs

- Accelerated Bachelor of Science in Nursing
- Bachelor of Science Completion
- Bachelor of Science in Nursing
- Master of Science in Nursing
- Post-Masters Certificate
- Doctor of Philosophy in Nursing
- Doctor of Nursing Practice

## New Courses/Programs/Degrees

- Doctor of Philosophy in Nursing
- Doctor of Nursing Practice

## Student Enrollment

- 30 new students enrolled in the Accelerated Bachelor of Science in Nursing program during the 2012-2013 academic year.
- 1 new student enrolled in the Bachelor of Science Completion program during the 2012-2013 academic year.
- 70 new students enrolled in the Bachelor of Science in Nursing program during the 2012-2013 academic year.
- 9 new students admitted in the Master of Science in Nursing program during the 2012-2013 academic year.
- 7 new students admitted in the Doctor of Nursing Practice program during the 2012-2013 academic year.
- 2 new students admitted in the Doctor of Philosophy in Nursing program during the 2012-2013 academic year.

## Licensure/Certification Pass Rate

- 92% of their students pass the clinical licensure and certification exams, NCLEX.
- 95% of their students pass the clinical licensure and certification exams, Family Nurse Practitioner.

## Program Accreditation By

- Commission on Collegiate Nursing Education (CCNE)
- Accreditation effective until June 30, 2021

## Faculty Research Engagement

- 5 faculty members are actively engaged in research in the health and biomedical sciences.

## Health Fairs & Screening Events

- The School of Nursing served 385 community members at the ISU Community Health Fairs & Screenings.
- Events included:
  - Fall Rural screening: 12 clinical sites
  - Spring Health fair
  - Summer Activities

## Goals for the Upcoming Year

- Lead and disseminate scholarship
- Comprehensive evaluative data enhance SON processes and outcomes
- Continue to expand existing innovative programs and increase innovative opportunities for students, faculty and community
- Increase student and faculty engagement in opportunities to improve the health of rural and diverse populations.

## Publications

- Kazemi, D., Levine, M., Dmochowski, J., Nies, M.A., Sun, L. (2013) Effects of Motivational Interviewing Intervention on Blackouts Among College Freshmen. *Journal of Nursing Scholarship*. 45 (3), 221-229.

# College of Pharmacy

# Pharmacy

## Certificate/Degree Programs

- Residency
- Master of Science in Pharmaceutical Sciences (with or without thesis)
- Doctor of Pharmacy
- Ph.D. in Pharmaceutical Sciences (4 emphasis areas)
- Non-traditional Doctor of Pharmacy

## Student Enrollment

- 4 students are enrolled in the Residency program.
- 9 students are enrolled in the Master of Science in Pharmaceutical Sciences (5 thesis students, 4 non-thesis students)
- 288 students are enrolled in the Doctor of Pharmacy program.
- 3 students are enrolled in the Ph.D. in Pharmaceutical Sciences program.
- 98 students are enrolled in the Nontraditional Doctor of Pharmacy program.

## Post Graduation Idaho Employment

- 68% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 96.6% of their students passed the clinical licensure and certification exams, the 2013 NAPLEX.

## Program Accreditation By

- Accreditation Council for Pharmacy Education (ACPE)
- Next accreditation cycle scheduled 2016-2017

## Faculty Research Engagement

- 19 Pharmacy Practice and Administrative Science faculty members are actively engaged in research in the health and biomedical sciences.
- 8 Biomedical and Pharmaceutical Sciences faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- Pharmacy Practice and Administrative Science Faculty
  - \$679,540
- Biomedical and Pharmaceutical Sciences Faculty
  - \$130,000

## Students in Clinical Research

- 72 students participate in clinical research as part of their degree program.

## Health Fairs & Screening Events

- 8,741 community members received direct patient care at the ISU Community Health Fairs & Screenings.
- 1,527,272 community members received health-related information through public relations efforts.

## Conferences/Seminars Hosted

- The Dr. David Chu Annual Lectureship Fund, visiting lecturer Dr. Rommie Amaro, PhD., Tuesday, January 29, 2013-- Meridian
- College of Pharmacy Dean's Advisory Council (DAC) Meetings
  - Meridian, April 13, 2013
  - Pocatello, October 27, 2012
- College of Pharmacy Continuing Education (CE)
  - Pocatello, March 17, 2013
  - Meridian, March 10, 2013
  - Couer d'Alene, April 14, 2013
- Idaho State Board of Pharmacy Meeting- Pocatello- April 4, 2013

## National Recognition

- 2012 Graduates had 100% NAPLEX pass rate
- 2013 Graduates had 96.6% NAPLEX pass rate
- Students received Awards
  - Operation Diabetes won nationally for Rural Outreach Projects
  - Operation Immunization won Region 7 Award at MRM
- First student selected for the Rural Pharmacy Residency Program-Autumn Hayes
- Cory Nelson chosen as 2013-2014 International Standing Committee Contact Person in the APhA Academy of Student Pharmacists

## Awards & Grants Received

- PPRA faculty Guang Yan received \$50,000 HERC Grant--BPSCI
- Vaughn Culbertson and Dong Xu proposal funded by ALSAM-- BPSCI
- Secured contract with MedImpact to develop drug monographs to support formularies used by insurance companies

## Goals for the Upcoming Year

- Pursue opportunity to provide pharmacy education in Alaska
- Increase successful extramural funding in both departments
- Strategic hiring for both departments
- Revitalize graduate program for MS and PhD
- Increase our participation in MTM
- Continue Dr. David Chu Annual Lectureship
- Support & expand Bengal Pharmacy, LLC.
- Open House at Meridian Health Science Center—showcase our faculty & labs
- Create historic pharmacy memorabilia displays at Meridian Health Science Center
- Increase experiential support in Eastern Idaho
- Support rural pharmacy initiatives

  - Holmes JT, Borzadek E, Pugmire B, Foster JN, Placek M, Cole D, Woodhouse WM, Force RW. QT-Prolongation with Citalopram: Assessment of Patient Safety. North American Primary Care Research Group 41st Annual Meeting Proceedings. Published online at [www.NAPCRG.org](http://www.NAPCRG.org).

## Presentations (cont.)

- Pharmacy Practice and Administrative Science (cont.)
  - Force RW, Pugmire B, Holmes JT, Borzadek E, Foster JN, Johnson C, Wilde T, Woodhouse WM. Untoward Consequences of a Quality Improvement Intervention in Patients with Depression. North American Primary Care Research Group 41st Annual Meeting Proceedings. Published online at [www.NAPCRG.org](http://www.NAPCRG.org).
  - Carr G, Tivis R, Tivis L, Mason B Pharmacist Delivered Alcohol Screening, Brief Intervention, and Referral: A Customer Attitude Survey, poster presentation AACP Chicago
  - Allison A. Cardona, PharmD Candidate, Vaughn Culbertson, PharmD, Catherine A. Cashmore, PharmD, MS, ANP, FASC, Identification of Curricular Measures Associated with Inferior APPE performance. presented at American Association of Colleges of Pharmacy, Annual Meeting, Chicago, IL July 2013
  - Malamakal JA\*, Lauren Whiteford L, Carlson S, Lott RS. Analysis of Prescribing Frequencies of Antipsychotics for the Primary Diagnosis of Schizophrenia: Potential Areas for Pharmacy Intervention.
  - Student Poster. Annual Meeting, Idaho Society of HealthSystem Pharmacists, Sun Valley ID, September 2013 - Koyle M (Presenter), Lott RS, Koenig S. A Retrospective Evaluation of Concomitant use and Outcomes Related to use of Prazosin with other Alpha-1 Antagonist.
  - Student Poster. American Society of Health-System Pharmacists, MidYear Clinical Meeting, Orlando, Florida, December 2013. - Ponce E. (Presenter) Nguyen E. Mason B. Pharmacists role in state Alzheimers Plan ISHP Poster, Sun Valley
  - Mason B. Carr G. Community Health Screenings and Cross Disciplinary Education AACP School Poster Chicago 2013
- Madaras-Kelly KJ, Remington R, Hill N, Jones M, Huttner B, Samore M. Development of an Antibiotic Spectrum Score to Measure Antibiotic De-escalation Based Upon Perceptions of Antibiotic Stewards Obtained Through a Modified Delphi Method. Presented at the 51st Annual Infectious Diseases Society of America Meeting, San Francisco, CA, October, 2013. Presentation #1006
- Madaras-Kelly KJ, Remington R, Hill N, Jones M, Huttner B, Samore M. Development of an Antibiotic Spectrum Score to Measure Antibiotic De-escalation Based Upon Perceptions of Antibiotic Stewards Obtained Through a Modified Delphi Method. Invited Encore presentation for Posters in the Park, ID Week Societies (IDSA, SHEA, PIDS) business meetings. San Francisco, CA, October, 2013. Presentation #26
- Huttner B, Jones M, Madaras-Kelly K, Neuhauser, M, Maw M, Rubin M, Goetz M, Samore M. Impact of the Propensity to Commence or terminate Antibiotic Regimens on Overall Antimicrobial Use. Presented at the 53rd Annual Interscience Conference on Antimicrobial Agents and Chemotherapy, Denver CO, September, 2013 Presentation K-1543
- Belongie K, Madaras-Kelly K, Kaster L. Appropriate Chemotherapy Dosing for Obese Adult Patients with Cancer at the Boise Veterans Affairs Medical Center. Presented at the Idaho Health-Systems Pharmacists Annual meeting, Sun Valley, ID, September, 2013
- Nguyen E, Madaras-Kelly K, Black P, Mason B. A Medication Use Evaluation of Blood Pressure Variation in Consecutive Office Blood Pressure Measurements. Presented at the Idaho Health-Systems Pharmacists Annual meeting, Sun Valley, ID. September, 2013
- Johnson E, Lojeski E, Mallea D, Madaras-Kelly K. Evaluation of a New Opioid Renewal Clinic at the Boise Veterans Affairs Medical Center. Presented at the Idaho Society of Health-Systems Pharmacists Annual Meeting, Sun Valley, ID

- Crenshaw, KS, Steed ML, Seeley JL, et al. Pharmacists Impact on Optimizing Care and Decreasing Re-admittance in Patients Hospitalized with Congestive Heart Failure. Idaho State University Research Day. Pocatello, Idaho. March 15, 2013.
- Shah K, Corbridge J, Wilson A, Griffith B, Seeley J, Steed M. Implementation and Assessment of an Intern Development Program. Idaho Society of Health Systems Pharmacists Annual Fall Meeting. Sun Valley, Idaho. September 27, 2013.
- Reeder L, Garner J, Griffith B, Seeley J, Steed M. Implementation of a Recycling and Waste Management Program. Idaho Society of Health Systems Pharmacists Annual Fall Meeting. Sun Valley, Idaho. September 27, 2013.
- Griffith B, Steed ML, Seeley J, et al. Assessment of Initial Vancomycin Monitoring Practices in Neonates. Idaho Society of Health Systems Pharmacists Annual Fall Meeting. Sun Valley, Idaho. September 27, 2013.
- Griffith B, Steed ML, Seeley JL, et al. Assessment of Initial Vancomycin Monitoring Practices in Neonates. American Society of Health Systems Pharmacists Midyear Regional Meeting. Orlando, FL. December 7, 2013.
- Boyle J, Eroschenko K, Oliphant C. Changing trends in bacterial susceptibility at local acute care hospitals; a 10 year review. ASHP Midyear Clinical Meeting, 12/2013 and ISHP Meeting 9/2013.
- Nelson A, Oliphant C. Assessing the efficacy of online and face-to-face presentations about prescription drug abuse. Midyear Clinical Meeting, 12/2013 and ISHP meeting 9/2013.
- Oliphant C, Eroschenko K. Residency readiness elective with a focus on research. American Association of Colleges of Pharmacy Annual Meeting, 7/2013.
- Eroschenko K, Oliphant C, Carr G, Wadsworth T. Innovative elective course to prepare third-year pharmacy students for a postgraduate residency. American Association of Colleges of Pharmacy Annual Meeting, 7/2013.
- Pharmacist impact on pain management in the patient-centered medical home. Gower J, Eroschenko K. ASHP 2013
- Survey of hospital pharmacists regarding vancomycin dosing protocols in obese patients. ASHP 2013
- IV Acetaminophen Medication Utilization Evaluation (MUE) at a local acute care hospital. Zabka A, Eroschenko K-ASHP 2013
- Use of Social Media for Medical Advice- Lombardo L, Eroschenko K-ISHP 2013
- Patient Case Scenarios Taught by Pharmacy Students in an Over the Counter Elective-Davis G, Eroschenko, K
- Residency Readiness Elective with a Focus on Research-Oliphant C, Eroschenko K-AACP 2013
- Innovative elective course to prepare third-year pharmacy students for a postgraduate pharmacy residency-Eroschenko K, Oliphant C, Carr G, Wadsworth T-ISU research day 2013, AACP 2013
- Malamakal J, Wadsworth T. Assessing the knowledge status of diabetes at a community weightloss event. Poster presented at: ISU Research Day; 2013 March; Meridian, ID
- Rostock R, Wadsworth T. Case report of glycemic monitoring in a patient with beta-thalassemia. Poster presented at: ASHP Mid-year; 2012 Dec; Las Vegas, NV.

- March- 2013: Borzadek E, Pettinger TK, Pugmire B, Cashmore CA. Active vs. Passive Learning: Pharmacists' Knowledge Acquisition & Attitudes in Continuing Pharmacy Education · Poster presentation during the Idaho State University Division of Health Sciences Research Day in Pocatello, Idaho
- March- 2013: Foster JN, Holmes JT, Pugmire BA, Borzadek EZ, Force RW. Interdisciplinary Continuous Quality Improvement within a Family Medicine Residency Clinic: Response to Citalopram-Associated QT Prolongation · Poster presented during the Idaho State University Division of Health Sciences Research Day in Pocatello, Idaho
- November- 2013: Holmes JT, Borzadek EZ, Pugmire BA, Foster JN, Placek MS, Cole D, Woodhouse WM, Force, RW. QT Prolongation with Citalopram: Assessment of Patient Safety (QCAPS) · Poster presented during North American Primary Research Group 41st Annual Meeting on November 12, 2013 in Ottawa, Ontario
- November- 2013: Force RW, Holmes JT, Pugmire BA, Borzadek EZ, Foster JN, Johnson C, Wilde T, Woodhouse WM. Untoward Consequences of a Quality Improvement Intervention in Patients with Depression. · Poster presented during North American Primary Research Group 41st Annual Meeting on November 12, 2013 in Ottawa, Ontario
- March- 2013: Pannier, A., Liday C. The Cost of Free: The Impact of Prescription Copay Coupons on the Healthcare System. ISU College of Pharmacy Continuing Education, Meridian, ID, March 2013.
- March- 2013: Pannier, A., Liday C. The Cost of Free: The Impact of Prescription Copay Coupons on the Healthcare System. ISU College of Pharmacy Continuing Education, Pocatello, ID, March 2013.
- April- 2013: Pannier, A., Liday C. The Cost of Free: The Impact of Prescription Copay Coupons on the Healthcare System. ISU College of Pharmacy Continuing Education, Coeur d'Alene, ID, April 2013.
- January- 2013: Community Health Screening: An Organic Solution Canyon County Health Care Summit
- February- 2013: Community Health Screening: A Focus on Student Involvement Idaho State University- Division of Health Sciences: First Friday Series
- March- 2013: Establishing Primary Medical Care As A Result Of Participation In A Community Health Screening. Podium presentation for Idaho State University's Research Day
- March- 2013: Establishing Primary Medical Care As A Result Of Participation In A Community Health Screening. Ada County Commissioners and Community Partners

## Presentations (cont.)

- Pharmacy Practice and Administrative Science (cont.)
  - September- 2013: Community Health Screening as an Interdisciplinary Project. Boise VAMC Center of Excellence Patient Centered Medical Home Education Collaborative
  - September- 2013: Osgood, T., Carr, G. (September 2013). A Methodological Approach Towards Correlating Medication Compliance to PHQ-9 Scores in Patients With Limited Health Care Accessibility. Poster session presented for Idaho Society of Health-Systems Pharmacists Annual Fall Meeting; Sun Valley, ID.
  - September- 2013: Krawtz, K., Carr, G. (September 2013). A Retrospective Analysis of Contraceptive Prescribing Practices in Women of Childbearing Age Receiving Statin Therapy. Poster session presented for Idaho Society of Health-Systems Pharmacists Annual Fall Meeting; Sun Valley, ID.
  - August- 2013: Carr, G., Nelson, C., Moore, K., & Tivis, R. (August 2013). Community Health Screening: Student Pharmacist Involvement. Poster session presented for International Pharmaceutical Students' Federation World Congress; Utrecht, The Netherlands.
  - July- 2013: Mason, B.J., Carr, G. (July 2013). Integrative Public Health Curriculum Innovations Utilizing Community Health Screenings and Cross Disciplinary Education. Poster session presented for American Association of Colleges of Pharmacy Annual Meeting; Chicago, IL.
  - May- 2013: Carr, G.M., & Thorne, J. (May 2013). Increase In Student Knowledge Gained As A Result Of Participation In A Community Health Screening Event. Poster session presented for Northwest AIDS Education and Training Center Regional Management Meeting; Seattle, WA.
  - July- 2013: Oliphant, C., Eroschenko, K., Carr, G., Wadsworth, T. (July 2013) Residency Readiness Elective With a Focus on Research. Poster session presented for American Association of Colleges of Pharmacy Annual Meeting; Chicago, IL.
- March- 2013: Carr, G.M., Tivis, R.D., Nelson, C.A., & Moore, K.E. (March 2013). Establishing Primary Medical Care As A Result Of Participation in A Community Health Screening. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Carr, G.M., & Thorne, J. (March 2013). Increase In Student Knowledge Gained As A Result Of Participation In A Community Health Screening Event. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Carr, G.M., Tivis, R.D., Moore, K.E., & Nelson, C.A. (March 2013). ISU-Meridian And Ada County Community Health Screenings: Improving The Model. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Moore, K.E., Nelson, C.A., Carr, G.M., & Tivis, R.D. (March 2013). Student Involvement In Interdisciplinary Community Health Screenings. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Nelson, C.A., Carr, G.M., Moore, K.E., & Tivis, R.D. (March 2013). Assessing Flu Vaccine Rates At Community Health Screenings. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Papa, J., Carr, G., & Powell, P. (March 2013). Increasing Physician Assistant Student Exposure to Oral Health. Poster session presented for Idaho State University's Research Day; Meridian, ID.
- March- 2013: Tivis, R.D., Carr, G.M., Powell, P., Horn, E., Nelson, C.A., & Moore, K.E. (March 2013). The Inter Relationships of Physical Health, Mental Health And Oral Health Is More Than Obesity. Poster session presented for Idaho State University's Research Day; Meridian, ID.

- December- 2013: Nelson, C., Carr, G. (2013) Assessing the effect of interdisciplinary, in-person education on LDL-cholesterol reduction in participants with limited health care access. Poster presentation at the Association of Health-System Pharmacists Midyear Clinical Meeting in Orlando, FL.
- December- 2013: Osgood, T., Carr G. (2013) Correlating medication compliance to PHQ-9 scores in low income participants with limited health care accessibility. Poster presentation at the Association of Health-System Pharmacists Midyear Clinical Meeting in Orlando, FL.
- September- 2013: Poster Presentation at NMA Conference in Ohio: STUDENT TAUGHT PATIENT CASE SCENARIOS IN AN OVER-THE-COUNTER (OTC) ELECTIVE -Peer reviewed
- March- 2013: Kootenai Medical Center Nursing Education Program. Invited presentation. Program title: "Pharmacy Pearls for Nursing Staff"
- March- 2013: Hyponatremia Treatment Protocol - presented as an inservice to pharmacist staff
- October- 2013: Kootenai Medical Center Nursing Education Program. Invited presentation. Program title: "Pharmacy Pearls for Nursing Staff"
- November- 2013: Madaras-Kelly KJ. Infectious Diseases Review for BCPS. Treasure Valley Residency Lecture Series, Boise, ID
- March- 2013: Impact of the ACA Reimbursement System on Healthcare Delivery, Idaho Hospital Association Spring HEN Meeting, Boise ID
- Borzadek EZ, Holmes JT, Krawtz DB, Mills L, Bailey J.; Independence at Home Demonstration Grant; Centers for Medicare & Medicaid Services
- T Wadsworth (0.1), C Oliphant (0.1), K Eroschenko (0.1), G Carr (0.1); Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase inhibitor Orlistat (Xenical (r)); National Kidney Foundation, Utah and Idaho Chapter; \$15,000; 1 year
- Thomas Wadsworth, Cathy Oliphant, Kathy Eroschenko, Glenda Carr; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat (Xenical); University Research Committee; \$15,000
- T Wadsworth, C Oliphant, K Eroschenko, G Carr. Amount Requested: \$15,000. ; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat.; National Kidney Foundation, Utah and Idaho chapter.; 15,000;
- Samore M (0.4), Madaras-Kelly K (0.4), Abbo L(0.2); Accelerating Improvement's in Antimicrobial Stewardship; Joint Commission/Pfizer Competitive Antimicrobial Stewardship Grant program; \$675,000; 7/1/2013-6/30-2015
- InterMountain Health and University of Utah (Samore M), Subcontract, Madaras-Kelly (0.1 FTE); Action II: Nursing Home Antimicrobial Stewardship Guide; Agency for Healthcare Quality and Research (AHRQ); Unknown; 7/1/2013-6/30/2016

## Grants and Contracts

- Pharmacy Practice and Administrative Science
  - Vaughn Culbertson, PharmD (0.05 FTE), Dong Xu, PhD (0.4 FTE) and Brooke Pugmire, PharmD (0.04 FTE) Valuck, Robert and Anderson, Heather, Univ Colorado; Population-based Pharmaco-surveillance of Anticholinergic and Poly-Pharmacologic Toxicity Employing Computational Molecular Modeling Techniques; Skaggs Scholars Program; \$75,000; July 1, 2013 - June 30, 2015
- Seeley JL, Steed ML; ASHP PEG Foundation Grant; ASHP Foundation; \$40,000; 1 year
- Wadsworth T, Oliphant C, Eroschenko K, Carr G. ; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat (Xenical); National Kidney Foundation; \$15,000;

## Grants and Contracts (cont.)

- Pharmacy Practice and Administrative Science (cont.)
  - Wadsworth T, Oliphant C, Eroschenko K, Carr G; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat (Xenical); ISU FRC Grant; \$14,900;
  - Tom Wadsworth, Glenda Carr, Cathy Oliphant, Kathy Eroschenko; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat (Xenical); National Kidney Foundation of Idaho & Utah; \$15,000; May 2013
  - Thorne, J.(0.07 FTE), Moore, K. (0.90 FTE), Carr, G., Tivis, R.; Community-Based HIV Counseling, Testing and Referral (CTR), Condom Distribution, and Social Marketing Services; State of Idaho-Department of Health and Welfare; \$98, 322; 1/1/14-12-/31/14
  - Force R, Cowley T, Boesiger B, Carns B, Oliphant C, Tivis R.; Prescription for progress: Development of a collaborative tool kit to address prescription drug abuse; Millennium Fund; \$797,979;
  - The Project Director (Rex Force, PharmD, (0.1 FTE), Vaughn Culbertson, PharmD (0.1 FTE) and Matt Cummins, BS (0.15 FTE). District Health Dept (0.18 FTE); Prescription for Progress: Development of a Collaborative Tool Kit to Address Prescription Drug Abuse; Millennium Fund Grant Proposal; \$797,000; July 1, 2014 to June 30, 2015
  - Oliphant CM, Madaras-Kelly K, Bigelow J, Blue S, Coffman T, Wyatt C.; Piperacillin-tazobactam pharmacokinetics in critically ill obese patients; ISU DHS; 7250.00; 12/10-6/11
  - Tom Wadsworth, Glenda Carr, Kathy Eroschenko, Cathy Oliphant; Evaluation of Urinary Oxalate Levels in Type II Diabetics Receiving the Gastrointestinal Lipase Inhibitor Orlistat (Xenical); Idaho State University Research Committee; \$15,000;

Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
  - March- 2013: Towner JM, Lai JCK & Leung SW (2013) Nutritional Elemental Intake and Human Health. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
  - March- 2013: Jain A, Lai JCK & Bhushan A (2013) Effects of Temozolomide in Combination with Biochanin A on Glioblastoma Progression. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
  - March- 2013: Balaraju AK, Neti A, Idikuda VK, Leung SW, Bhushan A & Lai JCK (2013) Manganese Induces Neurotoxicity in Dorsal Root Ganglion Neurons. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
  - March- 2013: Gao W, Lai JCK & Leung SW (2013) Effect of Chitosan on Cancer Cells Treated with Therapeutic Drugs: Comparison of Cell Survival and Pathways. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
- March- 2013: Assan D, Lai JCK & Leung SW (2013) Immunosensors Modified with Polymers, Nanoparticles and Antibody. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
- March- 2013: Neti A, Balaraju AK, Idikuda VK, Leung SW, Bhushan A & Lai JCK (2013) Cytotoxic Effects of Manganese in Schwann Cells. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
- March- 2013: Dickerson L, Sehdev V, Lai JCK & Bhushan A (2013) Differential Effects of Biochanin A on Cell Proliferation and ROS-Dependent Pathways in Estrogen Receptor Positive and HER-2 Positive Breast Cancer Cells. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
- March- 2013: Zhang Y, Lai JCK, Daniels CK, Leung SW & Bhushan A (2013) Differential Effects of Functionalized and Non-Functionalized Short Multi-Wall Carbon Nanotubes on Survival of Pancreatic Cancer Cells. Joint Meeting of the Idaho Academy of Science 55th Annual Meeting and Symposium and the 15th Intermountain Conference on the Environment, March 21-23, 2013, Idaho State University, Pocatello, ID
- April- 2013: Jain A, Lai JCK & Bhushan A (2013) Biochanin A, A Natural Isoflavone, Inhibits Angiogenesis in Glioma. Annual Meeting of American Association for Cancer Research, April 5-7, 2013, Washington, DC

- April- 2013: Zhang Y, Lai JCK & Bhushan A (2013) Differential Effects of Functionalized and Non-functionalized Short Multi-Wall Carbon Nanotubes on Survival and Cell Signaling in Pancreatic Cancer Cells. Annual Meeting of American Association for Cancer Research, April 5-7, 2013, Washington, DC
- April- 2013: Tadinada SM, Lai JCK & Bhushan A (2013) Differential Effects of a Combination of Atorvastatin and Biochanin A on Signal Transduction and Invasiveness of Pancreatic Cancer Cell Lines. Annual Meeting of American Association for Cancer Research, April 5-7, 2013, Washington, DC
- April- 2013: Dickerson L, Sehdev V, Crowell PL, Lai JCK & Bhushan A (2013) Estrogen Receptor Positive and HER-2 Positive Breast Cancer Cells Have Differential Effects of Biochanin A on Cell Proliferation and ROS Dependent Pathways. Annual Meeting of American Association for Cancer Research, April 5-7, 2013, Washington, DC
- April- 2013: Singh MRM, Lai MB, Mukka K, Idikuda VK, Tadinada SM, Pfau J, Bhushan A, Leung SW & Lai JCK (2013) Cytotoxicity of Zinc Oxide Nanoparticles in Human Neurotumor Cells. Experimental Biology 2013, Boston, MA, April 20-24, 2013
- April- 2013: Tadinada SM, Lai MB, Idikuda VK, Mukka K, Singh MRM, Pfau J, Bhushan A, Leung SW & Lai JCK (2013) Zinc Oxide Nanoparticles Induce Apoptosis and Necrosis in Hepatocellular Carcinoma HepG2 Cells. Experimental Biology 2013, Boston, MA, April 20-24, 2013
- April- 2013: Idikuda VK, Lai MB, Pfau J, Bhushan A, Leung SW & Lai JCK (2013) Cytotoxic Effects of Manganese in Human Prostate Carcinoma DU145 Cells. Experimental Biology 2013, Boston, MA, April 20-24, 2013
- May- 2013: Tadinada SM, Lai MB, Idikuda VK, Mukka K, Singh MRM, Pfau J, Bhushan A, Leung SW & Lai JCK (2013) Zinc Oxide Nanoparticles Induced Apoptosis and Necrosis in Hepatocellular Carcinoma HepG2 Cells. 2013 NSTI Nanotechnology Conference & Expo – Nanotech 2013, Washington, DC, May 12-16, 2013
- May- 2013: Lai JCK, Gao W, Bhushan A & Leung SW (2013). Entry of Short Multi-Wall Carbon Nanotubes into Dorsal Root Ganglion (DRG) Neurons Induces Cell Death. 2013 NSTI Nanotechnology Conference & Expo – Nanotech 2013, Washington, DC, May 12-16, 2013
- May- 2013: Assan D, Mozneb M, Lai JCK & Leung SW (2013) Ultra-High Performance Immunosensor Prepared by Glassy Carbon Electrode Modified with Nano Gold Particles and Antibody. 2013 NSTI Nanotechnology Conference & Expo – Nanotech 2013, Washington, DC, May 12-16, 2013
- May- 2013: Leung SW, Lai JCK & Assan D (2013) Performance Comparison of Immunosensors Modified with Polymers, Nanoparticles and Antibody. 2013 NSTI Nanotechnology Conference & Expo – Nanotech 2013, Washington, DC, May 12-16, 2013
- November- 2013: Neti A, Idikuda VK, Balaraju AK, Bhushan A, Chowdhury GMI, Behar KL & Lai JCK (2013) Chronic Mitochondrial DNA-Deletion Induces Changes in HSP70 and 90 Expression and Mitochondrial Dynamics in DRG Neurons. Annual Meeting, Society for Neuroscience, November 9-13, 2013, San Diego, CA
- November- 2013: Balaraju AK, Neti A, Idikuda VK, Leung SW, Bhushan A & Lai JCK (2013) Protection of DRG Neurons by Schwann Cells from Manganese-Induced Neurotoxicity. Annual Meeting, Society for Neuroscience, November 9-13, 2013, San Diego, CA
- June- 2013: Insights into Ligand Binding on Neuronal Nicotinic Receptors and Acetylcholine Binding Proteins through Computational Analyses. AAAS 94th Annual Meeting. Las Vegas, NV.

## Presentations (cont.)

- Biomedical and Pharmaceutical Sciences (cont.)
  - June- 2013: Presentation given as co-organizer of a drug discovery symposium at the AAAS Pacific Division, 94th Annual Meeting, Las Vegas, NV, June 2013 Chimeras of the acetylcholine binding proteins as templates for the development of new therapeutics. Todd T. Talley, Joshua Wu, Kwok-Yiu Ho, Banumathi Sankaran and Palmer Taylor
  - July- 2013: Hit Identification and Optimization in Virtual Screening. K.E. Hevener, T. Zhu, S. Cao, P. Su, M.E. Johnson. CADD Gordon Conference, West Dover, VT, United States, July 22, 2013.
  - June- 2013: Recommendations for Hit Identification and Hit Optimization in Virtual Screening. Hevener, KE. Invited Symposium Presentation to 94th Annual Meeting of the AAAS Pacific Division, University of Nevada, Las Vegas, June 17, 2013.
  - June- 2013: Structural and Biochemical Characterization of Porphyromonas gingivalis Enoyl-ACP Reductase II (FabK), a Novel Antibacterial Target. Hevener, KE. Invited Symposium Presentation to 94th Annual Meeting of the AAAS Pacific Division, University of Nevada, Las Vegas, June 19, 2013.
  - March- 2013: Targeting the FAS-II Pathway in P. gingivalis for Chronic Periodontitis. K.E. Hevener, S. Mehboob, T. Boci, K. Truong, B.D. Santarsiero, and M.E. Johnson. IADR/AADR/CADR General Session & Exposition, Seattle, WA, United States, Mar 20 – 23, 2013.
- Alok Bhushan(PI), James CK Lai, Byron Bennett; Development of a Novel Drug to Treat Pancreatic Cancer; Higher Education Research Council (HERC) Incubation Fund; \$50,000; 5/1/11-6/30/12
- James C K Lai (PI), Alok Bhushan (co-PI); ; Mountain State Tumor and Medical Research Institute; \$7500; 6/1/10-5/31/13
- Daniels, CK (20%); Idaho IDeA Network for Biomedical Research Excellence (INBRE); NIH; \$1,730,610; 5-1-09 to 4-30-13
- Daniels, CK (5%); Administrative Supplement to Idaho IDeA Network for Biomedical Research Excellence (INBRE); NIH; \$128,341; 8-1-09 to 7-31-11
- Lo Lynne Kiester, Catherine Oliphant, Cindy Wilson- I am account manager; Combat Prescription Drug Abuse of the Professional Pharmacy Student Alliance; Idaho Society of Health-System Pharmacist IPREF Grant ; \$5000; August. 2010-June 2014
- Lai, JCK (Principal Investigator); Bhushan, A (Co-Investigator); Dependence of Glioblastoma on the Glycolytic Pathway for Survival.; Mountain States Tumor & Medical Research Institute Small Project Grant; \$7,500; 6/6/11-1/31/14
- Principal Investigator: Dr. Alok Bhushan; Co-PI: Dr. James Lai; Antimetabolite Resistance in Pancreatic Cancer; Mountain State Tumor and Medical Research Institute (MSTMRI); \$7,500; 6/1/10-2/28/14

## Grants and Contracts

- Biomedical and Pharmaceutical Sciences
  - Alok Bhushan (PI), James CK Lai(co-PI); Drug discovery project on Chinese herbs: Phase III; Private organization ; \$240,000; 5/1/10-8/31/12
  - Alok Bhushan (PI), James CK Lai(co-PI); Antimetabolite Resistance in Pancreatic Cancer; Mountain State Tumor and Medical Research Institute; \$7,500; 6/1/10-5/31/13
- Vaughn Culbertson, Dong Xu, Brooke Pugmire; Population based Pharmacosurveillance of Anticholinergic and Polypharmacologic Toxicity Employing Computational Molecular Modeling Techniques.; ALSAM Foundation; \$75,000; 2 years
- Cheryl Jorcyk, Dong Xu; Development of breast cancer therapeutics to inhibit OSM-mediated metastases.; Institute of Translational Health Sciences ; \$10,000; 1 year

- Todd T Talley 10% FTE; AChBP-Nicotinic Receptor Chimeras for Delineating Structure and Determinants of Ligand Selectivity; The Advanced Light Source at Lawrence Berkeley National Laboratory; Greater than 20; 2 years
- Hevener, Kirk E. (PI), 25%; Discovery of Novel Therapeutics Targeting Bacterial Fatty Acid Synthesis; XSEDE (NSF SuperComputing); 53,000 (cpu/hou; 4/24/2013 - 4/24/2014
- Tara Johnson, Alok Bhushan; Assessment of response to chemotherapy for Head and Neck Squamous cell Carcinoma by Salivary analysis in responders, partial responders and non-responders. Association of Schools of Allied Health Professions Interdisciplinary Award; \$15000;
- Alok Bhushan, James Lai, Byron Bennett; . Development of a Novel Drug to Treat Pancreatic Cancer-Phase II; Higher Education Research Council; \$50000;
- Alok Bhushan, James Lai; Biochanin A inhibits angiogenesis in brain tumors; University Research Committee; \$17000;
- Alok Bhushan and James Lai; Investigating the role of Biochanin A to target angiogenesis in glioblastoma multiforme: a mechanistic study; University Research Committee; \$17000;
- Guang Yan (PI) Henan Li (Co-investigator) Kenyon Hart (Co-investigator) ; Development of a Novel Device for Delivering Methotrexate into Skin for Psoriasis Treatment; Idaho State Board of Education; \$50,000; 1 year
- Lai, JCK: Co-Principal Investigator; Principal Investigator: Dr. Alok Bhushan; Investigating the Role of Biochanin A to Target Angiogenesis in Glioblastoma Multiforme: A Mechanistic Study; University Research Committee; \$17,000; 7/1/13-6/30/14
- Principal Investigator: Dr. Guang Yan; Consultant/ collaborator: Dr. James Lai; Topical Delivery of a NSAID Prodrug for Melanoma Treatment; NIH R15; \$300,000; 4/1/14-3/31/15
- Cheryl Jorcyk, Dong Xu; OSM Induces Breast Tumor Invasion and Early Stages of Metastasis.; NIH/NCI ; \$700,000; 5 years
- Ken Cornell, Dong Xu; In-Silico Directed Reversal of Microbial Drug Resistance. ; NIH/NIAID ; \$750,000; 5 years
- Dong Xu; Discovering novel universal anti-influenza inhibitors through receptor ensemble based virtual screening.; Mountain State Tumor Institute ; \$7,500; 1 year
- Hevener, Kirk E. (PI), 25%; Targeting the Bacterial FAS-II Pathway in *P. gingivalis* for Chronic Periodontitis; NIH R15 (DE023985); \$375,630; 4/1/14 - 3/31/17
- Guang Yan (PI) Henan Li (Co-investigator); Topical Delivery of DNA Nanoparticles into the Skin; NIH; \$305,020; 07/2013 to 06/2015
- Guang Yan; Topical Delivery of DNA Nanoparticles into the Skin; Pharma Foundation; \$60,000; 01/2013 to 12/2013
- Principal Investigator: Dr. Guang Yan; Co-Investigator: Dr. James Lai; Enhanced Drug Delivery into Skin for Topical Treatment of Melanoma; NIH R03; \$100,000; 7/1/14-6/30/16
- T. T. Talley (0.1 FTE); Structure templated design of novel nicotinic ligands; AACP; \$10,000.00; 1 year
- Hevener, Kirk E. (PI), 10%; Enoyl-ACP Reductase II (FabK), a selective antibacterial target for *C. difficile*; NIH R21/R33 (AI111679); \$1,573,372; 4/1/14 - 3/31/19
- Alok Bhushan (PI), James CK Lai(co-PI); Role of Cellular Signaling Elements imparting Drug Resistance in Pancreatic Cancer Cells; University Research Committee Award from Idaho State University; \$14,000; 7/1/10-6/30/12

# Office of Medical and Oral Health

# Dental Hygiene

## Certificate/Degree Programs

- Baccalaureate Degree in Dental Hygiene
- Master of Science Degree in Dental Hygiene

## Student Enrollment

- 58 students are enrolled in the Baccalaureate Degree Program.
- 34 students are enrolled in the Master of Science Degree Program.

