Medicaid Telehealth Reimbursement

Summary	<p>Idaho Medicaid reimburses for live video telehealth for certain providers and for specific services. There is no reference to store-and-forward or remote patient monitoring.</p>
Definitions	<p>Telehealth is defined as health care services delivered by a provider to a participant through the use of electronic communications, information technology, synchronous interaction between a provider at a distant site and a patient at an originating site.</p> <p>Source: <i>Medicaid Telehealth Policy</i>, p. 6. Rev. 7/1/2018. (Accessed Sept. 2019).</p> <p>School-Based Services & Children’s Habilitation Intervention Services “Telehealth is an electronic real-time synchronized audio-visual contact between a qualified professional and participant for the purpose of treatment. The professional and participant interact as if they were having a face-to-face service.”</p> <p>Source: <i>ID Administrative Code 16.03.09.850(13) & 16.03.09.571(15)</i>. (Accessed Sept. 2019).</p>
Live Video	<p>Policy</p> <p>Idaho Medicaid reimburses for specific services via live video telehealth, consistent with ID Administrative Code.</p> <p>Video must be provided in real-time with full motion video and audio that delivers high-quality video images that do not produce lags, choppy, blurry, or grainy images, or irregular pauses in communication. Transmission of voices must be clear and audible. Reimbursement is also not available for services that cannot be provided as effectively as in person services due to technical or equipment limitations.</p> <p>Source: <i>Medicaid Telehealth Policy</i>. Rev. 7/1/2018, p. 1-2 & <i>Idaho Medicaid Provider Handbook. General Provider and Participant Information</i>. July 1, 2019, p. 54. (Accessed Sept. 2019).</p> <p>Rendering providers must provide timely coordination of services, within three business days, with the participant’s primary care provider who should be provided in written or electronic format a summary of the visit, prescriptions and DME ordered.</p> <p>Source: <i>Idaho Medicaid Provider Handbook. General Provider and Participant Information</i>. July 1, 2019, p. 53. (Accessed Sept. 2019).</p> <p>Telehealth services that are properly identified in accordance with billing requirements are covered under Medicaid for physicians, within limitations defined by the Department in the Idaho Medicaid Provider Handbook. Subject to primary care provider communication requirements.</p> <p>Telehealth services are covered for advanced practice registered nurses enrolled as Healthy Connections providers, within the limitations defined in the Idaho Medicaid Provider Handbook.</p> <p>Source: <i>ID Administrative Code 16.03.09 Sec. 210, 502 & 565</i>. (Accessed Sept. 2019).</p>

Services must be equal in quality to services provided in-person.

Physician/Non-Physician Practitioner Services:

- Primary Care Services
- Specialty Services
- Health and Behavioral Assessment/Intervention
- Psychiatric Crisis Consultation (listed in General Provider Handbook only)
- Psychotherapy with evaluation and management
- Psychiatric diagnostic interview
- Pharmacological management
- Tobacco Use Cessation

Physician or Psychiatric Nurse Practitioner only services:

- Psychiatric crisis consultation

Behavioral health services can be delivered via telehealth under a managed care contract.

Community Based Rehabilitation Services (CBRS)

CBRS supervision can be delivered via telehealth in educational environments, but not separately reimbursable.

CBRS supervision can be conducted using telehealth when it is equally effective as direct on-site supervision.

Developmental Disabilities (Therapeutic Consultation and Crisis Intervention)

Therapeutic consultation and crisis intervention can be delivered via telehealth technology through the Bureau of Developmental Disability Services.

Early Intervention Services (EIS) for Infants and Toddlers

Services can be delivered via telehealth as long as the provider is employed by or contracted with the Idaho Infant Toddler Program and meet the IDEA Part C requirements. Eligible services include:

- Family training and counseling
- Home care training
- Medical team conference with interdisciplinary team

Primary Care

Primary care services can be delivered via telehealth. Providers must be licensed by the Idaho Board of Medicine.

Therapy Services

Licensed occupational and physical therapists and speech language pathologists can provide services through telehealth. Evaluations must be performed as an in-person visit to the participant and is not covered through telehealth.

The therapist must certify that the services can be safely and effectively done with telehealth. The physician order must specifically allow the services to be provided via telehealth.

Eligible Services / Specialties

Interpretation Services and Technical Specifications

Idaho Medicaid reimburses for interpretive services in conjunction with a reimbursable Medicaid service.

Eligible Providers

Eligible Providers:

- Physician or non-physician practitioner
- Psychiatric Nurse Practitioner
- Physical Therapist
- Occupational Therapist
- Speech language pathologists

Only one eligible provider may be reimbursed for the same service per participant per date of service.

Healthy Connections Eligible Providers (if enrolled as primary care providers):

- Advanced practice registered nurse
- Physician assistants
- Certified nurse midwives

Therapeutic Consultation and Crisis Intervention Providers

- Developmental Disabilities Agency;
- Independent Medicaid provider under agreement with the Department; or
- Infant Toddler program

Therapeutic consultation and crisis intervention providers must also have a Doctoral or Master's degree in psychology, education, and applied behavioral analysis or in a related discipline. Additional criteria apply.

Miscellaneous

Technical Requirements:

- Video must be provided in real time with full motion video and audio.
- Transmission of voice must be clear and audible
- Telehealth services that cannot be provided as effectively as in-person services are not covered.
- Notation must be made in the patient’s record to designate services delivered via telehealth.

Provider Requirements

- Providers at the distant site must disclose to the patient the performing provider’s identity, location, telephone number and Idaho license number.
- Telehealth providers must have a systematic quality assurance and improvement program for telehealth that is documented, implemented and monitored
- Providers must develop and document evaluation processes and participant outcomes.

See Telehealth Policy for additional documentation requirements.

Services that have been interrupted or terminated early due to equipment problems will not be reimbursed.

Only one provider may be reimbursed for the same service per patient and date of service.
