Educational Technology Services Overview

Idaho State University's Educational Technology Services (ETS) is located on the lower level of the Eli M Oboler Library. ETS offers a variety of academic technology services by way of the following support units:

- Classroom A/V Support
- Instructional Technology Resource Center (eISU/Quality+)
- Video Distance Learning Network

Classroom A/V

Overview

The Classroom A/V Support unit offers classroom technology support including the purchase, installation, and maintenance of audio-visual equipment. Equipment varies from classroom to classroom but may include control systems, projectors, computers, document cameras, and microphones.

Instructional Technology Resource Center (ITRC)

Overview

The Instructional Technology Resource Center (ITRC), which includes eISU and Quality+, is here to help Idaho State University faculty leverage technology to

achieve effective learning-centered instruction. The ITRC staff provides faculty members with a variety of training resources focused on technology and instructional design topics. Other topics include accessibility, presentations, assessment, proctoring, plagiarism, evaluations, and web conferencing.

Video Distance Learning Network

Overview

The Video Distance Learning Network (VDLN) support unit assists faculty and students in 37 Interactive Video Conference Classrooms (IVCC) spread between the Pocatello, Idaho Falls, Meridian, and Twin Falls campuses. Equipped with Cisco's most advanced UHD room systems, classrooms are standardized so faculty can have the same experience when teaching from different rooms across all campuses. Utilizing artificial intelligence, the rooms have automated camera control that enhances the interactive nature of the classes allowing faculty and students to see each other more clearly. The rooms are integrated with Zoom to extend the reach of interconnectivity to homes, offices, and mobile devices, and have incorporated Zoom functions into room controls.

Services Offered (2021-2022)

A/V Support

Classroom Projects (2021-2022)

The Classroom A/V Support team is responsible for more than 60 video conferencing classrooms across 4 campuses (Pocatello, Idaho Falls, Meridian, and Twin Falls) in Idaho. This past academic year the team completed a new video classroom install in Meridian 817 and remodels in both LC-15/17 and BA-313 located in Pocatello.

ITRC Facility Usage

Service Requests

The ITRC tracked faculty/student service requests by the duration of service, type of service, and the issues addressed during the service using sign-in sheets, TigerTracks, and Tawk.to chat. Figures 1-3 demonstrate the results of 7,830 service requests in 2021-2022.