## Post Graduation Idaho Employment

- 82% of their Baccalaureate Degree students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- American Dental Association, Commission on Dental Accreditation (CODA)
- Next site visit is 2017

## Faculty Research Engagement

- 9 faculty members are actively engaged in research in the health and biomedical sciences.

## Students in Clinical Research

- Graduate students are encouraged to participate in clinical research as part of thesis research.

## Health Fairs & Screening Events

- Dental Hygiene students served 4172 community members (adults and children) through various outreach programs. Students participated in various community health fairs and events including:
  - ISU Health Fair
  - Homeless Stand Down
  - Recovery Fest
  - Portneuf Medical Center Teddy Bear Clinic
  - Give Kids a Smile Day
  - Head Start
  - South East District Health Department
  - School District 25

## Conferences/Seminars Hosted

- Gurenlian, J. "Screening Devices for Detecting Oral Cancer" - Idaho State University - Pocatello, Idaho, May 19, 2012
- Gurenlian, J. "Diabetes Mellitus: Strategies for Providing Comprehensive Care" - Idaho State University - Pocatello, Idaho, May 18, 2012
- Freudenthal, J. "Advances, Updates, and Calibration in Local Anesthesia" . Fall 2012.
- Freudenthal, J. "Calibration and Standardization sessions for placement and carving of composite and amalgam restorations". Fall 2012

## National Recognition

- Jacque Freudenthal and Kandis Garland selected to serve as: "Ask the Expert" Panel Member, Dimensions of Dental Hygiene.
- JoAnn Gurenlian elected President of the International Federation for Dental Hygiene

## Awards & Grants Received

- Portillo K & Gurenlian J. "Preventing Tooth Decay in Children in Pocatello" awarded by Idaho Power (\$500).
- Portillo K. "Implementing a mobile Dental Sealant Program," awarded by Ronald McDonald House Charities (\$5979.00).
- Long-Woodhouse, M. "Pocatello Free Clinic Equipment Grant," awarded by Portneuf Healthcare Foundation (\$25,000.00).

## Goals for the Upcoming Year

- Fill two open faculty positions with qualified faculty by August 2013.
- Complete expansion of the Idaho Falls satellite clinic and hire a part-time site coordinator
- Develop and submit the NOI the Degree Completion Program

## Publications

- Agado, B. E., Crawford, B., Delarosa, J., Bowen, D. M., Peterson, T., Neill, K., & Paarmann, C. (2012). Effects of periodontal instrumentation on quality of life and illness in patients with chronic obstructive pulmonary disease: a pilot study. *J Dent Hyg*, 86(3), 204-214.

# Dental Hygiene

## Publications (cont.)

- Gurenlian, J. R. & Spolarich, A. E., (2013). Dispelling the Myths. *Dimensions of Dental Hygiene*, 11(4), 20-24.

## Clinics & Clinical Services

- ISU Dental Hygiene Clinic – ISU campus, Pocatello, ID – Preventive and Restorative Services

## Clinic Patient Visits

- 3,642 patients were seen by the ISU Dental Hygiene Clinic.

## Faculty & Student Clinic Participation

- 56 Dental Hygiene students
- 16 Faculty Members
- 8 Dentists

# Dental Sciences

## Certificate/Degree Programs

- Idaho Dental Education Program (IDEP)
- Advanced Education in General Dentistry Residency program - Post Doctoral Certificate - Idaho Advanced General Dentistry (IAGD)

## Student Enrollment

- 8 students are enrolled in the Doctor of Dental Surgery (DDS) - Idaho Dental Education Program (IDEP).
- 8 students are enrolled in the Advanced Education in General Dentistry Residency program - Idaho Advanced General Dentistry (IAGD).

## Program Accreditation By

- American Dental Association, Commission on Dental Accreditation
- Next site visit 2015

## Faculty Research Engagement

- 1 IDEP faculty member is actively engaged in research in the health and biomedical sciences.

## Health Fairs & Screening Events

- The IAGD program served 500 community members at the ISU Community Health Fairs & Screenings.

## Goals for the Upcoming Year

- Increase research activity
- Increase clinic productivity and income
- Increase IPE activity

## Clinics & Clinical Services

- Idaho Advanced Education in General Dentistry Residency
  - Pocatello
  - Meridian

## Clinic Patient Visits

- 8,775 patients were seen by Idaho Advanced General Dentistry.

## Faculty & Student Clinic Participation

- Idaho Dental Education Program (IDEP)
  - 8 Students
  - 2 Faculty Members (paid by IDEP funds)
  - 6 part-time adjunct Faculty Members (paid by IDEP funds)
  - 4 Faculty Members shared between other programs, but not paid by IDEP
- Idaho Advanced General Dentistry (IAGD)
  - 8 Residents
  - 20 Faculty

# Family Medicine Residency

## Certificate/Degree Programs

- Idaho State University and American Board of Family Medicine

## Student Enrollment

- 21 students are enrolled in the Family Medicine Residency program.

## Post Graduation Idaho Employment

- 40% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 100% of their students passed the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Council for Graduate Medical Education (ACGME)

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## Conferences/Seminars Hosted

- Advanced Life Support in Obstetrics-August 24 and 25, 2012-Speakers: Jonathan Cree, MD; Brandon Mickelsen, DO; Daniel Jones, MD; Don Dyer, MD; Jacob Curtis, DO; Charles Clair, MD; Kelli Christensen, MD; Michelle Ferguson, RNC

## Awards & Grants Received

- 2011-2016 – Primary Care Training and Enhancement/Residency Training in Primary Care Program. Title VII, Health Resources and Services Administration. “The Baby Boomer Medical Home Project”. William M. Woodhouse, MD, Project Director. Award: \$1,123,155
- 2013 – Providing HIV medical case management services. State of Idaho Department of Health and Welfare. “Ryan White Part B”. David M. Hachey, Pharm.D., BCPS, AAHIVP. Award: \$55,432

## Goals for the Upcoming Year

- Complete succession plan for new Director
- Complete merger of the Pocatello Family Medicine Residency and Health West as a new Access Point
- Complete affiliation agreement between PMC and ISU
- Complete affiliation agreement between ISU and Health West
- Achieve an increase in state funding for the ISU Residency Program through presentations at JFAC

- Improving Safe Medication Prescribing Among Patients With Chronic Kidney Disease: How Ready Are Primary Care Practices to Implement an Electronic Medical Records-based Solution? Poster presentation (by Laura-Mae Baldwin, MD, MPH) at the North American Primary Care Research Group Annual Meeting, New Orleans, LA, December.

# Family Medicine Residency

## Presentations (cont.)

- Assessing Readiness for Team Care in Community-based Clinics: Barriers and Facilitators to Implementing an Evidence-based Intervention to Improve BP Control. Poster presentation (by Laura-Mae Baldwin, MD, MPH) at the North American Primary Care Research Group Annual Meeting, New Orleans, LA, December.
- Evaluation of Adherence to Recommended Monitoring Guidelines for Amiodarone in Primary Care and Specialty Clinics. Poster presentation (by Bobby Endo, Pharm. D.) at the American Society of Hospital Pharmacists Mid-Year Clinical Meeting, Las Vegas, NV, December.
- Borzadek, EZ, Holmes, JT, Krawtz, DB. Lost in transition: the benefit of interdisciplinary home-based care following hospitalization-Presented by Eliza Borzadek at the 2012 American College of Clinic Pharmacy Annual Meeting in Hollywood, Florida.

## Clinics & Clinical Services

- Family Medicine Residency
- Family Medicine
- Specialty Clinics (dermatology, ENT, neurology, women's health, gynecology, colposcopy, and pharmacotherapeutic services)
- SE Idaho HIV Clinic
- Obstetric Services
- Geriatrics
- Women's Health/GYN
- Inpatient Medicine
- Sports Medicine Orthopedics
- Psychology Services
- Health Education and Nutrition

## Clinic Patient Visits

- 17,730 patients were seen by Family Medicine Residency.

## Faculty & Student Clinic Participation

- 21 Students and Faculty members

# Physician Assistant Program

## Certificate/Degree Programs

- Master of Physician Assistant Studies

## Student Enrollment

- 176 students are enrolled in the PA program.

## Post Graduation Idaho Employment

- 40.5% of their students obtain employment in Idaho after graduation.

## Licensure/Certification Pass Rate

- 97% of their students pass the clinical licensure and certification exams.

## Program Accreditation By

- Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA)

## Faculty Research Engagement

- 4 faculty members are actively engaged in research in the health and biomedical sciences.

## Health Fairs & Screening Events

- The Physician Assistant Program served 1,121 community members in Meridian and 1,512 community members in Pocatello at the ISU Community Health Fairs & Screenings.

## Conferences/Seminars Hosted

- July 2012, Emergency Medicine CME co-sponsored with St. Alphonsus

## Goals for the Upcoming Year

- Successful completion and submission of ARC-PA self-study, June 2014
- Preparation for ARC-PA site visit, scheduled October 2014
- Preparation for opening of third PAS campus at College of Idaho, scheduled August 2014
- Construction and/or renovation of three new PAS facilities (Caldwell, Meridian, Pocatello) capable of simultaneous tri-directional distance learning
- Development and implementation of annual sustainable medical mission to the Dominican Republic. (first trip January 2014 with 4 faculty members)
- Increase utilization of Belize medical rotation by students

## Publications

- Corbin Bunnage: JAAPA. 2013 May;26(5):42, 46-7. Pigmented villonodular synovitis of the left distal biceps tendon. Mitton T, Howlett B, Bunnage C, Esplin V.

BY THE UNIVERSITY

# Idaho Center for Disability Evaluation

## Mission

The mission of the Idaho Center for Disabilities Evaluation is to provide high quality assessments that are administered consistently and reliably in all regions of Idaho to children and adult participants with developmental disabilities.

## Purpose

Idaho State University through the Idaho Center for Disabilities Evaluation (ICDE) has contracted with the Idaho Department of Health and Welfare to assume the duties of assessment, eligibility determination and budget planning for children and adult participants in this statewide initiative. The contract funding is distributed across higher education institutions based upon mutually agreed to responsibilities that address needs of the institution, ICDE, and the participants.

## Services

All Clinical Supervisors and Independent Assessment Providers are Qualified Intellectual Disability Professionals (QIDP) in accordance with the Federal Medicaid qualifications. The ICDE staff is distributed in each of the seven Health and Welfare Regions in the state of Idaho.

Independent Assessment Providers (IAP's) conduct assessments with the child and adult participants by reviewing all assessment information and documentation and then determining each participant's eligibility for community services. All assessments follow Medicaid Rule, policies and procedures.

Additionally, Clinical Supervisors supervise the assessment process. They oversee the Independent Assessment Provider's, provide technical and clinical expertise and advice and manage the staff workload to assure fidelity statewide and timely completion of reports. They consult and partner with the Department of Health and Welfare Central Office staff to provide feedback as to the assessment process. Clinical Supervisors also conduct assessments as needed.

## Locations

- Region 1  
7950 Meadowlark Way, Suite C  
Coeur d'Alene, ID 83815  
Phone (208) 772-8502  
Fax (208) 772-8504
- Region 2  
1118 F Street, 3rd Floor  
Lewiston, ID 83501  
Phone (208) 799-5044  
Fax (208) 799-5082
- Region 3/4 (Adults participants only)  
1311 E Central Drive  
Meridian, ID 83642  
Phone (208) 373-1730  
Fax (208) 373-1737
- Region 3/4 (Child participants only)  
1000 N. Curtis Rd, Suite 300  
Boise, ID 83706  
Phone (208) 376-0072  
Fax (208) 376-3442
- Region 5  
522 Madrona Street  
Twin Falls, ID 83301  
Phone (208) 736-5711  
Fax (208) 736-7091
- Region 6  
1001 N. 7th Ave.  
Pocatello, ID 83201  
Phone (208) 282-5465  
Fax (208) 282-1003
- Region 7  
1560 Midway Avenue  
Ammon, ID 83406-6912

# Institute of Rural Health

## Faculty Research Engagement

- 5 faculty members are actively engaged in research in the health and biomedical sciences.

## External Funding for Research

- \$542,939

## National Recognition

- 2013 Distinguished Service Award – Health Resources and Services Administration (HRSA) Maternal and Child Health Bureau, Russ Spearman

## Awards & Grants Received

- Idaho Community HealthCorps (IHC) Year 13 - National Association of Community Health Centers, Inc - \$146,500
- Idaho Healthcare for Children and Families (IHCF) Year 4 - Serve Idaho, Governor's Commission on Service & Volunteerism - \$205,939
- IHC matching funds - AmeriCorps program sites in Idaho - \$79,000
- IHCF matching funds - AmeriCorps program sites in Idaho - \$42,000
- Long Term Care Facility Feasibility Study for Sho-Ban Tribes - Sho-Ban Tribes - \$60,000
- Idaho Rural Health Association 2013-14 - National Rural Health Association - \$9,500

## Goals for the Upcoming Year

- Seek out new external funding markets, including a wider range of federal and state agencies, private foundations, industry, and individual donors.
- Support research across the Division of Health Sciences through the Idaho Center for Health Research (ICHR), as funding is available for such support.
- Continue building a strong research network across the Division of Health Sciences.

## *A Message from President Vailas*

In more than a century of teaching, research and service, Idaho State University has evolved from the Academy of Idaho to its current classification by the Carnegie Foundation as a research high doctoral university. Today, we meet the ever-changing needs of a diverse student population with certificate, associate, baccalaureate, master's and doctoral degree offerings.

The University has grown in size and in the process has transformed itself into a fast growing research university. During fall of 2010 (end of term) ISU enrolled 14,489 students. ISU employs more than 2,118 full-time and part-time employees and maintains locations in Pocatello, Twin Falls, Meridian, and Idaho Falls. A significant part of ISU's success stems from the synergistic partnerships and relationships the University has developed with governmental and private entities. The interdependence of communities and University has become increasingly more important in the face of current conditions and future economic projections.

As one of only two Carnegie classified research high universities in Idaho, the future holds even greater promise. Its enhanced profile and national reputation will enable ISU to contribute even more to our local community, the region and the state.

We live in an era of continual technological change and knowledge revolution. The responses to today's opportunities and tomorrow's challenges will come from universities as they become even more of a critical resource for creating economic prosperity and progress in their communities. In purely economic terms, as the following study will show, ISU's contribution to the region is significant and is projected to become even larger during the rest of the decade.

To provide a benchmark of ISU's economic impact on our region we engaged Bengal Solutions, a resource unit of the University's College of Business, to study and measure our economic impact. We are proud of our contributions to the social and economic development of our local community, the region and the state.

I hope that this economic impact study will contribute to building and fostering a better understanding of ISU's place in the economic vitality of our local communities and region.

Arthur C. Vailas, Ph.D.  
President, Idaho State University

Idaho State University, founded in 1901, is located in the city of Pocatello, known as the “Gateway City of the West<sup>i</sup>.” With a growing and diverse student population, ISU is the proud home of over 14,000 part and full-time students. ISU has played a crucial role in the education of generations of Idahoans, many of whom

look back to their Alma Mater with fond memories. The vision statement of Idaho State University provides a forward looking view for the university, with an understanding that education and research are at the forefront of great institutions of higher education.

**Vision Statement:** Idaho State University strives to advance scholarly and creative endeavor through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society<sup>ii</sup>.

In addition to that vision, ISU is the state's designated lead institution in health professions and medical education. In fact, Idaho State University has several health related programs that have received national recognition. For example, within the past few years the PhD program in Clinical Psychology was ranked 1<sup>st</sup> nationally by the journal *Psychological Reports*<sup>iii</sup>. ISU's leading role in the health professions is taken seriously by the university; every effort will be made to continue that lead into the future.

In an effort to quantify its impact on the City of Pocatello, South-Eastern Idaho, and the state of Idaho in both monetary and non-monetary ways, Idaho State University engaged Bengal Solutions to conduct an extensive Economic Impact Study for the Fiscal Year 2010 (FY 2010). Bengal Solutions is a student led consulting group working under Idaho State University's Center for Business Services. The MBA Students who form Bengal Solutions are all graduate assistants for the ISU College of Business. The Bengal Solutions team draws from their notable work experience and MBA curriculum to provide business consulting services to regional businesses and economic development agencies focused on growth.

**About the Study:**

A vast majority of colleges and universities across the United States have had Economic Impact Studies conducted on their behalf. The Economic Impact Studies that were the most influential in our study include those of: Stanford University, University of Idaho, Boise State University, and Eastern Connecticut State University.

It is important to note that each university's Economic Impact Study is calculated in a way that is best suited to that university's region and state; these studies are not standardized across the nation. Several assumptions are made in each study, as is the case with this study. For the sake of transparency and legitimacy, we completed this study in a way that is open, honest, and straightforward. In general, the methods and practices that we have used are conservative in nature and the numbers that we have calculated are quantifiable.

**What this study is not:**

It is not a long-term prediction of sustainable growth. Rather, it is a snapshot of Idaho State University's performance, accomplishments, and impact on the surrounding communities and state in FY 2010. The effects considered in this study are, "current and short range<sup>iv</sup>." It is important to note that the complete impact of a university or college on a surrounding area or state would be almost impossible to calculate as all items considered do not have a monetary value associated with them. With that understanding, it was our desire to show the intrinsic value of Idaho State University, with the acknowledgement that there is a mutual dependence between a university and the city, region, or state where it is located.

**Where the information was obtained:**

The official Financial Statements of Idaho State University for Fiscal Year 2010 proved to be an enormous asset in the completion of this study. This information was obtained from ISU's Controller, Roger Egan, and the Office of Institutional Research.

**Who conducted the research/study:**

This Economic Impact Study was conducted by Cory Howerton and Kevin McMurtrey, both currently MBA students at Idaho State University. Their research and findings were overseen by Sam Peterson, Director of the MBA Program at ISU.

**Timeline:**

Research for this project began in September, 2010 and concluded in April, 2011.

Increasingly, businesses (both large and small) are interested in what type of impact their company has on society as a whole. Wanting to understand their contribution to a particular industry and environment, they go through great efforts to quantify their particular and unique impact on the world around them. So it is with institutions of higher education; each institution works to justify its existence. In the process of highlighting their past performance, accomplishments, and overall impact on society, colleges and universities are able to attract the brightest students, faculty, and a continued stream of money for investment in growth.

### STRENGTHENING IDAHO

As one of the leading Institutions of Higher Education in the state of Idaho, the impact of Idaho State University can be felt locally, regionally, and globally. In terms of economic stability, ISU is the leading employer in the city of Pocatello, and surrounding Bannock County. Despite the recent economic downturn, ISU has provided employment for 1,945 full and part-time employees, and 162 graduate assistants. The total payroll for Idaho State University FY2010 was \$70,075,658.87.

Idaho State University has a strong connection and presence in southeast Idaho. The majority of students attending ISU are from the 13 counties surrounding Pocatello. Thus, ISU plays an integral role in the education of those living in southeast Idaho. That being established, this is not to say that ISU's influence is limited only to this particular region of Idaho. While ISU's impact is heavily concentrated in the Pocatello and Idaho Falls areas, its presence is felt throughout

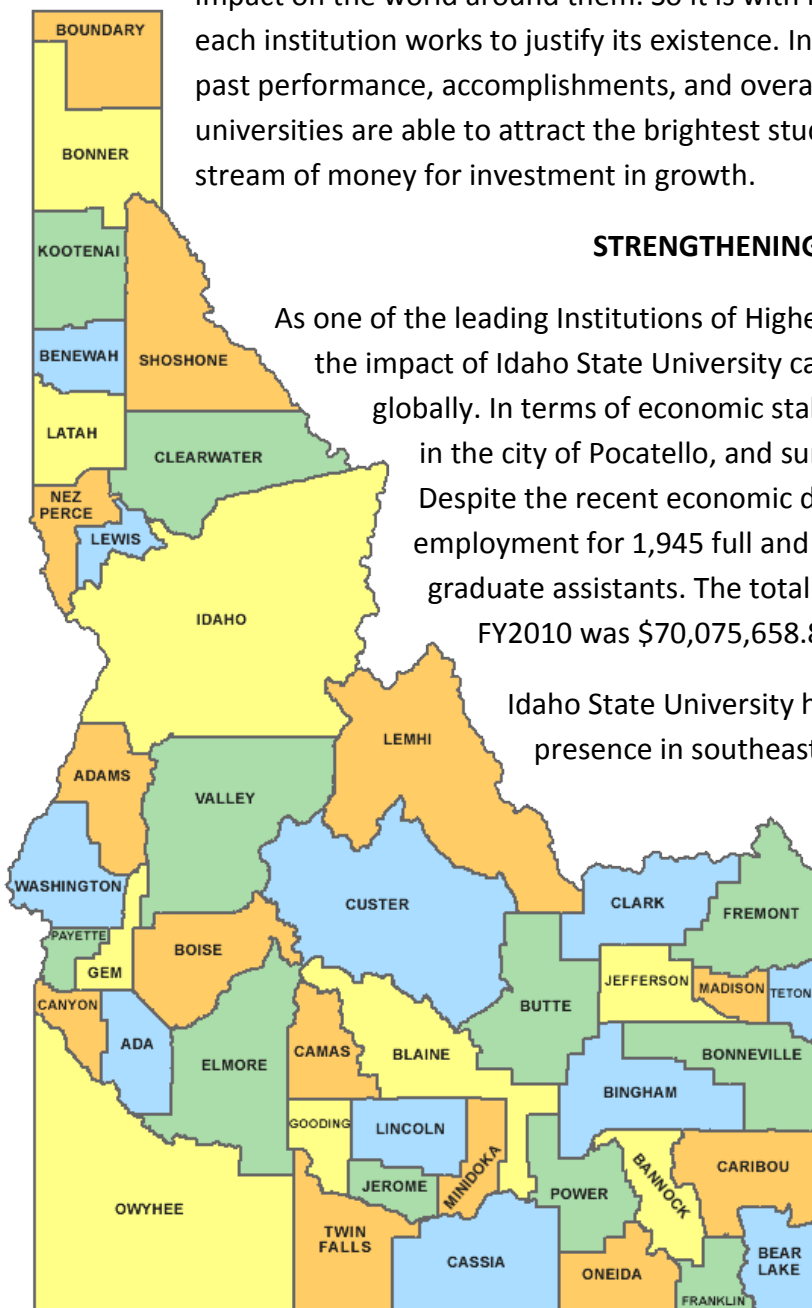

Figure 1: Map of Idaho Counties - Retrieved 4/2/2011: [digital-topo.maps.com](http://digital-topo.maps.com)

the state with campuses located in Meridian and Twin Falls as well. In fact, ISU's student population is made up of students representing all 44 counties in Idaho, 48 states in the United States, and 59 foreign countries. This shows the strong interest that ISU has created for such a diverse student population.

### STIMULATING ECONOMIC GROWTH

Spending Effect: The spending effect is a calculation of: 1. Payroll 2. Services/Supplies 3. Student Expenditures 4. Visitor Expenditures 5. Capital Expenditures & 6. An Income Multiplier.

<b>Spending Effect: FY 2010</b>		
1	Payroll	<b>\$70,075,658.87</b>
2	Services/Supplies	<b>\$32,446,405.00</b>
3	Student Expenditures:	
	*Full-time (8,051 × \$12,570)	\$101,201,070.00
	*Part-time (6,438 × \$6,285)	\$40,462,830.00
	<b>Total</b>	<b>\$141,663,900.00</b>
4	Visitor Expenditures:	
	*Stephens PAC revenue	\$350,782.00
	*Holt Arena revenue	\$1,160,357.00
	*Ticket Sales × \$25 leisure allowance	\$3,627,500.00
	<b>Total</b>	<b>\$5,138,639.00</b>
5	Capital Expenditures	<b>\$14,241,614.00</b>
6	Payroll × Multiplier of 1.69 - Payroll	<b>\$48,352,204.62</b>
	<b>Total:</b>	<b>\$311,918,421.50</b>

Figure 2: Table of Spending Effect

In reference to Figure 2: The following is a detailed account of where the #'s were derived and what formulas were used in those calculations.

1. Payroll was figured directly from the ISU's FY2010 Financial Statements, which were independently audited by Moss Adams LLC.
2. Services and Supplies were also obtained from ISU's Financial Statements.
3. Student Expenditures include room & board, transportation, personal expenses, and books & supplies.
4. Thousands of visitors are drawn to ISU's Stephens Performing Arts Center and Holt Arena

each year. These facilities host a variety of events including: concerts, athletic events, tournaments, rodeos, etc...

Visitor Expenditures were calculated by gathering data from ticket sales at both the Stephens Performing Arts Center and Holt Arena during FY 2010. Ticket sales at Stephens Performing Arts Center brought in \$350,782 of revenue to ISU. The Holt Arena raised \$1,160,357 of revenue for ISU from ticket sales. For each ticket sold at these venues, a \$25 standardized leisure allowance was calculated in an effort to capture the impact of such events on the surrounding community. This leisure allowance accounts for money spent at restaurants, hotels, local businesses, etc...The combined total of ticket revenue (\$1,511,139) and leisure allowances (\$3,627,500) equals \$5,138,639 in visitor expenditures for FY 2010.

5. The dollar value of Capital Expenditures was obtained from ISU's Financial Statements in FY 2010. These expenditures "are the gross additions to property, plant, and equipment from Note #5 of the financial statements. The capitalization policy states that items must be greater or equal to \$5,000 and have a useful life of more than one year<sup>v</sup>."

6. The purpose and use of an Income Multiplier in this study is as follows:

When new income is added to the economic stream, it will pass through the hands of several consumers. Portions of that original income will be re-spent several times in the economy of Idaho, while some of it will be spent elsewhere. An income multiplier allows analysts to estimate the total economic impact of new income into a local or state economy.

The income multiplier formula that we chose for this study is published in a report titled *Income Multipliers in Economic Impact Analysis* by Robert O. Coppedge. This study was published by New Mexico State University.

"The following formula gives a general income multiplier for a state or area when new income is introduced. The number obtained can then be used to multiply by the original income to give the total economic impact on income in the defined area<sup>vi</sup>."

$$\text{Income multiplier} = \frac{1}{1-(x) (y) (z)}$$

Where:

x = percentage of the new income a consumer will spend rather than save.

y = percentage of consumer expenditures made in the state.

z = percentage of business expenditures made in the state.

With that definition in place, the actual numbers that we used to calculate the income multiplier are:

$$\text{Income multiplier} = \frac{1}{1 - (.8)(.85)(.6)} = 1.69$$

$$1 - (.8)(.85)(.6)$$

So, for example: When \$1 of income is added to the economic stream by Idaho State University, the final economic impact would be \$1.69, which includes the original amount of \$1.

Productivity Effect:

<b>Productivity Effect: FY 2010</b>		
Alumni living in Idaho		41,964
Avg. Hourly Wage & Avg. Annual Income	Hourly	Annual
*Bachelor's	\$26.49	\$51,073
*High School	\$15.69	\$30,250
Difference	\$10.80	\$20,283
Alumni × Difference in Avg. Annual Income = Total Productivity Effect		
41,964 × \$20,283 =		\$873,816,372

Figure 3: Table of Productivity Effect

The productivity effect takes into account the number of alumni living within the state of Idaho as well as the added income that is brought into the state as a result of higher earnings from receiving a degree at Idaho State University.

ISU Alumni can be found in each of the 44 counties located within the state of Idaho. There are currently 41,964 alumni living in Idaho.

Idaho Department of Labor supplied average hourly wage data by degree level in the state of Idaho. Although we feel the Bachelor's degree average wage too high, we went forward with this information as it was supplied by the Idaho Department of Labor; knowing the importance is in the difference, not the amount. In figure 3, we used an estimate of 1,928 hours worked by the average person in Idaho within a year's time. We multiplied 1,928 hours by the average hourly wages listed above to calculate an average annual wage earned by each degree level. There is a difference of \$20,283 between the annual average wages of the two degree levels.

To calculate the productivity effect we multiplied the number of alumni living in Idaho (41,964) by the difference of annual wages by degree level (\$20,283). Earnings generated from these alumni after completion of their degree at ISU contribute an estimated \$873,816,372 annually to the state economy.

### **INVESTMENT SPENDING**

In FY 2010, state appropriations represented 36.6% of revenues for Idaho State University. This represents \$82.8 million dollars of ISU's budget. Other sources of revenue (both operating and non-operating), from greatest contribution to least, include: State Appropriations, Tuition & Fees, Grants & Contracts, Title IV Grants, Auxiliary Enterprises, Other Revenue, Gifts, Sales and Services of educational departments, and Investment income.

Another investment perspective worth noting is that Idaho State University had an increase in net assets of \$14.7 million in FY 2010.

Showing ISU's commitment to fiscal responsibility, ISU's revenues increased by \$6.3 million while expenses decreased by \$8.7 million. From an investment perspective, these numbers show that ISU is serious about economic constraints and has, as the proverbial phrase goes, "tightened the belt."

The purpose of a university is not only to enhance the quality of life in a community and prepare students for their professional lives. Wendell Berry described the necessary mission as follows: “The thing being made in a university is humanity. Given the current influence of universities, this is merely inevitable. But what universities, at least the public-supported ones, are *mandated* to make or to help to make is human beings in the fullest sense of those words — not just trained workers or knowledgeable citizens but responsible heirs and members of human culture<sup>vii</sup>.” ISU seeks to fulfill this mission. The last sentence of ISU’s vision says: “to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.” The student perspective is designed to give insight into how this is being accomplished. It also quantifies the returns that students receive upon investment at ISU.

### SERVING STUDENTS

ISU currently serves 14,489 students, according to the Fall 2010 end of semester headcount. Of those students, 8,051 were full-time while 6,438 were part-time. For these students, attendance at school carries significant costs. Students not only must pay for tuition, or take out loans, but pay for housing, food, supplies, etc. The average amount that a student spends per year in additional costs, not including tuition and fees, is \$12,570<sup>viii</sup>. Full-time students incur all of these costs. When determining total student expenditures, part-time students were only assigned half of these costs. That comes to a total of \$141,663,900 in additional spending on living expenses by students per year. It is safe to assume that nearly all of these expenses occur in southeast Idaho. That is a significant amount of income received by businesses in the local economy that wouldn’t otherwise if ISU was non-existent. Improvements to ISU will continually add to this benefit.

In early 2011, the Carnegie Foundation for the Advancement of Teaching announced that ISU achieved Research University-High status in its rankings of U.S. colleges and universities. The classification is the second highest possible; the top being Research University-Very High. Less than 5 percent of the country’s 4,663 educational institutions receive either designation, illustrating ISU’s great work. Classifications are only evaluated every 6 or 7 years. This status is a measure of ISU’s maturity and development in performance and competitiveness. The ramifications of this achievement are far-reaching. ISU will be better able to attract external funding, build vital partnerships and attract high-quality faculty and students.

ISU has taken the lead in Idaho in the area of health care education. Idaho students seeking a career in healthcare are best served at ISU. The Division of Health Sciences offers 33 degrees spread across 19 health professions; this accounts for 75% of the state’s professional health

degree programs. The wide variety of programs includes associate, bachelor, master, and doctoral degrees, as well as certificate programs, internships and residencies. The health professions focus on the keys areas of physical, mental, and oral health, rehabilitation and wellness. ISU is a critical contributor to the improved health of citizens across Idaho.

### **NON-RESIDENT INFLUENCE/IMPACT**

Approximately 90% of enrolled students at ISU come from the state of Idaho. However, enrollment of out-of-state and foreign students has steadily increased at ISU over the past decade. From Fall 2001 (end of term) to Fall 2010 (end of term) non-resident students have increased 62%. There are currently 1,470 non-resident students, including 344 international students from 59 different countries. These non-resident students represent 48 states of the U.S. Not only contributing to southeast Idaho's energy and diversity, these students incur personal costs, largely spent in Idaho. The direct economic impact of these students who move to Idaho and enroll at ISU is about \$18,477,900 of the annual student expenditures, not including tuition paid. This boost to the economy would not exist if ISU did not attract non-resident and foreign students. Many of these students continue to contribute to Idaho's growth by taking jobs with local companies upon graduation. Further progression of ISU's initiatives and recognition will only enhance these benefits.

### **STUDENT INVESTMENT**

The average annual salary of a typical bachelor's degree graduate in Idaho is \$51,072.72. This number may appear high, but it was figured by the statistics generated in 2010 by the Idaho Department of Labor. The average pay for a worker with a bachelor's degree is \$20.65 per hour. The annual earnings were then calculated using a conservative estimate of 1,928 working hours. In regard to those with only a high school diploma, the level of pay depends on their working experience in a given field. The DOL study allowed for little, moderate and high experience levels, respectively achieving hourly pay rates of \$11.27, \$15.15 and \$20.65. An average of these three rates is \$15.69. Multiplied by the 1,928 annual working hours, the average annual pay for those with only a high school education is \$30,250.32. Thus, the average worker with a bachelor's degree makes 68% more in a year than a worker that has received only a high school diploma. It is also necessary to mention that a typical college-educated employee has a much higher ceiling than the average numbers allow for, meaning that some will make drastically more than the average found using this method. The DOL study shows that a worker with a bachelor's degree combined with work experience average \$34.22 an hour. This amount only increases if these students go on to any of the various graduate degrees

offered at ISU.

A college education has become so expensive to students and their families, it is important to determine what they are getting for the effort. Students receive an estimated 14.65% return on investment upon graduation with an ISU bachelor's degree. With increasing education price tags, a four year investment of time and money is substantial, but students recover all costs, including the opportunity cost of foregone wages, in only 7.59 years. The following section will explain the methodology used to calculate the return on investment and the length of time it requires a student to pay back the cost of an education. Note that these are averages; more specific details involving scholarships, non-resident tuition waivers, loan interest rates, etc. were undeterminable for the scope of this study. The authors recommend that any student wishing to know their personal ROI should do so considering their own circumstances.

The first step was to determine the total expense of attending ISU for four years, as well as the opportunity cost of foregone wages. The cost of tuition for an in-state student is \$2,708 per semester, while the cost for a non-resident is \$7,958. These tuition costs are for those seeking a bachelor's degree. About 90% of students are resident, while 10% are non-resident, coming to an average expense of \$3,233 tuition per semester. Multiplied by two semesters in a year, adding in the \$12,570 estimated annual personal expenses over four years comes to \$76,144 total expense to receive a bachelor's degree. The opportunity cost was determined by assuming that those commonly among the age of degree seeking students will have little to moderate working experience. Averaging the pay rates from the DOL study (\$11.27 and \$15.15) over 1,928 annual working hours equals \$101,875.52, the foregone benefit of having chosen to pursue an education. This computes to a total average investment of \$178,019.52. Each year essentially costs \$44,504.88 before the benefits of the education begin to pay off.

To determine the annual benefit of earning a bachelor's degree, the average pay of \$51,072.72 was reduced by the average pay of a typical worker without a degree at \$25,468.88. The annual added benefit is \$25,603.84. This equates to a 14.38% return on the total investment.

To determine the payback rate, it was necessary to take in to consideration the time value of money. First, we determined that the average Idaho wage had increased by 2.93% annually since 2001<sup>ix</sup>. This is slightly higher than the 2.48% national rate of inflation over the same period<sup>x</sup>. Using a spreadsheet, the annual growth in salary was figured in to determine the time needed to pay back the initial investment. It was also necessary to consider the discount rate. We used the 20-year average treasure bill rate of 4.81%, assuming little to no risk<sup>xi</sup>. Determining the present value of salary differential allowed for more accurate calculation of the accumulative benefit, and ultimately the discounted payback. After just over three years,

the average student would have made up for the total expenses paid. Including the opportunity cost of foregone wages, it would take just 7.59 years to fully repay the total investment for a bachelor's degree.

This calculation is purely economical. Including the non-monetary benefits of a college education defined in the social perspective, a student would pay back the investment significantly faster. These benefits not only improve the life of the student, but contribute to the greater good of society as a whole. There are 72 hours or so each week that a person is not working or sleeping. This time in the home and in the community is substantially more productive when a person has earned a college degree<sup>xii</sup>. These benefits should be considered on top of the economic increases of spending four years at ISU.

Higher education produces various social benefits to a community. Many of these are difficult to measure, but they remain undeniable. This section will illustrate the wide-reaching social benefits that higher education carries, while focusing in where possible on how ISU acts as a valuable contributor to all those who live in the regional community. The social benefits will be explored in three sections: serving the community, social benefits and health services.

### **SERVING THE COMMUNITY**

ISU is more than just buildings and classrooms. The outreach of those who attend and work for the university are phenomenal. Various clubs volunteer within the community, serve ISU neighbors, and provide diverse learning opportunities. In 2010, ISU had the unique opportunity to participate with the television show *Extreme Makeover: Home Edition* in building the Marshall-Spreier family a new home in less than a week. Over 1,000 volunteers from ISU donated their time and energy to the cause, resulting in thousands of hours of volunteer service. The ISU football team also played a significant role in this effort. On top of helping to build the home, ISU President Arthur C. Vailas granted eight full-tuition scholarships to the Marshall-Spreier children valued at about \$225,000.

The Idaho Museum of Natural History is located on the Pocatello ISU campus. As the official state museum of natural history, it acquires, preserves, studies, interprets, and displays natural and cultural objects for Idaho residents, visitors, and the world's community of students and scholars. It is home to collections in anthropology, vertebrate paleontology, earth science, and the life sciences. It holds an archive of documents and ethnographic photographs.<sup>xiii</sup> The museum also provides classes for children, families and adults who want to learn more about Idaho's rich natural history. This service to the community is free of charge.

The mission of United Way is to improve lives by mobilizing the caring power of communities around the world to advance the common good. ISU has participated in this effort. In 2010, ISU employees were the top donor to Southeast Idaho United Way at almost \$50,000, not counting employer contributions. This money goes to improve education, help people achieve financial stability and promotion of healthy living. The United Way sets ambitious goals and ISU is a strong participant in helping to achieve them.

ISU is home to a rich variety of student clubs ranging from political, social, academic and cultural focuses. These clubs are dedicated to enhance the experiences of students as well as provide extensive opportunities for the community to participate in and enjoy the activities. These organizations not only volunteer time to community development programs, but hold fundraiser events that provide nights of leisure and entertainment to all those who wish to

participate. This brings much diversity, learning and valuable growth opportunities to the community.

### SOCIAL BENEFITS<sup>xiv</sup>

Non-monetary benefits of higher education are poorly understood. With the use of new techniques provided by education economist, Walter W. McMahon (McMahon, 2009), this section will attempt to value the private and social benefits of ISU. A college education not only brings better job opportunities and higher earnings, it also improves health, promotes democracy and sustainable growth through research and development and contributes to lower crime and reduced state welfare and prison costs. This section will rely heavily upon McMahon's research and quantitative estimates of these benefits. This study will simply highlight and define these benefits, emphasizing that their underlying assumptions and control variables can be found in McMahon's work; any person seeking further insight should seek it there.

The following table designed by McMahon (McMahon, 2009, p. 129) maps the accountability and short-term benefits into impacts on growth and development.

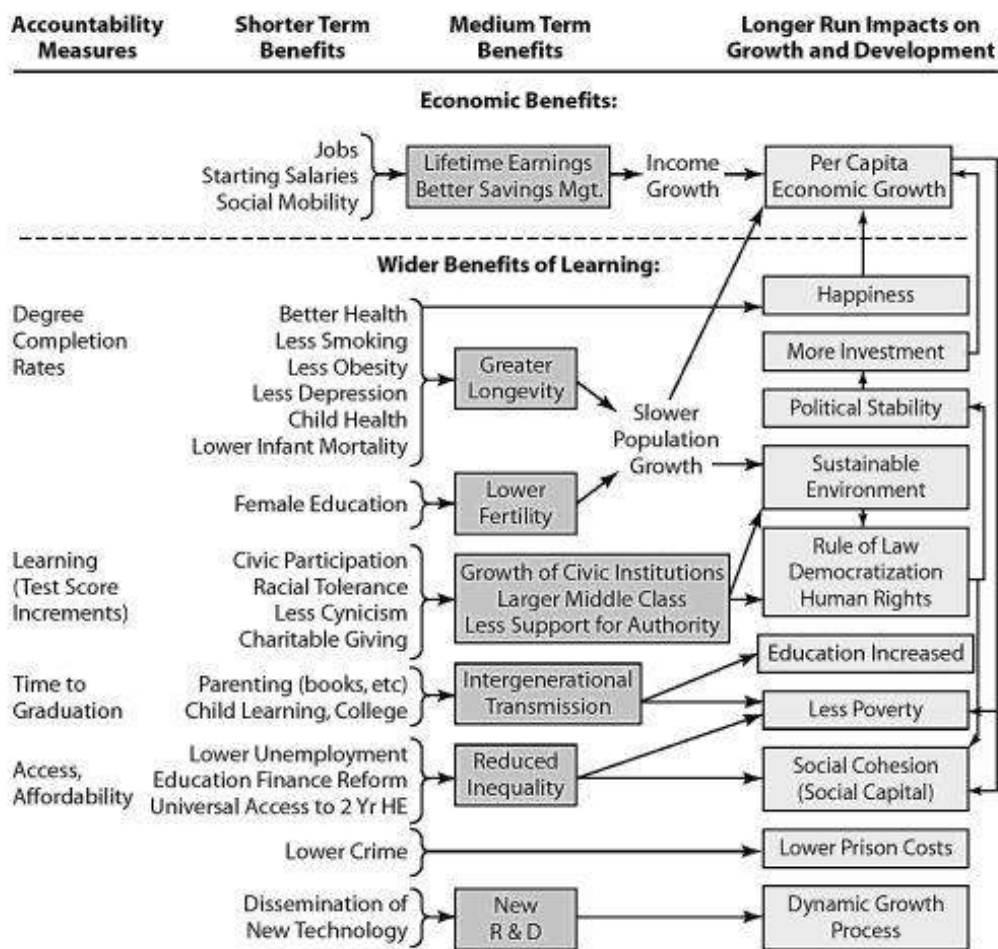

Figure 4: Non-market benefits of higher education

This table shows an overview of the main non-market benefits of higher education. The standard accountability measures that are more immediate come first. These measures are most useful when outcome oriented and are readily available. These measures lead to more approximate understanding of the benefits provided by higher education. Moving from left to right, the benefits illustrate how students use the education through the stages of their lives. This includes experience in the workforce, at home and in the community. The short-term benefits include such things as jobs, earnings, less smoking, less obesity, lower crime and greater civic participation. These short-term outcomes lead to medium-term outcomes, also interacting with one another. Each higher education outcome can be traced from the shorter-term impacts on the left to the medium-term outcomes in the middle, mapping logically into more general and longer-term impacts in the last column. These standard growth and development goals are common economic development measures for most states. For example, it is shown that a college education leads to better overall health, which leads to greater longevity, slower population growth in the medium term and ultimately improved per

capita economic growth, more happiness and a sustainable environment. Measuring degree completion rates gives insight into a university's role in this specific outcome. This illustrates the impact of a university in a student's life and what it provides to state economic and social improvements.

These benefits are difficult to measure and are beyond the scope of this particular study. Going forward, we will use the average impact of a four-year university according to the findings of McMahon's research. The purpose of this is to show that these benefits are more than just feel-good impacts, but are quantifiable. A monetary value of social benefits of education can be placed on each desired outcome of any community and state government.

The following table shows these averages (McMahon, 2009, pp. 232-233).

<b>The Direct Social Benefit Externalities of Education</b>	
<i>Social benefits, dependent variable</i>	<i>Value of social benefits of bachelor's</i>
Democratization and Political Institutions	1,830
Human rights, civic institutions	2,865
Political stability	5,813
Life expectancy	2,308
Reduced inequality	3,110
Lower crime	5,647
Lower public costs	544
Higher tax recipients	A market social benefit
Environment: indirect	5,609
Social capital	unmeasured
R&D dissemination	Non-mkt, apart from growth
<b>Total Social Benefits</b>	<b>27,726</b>

Figure 5: Table of Social Benefit Externalities

The following section will define each of these quantitatively measured impacts.

*Democratization:* McMahon defines democratization as the operation and improvement of civic institutions. Higher education is shown to improve underlying behaviors, attitudes and capacities. A U.S. Gallop Poll found that those within each income group with higher education give voluntarily of their time to civic, political and charitable institutions about twice as often (22% give) as those of the same income level with a high school education or less (only 12% give)<sup>xv</sup>. Those with higher education also pay more in taxes that contribute to the allocation of

public goods that benefit all in the community. These shared benefits include public radio and television, primary and secondary education, public health, roads, police protection, the criminal justice system, national defense and many other public services. Studies also find significant effects of higher education on voter participation, support for free speech, greater interest in public affairs, greater racial tolerance, less cynicism, and less unquestioned support for authority<sup>xvi</sup>.

*Human rights:* Higher education leads to attitudes that are more supportive of human rights including: tolerance of other races and questioning of authority. Higher contribution of time and money is also relevant.

*Political stability:* This is important to economic development and to the level of individual well-being. No country is completely politically stable. For instance, the U.S. is rated an 82 out of 100 by the International Country Risk Guide<sup>xvii</sup>. Further development of countries and regions is partly reliant upon political stability, democracy and human rights. Education supports the improvement of these measures.

*Life expectancy:* Evidence found in research cited in McMahon's study<sup>xviii</sup> shows that higher education increases longevity. Interesting facts: the number of years the average undergraduate spends on finishing a bachelor's degree translates into a 1.76% reduction in the probability of death in any given year. The average lifespan is therefore increased by education level: Associate's degree increases by 2.25 years, Bachelor's degree increases by 4.5 years and PhD increases by 8.5 years longer than the average high school graduate.

*Reduced inequality:* Higher education tends to reduce income inequality. However, various trends show the gap is widening in earnings in the United States between those with college education and those without. There are policy gaps that contribute to greater inequality.

*Lower crime:* A study by Lochner and Moretti<sup>xix</sup> finds that, on average, one additional year of school lowers the subsequent probability of incarceration for white men by 0.1% and for black men by 0.37%. The costs of crime include victim costs, property losses, criminal justice system costs and the costs of incarceration. Increasing education levels results in lowering costs of crime.

*Lower public costs:* These costs include welfare, medical and prison costs. In the U.S., only 0.5% of college graduates ages twenty-five to thirty-four received public assistance through Aid for dependent Children (AFDC), while 5.6% of all high school graduates received welfare payments<sup>xx</sup>. In respect to healthcare, a study indicates that the cost savings in public health

care costs is \$7,770 for each student who completes an associate degree and \$13,625 for each student who completes a bachelor's<sup>xxi</sup>. Much study has gone into the savings in incarceration costs as a result of higher high school graduation rates. If the savings were only half as much from completing an associate degree, the public saving in incarceration costs in 2007 dollars would be \$1.1 billion per year.

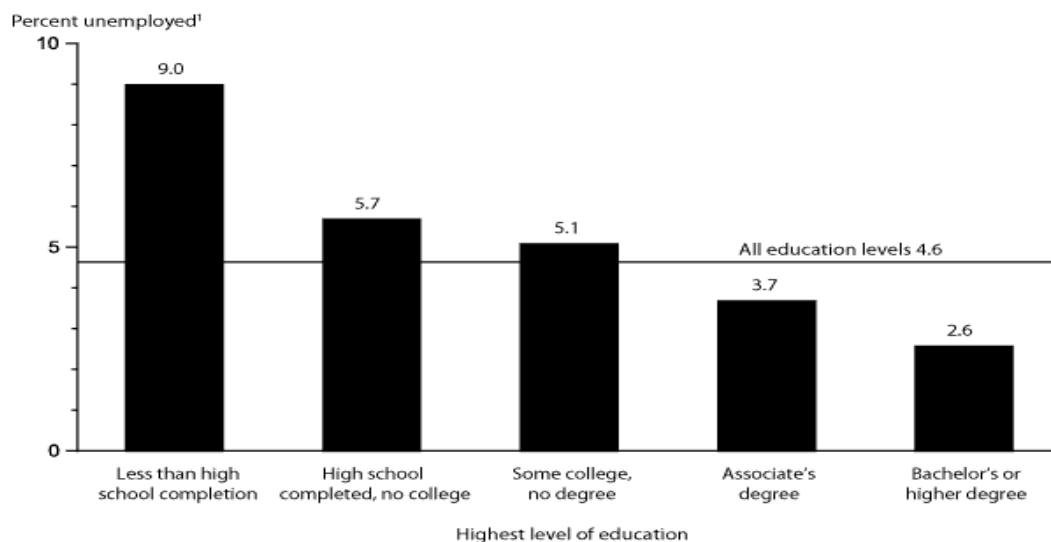

*Increased tax receipts:* These benefits are counted in the earnings benefits of higher education, but it is important not to overlook increased income, sales and property tax receipts that contribute to public services.

*Environment, indirect:* There is new research that points to environmental improvements based upon higher education reducing poverty and population growth rates, as well as increasing democratization. Higher education increases awareness, reduces pollution and improves technology. The effect of research universities pays forward as graduate and undergraduate students involved in the research take their awareness into industries that are involved with technology and other environmental concerns.

*Social capital:* McMahon<sup>xxii</sup> studies the effects of higher education on happiness in great depth. Suffice it to say that greater happiness is a benefit of higher education, but social benefits also exist in the form of social capital. This is seen through social cohesion, networking, participation in clubs, and participation in community work. It is also shown that higher workplace trust contributes to production and higher income.

*Research and development dissemination:* McMahon states that the dissemination of new knowledge is probably the largest and most important social benefit of higher education to the broader society. This includes skills in adapting the newly created knowledge and technologies in all academic fields.

In an attempt to value these non-market social benefits, McMahon uses an income equivalent approach by showing the monetary value (in 2007 dollars) of each non-market benefit. By this method, the social benefits are 35% of the total benefits of higher education. As stated earlier, these benefits are largely ignored because of the difficult measurements required. It is shown that higher education is much more valuable to a community than only commonly measured market benefits.

As seen in the table above, there is a strong correlation between education level and the unemployment rate. ISU graduates contribute to a lower regional/state unemployment rate which as a result, increases personal happiness, tax receipts and decreases public costs such as welfare. The unemployment rate among college graduates in 2005 was only 2.6%, clearly the lowest of all education levels.

### HEALTH SERVICES

Each additional year in college contributes to increasingly better health and, in due course, to greater longevity. Those at the top of the education distribution live seven or more years longer in Western economies (McMahon, 2009, p. 133). The extensive studies control for other possible contributors such as higher IQ and increased income. Seeking to eliminate this uncertainty, causation was found between higher education and better health. Examples of behaviors that contribute to this are that 6.4 less cigarettes are smoked per day by bachelor graduates, and the typical individual exercises 68 more minutes per week than high school graduates. Of those who smoked, college graduates were about twice as likely to quit as high school graduates<sup>xxiii</sup>. College students are also less likely to be obese. Those with more education tend to have a more future oriented view as well.

An important aspect of higher education is that it improves understanding and use of complicated health care facilities. College educated people tend to recognize symptoms of disease sooner and make doctor visits more often than non graduates. ISU has an invaluable service to the students and community. Through the health service that ISU provides, students are able to improve their health care education and participation. For example, in fiscal year 2010, there were 41,486 clinic patient visits provided by ISU's Health Services. This number has been on a dramatic increasing trend, including a 17% increase of patient visits in fiscal year

2009. These improving health care behaviors affect long-term health improvements and more cost-effective use of medical services. Also, as noted above, the lifetime savings in public health care costs is \$7,770 for each student who completes an associate degree and \$13,625 for each student who completes a bachelor's degree. This provides relief for taxpayers as well as health care providers.

ISU's focus on health care education has been quite valuable locally and statewide. ISU operates 15 clinics throughout the state of Idaho (12 in Pocatello, three in Boise). These professional-educational clinics operate in the following areas: audiology, balance, counseling, dental hygiene, dentistry, family medicine, occupational therapy, physical therapy, psychology, speech and language, wellness and massage therapy. Many Idaho healthcare employees are educated at ISU. The university also participates in the areas of basic biomedical research, national clinical trials, clinical research, and imaging, with emphasis in the areas of translational research and bench-to-bedside<sup>xxiv</sup>.

Understanding more about these social benefits that are commonly underestimated shows the growing need for further investment in higher education, rather than the trending under-investment experienced at most universities, including ISU. A major source of this under-investment is simply the lack of understanding the impact and external benefits that universities have on their communities. Public support per student is in decline, resulting in increasing tuition costs borne by students and their families. Out of necessity, ISU is one of the schools that increased tuition and in doing so took a step towards increased privatization.

## *Voices from the Community*

ISU has a very robust, positive impact on southeast Idaho. It is a major employer; it draws thousands of students to the community; its presence is one of the factors that encourages new businesses to relocate here; it assists new businesses to develop; it provides excellent education and workforce training. Overall, it is an absolutely vital component of our community. Take Health West as an example. One physician came back to Pocatello to be on

the faculty; 2 physicians came to Idaho through the Family Medicine Residency and then came to work at Health West. Two physician assistants and two nurse practitioners on staff at Health West received their training through ISU. Most of our nursing staff have been educated at ISU. We have been able to build a quality workforce because of the local presence of the university.  
–Stephen Wegg

*Stephen Wegg is the Executive Director of Health West. He is a board member for the Portneuf Health Care Foundation. He also serves as a board member of the Community Benefit Organization, which governs all of the assets of the Portneuf Medical Center.*

Idaho State University (ISU) is a vital part of the Pocatello and Southeast Idaho communities. Not only is ISU a major employer for our area, but it also provides our citizens with educational, social and cultural opportunities. ISU is not just for students – it's for all of us, and I encourage everyone to take advantage of what the University has to offer.

-Mayor Brian Blad

*Brian Blad is the Mayor of the City of Pocatello, Idaho. He was elected into office November, 2009.*

## *About the Authors*

**Bengal Solutions Team 2010-2011:** (left to right) Back: Ryan Bills, Brian Ellis, Felix Caspari, McKay Womack, Oana Iacovita. Front: Paul Amoah, Cory Howerton, Whitney Lusk, Bunmi Awokulehin, Amy Berry, Kevin McMurtrey

### **Cory Howerton:**

Cory is from Pocatello, Idaho. He graduated from Highland High School in 2000. He went on to earn a Bachelors Degree from Brigham Young University. He owned a small business for two years in Utah and Arizona, and also managed a marketing team before returning to graduate school. He will graduate from Idaho State University's MBA program in August 2011. As a member of Bengal Solutions since August 2010, Cory has been a consultant on various projects to help local businesses grow. He is excited to continue a career in finance and management.

### **Kevin McMurtrey:**

Kevin is an Idaho native; he graduated from Bonneville High School in 2001. He received his Bachelors Degree from Brigham Young University in August, 2009. He is currently an MBA student at Idaho State University and will graduate in May 2012. He is happily married, for almost five years, to his beautiful wife Laura W. McMurtrey. He is the proud father of James (age 3) and Rose (age 1). Kevin plans on enrolling in law school in fall 2012. He has thoroughly enjoyed working with Bengal Solutions since August of 2010.

## Foreword by Linda Hatzenbuehler, PhD

It is my pleasure to address the economic impact of Idaho State University's (ISU) health professional programs to the state of Idaho. A recently completed study focused on three of ISU's most popular professional programs: Physician Assistant Studies, Nurse Practitioner and Pharmacy. However, the study assessed the broader impact of the Health Sciences programs within the university and externally to the general community.

The American health care system has been highly criticized for its poor return on investment compared to other developed countries. Americans pay more for their health care, with poorer outcomes. Health sciences education has a similar negative reputation. Professional programs in health fields are criticized for being high cost/low enrollment programs for institutions of higher education. In times of economic austerity, health related programs are often the first to be cut. This study paints a more optimistic picture of public investment in education in the health professions. The study demonstrates that the students and the graduates of the health programs sampled contribute in many ways to the economic health of Idaho. Not only do students in health professional programs contribute to numerous communities after they graduate, they provide valuable clinical services within the health care system throughout the course of their professional education. Our multiple clinics serve many individuals and families who otherwise would not be able to access the care they need due to their limited financial resources.

Internally, the Health Sciences demonstrate a positive return on investment for the university. Less than 20% of the general fund dollars flow to Health Science programs at ISU, but the Health Sciences enrollment makes up about 30% of the student body. The external funding likewise is healthy and contributes to answering research questions ultimately of benefit to the state, nation, and world. The income generated from our clinics contributes to the self-sufficiency of our educational programs. Those of us involved in the Health Sciences at ISU are proud of our financial position within the university.

I want to thank the MBA students who staff ISU's College of Business "Bengal Solutions" who conducted the study on behalf of the administration of the Division of Health Sciences. They worked tirelessly and thoughtfully over many months to produce a quality document that provides detail to the university's overall economic impact in the state.

Linda C. Hatzenbuehler  
Associate Vice-President and Executive Dean  
Division of Health Sciences

## Executive Summary

Linda Hatzenbuehler, Executive Dean of the Division of Health Sciences (DHS), engaged Bengal Solutions in the summer of 2011 to perform an Impact Study for the DHS. The expected project completion of December 2011 was moved back to April 2012, as the requests for information in various areas of the study took longer than expected.

### *Description of the Study*

The format of the study is loosely based off of the Division of Health Science's vision: *"...to enhance the quality of life for our constituencies by applying the values of excellence in research, partnerships in community service, and professional education into practice"*

As such, the impact of the DHS has been calculated in each of the three areas mentioned in the vision statement: education, outreach, and research. Also included is a business perspective which outlines state appropriations, academic enrollment, etc.

### *Business Perspective*

- In FY2011, the DHS received about 14.9 % (\$12.3M) of the state appropriations distributed to Idaho State University.
- In FY2011, 17.8% (equivalent to \$23.2M) of ISU's gross salary, wages, and benefits were paid to employees within the DHS.
- The DHS is the largest division within Idaho State University with about 28% of the total ISU enrollment in 2011.

### *Education Impact*

- Idaho State University is the only school in Idaho with the following programs of study: Family Nurse Practitioner, Pharmacy, and Physician Assistant.
- 108 of the current 631 licensed NPs in the state of Idaho were educated at ISU; that represents roughly 18% of the NPs in Idaho.
- 570 of the current 1,288 licensed Pharmacists in the state of Idaho were educated at ISU; that represents roughly 1 out of every 2.

- 223 of the current 619 licensed PAs in the state of Idaho were educated at ISU; that represents roughly 2 out of every 5.

### ***Outreach Impact***

- There are twenty-two DHS volunteer student organizations that are managed by students and supervised by faculty advisors.
- Each semester they embark on outreach programs, related to their field of study, in the surrounding communities such as providing free heart and diabetes screenings by the Pharmacy program and free medical clinics by the Physician Assistant program.
- In 2011, DHS students performed a total of 5,242 hours of volunteer services that contributed an estimated \$201,249 to the economy of Idaho.
- In a typical year, students perform a total of about 23,587 clinical hours of service out of which about 20,157 hours are unpaid. These unpaid services result in an economic impact of about \$12.6 million annually.

### ***Research Impact***

- The DHS has received over 36 million dollars in research grants and funding in the past five years.
- As part of the health related research conducted at Idaho State University, 81% of the research funding was directed to the DHS.
- Among the many research activities conducted by students and faculty of the DHS, there are teams conducting research into the treatment of: pancreatic cancer, health care-associated pneumonia, and participation in the SAVOR-TIMI clinical trial to assess vascular outcomes in diabetic patients taking saxagliptin.

### ***Organization of the DHS***

The Division of Health Sciences is made up of the following schools, colleges, and offices: College of Pharmacy, Kasiska School of Health Professions, Office of Medical and Oral Health, School of Nursing, and School of Rehabilitation and Communication Sciences. For a complete

view of the DHS organizational layout, please see the DHS Organizational Chart (Exhibit1).

### ***Research Resources***

Information for the DHS Impact Study came from a variety of sources including: ISU's financial statements, previously conducted impact studies<sup>1</sup>, professional research reports, and various colleges, offices, and student organizations at Idaho State University.

### ***Conducting the Research and Study***

This impact study was conducted by Andrea Folkman, Kevin McMurtrey, and Paul Amoah; each of these MBA graduates was employed as a Graduate Assistant through Bengal Solutions in the College of Business during the 2011-2012 academic year. The research, findings, and overall collaboration of this project were overseen by Sam Peterson, Director of Graduate Programs for the College of Business.

---

<sup>1</sup> Structure and content of the DHS Impact Study was loosely based off the following impact studies: Loma Linda University Economic Impact on the Inland Empire, Florida State University College of Medicine Socio-economic Impact Study, and Idaho State University Economic Impact Study.

## Business Perspective

As the largest division within Idaho State University (ISU), the Division of Health Sciences (DHS) consists of a diverse array of health programs, schools, and colleges. The faculty count is substantial and the student body is large and has experienced continual growth over the past few years. As an essential business unit of ISU, the Division of Health Sciences stands as a microcosm of the university. A more detailed look at the internal business aspects of the DHS gives a snapshot of where things are headed, in health related fields, for the university as a whole.

In this section, the following business figures are reviewed with detail in comparison to the university as a whole: 1. State appropriations 2. Gross salary, wages, and benefits 3. Academic Enrollment & 4. Employment statistics. Figures for these various areas were obtained from the Office of Institutional Research, the Office of the University Controller, and from the Business Development Officer of the Division of Health Sciences.

### 1. State Appropriations

Appropriations distributed annually from the state of Idaho represent an important source of funding, in terms of sustainment and growth, for the various programs, schools, and colleges at ISU. Although not all programs within the Division of Health Sciences are subsidized by these appropriations, these funds still constitute an important source of revenue for the DHS each year.

<b>State Appropriations</b>		
<b>Year</b>	<b>Organization</b>	<b>Total</b>
FY 2010	Idaho State University	\$82,709,340.00
	Division of Health Sciences	\$12,774,434.30
	DHS as % of ISU	15.44%
FY 2011	Idaho State University	\$82,777,748.00
	Division of Health Sciences	\$12,336,079.84
	DHS as % of ISU	14.90%

**Table 1: State Appropriations comparison between ISU & DHS**

In FY2010, state appropriations for Idaho State University were about \$82.7M (See Table 1). The Division of Health Science’s share of those appropriations for FY2010 constituted about \$12.7M, or about 15.4% of those appropriations. Although FY2011 saw a slight increase in state appropriations to ISU, the actual dollar value of state appropriations to the DHS decreased slightly to \$12.3M. This represented 14.9% of the state appropriations given to ISU during FY2011.

**2. Gross Salary, Wages, and Benefits**

An important internal business figure, which most businesses track carefully, is the expenditure made each year on employee salaries, wages, and benefits. Idaho State University, as the largest employer in Bannock County, Idaho<sup>2</sup>, allocates a significant amount of university funding in this regard.

In FY2010, Idaho State University allocated \$133.3M towards the payment of employee’s salaries, wages, and benefits. About 18.3% of that allocation was assigned to the Division of Health Sciences, or around \$24.4M. In FY2011, money spent by ISU on salaries, wages, and benefits decreased by about \$3M. There was also a decrease in the total \$ value of salaries, wages, and benefits at the DHS. This figure dropped to about \$23.2M, or about 17.8% of the total amount spent by ISU on employee’s salaries, wages, and benefits, see Table 2.

<b>Gross Salary, Wages, Benefits</b>		
<b>Year</b>	<b>Organization</b>	<b>Total</b>
FY 2010	Idaho State University	\$133,372,372.00
	Division of Health Sciences	\$24,461,229.23
	DHS as % of ISU	18.34%
FY 2011	Idaho State University	\$130,457,000.00
	Division of Health Sciences	\$23,258,419.81
	DHS as % of ISU	17.83%

**Table 2: Gross Salary, Wages, Benefits comparison between ISU & DHS**

<sup>2</sup> Key Employers, 2011

### 3. Academic Enrollment

Academic enrollment at ISU includes the fall headcount of most of the university students enrolled at ISU. Enrollment figures for the College of Technology are not included in these figures. FY2010 recorded an academic enrollment of 11,857 students, 3,002 of which were enrolled within the Division of Health Sciences (See Table 3). For that fiscal year, one out of every four students included in the academic enrollment figure came from the DHS.

Academic Enrollment		
Year	Organization	Total
FY 2010	Idaho State University	11,857
	Division of Health Sciences	3,002
	DHS as % of ISU	25.32%
FY 2011	Idaho State University	11,003
	Division of Health Sciences	3,113
	DHS as % of ISU	28.29%
FY 2012	Idaho State University	12,776
	Division of Health Sciences	3,325
	DHS as % of ISU	26.03%

Table 3: Academic Enrollment as it relates to ISU & DHS

Although academic enrollment at the university has fluctuated as expected, enrollment in the Division of Health Sciences from FY2010 through FY2012 has been steadily increasing. Demand for professionals in health related fields is on the rise, and surely this has borne out in the increased enrollment for such career pathways. As the lead institution for health related studies in the state of Idaho, Idaho State University can expect the enrollment to continue to trend upward. If the last three years are any indication of that growth, ISU can expect that at least 25% of its student body in the future will be comprised of students seeking after health related degrees within the Division of Health Sciences.

### 4. Employment Statistics

Although we have made several attempts to gather employment numbers from the Office of Human Resources at ISU, we have been unsuccessful in obtaining the needed figures to

complete this portion of the Business Perspective. The last attempt to ascertain such information was a direct e-mail request to the Director & Associate Director of Human Resources.

## Education Impact

In developing the scope for the project with the Executive Dean, it was agreed that three programs from the DHS would be highlighted in this study. These programs were further researched and discussed as a sample of the programs at the DHS. The Nurse Practitioner, Physician Assistant, and PharmD programs were chosen because of their unique contribution to ISU and the state of Idaho. Information regarding program requirements, graduates practicing in Idaho, graduate spotlights, and additional information is contained within the following sections.

Although we were unable to research all programs within the DHS due to various time constraints, we recognize that the DHS is made up of many outstanding programs that were not included within this study. A special thanks to Dean of the College of Pharmacy Dr. Paul Cady, Director of the Physician Assistant Program Paula Phelps, Admissions Director of the Physician Assistant Program Ann Smalley, Interim Director of the School of Nursing Dr. Nancy L. Renn, and Interim Assistant Director for the School of Nursing Dr. Karen Neill.

## Family Nurse Practitioner (FNP) Program

One of the keynote programs of the Division of Health Sciences is the Family Nurse Practitioner program, or FNP. “[FNPs] are advanced practice nurses who provide high-quality healthcare services similar to those of a physician. NPs diagnose and treat a wide range of health problems. They have a unique approach and stress both care and cure. Besides clinical care, NPs focus on health promotion, disease prevention, health education and counseling. They help patients make wise health and lifestyle choices”<sup>3</sup>.

The FNP degree at ISU prepares students for primary care throughout their lifespan in a variety of settings. FNP courses are designed to develop critical clinical decision-making skills necessary for primary care providers working with diverse populations<sup>4</sup>. In addition to learning critical skills, rural health issues are emphasized.

---

<sup>3</sup> American Academy of Nurse Practitioners, 2010

<sup>4</sup> The School of Nursing, 2012

ISU's FNP program is the largest graduate nursing program in the state of Idaho<sup>5</sup>. Of the graduates who go through the FNP coursework, 100% of them pass the National Certification Exam. Of the 631 licensed NPs in the state of Idaho, 108 were educated at ISU, roughly 18%. This figure may be skewed due to gaps in the data from 2000 to 2002. However, of those that graduated from ISU, 71% hold current Idaho NP licenses.

The ISU FNP program has been able to offer its quality training online since 2006. Since that time they have been able to double the amount of students they have been able to train<sup>6</sup>. Geographically speaking, most of the ISU's NPs in Idaho are employed in the greater Boise area, around 46%, and from Pocatello to Rexburg, see Figure 1 for details.