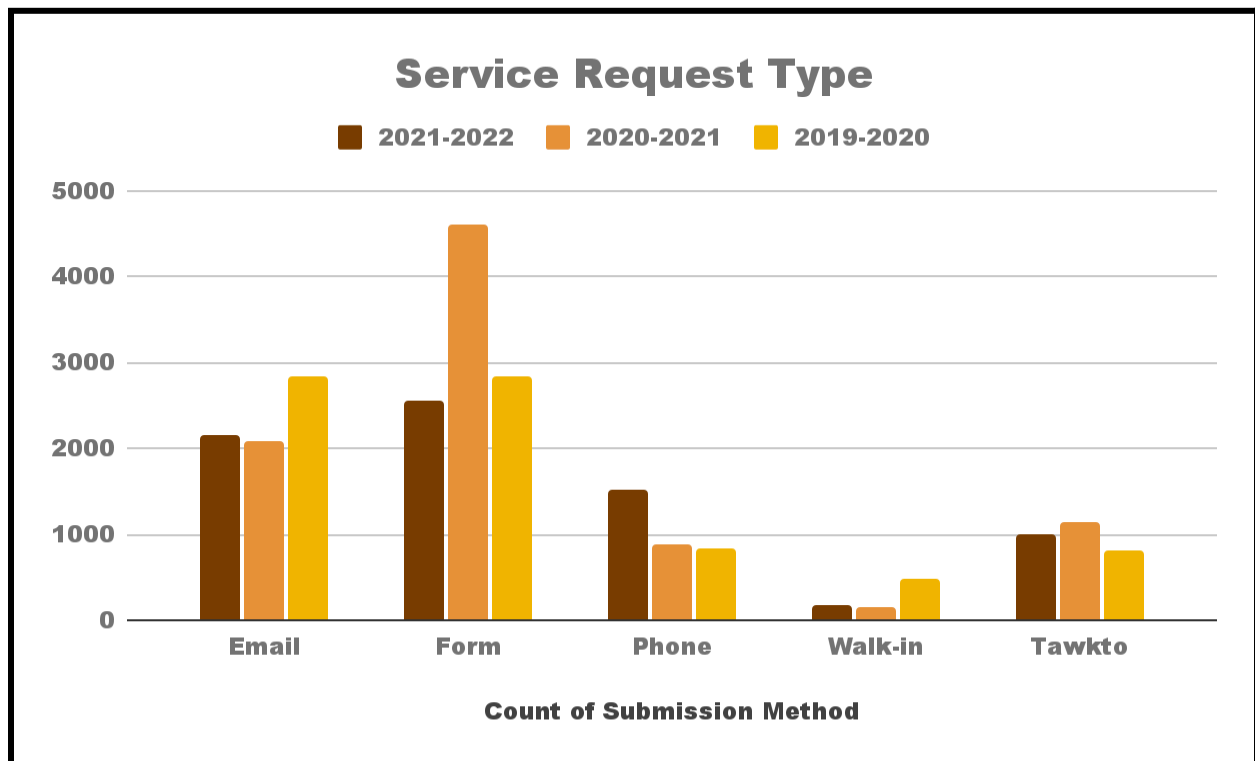

Figure 1 – Total ITRC Service Request Types (2019-2022)

Contact by Service

The ITRC provides service in many areas from Moodle ISU to other online teaching technologies. In addition to Moodle ISU requests, it is our goal to support the faculty with course evaluations, equipment checkout, web conferencing, professional development, proctoring, plagiarism, video classroom recordings, and video project requests benefiting faculty with teaching and

researching endeavors.

We also provide online forms for the creation of metacourses and course evaluations as well as equipment check-out requests.

ITRC Services Offered

Moodle ISU Student Evaluations

The ITRC provides ISU faculty and staff access to a student course evaluation system disseminated through the Moodle ISU Feedback module. The following tables demonstrate the number of evaluations, courses, and students' responses by college or division.

Table 1: Total Fall 2021 Moodle ISU course evaluations

Department	Evaluations	Courses	Responses

Online Proctoring

The ITRC provides ISU faculty and students online proctoring services (Examity, ProctorFree, and ISU Testing Center) within Moodle ISU. The following tables demonstrate the number of students, courses, and exams making use of online proctoring services.

Table 3: Total Moodle ISU Online Proctoring Services (AY22)

Plagiarism and Academic Integrity

The ITRC provides ISU faculty members support with the Turnitin LTI connector to review and grade student paper assignments. The following tables demonstrate the Turnitin connections, by semester, added to Moodle ISU courses.

Table 5: Total number of courses using Turnitin LTI by AY and Semester

Equipment Checkout

The ITRC provides equipment to ISU faculty and staff for single-use instructional events. The following graph depicts the amount of equipment used during the 2021-2022 academic year.

Figure 4 – Equipment Usage (2021-2022)

Video Captioning Services and Accessibility Projects

The ITRC started working with ISU Disability Services in the Fall of 2015 to offer video captioning services. Lori Austill and Ean Harker were both involved in providing services this academic year (AY22) in the ITRC including hiring student captioners and employing captioning vendors. The following figure provides a five-year overview of the captioning projects.

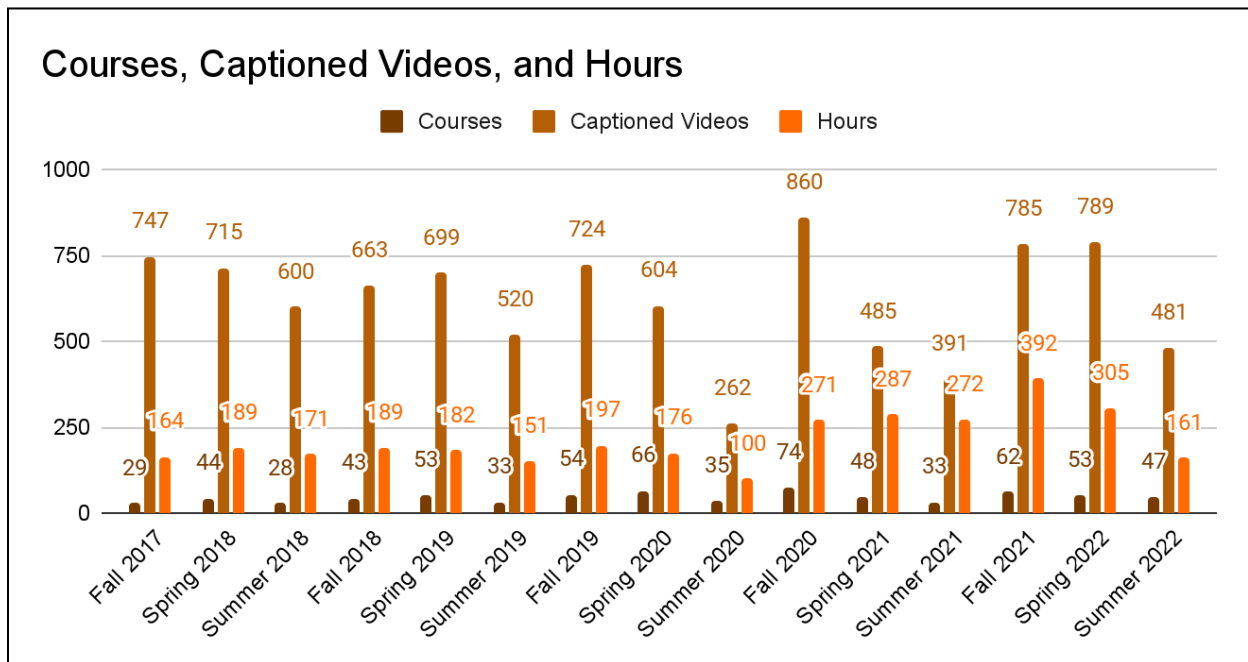

Figure 5 – Captioning projects by courses, captioned videos, and hours (2017-2022)

Web Conferencing

In the Spring of 2016, we requested faculty to participate in a focus group to evaluate web conferencing solutions. Blackboard Collaborate (Original and Ultra) and Zoom were recommended, purchased, and integrated into Moodle ISU. After two years of using both products, Zoom was determined to be the preferred web conferencing solution by ISU stakeholders. Blackboard Collaborate was removed in the Fall of 2019.

LMS Projects

Max MacCluer and Michael Spall addressed the following Moodle upgrades, projects, and configurations:

- Spall and MacCluer updated Production Moodle ISU from 3.9 to 3.11 - August 2021.
- MacCluer developed 4 Moodle plugins, 3 of which have been made open-source for public use. These are all currently being used in Moodle ISU.
 - Bengal Theme (private)
 - Loom Button ([public link](#))
 - Loom Filter ([public link](#))
 - New Window Icon Filter ([public link](#))
- Spall ported Moodle ISU code, plugins, and customizations to Moodle 4.0 in Spring 2022.
- Spall and MacCluer updated Production Moodle ISU from 3.11 to 4.0 - August 2022.

Moodle Community Participation

Moodle ISU is a tailored version of the open-source learning management system Moodle. It supports web-based activities for traditional, blended, and online learning environments. In addition, Moodle ISU offers a wide array of features to support innovative pedagogy for student-centered and active learning teaching methods, which encourages the use of social constructivism.

The ITRC continues to work with its faculty to expand the usability of Moodle ISU. The ITRC used the 2021-2022 academic year to improve the usability of the Moodle ISU environment through accessibility, theme, performance, and application enhancements.