---

<sup>5</sup> Ibid

<sup>6</sup> Ibid

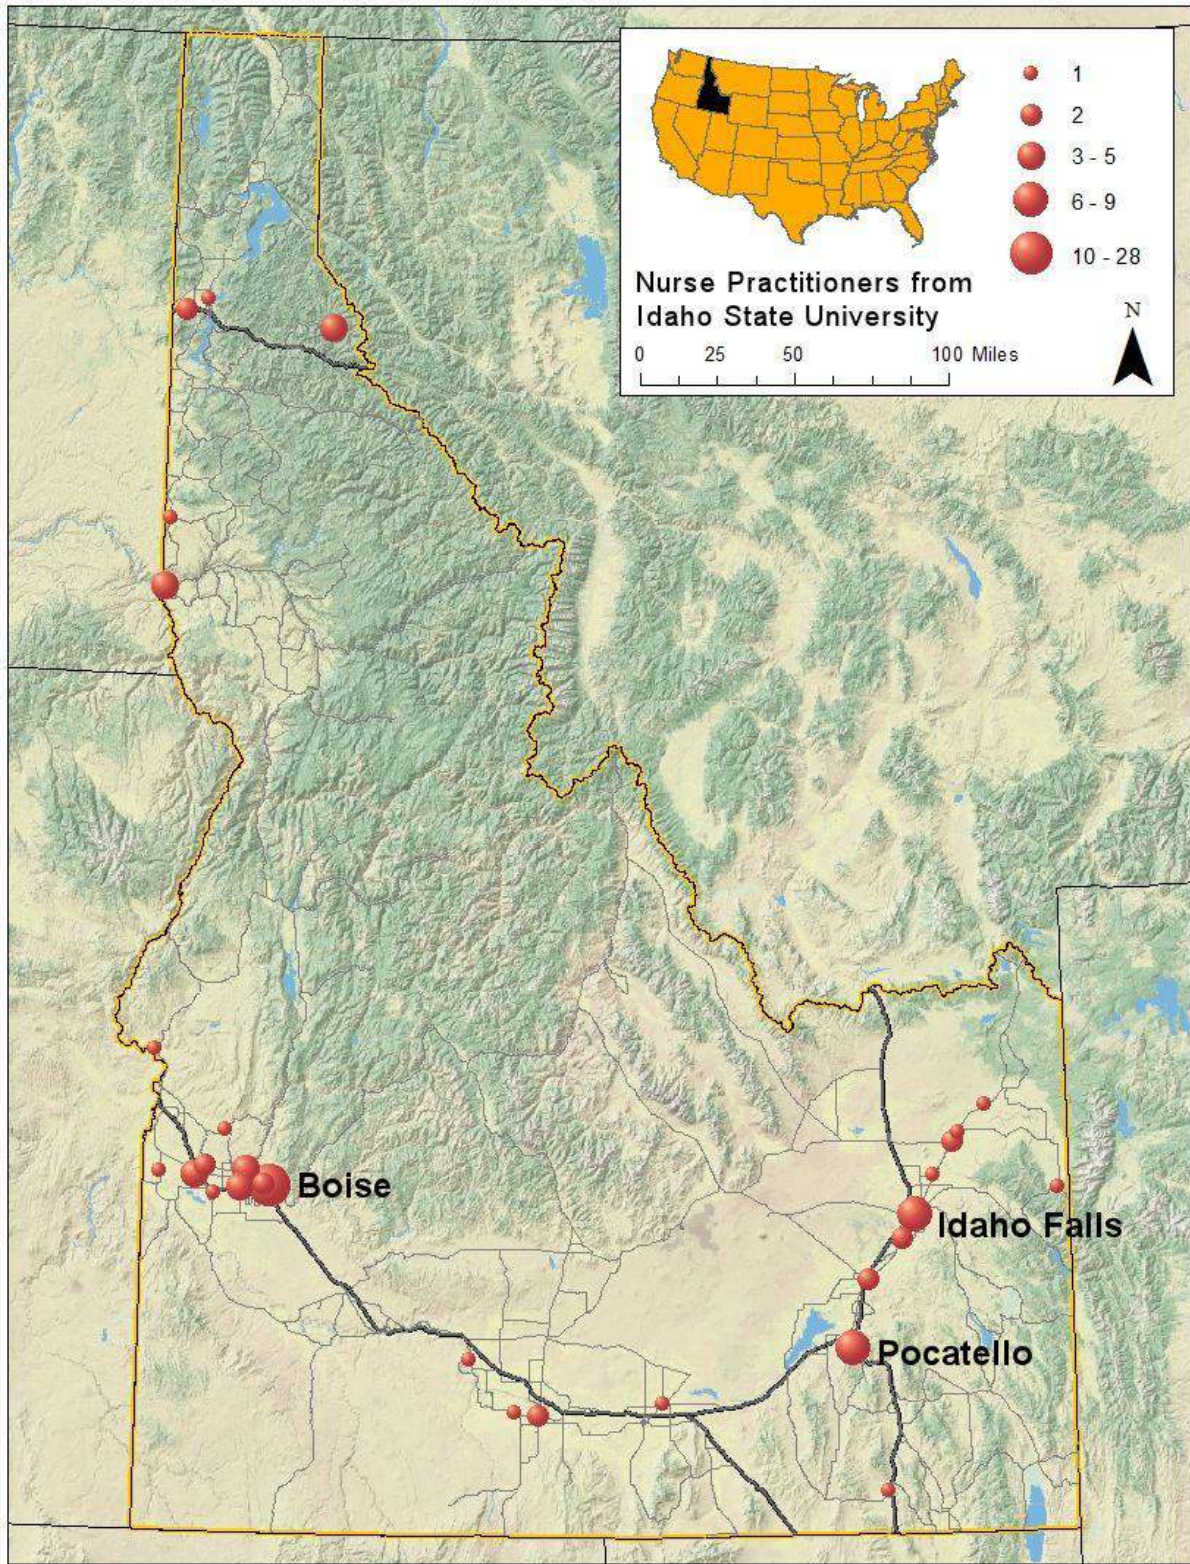

Figure 1: Family Nurse Practitioner concentration in Idaho

## **FNP Program Spotlight** *Allyson Reynolds*

“I have been fortunate enough to be able to provide medical care and improve sanitation in rural communities in Peru and Bolivia on several medical missions since starting my Master's education at ISU.”

Allyson Reynolds gained a degree in MSN-Family Nursing Practitioner (FNP) from ISU in May 2010. She had previously worked as a pediatric and NICU nurse at St. Luke's Children's Hospital in Boise. After completing her initial degree at ISU she was accepted as a Nurse Practitioner at Pediatric Surgery, St. Luke's Children's Hospital. Her current job includes seeing pediatric surgical patients in the hospital and assisting in surgery.

From the time she started her Master's program at ISU, Allyson has been part of several medical missions to Peru and Bolivia, where she helped provide medical care and improve sanitation in rural communities.

She recalls that the ISU FNP program was rigorous and demanding and this has made her particularly appreciative of the knowledge and experience she gained from each class. She utilizes the understanding acquired from the program to meet the needs of rural patients on a daily basis both in her clinical practice and her medical mission work.

Professionally, Allyson hopes to continue serving marginalized populations in impoverished countries while supporting efforts for the development of sustainable health care resources in rural communities. She has also undertaken Mission projects that have included primary medical and dental care, orthopedic, oral, dermatologic, abdominal surgeries, latrine construction, and health and nutrition education.

Allyson has two wonderful boys with whom she spends most of her free time when she is not out on the road running to keep fit.

## Pharmacist (PharmD) Program

The College of Pharmacy (COP) was founded in 1918, and is one of two accredited continuing education providers in Idaho approved by the Accreditation Council for Pharmacy Education (ACPE). There are two departments in the COP: Biomedical and Pharmaceutical Sciences as well as Pharmacy Practice and Administrative Sciences. The Biomedical and Pharmaceutical Sciences department provides basic science instruction in the professional pharmacy curriculum, graduate training in the pharmaceutical sciences, and offers an undergraduate minor in pharmaceutical sciences. The department also does basic research in the biomedical sciences.

The Department of Pharmacy Practice and Administrative Sciences, on the other hand, provides instruction on therapeutics and clinical sciences to the professional pharmacy students and other health science students at ISU.

The College of Pharmacy is the only one of its kind in Idaho; often called Idaho's College of Pharmacy. It was the first college on the ISU campus at Pocatello, and the first in the Northwest outside of California.

As of 2010, there are 3,370 pharmacists who have graduated from the ISU College of Pharmacy program. In the State of Idaho, there are 1,288 licensed pharmacy practitioners. Of that total, 570 graduated from ISU; meaning about 44% of those practitioners are ISU alumni. That is, one out of every 2.26 practicing pharmacists in Idaho was trained by the ISU COP program.

The largest concentration of ISU-graduated practicing pharmacists, 121 in total, can be found in Boise, see Figure 2. The second largest concentration of 59 practicing pharmacists is found in Pocatello, with Idaho Falls and Meridian tying for third with 45 pharmacists each who graduated from the College of Pharmacy.

### *Use of Technology*

The COP building was the first to have full wireless capability. This enables the College to use video technology and multiple conferencing technology in its teaching.

The College recently opened a second site at the LS Skaggs ISU-Meridian Health Sciences Complex in southwestern Idaho with 30% of its current student population located there. By 2014, the students will be split evenly between the Pocatello and Meridian campuses.

The entire Doctor of Pharmacy (PharmD) program can now be completed either in Pocatello at Leonard Hall or in Meridian at the LS Skaggs Complex. All classes are taught using distance learning. Students at both sites can interact with each other and with faculty located in Pocatello, Meridian, and Coeur d'Alene. The technology used in classrooms at the COP allows the administration to invite guest lecturers from anywhere in the nation to teach classes, saving on time and costs.

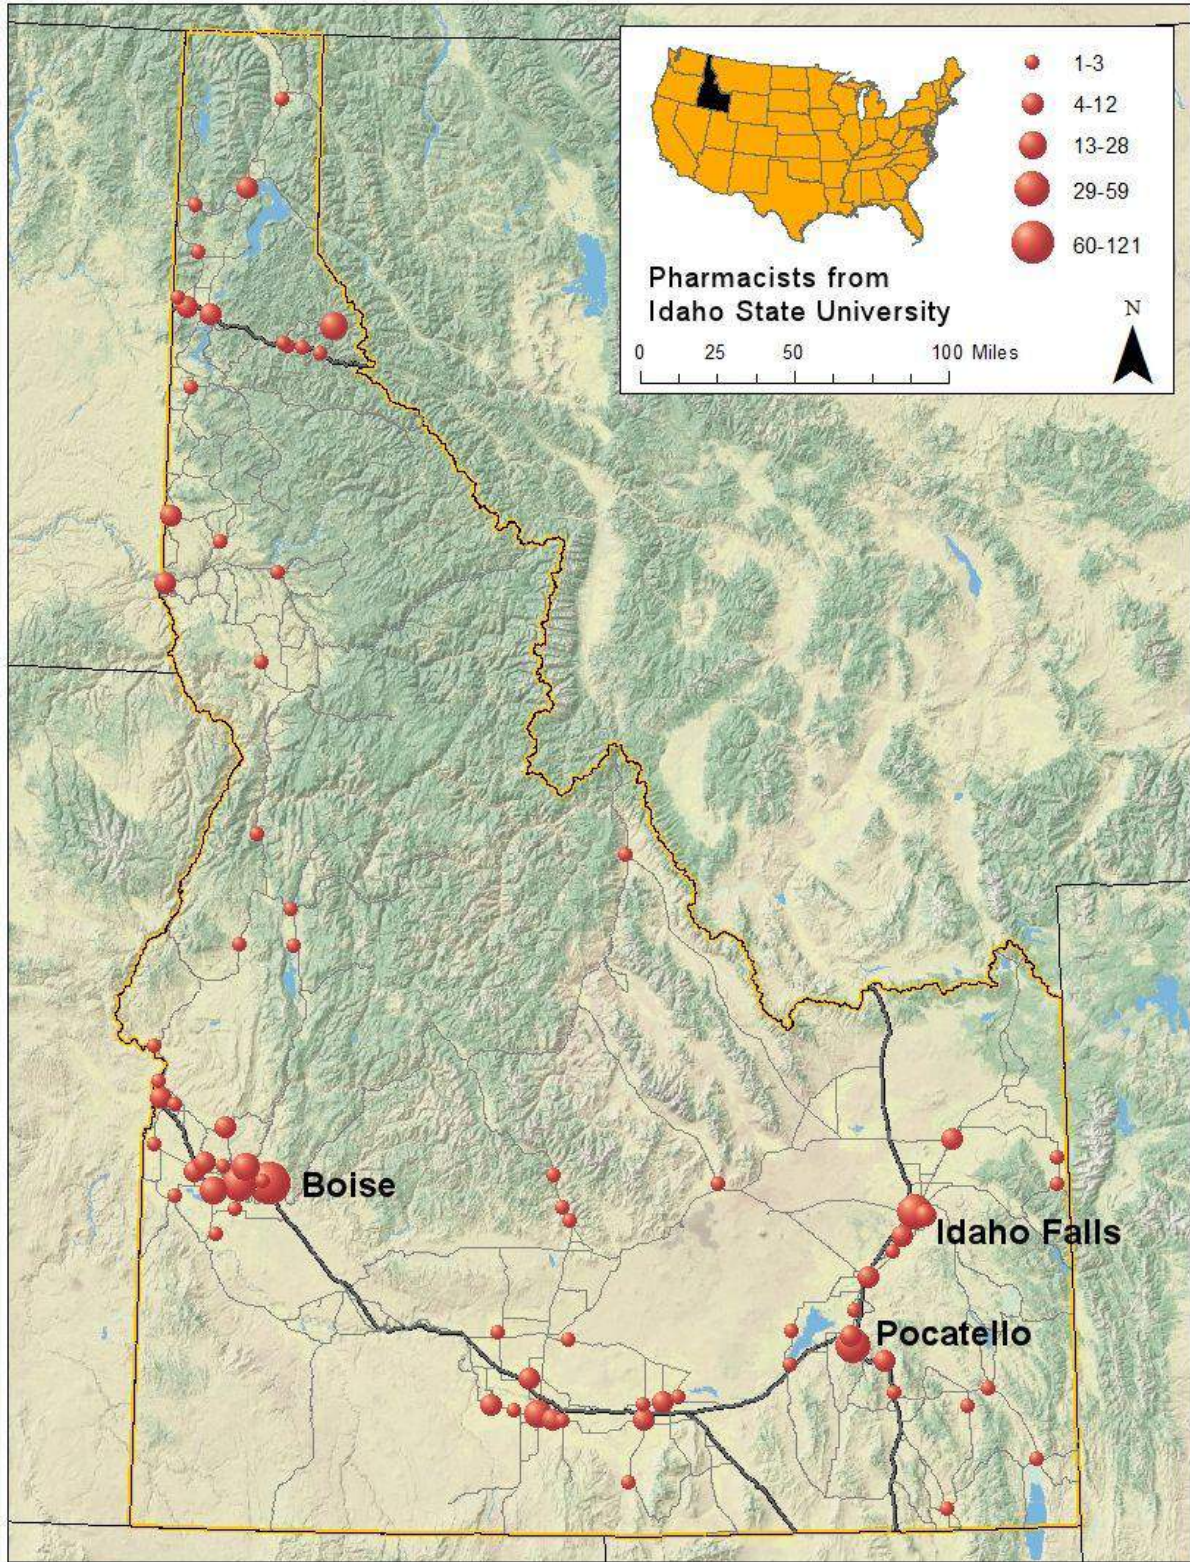

Figure 2: Pharmacist concentration in Idaho

## Pharmacy Program Spotlight

*Dawn Stiley Berheim*

“It is amazing what an impact the university has had in shaping health care in Idaho through the College of Pharmacy.”

Dawn Stiley Berheim, PharmD, is the Director of Pharmacy at St. Luke’s Boise/Meridian Medical Centers. She completed ISU’s PharmD program at the College of Pharmacy in 1994. She had a memorable time in school where she had the opportunity to serve as a Residential Advisor in Turner, East and Redfield student Halls. She also served as an ASISU senator for the College of Pharmacy, and as an ISU Ambassador with the Office of Alumni.

She remembers, with fondness, a number of other ISU alumni, both pharmacy and non-pharmacy, including her husband, with whom she had great experiences and friendships. She enjoys making annual trips to Pocatello to either visit the college or attend meetings with the Dean’s Advisory Council.

Professionally, Dr. Berheim enjoys working with a highly talented pool of clinicians at St. Luke’s (who are also ISU alumni), where ISU continues to impact and shape healthcare in Idaho through the College of Pharmacy. She was named Idaho Pharmacist of the Year for 2009 by the Society of Health-System Pharmacists.

Her interests, outside work, include supporting international relief efforts and the provision of micro-loans through the World Vision International, and support of the Idaho Food bank. She loves reading, knitting, and spending time with family in activities such as camping and skiing.

## Physician Assistant (PA) Program

The Physician Assistant Program at ISU is the only PA Program in the state of Idaho. “Physician assistants, also known as PAs, practice medicine under the direction of physicians and surgeons. They are formally trained to examine patients, diagnose injuries and illnesses, and provide treatment<sup>7</sup>.” Such qualifications have helped PA graduates meet the expansion needs of the state of Idaho, in terms of primary care to an underserved population<sup>8</sup>.

In 1995, the ISU PA program matriculated the first class of 19 students and graduated this class in 1997. Each year, a class of 60 students is enrolled, “with 30 seats located at the Pocatello campus and 30 seats located at the Meridian campus<sup>9</sup>.” The ISU PA program graduate curriculum is twenty-four (24) months in length, divided into twelve (12) months of didactic (3 semesters) and twelve (12) months of clinical education (3 semesters).

“Graduates of the program are eligible to take the Physician Assistant National Certification Examination (PANCE) which is administered by the National Commission for Certification of Physician Assistants (NCCPA). Over the past five years 172 out of 185 students or 93% of ISU's PA Program graduates have passed the NCCPA examination on their first attempt. The first-time pass rate was 90% for the Class of 2006, 100% for the

---

<sup>7</sup> Physician Assistants, 2012

<sup>8</sup> Group, 2011

<sup>9</sup> Department of Physician Assistant Studies, 2011

Class of 2007, 79% for the Class of 2008, 96% for the Class of 2009 and 96% for the Class of 2010<sup>10</sup>.”

In addition to the outstanding passage rates among students within the program, technology has also played a significant role in the expansion of the PA program at ISU. In fact, the PA program was able to double its size by employing distance learning through means of the latest technology. At the time of expansion to the Boise area in 2007, the PA Program began to utilize video conferencing. Through the use of this technology, lectures given in Pocatello or Meridian were made available by interactive video conferencing to both campuses, ensuring that the curriculum offered at either campus was virtually the same.

As of 2011, there are 447 graduates of the PA program at ISU (1997 - 2011). In the state of Idaho, there are 619 Physician Assistants holding current licenses. Of those holding current licenses, 223 PAs with current licenses were educated at Idaho State University. This means that 36% of currently licensed PAs in the state of Idaho were educated at ISU, or roughly 2 out of every 5. The largest concentrations of Physician Assistants in the state of Idaho are located in the Boise and Idaho Falls metropolitan areas. To see the concentration of PAs in the state of Idaho, see Figure 3.

Although a relatively young program in the medical world, the ISU Physician Assistant Program has earned a solid reputation in the state of Idaho and is on track to become a nationally recognized PA program. Most recently, the PA program was featured in the June/July 2011 issue of PA Professional, a monthly magazine printed by the American Academy of Physician Assistants (AAPA).

---

<sup>10</sup> Department of Physician Assistant Studies, 2011

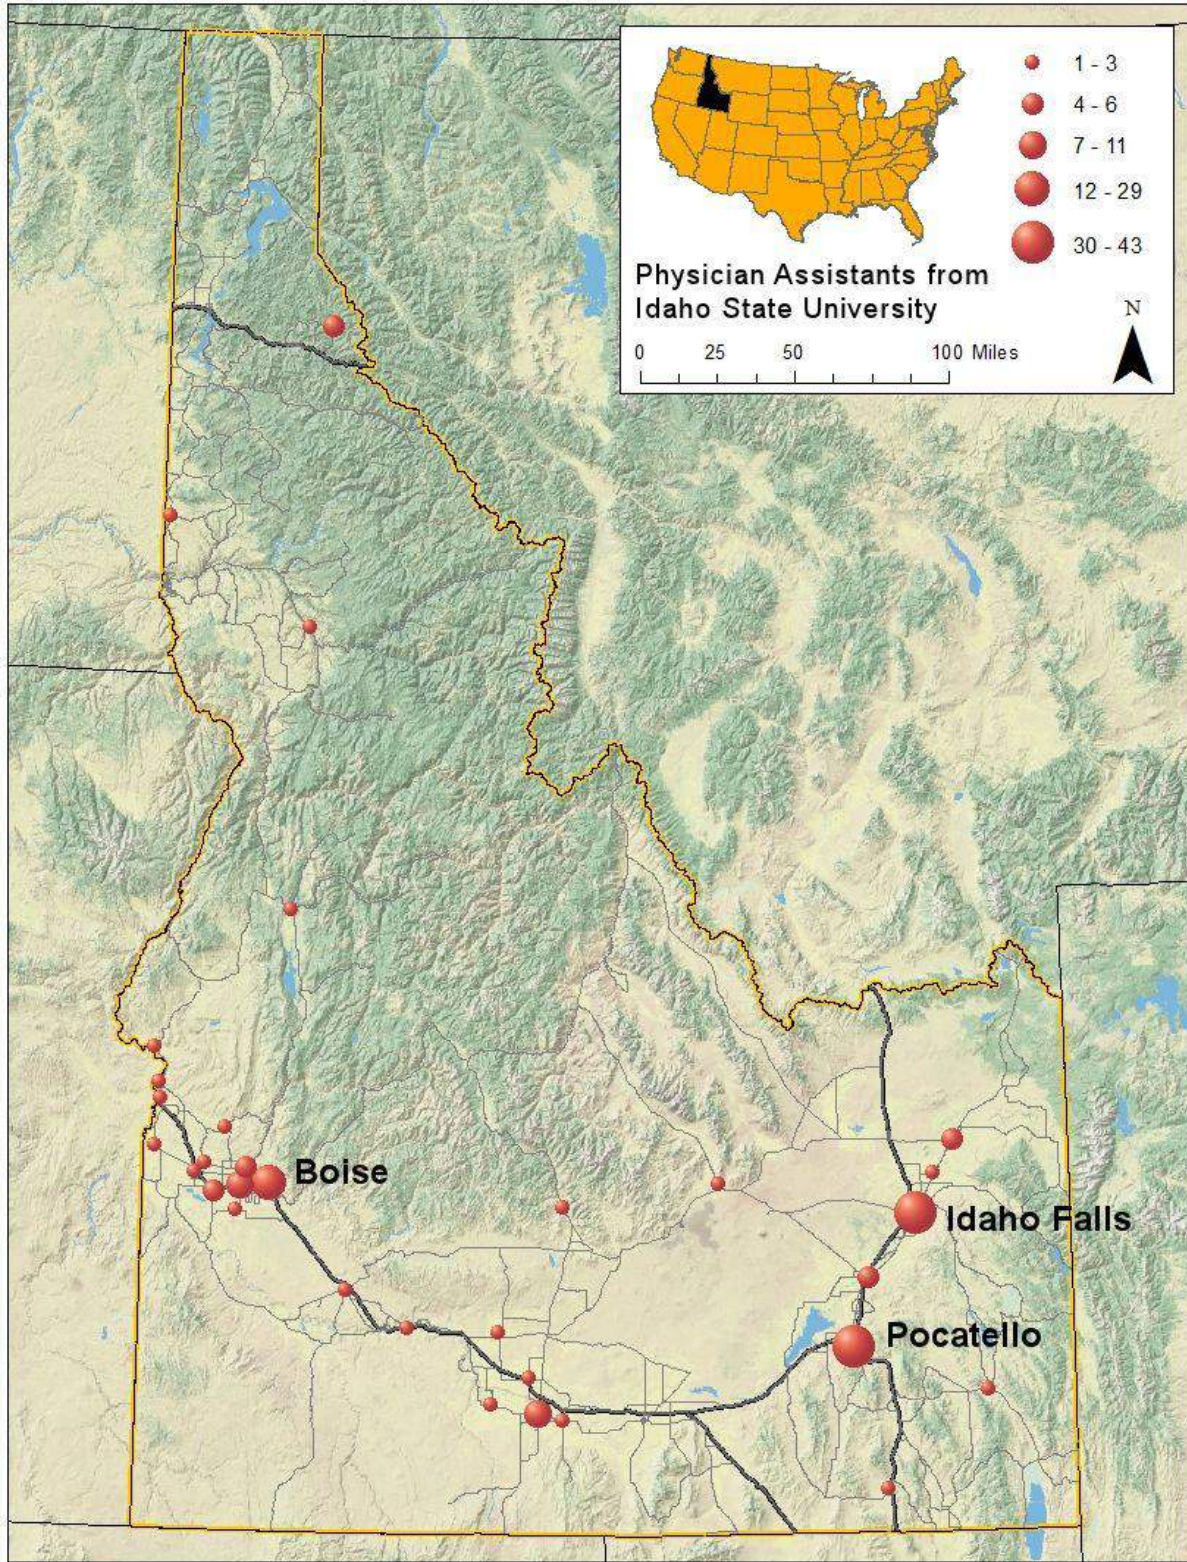

Figure 3: Physician Assistant concentration in Idaho

## **PA Program Spotlight** *Benjamin Attebury*

“When it was time to take the NCCPA certifying exam, I was confident with my preparation through the Physician Assistant Program at ISU.”

Ben received his undergraduate degree in biology at Slippery Rock University of Pennsylvania in 2001. Shortly after that, his career in healthcare started. He began work at the University of Utah Hospital as a Pathologists’ Assistant in surgical pathology and autopsy. He thoroughly enjoyed his work there and was fascinated with diseases that can adversely affect the human condition. However, he wanted to be in a position to be able to educate and treat patients before disease got the upper hand.

Three years later he started the Physician Assistant Program at Idaho State University. He recalls that the intensive didactic year was challenging. He felt that the countless hours of classroom time and studying adequately prepared him for his clinical year. During his clinical year, he had a variety of Preceptors who continued teaching, giving him invaluable hands-on clinical experience. In addition to the preceptors, Ben mentioned his appreciation for the faculty’s interest in his learning and success. He graduated from the program in 2007.

Ben currently works as a Family Practice Physician Assistant at Family Health Services in Twin Falls, a Community Health Center. He enjoys working with patients who are insured, under-insured and uninsured. He views his job as being “very rewarding” and he looks forward to many more years of providing care to South Central Idaho.

In his free time he enjoys spending time with his wife and four kids. They like to camp, hike and enjoy the beautiful outdoors that Idaho has to offer.

## Outreach Impact

### *Student Organizations*

Exclusive to the Division of Health Sciences are twenty-two very active student volunteer organizations. Some of the organizations have representation at all of ISU’s campuses; see Table 4 for the list of student organizations.

<b>Student Organizations by Program of Study</b>		
Occupation upon Graduation	Student Organizations	No. of Organizations
Pharmacist	Academy of Students of Pharmacy American Society of Health Systems Graduate Students of Pharmacy National Community Pharmacists Association Phi Delta Chi Phi Lambda Sigma Rho Chi	7
Dieticians	Dietetics Club	1
Speech & Language Pathologist	National Student Speech, Language, and Hearing Association Sign Language Interpreter Club	2
Physical Therapist Assistant	Physical Therapist Assistant Program	1
Physician Assistant	Physician Assistant Student Society	1
Radiology Technologist	Society of Radiologist Technologists	1
Pre-Health Professions	Pre-Health Professions Association Sheperds Club	2
Audiologist	Student Academy of Audiology	1
Dental Hygienist	Student American Dental Hygiene Association	1
Health Care Administrator	Student Association of Healthcare Administrators	1
Registered Nurse	Student Nurses Association Student Nurses Alliance	2
Occupational Therapist	Student Occupational Therapy Association	1
Physical Therapist	Student Physical Therapy Association	1
<b>Grand Total</b>		<b>22</b>

**Table 4: DHS Student Organizations by Occupation**

Most of the organizations are there to support the students in their professional aspirations. The College of Pharmacy has seven of such program-specific student organizations. Speech & Language Pathology, Pre-Health Professions, and Nursing have two each; the rest of the programs having one organization each, see Table 4.

These organizations are managed by students, with supervision from faculty advisors. Through the organizations, students are able to meet other colleagues who share similar interests in a common profession as well as the desire for community service. In pursuit of the latter, the students, each semester, embark on outreach programs related to the professions they are training in.

### *Volunteer Outreach Programs*

One of the main volunteer activities, The Annual Spaghetti Feed, is the primary fundraising opportunity to fund all patient outreach projects. This has been a great opportunity for students to learn the importance of community stewardship as a component of professionalism. The Spaghetti Feed is organized by the Professional Pharmacy Students Association and collaborates with Make-A-Wish Foundation to sponsor a child's wish. The students have raised approximately \$15,000 on average per year. Of that, \$5,000-\$7,000 goes

toward the Make-A-Wish Foundation. In 2010 the students raised over \$17,000, which completely funded a trip to the Caribbean for a young girl with cystic fibrosis.

Two of the important outreach programs run by the College Of Pharmacy are Operations Heart and Diabetes both in Pocatello and Meridian. Operation Heart and Operation Diabetes are community outreach programs, founded by the American Pharmacists Association - Academy of Student Pharmacists (APhA-ASP), that ISU student pharmacists participate in. These programs are managed by the students with supervision from faculty advisors, and are funded by money that is raised by the students.

ISU's Operation Heart program includes screening patients for cardiovascular disease, assessing cardiovascular risk, and most importantly, providing education about cardiovascular disease. Screenings provided by student pharmacists include cholesterol testing, blood pressure, blood glucose, weight, and a screening questionnaire. Through these events, the College hopes to raise awareness about the risks of cardiovascular disease and the ways to prevent it.

Operation Diabetes mirrors Operation Heart in many ways, such as offering cholesterol tests, blood pressure, and blood glucose. This program aims to detect Type II diabetes mellitus in screened patients. Student pharmacists can also offer care for patients previously diagnosed with diabetes by providing foot checks and blood glucose screenings. By educating patients about diabetes, students strive to improve awareness and health within the community. Students often travel for both of these operations to rural areas, as well as provide free screening locally.

There are a variety of outreach programs that the Student Nurses Association is engaged in. They work with food drives for the local food bank, health fairs, blood drives, community health/awareness events, and emergency preparedness events. Particularly, the Student Nurses Association enjoys their work with Portneuf Medical Center's Teddy Bear Clinic. The purpose of this outreach activity is to help children orient to a hospital in a setting that is relaxed and fun. Members of ISU Student Nurses Association helped with various stations including casting, stitches, x-ray, emergency department, dental health and poison control.

### *Impact of Volunteer Hours*

In a typical year, students from the Division of Health Sciences perform about 5,242 hours of volunteer service in their programs of study. These service hours are devoted to the communities in which the students operate. The economic contribution of these volunteer hours, in the state of Idaho, is estimated at \$201,249 annually, see Table 5.

<b>Student Organization Volunteer Hours</b>			
<b>Occupation Upon Graduation</b>	<b>Volunteer Hours</b>	<b>Average Wage</b>	<b>Value</b>
Pharmacist	1,968	\$49.30	\$97,022.40
Dietician	300	\$23.10	\$6,930.00
Speech Language Pathologist	580	\$29.80	\$17,284.00
Physical Therapist Assistant	600	\$22.31	\$13,386.00
Physician Assistant	1,015	\$43.13	\$43,776.95
Bachelor's Degree	136	\$26.49	\$3,602.64
Radiology Technologist	60	\$24.04	\$1,442.40
Audiologist	43	\$39.27	\$1,688.61
Dental Hygienist	80	\$31.86	\$2,548.80
Health Care Administrator	30	\$22.73	\$681.90
Registered Nurse	260	\$30.15	\$7,839.00
Occupational Therapist	160	\$29.46	\$4,713.60
Physical Therapist	10	\$33.24	\$332.40
<b>Grand Total</b>	<b>5,242</b>		<b>\$201,248.70</b>

Table 5: Estimated Student Volunteer Hours

### *Volunteer Hours*

One metric that challenged the Bengal Solutions team was the calculation of the number of volunteer hours that student organizations logged annually. Although the organizations knew which events they were holding, the information regarding time dedicated and student involvement per event were not regularly recorded, nor easily accessible. This resulted in the Bengal Solutions team dedicating a significant amount of time gathering information necessary for this section of the report. We postulate that these figures are on the conservative side as each organization was careful not to overestimate their volunteer hours.

In the future, it is hoped that student organizations will keep more accurate and regular records of their volunteer hours. This information will be useful in quantifying the value of their volunteer efforts in the surrounding communities.

### *Use of Average Wage*

For this study, we used the average wages published by the Idaho Department of Labor, Communications and Research. The department's occupational employment and wage information for 2011 had entry, mid-point, and average wages<sup>11</sup>. We used the latter in order to avoid the incidence of using a mixture of entry level and mid-point wage values. While students graduating with Bachelor's degrees are likely to be started at entry-level wages, those graduating with Masters or PhD degrees, likely enter the workforce with significantly higher wages.

### *Student Clinical Hours*

Almost all the professional programs within the DHS require the performance of some form of clinical services, to enable students to gain the appropriate practical skills and necessary experience before graduation. There are 12 clinics currently operating in the DHS. The total number of student hours worked at these clinics differs from program to program.

In the Pharmacy program, for instance, the State Pharmacy Board requires that students perform a minimum of 1,500 hours of such clinical services to qualify as pharmacists. A Family Nursing Practitioner is required to perform about 818 hours while a Physician Assistant performs about 1,720 hours of clinical services before graduation, see Figure 4.

---

<sup>11</sup> Idaho Occupational Employment & Wage Release, 2011

Figure 4: DHS Programs & Required Clinical Hours

### Impact of Clinical Hours

Another large portion of our time was devoted to compiling information for this metric. Like the volunteer hours, some of the programs did not readily have the information available. Coupled with the generally busy schedules of deans and professors, this became the next challenging compilation. But we believe that once gathered it would be much easier to update if some of the hours change with time.

While ISU receives payment for some of the clinical services performed, most of the students are not compensated for service hours. These clinical hours, therefore, become a huge contributor to the economic well-being of the State. At the same time, some students (like those in the Family Medicine Residency Program) are paid a stipend for their clinical services.

Annually, students in the Division of Health Sciences typically perform a total of 23,587 clinical hours of service. Of those clinical service hours, 20,157 hours are unpaid. These unpaid services result in an economic impact of about \$12.6 million annually (see Exhibit 2).

## Research Impact

DHS has always had an outstanding research initiative. As part of the DHS mission, research has become a premier focus surrounding health programs. In the past five years, the DHS has received over 36 million dollars in research grants and funding. As a part of the total health related research conducted at Idaho State University, the DHS's research total 81% of that funding.

<b>Total DHS Research Grants: Past 5 Years</b>	
College of Pharmacy	\$5,239,889.00
Kasiska School of Health Professions	\$31,420,127.00
<b>Total</b>	<b>\$36,660,016.00</b>

Table 6: DHS Research Grants over the past 5 years

Particular importance should be paid to the Kasiska School of Health Professions and the College of Pharmacy for their outstanding and comprehensive research initiatives. The Kasiska School of Health Professions alone has received over 31 million dollars in research grants, see Table 6.

Two pharmacology professors and one pharmacy doctoral student are among a team researching treatment for pancreatic cancer. They are studying a newly synthesized compound that initial studies show is effective against pancreatic cancer cells and is not toxic. They are in the preclinical phase of the research after completing lab testing.

Apart from researching how the drug works at the molecular level, they are also studying the chemical analysis of the drug's properties that would help with the design and formulation of an effective drug in the future.

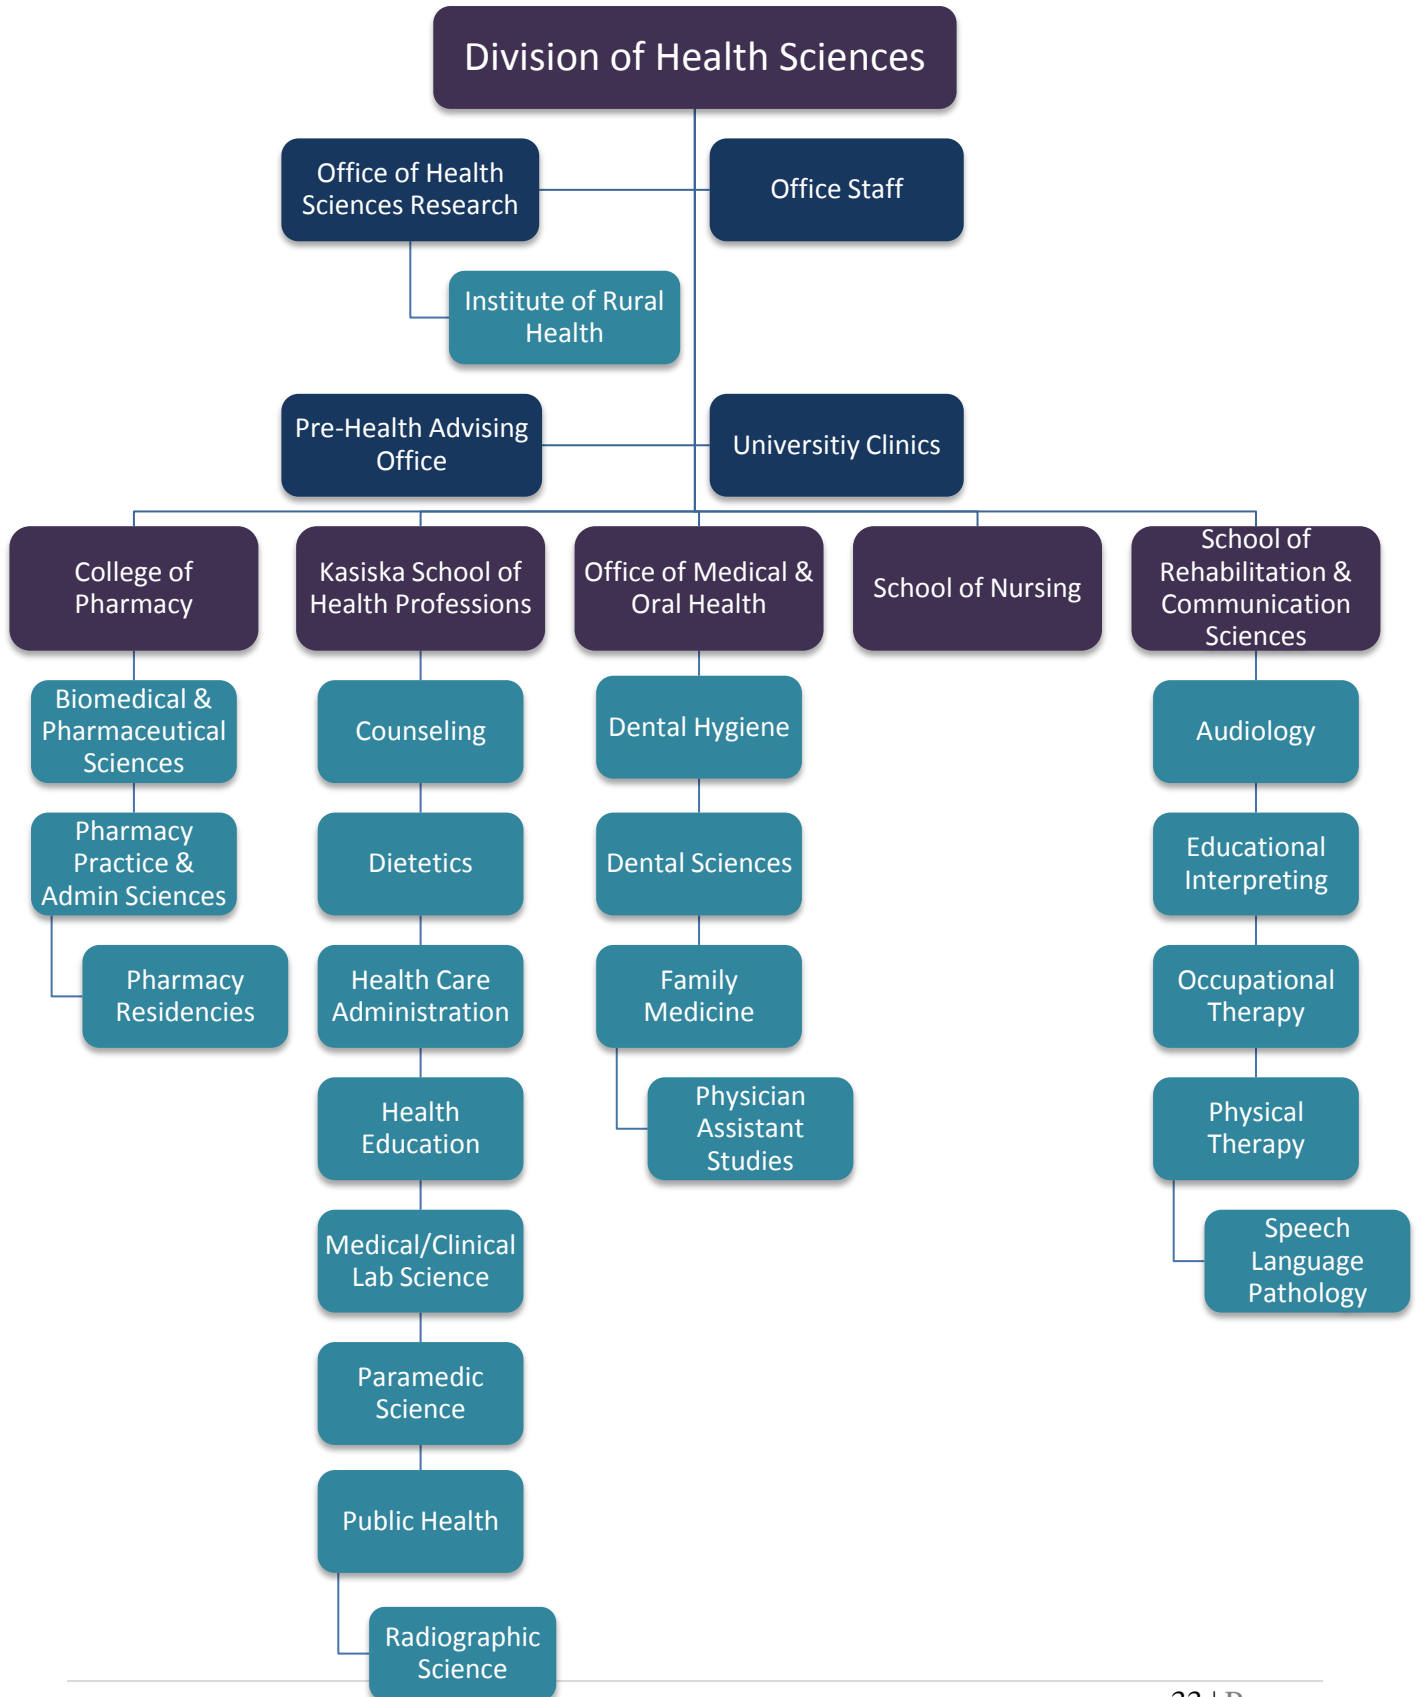

The research endeavors of the College of Pharmacy are of both a basic biomedical and clinical nature. Biomedical projects range from developing improved formulations for transdermal drug delivery, examining epigenetic regulation of gene expression in fetal alcohol syndrome, and studying a non-toxic, chemically modified soy isoflavone for its ability to kill pancreatic cancer cells in culture. The arrival of a new faculty member in early 2012 will usher in research where drugs for cellular receptors will be developed by mapping the atomic architecture of the binding site with X-ray crystallography and designing chemicals that will fit into the binding site in order to turn-on or turn-off cellular and tissue responses. Ongoing clinical research in the College of Pharmacy includes NIH funding to study health care-associated pneumonia, participation in the SAVOR-TIMI clinical trial to assess vascular outcomes in diabetic patients taking saxagliptin, and a grant to promote a cardio-metabolic risk reduction clinic.

## Acknowledgements

This study has been months in the making. We appreciate all those who have contributed in any manner. We especially appreciate Dr. Linda Hatzenbuehler for allowing us to create this study and interact with the wonderful people of the DHS.

## Student Affairs Division Outcomes

2012- 2014

Outcomes	Who Was/ Will be Assessed	Measurement	Date of Last Assessment	Findings	Changes Needed
Students who live on campus have higher GPA's	Students living in residence halls	Institutional Research Report	Fall, 2013	Students have a 2.94 GPA compared to 2.79 for off campus students	Expand opportunities for students to live on campus
Students who live on campus are more likely to be retained	Students living in residence halls	Institutional Research Report	Fall, 2013	Students living on campus have a 79% first year to second year retention rate compared to 62% for first year students who do not live on campus	Expand opportunities for students to live on campus
Students believe that the Student Conduct System is fair	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students ranked the disciplinary procedures in terms of importance a 5.98 and ranked their level of satisfaction a 5.15 so there is only a .83 difference between importance and satisfaction	Continue to publicize the process used for student conduct; Continue to recruit and train conduct board members representative of a diverse constituency
Students who live on campus believe that residence hall staff are concerned about them as an individual	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students ranked the importance of residence hall staff's concern as a 5.26 and their satisfaction a 4.71, a difference of only .55 between importance and satisfaction	Continue to recruit and train a diverse student pool of resident assistants
Counseling services are available to students if needed	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rated the importance of counseling services as a 6.05 and their level of satisfaction a 5.38, or .67 difference between importance and satisfaction	Expand the number of counselors and services to satellite campuses; explore the use of technology for counseling services for students not in Pocatello or IF
Students can easily get involved in student activities	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rated the importance of student activities as a 5.88 and their level of satisfaction a 5.30, a difference of only .58 between importance and	Expand the participation of non-traditional students and those enrolled at satellite campuses
Students have online access to services they need	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rated the importance of online access to services a 6.50 and their level of satisfaction a 5.56, a difference of only .87	Continue to promote on-line access to all campus services, regardless of the student's location
Students perceive that campus staff are caring and helpful.	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rate the importance of caring staff a 6.30 and the satisfaction a 5.25, a difference of 1.05.	Continue to enhance staff orientation and training to focus on customer service.
Students are made to feel welcome	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rated the importance of this item a 6.27 and the satisfaction a 5.40, a difference of .87	Continue to emphasize programs, activities and services that are welcoming to all students from all backgrounds
Students feel that the University is committed to diversity	All ISU students	Noel-Levitz Student Satisfaction Survey	Spring, 2013	Students rated the importance of the University's commitment to diversity a 5.7 and the satisfaction a 5.29, a difference of .41	Continue to work collaboratively with the Affirmative Action/EEO/Diversity office to plan activities that welcome and support all students
Students report that the Counseling staff is helpful	ISU students receiving counseling at the Counseling Center in Pocatello	Counseling Center Users Survey	Fall, 2012	On a scale of 1 to 4, student users rated the helpfulness of the counseling staff a 3.75	Expand opportunities for students to share how the staff could have been more helpful
Students report that the Counseling Center clinical staff exhibit professionalism	ISU students receiving counseling at the Counseling Center in Pocatello	Counseling Center Users Survey	Fall, 2012	On a scale of 1 to 4, student users rated the professionalism of the counseling clinic staff a 3.83	Continue to train newly hired clinical staff on the importance of professionalism
Students report that the Counseling Center staff show respect for and appreciation of diversity	ISU students receiving counseling at the Counseling Center in Pocatello	Counseling Center Users Survey	Fall, 2012	On a scale of 1 to 4, student users rated the Counseling Center's staff's respect for and appreciation of diversity a 4.0.	Continue to discuss the importance of demonstrating respect for and appreciation of diversity
Students report that the Counseling Center staff are easily contacted	ISU students receiving counseling at the Counseling Center in Pocatello	Counseling Center Users Survey	Fall, 2012	On a scale of 1 to 4, student users rated the ease of contacting counseling staff a 3.14 out of 4.0	Examine whether students' perceptions are related to the lack of use of technology (text, email) that students expect versus concerns about lack of privacy and provided by technology
Patients at University Health Services in Pocatello report that they were given a thorough examination	Patients using UHS Services during the Spring, 2014	UHS Users Survey	Spring, 2014	88% of users rated this item a 5.0 out of 5.0	Nothing; Note: In Fall, 2013, 88% of users rated this service a 5.0
Patients at University Health Services in Pocatello report that their diagnosis was explained	Patients using UHS Services during the Spring, 2014	UHS Users Survey	Spring, 2014	92% of users rated this item a 5.0 out of 5.0	Nothing; Note: In Fall, 2013, 92% of users rated this service a 5.0

Patients at University Health Services in Pocatello report that their concerns were address by the practitioner	Patients using UHS Services during the Spring, 2014	UHS Users Survey	Spring, 2014	90% of users rated this item a 5.0 out of 5.0	Nothing; Note: In Fall, 2013, 93% of users rated this service a 5.0
Patients at University Health Services in Pocatello report that they came away with knowledge	Patients using UHS Services during the Spring, 2014	UHS Users Survey	Spring, 2014	92% of users rated this item a 5.0 out of 5.0	Nothing; Note: In Fall, 2013, 92% of users rated this item a 5.0
Patients at University Health Services in Pocatello report that the facilities were clean and inviting	Patients using UHS Services during the Spring, 2014	UHS Users Survey	Spring, 2014	89% of users rated this item a 5.0 out of 5.0	Continue to build reserves to construct a new facility; Note: In Fall, 2013, 92% of users rated this item a 5.0 indicating a decline in the perception of "clean and inviting"
Students know where to go if they need help	All Students	Student Satisfaction Survey	Spring, 2013	Students ranked the importance of knowing where to go for help a 6.37 and the satisfaction a 5.01, a difference of 1.35	Publicize 282-INFO; Require all students to complete orientation in person or on line; use social media to advertise the availability of services across all campuses and the availability of services on line
Students will have a greater understanding of issues related to the use and abuse of alcohol and other drugs	Students Completing EverFI's AlcoholEdu Portal	Pre and Post Test	December, 2014	N/A	
Students will understand their rights and responsibilities and where to go for support and assistance in the event of sexual misconduct	Students Completing EverFI's Haven Portal	Pre and Post Test	December, 2014	N/A	
Information provided during Orientation helps alleviate anxiety about attending ISU	Students Attending Fall Orientaion, 2013	Orientation Survey	September, 2013	81.14% of respondents strongly agreed or agreed; however, response rate to survey was very low and therefore, unreliable	Send the survey to students as soon as Orientation is over in August and offer incentives for students to respond to the survey

The Idaho State University Career Center began tracking graduates in November 2012 to determine details on their status after graduation. Information was gathered through the use of an emailed survey using Qualtrics. The survey was emailed out six months after graduation. This length of time was chosen to best capture the outcomes of ISU graduates. Using a post-graduate method often yields lower response rate, but it was determined that the benefit of obtaining accurate first destination data is more important than extremely high response rates. The response rate of the Spring 2012 First destination Survey was 34.8% with 33% fully completing the survey. 991 Students were sent the survey which included all of ISU graduates except those that attended the College of Technology. The College of Technology was not surveyed since they already complete a thorough review of their graduates. Each respondent was offered an ISU Alumni sticker and a chance to win ISU product (each offered by the ISU Alumni Office).

College	Employed full or part time	Average Salary	Months to Secure Employment	Furthering Education in Next Year
Arts & Letters	79%	\$25,198	1.7	44%
Business	87%	\$41,349	2.0	18%
Health Sciences	87%	\$40,038	1.6	16%
Science & Engineering	72%	\$42,866	1.4	46%
Education	85%	\$35,003	1.3	26%

## THE HIGHLIGHTS

- 82% of respondents are employed
- Of the 18% that are unemployed, 57% are not seeking employment and 55% are planning to continue on with their education
- 86% indicate that their major is helpful in their current position
- 70% indicate that their major is required for their current position
- 59% secured employed within 0-1 months after graduation

## THE SURVEY PROCESS

- The survey only included Spring 2012 graduates. Future surveys will include the entire year
- 34.5% of students provided first-destination data
- Each survey sent out had a personal identifier unique to each student thus eliminating anonymous responses
- Survey opened in November 2012 and closed in December 2012
- Surveys took less than 2 minutes to complete
- 96% of respondents that started the survey completed it
- Degree and Major information was embedded into each response to ensure accurate information

## Academic Affairs Key Outcomes and Recommendations

Program Prioritization Recommendations for Academic Programs

PRELIMINARY RECOMMENDATIONS

PRESENTED TO THE COUNCIL OF DEANS ON APRIL 8, 2014

### LEGEND:

**Yellow Highlighting:** Approvals obtained or none needed; incorporated into current budget cycle for implementation during FY 2015. Catalog Year 2014-2015.

**Phase I:** Approvals needed, but may be in process. Approvals will be sought during FY 2015 for implementation for Catalog Year 2015-2016.

**Phase II:** Approvals needed, often by multiple agencies (including SBOE and NWCCU). Approvals will be sought during FY 2015 or FY 2016 for implementation for Catalog Year 2016-2017.

**Phase III:** Approvals needed, often by multiple agencies (including SBOE and NWCCU). If approved, Academic Affairs will seek implementation during FY 2016 for inclusion in the 2017-2018 Catalog Year.

### Academic Affairs makes the following general recommendations:

Increase recruiting in every college. Develop recruiting plan for each college. Utilize workload to engage faculty in recruiting. **PHASE I**

Audit of reduced tuition employee students (five dollar credit hour) in graduate programs.  
**PHASE I**

Treat the General Education Program as an Academic Affairs program for the purposes of data collection, analysis, and strategic planning. **PHASE I**

Continue to reform Remedial Education in conjunction with the State Board of Education's 60% Goal. Scale up Remedial Pilot Project by Fall 2015. **Currently in Progress; PHASE I.**

Create centralized budget for all non-specialized accreditation activities; audit/analyze budgets and spending for specialized accreditation. **PHASE I**

Centralize the purchasing of specialized software packages within Academic Affairs. **PHASE I**

In anticipation of expansion for Twin Falls, AA recommends that a single UBO for all outreach centers be assigned that would work with one financial tech for Meridian, one for Idaho Falls, and one for Twin Falls. It is the intent that all hiring in the Colleges and outreach centers be supportive and in alignment with the Five-Year Plan. **PHASE III**

Division of Health Sciences: Academic Affairs has eleven specific recommendations that include: two program improvement plans; one elimination; four restructures; two consolidations; and two expansions.

- 1) Support the DHS recommendation that the School of Nursing evaluate the curriculum in its baccalaureate degree program, including the baccalaureate completion portion of their curriculum to make the program more financially competitive with other available programs in the state. The investment and the expansion of this program to Twin Falls and Idaho Falls could generate revenue for the institution. **RESTRUCTURE**
  - a. **PHASE I; FY 2016; Catalog Year 2015-2016; Curriculum Redesign Required; Internal Approvals.**
- 2) Support DHS recommendation that a full redesign of the basic natural and physical sciences associated with the health professional programs occur. **RESTRUCTURE**  
MULTIPLE PROGRAMS IMPACTED IN COLLEGE OF SCIENCE AND ENGINEERING.
  - a. **PHASE II; FY 2017; Catalog Year 2016-2017; Curriculum Redesign Required; Internal Approvals; May require SBOE and NWCCU approvals.**
- 3) Support DHS recommendation that the Health Education and Public Health programs combine into a single department with a single chair to improve the efficiency of the administration of the programs and assure that curricular overlap across the two programs is minimized. **CONSOLIDATION**
  - a. **PHASE I; FY 2016; Catalog Year 2015-2016; Notification of the SBOE required.**
- 4) Support DHS recommendation that Fire Services Administration and Emergency Management move from College of Technology to DHS with the Paramedic Science to be incorporated into an Emergency Services Department. AA further recommends the

programs be monitored for enrollment numbers as the changes take place, and to explore a self-support model for long-term sustainability. **CONSOLIDATION**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Notification of the SBOE required; IN PROCESS.**

b. **COST REDUCTION: DHS is calculating possible savings in administration costs.**

5) Support DHS recommendation that the Dental Hygiene Program move forward with plans to locate in Meridian. Rather than splitting the program of 30 into two 15 cohorts, AA recommends a study for the expansion of a full cohort to Meridian (or, the move of a cohort to Twin Falls). This move will increase ISU's presence in the Treasure Valley and improve our applicant rate. AA further recommends DHS identify ways to generate more revenue to increase faculty, and that DHS explore a self-support model for long-term sustainability. **EXPANSION**

a. **PHASE II; FY 2017; Catalog Year 2016-2017; Approvals from Specialized Accreditor, SBOE, NWCCU.**

b. Evaluate possible self-support model to manage faculty support needed for expansion.

6) AA recommends DHS develop a Program Improvement Plan for the Bachelor of Science in Educational Interpreting. AA supports the DSH plan to develop a medical interpreting component to the program. **RESTRUCTURE/PROGRAM IMPROVEMENT PLAN**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Internal Approvals; SBOE notification may be required for curricular change.**

7) AA supports DHS recommendation that the BS in Educational Interpreting move to the Meridian campus. **RESTRUCTURE**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Specialized Accreditor, SBOE, NWCCU approvals/notification required.**

8) AA recommends additional study and possible closure of the Associate degree in Sign Language Studies. **PROGRAM IMPROVEMENT PLAN/ELIMINATION**

a. **PHASE I; FY 2015 (PROGRAM IMPROVEMENT PLAN); Catalog Year 2015-2016; SBOE, NWCCU approvals and teach-out plan approvals required.**

9) Support DHS recommendation that Medical Laboratory Science Program be expanded to the Idaho Falls/Rexburg area. **EXPANSION**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE, NWCCU notification required.**

Arts and Letters: Academic Affairs has eleven specific recommendations and one overall recommendation to the College that include: ten eliminations, one program improvement plan,

and a review to be conducted of all minors with low-enrollment (e.g., Latino Studies, Folklore) and a program improvement plan developed for each (or elimination/consolidation of the minors).

- 1) Support A&L recommendation to discontinue the Bachelor of University Studies. This will produce savings in advising and faculty time. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**
- 2) Support A&L recommendation to discontinue the Bachelor of Art in French. This will produce savings that can be reallocated to higher demand languages. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**
- 3) Support A&L recommendation to discontinue the Bachelor of Art in German. This will produce savings that can be reallocated to higher demand languages. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**
- 4) Support A&L recommendation to discontinue the Interdisciplinary MA degree offerings in the Humanities and Social Science fields. **AT LEAST THREE ELIMINATIONS**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; approvals under investigation.**
- 5) AA recommends A&L develop a Program Improvement Plan for the School of Performing Arts. This plan should specifically address low retention and graduation rates as well as focus on increased donor activity and potential prospects. **SCHOOL IMPROVEMENT PLAN**
  - a. **PHASE I; FY 2015.**
- 6) AA recommends that A&L consolidate and/or eliminate the Bachelor of Arts or the Bachelor of Science in Political Science rather than maintain both a BA and BS, since the curriculum is identical. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**
- 7) AA recommends that A&L consolidate and/or eliminate the Bachelor of Arts or the Bachelor of Science in Theatre rather than maintain both a BA and BS, since the curriculum is identical. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE and NWCCU approvals required; SBOE and NWCCU teach-out plan approvals required.**

- 8) AA recommends consolidation and elimination of either the Master of Arts in Anthropology or the Master of Science in Anthropology. This will result in a cost savings in faculty committee time. **ELIMINATION**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; NWCCU notification required; SBOE and NWCCU teach-out plan approvals required.**
  
- 9) AA recommends elimination of the Communication and Rhetorical Studies undergraduate degree program as part of the ongoing plan to create the Communication, Media & Persuasion consolidated undergraduate degree within the newly consolidated department. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE and NWCCU approvals required; SBOE and NWCCU teach-out plan approvals required.**
  
- 10) AA recommends the review and program improvement plans for all low-enrolled minors in the College of Arts and Letters (Folklore, Latino Studies). College will evaluate options including curricular consolidation and/or elimination. **PROGRAM IMPROVEMENT/ELIMINATION/CONSOLIDATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**

Science & Engineering: Academic Affairs has twelve specific recommendations to the College that include: five eliminations, two consolidations, three restructures and two expansions.

- 1) AA recommends the CoSE develop a common academic core for first two years of engineering and eliminate the course codes for mechanical, electrical, civil, and nuclear and replace them with ENGR. This would result in cost efficiencies, and greater transparency and transferability for students. **RESTRUCTURE**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; Internal approvals required; Specialized Accreditor approvals may be required.**
  
- 2) AA supports CoSE recommendation to create a B.S. degree in Applied Electrical Engineering, which will be a joint program between the Electrical Engineering Department and the College of Technology. This will provide graduates greater opportunity and increase the economic impact in the region. **EXPANSION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required.**
  
- 3) AA recommends that CoSE evaluate and revise the curriculum of the Engineering and Applied Science doctoral program to better meet the needs of students and the market. Program will be offered in full in Idaho Falls. **RESTRUCTURE/EXPANSION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; Internal approvals required.**
  
- 4) AA supports the CoSE recommendation that a biomedical core transfer to the Meridian campus. This restructure will strengthen and support the Anatomy and Physiology Lab

and expansion of health profession programs in the Treasure Valley. AA further recommends that for all future biology hires that biomedical become the top priority, followed by microbiology. **RESTRUCTURE**

a. **PHASE I; FY 2015; Internal approvals required.**

5) AA recommends that the Master of Natural Science in Biology be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

6) AA recommends that the Master of Natural Science in Physics be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

7) AA recommends that the Master of Natural Science in Geology be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

8) AA recommends that the Master of Natural Science in Chemistry be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

9) AA recommends that CoSE create a consolidated, interdisciplinary Master of Natural Science for use for all CoSE disciplines. Students from eliminated programs may be transitioned to the new program. **CONSOLIDATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

10) AA recommends that CoSE create a consolidated, interdisciplinary Associate of Science degree for use for all CoSE science disciplines, and eliminate the other A.S. degrees in the College. **CONSOLIDATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

- 11) AA recommends that CoSE eliminate the A.S. degree in Geology, and create an interdisciplinary A.S. degree in Science. **ELIMINATION**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

College of Education: Academic Affairs has one general recommendation to the College to evaluate its thirty-six Secondary Education degrees, and seven specific recommendations that include two eliminations, three restructures and the creation of two new programs.

- 1) AA recommends that the College analyze the curriculum and structure of its thirty-six Secondary Education degrees. Efficiencies for Departments, Colleges, and students may result from consolidation or restructuring of these degree options, and through the reexamination of their location in the curriculum. AA recommends that this analysis be conducted in conjunction with the Content Areas, and within the context of national data regarding content, state endorsement requirements, and accreditation requirements. **UP TO 36 CONSOLIDATIONS/RESTRUCTURES/ELIMINATIONS**
  - a. **PHASE III; FY 2016; Catalog Year 2016-2017 OR 2017-2018; SBOE, NWCCU approvals required; additional approvals may be required (including the Idaho State Department of Education).**
- 2) AA recommends that the College enhance its web site and other marketing venues to highlight Alternate Route and Accelerated Program options leading to teacher education certification, and clearly define and catalog the route to certification for current bachelor degree holders, or bachelor-seeking students who are not enrolled in the College of Education. Create an additional curriculum or course structure if needed to support students with existing bachelor degree.
  - a. **PHASE I; FY 2015; Internal Approvals May be Required; SBOE and State Department of Education approvals may be needed.**
- 3) AA recommends the development of a Master of Art in Teaching (MAT) that would meet the needs of the Magic Valley and Wood River Valley markets. **NEW PROGRAM**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; additional approvals may be required.**
- 4) AA recommends the creation of an on-line secondary education teacher certification program. **RESTRUCTURE, NEW PROGRAM**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; additional approvals may be required.**
- 5) AA supports CoE recommendation to eliminate the Master of Education with Child and Family Studies Emphasis. **ELIMINATION**
  - a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

- 6) AA recommends that CoE eliminate *either* the BA or the BS degree in General Family and Consumer Sciences. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; other approvals may also be required.**
  
- 7) AA recommends that CoE restructure and renew the Intermountain Center for Educational Effectiveness and include all regional consultants with collaborative research, outreach and development opportunities for faculty. **RESTRUCTURE**
  - a. **PHASE I; FY 2015; in progress. Salary savings reallocated to other programs within the College of Education.**
  
- 8) AA accepts the CoE recommendation to restructure and revitalize the Instructional Design PhD Program to include interdisciplinary concentration areas. This restructure supports recommendations made by external reviewers. **RESTRUCTURE**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE letter required; cost savings possible.**

College of Business: Academic Affairs has six specific recommendations to the College that include: two restructures, two eliminations, one expansion and the creation of one new program.

- 1) AA recommends that the transfer of the Economics program from the College of A&L to the CoB be completed, that curriculum streamlining be continued, and that CoB develop an enrollment and degree completion improvement plan for Economics. **RESTRUCTURE**
  - a. **PHASE I; FY 2015; Catalog Year 2014-2015; SBOE approval obtained; in process.**
  
- 2) AA recommends CoB pursue the creation of additional business health care programs, including emphases areas and the Healthcare Informatics master's degree. AA further recommends that this unique program be offered in the Magic Valley. **NEW PROGRAM/EXPANSION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval needed; other approvals may be needed.**
  
- 3) AA supports the College of Business recommendation to merge the Department of Management and the Department of Marketing into a single administrative unit, The Department of Management and Marketing. There are only 3.5 FTE in the Department of Marketing and it is not cost effective for the CoB to support a course release and a stipend for a Chair to oversee the remaining 2.5 FTE. **RESTRUCTURE**
  - a. **PHASE I; FY 2015; cost savings include the course release and chair stipend.**

- 4) AA supports the CoB recommendation to eliminate the Double Major in Management and Marketing. This elimination has been proposed and accepted by the CoB's Undergraduate Curriculum Committee as well as the University's Undergraduate Curriculum Council. The introduction of the "Flexible BBA" has negated the necessity for the dual major. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**
  
- 5) AA supports the CoB recommendation that the Native American Business Administration emphasis be reconsidered. The College of Business no longer has a faculty member with this expertise area, and the two Management courses focusing on Native American enterprise have not been offered in some time. **ELIMINATION**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**

College of Technology: Academic Affairs has two general recommendations to the College in accordance with the Idaho State Division of Professional Technical Programs. In addition, Academic Affairs has two specific recommendations including one restructure and one elimination.

- 1) AA acknowledges that the CoT has eliminated more than a dozen programs in the past several years as part of their program review required by the Division of Professional Technical Education and the Idaho State Board of Education. CoT is currently adding new programs as recommended. **ELIMINATIONS/NEW PROGRAMS**
  - a. **PHASE I; approvals obtained during FY 2014; in process for Catalog Year 2014-2015.**
  
- 2) AA recommends that CoT continue to consider elimination of small, under-subscribed programs in accordance with the Division of Professional Technical Education guidelines. **ELIMINATIONS**
  - b. **PHASE II, FY 2016, Catalog Year 2016-2017, PTE and SBOE approvals required.**
  
- 3) AA recommends that the Geomatics Program name be changed to better reflect its focus, and that ties with Civil Engineering be strengthened in terms of both partnerships and curriculum. AA recommends that the Geomatics program in Meridian be eliminated. **RESTRUCTURE/ELIMINATION**
  - c. **PHASE II, FY 2016, Catalog Year 2016-2017, SBOE approval required, SBOE and NWCCU teach-out approvals required. MOU with CWI, BSU or other partnering institution may mitigate teach-out need.**

ISU Meridian Campus: Academic Affairs has three specific recommendations to the Meridian campus that include: two eliminations, and two restructures. Further, AA will conduct a desk audit of classified staff support.

- 1) AA recommends elimination of all non-health related programs in Meridian, and that the B.S. Geomatics Technology and MPE in Athletic Administration (due to competition from BSU) be considered for retraction to the Pocatello campus. **TWO ELIMINATIONS**
  - a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval needed; MOU with Boise State needed.**
- 2) AA recommends that the Meridian Campus establish additional administrative supports for all clinical health professions. **RESTRUCTURE**
  - a. **PHASE III; FY 2017; SBOE and NWCCU notifications may be needed. Space and moving needs also incurred.**
- 3) AA recommends the development of a self-support model for the Institute of Emergency Management Programs. (Paramedic Science & Fire Services Admin and Emergency Management). **RESTRUCTURE**
  - a. **PHASE II; Internal Approvals Needed; SBOE Approvals Needed.**

ISU Idaho Falls Campus: Academic Affairs has four specific recommendations to the Idaho Falls Campus that include: two restructures, one expansion, and the creation of one new program. Line commission recommends creation of polytechnic institution in Idaho Falls (**appendix item**).

- 1) AA recommends the Idaho Falls Campus transition from primarily offering the first two years of lower division undergraduate courses to providing bachelor's and graduate degrees in Engineering, Health Care, Business, Education, and the Liberal Arts. AA further recommends that faculty located at this campus have primary research emphasis in the areas of Engineering, Science, Energy, and Forensics. **RESTRUCTURE**
  - a. **PHASE I, PHASE II, PHASE III**
- 2) AA recommends the Idaho Falls Campus expand the following existing programs: **EXPANSION**
  - a. Health Care, BSN Completion **PHASE I**
  - b. Engineering, Nuclear, Mechanical, Civil, Electrical, and Computer Science in a two- phased approach. **PHASE I**—all existing Bachelor of Art undergraduate and graduate programs to the campus; and **PHASE II**—expand all relevant existing Engineering programs to Idaho Falls.
  - c. Education, Secondary Education certificate. **PHASE I, PHASE II**
  - d. Business, BBA, MBA, and MAcc. **PHASE I**

- e. Liberal Arts basic undergraduate degrees with faculty research emphasis on energy related areas. **PHASE I**
- 3) AA recommends the Idaho Falls Campus establish Forensic Science programs complimentary with INL and their Homeland Security focus. (Revisit the idea NWRCL would be located in Idaho and ISU would be premiere institution in relationship to the crime lab.) Accomplish through joint appointments with INL and restructuring. Work with Office of Research for implementation. **NEW PROGRAMS**
    - a. **PHASE III; FY 2017; Catalog Year 2016-2017; SBOE and NWCCU approvals needed. Space needed.**
- 12) AA recommends the Idaho Falls Campus continue to increase the number of partnership master's degrees with BYU (3+2, 4+1). **RESTRUCTURE/EXPANSION**
    - a. **PHASE I; FY 2015-FY 2016; MOUs in process; Catalog Years 2015-2016, 2016-2017; SBOE approvals needed for MOUs and Programs; other approvals may be needed.**

ISU Twin Falls Campus: Academic Affairs recommends significantly expanding ISU-Twin Falls programs to better meet the needs of ISU's Magic Valley service region. Idaho State University has served the Magic Valley for fifty years. Magic Valley's demographic profile supports this strategy, as the Magic Valley is projected to grow dramatically during the next decade. The 2010 U.S. Federal Census reported that the counties of the Magic Valley had a combined population of 185,790, or nearly 12% of Idaho's population.

- 1) AA recommends that the Twin Falls Campus expand its current Twin Falls offerings (21 programs), and programs in the following areas through partnerships with CSI. **EXPANSION:**
  - a. Selected Health Care Programs
  - b. Education Bachelor and Graduate Degree Programs
  - c. Healthcare Administration and Informatics
  - d. Liberal Arts and Sciences, basic upper-division undergraduate
    - i. **PHASE II; FY 2016; Catalog Year 2016-2017; some additional approvals may be needed.**
- 2) AA recommends that the Twin Falls Campus develop space (a new building) and increase staffing in support of academic programs. **EXPANSION**
  - a. **PHASE II; FY 2015-FY 2016; Catalog Year 2016-2017.**
- 3) AA recommends that the Twin Falls Campus explore expansion of Education and other programs to the CSI/Blaine County Campus in the Wood River Valley, as determined by current study/pilot. **EXPANSION**

- a. PHASE I; FY 2015; currently in process.

The Recommendations from Academic Affairs have been entered into the Key Recommendations and Action Plan spreadsheet. All further changes/updates to Program Prioritization will be reflected in that document.

Action/ Recommendation		Location	Approvals Obtained/ None Needed, Implement FY2015, Catalog Year 2014/2015	Phase One- Approval needed, or in process. Approval sought in FY15, Catalog Year 2015/2016	Phase Two- Approval needed. Approval sought in FY15/16, Catalog Year 2016/2017	Phase Three- Approval needed. Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

**Principles of Program Prioritization**

Program Prioritization is a model in which the institution engages in efforts to rank and prioritize its programs in order to reallocate resources from lower priority programs to higher priority ones. The goal of the Program Prioritization initiative was to manage and allocate our financial resources in ways that will best meet the needs of our students and community. The Program Prioritization model is based upon Dr. Robert Dickeson’s book, *Prioritizing Academic Programs and Services: Reallocating Resources to Achieve Strategic Balance*. Dickeson is a national leader in higher education and has served in administrative posts at three universities and was the past president of the University of Northern Colorado.