ISU has been recognized as an active participant in the Moodle community. Michael Spall and Max MacCluer are active in a variety of working groups. Spall is a member of the Moodle Users Association.

Moodle ISU Usage

Moodle ISU On/Off-Campus Usage

Page views are a good indicator of overall usage. From July 1, 2021, to June 30, 2022, Moodle ISU saw nearly 300 million page views, 73% of which were from off-campus users.

Table 7: 2021-2022 Moodle ISU On/Off-Campus usage by Total Page Views

Location	Page Views
Off-Campus	215,548,145 (73%)
On-Campus	78,208,231 (27%)
Total	293,756,376

Moodle ISU Activity Usage

From July 1, 2021, to June 30, 2022, Moodle ISU had over half a million forum interactions, each representing a user creating a forum post or replying to an existing one. A similar figure was seen for both quizzes taken and assignments submitted.

Table 8: Moodle ISU activity usage by the sum of activity types

Activity	Number
Forum posts created/replied to	556,140
Quizzes taken	541,209
Assignments submitted	494,909

Enrollments by Active Moodle ISU Courses

Table 9: Moodle ISU Enrollments (average active class size by the number of active students) within Courses with ISU Course Index Numbers. Active sections were identified by instructor activity (added or modified course activities and resources, changes to grade items, and feedback-course evaluations).

Student/Faculty Enrollments in Moodle ISU

Sections - ISU sections that have student enrollments. This excludes sections with no students enrolled or that were canceled. This excludes courses with faculty-only enrollments.

Student enrollments - Total student enrollments including withdrawals (W's).

Unique students - Total individuals enrolled in a section as a student.

Faculty enrollments - Faculty enrollments for sections with at least one student enrollment.

Unique faculty - Total individuals enrolled as faculty in a section that has at least one student enrollment.

ISU Comparison of Online and Face-to-Face Courses — Fall 2021 and Spring 2022 (end of term)

Data do not include Early College students or students that are auditing. Data do not include "hybrid" courses, for example, "classroom and online." The data included are defined by:

- **Completed** - the student did not withdraw from the course or the student did not receive an "Incomplete" or "In Progress" for the course.
- **Passed** - a course grade for completing the course that was not an "F", "U", or "X".
- **Course level** - "Graduate" level includes "Professional", which are Pharmacy courses.
- **Online** - courses with a schedule type of "AO, SO, or OL" for web courses.
- **Face-to-Face** - courses with a schedule type of "CL" for the classroom.

Online Enrollments by Academic Year (2018 to 2022)

The following information provides a breakdown of online enrollments in Moodle ISU. Each academic year (AY) demonstrates the totals for both graduate and undergraduate student enrollments by raw numbers and overall percentages.

Table 16: Total undergraduate and graduate student enrollments in online courses offered at ISU by AY

2021	2,754	1,932	70.2%	74.34%

Notes: Only degree-seeking undergraduate students are used in this table. A student is considered "retained" if the student enrolled in an academic year returns or graduates in any semester in the next academic year.

Online Courses by College — Fall 2021 and Spring 2022

eISU courses have been assigned AO and OL schedule-type designations. The table listed below includes classes with AO, SO, and OL designations:

AO = Asynchronous Online (No place or time requirement)

SO = Synchronous Online (Time requirement but no place requirement)

OL = Mostly Online (Up to 5 face-to-face meetings can be required).

eISU Students by Location (2020-2022)

eISU courses had student enrollments from a variety of countries, states outside of Idaho, and numerous cities within Idaho. The following table offers the top online enrollments by countries, states, and cities in Idaho from the last three academic years.

ISU Quality+ Program

The Quality+ program officially began in the Fall of 2017. Beginning in 2012 through the Fall of 2017, ISU participated in several efforts to roll out Quality Matters™ (QM). Those efforts were based on the recommendations from the Faculty Committee which recommended we adopt QM as the standard for online courses at ISU (see the [2012 ISU QM Review Recommendations](#)).

Overview of the Program