The Idaho State Board of Education, with input from several institution presidents and provosts, agreed to a framework for initiating Program Prioritization on each of the Idaho university campuses. The institutions were asked to develop the following:

- Proposed outcomes (i.e. an overall goal of what they hoped to achieve from the program prioritization process).
- Targets for each outcome (e.g. a specific reallocation of resources in support of the outcome).
- In addition, institutions were to develop proposed weighted criteria to be used to evaluate programs.
- Institutions were directed to group programs into quintiles such that those in the top 20% may be eligible for reallocated funds while those in the bottom 20% will require further review, assessment, and an action plan to determine what options will be taken.

**How ISU Program Prioritization Has Achieved the Essence of Zero-Base Budgeting**

The State of Idaho’s Division of Financial Management defines Zero-Base Budgeting (ZBB) as “a budgeting process wherein base budget cost centers are 1) identified, 2) justified, and then 3) prioritized and 4) aligned for the most efficient and effective fulfillment of an agency’s strategic plan and statutory mission” ([http://dfm.idaho.gov/st\\_agency\\_guide/zbb/ZBB\\_Presentation7-12.pdf](http://dfm.idaho.gov/st_agency_guide/zbb/ZBB_Presentation7-12.pdf)). ISU has addressed each of the 4 major goals of the Governor’s ZBB initiative through the process of Program Prioritization as outlined in the steps below.

**1) Identification of Programs**

All departments and units have identified programs (i.e. referred to as “decision units” in ZBB) for review. A program is defined by Dickeson as any activity or collection of activities that consumes resources (dollars, people, time, space, and equipment).

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

**2) Justification of Program Existence**

All departments and units have answered a collection of surveys and questionnaires for each of their programs addressing key factors and criteria weighted according to their relative importance to the University's mission, core themes, and the existence of any federal or state mandates. Fiscal discipline and operational efficiency were emphasized throughout the process. Any programs that were not considered essential to the University's mission were placed in lower quintiles and in some cases, action steps were required that might include program mergers, consolidations, or eliminations.

**3) Prioritization of Programs**

All non-academic departments and units have scored, ranked, and quintiled their programs based upon a methodology designed specifically for non-academic programs.

**4) Alignment For the Most Efficient and Effective Fulfillment of ISU's Strategic Plan and Statutory Mission**

All departments and units have created action plans for all programs in quintile five including quantified savings. On March 14, 2014, Program Prioritization results were presented by each respective vice president to the President. The presentations summarized which programs were identified in quintile five, the action plans for each of these programs, and the identified savings for each vice presidential unit. On April 1 and 2, 2014, the Special Budget Consultation Committee (SBCC) budget hearings were held where each vice president presented his/her fiscal year 2015 proposed budget including the results and savings identified from Program Prioritization. This process will enable ISU to reallocate its resources from lower-performing programs into higher-performing programs that are essential to the University's mission and strategic plan. This is consistent with the goals of ZBB.

**Institution's Program Prioritization Goals and Outcomes**

ISU has established two key objectives that the University is funding as a result of Program Prioritization:

- 1) An ongoing university-wide compensation plan for faculty and staff at an average preferred target level of 1.5% per year in annual ongoing compensation increases, or a minimum target level of 1.5% per year, in annual one-time special merit compensation payments.
- 2) Ongoing student programs for maximizing student success in terms of access, opportunity, and retention, with a focus on additional scholarship funding for this purpose.

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

Additionally, the University intends to align its programs to support its mission, vision, core themes, strategic plan, and mandates, discover process improvements, and achieve operational efficiencies as the result of Program Prioritization.

**Identification of Programs**

According to Dickeson, a program is defined as any activity or collection of activities that consumes resources (dollars, people, time, space, or equipment). Non-academic program directors identified each budget in his or her reporting area and the services, programs, and activities that make up each budget. In some cases, these activities themselves may be subdivided further into additional programs. However, in order to not produce more programs than can be reasonably evaluated in our first pass of this new program prioritization process, areas were encouraged to keep programs broadly defined.

Then, the program directors of each of the functional units that comprise each non-academic vice presidential unit identified the major and significant activities that consume resources as advised by the Methodology for Quintiling Non-Academic Programs document (included as Appendix A).

Each program director also used his/her professional judgment in determining which activities were major and significant to identify programs. The program directors' identification and selection of programs was reviewed and approved at each level of management until receiving final approval by the appropriate vice president and, ultimately, the President.

**Measurement Criteria Used for Analyzing, Reviewing, and Ranking Programs**

For non-academic programs, in an assessment of the experiences of five other higher education institutions, we found that surveys were used to assess key non-academic Program Prioritization factors. The approach of one of these institutions, Seattle Central Community College, was specifically endorsed by Dickeson. The survey approach developed at ISU was uniquely adapted to the needs of ISU and addresses the following six major areas:

- Key Goals and Objectives
- Key Services Provided to Customers
- Key Processes
- Organization Review
- Budgeting and Planning
- Opportunities for Savings or Additional Investments

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

Based on the six major areas above, the following five criteria and their respective weights were developed by the University and used to analyze, review, and rank non-academic programs into quintiles:

1. Cost Effectiveness (budget vs. actual, productivity, performance) **(25% weight)**
2. Importance to the Institution (mission, vision, core themes, strategic plan, mandates) **(20% weight)**
3. Demand (internal, external) **(20% weight)**
4. Quality (input, outcomes, how well delivered, research, student retention) **(20% weight)**
5. Opportunity (collaboration, resource sharing, savings, improvements) **(15% weight)**

In addition, Student Affairs used the following criteria for ranking programs:

- a. Federal, state, local laws or statutes; SBOE Policy; NWCCU Mandates
- b. Services that directly contribute to recruitment, admission, retention, and graduation as measured by the number of students served
- c. Services that provide an essential life function or need, e.g., health, safety, shelter (Maslow's Hierarchy), contiguous to campus and non-mobile students
- d. Services that help students pay for their education
- e. Services that enhance co-curricular learning and engagement beyond the classroom
- f. Services that eliminate barriers to enrollment
- g. Services that provide educational outreach to the greater Southeastern Idaho community
- h. CAS (Council on the Advancement of Standards for Higher Education) standards of best practice for student affairs (<http://www.cas.edu/standards>)

**Hold Harmless Predeterminations**

Regardless of the quintile score computed, if programs are required by federal or state mandates, then that program was held harmless from elimination and could not be ranked in quintile five. However, this did not preclude the program from going through the Program Prioritization analysis, review, and ranking process to attempt to identify opportunities for efficiency, effectiveness, and improving demand

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

and quality. None of the University's programs conducted within the authority of the non-academic vice presidents were excluded from this process.

**Top/Bottom Quintile Common Factors That Led To A Program's Current Placement**

All of the non-academic programs identified by ISU were assigned to one of the five quintiles. Programs were assigned a higher (or top) quintile ranking generally due to the following factors: 1) programs classified as essential to the University's mission, 2) required by either NWCCU, federal, state, SBOE policy, or local mandates, 3) in high demand, 4) cost effective, or 5) non-financial factors (e.g. quality). For example, programs such as payroll processing, building maintenance, and IT security were considered essential to the University's mission and in high demand, and, as a result, were ranked in the top quintile.

Programs were assigned a lower (or bottom) quintile ranking generally due to the following factors: 1) programs considered non-essential to the University's mission, 2) not required by NWCCU, federal, state, or SBOE mandates, 3) in low demand, 4) not cost effective, or 5) responsibilities could be shifted to other programs to eliminate redundant programs, duplication of effort, or to achieve operational efficiencies. For example, the intracampus mail center was ranked in the bottom quintile as its costs exceeded its revenues and, therefore, the decision was made to merge the mail center with the Total Copy Center to achieve operational efficiencies and an immediate cost savings.

**A Narrative of the Program Prioritization Process**

For non-academic programs, the Program Prioritization process was comprised of three major steps: program analysis, program review, and program ranking. This approach was used for the Office of Finance and Administration, University Advancement, Athletics, the Office of Research and Economic Development, and Student Affairs.

**1. Program Analysis**

Each program director answered a series of questions addressing the six major areas and five measurement criteria for non-academic programs (included as Appendix A).

**2. Program Review**

Based on the questionnaires completed by program directors in the previous step, each program director assigned a score to each program based on whether the program exceeds, meets, or does not achieve its measurement criteria. Each of the measurement criteria was weighted according to its relative importance to achieve a total weighted program score.

**3. Program Ranking**

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

Each program director used the weighted score(s) from the Program Review as a guide to rank and assign each of the programs to a quintile. The program directors' program rankings were reviewed and approved at each level of management until receiving final approval by the appropriate vice president. Results for each vice presidential unit were reported to the President in the format shown in Appendix E.

**Action Plans for Programs in Quintile Five and Integration With the Budget Process**

For each program identified in quintile five, the responsible vice presidential unit(s) created action plans including strategies to consolidate or eliminate programs and the quantified cost savings identified for each action. On March 14, 2014, Program Prioritization materials summarized by vice presidential unit were presented in written form and through oral presentations by each of the university vice presidents to the President.

On April 1 and 2, 2014, the Special Budget Consultation Committee (SBCC) budget hearings were held where each vice president presented his/her fiscal year 2015 proposed program-prioritized budget including the results and savings identified from his/her Program Prioritization review.

**Key Outcomes and Recommendations**

ISU identified 16 non-academic programs for potential program prioritization actions. If fully implemented, these actions may result in cumulative savings of over \$760,000 for the University during the three fiscal years from 2015 through 2017.

**Immediate Steps Taken**

Idaho State University has successfully completed its Program Prioritization campus-wide review. Actions are already underway to implement the action plans identified by Program Prioritization for identifying and reallocating savings. University vice presidents, in consultation with their teams, are preparing plans to implement the action plans and recommendations identified by Program Prioritization in their respective areas of responsibility.

To date, *Finance and Administration* has identified over \$360,000 of potential cost savings expected to be sustainable for the foreseeable future. The Assistant Director of Financial Aid position in Idaho Falls has been eliminated and the person in that position has retired. The Idaho Falls reporting structure has been revised in that the financial aid staff reports directly to the Director of Student Services, and professional coverage is being provided by a staff member from Pocatello once per week. In Information Technology, personnel position eliminations in three vacant ERP training positions have been completed. Electronic Repair and Services' telecommunications responsibilities have been shifted to NeTel and Electronic Repair and Services has been merged with the Total Copy Center.

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

The intracampus mail service and Total Copy Center responsibilities have been merged and are now under one manager.

As a result of Program Prioritization, *Student Affairs* is now more closely monitoring attendance at University sponsored community events for the public to determine the need and interest for these events. *Student Affairs* also has established revenue-generating goals for its quintile five programs.

**Planned Future Actions**

In *Finance and Administration*, legacy software systems (particularly HP1) will be phased out by December 2014, which is expected to result in cumulative savings for the University during the three fiscal years from 2015 through 2017.

**Steps Co-Dependent On the Actions of Others or Contingent Upon Further Analysis and Review**

In *Finance and Administration*, the Campus Cable infrastructure in IT is no longer being actively supported, which should result in annual maintenance cost savings. When the equipment is no longer operational, it is not expected to be replaced. A proposal was made in March to close down the Twin Falls video classrooms and computer lab that were expected to yield savings from materials and supplies. However, that proposal was not implemented because it was determined that Twin Falls is an essential market for the University's plans to increase student enrollment and plans are currently underway to expand our educational offerings in that location. In addition, IT may also discontinue its security awareness program, resulting in materials and supplies savings, but the decision was made to postpone this reduction at this time and will be further analyzed and reviewed.

At present, Purchasing Services and Facilities Services both employ a storekeeper. It was proposed in March to consider moving all University Stores operations to Facilities Services, resulting in savings through the reduction of one storekeeper position. This proposed action is contingent upon further analysis and review.

In March, a proposal was made to eliminate the energy and sustainability program in Facilities Services resulting in a potential materials and supplies savings. This proposed action is contingent upon further analysis and review.

The Diversity Resource Center is expected to be merged into the Gender Resource Center increasing operational efficiencies and resulting in savings in materials and supplies when the merger is fully implemented.

*Student Affairs* has indicated some of its quintile five programs (Bengal Newspaper, KISU-FM, the Bengal Dancers, and Summer Activities) were targeted for further analysis and review. Consultation with and

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

input from newly elected ASISU student leaders is necessary before identifying the next steps in the review process.

**Process Improvements Identified**

In *Finance and Administration*, the actions implemented in Financial Aid will provide a clearer reporting structure and better management oversight of the federal Quality Assurance process, consolidation of the outreach efforts to local high schools, and bring the processing of consortium agreements fully into the Pocatello office. In addition, a formal plan is being developed in Information Technology for transitioning away from computer labs.

**Lessons Learned**

At a university-wide level, Program Prioritization can help ISU to manage and allocate its financial resources in ways that will best meet the needs of our students and community. It can provide data for better program planning and funding allocation decisions, integrate planning efforts, and reallocate resources from lower to higher priorities, thereby making institutional and State of Idaho missions operational. This process can create an environment of accountability at the departmental level, encouraging department heads to deliver process improvement and cost savings ideas from the bottom-up. It emphasizes the importance of using a range of metrics in measuring program performance and can support our efforts to commit funds to projects and programs with the highest potential return on investable dollars. Further, it reinforces the concept of fiscal discipline across the institution and the understanding that funding for additional resource requests will need to come from a reallocation of existing resources.

The University will continue to refine its institutional expectations for Program Prioritization in the years ahead. Program Prioritization provides a means for a greater infusion of performance metrics into institutional budgeting decisions. In general, there seems to be a cultural resistance to eliminating programs that, while interesting or useful, do not contribute to overall organizational success. Program Prioritization also provides a means to allow the institution to make its programs self-supporting and to adjust funding levels as necessary as demand increases or decreases for the programs. It was further noted that some units looked at Program Prioritization as a cost cutting exercise, while others viewed it strictly as a review to reallocate current programs without cost cutting. A thorough, well thought out, and consistent approach throughout the University with clear language and goals will be essential to ensure a high quality review on an annual basis.

In summary, the Program Prioritization exercise provides a constructive and consistent way to assess the effectiveness and efficiency of programs across department and division boundaries. A continued use of Program Prioritization will enforce the need to continually assess the quality and necessity of University programs for the benefit of the State of Idaho and its citizens.

**APPENDIX A – METHODOLOGY FOR QUINTILING NON-ACADEMIC PROGRAMS**

**Methodology for Quintiling Non-Academic Programs**

The first step towards non-academic program prioritization by way of the attached questionnaire will be to have each non-academic area identify its respective programs to be reviewed. Once the programs for evaluation are identified and reviewed, the following criteria and weights will be used to rank non-academic programs into quintiles:

- 25% - Cost-Effectiveness (*budget vs. actual, productivity, performance*)
- 20% - Importance to the institution (*mission, vision, strategic plan, core themes, mandates*)
- 20% - Demand (*internal, external*)
- 20% - Quality (*input, outcomes, how well delivered*)
- 15% - Opportunity (*collaboration, resource sharing, savings, improvements*)

Each program will be scored from 1 to 5 for each of the above criteria according to the following scale:

1. Does not meet criteria
2. Slightly meets criteria
3. Meets criteria
4. Slightly exceeds criteria
5. Exceeds criteria

The score (1-5) for each criteria will be converted to a weighted score according to the importance of the criteria. Under this methodology, the maximum score a program could receive is 5 and the lowest is 1. For instance, a program receiving a 5 (exceeds criteria) for each of the five criteria at their respective weights, would receive a total weighted score of 5 because the weights total 100% (100% x 5 = 5). Or, a program receiving a 1 (does not meet criteria) for each of the five criteria at their respective weights, would receive a total weighted score of 1 (100% x 1 = 1). To better illustrate this scoring methodology, following is an example of how an intermediate non-academic program could be scored:

Criteria	Weight	Score	Weighted Score
Cost-Effectiveness	0.25	1	0.25
Institutional Importance	0.20	4	0.80
Demand	0.20	4	0.80
Quality	0.20	2	0.40
Opportunity	0.15	3	0.45
<b>Total Weighted Score</b>			<b>2.70</b>

Idaho State University  
Program Prioritization Report – Non-Academic Programs  
July 14, 2014

Each program will sum to a total weighted score that will enable categorization into quintiles with the following rankings:

1. Programs needing enrichment.
2. Programs needing a higher level of continued support.
3. Programs needing a neutral or similar level of continued support.
4. Programs needing a lower level of continued support.
5. Programs requiring further review, assessment, and action plan to determine what options will be taken.

The following scores will determine which quintiles the program will fall into:

Score	Quintile
4.21 – 5.00	1. Programs needing enrichment
3.41 – 4.20	2. Programs needing a higher level of continued support
2.61 – 3.40	3. Programs needing a neutral or similar level of continued support
1.81 – 2.60	4. Programs needing a lower level of continued support
1.00 – 1.80	5. Programs requiring further review, assessment, and action plan to determine what options will be taken

In the previous example illustrating how an intermediate program could be scored, the example program received a weighted score of 2.70. This score places the program in quintile three, a program needing a neutral or similar level of continued support.

**APPENDIX B – ADMINISTRATIVE (NON-ACADEMIC) PROGRAM REVIEW**

**Idaho State University  
 Administrative (Non-Academic) Program Review  
 for University Program Prioritization<sup>1</sup>**

Program Name:

Administrator:  Department/Unit:

***Program Definition: any activity or collection of activities that consumes resources  
 (i.e. dollars, people, time, space, equipment)***

For your responsible area, please identify the major, significant activities that consume resources and complete this questionnaire for each of these programs. For example, in the Controller’s Office there is the general accounting department that has major, significant activities such as accounts payable, collections, financial reporting, travel, and cash management that will qualify as separate programs within the single area of general accounting. In some cases, these activities themselves may be subdivided further into additional programs. The major, significant activities are the programs that will be reviewed through program prioritization by use of this questionnaire. Identify your programs to be reviewed as those that are major activities consuming significant resources. Please keep in mind that on our first pass with this new program prioritization process, areas are encouraged to keep programs broadly defined, so as not to produce more programs that can be reasonably evaluated.

**1. Key Goals and Objectives:**

**- Organizational structure and performance**

1.a. Is this program mandated federally?

Yes	No	Provide Details

1.b. Is this program mandated by the state?

Yes	No	Provide Details

1.c. Is this program required because of obligations other than federal or state?

If the program is required by previously signed contracts or agreements, identify the party or parties involved in the agreement, the date and history of the agreement, and the date of expiration of the agreement.

Yes	No	Provide Details

1.d. Is this program essential to the operation of the university?

Yes	No	Provide Details

ISU Mission Statement

*The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.*

Core Themes

*Learning and Discovery, Access and Opportunity, Leadership in the Health Sciences, and Community Engagement and Impact.*

1.e. How does this program support the mission, vision, strategic plan, core themes, and institutional objectives of the university?

Provide Details

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

1.f. How is the program’s performance reviewed? By whom? How often?

Methods of Reviewing Performance	Person/Group Reviewing Method	How Often is Success Reviewed

<b>2. Key Services Provided to Customers (Internal/External)</b>
--

2.a. Please provide a brief description of each service/function your program provides, its primary customers, and the nature of demand.

Description of Service/Function	Primary Customers	Demand: 1. # of people served/unit time (e.g. 10/day) 2. Increasing/Stable/Decreasing	
		Internal	External
<i>Example: i.e. Planning</i>	<i>List the primary customers of the service</i>	<i>Insert the number of people this function services per unit of time (day, week or month) and if that number is increasing, stable, or decreasing for internal users</i>	<i>Insert the number of people this function services per unit of time (day, week or month) and if that number is increasing, stable, or decreasing for external users</i>

 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

2.b. How many positions were assigned to the program over the last two years?

Position Type	2011 – 2012 (FY12)				2012 – 2013 (FY13)			
	Headcount			FTE	Headcount			FTE
	FT	PT	Total		FT	PT	Total	
Professional								
Classified								
Student								
Exempt								
Other								
<b>Total</b>								

2.c. How does the size and scope compare with similar/same programs at peer institutions?

Provide Details

2.d. Are there any current or proposed state, regional, or local mandates, or new policies or laws that may impact external demand for the program’s services?

Yes	No	Provide Details (describe the expected impacts)

2.e. Are there any current or proposed state or regional mandates or new policies that may impact internal demand for the program’s services?

Yes	No	Provide Details (describe the expected impacts)

**3. Key Processes or Implementation Elements:**

- Review to reduce bureaucracy and/or streamline operations

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

3.a. What are the key processes or implementation elements for this program? How many personnel are assigned to the key processes or implementation elements? Can any of these key processes or implementation elements be streamlined or eliminated?

1. Key Implementation Element Identified		Personnel Assigned to Key Element
Can This Element Be Streamlined or Eliminated?		
Yes	No	Explain how this implementation element can be streamlined or eliminated, or why this implementation element cannot be streamlined or eliminated.

2. Key Implementation Element Identified		Personnel Assigned to Key Element
Can This Element Be Streamlined or Eliminated?		
Yes	No	Explain how this implementation element can be streamlined or eliminated, or why this implementation element cannot be streamlined or eliminated.

3. Key Implementation Element Identified		Personnel Assigned to Key Element
Can This Element Be Streamlined or Eliminated?		
Yes	No	Explain how this implementation element can be streamlined or eliminated, or why this implementation element cannot be streamlined or eliminated.

4. Key Implementation Element Identified		Personnel Assigned to Key Element
Can This Element Be Streamlined or Eliminated?		
Yes	No	Explain how this implementation element can be streamlined or eliminated, or why this implementation element cannot be streamlined or eliminated.

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

5. Key Implementation Element Identified		Personnel Assigned to Key Element
<b>Can This Element Be Streamlined or Eliminated?</b>		
Yes	No	Explain how this implementation element can be streamlined or eliminated, or why this implementation element cannot be streamlined or eliminated.

3.b. Does the program have unmet equipment/software needs?

Yes	No

If yes, complete the chart below.

Description of What is Needed	Role of the Needed Item in Fulfilling Program Mission	Approximate Cost
<i>Describe equipment/software needs</i>	<i>How will the equipment/software enable your office to work effectively and efficiently</i>	<i>Estimate the cost</i>

3.c. What technologies are available to the program? Are there technological improvements that could be made to save on labor, or to improve the product/service offered? How does the program get technological support?

Technologies Available	Improvements Could Be Made For Savings	Savings Expected on Labor/Products/Service Currently Offered	Technological Support Currently Receiving

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

**4. Organization Review**

- Detailed organization chart for program area

- Position analysis
- Span of control

4.a. Display, or attach, the program organization chart with the number of positions in each program area. Name the key positions identified in span of control.

4.b. Designate the key positions in each program area. Which individuals are cross-trained and in what areas?

Position/Title	Cross-Trained Yes / No	If Yes, List Areas

4.c. Are there other campus programs providing similar services? If yes, how are this program's services different than those of other programs?

Yes	No	Provide Details

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

4.d. Are there any external or outsourced programs/services providing similar services? If yes, how do this program’s services differ from theirs?

Yes	No	Name of External Services	Provide Details

4.e. Does this program have any external collaborations? If yes, how do these external collaborations benefit the university? Examples include, but are not limited to, cooperative agreements, articulation agreements, outreach efforts, corporate partnerships, economic relationships, etc.

Yes	No	Provide Details

**5. Budgeting/Planning**

- Organization structure and performance metrics comparisons to:

- Similar institutions

5.a. Does the program have any operations that generate revenue?

Yes	No

If yes, provide a list of financial resources generated by the program.

Revenue Source	Amount \$
<i>List the source of any revenue collected, i.e. sales, consultancy, etc.</i>	<i>List the amount per program/year</i>

5.b. What were the budgeted costs of the program, actual expenditures, and difference between the two for fiscal year 2012?

Idaho State University  
 Program Prioritization Report – Non-Academic Programs  
 July 14, 2014

Program Expenditures	Budget	Expenditures	Difference
Salaries			
Benefits			
Services			
Supplies			
Travel			
Equipment			
Professional Development			
Other			
<b>TOTAL</b>			

5.c. What metrics are used to evaluate the program’s performance? How does this program’s performance metric compare to those from peer institutions, national standards, and industry benchmarks? *Click on [Peer Institutions](#) to see a list of Institutional Research identified peers.*

Name/Description of Performance Metric	Program Metric Value <small>“N/A” if not applicable or metric does not exist</small>	Peer Institution Metric Value <small>“N/A” if not applicable or metric does not exist</small>	Industry Benchmark Metric Value <small>“N/A” if not applicable or metric does not exist</small>

**6. Opportunities for Savings or Additional Investments**

6.a. Have you identified any opportunities for savings or additional investments? If yes, please describe.

Yes	No	Provide Details

**APPENDIX D – KEY MILESTONES AND DATES DURING THE PROCESS – NON-ACADEMIC PROGRAMS**

1/10/2014 – Program directors forwarded Program Prioritization documents to unit heads and directors

1/27/2014 – Unit heads and directors reviewed and approved the Program Prioritization documents

2/14/2014 – Recommendations for prioritization and reallocation were forwarded to vice presidents

3/3/2014 – Vice presidents reviewed and finalized recommendations for prioritization and reallocation

3/12/2014 – Vice presidents' Program Prioritization results were due to the President (written reports)

3/14/2014 – Vice presidents presented Program Prioritization results to the President (oral presentations)

3/27/2014 – Vice presidents' proposed budgets (reflecting the assigned budget targets) and SBCC budget presentations were due to ISU's Budget Office

4/1-2/2014 – Fiscal year 2015 budget presentations were made to the Special Budget Consultation Committee (SBCC)

4/7/2014 – SBCC finalized ISU's fiscal year 2015 program-prioritized budget and forwarded its recommendations to the President

4/30/2014 – ISU completed its final draft of the fiscal year 2015 program-prioritized budget for Idaho State Board of Education (SBOE) approval

Goal 5: Stewardship of Institutional Resources							
<b>Institutional reserves comparable to best practice (PM 5.1)</b>	The institution maintains or exceeds reserves of 5% of total budget - (formula: Unrestricted Net Asset Balance "Reserves"/Operating Expenses)	PM 5.1.1	3.7%	5.9%	7.3%	11.7%	Maintain a minimum target reserve of 5% of total budget.
<b>Institution continually assesses and periodically reviews its utilization of resources. (PM 5.2)</b>	# of academic, non-academic and co-curricular program reviews conducted each year.	CT 1.2.4, PM 5.2.1	4 academic	2 academic	13 academic	6 academic	All to be reviewed at least every 5 years. Non-academic/co-curricular program reviews begin in FY 2014 with the Program Prioritization Project.

# Appendix A

## Idaho State University - Pass rates for required licensing & certification exams

\*Notes: This is not an exhaustive list of pass rates. Rates for Nursing, Pharmacy, Physician Assistant programs etc. are provided as examples; pass rates for graduates of all academic health professions programs consistently meet or exceed the national pass rates.

Description	FY 2009	FY2010	FY2011	FY2012	FY2013
Nursing (RN) –ISU pass rate	97%	91%	89%	96%	92%
Nursing (RN) –National pass rate	87%	88%	87%	88%	90%
Nursing (FNP AANPCP Certification) - ISU pass rate			96%	97%	95%
Nursing (FNP AANPCP Certification) - National pass rate			89%	87%	88%
Nursing (ACNS ANCC Certification - ISU pass rate			100%	100%	100%
Nursing (ACNS ANCC Certification) - National pass rate			76%	71%	TBA
Pharmacy – ISU pass rate	98%	100%	98%	100%	97%
Pharmacy – National pass rate	97%	95%	97%	98%	97%
Physician Assistant – ISU pass rate	79%	96%	96%	97%	97%
Physician Assistant – National pass rate	89%	92%	94%	91%	93%
PRAXIS-II Subject Area Tests required for Teacher Certification - All Program Completer for ISU	100%	100%	100%	99%	100%
Occupational Therapy NBCOT - ISU first-time test takers (2010-2012)				94%	100%

# Appendix B

## Idaho State University - Placement rates for selected programs

\*Notes: This is not an exhaustive list of placement rates. ISU intends to utilize the State Longitudinal Database System (SLDS) as soon as Idaho Department of Labor data is available to assist with placement rates.

Description	FY 2009	FY2010	FY2011	FY2012	FY2013
College of Technology - All Professional Technical Education	77.75%	83.33%	85.68%	87.20%	87.60%
Teacher Preparation Program (based on self-reported survey of graduates of all teacher preparation programs (2013 response rate: 63%))				94%	70%
Radiographic Science ( self-reported on a survey)	100%	100%	100%	100%	100%
Occupational Therapy ( self-reported on a survey)				100%	100%
Pharmacy (self-reported on survey)	100%	100%	100%	100%	100%

# Appendix C

## Idaho State University –

### Performance Measure 2.2.1 - Average Time to Complete Degree in Years

\*Notes: This methodology counts the number of years between the year a student first enters the university and the year the student is awarded a degree. The methodology is impacted by “stop-outs” between when the student first enters the university and when the student receives their degree.

<b>Degree Type</b>	<b>FY11</b>	<b>FY12</b>	<b>FY13</b>
<b>Technical Certificate</b>	4.69	4.56	3.90
<b>Associate's</b>	6.9	7.66	5.95
<b>Bachelor's</b>	8.27	8.02	8.09
<b>Master's</b>	5.92	6.42	5.91
<b>Doctorate</b>	6.48	7.11	6.58

## Appendix D

### Idaho State University – Retention Rates from Freshmen to Sophomore and Sophomore to Junior (fall-to-fall retention)

\*Notes: The methodology used is all full-time and part-time degree-seeking freshmen and the number that re-enroll the next fall term. All full-time and part-time degree-seeking sophomores enrolled and the number that re-enroll the next fall term. The student classification (freshmen, sophomore, junior, and senior) is not considered on re-enrollment the next fall term, only if the student returned in the fall. Students that are awarded a degree between the fall-to-fall time period are counted as retained.

Class level	FY11	FY12	FY13
<b>Freshman to Sophomore</b>			
<b>Full-time</b>	61.2%	62.2%	67.2%
<b>Part-time</b>	48.3%	44.6%	46.8%
<b>Total</b>	%	%	%
<b>Sophomore to Junior</b>			
<b>Full-time</b>	76.6%	77.2%	77.6%
<b>Part-time</b>	57.7%	60.0%	58.6%
<b>Total</b>	%	%	%

# Appendix E

## Idaho State University – Conservation and Energy Reducing Projects

\*Notes: This is not an exhaustive list of conservation and energy reducing projects. The university has completed other projects like window replacements and HVAC upgrades/repair/replacement that makes ISU more energy efficient.

### 1. 2008-9: Purchased 5 electric vehicles for the grounds operations.

- Replaced fuel consumption of 5 gasoline powered pick-up trucks with electricity.
- Improved air quality surrounding academic buildings.
- Reduced noise pollution around surrounding residential and academic buildings.
- Saves on average 15.95 gal/day of gasoline.

### 2. 2010: Stopped burning coal at the heat plant.

- Eliminated transportation of 3000 tons of coal to the heat plant.
- Reduced emissions of sulfur dioxide, carbon monoxide, nitrogen oxide and many other volatile organic compounds (VOC) in to the environment by switching to natural gas.
- The heat plant runs more efficient on cleaner burning natural gas.
- Deleting the use of coal as a heating fuel has eliminated a problem of fugitive dust in the facility.

### 3. 2011: Bio-diesel production and increased recycling sustainability.

- Bio-diesel production begins with the idea to make recycling more sustainable by operating the recycling pick up vehicle on a clean renewable fuel.
- Processing waste cooking oil, produced by campus kitchens, into bio-diesel reduces emissions as compared to burning petroleum fuel.
- Bio-diesel is one of the EPA's preferred clean burning fuels, and is also a carbon neutral energy source.
- Facilities in partnership with the college of Technology's, Energy Systems Technology & Education Center (ESTEC) operate the production process together.
- Besides providing a clean source of power, the bio-diesel program is a marketing tool for attracting and retaining students. The processing unit is located in an enclosed mobile trailer that can be transported to high schools for demonstrating the science and opportunities at ISU.

## Appendix E (continued)

- Currently 5 to 10 gallons of waste cooking oil per week are collected from one kitchen, and processed into bio-diesel during the school sessions. The potential to collect oil from the other three kitchens are in the future plans.
  - To date bi-diesel production has saved the purchase of approximately 160 gallons of petroleum fuel.
4. **2011-12:** The greater part of recycling is operated by the custodial department.
- Recycling reports 208 tons of recyclable material recovered around campus to date.
  - Custodial is phasing in waterless urinals that use only one gallon of water every 3 months.
5. **2011-12:** Maintenance and operations.
- The maintenance department reports installation of 17 new water fountains that have the ability to re fill reusable water bottles.
  - Has reduced the plastic waste steam comparable to 48,871 plastic water bottles.
6. **2011-12:** Energy Efficient Lighting Projects.
- Eight projects totaling 338,039 KWH in energy use reduction.
  - Reduction in utility billing totaling \$19,872.00 annually.
7. **2013-14:** Energy Efficient Lighting Projects.
- Quad Lighting project phase II, will reduce electrical energy by an additional 30,590 KWH.
  - Custodial is piloting high-efficiency hand dryers which will eliminate the need for paper towels in restrooms.
  - LED retro-fit kits for standard florescent lighting are being installed and tested for suitability.
7. **2014-15:** Future energy sustainability projects.
- 100,000 watts of energy savings for changing wall packs and flood lights on exterior of buildings to LED lighting.
  - 27,000 watts of energy savings for changing emergency exit signs to LED lighting.
  - LED retrofit projects will save electricity at approximately 4 amps @ 120V per 4-tube fixture. Retro-fit work will continue as a stock of fixtures remains.
  -

# Appendix F

## Idaho State University – Examples of year end research presentations

### 2014

- Muai, J., Johns, R., Oliphant, C., & Sonnenberg, E. College of Pharmacy Top 10 drugs detected in post-mortem toxicology screens in Ada County, Idaho during 2011-2012
- Ogiela, D.A., Maynard, K., & Montzka, J.L. Communication Sciences and Disorders. Children's performance on two standardized tests of language ability: A Clinical Evaluation of Language Fundamentals-4 and the test of narrative language
- Keane Shuler, Radiographic Science, Necrotizing Fasciitis of the Left Buttock & Pelvic Area Caused by an Infected Pimple: A Case Report
- Jenny Brooks, Dietetics, Weight Bias in Health Professions Students at ISU
- Hachey, D., Holmes, J.T., Halversen, Z., Fenstermaker, J., Hyatt, B., & Krawtz, K. Department of Family Medicine Interventions to improve hepatitis C screening among Baby Boomers in a family medicine residency clinic
- Ramsdell-Hudock, H.L., & Killeen, R. Communication Sciences and Disorders Prelinguistic vocalizations in an infant sibling and typically developing peer: From the perspective of caregivers and naturalistic listeners

## Appendix G

### Idaho State University – Examples of outstanding research and innovation

**2014**

#### **Outstanding Researchers Named**

The faculty that will receive ISU Outstanding Researcher awards are: Jennifer Attebery, professor of English; Rex W. Force; associate dean for clinical research in the Division of Health Sciences; Alan Hunt, associate professor of physics; Erika Kuhlman, professor of history; and Kathleen Lohse, associate professor of ecology.

**Jennifer Eastman Attebery** is professor of English and chair of the Department of English and Philosophy. Attebery's research focuses on vernacular culture of the Rocky Mountain West in the 19th and early 20th centuries, with an emphasis on Swedish Americans and other ethnic groups. Her main contributions to these fields have been expanded understanding of the multicultural West and new attention to the multimodality of vernacular expression in the immigrant letter and in holiday practices.

During spring 2011 Attebery was the Fulbright Distinguished Chair in American Studies at Uppsala University. Her research project during her stay in Uppsala yielded her most recent book, "Pole Raising and Speech Making: Modalities of Swedish-American Summer Celebration," which will be published by Utah State University Press in 2015. Attebery is also the author of "Up in the Rocky Mountains: Writing the Swedish Immigrant Experience," published by University of Minnesota Press in 2007, reviewed in the Journal of Folklore Research as "a significant contribution to folklore and history." Her other books and articles have been published by the University of Idaho Press and the scholarly journals Scandinavian Studies, American Studies in Scandinavia, Swedish-American Historical Quarterly, Journal of the Folklore Institute, and Pioneer America. Attebery has delivered numerous invited lectures in national and international venues.

**Rex W. Force**, Pharm.D., is associate dean for clinical research in the Division of Health Sciences at ISU. He also holds appointments as professor of Pharmacy Practice and Family Medicine and director of research in the Department of Family Medicine.

Force earned his bachelor's degree in pharmacy from Oregon State University and his Pharm.D. degree from the University of Texas, after which he completed a clinical research fellowship at Ohio State University. He also holds the appointment of affiliate professor of Family Medicine at the University of Washington. Force is a board-certified pharmacotherapy specialist and a fellow in the American College of Clinical Pharmacy.

## Appendix G (continued)

He is a member of the Steering Committee of the WWAMI Practice-based Research Network with the Institute of Translation Health Sciences at the University of Washington. In addition, Dr. Force recently finished his term as the Chair of the Community Advisory Panel of the American College of Clinical Pharmacy's Practice-based Research Network. He has authored more than 50 professional and research publications; presented more than 100 research papers or abstracts; and speaks regularly at professional meetings. With a focus on primary care pharmacotherapy, medication safety, and rural health service delivery, Force and his collaborators have received grants and contracts in worth more than \$5 million while at ISU. Force has been on the faculty at Idaho State University since 1993.

**Alan W. Hunt** received his Ph.D. in physics from Harvard University in 2000. In 2002, he joined Idaho State University's Idaho Accelerator Center as a research assistant professor. He was appointed deputy director of the Idaho Accelerator Center in 2006 and received tenure and promotion to research associate professor in 2007. In 2013, Dr. Hunt stepped down as deputy director of the Idaho Accelerator Center and is currently a research associate professor of physics within the physics department.

During his nearly 12 years at Idaho State University, his research projects have spanned from liquid semiconductors for novel power generation applications to electron/ion induced spaceship charging. However, his most prolific research area has been investigating and developing techniques for detecting, identifying and quantifying fissionable/fissile materials for security, nonproliferation and nuclear forensics applications.

The common theme in all of his research endeavors has consistently been and continues to be the interaction of ionizing radiation with matter and how to exploit the associated phenomenon for applications. These research programs have resulted in seven students receiving master's degrees, five students receiving Ph.D. degrees, 40 publications, four patents and more than \$20 million in research funding as principal investigator or co-principal investigator.

**Erika Kuhlman** is professor of history, director of Women Studies, and editor of the journal *Peace and Change: A Journal of Peace Research*.

She researches and writes about the reciprocal relationship between war and pacifism; about what compels people to fight or to refuse to fight; and about the relationship between individuals and the nation that sends them to war. Her study of the women's peace movement during the First World War was followed by a history of women's involvement in postwar reconciliation between nations. Her 2012 book, "Of Little Comfort: War Widows, Fallen Soldiers, and the Remaking of the Nation after the Great War" traces the lives of German and U.S. women who lost their husbands to battle.

## Appendix G (continued)

She was invited to give her lecture “Transnational Cultures of Mourning” at Duke University-University of North Carolina-Chapel Hill’s Gender, War, and Culture series in September 2013. She is contributing a chapter in Oxford University Press’s forthcoming anthology titled Gender, War, and the Western World since 1650.

Since 2012 she has studied soldiers who survived the war well enough to leave the country for which they had fought, Germany, to seek a fresh existence in the United States. Her chapter about a German writer who deserted his unit and stowed away on a ship bound for Philadelphia will appear in an anthology of Great War literature titled Modernism and War, forthcoming from Fairleigh Dickinson University Press. Currently she is at work on a study of five U.S.-bound German veterans, both fictional and historical.

**Kathleen Lohse** came to Idaho State University as an EPSCoR hire in 2010 and is currently an associate professor.

She earned her Ph.D. from University of California — Berkeley in 2002, working with Pamela Matson at Stanford University and Ronald Amundson at UC Berkeley. Her training was in soil science with an emphasis in ecosystem ecology/soil biogeochemistry. Prior to her employment at ISU, Lohse worked at University of Arizona for three years as an assistant professor.

Lohse works at the interface of ecology, earth system/soil science and hydrology, studying the processes shaping ecosystems and their responses to anthropogenic changes. From this foundation, she tackles the challenges and complexities of sustainability and global change science.

Her primary research interests include 1) understanding the hydrologic and biogeochemical processes shaping watershed ecosystems, 2) studying the ways in which land use and other human-caused changes are altering these processes in both terrestrial and aquatic ecosystems and across these traditional disciplinary boundaries, and 3) integrating social processes and other human dimensions into watershed and ecosystem management.

**2013**

### **Outstanding Researchers Named**

Receiving ISU Outstanding Researcher awards in 2013 are Bruce Finney, professor of biological sciences; Rex W. Force, associate dean for clinical research in the Division of Health Sciences; Thom Hasenpflug, associate professor of percussion and chair and director of performing arts; Timothy S. Magnuson, associate professor of biological sciences; and Michael A. Thomas, associate professor of biological sciences.

## Appendix G (continued)

**Bruce Finney** is a professor in the Department of Biological Sciences, with a joint appointment in geosciences. Much of his research focuses on using lake and ocean sediment-based data to study past and future climate changes and its effects on wildlife, humans and fish. He is particularly well known for his research on the effects of climate change on Pacific salmon populations. More than 100 of Finney's publications have been featured in peer-reviewed journals, 40 of which have been published since his arrival at ISU in 2007. His publications have been cited more than 5,000 times in the peer-reviewed literature.

Finney's publications have been featured in several prominent journals, including *Science*, *Nature* and *Proceedings of the National Academy of Sciences of the USA*. Finney serves as assistant director for the Center of Archaeological Materials and Applied Spectroscopy (CAMAS), and is the director of the Stable Isotope Laboratory of the Interdisciplinary Laboratory of Elemental and Isotopic Analysis (ILEIA), housed under CAMAS. The Stable Isotope Laboratory plays an important role in integrating stable isotope techniques into research and education at

ISU. To date, Finney's research funding has totaled more than \$7 million, much of which has come from a series of competitive grants from the prestigious National Science Foundation.

**Rex W. Force**, Pharm.D, BCPS, FCCP is associate dean for clinical research in the Division of Health Sciences at ISU. He also holds appointments as professor of pharmacy practice and family medicine and director of research in the Department of Family Medicine. Dr. Force earned his Bachelor of Science degree in pharmacy from Oregon State University and his Pharm.D. degree from the University of Texas, after which he completed a clinical research fellowship at Ohio State University. He also holds the appointment of affiliate professor of family medicine at the University of Washington.

He is a member of the steering committee of the WWAMI Practice and Research Network with the Department of Family Medicine at the University of Washington. In addition, Dr. Force currently serves as the chair of the Community Advisory Panel of the American College of Clinical Pharmacy's Practice-based Research Network. He has authored more than 50 professional and research publications, presented more than 100 research papers or abstracts, and speaks regularly at professional meetings. With a focus on pharmacotherapy, evidence-based medicine, medication safety, and rural health service delivery, Dr. Force and his collaborators have received grants and contracts in excess of \$5 million while at ISU. Dr. Force has been on the faculty at Idaho State University since 1993.

**Thom Hasenpflug** is nationally recognized as a unique performer and educational voice, while his compositions for percussion receive international recognition and are played all over the world. He is currently an associate professor of percussion and chair and director of performing arts at Idaho State University.

Dr. Hasenpflug has presented performances and clinics many universities, high schools, and festivals, for several Percussive Arts Society chapter days, and has performed at the 2011 and 2012 International Conventions. As a composer, he has been commissioned by some of the

## Appendix G (continued)

field's leading percussionists, and has received top awards in the 1995 PAS composition contest for South of Jupiter, as well as receiving the 1993 Louis Smadbeck prize for Six Bagatelles. His percussion quartet, Bicksa, is one of the most widely-programmed collegiate percussion works of the past 25 years. He was also a featured composer-artist at both the 2006 and 2007 International Conventions. Other international performances of his works have occurred in London, Barcelona, Hong Kong, Taiwan, Dublin, Rio de Janeiro, Venezuela, and Sweden, by various groups / individuals of note.

He has performed as a member of numerous symphonies, including acting as principal timpanist in the South Dakota Symphony, and most recently principal percussionist with the Idaho State Civic Symphony. Dr. Hasenpflug has performed in symphonic and freelance capacities with artists as diverse as Peter Cetera, the Moody Blues, Blood Sweat and Tears, and many others.

He received his degrees in percussion and composition from Ithaca College and the Doctor of Musical Arts degree from the University of Colorado. Hasenpflug was fortunate to study privately with notable Pulitzer Prize-winning composers during their respective residencies at Ithaca, including John Corigliano, William Bolcom, and Karel Husa. Thom Hasenpflug has percussion works published through K.P.P. (a division of Malletech - MPI), Alfred Music, Bachovich Music, and C. Alan Publications, as well as his own label, "Hasenworks." He is an endorser of Pro-Mark Sticks and Mallets, Remo Drumheads, and Sabian Cymbals. He has a wife and two bunny rabbits.

**Timothy S. Magnuson** is a microbiologist and associate professor in the Department of Biological Sciences at Idaho State University.

He received his Bachelor of Science degree in Biochemistry (1987) from the University of Minnesota, and earned both a Master of Science degree and Ph.D. in bacteriology from the University of Idaho (1996). He then held postgraduate positions at the University of Massachusetts and Montana State University. In 2001, he began a tenure-track appointment at Idaho State University, where he has developed a successful and diverse research portfolio in Environmental Microbiology. His work spans microbial physiology, biochemistry, and ecology, and his research group explores a variety of topics, including toxic metal metabolism and biofuel production. Magnuson has published more than 20 papers while at ISU, and has presented research at national and international conferences on microbiology, bioenergy, and geochemistry. He currently serves as a reviewer and editor for several prestigious microbiology journals, and has been a long-standing member of the American Society for Microbiology.

## Appendix G (continued)

Magnuson has been awarded more than \$1 million in funding from federal and private entities, and most importantly, has mentored 30 postdoctoral, graduate, and undergraduate researchers. His overarching research goal is to understand how the microbial world can help humankind through cleaner energy and toxic waste remediation.

**Michael A. Thomas** is an associate professor in the Department of Biological Sciences, specializing in evolutionary biology, genome biology, and bioinformatics. His research team has recently been applying this expertise towards understanding potential human health implications of psychoactive pharmaceuticals (e.g., Prozac) that end up in aquatic systems. They use minnows, cell cultures, and other model systems to determine the totality of genes expressed in response to these environmental contaminants, and relate this response to human neurological disorders. This project was initiated while Thomas was on sabbatical at the University of Wisconsin - Milwaukee, and is leading to a much larger interdisciplinary collaborative ISU project involving environmental toxicology of nanomaterials in environmental systems.

Thomas serves as academic director of the Molecular Research Core Facility, which provides research resources and training opportunities for dozens of regional academic, government, and industry researchers. He also serves as director of ISU's NIH-funded INBRE program, which enhances biomedical research infrastructure, opens biomedical research career opportunities for Idaho students, and increases biomedical research activities at ISU.

Since coming to ISU in 2003, Thomas has published 22 peer-reviewed publications and received funding from state, federal and private research foundations. His work has garnered national and international media attention. Prior to arriving at ISU, Thomas conducted postdoctoral studies at the Medical College of Wisconsin in Milwaukee (in the Rat Genome Project team). He earned his Ph.D. at Penn State University, Master of Science degree at Kansas State University, and Bachelor of Science degree at the University of Nebraska.

## Appendix H

Idaho State University – Number of certificate, associate, and baccalaureate students who enroll in programs at the next degree level upon graduating.

Note: The National Student Clearinghouse is used to determine if a student was awarded a degree.

<b>Students Receiving a Bachelor Degree at ISU during FY 2007</b>	
Number of distinct students	<b>1114</b>
Number of these students who later received a Graduate Degree (any school)	<b>271</b>
Percent	<b>24.33%</b>

<b>Students Receiving an Associate Degree or Technical Certificate at ISU during FY 2007</b>	
Number of distinct students	<b>512</b>
Number of these students who later received a Bachelor's or Graduate Degree (any school)	<b>88</b>
Percent	<b>17.19%</b>

# Appendix I

## Peer group and Idaho public institutions comparison on resident tuition & fees

Institutions	2009-10	2010-11	2011-12	2012-13	2013-14	Rate	2009-10 rank	2013-14 rank
<b>U of Wyoming</b>	\$3,162	\$3,927	\$4,125	\$4,278	\$4,404	8.6%	1	1
<b>Lewis-Clark State College</b>	\$4,596	\$4,998	\$5,348	\$5,562	\$5,786	5.9%	2	2
<b>Boise State U</b>	\$4,864	\$5,300	\$5,566	\$5,884	\$6,292	6.6%	3	4
<b>U of Idaho</b>	\$4,932	\$5,402	\$5,856	\$6,212	\$6,524	7.2%	4	6
<b>Idaho State U</b>	\$4,968	\$5,416	\$5,796	\$6,070	\$6,344	6.3%	5	5
<b>U of Nevada - Reno</b>	\$5,031	\$5,561	\$5,630	\$6,602	\$6,610	7.1%	6	7
<b>Wichita State U</b>	\$5,467	\$5,890	\$6,155	\$6,442	\$6,926	6.1%	7	9

## Appendix L

### Examples of Student Support Services at Idaho State University

*Academic Programs.* This unit offers diverse services through a number of programs.

- [Bengal Bridge](#) is a relatively new effort to address remediation and retention issues. It focuses on assisting underprepared, first generation, low-income, first-time students in a campus residential setting offered during the summer. Students enroll in nine credits at a discounted tuition rate and are offered University Orientation, English Composition, Intermediate Algebra, and Intro to Psychology to help prepare them to succeed in their college work.
- The [College Learning Strategies](#) program provides a number of options to help students succeed, such as one-credit courses, individual tutoring, workshops, and handouts. These services cover several basic areas that are key to student success, such as time and stress management, reading, memory, test taking, math strategies, homework strategies, note taking, test taking and analysis. The College Learning Strategies program also presents workshops to university classes, campus organizations and groups, and at the residence halls.
- Beginning Fall 2014, ISU's Intensive English Institute (IEI) will begin providing English language instruction for international students who wish to study in a comprehensive, academically rigorous program. The focus of the IEI will be on English for Academic Purposes (EAP). Classes will be taught by instructors with advanced degrees, Teaching English to Speakers of Other Languages (TESOL) credentials, and relevant experience. A minimum of 21 class hours per week will be required for each IEI student. Required core courses at each level include Reading, Writing, Speaking and Listening, and Vocabulary and Grammar. All IEI courses are non-credit and correspond to clock hours rather than credit hours. Upon enrollment at the IEI, students are grouped into one of six learner levels, which include Elementary English I and II, Intermediate English I and II, and Advanced English I and II. The four required core courses are offered at each level. Students are placed into their initial level by assessment and required to complete all the subsequent levels in the IEI sequence. Each level can be completed in one eight-week session, which corresponds to approximately 168 hours of direct group instruction. Successful completion of the Advanced English II level indicates that IEI students are prepared for full-time, university-level work. The expected timeline to complete the full course of study at the IEI (Elementary English I – Advanced English II) is approximately 18 months.
- In the English for Speakers of Other Languages ([ESOL](#)) program, undergraduate and graduate students who are non-native English speakers receive academic instruction that enhances knowledge and understanding of the American language and culture. Students may participate in individual 60 minute tutoring sessions as well as workshops and excursions. In conjunction with the ISU Speech and Hearing Clinic, ESOL students may participate in two sessions of Accent Modification Evaluations for a small fee.
- [First Year Seminar](#) introduces students to the vital components of university life and helps them achieve their academic and personal goals. Its courses are designed to assist students in developing positive learning behaviors and apply strategies to build confidence, gain awareness, and develop life-long skills that enhance their educational experience. Students who take First Year Seminar have higher GPAs,

## Appendix L (continued)

make stronger connections, and are more likely to graduate than students who do not take the seminar. Instruction teams consist of a faculty or staff member and a peer instructor.

- [Service-Learning](#) is another program that affords students real-world learning experiences to enhance their academic learning while providing a tangible benefit for the community. Programs that offer service learning include Chemistry, Didactic Program in Dietetics, First Year Seminar, Management, Marketing, and Physician Assistant Studies.
- *University Tutoring*. Small group and individual tutoring is available to all ISU students through the University Tutoring unit.
- The [Content Area Tutoring](#) program provides small group tutoring in every academic discipline taught at ISU except writing and mathematics and is available on both the Pocatello and Idaho Falls campuses. It affords student employment opportunities, allowing successful students to share their skills and experience with others. Most tutors are experienced graduate and undergraduate students who have obtained extra training as peer tutors.
- In the [Writing Center](#), consultants work with students to improve the quality of the academic writing they do for their courses at all levels. The Writing Center also serves as a resource for university faculty, supporting writing across the curriculum in the general education courses and in all the disciplines. The online writing lab ([OWL](#)) is a virtual writing center where students can chat with a tutor screen-to-screen in a Moodle chat room about writing projects and related questions. Writing Center handouts are available online.
- The [Math Center](#) is a walk-in tutoring service staffed with trained student tutors who assist students in finding mistakes in their assignments and suggest different approaches and examples to solve math problems. In addition, the Math Center publishes study strategies online. Topics include organizing math notes, using the P.O.W.E.R. method for solving problems, and being aware of, and managing, negative attitudes toward math. Sample math finals for developmental math courses can also be viewed or downloaded from the Math Center's website. Idaho State University's Writing and Math Centers are certified through the College Reading and Learning Association.
- *Central Academic Advising*. This unit provides ISU students with information about campus resources, offers assistance with schedules and degree planning, clarifies campus policies and procedures, and serves as a general resource for the student body. The advising staff includes a director and three full-time advisers and two part-time advisers at the main campus in Pocatello, two full-time advisers at each of the Idaho Falls and Twin Falls campuses, and one full-time adviser at the Meridian campus. Academic advisers communicate directly with faculty to help ensure advising regarding program curriculum is accurate and consistent. An important initiative of Central Academic Advising involves working with faculty to promote the campus-wide use of degree plans and checklists that have a common format, are located at a similar place on each department's website, and are updated annually by a specified deadline. The common format and placement of degree plans and checklists provide a structure for new and continuing students to understand the components of a degree, to realistically assess the time needed to complete a degree, to have available in one place useful links to department information and websites, the undergraduate catalog, and a general education worksheet, as well as, linking the degree plan to the appropriate catalog year. The Central

## Appendix L (continued)

Academic Advising website showcases all current degree plans and checklists, which are linked to the department page to ensure information on both websites is the same, with department oversight of the content.

- *Disability Services*. This Disability Services unit enables equal access to all programs and services sponsored or funded by ISU. Knowledgeable, well-trained staff authorize and provide reasonable accommodations and related disability services; advocate for an accessible and hospitable learning environment through removal of informational, physical, and attitudinal barriers; and promote self-determination and personal responsibility for students with disabilities. The [Dorothy Broyles Assistive Technology Lab](#) provides a safe learning environment and access to assistive technology for ISU students with disabilities. Equipment includes screen readers, scanners, and optical character recognition (OCR) software. Adaptive Technology Computer Workstations are also available at other locations. Interpreters, readers, and scribes are available to assist students with accommodations in and out of class. The Disability Services unit is one of the university's agents for compliance with federal and state laws and regulations mandating equal opportunity and access for persons with disabilities.
- *Native American Student (Academic) Services (NAAS)*. The NAAS [mission](#) is to help and support indigenous peoples in the attainment of their educational goals through academic advising, tutoring, resources, and advocacy. Some of the services provided include New Native Student Orientation, the Midterm Management Series, an NAAS Advising Day, pre-college workshops, a Shoshone-Bannock Parent Informational, and the Bengal Warrior Boot Camp. NAAS is also involved in important outreach with the local Shoshone-Bannock Tribe. A recent example is the Knowledge and Awareness Nexus (KAN) education pilot program that serves first time students and those re-entering school after several years absence. The intent is to prepare participants for college level English and math and to provide learning opportunities in a culturally relevant manner.
- *TRiO*. These federally funded programs provide students with a variety of support services including advising, counseling (academic, personal, financial and career), and tutoring. For students enrolled at ISU, TRiO offers [Student Support Services](#), and for those in high school, there are pre-college programs that include [Educational Talent Search](#), [Upward Bound](#), and [Upward Bound Math and Science](#). Idaho State University's program recently was awarded a highly competitive \$1.25 million Upward Bound Math and Science five-year grant to provide postsecondary education opportunities to limited income, first generation high school students who intend to major in STEM fields.
- *University Honors Program*. The University Honors Program is a selective, liberal arts-based academic program that promotes a challenging curriculum to prepare students for post-undergraduate education. The goals of the Honors Program align with and advance [Core Theme One](#) and that part of ISU's mission seeking to "advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; ... to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society." The Honors Program seeks to attract the best academic students, provide them with an enriched and challenging curriculum, and expose them to the artistic, scholastic, and scientific

## Appendix L (continued)

pursuits of other honors students and faculty. This provides the foundation for scholastic and creative exploration, study, and research necessary to prepare students to understand the past, think critically about the present, and plan for the future as tomorrow's leaders.

- Honors Program students are admitted in a cohort, attend honors courses together, learn from one another, and share academic and social experiences throughout their college career. Honors Housing is also available as part of their scholarship. When students transition into their majors or programs, they participate in individual research and scholarly projects, working one-on-one with a professor or mentor in their discipline. Recent projects have involved honors research in Mathematics, Chemistry, Nursing, Elementary Education, Literature, Art, and Business Management, to name a few. Ultimately, Honors Program students present and defend their work before a committee of honors faculty before receiving an Honors bachelor's degree. Idaho State University is the only public institution in the state of Idaho authorized to award an Honors bachelor's degree.
- The Honors Program maintains a retention rate exceeding 80% and a six-year graduation rate of 72%. Honors Program graduates are among ISU's most successful students. Many of them receive top university awards, like the Outstanding Student Award, and have gone on to post-baccalaureate education in medicine, dentistry, other allied health occupations, veterinary medicine, law, business, public policy, and graduate (Ph.D.) programs.

### ***Student Affairs Division***

- The mission of the Student Affairs Division is to provide outreach, activities, services, and programs to and advocacy for students that: supports their needs and goal attainment; facilitates learning and development; promotes health and wellness; creates challenging yet supportive environments; and strengthens diversity and embraces global perspectives, both on campus and in the community, through partnerships and collaboration. Concomitantly, Student Affairs provides advice and guidance to those who seek to understand, appreciate, mentor and assist students. Under the purview of the Vice President for Student Affairs, the [Student Affairs](#) houses several [departments](#) that provide vital programs and services to support students. Some of these key programs, activities, and services are discussed below.
- *University Counseling and Testing Service.* The mission of this unit is multipurpose. The [Counseling Center](#) supports the academic, emotional, social, vocational, spiritual, cultural, and professional development of students by offering counseling, assessment, outreach, training, and educational and health promotion services. In addition, the Center consults with faculty and staff about students and provides appropriate interventions. Lastly, the Counseling Center serves as a clinical training site for graduate students in the Counseling Program. The Center's three-year average for counseling sessions was 5,878 per year. In person counseling services are offered on the Pocatello and Idaho Falls campuses by Counseling Center personnel and by contract for Meridian students. Counseling Center personnel will also travel to Twin Falls to provide services, as needed.
- Counseling Center staff are invited to classrooms to present materials on stress reduction, communication skills, anxiety, anger, and other topics. Workshops are presented at the Student Recreation Center, announced through the electronic student bulletin board and sent

## Appendix L (continued)

through email notification. Courses, workshops, and lectures are designed to meet the needs of specific individuals, groups, and departments. The three year average number of presentations was 132 per year.

- The [Testing Center](#) offers a secure, professional, and proctored testing environment to meet individual, university, and community needs for admission, certification, licensure, correspondence, course placement, job placement, and academic course exams. Faculty may request proctored exams for any ISU course. Over 4,635 examinations were administered to students seeking admission to ISU, a specific academic program, or placement exam such as COMPASS. About 5,501 state and national examinations for a diverse array of license, certification, and admissions purposes were administered, including GRE, GMAT, and MAT.
- *The Career Center.* A wide variety of academic credit support courses, presentations, and workshops related to career exploration are provided to ISU students through the [Career Center](#). An example is COUN 1150, Career and Life Planning, which explores effective decision-making theories directed toward the student's life goals. Six sections totaling 159 students were offered in 2013-14. Individual assistance was directly provided to 1,679 students on resume writing, cover letters, and interviewing techniques. Two career fairs attracted over 700 participants in 2013-14. Counselors are also invited to present workshops and information in undergraduate and graduate courses geared toward career choices and academic success. Lastly, the Center provided clinical placements for graduate students in the Counseling Program.
- The [Career Path Internship](#) program, administered through the Career Center, has been a particularly valuable resource for students to gain real world, paid experience in their chosen field of study or to explore career options in a meaningful way. Because students who are employed on campus and who work closely with faculty are more likely to persist and excel academically, the Career Path Internship program enhances student success. Institutional funding for the program and student participation continues to increase with \$1.7 million allocated for the 2013-14 school year. In addition, the program has been expanded to include off-campus placements with business and civic organizations.
- *Diversity Resource Center.* This center assists ethnic and international students and organizations through the development and promotion of campus-wide activities that enhance multi-cultural awareness. The
- *The Veterans' Sanctuary.* One of the first transition and support programs of its kind in the United States, ISU's [Veterans Sanctuary](#) was developed for veterans, by veterans, to provide exceptional service to military veterans of all eras attending ISU. The Sanctuary's "one-stop-shop" approach allows veterans to access all campus services, and many community services, through a single office. A support team provides assistance with G.I. Bill benefits and offers guidance from the moment student veterans arrive until they graduate. The Veteran's Sanctuary provides an extensive array of resources and support services, including a [getting started checklist](#), [outreach/college preparation](#), [orientations](#), [advising](#), [veteran's registration day](#), [disability resources](#), [tutoring](#), [counseling](#), and [scholarships](#). Tutoring services in English and math are free for student veterans, current service members, military dependents attending ISU, and ROTC cadets. A large, quiet study area with computers is provided in the Sanctuary located on the Pocatello campus.

## Appendix L (continued)

- Student veterans also have access to workforce preparation assistance. As an example, the [Career Closet](#) stocks interview-appropriate clothing for both men and women who are applying for jobs. Student veterans can meet with a student wardrobe adviser at the Veterans' Sanctuary, and together they select professional attire that becomes the student's property. If alterations are needed, the Career Closet staff will refer the student to a local participating tailor who is paid by the Veteran's Sanctuary. Other key aspects of the Sanctuary include its [Veteran's Club](#), [Advisory Committee](#), and [service projects](#). A [veteran's crisis hotline](#) is also available. In recognition of ISU's efforts, G.I. Jobs Magazine has listed ISU as a military-friendly school for 2010, 2011, and 2012, an honor given to the top 15 percent of colleges, universities and trade schools in the United States. In addition, the American Legion and Veterans of Foreign Wars (VFW) have awarded ISU with national citations.
- *Learning Communities*. Formal learning communities in the residence halls at ISU provide a living/ learning academic focus for residents of similar interests. Learning communities are currently available for honor students, business/accounting majors, education majors, and students interested in the health professions. Learning communities provide both social and academic activities. Students in learning communities often are enrolled in the same class, have the opportunity to study together, interact outside of the classroom, participate in co-curricular activities, and form lasting friendships.
- *Student Health Services*. This service provides primary, ambulatory medical care to students, and to a lesser extent, to faculty and staff. A mandatory student health activity fee covers unlimited office visits. Other medical procedures, tests and services are billed to the student's health insurance, which is currently required by Board policy. Services include: ambulatory care, immunizations, advice, lab services, screening, psychiatric care and processing medical withdrawals. Student Health Services also provides clinical placements for students in health professions programs.
- *New Student Orientation, Leadership and Service (LEAD)*. This service includes orientation for new and transfer undergraduate students on the Pocatello and Idaho Falls campuses. The program focuses on academic success, involvement, campus resources and community service. The Leadership Program offers students opportunities to learn about and practice leadership in collaboration with ISU's Minor in Leadership. Service includes spring break volunteer trips and service to local communities.
- *The Student Life Office*. The backbone of the Student Support Network providing student assistance, advising students on academic and non-academic policies and procedures, handling non-academic student grievances, administering the Student Conduct system, supporting the Academic Dishonesty and Scholastic Appeals Boards, convening and facilitating the Students of Concern Committee, composed of an academic affairs representative; the directors of Disability Services, Counseling and Testing Center, Student Health Services, Veterans Sanctuary, Campus Safety, and Housing Offices; University Counsel and the Vice President for Student Affairs. During 2013-14, the Student Life Office handled 259 student conduct cases, 156 student assistance cases, 48 students of concern, 32 academic conduct consults, 268 faculty/staff/parent consultations and 99 academic dishonesty reports. The *Student Conduct Code* was completely updated and revised in 2013-14 to ensure compliance with Title IX, VAWA and the Campus SaVE Act.

## Appendix L (continued)

- *The Early Learning Center.* This center, with locations in Pocatello and Idaho Falls, provides critical support for ISU students, faculty, and staff by delivering quality child care for their children, thereby meeting a fundamental need for a large segment of ISU's student population. The [Early Learning Center](#) offers a child-centered program for children between the ages of six weeks and eleven years and maintains safe and nurturing environments that promote the social, emotional, cognitive and physical development of children. This enables student parents to better focus on completing their education. The Center averages about 156 children a day, with an average of 313 children of students, faculty, and staff, and 99 children of alumni a year between the two sites. The Pocatello Center has received three stars under the IdahoSTARS Quality Rating (QRIS), and the Idaho Falls Center has received four stars, the highest rating available. Lastly, the Early Learning Center serves as a practicum/observation/research site for ISU and Idaho School District #25 high school students.

### ***Finance and Administration***

- [Diversity Resource Center.](#) This center, which reports to the Director of Affirmative Action/EEO and Diversity, assists ethnic and international students and organizations through the development and promotion of campus-wide activities that enhance multicultural awareness. In addition to its relationship with the Student Success Center, [Native American Academic Services](#), is also affiliated with the Diversity Resource Center and provides academic support for indigenous peoples to assist them in reaching their educational goals. Academic advising, tutoring, and advocacy are provided to help students understand the University culture. The Diversity Resource Center website sets forth [diversity statements](#) articulating the University's commitment to diversity and establishing guidelines in hiring diverse candidates that will help ensure institutional compliance with Affirmative Action/EEO diversity policies. It also provides links to [cultural student organizations](#) at ISU.

### ***The Colleges***

- In addition to centralized services, each of ISU's colleges and divisions maintain environments that enhance learning. These include labs, lounges, recital rooms, departmental libraries, simulation facilities, and tutoring. As an example, the College of Technology offers numerous successful support services for their prospective and current students. The [Adult Success Center](#) provides adult basic education involving free, comprehensive assessment and instruction in basic skills, including reading, writing, math, and English as a Second Language (ESL). The program provides literacy instruction, preparation for the GED® Tests and skills brush-up for college entrance or employment. The [Center for New Directions](#) offers events and workshops for students in transition, including career and educational counseling, mental health counseling, and other support services. The [Office of Student Services](#) offers [Success Workshops](#), in person and online, for students in College of Technology programs who wish to enhance academic skills and learn information to help them be successful. These workshops are also available online. SkillsUSA, a national professional-technical student organization, provides opportunities for students to compete regionally and nationally to further hone competencies learned in their program area. This organization develops relationships outside the

## Appendix L (continued)

classroom while solidifying learning that takes place in the classroom. Some College of Technology programs participate in Live Works which allows students to participate in an environment similar to the workplace. Students provide services for customers/clients from campus and the community for minimal prices to cover product and equipment wear.

### ***International Programs Office***

- The population of [international students](#) at ISU has grown dramatically over recent years. Recruitment, admission, and support services for this population are provided by the [International Programs Office](#). The [mission](#) of this office is to provide the best service and support possible for ISU's international visitors (which includes degree-seeking students, visiting and exchange students, faculty, researchers, staff, and others) and to enhance foreign visitors' stay at ISU, by providing quality cultural, academic, regulatory, and social programs. The [services](#) are comprehensive and critical to the success of ISU's international student population.

### ***The Library***

- The multiple and varied resources available of [Eli M. Oboler Library](#) (discussed in Standard 2.E.) provide significant support for student learning. These include the library holdings, librarians to assist students, and quiet places to study and research. The library also affords online access to articles and journals and makes available a variety of online self-guided tutorials including but not limited to academic integrity, plagiarism, search tools, citing sources, finding sources, and other research-based topics.

### ***Technology Resources***

- Technology is widely used to support learning at ISU. The [ISU website](#) provides information about policies and procedures; programs, degrees, and academic units; catalogs, calendars, and handbooks. Bengal Web, the student portal, is a critical resource for students. It provides access to, and information about, academic and nonacademic resources and support services. Students can register for classes, get course and financial aid information, and view and pay fees through BengalWeb.
- Moodle serves as ISU's primary learning management system. It supplements classroom instruction and provides the mechanism for online courses delivered through eISU. Moodle offers a user friendly interface and valuable tools for students and faculty members. The [Instructional Technology Resource Center](#) (ITRC) provides online Moodle tutorials for faculty and students as well as face-to-face training in a workshop setting.

# Appendix M

## Appendix M (continued)

- The Diversity Resource Center serves the campus community by creating programs that enhance cultural diversity. More importantly, they “assist ethnic and international students and organizations. . . [and] seek both to enhance their experience at ISU and to assist them in contributing to campus diversity and cultural competency” (<http://www.isu.edu/drc/>). By fostering a positive multicultural community on campus, the Diversity Resource Center helps students who are part of these international and ethnic minority groups cope with the challenges of college life in the Pocatello community. Furthermore, the center provides orientations to expectations of college life at ISU, offering these students additional support. Because the majority of ISU students are Caucasian, the Diversity Resource Center serves as a location where the challenges students meet as ethnic minorities can be addressed with care and consideration.
- TRiO supports both pre-college and college students. Student Support Services serve low-income, first-generation, or disabled college students. Students receive assistance registering for classes, orientations to campus, mentoring, and tutoring. They also receive counseling for academics,

## Appendix M (continued)

personal matters, financial issues, and career paths, helping them adjust to college regardless of their level of preparation. Students in TRiO are able to develop strong relationships with their advisors in the program who fully understand the specific challenges these students face in college, ultimately helping them persist with their college education.

- Successful Transitions and Retention Track (START), which is focused on retaining our at-risk, underrepresented student population, provides social and academic support, helping students to manage barriers they face in achieving higher education goals. START is a bridge program aimed at helping prepare these at-risk students for full entry into college by addressing their specific challenges to meeting their educational goals. The program's offerings include career and educational counseling, math workshops to help them prepare for college-level math courses, a "college success" preparation course, tutoring, workshops on the college application and financial aid processes, opportunities for scholarships, and emergency funds for help with childcare and transportation. Recognizing that many people in our community struggle both from financial need and a lack of strong academic preparation, START strives to assist these students to increase college readiness in order to succeed in college.
- The International Programs Office (IPO) serves international students, and IPO "seek[s] to enhance our foreign visitors' stay in the USA, and particularly at ISU, by providing quality cultural, academic, regulatory, and social programs. We also seek to promote the functionality of U.S students in a global society" (<http://www.isu.edu/ipo/>). The number of international students continues to increase (1,116 in Spring 2014), making the work of this unit exceptionally important. IPO begins working with students when they apply for admission to ISU, ensuring that students understand all of the legal requirements for coming to the United States. The office then works to provide fall and spring orientations for students to help them understand expectations of higher education in the United States and specifically at ISU. IPO also communicates with the governments of other countries to help provide required information on behalf of students. Their work to increase diversity and to help acculturate international students serves all ISU students well.
- The Intensive English Institute (IEI) serves international and domestic students who are learning English. IEI provides a series of intensive courses to help students develop fluency in English, thereby making them ready to pursue higher education or employment in the USA. Students work in small classes, gaining a lot of experience both with English and with American culture, thereby helping them acclimate to the larger community of Pocatello.
- The Veterans Sanctuary serves military veterans, providing them additional support, including assistance with VA medical and education benefits, tutoring services, counseling services, orientation to campus, scholarships, advising, and career planning. The Veterans Sanctuary is also a physical space, where veterans can spend time out of class with other veterans. The support offered through this program benefits veteran students of all ages, by recognizing the unique experiences and challenges each comes to ISU with. Through this center, students who are veterans are better able to cope with issues related to college life.

## Appendix N

### Examples of Post-college Support through Career Services

Idaho State University provides numerous career services for its students. These begin early on as students can enroll in Career and Life Planning (COUN 1150) to help guide them toward their career and life goals. Many academic departments also provide opportunities either through Career Path Internships or through other internship opportunities for students to gain experience on the job. Whether it is a professional writing major interning for a government agency or a chemistry major working in a campus lab, students throughout the University gain professional experience through internships, and making themselves strong candidates for the job market.

As students approach the end of their time at ISU, they are provided career services to help them prepare for the job market. The Career Center on campus provides a wide range of services to help students and alumni prepare for the job market. Through a variety of presentations and workshops, the center teaches students how to write resumes and successful strategies for interviewing. The Career Center also offers assistance with finding the right career path for students and planning ahead. In addition to workshops, they also provide one-on-one assistance as students are developing their materials and planning their job searches. Several career fairs are also organized throughout the year, offering employers the opportunity to meet with students, and students the chance to learn more about a wide range of companies. Students may also apply for full-time or part-time jobs at the career fairs, allowing a supportive environment and the opportunity to learn about prospective employers.

In addition to the Career Center, which serves all current students and alumni, individual departments and colleges also incorporate various assistance with career planning and preparation. For example, the College of Business has a full-time director of professional development. In addition to collaborating with businesses regarding their hiring needs, this director assists students with preparing resumes, interviewing skills, business etiquette, and finding options for internships and other positions.

Through the colleges and through the Career Center, ISU provides students with opportunities and skills to prepare for life and careers after college.

## Appendix N (continued)

### A student's response about the CPI program:

In their own words:

Out-of-state nursing student Alyson Walker's decision to attend ISU:

I was born and raised in Alaska, and I always planned on returning to my home state upon graduation to pursue my career in nursing. Having never lived elsewhere, (lower 48, or "down-south" as I often refer to it -much to the chagrin of my Idaho friends!) I lacked experiencing some of the simple things that so many take for granted: marching bands, football games, pep rallies, weekend ski getaways, concerts, and even road trips. When I began looking at colleges, it was obvious that financially the smart choice would be to attend an in-state university. I applied for and was accepted to the University of Alaska, Anchorage (UAA). After making inquiries, I learned the financial commitment to UAA was comparable to Idaho State University, and decided to apply to ISU. I was accepted and was excited to see I had more than one option for my higher education pursuits. Additionally, I applied for financial support in the form of a Career Path Internship (CPI) in Nursing and was awarded the position. I chose to attend Idaho State University, and it has proven to be a fantastic decision. The CPI position has allowed me to see first-hand how hard the nursing students work to succeed. I also am getting to know the professors and staff, and observe their dedication to the profession. Everyone is obviously committed to the success of the students in the program. I absolutely love ISU, the location, the opportunity to have life experiences that I desire, and the knowledge that I am exactly where I should be. My eyes have been opened to the benefits of living in such a great place and the possibilities of pursuing my nursing career outside my home state. (from the Idaho State University Nursing Newsletter January 2014)

## Appendix P

### Examples of Faculty in the Division of Health Sciences Holding Positions at the State and National Level

- Arvidson, Cathy R, American Association of Nurse Practitioners Region 10 Leadership Conference, Conference Chairperson
- Arvidson, Cathy R, American Association of Nurse Practitioners, Board of Directors
- Bargen, Gabriel A, Membership Committee - Idaho Speech, Language, Hearing Association (ISHA), Committee Chair
- Creelman, James E, American Physical Therapy Association Academic Council, Committee Member
- Cummings, Karrie L, Idaho Speech and Hearing Association, University Liaison and Regional Representative
- Erramouspe, John, The Annals of Pharmacotherapy - Pediatric Editorial Board, Committee Chair
- Farnsworth, Tracy J, Association of University Programs in Health Administration, Undergraduate program committee, Committee Member
- Garland, Kandis V, American Dental Association National Board Dental Hygiene Test Construction Committee, Committee Member
- Gurenlian, Joann R, The Richmond Institute, Committee Member
- Gurenlian, Joann R, National Center for Dental Hygiene Research & Practice, Committee Member
- Hudock, Daniel J, National Student Speech Language and Hearing Association, Workshop Organizer
- Kirkpatrick, Carol L, National Lipid Association, Committee Member
- Kleist, David M, Council for Accreditation of Counseling & Related Educational Programs (CACREP), Committee Chair
- Loftin, Joni G, International Association for Orofacial Myology Poster Committee, Committee Member
- Lott, Rex S, Board of Directors, College of Psychiatric & Neurologic Pharmacists, President/Elect/Past
- Mickelsen, Wendy K, Idaho Society of Radiologic Technologists, Conference Chairperson
- Papa, Jared W, Dominican Overseas Education and Relief Society (DOERS), Fundraising Service Member
- Phelps, Paula B, Physician Assistant Education Association/Rotation Exam Review Committee, Committee Member
- Smith, Anntara, Idaho Academy of Physician Assistants, President/Elect/Past

## Appendix Q

### Examples of Students Receiving National Awards

- The Idaho State University Society of Physics Students (SPS) has received the 2013 Outstanding Chapter Award from the National Society of Physics Students and the American Physical Society (January 2014).
- The ISU student dietetics and consumer science organization, was the first-place recipient of the National Professional Project award from Phi Upsilon Omicron, the National Honor Society in Family and Consumer Sciences (May 2014).
- The U.S. Department of Energy announced Idaho State University is the winner of its 2012-13 National Student Geothermal Competition. Student teams from Boise State University and Southern Methodist University Geothermal Laboratory finished second and third, respectively. All three Idaho public research universities, including the University of Idaho, had teams in the eight-school finals. This student competition challenged teams at universities across the country to conduct cutting-edge research in geology, geoscience, chemical and bio-molecular energy and engineering that could lead to breakthroughs in geothermal energy development.
- The Idaho State University Student Occupational Therapy Association (SOTA) has won a national award in 2011 from the American Occupational Therapy Association's Assembly of Student Delegates (ASD).
- Student pharmacists from ISU have received national recognition for their innovative and expansive patient care projects through the American Pharmacists Association (APhA). They received the 2011 National Award for their diabetes outreach projects. The accolades received are even more impressive because ISU is among the AAA Division in terms of size, so ISU grabbed this award using a much smaller number of students than the AA and A schools. The following year they were awarded a Chapter Achievement Award based on all of their projects and programs which placed them third of all 37 AAA Chapters.
- Idaho State University senior performing arts major Teaira Burge was one of three sopranos to win the District Metropolitan Opera Auditions at the ISU Stephens Performing Arts Center Saturday, Oct. 29, 2011.
- Idaho State University College of Technology SkillsUSA members attended the 2008 National Leadership and Skills Conference in Kansas City, Mo., where they received top honors in their respective competitions. The four students who represented ISU and the awards they received were:
  - Ryder Carson – Gold, Computerized Numeric Control Milling
  - Greg Anderson – Gold, Automotive Refinishing
  - Renell Anderson – Sixth, Prepared Speech
  - Todd Thomas – Fourth, Aviation Maintenance

## Appendix R

### Examples of Affiliation Agreements For Health-related Services and Patient Care

- St. Luke's Health System, Ltd. Education Affiliation Agreement (Idaho)
- University of Utah Hospitals & Clinics, Clinical Training Agreement (Utah)
- Portneuf Medical Center, Clinical Training Agreement (Idaho)
- Baker City, Oregon St. Alphonsus Hospital, Education Affiliation Agreement (Oregon)
- Health West, Family Medicine Residency Program Affiliation Agreement (Idaho)
- Centro de Rehabilitacion, Educacion, Capacitacion, Estudios y Recursos, Inc., Clinical Training Agreement (Ibarra, Ecuador)
- Evergreen Public Schools, Clinical Training Agreement (Vancouver, Washington)

## Appendix S

### Examples of Faculty Volunteer Hours in Community Health Screenings

The concept of the Community Health Screening events between ISU Meridian Health Science Center and Ada County stemmed from the county's need to reduce cost to taxpayers by providing better medical care access and preventive treatment to the growing indigent population. Idaho State University Meridian Health Science Center faculty saw this as an opportunity to lead by example and assist the community, all the while developing an innovative health experience for learners in an interdisciplinary environment. One of DHS's core values includes a holistic approach to health, emphasizing a comprehensive view of human health, including curative and preventive dimensions. For 2012—2013 between 500–600 hours in preparation and execution of the community screenings was logged by faculty, not including administration and staff time. Nine core faculty and two co-directors are devoted to the six annual screenings. These faculty activities are in addition to their academic and clinical workload. For FY2013, 139 students assisted with at least one screening and 61 attended multiple events for approximately 950 hours of donated student time. Productivity measures are correlated to determine program viability and sustainability. Community Health Screening planning is informed by data collection, presented, and tracked in yearly reports.

Through a partnership with the University of Washington/Northwest AIDS Education and Training Center, ISU employs one program coordinator to provide statewide HIV and AIDS medical training. Free HIV and Hepatitis C screening is provided at Community Health Screening events.

In Pocatello, the ISU Health Fair in its 33<sup>rd</sup> year, annually features around 70 learning centers and health screening opportunities. Community Health Screening events are held in Pocatello as well.

AmeriCorps members in programs administered by ISU annually contribute more than 64,000 hours of service work to communities throughout Idaho. The two programs are Idaho Health Care for Children and Families Program and Idaho Community HealthCorps program. The former has 10 stipend members that each provide 1,700 hours annually. There are 22 education-award-only members who contribute 450 hours per year, and three education-award-only who provide 675 hours annually. The HealthCorps program has 21 full-time members each providing 1,700 hours annually. In a study released December 2013, the Corporation for national and Community Service and the National Conference on Citizenship ranked Idaho third among the states for volunteerism and civic engagement. These volunteers are meeting local needs and strengthening communities.

Family Medicine Residency Program provides medical services to the underserved populations in Pocatello and Southeast Idaho. Residents serve one-month rural rotations in 15 communities statewide. They also staff the Pocatello Free Clinic which sees 15,000 patients per year and provides medical services to inmates in the Pocatello Women's Correctional Center, resulting in treating diverse patients and educational opportunities that otherwise may not be realized.

## Appendix S (continued)

Other services include providing prenatal care, pediatric care for incarcerated minors, and physicians' services to the Bannock County Health Department. Clinical pharmacy services at the Family Medicine Residency Program include obtaining medications for some 250 indigent patients who do not have insurance for prescription medications.

College of Technology Health Occupations faculty are known for their generosity in the provision of time and money in professional service to their communities and professional organizations. It is not uncommon to find these faculty volunteering at food banks, shelters, blood drives, free clinics, schools, and neighborhood organizations. It is also not uncommon to find these same dedicated faculty members in leadership positions within the executive councils of their state and national professional organizations.

### SOCIAL WORK AND SOCIOLOGY

#### Conference presentations and technical reports.

Jeehoon Kim gave three research presentations at the 20th International Association of Gerontology and Geriatrics conference in Seoul, Korea. Dr. Kim also presented research at the Gerontological Society of America and the Society for Social Work and Research conferences.

Candace Christensen presented at the National Organization of Forensic Social Work Conference and at the CSWE conference in Dallas where she won an award. Her research focuses on gender based violence.

D J Williams gave an invited plenary speech to the North American Gaming Regulators Association.

Staci Jensen-Hart was an invited conference presenter on ethics (April 2012) for the Idaho Association of Play Therapy.

Gesine Hearn with Kim Lee. Invisible Wounds: The Social Construction of Veterans' post-war symptoms. Annual Meeting of the Society for the Study of Social Problems; August 18 – 21, 2011, Las Vegas, Nevada.

Gesine Hearn.2010. The Brotherhood of Pain: Persistent pain among college football players. Paper presented at the Annual Meeting of the Pacific Sociological Association, April 7 – 11, 2010, Oakland, California.

### Psychology

#### SELECTED PRESENTATIONS- faculty in bold, students underlined

Evans, John A (Presenter & Author), **Stewart, Tara L**, Washam, Ayla L, Boot, Trent, Rittenhouse, Emily, Society for Personality and Social Psychology, "Neuroticism and poor health: Self-perceptions of aging as a mediator," Austin, TX. (February 2014).

## Appendix U

### Examples of ISU Healthcare Professional Graduates

Idaho ranks at the bottom of the 50 states and the District of Columbia for:

- The number of primary care physicians per capita
- The number of internists per 100,000 population
- The number of active pediatricians per 100,000 population, and
- The number of physiatrists per 100,000 population

Idaho also ranks second to last in the nation for the number of physician residents overall and the number of physician residents in primary care; and 47<sup>th</sup> for the number of active obstetricians and gynecologists per 100,000 population. Retention of graduates from the ISU health profession programs is critical to meeting the workforce demand for health care providers.

The 2012 DHS annual report indicated that 64.9% of DHS graduates were employed within the state in their first year after graduating. This exemplifies a high return on investment for the state as Idaho reaps the rewards of strong health care providers in a state which desperately needs them. Idaho State University graduates report working in rural settings more often than urban and provide much needed services to remote individuals who would otherwise not have access to health care. With the exception of Ada County, all Idaho communities are designated as rural and are often lacking enough physicians, speech pathologists, pharmacists, and nurses. Idaho State University health programs are continuing to grow, with an eye toward providing all citizens of the state with more adequate health care through educating the populace.

In addition, the educated citizens who stay in Idaho upon graduation contribute to the SBOE's mandate for "60% of Idaho residents between the ages of 25-34 will have a degree or certificate by 2020."

## Appendix V

### Examples of active ISU formal partnerships, collaborative agreements, and contracts with public agencies and private entities

Idaho State University's research vision includes robust private-public relationships and partnerships. While the University has many hundreds of partners, it is actively engaged in increasing the number of partnerships with Idaho companies to protect and grow jobs and drive economic development in the region and state. The Division of Health Sciences holds more than 3,000 Affiliation Agreements with private and public agencies which host ISU health profession's students in a variety of clinical rotations. This successful partnering yields valuable collaborations between community health care providers in Idaho as well as neighboring states. Affiliations within DHS represent training partnerships with government agencies, private groups, clinics, hospitals, pharmacies, rehabilitation facilities and skilled nursing centers.

Bengal Pharmacy, LLC, owned by the Idaho State University Foundation, opened Idaho's first-ever full-service telepharmacy on June 20, 2014 in Arco, Idaho. The pharmacy, in partnership with the Lost Rivers Medical Center, will utilize innovative technology to provide critical health care access to one of the state's many rural communities, while also providing hands-on experience for ISU's pharmacy students.

The School of Rehabilitation and Communication Sciences houses the Veteran's Administration (VA) Hearing clinic and is an authorized provider of assessment of hearing acuity and provision of hearing aids and services through their contract with the VA. This partnership allows Veterans to receive services without traveling to the nearest VA Medical Center in Salt Lake City, UT.

The Vice President for Research & Economic Development represents ISU in the Higher Education Research Council, Idaho Global Entrepreneurial Mission, Center for Advanced Energy Studies (Steering Committee), Idaho National Laboratory, Idaho Regional Optical Network (elected President and CEO of the Board of Directors; July 2014), Idaho Technology Center (Board of Directors), Bannock Development Corporation (Board of Directors), Pocatello Chamber of Commerce (Board of Directors), and for the Association of Public and Land Grant Universities Commission on Commercialization, Innovation, and Economic Prosperity and appointed to Governor Otter's Leadership in Nuclear Engineering Commission. Research and scholarship at ISU is rooted in nuclear energy, clean energy and technologies, the environment, and human health. Through the Center for Advanced Energy Studies, ISU faculty engage in state of the art research that contributes to the nation's economic stability by developing technologies that ensure a stable and secure energy infrastructure. Idaho State University has focused with success on securing major grants and will continue to do so. In the past year, the University has successfully attracted a National Science Foundation grant for \$3.8 million, a National Institute of Health grant for \$1.8 million, and a grant from the Office for Naval Research for \$2.2 million. The University has over ten multi-million dollar grants under development to a variety of federal agencies.

## Appendix V (continued)

Idaho State University has developed a new suite of metrology analytical capability (the ability to analyze nanomaterials for manufacturing integrity, quality control, and product enhancement). The metrology suite has allowed us to develop a partnership with ON semiconductor for analytics that had previously been out-sourced. Additional partnerships are being developed with other Idaho companies and several new jobs are being created as a result of these public-private partnerships.

The Office for Research and Economic Development (ORED) has offered a variety of workshops and seminars to build faculty participation in both generating grant proposals that seek large funding levels. In addition, ORED has fostered several collaborative interdisciplinary team building exercises that have already led to a large, first “ensemble science” grant from the National Science Foundation. Several more proposals are under development. Furthermore, ORED is reinvesting a significant amount of funds obtained through existing grants (indirect cost recovery) and building additional interdisciplinary team efforts.

Idaho State University has engaged in many high level discussion with the Idaho National Laboratory (INL) and now has multiple efforts underway to enhance its educational programs to better meet the work force needs of the Idaho National Laboratory; identifying and pursuing new collaborative research projects across the two entities; re-inventing the core function of CAES and expanding CAES into regional collaborations; and developing new foci based on the intersection of the LINE 2.0 (Leadership in Nuclear Engineering) commission, the national priorities as set forth by the Department of Energy and the National Nuclear Security Agency, the INL, and ISU. By strategically aligning its research efforts with state and national targets, ISU will achieve a much higher success rate moving forward.

Idaho State University has successfully overcome several technical barriers that have impeded the production of an important medical isotope (<sup>67</sup>Copper) that may lead to new, improved treatments in several human cancers. By partnering with an Idaho company (International Isotope, Inc.) for distribution and by identifying four customers (Harvard Medical School, City of Hope Hospital, Fred Hutchinson Cancer Research Center, and Southwestern Medical Center), ISU is developing further partnerships that will lead to the development of new cancer treatments.

There is a powerful commitment to moving research from “bench to market” in innovative ways that bolster economic development in the state, nation, and globe. Idaho State University is contributing technologies that will lead to innovations in nano-manufacturing, detection of mechanical stress in materials subjected to harsh environments, and the development of new materials capable of producing far more power for longer periods of time than any existing battery technology. These technologies, as they move from the laboratory to the market place, serve as an engine for economic development in Idaho.

## Appendix V (continued)

The College of Science & Engineering holds valuable collaborations with several state, national and local partners. The Idaho National Laboratory and the Idaho Center for Advanced Energy Studies contributed an IQ-station (Inexpensive Interactive Immersive Interface), which is a virtual reality tool by which researchers can interact with complex datasets in three dimensions. This brought images fully into the 3D visual environment.

The Idaho Accelerator Center is a collaborative effort between the Idaho National Laboratory, ISU, and the DOE (Department of Energy) and allows the placement of DOE owned equipment at ISU. The MOU provides for a relationship under which the Idaho Accelerator Center houses the DOE owned equipment, but uses ISU facilities and personnel for operation, maintenance and health and safety guidance. A significant advantage of this agreement is easy access to this equipment and university owned equipment by universities, government agencies, and the private sector in a unique research environment. This environment centralizes equipment in a convenient location fostering inexpensive research and development and rapid testing for integrated demonstration development and transfer of technology. Idaho State University has strategically repositioned the IAC in the past year with an emphasis on becoming a DOE national user facility, increasing the infrastructure in pulsed power applications for both imaging purposes and testing of national stockpiles of nuclear materials via an expanded network with other DOE national laboratories.

Working with the Idaho Department of Commerce, faculty in several units, Boeing Insitu, and Advanced Aviation Solutions, ISU is advancing towards a broad partnership with the private sector around emergent opportunities in unmanned aerial vehicles. Idaho State University is supplying research expertise in spectral, hyperspectral, GIS imaging, and advanced visualization analysis for this team. Additionally, Boeing Insitu has been engaged in discussions about alternative power devices for UAV's that ISU is developing.

Boise Center Aerospace Laboratory (BCAL) was established in 2004 at Idaho State University with a grant from the National Oceanic and Atmospheric Administration (NOAA) and primarily focused on hyperspectral and LiDAR image processing. Since then, BCAL has expanded through funding from numerous federal and state agencies. BCAL's remote sensing research covers all spectral and spatial scales and integrates interdisciplinary research to promote sustainable environments.

The GIS (Geographic Information Systems) Training and Research Center (GIS TReC) is a University-wide facility administered by the Office of Research serving all colleges and departments at Idaho State University as well as the GIS community of east Idaho. The GIS Center is receiving national attention as they have just made available a new web based application that allows fire fighters to predict and mitigate forest fire damage in real time. Indeed, it was awarded a prestigious "Exemplary Systems in Government" in July of 2014 for this project entitled RECOVER: Rehabilitation Capability Convergence for Ecosystem Recovery.

The Idaho Museum of Natural History embraces relationships with The Smithsonian Institution, the Burke Museum, the Canadian Museum of Civilization, and through partnerships with the Port Townsend Marine Science Center and the Sitka Sound Science Center. The museum possesses the

## Appendix V (continued)

finest image capture and processing capabilities for 3-D imaging of natural history specimens. This project is on the forefront of national efforts at NSF for the democratization of science and will lead to unprecedented access for K-20 education.

The College of Arts and Letters collaborates with its Deans' Advisory Board which is a group of alumni and friends of the College of Arts & Letters who volunteer their time to assist the Dean and faculty in their efforts to expand the College and make programs more attractive to prospective students. The college has a collection of dedicated volunteers on the board that have helped in the development of the college. Correlates of this group's efforts can be found in each of the colleges/divisions at ISU.

The mission of the Idaho State University Alumni Association is to promote the welfare and to advance the objectives of Idaho State University through the sustained involvement of its alumni by providing philanthropic, intellectual, and social opportunities.

The College of Education boast valuable partnerships with local and state public school districts where students are able to complete student teaching internships. Through STEM (Science, Technology, Engineering and Mathematics) programs, the college has partnerships with the Association of Physics Teachers, as well as preceptors for the Master of Athletic Training.

The College of Business has active affiliations with the Small Business Development Center, Eastern Idaho Development Corporation, and Techhelp: Solutions for Manufacturing in Idaho. The Wells Fargo Speaker Series brings entrepreneurs to speak to business students regularly.

The College of Technology has affiliations with many industry partners, such as Western Aircraft, Williams-Northwest Pipeline, Chevron, Caterpillar, Western States Equipment, and the Newmont Mining Company which provide students scholarships. All applied associate degree and certificate programs maintain close ties with business, industry, and key workforce development constituents. Technical advisory committees consist of local and regional employers who provide valuable input to ensure College of Technology curriculum remains relevant to industry needs.

As is evidenced by the examples above, each college and division within ISU has valuable connections with a variety of agencies both public and private. These mutually beneficial partnerships allow students and community members to experience current technology and workplace practices prior to their first employment. Additionally, it is through the support and collaboration of many agencies that ISU is able to garner valuable data and facilities for research in a variety of scholarly pursuits. Idaho State University's current repertoire of collaborations appears appropriate to meet the needs of the University, though it is recommended that ISU continue to engage both local and national partnerships to secure ISU's future growth.

## Appendix W

### Examples of activities/events that meet the local and regional needs/interests

The main venue at ISU is the L.E. and Thelma E. Stephens Performing Arts Center. This venue is unique in the Intermountain West and enriches the cultural life of southeastern Idaho.

Idaho State University offers a variety of events and activities which meet local and regional needs and interests. Whether one appreciates the arts, cultural events, sports, or science and engineering, community members have access to a number of opportunities which would otherwise not be available in this rural area. Below are some examples of the community programming offered at ISU:

**Cultural Events** – ISU's International Student Organizations are active on campus and in the community, sharing cultural practices such as food, song, dance, and storytelling. Thousands of community members have participated in various 'nights,' which annually bring the 'world' to Southeast Idaho. Some examples of such events are:

- African Night
- Chinese New Year
- Taste of France
- Nepalese Night
- Saudi Night

**Communiversy**, a unique 'town and gown' outreach is a collaboration between the community and the University. Spearheaded by the alumni association, Communiversy has two annual events where community members have an opportunity to learn more about the various programs and opportunities at ISU while engaged with faculty and students as well as various vendors and service providers in town. The two events are:

- Welcome Back Orange and Black (held in old town Pocatello each fall semester)
- Celebrate Idaho State, where 4,000 people attended in 2014 (held at the Student Union Building in Pocatello each spring semester)

**Stephens Performing Art Center (SPAC)** was recently noted as No. 4 on a list of "The 25 Most Amazing University Performing Arts Centers" by the national website [bestvalueschools.com](http://bestvalueschools.com). The SPAC hosts a variety of events throughout the year, some of the regular events are listed below. Thousands of people have attended performances, and are always impressed with the beauty of the facility. In the spring 2014, ISU performing arts was able to present 'James and the Giant Peach' to over 1,000 elementary school children in the area. Events such as these are a treasure to the community.

## Appendix W (continued)

- Idaho State Civic Symphony
- Season of Note
- ISU Choral Programs
- ISU Performing Arts

**Science Education Outreach** – ISU is aware of the growing need for science education among the general population and offers several events to engage children as well as adults in science based activities. Examples of events are as follows:

- K-12 Science Olympics
- Idaho Science and Engineering Festival
- Idaho Museum of Natural History:
  - Classes for all ages – Science Trek, Summer Safari, Forays into the Field
  - IMNH ‘mobile museum’ brings natural history to schools in the area

**The Bioskills Learning Center** is a facility related to the *Treasure Valley Anatomy and Physiology Laboratories* at the ISU Meridian Health Science Center that has a dual role in both instruction and research for the University and a continuing educational role for practicing medical professionals. It provides a location for medical technology companies to demonstrate new and emerging technologies to physicians, surgeons and professors. University personnel can utilize the Labs to present research results to private companies with the objective of commercializing new products and methods in the local area to support economic development. Courses and workshops may be scheduled in the **Bioskills Learning Center** as desired, particularly for demonstrations to be transmitted to remote locations.

**New Knowledge Adventures** – Among ISU’s offerings is a program specifically designed with the retiree in mind. The New Knowledge Adventures courses provide enrichment for the retired among us. Topics include everything from gardening, cooking, current social topics, hikes and other outdoor experiences, and more. With an influx of retired people moving to the state, this has become a popular choice.

**Sports and Performance Camps and Lessons** – ISU is proud to share the skills of its athletes, coaches, and performance artists. Throughout the year, specialty camps are held for children in the community to learn more about a sport or instrument of their choice. Idaho State University students majoring in music offer guitar, piano, voice, and other lessons to community members and their children. A few of the sports below hold annual ‘camps’ where children can spend several days working on new skills.

- Soccer
- Football
- Cheerleading/dance

## Appendix W (continued)

- Volleyball

**Bengal Warrior Boot Camp (BWBC)** – In the past four years, BWBC previously only invited students (high school and pre-college) from the Ft. Hall Reservation's Summer Youth Program. This year, ISU's Native Americans United student organization and Native American Student Services in Central Academic Advising extended the invitation to any high school/pre-college Native American student in the state. BWBC includes two days of activities include: the ISU Alpine Challenge Tower, the Warrior Team Race Obstacle Course, along with a variety of presentations on leadership, careers, and college planning, with the primary goals:

- To discuss the need for effective leadership by and for Native Americans and how to take charge of one's own education
- To provide the opportunity for participants to get information relating to higher education
- To provide access to professionals presenting on a variety of career options and the ways to achieve success in a given profession or trade
- To provide moderately challenging physical activities to build individuals' self-esteem and foster leadership skills

**Tech Expo** – For 13 years, the College of Technology brings local and regional employers and educational programs together to showcase the limitless opportunities available to thousands of high school students, the ISU community, and residents of Southeast Idaho. This large, interactive event brings together ISU programs and majors with business and industry partners to emphasis career pathways available to ISU graduates.

**Alumni Outreach Events** – ISU Alumni Association's mission is to "promote the welfare and to advance the objectives of Idaho State University through the sustained involvement of its alumni by providing philanthropic, intellectual, and social opportunities. Examples of 2013-14 Outreach Events include:

- Legislative Reception – January 2014. There were 196 in attendance (143 attended in 2013), 43 were legislators (34 in 2013), and three Constitutional Officers (none in 2013).
- Boise Alumni Mixer – new event is January 2014. More than 73 guests, many of whom were first-time alumni guests and second generation alumni.
- Alumni Ski Tours – new events in 2014. More than 500 alumni visitors at three venues (Boise – Bogus Basin, Idaho Falls - Pomerelle, Pocatello – Pebble Creek).
- Pocatello Alumni Basketball game – new event in 2014. Partnership with ISU Athletics (Men's basketball game). More than 290 attended.
- Boise Alumni Hockey Game – new event in 2013. More than 40 alumni attended Steelheads hockey game in Boise.
- Alumni Basketball game – ISU vs. UI - in Boise - had 8 tables (of 8) sold for game to alumni plus 15-20 additional tickets purchased by alumni.
- Sports Hall of Fame- largest attendance (ever) with more than 200 guests for ceremony and luncheon
- Homecoming- largest attendance (ever) with 278 guests attending President's Alumni Recognition Dinner
- Summer outreach concert- Boise- Eaton & Sanders in Concert- 218 guests attended. Increase of 13 over previous year

## Appendix W (continued)

- Alumni Golf Scramble- Jerome, Idaho- more than 80 golfers participated from Magic Valley area. Similar number to 2012.
- Golden & Silver Bengals- reception and ceremony resulted in 23 alumni returning to campus from 25 and 50 year graduates. Previous year attendance 16.
- Annual Professional Achievement & Outstanding Student Awards programs- 23 award recipients annually receiving recognition for engagement and future outreach

### Online outreach:

- Facebook- now have 2,250 likes; 526 average engaged users monthly; monthly total reach 2,709. Began FB contests for outreach and engagement with more being planned.
- Alumni website- completely re-done in 2013. Increased page views by 14.5%, unique page views by 11.67%, increased average time on page by 14.32%, increased entrances (to other locations within website) 21.55%. Decreased bounce rate by 3.44%.
- Alumni membership has increased by 69% with online purchase resulting in increased income YTD of \$5,370

### Other areas of outreach:

- Direct mail campaign to 28,600 alumni of which 6,500 were pre-qualified for JSU Credit Union Alumni Affinity MasterCard. Resulted in 208 new alumni accounts opened, 172 used with balance of \$963,326 and royalty accrued income of \$124,812. Former affinity credit card relationship had expired 2 + years previously.
- Expanded outreach with Liberty Mutual (Affinity Insurance partner) with 2 tailgate events in 2013 (none previously) October and November 2013. Did 3 additional FB posts and one email blast (24,000) for Quote for Scholarship campaign (to drive viewers to alumni website)
- Expanded role with Ad missions and Recruitment providing alumni incentive gifts for ISU Information Nights at all locations, ISU pins for alumni parents of future students in addition to expanded alumni board member participation at these events.
- Board and staff participation in Commiversity events- Welcome Back Orange & Black and Celebrate Idaho State-2,500 to 3,000 participants
- Hosted Holiday Open House @ Maguson Alumni House annually for area partners and alumni guests- averaging 50-60 guests
- Hosted Pocatello Chamber After Hours @ Homecoming annually for community and Alumni - attendance exceeds 200 guests

## Examples of continuing education and professional development

Continuing education (CE) and continuing professional development (CPD) provision and hosting is an integral example of leadership provided in the Health Sciences to Idaho and beyond. Continuing education and continuing professional development are lifetime commitments to health professionals and this is a value ISU instills strongly in its graduates. It benefits not only the provider of the education, but the audience and the community who enjoy the benefits of health professionals who are up to date in their education, providing medical care at the highest level and working at the top of their license level. Live CE is a networking opportunity and offers the chance to serve alumni of ISU. The University offers Simulation Centers in Pocatello and Meridian that serve the public through simulation learning continuing education activities. Additional examples include Pharmacy continuing professional development that is accredited by Accreditation Council for Pharmacy Education (ACPE) and continuing medical education required by physician assistants is a new DHS offering, with room for expansion and growth. The Treasure Valley Anatomy and Physiology Laboratories will offer contemporary state-of-the-art educational offerings in skill labs. Current initiatives are in place to develop an interprofessional focus for CPD. Examples of ISU hosted events include the Annual Geriatrics Symposium broadcast through distance learning technology to a broad audience.

Idaho State University is committed to excellence in education and offers a variety of professional development opportunities throughout the year. Continuing Education (CE) and Continuing Professional Development (CPD) provision and hosting is an integral example of leadership provided in the Health Sciences to Idaho and beyond. CE and CPD are lifetime commitments to health professionals and this is a value ISU instills strongly in its graduates. It benefits not only the provider of the education, but the audience and the community who enjoy the benefits of health professionals who are knowledgeable regarding best practices health care. The ISU [Division of Continuing Education](#) offers hundreds of non-credit professional development and personal enrichment courses covering every topic from Anatomy and Physiology to HIPAA Compliance or Medical Coding. Below are some examples of ISU continuing education and professional development:

- **The Intermountain Center for Educational Effectiveness** - Hosted in the ISU College of Education, the ICEE provides in-service teachers (those graduated, certified, and/or currently employed as teachers and administrators) in developing research-based methods and content for their own professional growth. The ICEE works closely with school districts, administrators, and even pre-service teachers (as undergraduates) in developing the standards required by the profession. Courses range from science, math and literacy to addressing the needs of students with disabilities in the classroom, and computer technology. Courses are offered at various locations around the state, as well as online.
- **The College of Nursing** is an accredited provider of Nursing Continuing Education by the Northwest Rural Nurse Residency. The Nursing office of professional development provides continuing education to a national audience of nurses. Quantitatively they have provided 49 courses for a total of 2095.5 nursing contact hours in the last year.

## Appendix X (continued)

- **The Department of Counseling** offers continuing education for Mental Health and Counseling Issues for Counselors, Psychologists, Social Workers, Marriage and Family Therapists, and other Mental Health Professionals. Topics in the 2013-14 year ranged from eating disorders, clinical supervision, to ethics and decision making. These courses are affordable and contribute greatly to the professional community in Idaho.
- **Pharmacy Continuing Education** - As one of only two ACPE accredited providers in Idaho, ISU's ultimate aim is to provide a variety of courses that offer high quality, unbiased, and up-to-date educational experiences for pharmacists and other health care professionals. Currently the College offers CE programs in two formats; live presentations, and home correspondence. In 2013 these offerings consisted of 6540 hours, not counting Idaho State Board of Pharmacy approved CE.
- **Rocky Mountain Learning**, is a part of the Idaho State University Institute of Rural Health. RML utilizes 3D virtual worlds, webinars, and videoconferencing to provide quality distance education to a national audience. By combining multiple distance learning delivery methods and adapting them to meet client needs, RML is able to provide superior distance learning.
- **The Idaho Health Sciences Library (IHSL)** is a unit of the Eli M. Oboler Library. It was formed in 1992 in response to the Idaho State Board of Education's (the Board) designation of ISU as the state's lead institution for education in the health professions. The mission of the IHSL is "to advance education, research, and patient care by providing publication-based information to the university community and Idaho health care providers." In addition to the services it provides to the university community, the IHSL provides database searches, document delivery, interlibrary loan, and journal issue table of contents delivery to three local hospitals, as well as to Idaho unaffiliated health care professionals, on a cost recovery basis.
